**N**EW RULES for handling the sale of football seats are promised by the Director of Sales. Next month we shall print these rules in this publication. Revision of rules should have two objects in view: to make the games distinctly college affairs rather than general athletic spectacles, and to encourage amateurism and discourage professionalism.

To affix the word "college" to an athletic contest does not of itself make it a college affair, nor does merely having the participants college men. It is necessary that faculty, students, and former students take whole-hearted interest to secure largest benefits to the colleges. This means that the maximum number of students, faculty members, and former students should be encouraged to attend. Will these new rules offer such encouragement?

Technically, professionalism consists in engaging in athletic contests for pay, while amateurism consists in participating in athletic contests without pay. This difference is more apparent than real. While on a technical basis fault cannot be found with it, the truth is that the broad distinction between professional contests and amateur contests is that professional contests are run primarily for gate receipts and amateur contests are run primarily for purposes other than gate receipts. With the professional contest, gate receipts are the major consideration; with amateur contests they should be the minor consideration. Will the new rules tend to strengthen the amateur spirit in college athletic undertakings? Read the rules next month and form your own judgment.

Your alumni secretary attended the National Convention of Alumni Magazines Associated (of which body he is secretary-treasurer) held at Cleveland, April 12-14. This gathering was the tenth annual conference of the Association of Alumni and Alumnae Secretaries. Western Reserve and Case were hosts. Hotel headquarters were at the Winton. Business sessions met at the Case Club.

**The Tenth Annual Conference** For editors and business managers the following subjects were presented: "The Allotment of Space to Various Phases of College and Alumni News," by Carl Stephens, Illinois, "Alumni Magazine Clinic," by R. W. Sailor, Cornell, "Budget and Cost Accounting for Alumni Magazines," by J. O. Baxendale, Vermont, "Alumni Magazine Styles," by A. G. Pierrot, Chicago, "Illustrations," by J. L. Morrill, Ohio.

The program of secretaries included four principal topics: "Endowment Campaigns," by John Price Jones, "Annual Alumni Funds," by H. C. Edgerton, Dartmouth, "The Financial Relationship between the University and the Alumni Office," by Lida Little, Vassar, and "Local Club Programs," by Wilfred Shaw, Michigan.

An all-college dinner arranged by prominent citizens of Cleveland and presided over by Hon. Newton D. Baker brought hundreds of alumni to Case gymnasium, as no regular dining hall was large enough to accommodate the crowd. J. C. Potter, '04, secretary of the U. W. Club of Cleveland, represented Wisconsin on the general committee in charge of the dinner.

The complete report of this tenth conference will be on file at Alumni Headquarters.

The Wisconsin alumni publication is placed in class A in a rating recently made of all publications maintaining membership in the Alumni Magazines Associated. Rules of the best magazine practice were applied **Class A** and publications complying with all such rules were placed in class A. The tests included criterions of general physical appearance, publication schedules, price, circulation, make-up, and miscellaneous points. Magazines violating make-up rules, not adhering to publication schedule, lacking general typographical requirements, and abusing use of left-hand page were placed in class B, while publications not up to minimum requirements, going to non-paying alumni, having inadequate page size, and following newspaper make-up were placed in class C.

Classification of our monthly in the first group is of course gratifying to all our members, but it is of very special interest to our advertisers.

Do you remember some incident, event, or occurrence of special interest in the life and history of this University? In the April number you recall that Spencer Beebe, ex '93, sent a picture of a glee club quartet of the early nineties, accompanied by some humorous comment. Next month Dr. Louise Kellogg, '97, favors us with some material she found in files of newspapers printed three-quarters of a century ago. Those who have material that would prove of interest under this "Do You Remember" heading are invited to mail same to Alumni Headquarters for publication. Senders should be sure that name and address accompany all such communications. What have you to offer to this "Do You Remember" section?

### WESTWARD HO! WITH THE MEMORIAL UNION

By E. H. GARDNER

**T**HE first stop on the swing around the circle was made March 12, with the U. W. Club at St. Louis where President Paul Ebbs, ex '19, had gathered his cohorts together with the able assistance of Edward Moffatt, '18, and many others. The message of Wisconsin was given to about 40 people who got acquainted rapidly under the strong arm tactics of E. S. Elder, ex '18.

The film, "Wisconsin Memories," was shown, and the story of Wisconsin's present situation and present need was told and was given a rousing reception. George Evans, '94, vice president of the Laclede Gas-Light Company, brother of Judge Evans, '97, of Baraboo and Chicago, chairman of the evening, accepted the chairmanship of the Memorial Union Campaign.

As usual the girls stepped ahead of the boys in their enthusiastic support of Wisconsin, and speeches from May Walker Corner, ex '13, and Elizabeth Rood Lambert, '15, gave the meeting an atmosphere that nothing could surpass.

Not only the grown-ups did their share on the subscription but several youngsters

who learned "On Wisconsin" before they could say any other words, have life memberships in the Union.

A feature of one of the incidental luncheons was the presence and testimony, backed by his subscription, of Archer Wall Douglas, vice president of Simmons Hardware Company, whose eloquent testimony to Wisconsin, his "university by adoption," is mentioned on page 9 of the book of the Memorial Union.

Leaving St. Louis well on its way to achieve its quota of \$10,000, the next stop was made at Kansas City, where Lloyd Pullen, '03, manager of the Farm and Home Savings and Loan Company, has for years held together the faithful in that city, aided nobly of late by D. W. McGinnis, '18, General Exchange Corporation, secretary of the U. W. Club.

The impressive growth of Kansas City is attracting to it a number of Badgers, and fresh accessions to the list of the local club are constantly being made.

Representatives of Illinois, Michigan, and Ohio make regular visits to the city speaking before their alumni groups. F. H. Clausen, '97, visited the K. C. U. W. Club

when president of the Alumni Association, but the present occasion was the first in the memory of man that a representative of Wisconsin's faculty had appeared. This contrast between Wisconsin's attitude and that of some other institutions was further emphasized by the presence at the dinner of March 16, of an invited guest, the "live wire" of the Illinois Club who told of their alumni activities and of the success of their Stadium campaign.

Notwithstanding this situation a large proportion of the local alumni attended the dinner, which was a lusty affair despite the fact that the moving picture films failed to arrive on time from St. Louis. In order to get away with a whole skin it was necessary to promise a return engagement the latter part of April, an extra journey which the strategic importance of Kansas City as well as the faithful efforts of Wisconsin's stand-bys there well merits.

The journey across the plains and deserts to Los Angeles was cheered by the company of Owen Orr, '07, purchasing agent for the Certain-teed Products corporation of St. Louis, who promised to act as lieutenant of the campaign in all cities where he might be visiting while the campaign is in progress.

The Los Angeles dinner was held on March 23 in the City Club. In this town of phenomenal growth Wisconsin probably numbers her sixth largest group of alumni at present, the towns exceeding Los Angeles being Madison, Milwaukee, Chicago, New York, and the Twin Cities. Two hundred names are on the active list and a quantity of unsuspected residents were picked out of the air during the few days' visit there.

President L. B. George, '12, toastmaster at the dinner, introduced, beside the Memorial Union representative John Richards, '96, C. C. Montgomery, '97, Dean Porter, '81, of the U. of S. C. law faculty and others. The campaign was given a rousing start and all alumni who heard the message resolved afresh to contribute their influence to the development of a great alumni association, which our great University requires.

Credit for the splendid reception given to the campaign in Los Angeles was largely due to the efforts of "Ernie" Adams, who with W. F. Adams, '00, C. C. Montgomery, Gail Vander Braak, '19, local representative for the Case automobile, Sara McKay, '06, and a score of others, have accepted certificates of enlistment in the Iron Brigade of the Memorial Union Campaign and are out to produce an average of \$100 for each of Los Angeles' 200 Badgers.

