R.O.

PREFACE.

In presenting this, our third volume of the city directory, to the citizens of Madison, we desire to say that the question concerning the population is often asked. According to our computation the city has 16,000 inhabitants, which, compared with the official figures of the national census enumeration for 1890, 13,515, shows a gradual and healthy growth.

Thanking the public for the generous patronage we have received, we hope this volume will merit your approval.

STREETS.

STREET NUMBERS.

Every space of twenty-two lineal feet frontage of lots or parts of lots on any street in the city of Madison should be numbered with a separate number and known thereby as follows: The numbers on all streets running northeast and southwest commence on Monona or Wisconsin avenues; and all streets running northwest and southeast commence at Washington avenue, in case said streets intersect said avenues, and such numbers run continuously from those avenues, one hundred numbers being assigned to the length of the block, so that the first number on the first block should be number one, the second block one hundred, and so on; the odd number should be on the southerly and easterly sides of the street, and the even numbers on the opposite side. All streets intersecting Washington avenue are known as North ——— Street in that part which lies northerly of said avenue; and South ——— Street in that part which lies southerly of said avenue; and all streets which intersect Wisconsin and Monona avenues are known as West ——— Street, in that part lying westerly of said avenues, and East ——— Street, in that part lying easterly of said avenues. Blocks upon streets running in directions which do not intersect said avenues should bear like numbers with the blocks upon streets which do intersect at like distances from those avenues, so far as practicable. It is the duty of each owner and occupant of any building or tenement fronting upon any street in the city of Madison to securely attach or apply to the front of such building or tenement, in a conspicuous position, and not higher than the first or ground story of said building, so that

the same can be plainly seen from the street, the proper number of such building or tenement, as inscribed upon the map prepared by the city engineer, and on file in the office of the city clerk, in figures not less than two inches and one-half in height.

REASONS WHY

PETER MÖLLERS

GENUINE

NORWEGIAN : COD : LIVER : OIL

SHOULD BE PREFERRED TO ALL OTHERS.

BECAUSE it is perfectly genuine as found in the hepatic cells of the living fish, deprived of none of its natural ingredients through refining, or weakened by adding equal parts of water, glycerine or chemicals which should never be taken except upon a physician's prescription and under his supervision and control.

Because its taste and smell are pleasant rather than the reverse.

Because its use always is followed by satisfactory results.

Because it is digested much easier than other oils.

Because it is more thoroughly and perfectly digested.

Because this excellent costs the consumer no more than the poor oils which so freely are offered to the trade.

Because it is easy to get — all drug stores keeping it.

Because, without question, it is the purest and best Cod Liver Oil in the whole world.

PROF. R. B. ANDERSON, late U. S. minister to Demark, is our representative with the medical fraternity.

C. MADSEN, President. Dr. J. N. BOYD, Physician. F. H. GILLETT, Sec'y.
