MINUTES OF THE ANNUAL MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM
Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, June 9, 1989
9:00 a.m.

- President Schilling presiding -

PRESENT: Regents Clusen, Davis, DeLong, Doughty Luckhardt, Fish, Flores,
Gelatt, Grover, Gundersen, Hanson, Jarvis, Lyon, Nicholas,
Nikolay, Schilling, Vattendahl and Weinstein

ABSENT: None

Approval of the Minutes

Upon motion by Regent Nikolay, seconded by Regent Fish, the minutes of
the May 5, 1989, Board of Regents meeting were approved as distributed.

~~UW-Stevens Point Staff~~ - - -

REPORT OF THE PRESIDENT OF THE BOARD

→ Welcome to Chancellor Keith R. Sanders, UW-Stevens Point p. 1

Regent President Schilling welcomed UW-Stevens Point Chancellor Keith
R. Sanders who recently took office and was attending his first Board of
Regents meeting.

Chancellors - Welcome to UW-Stevens Point Chancellor Sanders, p. 1

Sanders, Chancellor Keith R. - Welcome to UW-Stevens Pt.
Chancellor Sanders, p. 1

Regents - Officers - Officers elected as follows?

Election of Officers of the Board of Regents

- Regent Vice President Lyon presiding -
Paul Schilling, President; Thomas Lyon, Vice President; Judith Temby, Secretary;
President
Marlene Adams, Asst Secretary; Fred Poellnitz, Trust Officers; Charles Stetson,

Nominating Paul Schilling for reelection to a second term as President of the Board of Regents, Regent Clusen stated that Regent Schilling had been a hard-working president and a good representative of the Board and its policies. "I have been impressed by his fairness and his openness in communication. I know he is presently involved in negotiating with the state government in a bipartisan manner on our behalf. He has been supportive of System Administration and of the Board. I think we are fortunate that he is willing to give the time for another term."

Ray Marnocha & David Kuschak, Asst. Trust Officers, PP 2-4

The nomination was seconded by Regent Gundersen.

There being no further nominations, Regent Nikolay moved that nominations be closed and that the Secretary be instructed to cast a unanimous ballot for the nominee. The motion was seconded by Regent Davis and carried unanimously.

Xref: Each name above w/ relation; Relected _____ of the Board, PP 2-4

Regent President Schilling made the following statement: "It is, of course, a great honor to serve as your president. This past year has been an interesting one. I think together we have accomplished much. Implementation of *Planning the Future* has continued on target and there has been no wavering from our plan. We have taken some important new initiatives and fared well thus far in the enormously time-consuming and frustrating budget process.

"Tom Lyon has provided me with excellent advice and devoted a great deal of time to our tasks. President Shaw and I don't always agree, but we always know when we don't agree. We always know where we are coming from. He is delightful to work with and, as we have said before publicly, we should all be proud that he is our president. One other person I always need to single out in these moments is our secretary. Words like indispensable, invaluable--you simply cannot do this job without the excellent support and even moral support that she provides. Finally, I of course want to thank each of you as Board members for our efforts together. The chancellors, administrators and others in this room have provided great support and we have worked together with good will. I am deeply appreciative.

"For the year to come, we are developing a set of agenda items. Vice President Lyon and Secretary Temby worked with me on it. We consulted with the committee chairs and President Shaw and he has circulated it to the vice presidents. It will be circulated next week to the Board. It is a precedent that Laurence Weinstein set when he was president and that we have tried to continue. It is, however, an important exercise in addition to just identifying what we know will come along. I think it is very important for Board members to identify issues that they would like addressed. We have to step back as Board members and look at the forest rather than always looking at the trees that come up at each meeting. So, when you receive it, please send your thoughts so we can build them into our agenda for next year.

"Aside from agenda items, I would like to simply renew a couple of pledges that I made at this time last year. First, my goal is for this Board to continue its great tradition of being nonpartisan, deliberate and patient in carrying out its role in shared governance. Second, I pledge to work hard, with all of you, to keep our System great. It is simply the most treasured asset of this state and we need to keep it that way. Thank you for the confidence that you have shown in me."

- President Schilling presiding -

Vice President

Thomas Lyon was nominated for reelection as vice president of the Board of Regents by Regent Nicholas, who stated that Regent Lyon had served very well in that office. "We all know he works hard and diligently on his endeavors. He has worked very well with Paul Schilling in running this administration in the last year. He is bright, articulate, a good businessman, and I can highly recommend him for another year in this position."

The nomination was seconded by Regent Nikolay.

There being no further nominations, Regent Fish moved that nominations be closed and that the Secretary be instructed to cast a unanimous ballot for the nominee. The motion was seconded by Regent Gundersen and carried unanimously.

Vice President Lyon thanked the Board "for the confidence that you have placed in me. I have enjoyed the past year very much, working with Paul Schilling and all of you."

Secretary

Regent Weinstein nominated Judith Temby for reelection as secretary of the Board of Regents, and the nomination was seconded by Regent Flores.

There being no other nominations, Regent Nikolay moved that the nominations be closed and that the Secretary be instructed to cast a unanimous ballot for the nominee. The motion was seconded by Regent Hanson and unanimously carried.

Assistant Secretary

Regent Grover nominated Marlene Alsmo for reelection as assistant secretary of the Board of Regents and the nomination was seconded by Regent DeLong.

There being no other nominations, Regent Nikolay moved that nominations be closed and that the Secretary be instructed to cast a unanimous ballot for the nominee. The motion was seconded by Regent Grover and carried unanimously.

Trust Officer

Regent Gundersen nominated Vice President Fred Poellnitz for reelection as trust officer of the Board of Regents and the nomination was seconded by Regent Fish.

There being no other nominations, Regent Nikolay moved that the nominations be closed and that the Secretary be instructed to cast a unanimous ballot for the nominee. The motion was seconded by Regent Hanson and unanimously carried.

Assistant Trust Officers

Regent Fish nominated Charles Stathas, David Konshak and Raymond Marnocha for reelection as assistant trust officers of the Board of Regents. The nomination was seconded by Regent Nicholas.

There being no other nominations, Regent Nikolay moved that the nominations be closed and that the Secretary be instructed to cast a unanimous ballot for the three nominees. The motion was seconded by Regent Flores and unanimously carried.

Jarvis, Regent John

~~Regent John Jarvis~~ Designated Regent Emeritus, R 5241, pp 4-5

Regent Nicholas presented the following resolution and moved its adoption by the Board of Regents:

Resolution 5241: Whereas, John M. Jarvis was appointed by Governor Thompson in 1987 as the second student member of the Board of Regents of the University of Wisconsin System; and

x ref Emeritus Regents - John Jarvis Designated Regent Emeritus, R 5241, pp 4-5

Whereas, Regent Jarvis has served the Board with distinction in this challenging role and is now completing his term on the Board; and

Whereas, in addition to bringing a student perspective to Regent deliberations, he brought to the Business and Finance Committee his valuable knowledge as a graduate student of business;

Therefore, be it resolved that the Board of Regents of the University of Wisconsin System hereby commends and expresses appreciation to John M. Jarvis for the meritorious service he has rendered to the University of Wisconsin System and the people of Wisconsin; and

Be it further resolved that the Board of Regents grants to John M. Jarvis the title of Regent Emeritus and wishes him well in all future endeavors.