A day in San Diego yielded a contact with Prof. E. L. Hardy, '93, head of the State Normal School, G. W. Price ex '08, and Leslie Everts, '01, and assurance that the southernmost corner of the United States would respond loyally to Wisconsin's call sent to her most distant members in the Union.

As I write preparations are under way for a big meeting in Berkeley, April 3, and the "Badgers" are being shepherded together by Frank V. Cornish, '96 and Dr. B. M. Rastall, Ph.D. '06, manager of Californians Inc.

Information drifts down the line from Portland, Tacoma, Seattle, and Spokane that the clans are gathering and that the temperature on the Pacific Coast is steadily rising. By the time the next issue goes to press it may contain messages from sixteen other cities west of the Mississippi.

## SPRING ATHLETICS

By PAUL HUNTER

**S**PRING athletics so far has been handicapped by the inclement weather and the prospects are none too bright therefore for a successful season. However, the athletes are not discouraged and have been working out daily in the Annex while longing to get out of doors where the pure air and sunshine add vigor to their efforts.

The **Baseball** squad, an unknown quantity, after working out in the Annex for several weeks, left April 5 for a ten-day southern training trip which it is hoped will develop a winning team. Coach Lowman

COACH LOWMAN

**!EXTRA!**—The Athletic Council, with full approval of the Medical Department, now recommends that the University be represented at the Poughkeepsie regatta in 1924.

was handicapped at the start by having only two of last year's Varsity eligible for Conference competition, Rollie Williams, '23, heavy hitting outfielder, who was elected captain, and Combacker, '23, second baseman. There was not an experienced pitcher in the squad, but the coach has been training several men in that important department and hopes to develop one or two fairly good pitchers before the season is well started.

So anxious were the track men to get in condition for the Kansas Relays, April 20, that a dozen men remained in Madison during the spring vacation, shoveled the snow from the track at Camp Randall and began their outdoor training in spite of the weather.

Invitations have been sent to 405 high school track teams to enter the twenty-ninth annual Interscholastic Track and Field meet at Camp Randall, May 26, and it is expected all records for entries will be broken on that occasion and it is believed the interscholastic records in several events will be shattered.

Wisconsin closes her indoor athletic season with two outstanding features: William Hammann, a Milwaukee junior, won second place in the All Around event in the Illinois Relay Carnival, a close second to Norton, of Kansas. Hammann took first in the 75-yard dash and broad jump, second in the pole vault, shot put and 880 yard run, third in the 75-yard high hurdles and fourth in the high jump for a total of 4,855½ points. It was the first time Wisconsin had placed in the All Around event since 1917 when Mead Burke, '17, now cross country and assistant track coach, took second with 4,863 points. Hugo Czerwonky, sophomore from Milwaukee, entered as Wisconsin's only representative in the Eastern Intercollegiate Swimming meet the last of March, at Princeton, broke the National Intercollegiate 200-yard breast stroke record in a 75 foot tank twice on consecutive days. In the preliminaries he clipped seven seconds from the former record when he swam the 200 yards in 2:47½ and in the final race the following evening broke his own record by covering the distance in 2:47 flat. On his return from Princeton, Czerwonky was elected captain of the 1924 swimming team and was further honored by being elected to Pi Tau Sigma, the honorary mechanical scholastic fraternity.

Captain Johnson Bennett, '24, of this year's swimming team, holder of the Western intercollegiate 100-yard dash record of 56 seconds, was chosen as captain of the All Western Conference team by Robinson of Northwestern after conference with the other swimming coaches of the Conference.

The selection of "Jack" Ryan as football coach last month met wide approval, and since coming to Wisconsin the new coach has made a decided hit with the members of his squad and all others with whom he has

come into contact. Coach Ryan has instilled a new spirit into the squad in the two weeks' preliminary work in the Annex and

CAPTAIN JOHNSON BENNETT, '24

next week will take over half a hundred members of last year's Varsity and freshman squads to Camp Randall for a month of intensive spring training.

## U. W. CLUBS

"Sit together, listen together, sing together, eat together, and you'll work together."

## To Strengthen A Local U. W. Club

"Make the first requirement of membership in a local U. W. Club membership in the General Alumni Association.

Make the local treasurer a branch recruiting officer for the General Association. Post delinquents and exclude them from functions. Cause an odium to attach to nonmembership in the General Association. Make membership an honor and an honorable thing to do.

But whatever is done, emphasize the fact that the Wisconsin Alumni Association comes first, the local organization second. Why not put such provision into the constitution?"—E. C. M. '01.

## APPLETON

HESTER JACOBS BAKER, '11

ON the evening of April 3, the Haresfoot Club gave its opening performance of "Kikmi" before a very enthusiastic Appleton audience—not all Wisconsin alumni but none the less entertained by [the Wisconsin production. The boys made a great hit with us all and we hope they liked us well enough to make their coming here an annual affair. With their song they did more to make M. Coue famous than that gentleman himself has done and College Avenue is still humming, "Every day in every way—."

After the play a dance was given for the Club, alumni, and their friends at the Conway Hotel—dancing inspired by the Haresfoot orchestra. Altogether it was a very successful Wisconsin evening and we are sure that under the able captaincy of Howard Buck, '17, our organization is following the lines of the above mentioned song.—1-11-'23.

## CHICAGO ALUMNAE

MARIE BODDEN, '21

The few dances indulged in by those present at the Founders' Day luncheon were just enough to whet the enthusiasm of Wisconsinites of Chicago for a real luncheon and dance suggested and carried out by the alumni and held last Saturday afternoon, April 14, in the Red Room of the Hotel La Salle. Glenn Smith, '09, acted as sponsor for the party and Edw. Austin, '12, chairman of the speaker committee, introduced the guest of honor, Taylor Holmes—now playing in "The Rear Car." Prof. A. B. Hall was present as a special guest. Short talks were given by Jessie Shepherd, '95, and Charles Byron, '08, covering the present and prospective activities of the men's and women's organizations, after which it was rumored that similar and, it is hoped, larger dancing parties will be held in the near future. The next luncheon of the alumnae will be held Saturday, May 12.—4-17-'23.

## CHICAGO ALUMNI

BERTRAM F. ADAMS, '02

A special invitation is hereby extended to all transient alumni of the University who are in Chicago any Friday in the year, to visit us at luncheon at the Palmer House at 12:15 p. m.

The attendance continues strong, an average of about 30 alumni is present each Friday.

March 16 there was a crowd of over one hundred to meet our new football coach, "Jack" Ryan. He gave us a good talk on the prospects for next fall, and he emphasized the fact that he wanted all alumni to talk-up the University to high school and prep school boys so that he may have a large class of football material from which to build up a winning Varsity team. We were honored by having Coach E. O. Stiehm, '09, of the University of Indiana, former Wisconsin star, speak to us. Track Coach T. E. Jones told us how hard and carefully the Athletic Council had worked in order to select the best available man to fill the vacancy left by John Richards, '96, when he resigned as football coach. He asked the alumni to get acquainted with and cooperate in every way possible with Coach "Jack" Ryan. Prof. A. A. Bruce, '90, Northwestern University Law Faculty, on behalf of the University of Wisconsin Club of Chicago welcomed Coach Ryan and assured him that every Wisconsin man would be behind him. If the enthusiastic manner in which our club welcomed Coach Ryan is any indication, he will not lack alumni support.

March 23 we were addressed by Mr. R. E. Pattison Kline on the subject of "The Challenge to the College Mind." Mr. Kline who is a Chautauqua speaker, gave a very excellent talk and the time spent by the members present was well worth while. Geo. I. Haight, '99, spoke a few minutes on the matter of raising a fund for the purchase of a very fine old painting from a former Wisconsin resident, who now has an art studio in New York. In order to help promote art at the University he is willing

to make a very generous offer. If the Alumni Clubs will raise a certain amount of money, he will give the painting to the University. The painting is by one of the old masters and was formerly owned by Charles T. Yerkes; its value is in the neighborhood of \$40,000.00. The amount he asks the alumni to contribute is considerably less than that amount, yet he will do his part to show his loyalty to his State. Mr. Haight stated that the New York alumni had already started to raise money for the purchase of the painting.

