<http://rightsstatements.org/vocab/InC/1.0/>

The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Minnesota -

The French in the Northwest. Father Allouez had said the King had warehouses containing "enough hatchets to cut down all your forests, kettles to cook all your moose, and glass beads to fill all your cabins."

Thirty-five years after Minnesota became a territory, the last herd of buffalo turned north in a final migration and were killed at the Red River by 5000 buffalo hunters.

"8 Goths and 22 Norwegians on exploration-hourney from Vinland over the West We had our camp by 2 skerries, one days journey north from this stone we Were and fished one day After we came home found 10 men red with blood and dead Ave Maria Save us from Evil"

- Kensington Runestone

Bernard De Voto: "I believe that our culture is more likely to perish from noise than from radioactive fallout"

Behold the fisherman:

He riseth early in the morning

.....

.....

He returneth when the day is spent,
Smelling of strong drink
And the truth is not in him.

with sweet pea - purple.

chipmunk
Stetty-wah - bar - word for whiskey

We must admit (A Treasury of Science
for Archibald Geikie)

Adelone
That the conditions under which the ice age
arose might have occurred before and
may occur again. I am told the glaciers crept
as they do to-day. Ice scored & polished rocks
exactly as it still does among the Alps & in Norway.
Forms have not been seriously modified through all the long
geologic time. Shells which lived on our seas before the ice age
present the very same peculiarities of form, structure,

+ ornament which their descendants still possess.
The present & the past are thus linked together, not merely
by dead matter, but by the world of living things,
with one vast system of continuous progression.