The motion was adopted unanimously with an ovation for Regent Jarvis.

Stating that Regent Jarvis had been a very constructive and helpful member of the Board, Regent President Schilling recalled that Regent Jarvis had gone through a long and arduous Senate confirmation process, in which he had been called upon to demonstrate his courage and determination, even before officially taking office.

Credit Transfer ->

Statement of Principles on the Transfer of Credit from the VTAE System, R 5242, pp 5-8, VEX A

Regent President Schilling made the following statement: "Following our discussion of credit transfer at the May meeting, Regent Vice President Lyon, Regent DeLong and I met with President Shaw and Acting VTAE Director Davison, at which time we reached tentative agreement on the Statement of Principles before us today. The statement provides, under certain conditions, for transfer to UW System institutions general education credits earned in non-college-parallel programs in VTAE institutions.

VTAE - (same)

"The statement also underscores the importance of maintaining differentiated missions for the two systems. It provides assurance that neither system will seek to expand its mission into the other's area of statutory responsibilities; that the VTAE System will offer only those general education courses needed for students to complete their Associate Degree programs; and that college-parallel programs currently available at Madison, Milwaukee, and Nicolet Area Technical Colleges, will not be initiated in other VTAE districts.

"I am very pleased that our two Boards and systems have been able to work effectively together toward resolution of this complex and difficult matter. It is a model of the type of cooperative effort which will serve both systems well as we continue to address matters of mutual interest.

"The VTAE Board adopted the Statement of Principles at its May 24 meeting. Before the resolution was voted by the VTAE Board, Regent DeLong, the President of that Board, had a very frank and meaningful discussion, in which he made it very plain what the resolution meant and invited all to speak now or forever hold their peace. He certainly committed to us, as we should commit to him, that both of our systems will live up to this agreement. I was impressed with his ability to bring us to the table, and I was equally impressed by the sternness with which he introduced the subject. I am convinced that the VTAE State Board is committed to the principles."

Regent DeLong, President of the VTAE Board, made the following statement: "I would like to reiterate for the entire Board of Regents the commitment of the VTAE System to their part of the bargain of this agreement. I am sure it would not have been brought to this stage if it had not been for President Schilling and Vice President Lyon, along with President Shaw and the staff of our System.

"One of the concerns the UW System had was whether or not we had a commitment to our mission. I stated to the VTAE Board that if anyone had any questions at this time about what the mission of the VTAE System is,

they should speak now or forever hold their peace. One part of our commitment is that we do not want to come into the general education component, except to the extent required by a need for vocational courses. We presently have three campuses which have college-parallel courses, at Milwaukee, Madison and Nicolet. The Board is on record by adopting these principles that we will not seek to expand that mission into any other district in the state. We do not believe that is our mission. Our mission is vocational/technical education and the Board is unanimous in that regard.

"Lastly, and I think most importantly, what both systems need to do is cooperatively inform students and prospective students of our respective missions. If they wish to obtain baccalaureate degrees, the way to do that is to start at one of the UW System campuses. If they want to pursue a vocational associate degree, they go to the VTAE System. We will make it very clear, hopefully in both systems, that the way to obtain a baccalaureate degree is not to start in the Vocational/Technical System. This is to affect only those people who have obtained an associate degree and, for one reason or another, after they have been in the workplace, need to go back to an educational institution, including the UW, to pick up extra courses to further their career path. It is not a path to obtain a baccalaureate degree initially. We are both committed to informing our young people of the missions of each of our systems.

We look forward to holding up our end of the bargain, and as I told our Board, we are putting our trust in the University of Wisconsin System and we think that trust is well-placed with the System. I am confident that we will be able to work it out and in the future end up with a better educational system for all of the students in the State of Wisconsin. I am very happy that we are on the way."

It was moved by Regent DeLong and seconded by Regent Weinstein that Resolution 5242 be adopted by the Board of Regents.

Resolution 5242: That, upon recommendation of the President of the University of Wisconsin System, the Board of Regents approves the Statement of Principles on the Transfer of Credit from the Vocational, Technical and Adult Education System to the University of Wisconsin System as a guide for the drafting of a revised University of Wisconsin System Undergraduate Transfer Policy, to be presented to the Board for approval at the December 1989 meeting.

Thanking the participants in the process, President Shaw noted that Regent President Schilling and Regent Vice President Lyon were extremely helpful, as was Regent DeLong and Acting Director Davison. Stating that the arrangement is educationally sound, he said it provides for access and transferability within limits, while maintaining quality assurance. Secondly, it enunciates the distinctiveness of the respective missions of the two systems, by stating that there will be no new college-parallel programs and by placing a limitation on the number of general education courses that can be accepted.

Regent Weinstein congratulated those involved in reaching the agreement. Since the guidelines are so definitive, he asked why the matter could not be finalized until December.

Regent President Schilling replied that, with the vote at this meeting, the statement would be finally adopted. The time between now and December would be needed by the institutions for development of procedures for review of VTAE courses.

Adding that the advising statement mentioned by Regent DeLong would be important, President Shaw said it would be difficult to finish that statement by September. Secondly, the institutions would need time to work with one or more VTAE districts to develop protocols. The campuses would have to determine in discussions with the VTAE institutions which classes were most likely to be the ones presented for transfer. That would be important not only for analyzing the courses, but also for determining a testing device for those courses that would not transfer. However, the policy statement itself would be final when adopted at this meeting.

Regent Weinstein inquired as to whether students could transfer credits in September.

Regent Schilling replied that the effort would be made to accommodate transferees as promptly as possible. Students would be covered by the policy upon its adoption.

President Shaw added that in December, the Board would receive not only a report, but an entire transfer document to be acted upon. That document would include the policy statement plus other considerations in terms of priorities for transfer.

Regent Nikolay commented that the policy statement amounted to "a foot in the door," which would result in creation of 16 additional junior colleges. Stating that the associate degree programs were never intended to be college-transfer courses, he said he had talked to many students who had attended both systems and who indicated that courses were not comparable. From the time the VTAE System was created, he added, district directors aspired to be college presidents and would not relinquish that objective until there was another junior college system in Wisconsin. Therefore, he intended to vote against the resolution.

Regent Hanson stated that, while she recognized the good intentions of those in both systems who developed the Principles, she agreed with what Regent Nikolay had said and also would vote against the resolution.

Noting that current policy had created hardship in some types of cases, Regent Schilling cited the example of a nurse with a VTAE degree who decided to return to school to study for an R.N. degree, only to find that none of her VTAE credits would transfer. Under the new agreement, the receiving institution would examine those credits just as credentials from any other institution would be examined. The movement would be from a situation in which the door was closed in an artificial way to a situation in which students would be able to present their credentials for review. For general education courses to transfer, a student would have to complete an associate degree consisting of 60 credits. Of those 60 credits, the UW System institution could accept up to 15 general education credits. While that might be a small "foot in the door," he thought the UW System would be more honestly dealing with people seeking an education under this policy than under the current policy.

