## Complete As It Stands!

Telephone attachments and telephone instruments to "improve service" are frequently offered for sale, and some subscribers purchase them.

These so-called "helps," disinfectants, etc., are in reality of no value to telephone service, and in most cases injure it. Devices of this kind often cause trouble to lines and instruments and the Company, to protect the service, is compelled to remove them.

The telephone instrument, as it stands, is the result of more than 50 years of careful, scientific development. It is designed to produce the best results and, under normal conditions, give the highest quality of service without any additions.

In the interest of good telephone service, before buying any telephone attachment or telephone instrument of any type, please consult your local telephone Manager, to learn whether the device can be used.

# Long Distance Rates

The rates quoted below show the application of two classes of telephone service most frequently used to a few Long Distance points frequently called. Rates to over 70,000 other points may be obtained by asking for "Long Distance Operator."

International Telephone Service: Telephone service is available from your telephone to points in Canada, Cuba, England, Scotland and Wales, and to many of the important cities of Continental Europe and of Mexico. Communication may be made to these points or information and rates secured by merely calling long distance in the usual way.

# Information for Bell Telephone Patrons

The Use of the Company's Lines is limited to communications between parties, both of whom are present at the telephone, and employees of the Company are prohibited from accepting written or verbal messages for transmission or delivery.

Local Exchange Calls originating at public pay stations or telephones where it is necessary to deposit a nickel for each conversation are limited to five minutes duration and a charge of five cents will be made for each period of five minutes.

Subscribers to Party Lines are limited to five minutes use of the line at one time.

The Information Operator will Furnish on request, new call numbers of subscribers not listed, and who have had service installed or of numbers which have been changed after this Directory was printed.

It is impractical for Operators to give attention to reports of service difficulties, therefore subscribers are requested to report any irregularities in their service promptly to the Chief Operator.

Ten Days' Notice for Changing location of telephones should be given. Subscribers are requested to report fully by letter any change in firm name or business for correction in the following issue of Directory.

Service Charges are due and payable at the Company's office within the discount period shown on each bill. Accounts unpaid after the expiration of the discount period are overdue and service is subject to suspension.

Schedules of Rates Effective at each exchange are on file at the Manager's office and can be examined by applying there.

A Copy of this Directory is delivered free to every subscriber for use until the next issue, but the book remains the property of the Company. It is imperative that the current issue be always used to obtain correct call numbers.

This Company Assumes no Liability for damages arising from names left out of this Directory or from errors occurring in its compilation or printing.

Telephone Directories of the Principal Cities throughout the Country may be obtained by any of our Subscribers desiring them, on payment of the charges made by the issuing company. Prices and other information may be secured by calling the Manager's Office.

The Fire Department and the Police Department are always available by telephone. Tell your story briefly, calmly and distinctly, giving your street address, and answer promptly any question asked by the Department called.

Patrons are Cautioned against the possible entry into their premises of Fraudulent Persons posing as Repairmen, Inspectors or Collectors. Employees of the Company, duly authorized to install, repair or remove telephones, or collect for service, are provided with credentials. Please guard yourself against any misrepresentation by asking to see these credentials.

Use of Foreign Equipment. The Company is responsible for satisfactory telephone service. It cannot permit the use of any equipment or other apparatus in connection with that furnished by it. Subscribers are cautioned not to purchase or use any equipment not furnished by this Company.

This Company Connects with the American Telephone & Telegraph Company, furnishing service to all of the important cities in the country.

Telegrams May Be Sent over the wires of this Company, to or from Telegraph offices. The Telephone Company does not assume responsibility for the correct transmission of the messages.

Supervision by Private Branch Exchange Operators—The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private Branch Exchange Operators interferes with satisfactory service, and such operators should not remain "cut in" on the line after the connection has been established.

Requests for Charges—If a patron desires notification of the amount of the charge on his message, he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charge.

Report all complaints of long distance service to the "Long Distance Chief Operator."

For information not given above concerning long distance service, call "Long Distance Information Operator."

The Company Cordially Invites all users of the telephone to call at any Exchange for an inspection of the operating room and other interesting details of the business. The unique features of a Telephone Exchange are but little understood by the public at large, and observations by the subscribers often lead to suggestions, tending to the best results in the service.

# “The Line is Busy”

—That’s what the operator would say if someone wished to speak to you and the receiver of your telephone happened to be resting on a book or some other object which prevented it from pulling the receiver hook all the way down.

This happens many times a day. In such cases, of course, the operator is unable to complete calls to those telephones and they are reported “busy” or “out-of-order.”

Telephone repairmen are dispatched to remedy telephones reported in trouble, and many prove to be only a receiver left off the hook or a condition similar to that illustrated by the sketch. †

To avoid interruption to your telephone service, please be sure to replace the receiver on the hook and see that the hook is all the way down after a call has been completed.

## There is real Comfort in having Extension Telephones!

Extension telephones provide convenience that is invaluable in the home. They provide a degree of comfort, that once enjoyed, becomes indispensable.

That is what extension telephones mean to the modern American.

The comfort and convenience an extension telephone provides can be purchased for less than three cents a day.

“WHERE TO BUY IT”

*It's easy to find*  
**"Where to buy it"**

**To find the telephone number of a  
business concern you have in mind—**

**First**—Locate the heading descriptive of the general type of business. This will be found in its regular alphabetical order.

**Next**—Locate the desired concern and telephone number by examining the listings under the heading.

**To find where to buy the article  
or service you wish—**

**First**—Locate the heading indexed by the name of the article or service you wish.

**Next**—Select the dealer with whom you wish to do business. Under this heading may also be found headings descriptive of particular kinds of that article or service and dealers in a position to serve you. The advertisements provide you with more complete buying information.

Trade-mark or brand names will be found in their proper alphabetical order.

# Telephone Equipment

## TO FIT YOUR PARTICULAR NEEDS

If you have a communication problem, either in your home or office, you will find its solution in one of our many types of telephone services. A partial list of the many time saving and convenient facilities offered for your consideration follows:

TELEPHONE SYSTEMS for communication between different parts of the home, office or plant.

EXTENSION TELEPHONES in another part of the office or home.

TELEPHONE TYPEWRITER SERVICE for instantaneous communication of typewritten messages between offices in the same building, in the same city or in different parts of the country.

LOUD RINGING BELLS for locations where noise makes it difficult to hear the ordinary telephone bell.

EQUIPMENT for the reception of telephone orders with speed and efficiency.

Manual and dial private branch exchange systems, hand type telephones and additional services and equipment to meet your special requirements are available.

*A telephone call to our Business Office will bring a representative who will gladly discuss your particular communication problems.*

**Telephone  
Typewriter Service**

Telephone typewriters are important factors in the progress of modern business. Sending the typewritten message instantaneously from one office to another, from one building to another, or from one city to a distant one, the telephone typewriter is a real servant to business.

It can be made to fit in with your particular business and make your inter-office or inter-branch office communication fast, convenient and expeditious.
