The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

The skinny cast
for busy bodies

ZOROC Resin Plaster Bandages

TRADEMARK

Lighter, stronger... it's even washable... for every cast application.

ZOROC* Resin Plaster Bandages are all-purpose bandages. For any and all routine casting procedures. Your busy patients will appreciate the skinny cast's lightness. Skinny, because ZOROC casts can be half as heavy and bulky as conventional plaster casts. Fast-setting ZOROC bandages are 50% stronger than ordinary plaster bandages. Thus you use fewer ZOROC bandages to get the rigidity you want for immobilization. And that strength also means your cast is not apt to crack or break.

What's more, ZOROC casts are resistant to water and urine, from the first cast layer to the last. Cast failures due to erosion are virtually eliminated.

Improved package
locks out moisture.