Regent Clusen observed that both systems probably had some sense of unease about the new policy, because it would establish a new kind of relationship between the systems. As a practical matter, she preferred having the agreement reached by the two systems to having the Legislature impose a solution.

Regent Schilling pointed out that, prior to adopting this Statement of Principles, the State VTAE Board had never before stated that there would be only three college-parallel programs and that other programs with a large component of general education credits would not be initiated. The State Board sent a very strong message to the district directors that the institutions would not be allowed to become community colleges.

Regent Gundersen remarked that the UW System should be like a peninsula and not like an island. If there is a lapse between the time credit is earned in the VTAE System and the time education in the UW System is sought, examinations could be used to determine if credit still should be granted. Noting that the state is experiencing a serious nursing shortage, he thought the support of this agreement by the Wisconsin Nurses Association was a powerful endorsement for its approval.

While he understood the doubts and concerns expressed about expansion of the VTAE role, Regent DeLong indicated that one of the most important considerations in selecting a new state VTAE director was the candidates' views of community colleges and the role and mission of the VTAE System. Noting that there were those in the VTAE System who doubted that the UW System would implement the Statement of Principles in good faith, he emphasized the need for the two systems to trust each other and work together to provide the best education possible for the students of the state. He assured the Board of Regents of the firm commitment of the VTAE Board, as well as the Governor, not to increase the number of college-parallel programs in the VTAE System.

Put to the vote, Resolution 5242 was adopted, with Regents Hanson and Nikolay voting "No."

Regent President Schilling stated the expectation that both systems would apply to implementing the policy the same measure of good will and hard work that had been applied in reaching the agreement.

(The Statement of Principles is attached as EXHIBIT A.)

VTAE - Report on Training + on minority recruitment and retention, pp 8-9

Report of the President of the State Board of VTAE

Regent DeLong referred to his written report regarding the May 24 VTAE Board meeting.

In response to a question by Regent Doughty Luckhardt, he explained that the purpose of the \$361,000 for professional development and customized training projects in several districts is to respond to the need of individual businesses to upgrade employee skills. Using GPR and Vocational Education Act monies, customized training projects are funded for specific industries. In addition, some industries and businesses contract with the

VTAE System and pay the full cost of training. In the professional development projects, staff are sent into industry for a period of time to ensure that what is being taught by the VTAE districts is the state of the art. In customized training projects, VTAE schools take the training to the businesses themselves. A growing area in vocational education is on-site training and retraining of employees to meet the needs of businesses that are retooling or computerizing.

Replying to a question by Regent Gundersen, Regent DeLong indicated that foundations provide funds for specific needs on a district-by-district basis. Support also comes from the state foundation.

Minority Recruitment and Retention

Regent Weinstein suggested that the Department of Public Instruction, the VTAE System and the UW System join in considering the issue of recruiting and retaining minority students, with the possible goal of developing a master plan to address problems that exist in all educational sectors. "We are not in competition with each other. We are all citizens of the same society. . . . This is an area that has troubled us for many years. I hope that you can begin now to deal with it, the three institutions together, because the needs are great and the time is now."

Regent DeLong agreed that Regent Weinstein's suggestion was an excellent idea.

Regent Flores also concurred, noting that nationally a large percentage of minority students begin their pursuit of higher education in technical schools or community colleges. While expressing approval of a comprehensive minority recruitment and retention plan, he cautioned that care must be taken to avoid stereotyping and tracking racial minorities into certain types of programs.

Regents - Presentations

Presentation on UW-Madison and Moscow State University Cooperative Programs

pp 9-12

President Schilling introduced the presentation by noting that in March of this year, he and Chancellor Shalala visited Moscow to sign an agreement for a comprehensive scholarly exchange program between UW-Madison and Moscow State University. UW System Vice President Trani and UW-Madison Slavic Languages Department Chair David Bethea also were there to finalize negotiations.

Moscow State University - (same)

The agreement, which was described by *The New York Times*, as "the most ambitious partnership a Soviet university has undertaken with an American research university," allows undergraduate students at each institution to enroll in classes at the other institution, increases study and research opportunities for graduate students and provides for an exchange of professors as well as publication of a joint scholarly journal. The establishment of *glasnost* and *perestroika* allowed Soviet institutions to look to the West to form academic relationships. Moscow State University chose UW-Madison as an exchange partner, the result of a long and valued relationship between educators at Moscow State and colleagues at UW-Madison.

In introducing Letters and Science Dean E. David Cronon, Chancellor Shalala noted that he was the first Fulbright lecturer at Moscow State University, considered the most important university in the Soviet Union.

Dean Cronon emphasized the prestigious standing of Moscow State University, noting that most of the top Soviet leadership attended Moscow State, including Mikhail Gorbachev and his wife. Leaders of Moscow State University stated that their willingness to enter into a comprehensive scholarly exchange agreement was based on their knowledge of the quality of UW-Madison as well as the long association with faculty, graduate students and some administrators of the University System.

Since the late 1950s, Dean Cronon explained, there has been a sizable number of UW-Madison faculty and graduate students engaging in research at Moscow State University, with a closer relationship beginning with approval of a Fulbright lectureship agreement in 1973. As a Fulbright lecturer, he taught American history at Moscow State in the spring semester of 1974--the first foreigner ever to teach a regular course for credit at that university. A required course for Russian students majoring in American history, Dean Cronon's class was apparently perceived by the Soviets as a success because Moscow State's History Department asked for a Fulbright lecturer for each of the next 15 years. It is now the longest uninterrupted Fulbright lecturer series in a single department in any university in the world.

Two other UW faculty members have served as Fulbright lecturers in American history at Moscow State: in 1981 UW System Vice President Eugene Trani, then representing the University of Missouri at Kansas City; and in 1987, Professor John Cooper, Chair of UW-Madison's History Department.

The impetus for this recent agreement came a number of years ago when Vice President Trani, on a visit to Moscow, met with Vice-Rektor Tropin, who remarked that Moscow State would be interested in a broad exchange agreement with a major American university if they could find the right partner. Upon Vice President Trani's appointment to the UW System, he relayed this conversation to then Acting Chancellor Cohen. The resulting visits by the Moscow State University delegation to Madison led to discussion and formulation of an exchange agreement. The Soviets expressed hope that this agreement would be a protocol for a more comprehensive exchange.

Last December, Professor Bethea and Dean Cronon returned from Moscow to help design the new comprehensive exchange agreement, a reverse of the existing Fulbright agreement. Moscow State University faculty members, experts in various aspects of Russian studies, would visit UW-Madison each year for a semester to give lectures in any one of a number of possible departments. Vice President Trani's influence as a current member of the Fulbright Council led to an extraordinary five-year commitment from the Fulbright Program to fund this comprehensive exchange.

Explaining the plans to implement this exciting agreement, Professor Bethea said that it offers students unique access to a part of the world that is undergoing very rapid change. The first group of graduate and undergraduate students will arrive at Moscow University on the September 12 and return before Christmas.