April 6 our speaker, Mr. Charles L. Estey, entertained us with a very instructive and enjoyable talk on advertising. Mr. Estey is a member of one of the best advertising firms in Chicago. We had the pleasure of a visit by Prof. E. R. Maurer, '90, and his talk on what was going on at the University was enthusiastically applauded by a sky rocket for "Eddie." Walter A. Frautschi, '24, advance agent for the Haresfoot play, "Kikmi," urged the members to get their tickets before it was too late. Both Professor Maurer and Mr. Frautschi assured us that the play was the best ever put on by the Haresfoot Club. Our president, Chas. L. Byron, '08, announced that one of our members, Victor Rubin, '14, has just had his new novel, *Tar and Feathers* accepted by his publishers, Dorrance & Co. Philadelphia. The book will be out in a few weeks.

April 9 the Aryan Grotto was filled to capacity by Wisconsin alumni and their friends. The Haresfoot Play as predicted was very excellent. Any time the University students have a play, concert, or other form of entertainment to present, the alumni of Chicago can be counted on to support it provided sufficient advance notice is given. We trust that Chicago will never be left off the itinerary of the Haresfoot show.

April 14 The Chicago Alumnae and Alumni Clubs of the University gave a joint luncheon and matinee dance in the Red Room, La Salle Hotel. The guest of honor was Taylor Holmes, now playing in "The Rear Car" at the Cort Theatre.—4-14-'23.

### CLEVELAND

W. C. WESTPHAL '12

Our U. W. Club is becoming a distinctively live organization and we are getting out more new members for every meeting. Watch us grow.

Our recent Wisconsin get-together proved to be a great success. The collection of views and other interesting exhibits sent direct from Alumni Headquarters engrossed the attention of us all, recalling to us the old familiar scenes or awakening us to the changes that we know, but hardly realize can be taking place.—2-30-'23.

### COLUMBUS

F. W. Ives, '09, reports that details of the dinner held on April 20, at which time the campus movie, "Wisconsin Memories" was presented, will appear in the June number of the MAGAZINE.

### DETROIT ALUMNAE

RUTH COLLINS, '13

The U. W. Women's Club of Detroit held its regular luncheon meeting at the College Club on Saturday, March 31. A loyal and cordial group attended; Harriet Hutson Crocker, '08, presided.

The program of the March meeting of the Detroit branch of the American Association of University Women was in charge of the U. W. Club. Kathleen Calkins, '14, who is in the house furnishing department of J. L. Hudson's Department Store, entertained with a most interesting talk on interior decorating. Eleanor Gaik Green, '20, gave several piano numbers.

The Club welcomes to its circle a very young member, Patricia Casey, daughter of Mr. and Mrs. M. J. Casey (Magdalen Cronin, '18), born March 17.—4-9-'23.

### DETROIT ALUMNI

E. W. SANDERS, ex '20

On March 29 thirty Detroit members of the U. W. Club dined at the Hotel Cadillac. The occasion was the Spring banquet. President E. J. Stephenson, '04, presided and introduced the speakers, John Brennan '02, and Chester Rightor, '09. Both spoke on a phase of their own work which has to do with municipal affairs; if applause and after-comment are a measure, the talks were very much enjoyed.

The annual picnic excursion is planned or the latter part of June, more events to follow in the fall.—4-4-'23.

### DULUTH

ELMER SNEIDER, '22

The monthly meeting of the U. W. Club of Duluth was held at the Holland Hotel Monday noon, April 2. The meeting was well attended. Frank Stone, '06, of Superior was our guest. The attendance prize donated by William Johnson was won by Louis Castle, '13. As our president, James Nye, '14, was unable to attend Louis Castle presided at the meeting.—4-5-'23.

### LAFAYETTE

JENNIE KOEHLER COOLEY, '14

The U. W. Club of LaFayette, Ind., met at the Purdue Home Economics building, Tuesday noon, March 27, for an informal luncheon, Dr. G. C. Brandenburg, '15, president, presiding. There were twenty-seven members present including the honor guests, Dr. and Mrs. E. C. Elliott. Pres. Elliott, former professor of education at the University entertained the Wisconsinites with a pleasing speech. Professor O. G. Lloyd, '12, led the singing.—4-6-'23.

## OMAHA

HELEN PIERCE GAY, '00

Plans are under way for the organization of a U. W. Club at Omaha, where some forty former Wisconsin students reside. Of these twenty-one are already members of the General Alumni Association and are keeping in touch with the University through the MAGAZINE.

Sponsored by the Omaha College Club, the Washington University Glee, Mandolin and Banjo clubs of St. Louis gave an entertainment for the benefit of the Scholarship Fund. The venture, the first of the kind, was a success and the Club hopes to make "College Night" an annual event. Among the Wisconsin group present were: C. S. Montgomery, '72, A. S. Ritchie, '76, E. T. Morrison, '93, Charlotte Bodman Neal '16, Helen Connor Laird, '12, and Helen Pierce Gay, '00.—3-28-'23.

## SEATTLE

H. A. ADAMS, '15

After a period of waiting and preparation on the part of Seattle alumni, Professor Gardner arrived April 10. He came from a gathering of Wisconsin alumni at Tacoma, which he told us comprised the largest attendance on a percentage basis of any group on the Coast. Hats off to Tacoma.

No more effective speaker could have been sent out by the University than Professor Gardner. It was noticeable that he combined the qualities of being a good fellow with a very intent purpose to achieve the object of his visit, that is, the binding closer of the alumni to their Alma Mater.

The dinner was a success. Alumni and alumnae both gathered, and Professor Gardner had an audience of somewhat over half a hundred. The most pleasing feature to those who had worked hard to make the affair a success was the spontaneous response that Professor Gardner received when he was through speaking. Old and young showed they were behind the movement for a bigger alumni body.

The classes represented were from W. E. Schneider, '20, back to Mr. Muldoon who entered the University in '62.

A renewed vigor has been imparted to this far flung outpost of Wisconsin, and the alumni are determined to "carry on" in every way.—4-16-'23.

## OTHER UNIVERSITIES

In the last number we announced the organization of a Harvard-Princeton Fine Arts Club and an exchange of professors between the Fine Arts departments of the two universities for the next academic year. This new departure will be generally welcome, not only as a means of strengthening the friendly ties that exist between the Har-

vard and Princeton, but as an extremely interesting experiment in university teaching and research. It so happens that Harvard and Princeton departments of Fine Arts are peculiarly qualified to be allies and partners rather than rivals. The Princeton department has placed more emphasis upon the scientific method as applied to attribution and upon graduate instruction; whereas the Harvard department has emphasized the cultural aspects of art, together with design and painting, and has given greater attention to undergraduate instruction. There are also differences in the special fields of research to which the individual members of the two departments have devoted themselves. The combined group possesses a rounded competence which neither department by itself could hope to attain without an increase of personnel in excess of its resources and the requirements of instruction.—*Harvard Alumni Bulletin*.

A serious rival, if we may call it that, of the Illini club has sprung up. It is the University of Illinois dads' association, as it is called, which is now getting under way in ten counties of the state. In some 60 other counties local chairmanships have been accepted, and organizations will be perfected later.

The University of Illinois dads' association is the first of its kind, so far as known. It is taking a keen interest in the University—as parents naturally would in an institution that means so much to their children. Of the 102 counties in the state, 100 have students in the University. A weekly addition of the *Daily Illini* has been established for the dads, and there are already more than 1,200 subscribers.

Much good is expected to come from an organization like this. Much good always comes from any move to get people to understand such a vast complex educational institution as the University of Illinois.

The alumni University fund is a reality at last. The senior class at its meeting January 9 voted to establish such a fund, and a campaign is now under way among the seniors.