The agreement will be open to undergraduates, graduates and faculty campus-wide. Administered primarily by Dean Fred Hayward in the Office of International Programs, the agreement is primarily a one-to-one exchange at the undergraduate and graduate level. The undergraduates will pay their room, board and tuition expenses plus travel expenses to Moscow, in order to study at Moscow State University, where they will receive a room in the dormitory and a monthly stipend, which is quite generous by Moscow standards--about 180 rubles, more than the monthly salary of many Russians.

According to exchange quotas, each side will send up to 20 undergraduates, ten graduates and eight faculty members each academic year. Undergraduates and graduates will attend either a semester or an academic year.

Laurie Nelson, Department of Slavic Languages at UW-Madison, will be the contact person in the Soviet Union, coordinating the undergraduate program and maintaining student morale.

The undergraduate and graduate programs consist of two tracks. The first required mainly for undergraduates, consists of a fixed curriculum of language, culture and history courses. Those that are specially gifted linguistically may take specialized courses with their Soviet colleagues. Students will receive full credit for this experience.

Graduate students on the second track will design comprehensive research proposals and submit them to Moscow State University. Moscow State then will assign each student a graduate advisor to supervise the student's research in the Soviet Union. Upon conclusion of the research, the graduate student will write a comprehensive paper to be submitted to academic advisors at UW-Madison. For this work, the students will receive six to nine graduate credits.

Concluding the presentation, Professor Bethea said that one of the most innovative aspects of the exchange is the provision for joint scholarly projects. Devised by Vice President Trani, a joint yearbook on Soviet-Russian affairs will be written, with an editorial board comprised of distinguished faculty from both institutions. The yearbook will contain high-level scholarly research by American scholars, translated into Russian, with commentary by Soviet colleagues. It appears the yearbook will be the first legitimate forum for American Soviet specialists in the Soviet Union.

UW System Vice President Eugene Trani commented on the vast changes occurring in the Soviet Union recently. He stated that UW-Madison now will be in a position to help in those changes by having 30-40 Soviets visit Wisconsin every year and an equal number of Americans traveling to the Soviet Union.

Vice President Trani commended the work of the late Soviet professor, Nikolai Sivachev, in helping establish and maintain the Fulbright lectureship program. He recalled times in the past 15 years the efforts of Dr. Sivachev contributed greatly to keeping the relationship alive between the two universities when strained relations between the two governments jeopardized the academic program, and he expressed the hope that UW-Madison could bring to fruition some of Dr. Sivachev's dreams for further academic exchanges between the Soviet Union and the United States.

President Schilling commended Professor Bethea for the exceptional linguistic abilities he had demonstrated during the trip to the Soviet Union to sign these documents.

Chancellor Shalala stated that UW-Madison would be increasing its efforts to revitalize its programs in Slavic and Soviet studies, increasing the stature of that entire academic program.

Commenting that he believes this exchange agreement to be a very exciting and timely achievement for UW-Madison, Regent President Schilling also recognized the outstanding contributions via international contacts that Vice President Trani is making to the entire UW System.

Admin. Code ->

→ Action on Proposed Amendments to Chapter UWS 17, Wisconsin Administrative Code (Student Nonacademic Disciplinary Procedures), R5243, pp 12-20, + EX B

Regent President Schilling reported that the Board of Regents held a public hearing the preceding day on proposed amendments to Chapter UWS 17, Wisconsin Administrative Code, regarding student nonacademic disciplinary procedures. Sixteen Regents were present for the four-hour-long hearing which began at 9:00 a.m. and concluded at 1:10 p.m. The Board heard testimony from 21 persons and received written testimony from two persons who did not appear at the hearing, as well as from several who did appear.

Upon conclusion of the hearing, it was agreed that legal staff would revise the proposed rules to incorporate technical recommendations made by the Legislative Council Rules Clearinghouse. It was further agreed that substantive changes would be drafted on a separate paper for consideration at this meeting.

After completing consideration of amendments, action would be taken on whether to forward the proposed rules in final draft form to the Legislature for review.

If submitted to the Legislature, the rules would be forwarded by the presiding officer of each house to standing committees, with the review period for each committee extending for 30 days after referral. If no committee action is taken, the rules would be returned to the Board for promulgation. If a committee recommends modification, the proposed modifications would be returned for consideration by the Board. If a committee objects to the proposed rules, the rules would be referred to the Joint Committee for Review of Administrative Rules.

It was moved by Regent Grover and seconded by Regent Weinstein that Resolution 5243 be adopted by the Board of Regents.

X ref Minutes - (same)
X ref Students - (same)
X ref Design for Diversity - (same)

Resolution 5243: That the Secretary of the Board of Regents, pursuant to s. 227.19, *Wis. Stats.*, notify the presiding officer of each house of the Legislature that proposed amendments to Chapter UWS 17, *Wis. Admin. Code.*, are in final draft form and cause a statement to appear in the Wisconsin Administrative Register that the proposed amendments have been submitted to the presiding officer of each house of the Legislature.

Regent Weinstein called attention to a paper setting forth the elements which would constitute a violation of the proposed rules. He had asked that the paper be prepared so that there would be no misunderstanding as to what type of behavior would be prohibited.

Regent Fish asked if it was correct that, if Resolution 5243 failed to pass, the rules would not be forwarded to the Legislature and in effect would be killed.

Regent President Schilling agreed that the interpretation stated by Regent Fish was correct. He then called on Senior Legal Counsel Hodulik to describe the documents she had prepared for the Board.

Ms. Hodulik explained that the first document, titled "Proposed Order" incorporated the technical changes recommended by the Legislative Council.

The other document, titled "Possible Amendments to the Text," contained four amendments for Board consideration. The first, an amendment to the analysis section of the rule-making order, would not be part of the substance of the rule. It responded to the suggestion by the Legislative Council that reference be made to the legal doctrine supporting the limitations on expressive behavior reflected in 17.06(2). That amendment read as follows:

- (1) Amend the Analysis section of the rule-making order to include a reference to the legal principles on which proposed UWS 17.06(2), dealing with expressive behavior, is based. A new paragraph could be added to the Analysis section, as follows:

Because the proposed amendments affect certain kinds of expressive behavior, care has been taken in the drafting process to assure that the rules are consistent with the First Amendment to the United States Constitution. Both the "fighting words" doctrine articulated by the United States Supreme Court, and existing employment law prohibiting workplace harassment served as sources for the rule's limitations on expressive behavior.

The second was an amendment to the example of the physical intimidation portion of the rule to clarify that the example dealt only with physical conduct. That amendment read as follows:

- (2) Amend proposed UWS 17.06(1)(a) to clarify that the intimidation described in this example is physical intimidation. The section would then read:

(1)(a) A student would be in violation if he or she attacked or otherwise physically abused, threatened to physically injure, or physically intimidated a member of the university community or a guest because of that person's race, sex, religion, color, creed, disability, sexual orientation, national origin, ancestry or age.

The third and fourth amendments reflected suggestions made by UW-Madison Law Professor Ted Finman:

(3) Amend proposed UWS 17.06(2) to emphasize that the standard for determining whether particular speech is demeaning or creates a hostile environment is objective, not subjective. This could be accomplished by adding a sentence to proposed UWS 17.06(2)(b). The paragraph would then read:

(b) Whether the intent required under par. (a) is present shall be determined by consideration of all relevant circumstances. Whether a group is demeaned or the requisite environment is created under par. (a) shall be determined by considering the impact of the conduct in question on a person of average sensibilities belonging to the group in question.

(4) Amend proposed UWS 17.06(2) to add an example of conduct that is not prohibited by the proposed rule. The following example of a classroom situation could be added as a fourth example under proposed UWS 17.06(2)(c):

4. During a class discussion, a student expresses a derogatory opinion concerning a racial or ethnic group. There is no violation, since the student's remark was addressed to the class as a whole, not to a specific individual. Moreover, on the facts as stated, there seems no evidence that the student's purpose was to create a hostile educational environment.

It was moved by Regent DeLong, seconded by Regent Weinstein and voted unanimously that the technical amendments shown in the five-page proposed order be approved.

Regent Hanson stated for the record that she did not wish the fact that she did not vote against the technical amendments to be interpreted as being in favor of the rule.

Regent Weinstein asked the advice of Professor Finman and Attorney Hodulik with regard to the remaining four possible amendments.

Ms. Hodulik advised that it would be consistent with the purpose of the rule to adopt the four amendments and that they probably would alleviate some concerns about the clarity of the rule.

Professor Finman agreed that all would be appropriate and helpful, rather than harmful, to the rule.

Stating that he did not favor any of the amendments, Regent Flores noted that the first, second and fourth were simply explanatory and added

nothing of substance to the rule. The third, however, would establish a kind of community standard, which would only raise questions as to what "average sensibilities" are and whether they vary from place to place.

Regent Gelatt moved the adoption of Amendment (1) and the motion was seconded by Regent Jarvis for the purpose of discussion.

Speaking in opposition to the amendment, Regent Flores expressed concern that, by incorporating such wording in the analysis, the Board would tie the rule to a basis that might be too narrow. If a court disagreed with the analysis, the rule could be overturned for that reason.

Regent Gelatt stated that he made the motion because public discussion had not taken into account all the information that was considered by the Board of Regents. He thought that the proposed language would help educate people as to the basis for the rule.

While he agreed with Regent Gelatt's intent, Regent Weinstein suggested that such explanations might better be used in communications which would accompany the rules. He shared Regent Flores' concern about officially tying the rules to specific doctrine at this point.

Regent Gundersen concurred that the explanation could be made in a supplementary document without incorporating it as an amendment.

The question was put on the amendment, and it was defeated on a voice vote, with Regents Doughty Luckhardt, Fish and Nicholas voting "Present."

In response to a question by Regent Schilling, Attorney Hodulik stated that the second amendment was a matter of clarifying the intent that the word "intimidated" referred to physical intimidation.

Regent DeLong moved adoption of Amendment (2) and the motion was seconded by Regent Jarvis.

Put to the vote, the amendment was adopted on a voice vote, with Regents Doughty Luckhardt, Fish and Nicholas voting "Present."

There was no motion to act on Amendment (3).

Regent Nikolay moved adoption of Amendment (4) at the request of the author who wished to speak to the matter. The motion was seconded by Regent Jarvis.

Professor Finman noted that at the public hearing, concerns were expressed about the possible application of this rule in a classroom context, which would be an incorrect application. In terms of explaining the rules, he thought it would be helpful to include an example which would make clear that the rule is not applicable in the classroom and would state the reason for inapplicability in that setting.

Put to the vote, the amendment was adopted with Regents Flores and Hanson voting "No" and Regents Doughty Luckhardt, Fish and Nicholas voting "Present."

There being no further amendments, Regent President Schilling called for discussion on the main motion.

Regent Fish stated that in his 17 years as a Regent, he had never felt as strongly about any issue as he felt about this one.

Referring to comments made at the hearing he noted that examples of despicable speech were cited by several speakers, while another speaker testified that the cited examples would not be actionable under the rules. Yet another testified that recent racial incidents would not be covered under the rules. He had been shocked to hear one student state that national interest should supersede constitutional rights, even though history is replete with examples of governments that have used that philosophy as a basis for repression. Another speaker justified the rules based on the view that the Constitution was faulty at its inception, ignoring the fact that machinery exists to amend the Constitution if that is deemed desirable.

Setting forth the reasons he thought the rules should be defeated, Regent Fish stated as follows: "First, it is admittedly symbolic. Current rules and state and local laws can and have addressed such actions. Free speech should be protected. I don't think we should confuse idiocy with illegality. Second, heightened expectations that cannot be realized will exacerbate and not solve societal errors. Third, it would appear that expressions, however they are defined--and there is no way you can define them--will be adjudicated by student affairs officers, not chancellors. Fourth, faculty, especially in the arts, but throughout the System, may lose control of class content.

"But, finally and most important is the constitutional issue itself. I ask again, how can this institution, which is a bastion of freedom and has been a bastion for free expression, conceivably view the amended rule as a step forward? I find it inconceivable that this institution should mount a challenge to the Constitution from the censorship edge. Make no mistake that free expression protects stupidity and crassness and distasteful comments. That these things exist, we all agree is deplorable. But, are we willing to pay this high a price? Are we willing to fill up the moat that protects this citadel of freedom? I am not. I am appalled that we are even debating this issue. 'No' is a hard vote, I agree, but it is the right vote. I am going to vote 'No.'"

Regent Weinstein stated that he too felt strongly about the issue but had reached the opposite conclusion. It seemed to him that there were two questions to be addressed, the first being whether the proposed UWS 17 is good university policy. He found helpful President Schilling's analysis of *Design for Diversity* as a continuum of ideas, many of which address the educational process. This rule is at the far end of the continuum, dealing only with individual-to-individual conduct.

"I believe it is good university policy because it is consistent with *Design for Diversity*. It does, in the words of our chancellor from Oshkosh, enhance *Design for Diversity*. It sends the right signals at the right time. I was persuaded by the fact that it received the strong endorsement of no less than our own Regent President, our System President, Special Assistant Sulton, Chancellors Shalala, Smith, Penson and the student

organizations. It is the duty of our administrators to carry out *Design for Diversity*. If they are asking for ways to enhance that effort, I want to support them. It does send the right signals to both minority and majority students, as President Shaw pointed out. I believe, along with him, that is a valuable educational tool.

"If it is good university policy, which I am convinced that it is, then the second question is whether the revision violates the Constitution. That is a judgment call. I am comfortable relying on Professors Delgado, Finman and Baldwin, who all agree that it does not, as a matter of fact, violate the First Amendment to the Constitution. They, each of them, come to the Constitution quite differently, and yet on this very limited language, they all agree. I am comfortable relying on that advice. In the end, if challenged, the courts will decide. However, I think we have been extremely cautious in dealing with this issue. I believe, along with Vice Chancellor Cargile, that UWS 17 can provide a model. I think it does. I totally agree with Chancellor Penson that it is timely, appropriate and helpful. That is why I am going to vote for it, and I urge your support as well."