The alumni association has urged for some time the starting of such a fund to take the place of the sometimes unfortunate, sometimes questionable class memorial. Senior classes from now on will raise quotas for the new alumni University fund instead of for memorial gates, statues, or other such objects. The total will of course grow larger from year to year as new classes go out and as interest, financial and physical, accrues, and will be used for such buildings, scholarships, or other purposes, as a committee may decide.

The pioneer alumni fund, which was established by Yale and now amounts to \$2,000,000, has quadrupled since 1912. The Columbia fund totals \$88,000. The Cornell fund averages \$70,000 annually.—*Illinois Alumni News*.

## DEATHS

DR. E. D. ORR, '74, a physician at Mt. Hope, died February 11 at the age of 76. He was born in 1847 in the town of Patch Grove, Grant County, and lived in that county nearly all his life. He was graduated from Rush Medical College in 1883. He practiced one year at David City, Nebr., and then located in Mt. Hope where he had practiced ever since. He was a member of the Grant County, Wisconsin State, and American Medical associations.

The death of JOSEPH E. WILDISH, '75, which occurred at St. Joseph's Hospital in Milwaukee on the 20th of February, 1923, removes from the scenes of an active and busy life a most interesting and worthy character. Death followed from an operation resultant upon a fall sustained on January 24.

Mr Wildish graduated from a literary course of the University where he was a familiar figure in Madison during the years previous to his graduation. He had charge of the college paper, the *University Press*, and was well known by the students of his time. After reading law in Davenport, Iowa, he returned to this state and was admitted to the practice of the law in 1877. He located shortly thereafter in Milwaukee where he continued to reside the rest of his life.

Mr. Wildish was a good lawyer, which means much in these days of professional uncertainty and doubt. He was keenly alive to the interests of his clients and never permitted his interest in their cause to waver. His probity of character was far above the breath of suspicion. He had the splendid qualities which make for good citizenship. He was interested and active in the affairs of his home city. He was conscientious and faithful in what he conceived to be his duty to his associates and friends. He was every inch a most estimable gentleman. If his ambitions were not of the herculean order, it can be safely asserted that they were not frivolous nor unworthy. The world is none the worse for his having been a part of it during the eventful period. Indeed, it may be truthfully said of Mr. Wildish that those with whom he came in contact have been the gainers thereby. And this is high praise.

Besides his widow Mr. Wildish is survived by three children. Services were conducted by the Reverend E. H. Longbreak, pastor of the Wesley M. E. Church of Milwaukee, interment to take

place later in the spring at North Lisbon, the birthplace of Mr. Wildish.—DUANE MOWRY, '75.

HERBERT F. JOHN, '03, died of pneumonia March 1, at his home in Bronxville, N. Y. Herbert John was one of the most active and one of the best known members of his class. Immediately after graduation he took a position in New York City with the *Review of Reviews*, where he remained for some years. Subsequently he went into business for himself, promoting business organizations; during the war he was engaged in building ships for the United States government. After the close of the war he disposed of his shipbuilding interests and had since been conducting a private banking and investment business of his own.

Mr. John leaves a wide circle of friends in New York and Washington, who were shocked and grieved by his sudden and untimely death. While he had already achieved a larger measure of success than comes to most men, his career had only begun for him. He was still a young man, possessing splendid enthusiasm, an unusual faculty for making friends, and an unselfish desire to serve his community. He was married in 1907 to Miss Alma Russ of San Antonio, Texas who survives him.—H. C. JOHNSON, '03.

LAWRENCE LIBBY, '07, died in Madison at Bradley Memorial Hospital, April 2, of pernicious anaemia. Mr Libby was manager of the Badger Electric Company, Poynette. He had been a member of the General Alumni Association for the past five years. He is survived by his wife and three children, his mother, Mrs. Caroline Libby, a sister, Mrs. A. A. Arnquist of Zillah, Wash., and a brother Lyman Libby, '03, of Donald, Wash.

Interment was at Madison, where services under auspices of the Masonic lodge of Poynette

were conducted by Past Grand Master, C. E. Schaffer, of Commonwealth Lodge 325.

JOHN J. PETTIJOHN, '11, died March 20 at the Mayo Brothers Hospital, Rochester, Minn., following a two month's illness of cirrhosis of the liver.

John Pettijohn was born at Rinard, Ill., October 17, 1875. His early educational training was received in the Nebraska public schools and at Rochester Academy. After a year at Beloit he began his teaching career, coming to the University in 1909 as instructor and secretary of the Extension Division. In 1913 he accepted the directorship of extension work at the University of North Dakato, going from there the following year to accept a similar position at Indiana. During the late war, while on leave of absence, he was director of the Speaking Division of the committee of Public Information and the Division of Education, in Washington D. C.; he also assisted in working out courses of training for enlisted men at Camp Grant. In 1921 he went to the University of Minnesota as assistant to the president and director of the summer session, which positions he held at the time of his death.

Mr. Pettijohn was president of the National University Extension Association in 1917. Among the many learned societies in which he held membership were the American Economic, American Political Science, and American Sociological associations, and Phi Delta Kappa. He was also affiliated with the Masons and with the Congregational church.

Mr. Pettijohn leaves to mourn his early death his widow and six children, three sisters, and two brothers. Burial was at St. Paul, Minn.

News has recently come to Headquarters of the death of MARGARET BUCKMAN SJOBLOM, ex'14, wife of Maurice Sjoblom, '13, at Springfield, Illinois, September 9, 1918.

### "THE LAWS OF '73"

My dear Law Classmate:

The Ph. B. members of the U. W. Class of '73 will have a reunion upon the Fiftieth Anniversary of their graduation at the next June commencement. The members of the Law Class of '73, through Mr. Frawley, the secretary of the Ph. B. Class, in a letter addressed to me in answer to one which I wrote to Mr. Frawley upon the subject, are urgently requested to celebrate the Fiftieth Anniversary of their graduation at law, joining with the Ph. B. members for that purpose.

I have been requested by Mr. Frawley to communicate this invitation to the Law Class members. I am sure that such a joint celebration is desirable and that it will be very enjoyable and successful in every way. I hope that you will be able to be present.

Kindly let me hear from you upon the subject, and let me know what the chances are of your attending the proposed reunion.—Yours very truly, C. S. Montgomery, 624 Omaha Nat'l Bank Bldg., Omaha, Nebr.

In advocating plans to help make Madison a model city, M. B. Olbrich, '02, recently said in his address before a local club: "There is no man in the history of the city of Madison to whom so great a debt of gratitude is owing as to JOHN M. OLIN, and that gratitude ought to find concrete expression. Nothing could be more fitting than a splendid sculptural representation of Mr. Olin himself as the pioneer who broke the crust of indifference and braved the insolence of arrogant and opinionated ignorance. The Women's Club might well lead a movement for the adornment of one of the parks with a statue of Mr. Olin as an expression of gratitude to a real civic hero."—G. W. ### FELLOW CLASSMATES:

Your secretary has returned from his delightful winter outing in the South to his still more agreeable occupation of hanging around the University Club of Chicago, endeavoring to spy out some ex-member of the Class of '81 who might be passing through the city and showing them the courtesies of our club. Should any of you read this, please don't fail to accord me the privilege of this pleasure by entertaining you. By the way, if you are here on Friday, don't miss being my guest at the Alumni luncheon, held every Friday at the Palmer House and attended always by about one hundred interesting fellows, dating in vintage from prehistoric times of the seventies down to the infants of twenty-two.

Speaking of Our Own, some 700 U. W. men, their wives and sweethearts, were charmed last evening, April 9, by attending the annual performance of the Haresfoot Club from Madison. It was the best ever, and it is doubtful if anyone would have suspected the performers were amateurs had they not been informed in advance.

Here comes the clue to the success of the whole performance—one of the star performers, whose handsome physiognomy graced the page of the program was none other than the son of our distinguished fellow classmate, W. J. Moroney. I was proud to whisper to my vis-a-vis that he was the lineal descendant of the Class of '81. W. J. has four in all and he may well be proud of their kinship.