Regent Flores made the following statement: "We, the freest country in the world, have on many, many occasions, abridged freedom in certain areas. What we are regulating here is not free speech. It is conduct and speech as conduct which contributes absolutely nothing to the free exchange of ideas and has no value whatsoever to the University. I have thought about this for a long time, and I think that when we hide behind the First Amendment on this issue, we are mistaken. I am a believer in the Constitution and the First Amendment and freedom of speech and the free exchange of ideas, especially on campus. But, that is not what we are regulating here. I would urge your support."

Regent Nicholas made the following statement: "I am going to oppose this revised code for the following reasons: First of all, freedom of speech and First Amendment rights. I would rather err on the side of allowing free expression than restricting it in too many ways. Second, another way to describe my feelings would be to say that the cure is worse than the disease. Third, I think the revised code is too inexact and vague and too subject to different interpretations. I think the very fact that we have struggled with this for so long indicates that we can't quite get to what we want. I think enforcing it fairly would be very difficult, both as to violations and penalties. Also, where do we start and where do we stop on the issue of what people can say? Will there be future areas of concern where we may want to restrict free speech again? Last night, I was listening to President Bush, who mentioned a saying which I am going to repeat: 'Sticks and stones may break my bones, but names will never hurt me.' It seems to me this age-old saying has real merit and should be remembered. Finally, Voltaire said, 'I wholly detest what you say, but I shall defend to the death your right to say it.' The next threat to freedom of expression may not be motivated by such a noble cause as what we are talking about today."

Regent Nikolay made the following statement: "There is a First Amendment question here. It is free speech. It may not be speech that contributes to the learning of students at the university, but if some idiot wants to call someone else a name, they ought to have that right in a free society."

He also was concerned about the implementation of the rule. "You must not have considered at all what an administrative jungle this is going to create. I can visualize on each campus a staff of one hearing officer and four or five secretaries--you are not going to get by for less than \$50,000 a year to administer this rule on every campus. And then they are not going to be able to do it properly. This rule does not begin to define what class of hearing we are going to have, whether it is going to be a full-blown hearing with a record made that you can appeal to the circuit court or whether some administrative officer is going to sit in judgment on that student who allegedly called someone a bad name. That is what we ought to be considering along with the First Amendment implications: the administrative jungle that this is going to create. There is no way that you are going to be able to escape that when you start trying to administer this law. It is a model of vagueness, and I guess it was meant to be, because it was repeated time and time again yesterday that this sends a signal. Well, it is a very costly signal to accomplish the result that we are trying to attain. I can't support it."

- Vice President Lyon presiding -

Regent Schilling explained that the institutions all had mechanisms in place to implement and enforce the other elements of Ch. UWS 17. The same process would be used for these rules.

Urging support of the proposed rule as amended, Regent Schilling made the following statement: "None of us approach this topic easily, because all of us have that sense that we ought to be extremely careful when we talk about anything that smacks of regulating speech. We all know that there are many instances which have in the past been regulated and been upheld by the courts.

"I agree with Regent Weinstein. I think this is good university policy, first of all. I want to emphasize again, as I said yesterday, that it would be a great mistake for the public to think that this is all that *Design for Diversity* is about. Again, permit me that metaphor. I think *Design for Diversity* could be laid out on a continuum and if there are 100 points across the continuum, we start with stupidity on the far end. We need to educate to eliminate stupidity. Then we get toward the center and some things that happen on campuses--we have all heard about them--clearly demonstrate gross insensitivity. *Design for Diversity* is going to address that issue through education. There are going to be new course requirements that people need to take, about what it is to be in a diverse society with students coming from different backgrounds. So, as I see it, about 98 percent of that continuum we are going to deal with as we have always done in the past and hopefully always will in the future--by educating. Let's get rid of the stupidity. Let's address the insensitivity. But, on the very end of the continuum is some conduct that is plainly mean-spirited and offensive to the environment of the university. When you get all the way over to that far end of the continuum, you meet this rule. This rule, too, has a gradation of penalties that can be affixed. But, if it is of the meanest sort, the vilest kind of conduct, we just don't want those people. I hope that this rule is always thought of as being only for those few rare instances when we are way beyond any expression or exchange of ideas and we are simply beyond insensitivity into mean-spirited conduct by one individual to another. We have always tried to address that at the university. This is just another form of addressing it."

- President Schilling presiding -

Regent Davis made the following statement: "I feel very strongly about this as well. Multiple generations of my family have felt very strongly about this issue. If there are free speech issues here, they will be tested in the courts. I keep getting told that free speech is the price you pay to live in a democracy. I keep telling everyone that very few people are paying that price. It is primarily those who are the brunt of negative speech--minorities, females and disadvantaged. It is very interesting to me as I listen to these arguments and as I think of all the kids who worked their way through school. If someone is working at the Union and a co-worker subjects that person to some racially derogatory speech, that speech is covered by a well-developed body of law. It is patently illegal. But if they step out of the Union, somehow that same derogatory language directed by the same individual against the same individual is subjected to some lofty intellectual protection. I totally reject that argument. I don't think this a free speech issue. I think it is a conduct issue. I don't see any difference between those two situations other than a pair of steps."

Addressing concerns that had been raised, President Shaw made the following comments: "The first is the concern that this would create false expectations. I suspect that is true of most laws and most rules; that people will misinterpret and perhaps have expectations that are too high. I would contend, however, that in this instance, this rule will serve to correct a number of false impressions. For example, in the absence of any policy of this nature, we had a number of incidents on our campuses where we were urged to do things that clearly were not consistent with the proposed rule and not consistent with freedom of speech. I think, as a matter of fact, that by having a rule, we will correct a number of false impressions about what can be done.

"In my three-and-a-half years here in serving you, I believe this has been the most substantive discussion that we have had on any issue. I doubt that anyone will leave this room believing that those who vote one way or the other have bad intentions. Honest people are differing. That has been very healthy.

"My final point regarding the creation of false expectations is that if you look at some of the substantial decisions that have been made over the years, whether it is the Thirteenth Amendment, whether it is public accommodation laws, indeed whether it is The Emancipation Proclamation itself, one could say that a reason not to do it is that it would create false expectations. I think that is a risk that we ought to be willing to take.

"Secondly, a concern is raised about causing confusion--that the rule will have enough ambiguities in it that we will be arguing over it. I suspect that there is some truth to that in any law or rule that is passed. I would hope that we would not hold rules in this area to a higher level of expectation in terms of avoiding all ambiguity. So, I urge you to give this favorable consideration. I think it does send a very strong and important message."

Put to a roll-call vote, Resolution 5243 was adopted, with Regents Clusen, Davis, DeLong, Flores, Gelatt, Grover, Gundersen, Jarvis, Lyon, Schilling, Vattendahl and Weinstein (12) voting "Aye," and Regents Doughty Luckhardt, Fish, Hanson, Nicholas and Nikolay (5) voting "No."

(The amended proposed rules are attached as EXHIBIT B.)

Legislative

Report on Pending Legislation, pp 20-24

Expressing appreciation to the Regents, chancellors and their staffs for their cooperation and support, Vice President Bornstein noted that Regent President Schilling, Regent Vice President Lyon and other Board members had invested considerable time and effort to help advance the UW System budget.

The Joint Committee on Finance had concluded its budget deliberations late the previous week and consideration by the State Senate was about to begin.

The Joint Committee on Finance had taken favorable action on a number of important budget initiatives, including increased funding for computer access, libraries, supplies and expenses, and research and public service. It was hoped that a number of remaining concerns would be addressed and resolved by the Senate and the Assembly in the weeks to come.

Compensation - Legislative approval of faculty catch-up, pp 20-24

A major concern was the Joint Finance Committee's action regarding faculty and academic staff salary catch-up. The committee endorsed increased funding for faculty catch-up but made significant modifications in the Governor's recommendations by providing for half the money to be placed in a recruitment and retention fund and half the money to be used as a supplement to the pay plan. In doing so, the recommendation moved away from the principle of basing catch-up salaries on competitive market forces, creating instead a "star" fund under a separate appropriation. In doing so, it abandoned the goal of having UW System faculty reach the median of their respective institutional counterparts. No alternative methodology was used in determining the split of funds between recruitment/retention and the pay plan. The committee's statutory distribution guidelines also differed substantially from the Governor's proposal and included a number of factors wholly unrelated to market considerations.

System Administration believed it essential to restore the market-driven focus to faculty and academic staff catch-up and to have catch-up funds placed within the general appropriations line, not in a separate line appropriation. Minor statutory language modifications also could allow retirement savings to be made available for future compensation needs.

For academic staff, the committee recommended only \$2.5 million instead of the Governor's proposal for \$4.7 million. It also tied additional strings to the requirements for seeking release of that funding in November of 1989. Besides the need to restore funding to the level recommended by the Governor, there also were concerns about some of the reporting requirements tied to release of the money.

In *Design for Diversity* initiatives, the committee recommended \$900,000 for student aid but transferred it to the Higher Education Aids Board as part of the Talent Incentive Grant program. System Administration strongly believed that the Financial Incentive Program should be administered within the university, as are the Advanced Opportunity Program and the Lawton Grants program, on the basis that the UW System institutions could not be directly accountable for the results of a program that they did not administer.

In another aspect of *Design for Diversity*, the committee reduced the Governor's proposal for the Advanced Opportunity Program by one-quarter of a million dollars and amended statutory language to give preference to all eligible resident graduate students prior to distributing funds to nonresidents. The effect would be to require the UW System to provide Advanced Opportunity Program funding to economically disadvantaged non-minority students before providing awards to minority nonresidents. That would decrease the Advanced Opportunity Program awards made to under-represented groups at the graduate level, which had been a consistent Regent concern.

There also was concern about the committee's actions in business education. The Regents had requested additional GPR in both years of the biennium to finance the strategic business plan and a special fee for MBA students to help finance business education. However, the committee did not approve first-year GPR funding and denied the request entirely for a special MBA fee. System Administration believed it to be in the best interest of the state, the schools and the students to restore the special fee and the \$2.1 million deleted by the committee. The absence of these funds during the next biennium would have serious consequences for business education initiatives.

The committee also rejected, with one exception, the concept of enumerated planning monies for the State Building Commission projects submitted by the Regents. System projects affected by the Committee's action included the libraries at UW-Eau Claire and UW-La Crosse, the UW-Milwaukee Business School, the Albee Pool at UW-Oshkosh and the Fryklund Hall remodeling at UW-Stout. It was hoped that steps would be taken to restore the enumerated planning funds for the UW System as well as for other state agencies.

The committee also recommended a per-credit tuition structure, although the Board of Regents twice considered this option and concluded that it would have both academic and financial disadvantages. For example, institutions could have unanticipated revenue consequences and there could be a decrease in average course loads that would extend time-to-degree for many students.

In addition, a number of management concerns were spelled out in detail by Regent President Schilling in a letter to legislative leadership. They included committee recommendations directing specific composition of the UW-Madison Athletic Board, a \$720,000 annual increase in parking fees at UW-Madison to support non-income sports, and the creation of an analytical staff for the Board of Regents, separate and apart from System Administration.

The next steps in the budget process were Senate action the next week in both caucus and floor sessions and Assembly action in caucus and floor sessions the following week. The latter part of the month was set aside to resolve differences between the two houses. The budget had been and would continue in the coming weeks to be a principal focus for the University Relations staff.

Turning to other legislation, Vice President Bornstein reported that SB 69, the bill which would cover new government-purpose foundations, was referred to Senator Plewa's Government Operations Committee for further study and that the committee intended to take its time to review the pros and cons of that bill most carefully.

Second, while the Educational Savings Bond Program for College and University Tuition, developed and recommended by UW System and included by Governor Thompson in SB 31, was not included in the Joint Finance recommendations, Speaker Loftus was expected to introduce a parallel Cap and Gown Educational Bond Program as part of the Assembly's budget consideration.

Third, Representative Barca had indicated that he now saw no need to advance his proposed bill on VTAE general education credit transfer to the UW System, thanks to the UW System and VTAE Joint Statement of Principles and the leadership of Regent President Schilling, Regent Vice President Lyon, Regent DeLong, President Shaw and Interim Director Davison.

Regent President Schilling commended President Shaw, Vice President Bornstein, and Assistant Vice Presidents Ward, Breuscher and Martin for their diligent efforts on behalf of the UW System budget.

Commending Regent President Schilling, as well as President Shaw and his staff, Regent Vice President Lyon noted their perseverance in promoting the Regents' budget priorities.

Lynn, Regent Thomas - statement to Board re. Jb. Finance Committee,
 Regent Vice President Lyon then made the following statement: "There are several actions that have been taken by the Joint Finance Committee that have been a disappointment to me. Their deliberation can only be interpreted as a belief that the Board of Regents and System Administration have not properly and with prudent judgment evaluated the critical areas of faculty and staff compensation; capital needs; tuition assessment; minority programming; and governance issues. I believe that political posturing has superseded sound educational programming in recent weeks. pp 22-23

"I fully recognize that the Joint Finance Committee's responsibility is to scrutinize the Regents' and the Governor's request and to make recommendations to the full Legislature. Thirty-seven percent of the UW's budget is GPR funded. However, in my judgment, many of their actions on this 1989-91 budget constitute an intrusion in the policy-making authority that has been vested with this Board and with the administration and with the faculty of our System. I believe that it has created a severe morale problem for many conscientious public servants.

"Since formulation of this budget began, I believe there was a consensus that compensation needs would be determined by methodology which was implemented during the 1985-87 catch-up program, with more explicitly defined distribution procedures to target our market needs. This was done. But we now find ourselves managing a star fund, agreed by those involved in the 1983-85 period as a very poor management technique. Accompanying the proposed recruitment/retention fund is considerable reporting in areas that are very difficult to effectively evaluate.

"We spent a lot of deserved time in recent months on what many of us believe to be the most pressing initiative in American higher education--minority recruitment and retention. In Joint Finance deliberations, the Financial Incentive Program has been taken from System control, and the Advanced Opportunity Program has been diluted both in dollars and its application to minorities.