Please notify your secretary of any event, however trifling, that would interest your fellow classmates and I will proclaim it to them if you are too modest to do so. Cordially, F. S. WHITE.

### Reune in June!

Mary Strahl Bradfield, La Crosse, sends word that she will be here for Commencement. Nellie Murphy, Madison, will attend, and Ella Davis Goodyear will also remain in Madison for the event. Mr. and Mrs. Charles Thuringer are also planning to be present.

Lawrence WHITTET, Edgerton, former speaker of the Assembly, is the new executive director of the Milwaukee A. of C.—E. C. FIEDLER resides at 324½ State St., Beloit.—Lillian HEALD Kahlenberg, who often appears before committees of the legislature in favor of progressive and humanitarian measures, takes issue with the statement of Alice Robertson, former congresswoman from Oklahoma, that few women are fitted for public office. "I will say that in many cases where women have held public offices, they have done the work much better than have the men holding the same office before them. Women are serious and conscientious with a public duty, fully realizing, perhaps, that every movement they make is carefully watched by voters of both sexes. By all means, if a woman is fitted by training and adaptability for a public trust, let her seek it."—Recent additions to membership in the General Alumni Association include: Henry CUMMINGS, E. C. FIEDLER, G. B. INGERSOLL, Mary AUSTIN Jacobs, Caroline OWEN Mayhew.

"I would like ever so much to do some reuning this year for two reasons," writes Jean Menzies Bennett, who was a freshman in 1889. "My only daughter graduates and that will make future reunions fall on the same year for us. And it will probably be my last chance for some time, as after another year, when Doris hopes to get her M.A., we shall probably rejoin the rest of the family in Colorado, where my son, Donald, '21, is an instructor in physics, and my husband, W. C. Bennett, '90, is serving as surgeon in the Veterans' Bureau, Denver. I real-

ize that as far as '93 is concerned, these are not very good reasons for recognizing one on the ragged edge of the class, but after thirty years you may feel that everybody counts—especially if they are on the ground and more than willing to help."

DUDGEON, head of the Milwaukee Public Library, to the effect that people are making use of libraries in a constantly increasing proportion, and non-fiction reading is increasing faster than fiction reading. This, Mr. Dudgeon thinks, indicates a general cultural growth on the part of the reading public. It is reading for service and not merely for entertainment.

As I understand the term, it means one who favors progress, one who is not content to stand still in the belief that 'whatever is, is right.' To be a progressive, is to be an optimist, not a pessimist. It is to be hopeful and courageous, not sad and discouraged. In every age the Progressives have been bitterly attacked because they would change established conditions satisfactory to those who had, to help the masses who had not."

**Be in Madison this June! Remember that Alumni Day comes on Saturday, June 16.**

Lan' sakes, chillun, how Tempus does Fugit! Do you remember way back when ———? That was in nineteen hundred and- and- and- long ago. Isn't it rather startling suddenly to discover that in June of this year it will be twenty years since we passed from these venerable halls of learning? Some of us have not been heard from for a long time and we have not had a get-together for years. But the old class is far from dead. Who said we have been out in the world too long to come back? There's nothing to that rumor. Why just look at old King Tut. He has been dead 3,600 years and look at the comeback he is staging! The old bunch is coming back this year to reunite from June 15 to 18, inclusive. Hurray!! There will be Hen and Jen, Hugh and Prue, Lil and Bill, Lew and Sue, Jack and Jill, and all the rest that went up the hill in those days of long ago. C'mon along, meet the old friends, swap yarns, tell stories, and live your college days over again for a few days. Pack up the old kit bag, buy a ticket to Madison, and be present at the reunion. It is going to be a regular jubilee. Thirty Madison '03'ers are going to do their durndest to show you a good time. What say? Drop us a line and tell us you are coming. We'd be delighted, etc. R. S. V. P.—F. W. Huels, General Chairman, 115 State St., Madison.

On March 3 eleven members of the class met for luncheon at the Madison Club by invitation of Robert Crawford. Mr. Crawford opened the business meeting by reading the names of all members who reside in Madison and outlining what other classes have done to perfect an organization.

At the reunion of the class in 1913 no elections were held. The war prevented a reunion in 1918. Therefore this group, on motion of Theo Pickford Owen, unanimously elected William Huels general chairman of the reunion for 1923.

Motion of Eugene Byrne carried that the president of the class, Dr. Edward Theurer, be notified.—Beulah Post, Secretary pro tem.

### Uncle Billy's Bedtime Story

"Once upon a time, away up in God's country, there lived a dear, good, kind, old lady whose name was Alma Mater. She was very much like the old woman who lived in a shoe—she had so many children she didn't know what to do. So it came to pass that each year, as her children grew up, she had to cut some of them off from her apron strings and send them out into the great big world to shift for themselves.

"Now, in the month of June of one particular year, in 1903 to be exact, about 350 of the children of Alma Mater became grown up. She called them her Naughty Threes. Isn't that a funny name? Then one day along about the middle of the month she called them all together, and after telling them how much she loved them, gave each one a nice sheepskin present and then told them to skid-doo and beat it. That nearly broke the children's hearts, but she loved them tenderly and knew what was best for them, bade them goodbye, and sent them all away. So they took the little bag of tricks they had acquired at college along with them and scattered to the four corners of the earth and only a few of them have ever been able to get together again.

"Isn't that a sad story! Let us pause to wipe away a tear.

"But that isn't all of the story. There is another part which is the best. Listen! Every year in June all of these children have an indescribable longing in their hearts to come back to the home that cradled them and to see the dear, good, kind, old lady that showed them the gate that other day in June. So every year some of them come back to sit at her feet for a few days and receive further inspiration and tell her how much they love her. As the years pass this longing grows stronger and stronger. But when twenty years have gone by the longing to return becomes irresistible. Then from somewhere comes a voice which pronounces the magic words, "TWENTIETH REUNION," and when the children hear these words they just can't control themselves any longer, and no matter where they may be, or what they may be doing, they just drop everything else and hurry back to see Alma Mater. And so it is this year, 1923, from somewhere the voice has pronounced the magic words, "TWENTIETH REUNION" and now the Naughty Threes are all a-flutter getting ready to come back to God's country to reunite in June, and to live those good old days over again. Now isn't that a fine story?"

### 1913 Tenth Reunion

#### "1913—EVERYBODY OUT!"

Answer the call of your Classmates, the Campus, Mendota! Join the merry-makers for three magic days of happiness, among the friends of a CLASS which stands out as a mighty giant among the really great classes which have graduated from Wisconsin. It's your party. Come and play!

Over a hundred replies have been received from the first letter announcing plans for Our Ten-year Reunion.

Gordon McKay writes from Washington, "Of course I'll be with you. Mighty glad to note that as usual, 1913 is on the job. Although this is our first appearance as a class in the parade of class reunions, it ought to be a BIG ONE SINCE IT IS OUR FIRST. It is high time that the clarion call is sounded for the assembly of '13 at Madison during Commencement, and all loyal members of FAMOUS '13 make their plans for a real pilgrimage back to the Varsity for the big time we can have not alone in renewing old

friendships among classmates, looking over the crop of new additions to the '13 family, but in cementing more firmly our relations with the University. I am looking forward to reunion with anticipation of a regular time."

Helen Dodge Taylor writes from 435 W. 119th St., N. Y. C., "I am hoping that Mr. Taylor and I can return for the festivities."

Maurice Sjoblom says, "I will try to be there with the kiddies. I'm not ashamed of the samples."

Marsh George says, "I'll be there."

Jerry Reid says, "Count on me!"

Doric Porter says, "YES!"

J. P. Bendt writes from Cincinnati, "I happened to visit the class reunion of 1912 last June. Had such a good time that I will surely try and be there this June."

H. W. Brightman from Green Bay says, "Unless the June snows are too deep, I will be there."

King Livingston states that he "will be there with bells, bringing wife and two little girls." (Guess he means, "there with belles.")

Edna Lucksinger Kuechle writes, "Fates willing, I'll be there."

Roxie Walker Pfeifer says, "I hope to be with you."

Gladys Lange Playter says, "I'll be there if possible."

Harriette Fish Esch writes from Maryland, "Yes, I am planning to be there, without any of my family." (We'll be brothers and sisters to you, Harriette.)

Gladys Branegan is coming from Bozeman, Montana.

Guess we shall have to give a prize to the Thirteener coming the greatest distance.

Think of this bunch coming from New York City: King Livingston, Emmett Walker, Raymond McGrath, Al Morganroth, Leo Nash, Edw. Kohl, John Davies, Noyes Bright, Carl Gesell, Marie Foulkes, Theodora Briggs, and the others we round up before we start. "Out of my way, white folks!" Give your ENTHUSIASM a chance. Everyone is planning on a BIG TIME!

As I look over the replies I can't escape the conviction that 1913 must be one of the STRONGEST classes that ever graduated. I can't wait to see the old friends again. How do you feel about it?

Our mailing lists are incomplete. Some of the addresses we do have are wrong. We have letters returned unclaimed from: Henry Chesick, W. F. Mitchell, F. C. McIntosh, H. P. L. Cary, J. W. Griswold, Isadore Levin, Alice Hall, Gus Wernicke, Jr., Neva Gates, Clara Lewis, P. B. Korst, Ralph Keffer, L. I. Schoonover, Mrs. Michael Kasak, A. H. Leschke, R. E. Moody,

W. H. Burhop, Lila Stark, A. J. Buscheck, Claire Shadall. Help us if you can.

The following have been appointed DISTRICT CHAIRMEN. Get in touch with the one nearest you, and double up on the fun you are going to have. They are planning stunts, songs, yells, burlesque, and fantasy—all for you.

My thesis is that Christianity will emerge from China enriched by a contribution from Chinese culture, and at the same time profound changes will take place in the fabric of Chinese society because of the introduction of Christianity. All the world will, therefore, gain something from the Christian enterprise in China."—John WATTAWA, an attorney at 8 Rue St., Florentine, Paris, whose homecoming has been anticipated because of unsettled conditions in France, will remain abroad until summer, according to a recent letter, which states that in Paris business continues normal despite trouble in affairs of state.—H. J. Edward O'Malley has his first opportunity in the role of Youth and proves up on it 100 per cent. Perhaps it is just the youth that is in him or perhaps it was consummate acting, but he made the role live. He also disclosed a pleasant tenor voice which won him hearty applause."

#### Members of the Class of 1919:

It doesn't seem possible but the fact is that nearly four years have slipped away since we said good-bye to our Alma Mater. We vowed then that we would never forget the U. of "W." And we have gobbled up with avidity every bit of University news that has drifted our way. We have been interested, and our interest has been a source of profit to the school and a source of happiness to ourselves. Every day, however, we get new interests and the old ones seem more remote. The only way to keep warm our old interests in our Alma Mater is to go back to her.

Next year is our five-year reunion and we want to set a high-water mark for reunions both in attendance and in pep. To do this those of us who conveniently can should get together this year to lay plans for next. Let's put some originality and some organization into our reunion and make it the best ever. Come to Madison June 15-18, 1923, and bring a hatful of ideas for 1924.

The test of a man and the test of a class is loyalty. Let's show the old school that we fully measure up on this test. The reunion spirit is contagious and it is spreading this year like smallpox. Let's get the germ. We won't be sorry!

Will those who can meet in Madison this year please drop me a note. Cordially,

H. M. GROVES, (Class President), Waupun.

## FACULTY NEWS

"There can be no democracy without parties and no parties without bosses," declares A. B. HALL, professor of political science at the University, in an article written for the local press at the request of the Dane County League of Women Voters. "The real issue is what kind of bosses shall control, and how powerful and statesmanlike are the political machines that are in power. Machines, bosses, and power are essential to popular government and it is the business of the citizen to see that these mechanics of popular control serve their purpose in a useful and patriotic way."

"The situation regarding marriage and divorce in the United States cannot be remedied by placing the power of national legislation on the subject in the hands of Congress," said Dean H. S. RICHARDS of the Law School regarding the movement of ministerial and reform organizations to bring before the new Congress a resolution proposing to amend the constitution in order to give Congress the power to establish and enforce uniform laws as to marriage and divorce. "Such a measure would be inadvisable for two reasons: First, on account of the unwieldiness of national law enforcement. The country is too large; sections differ too greatly in their requirement. Second, an amendment to the constitution will have little effect on the morals of the people, and that is where the fundamental difficulty lies."

There are bright spots in our college course. PAXON'S appreciation of P. T. Barnum; BYRNE'S description of medieval student riots at Oxford; KIECKHOFEER'S inspirational pyrotechnics; OTTO'S genial presentation of this or that obtruse philosophical idea. In courses with these men and with many others, we learned a lot, and the ideas which they gave us still remain with us.—*Cardinal*, 12-13-'22.

Dean NARDIN, in addressing the annual freshman convocation, the first of the year, the purpose of which is to inform freshman women of sources of faculty and student help in planning their vocations said: "What do you want of your college education? You want a thorough knowledge of human nature, significant concepts of life, and a useable mind with significant things in it.

"First, have your selection of studies as liberal as possible. Liberal means free to be true. Second, find out from your grades your particular aptitudes, and then follow up your early inclinations. Third, in the choice of your electives, think of one condition in the present world you would like to improve. Then get some training that will help you intelligently to make a better world."

"The moving pictures are in a great many ways responsible for the recent great increase in the interest in Shakespeare," com-

mented Prof. Karl YOUNG, head of the English department of the University.

"The moving pictures have accustomed a large number of people to going to the theatre, and through their artificial antics, the movies have created a sincere desire for real acting on the stage. This desire naturally leads to Shakespeare. They have caused a demand in the people for clear, solid manhood and womanhood in the actors. Shakespeare, better than any other writer, is able to satisfy this demand."

All engineers must be licensed before they may practice, if a proposed engineers' license law is passed by the 1923 legislature. A safeguard to life and health and the promotion of efficiency are the aims of the bill according to Prof. J. G. D. MACK of the Engineering department.

"Bunk," replied Professor Ross, when asked his opinion of former Vice President Marshall's plan of abolishing all laws, using in their stead the Ten Commandments and the Golden Rule and trusting the American people to enforce the laws. "The laws of today are interpretations of the Ten Commandments. Should we abolish all our laws, we would be back in the sixth century." Professor Ross believes that no group can ever become stronger than the public. Labor unions will never dominate public opinion.

Maj. J. S. Wood, commandant at the University since his return from France, has been transferred to the Command and General Staff school at Ft. Leavenworth, Kans., where he will remain for a year.

Since Major Wood took charge of the Military Department the value of the equipment used in instruction has risen from a few hundred dollars to more than \$750,000 and the staff has been increased from a major and two or three lieutenants to twenty-three; of these nine are commissioned officers, the others being enlisted men assistants.

Various educational conferences were attended by faculty members during the

Spring vacation. Professor O'SHEA delivered two addresses at the State Convention of Parents and Teachers of Iowa and Ohio and spoke at the North Dakota Association Conference, Fargo, and at the North Dakota College. Professors DYKEMA and GORDON attended the Music Supervisors' National Conference at Cleveland, Ohio, where the latter gave an address on "The Band as School and Community Assets." Professor Ross spoke at the Central Iowa Teachers' Association at Des Moines, and Professor HALL attended the meeting of the committee of the National Conference on Science and Politics.

An official invitation by the Italian government to American scientists in the field of agriculture to visit Italy this summer to get first hand information regarding the achievements of that nation will doubtless be accepted by several members of the agricultural faculty.

A group of hitherto unpublished poems by Professor LEONARD appeared in the *Wisconsin Literary Magazine* for March.

Under the direction of Professor MOORE, head of the horticultural department, and F. A. AUSTR, associate professor of landscape design, plans are under way for extensive planting of flowers and shrubs to beautify the University grounds. More than a thousand plants will be planted in the numerous gardens, the woods, and bay, where wild rice, lotus, and other water plants will be started.

Professor Emeritus C. F. SMITH of the Greek department is enroute on a southern trip for several months, going first to Tuscaloosa, Ala., where he is scheduled to address the Southern Atlantic Classical Association, from there to Tallahassee, Florida, to give several addresses at a woman's college there, following which he will speak at Emory University, Atlanta, Ga.

At the National Conference of Social Work to be held in Washington, D. C., in May, Professor COMMONS will take charge of the mental hygiene section, Professor BLANTON will speak on "A Public School Program for Nervous Children and Those Having Speech Disorders," and Professor LORENZ will talk on "Delinquency Among Ex-Soldiers."

Wisconsin faculty members who will teach at the Columbia summer session are: Dean H. K. RICHARDS, corporations; Professor O. S. RUNDELL, '10, insurance and mortgages; Asst. Prof. A. K. LOBECK, geography; Prof. S. W. GILMAN, '99, finance; W. W. THEISEN, educational administration.

The following is the personnel of the coaching staff for next year: Athletic director and track coach, T. E. JONES; football, J. J. RYAN; basketball, W. E. MEANWELL, '15; cross country and assistant track coach, Meade BURKE, '17; swimming, J. STEINAUER; crew, Harry VAIL; wrestling, George HITCHCOCK; boxing, Edward Bor-

GELT; gymnastics, G. E. LINDEN; Soccer, G. E. LINDEN; outdoor winter sports, George MARTIN.

Co-education is favored by the women who have been educated in nonco-educational schools as well as by both men and women who are attending co-educational schools at present according to a survey conducted recently by Professor O'SHEA of the department of Education on the reaction of women college graduates to co-education. Four-fifths of the women who answered the questionnaire believe that a girl receives a better education at a university than at a nonco-educational institution.

Professor DYKEMA is publishing in the *Junior Home Magazine*, a series of singing games that have played an important part in the lives of our ancestors.

Women should be their natural selves, but in being so they should not attempt to throw overboard a civilization which they find when they enter public life, said Dean NARDIN, commenting on Miss Tarbell's statement that women can put much into public life that men have not, if they use the feminine talents with which they are inherently endowed and if they will be their natural selves. "But women can undoubtedly contribute much that is new to public life. Look at your self-government associations for women, that lay down rules of conduct and ideals. Where is there a man's organization on the campus similar to that? A social responsibility is the second contribution of women. The individual viewpoint instead of that of the institution is the third addition of women to public affairs. "Women are radicals. Do you know why? Because they want to get at the root of an evil and chop it away."

"Continuing to refuse to recognize the Soviets is absurd on the part of the United States because the Russian government is at once authoritative and durable, said Professor Ross. "In time the United States will be forced, if for no other reason than American business interests, to recognize Soviet Russia."

"Enforcing more vigorous entrance requirements need not in any way stifle the athletics and social life of the institution," Dr. V. A. C. HENMON declared in referring to the transformation planned by the trustees of the University of Chicago to reduce undergraduate enrollment by rigid entrance requirements to admit only students with exceptional ability and serious purpose. "All universities and colleges are facing the situation which forces them either to lower their scholastic standards or to decrease the number of their students. During the two decades from 1898 to 1918 the numbers of high school and college students have jumped over 300 per cent, while the population of the country and the number of students in elementary schools have only increased 40 per cent."

## CAMPUS NOTES

**The Mid-West Student Conference**, held at Evanston, Ill., the middle of March was given over in the main to the discussion of three subjects: publications, student activities, and athletics. Ralph Balliet, '23, and Wilber Wittenberg, '24, attended as official representatives of the University.

**The President's** report to the financial committee of the legislature, entitled "Amount and Distribution of Faculty Service, 1901-1922," contained the following statement: "It would be necessary to add 124 full-time teachers to the staff, if the University were today to have a teaching staff as large relatively to the number of students as it had in 1911."

**While expenditures** for land and building purposes from state funds since 1870, as presented to the legislature recently, show a constant increase from \$40,000 in 1870, to \$100,000 in 1884, \$190,000 in 1893, \$389,000 in 1908, \$485,000 in 1913, in 1919 the sum dropped to \$88,000 and in 1920 to \$58,426.

**S. G. A.** revisions, passed the latter part of March by a two-thirds vote of some 500 members, extend the 10 o'clock evening hour to 10:30 and the 12:30 week-end privilege for other than dance engagements.

**The stadium** seating capacity will be increased by 8,000 seats by the fall, thus bringing the total number of seats to 35,000.

**Student Relief** acknowledgments to the \$1,500 which was divided among European students where the need was greatest read as follows: "We have laid aside a portion of this gift (\$30) in order that in case of the direst need we may still have a little cash on hand. Two-thirds of the sum, however, was used to buy canned meats, peas, beans, sugar, and other important foods, which are daily becoming scarcer." Another reads: "The student who is forced to earn his money during vacation periods in mine or factory is so poor that, for the most part, he has very insufficient clothing and shoes. We have therefore bought with the money that you have placed at our disposition 50 pairs of coarse, strong boots and 50 suits of working clothes. You could hardly believe what joy the news caused when we announced that working clothes and boots could now be provided."

**A song cycle**, "In A Persian Garden," rendered by Aagot Borge, '19, Martha Chandler, '21, Noel Stearns, and E. E. Swinney, in March, was characterized as "a blending of individual voices into a beautiful melody varying from joyousness to pathos, then coming back to spirit and life."

**"The World in Miniature"** was depicted by the International Club in March, with representative skits from Mexico, Russia, India, Germany, China, Japan, Portugal, and Argentine.

**Plays** given by the A. A. of U. Women in Lathrop Hall, March 15 were entitled: "The Feast of the Holy Innocents" and "The Florist Shop."

**"The college girl** must possess the ability to grow on the job, to grow to the size where she fits the job, and then to grow beyond the confines of the job to bigger opportunities," said Helen Bennett, manager of the collegiate bureau of vocational occupations at Chicago, in her explanation of "What Employers Expect of College Trained Women" at the ninth annual Woman's Vocational conference held in March. "Second, she must display intellectual curiosity that distinguishes her as a person of power. The quality of mental accuracy, an accurate way of thinking a subject through with precision, is the third requirement."

**"Resolved**, That whatever statutory or constitutional changes are necessary to render impossible the use of injunctions in labor disputes in the United States should be immediately made," was the subject on which Wisconsin took the affirmative and won the debate from Illinois in the first intercollegiate debate of the year, March 16. Wisconsin's arguments were: The injunction imperils the rights of labor, has generally been unsuccessful, and accomplishes nothing that cannot be obtained through other legal and less dangerous channels.

**Short Course** graduation exercises were addressed by Dr. E. C. Elliott, formerly of the University and at present president of Purdue, who said: "We need a nonpolitical, agricultural commission that will make a scientific study of agriculture as a human institution. No bloc ever solved an agricultural problem." Fifty-two candidates received diplomas.

**Y. W. C. A.** Student Industrial Conference held its initial meeting the latter part of March, with 15 students and 15 industrial representatives attending.

**Braces** worn by patients in Bradley Memorial Hospital and other utensils and apparatus of unusual design are made in the shop of the mechanic of the departments of pharmacology and physiology.

**"If Winter Comes"** was read by Prof. Ralph Dennis of Northwestern University in March, who made this statement: "I would suggest that everyone read page 8, and if it starts no thoughts, arouses no memories or ideas, don't read the book for you will be bored."

**"The beauty** of the little things in God's great out-of-doors will sink deep into the souls of Americans of tomorrow," said Jens Jensen, Chicago landscape artist, in his talk on "Art Out of Doors."

**From Beirut**, Syria, comes the request for a Y. M. C. A. handbook for the American University there.

An **Old English** bazaar was held in Lathrop Hall just before the holidays to raise money for the Y. W. C. A.

**U. S. in Canada** was represented by Esther Bilstad, '24, at the national conference of the Canadian student movement held in Toronto during the holidays.

**Regent-faculty** conference members as appointed by the Regents December 6 are: Regents: Florence Griswold Buckstaff, '86, H. L. Butler, '89, John Callahan, Leola Hirschman, D. O. Mahoney, '95, E. M. Miller, '07, and Elizabeth Waters, '85. Faculty: F. W. Turneure, L. J. Cole, C. S. Slichter, J. H. Mathews, '03, R. H. Whitbeck, Florence Allen, '00, Arthur Beatty, G. M. Hyde, '12, J. H. Guyer, C. E. Mendenhall, M. S. Slaughter, W. J. Meek, R. J. Roark, and G. H. Stuart, '18.

**Prof. B. Q. Morgan** of the department of German has organized a tour which he will conduct personally through France, Spain, Italy, Switzerland, Germany, Belgium, and Holland during the summer of 1923.

"**Merchandising the Farmer's Way Out**" was the slogan of the annual Farmers' and Home Makers' Week held January 29-February 2. That the College of Agriculture is making a determined effort to help the farmers solve their problems in this time of stress is evident from the program.

A **resolution** from the Western Intercollegiate Athletic Conference which would increase the number of football games on the schedule of each conference school was rejected by the faculty upon the advice of the athletic committee and the committee of student life and interests.

**Fire**, which caused some \$5,000 loss to the Chemistry building early in December, also destroyed the research records of the past two years.

The "**Toy Tea**," which featured the presentation by children of the faculty of a series of tableaux and pantomimes taken from Mother Goose rhymes and fairy tales netted over \$200 for its fund which goes towards the maintenance of a student loan fund and helps furnish women's co-operative houses.

**Play days**, organized recreation for pupils and teachers from two or more schools, and if possible the parents as well, have been sponsored with great success in Dane County by the Agric Triangle the past year.

The **German Club**, at its Christmas party, presented a Club songbook to Arnold Sommerfeld, Carl Schurz exchange professor from Munich, who returns to Germany at the end of the first semester. To relieve distress among students at Munich a gift of \$20 will be sent in care of Professor Sommerfeld.

**Delta Phi Delta**, honorary professional art fraternity, announces the election of Louise Strang, '21, and Arthur Coit of the art faculty, Warren Carter, '23, and Charlotte Cummings, '24.

**Jens Jensen**, noted Chicago landscape artist, said in an address given recently in Agricultural Hall: "The time is coming when the man that can beautify the farm will be in greater demand than he who plans beautiful gardens for the wealthy." He also called the sand dunes near Chicago the most interesting section in North America, where there is the greatest diversity of vegetation, being the meeting place of plants from north and south.

The **International Club** was host at a three-day national convention held in Lathrop Hall during the holidays.

"**Class averages** for freshmen, compiled from mid-semester standings, show that work by first year students this year is about 10 points higher than last year," asserts F. W. Roe, junior dean of L. & S.

The **storm**—darkness, pierced by flashes of lightning and thunder claps, with the sky-dome pouring down swishing, swirling paper rain, and the sun coming out after the rain from dazzling spotlights—was the distinguishing feature of the Prom.

A "**dry prom**" called forth the following note of congratulation from W. Stanley Smith, state prohibition commissioner, to Chairman Wanzer: "Three deputies from this department attended the Junior prom festivities held in the state capitol on February 2, 1923, from the beginning to the end and I was personally present until nearly midnight and it is with much pleasure that we are able to report that we found no evidence of violations of the state prohibition law and cannot refrain from congratulating your committee, the participants in the festivities, and the spectators on the splendid spirit shown by all concerned, as we hardly conceive of any large crowd of merry-makers that could be more orderly and well-behaved and yet thoroughly enjoy themselves as they all seemed to be doing."

"**Sincerest congratulations**," wrote Dean Goodnight, '05, to the Prom Chairman, "Mrs. Goodnight and I have never attended a more enjoyable, a prettier, or a cleaner prom. It was splendid."

The **Newspaper Short Course** held during Farmers' Week was attended by one or more representatives of some fifty weeklies.

The **traing school** for police-women and other social workers, which opened its ten-week session in Milwaukee on March 6, schedules courses in methods of social case work, by H. I. Clark, and causes and treatment of adult delinquency, by Prof. J. L. Gillin, both of the Sociology department, and a course in community organization by Prof. E. B. Gordon, chief, Bureau of Community Development of the Extension Division.

"**City planned**" cities covered by students in city planning the past semester are: Beloit, Ft. Atkinson, Lodi, Kohler, Madison, Oconomowoc, Racine, Sheboygan, and Washburn.

## BOOK NOTES

*Directing Study* (Scribners, New York) by H. L. Miller, is a forceful volume aiming to direct study toward mastery through creative thinking. The author is principal of the University High School and associate professor of education. His book indicates

H. L. MILLER

experience in teaching, wide reading of basic educational literature, keen observation as a supervisor, and a wealth of common sense. The volume contains many suggestions as to how to deal with individuals of varying achievements in the same group.

For memorizing, paraphrasing, and reciting are substituted forms of directed and controlled activity in which all pupils are "participating, reacting agents."

Nine main chapters take up about three hundred pages. About seventy additional pages are devoted to "Helps and Problems," "Definitions and Use of Terms," and the Index.

Such a volume is valuable not alone to all teachers but to most parents interested in public education. Indeed reforms in educational methods will probably in many instances await intelligent demands of school patrons. The memorizing type of recitation with all its deadening effects is so well established that co-operation at least if not demand of parents will be necessary to hasten the reforms so convincingly urged by Professor Miller.

A critical review of this book by Dr. Dewey in *The New Republic* is commended to all technically interested. The reading of the book itself will be time well spent by men and women interested in the progress and improvement of educational methods.

The teacher who takes pride in a mechanically managed, military disciplined classroom, where order, silence, and conventional question and answer are inviolate principles, will feel that *Directing Study* is radical; but we suggest the keeping in mind that the author is himself a teacher of wide experience who believes that the task of education "is the production of a people capable of thinking, and with a mental attitude which is tolerant, fearlessly honest, expectant of change, and creative."

The dynamic style of the book at times becomes a bit monotonous and there are a few repetitions which seem somewhat superfluous. Like most pedagogical works there appear a number of technical terms. Doubtless there are no more than would appear in technical treatises on law, medicine, or religion; that these pedagogical expressions are not established in our general vocabulary is evidenced by the necessity of a special department entitled "Definition and Use of Terms."

Citations from classroom experiences used in this book will be of great help to openminded teachers who attempt to pursue the plan it sets forth.

Teachers' reading circles, method study classes, parent-teacher groups will find this contribution of improved plans and methods a real inspiration. Indeed editorial writers interested in the advancement of public school methods will find all chapters rich in humanized material.

Naturally some of the few teachers who are already practicing the precepts set forth in "the challenge method" may accuse Professor Miller of building straw men in order to caricature prevailing methods. Teachers lacking courage to attempt the challenge method will use the customary defense that it is too radical. But the rank and file of fair-minded pedagogues will doubtless feel grateful for the many constructive suggestions emphatically expressed and clearly illustrated from classroom practice and procedure.

While the entire lack of pictures cannot be said to be a serious fault in this book, the use of a few pictures might have made the volume more attractive to the general reader. Even the picture of an author who sets forth ideas at variance with conventional practice is appreciated by most readers. The ideas presented in *Directing Study* are of the sort that will be held in check through public apathy rather than through active pedagogical opposition. Hence publishers should make special effort to have such books attractive to general readers. While the conventional standards of book-making have not been neglected, the publishers of this volume have not spent special pains or extra money in making the book artistically attractive. Possibly as a compensation for this shortcoming they have been able to list the volume at a lower price than would otherwise have been possible.