"In another priority of this System--the schools of business--the additional student fee proposal was rejected and GPR monies have been held subject to yet another study. The original budget proposal for the schools of business was the result of two comprehensive evaluations. There was the Strategic Development Commission which advanced the idea that we needed strength in our business schools, and there was the UW System's review that included external members on the panel. I would ask, what can be gained by yet another study? I believe the wrong signals are being sent, because private funding for the new business facility on the Madison campus is receiving very strong support.

"On two occasions within the past year, detailed reviews were made of the System's tuition policies and procedures. Following evaluation of a wide range of models, it was concluded that the Board-adopted method came closest to meeting the overall direction that the university had established--direction on enrollment management, movement of the greatest number of people through the system, and the efficient management of class sections. Now we are faced with implementing a tuition policy that was judged, after all of this study, not to be as effective in meeting these long-term goals.

"The Board of Regents staffing and the UW-Madison Athletic Board realignments to me are clearly no-confidence votes by Joint Finance on the ability of the Board of Regents and the Administration to manage the System. We already have the authority to enact both of these directives should this Board have deemed them desirable.

"I have been involved for only two budget periods and do not have the historical perspective that some of you have. However, if the budget were passed as it is currently drafted, I believe that there would be a major transition in the control of this university system--transition from control by this citizen board and the people that we employ to control by direct representatives of the electorate."

Regent Gundersen referred to the book by Frank Newman, titled *Choosing Quality: Reducing the Conflict Between the State and University*. According to that book, he commented, some of the Joint Finance Committee's actions constituted inappropriate intrusion into the university and showed distrust

in the accountability of the Board of Regents. To quote one of the chancellors, "I am spending too much time recording and I can't find the time to do the doing."

Design for Diversity - Comments on legislative impact, pp 20-24

Concurring with Regent Lyon's comments, Regent Flores expressed particular disappointment with Joint Finance Committee actions which greatly reduced the ability to implement *Design for Diversity*. He hoped further legislative actions would be taken to restore funding for these programs.

Regent Weinstein also endorsed Regent Lyon's statement, adding that there seemed to be a dangerous trend developing and that if legislative leadership did not reverse the trend, the UW System would be in very difficult times. For example, a business school fund-raising campaign had been undertaken with the understanding that there would be a certain state share. It now appeared that this share might not be forthcoming. The faculty compensation package had been structured in accordance with compromises reached in past biennia. Now that structure was being revisited. It was such actions that were demoralizing to faculty and staff.

Budget - Discussion of legislative impact, pp 20-24

President Schilling noted that much of the frustration arose during several weeks when the budget was in the Joint Finance Committee. However, there were many legislators who agreed with the Board on governance and other issues, and there was still the opportunity to make changes as the process continued to unfold.

Regent Fish urged the Regents to recognize that, with 132 legislators, some newly elected each biennium, communication of university needs must be viewed as a constant task. It also must be recognized, he pointed out, that the UW System is a major user of state funds, which the Legislature must raise. It could not be expected that the Legislature would give up involvement in determining the use of such a large amount of GPR funding. Generally, he thought, the Legislature and Governors had treated education kindly in Wisconsin. At this stage, there was room for improvement if negotiations were conducted in a friendly, non-confrontational manner.

While he agreed that it is important to acknowledge legislative interest in the UW System as a major user of state resources, Regent President Schilling also concurred with what Regent Lyon and others had said, because he considered it important to speak out on decisions with which the Board did not agree. The intention was to press on, with optimism that there would be improvements as the budget process continued.

President Shaw expressed appreciation to the chancellors, faculty and staff for their helpfulness and support during the budget process. There had not been, he noted, the kind of end runs which sometimes had occurred in the past.

REPORT OF THE PRESIDENT OF THE SYSTEM

Approval of Nonpersonnel Actions/Informational Items

Upon motion by Regent Vattendahl, seconded by Regent Nicholas, the following resolution was adopted, with Regents Davis and Weinstein abstaining from the vote:

Resolution 5244: That the report of nonpersonnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

- - -

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Regent Nikolay, Chair, presented the committee's report.

~~UW-Madison~~ Renewal of Lease of Space at 706 Williamson Street *for UW-Madison Medical School, R 5245, pp 25-26*

Regent Nikolay reported committee approval of a request to renew a lease for specialized laboratory space at 706 Williamson Street, which had been leased for UW-Madison Medical School since 1967. As negotiated by the Department of Administration, the lease included a five-percent adjustment for the first year and approximate three-percent increases in each of the four subsequent years.

✓ Buildings & Land

It was moved by Regent Gundersen and seconded by Regent Davis that the following resolution be adopted by the Board of Regents:

Resolution 5245: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to renew the lease for 12,000 square feet of laboratory space in a building located at 706 Williamson Street, Madison, Wisconsin

Lessor: Reynolds/Madison Incorporated
301 South Blount Street
Madison, WI 53703

The lease covers a five-year period beginning July 1, 1989 through June 30, 1994. The annual rental rate for the first year is \$36,564.46 (\$3.05/SF) and reflects a five percent increase. In each subsequent year of the lease, the annual rental rate will increase about three percent, in accordance with the following schedule:

July 1, 1990 through June 30, 1991 - \$37,661.00 (\$3.14/SF)
July 1, 1991 through June 30, 1992 - \$38,791.00 (\$3.23/SF)
July 1, 1992 through June 30, 1993 - \$39,955.00 (\$3.33/SF)
July 1, 1993 through June 30, 1994 - \$41,154.00 (\$3.43/SF)

The lessee is responsible for the costs of heat, electricity, sewer, water and janitorial services. These costs total approximately \$4.65/SF.

Funding for this lease will be provided by the UW-Madison Medical School's operating funds.

Regent Nikolay stated his opposition to the resolution because the lease had an acceleration clause. Over five years, the rent increase would amount to 15 percent.

Put to the vote, Resolution 5245 was adopted, with Regent Nikolay voting "No."

UW-Oshkosh - Budget Land - Approval of .24 acres of land purchase at 816 Charles Ave., R 5246, p. 26

UW-Oshkosh: Approval to Purchase Land

Regent Nikolay reported unanimous committee approval of a request to purchase an approximate one-quarter-acre parcel of land for UW-Oshkosh. Located within the approved campus development plan boundary, the parcel would be used for parking. The option to purchase for \$40,500 had been accepted by the owner.

Upon motion by Regent Nikolay and seconded by Regent Gundersen, Resolution 5246 was unanimously adopted by the Board of Regents.

Resolution 5246: That, upon the recommendation of the UW-Oshkosh Chancellor and the President of the University of Wisconsin System, authority be granted to purchase one improved parcel of land (.24 acres) at 816 Charles Avenue in the City of Oshkosh, at an estimated total cost of \$44,000, including appraisal and closing costs of \$1,000 and relocation costs of \$2,500, using 1987-89 General Fund Supported Borrowing - Advanced Land Acquisition funds.

UW-Platteville: Approval to Purchase Land

The committee unanimously approved purchase of a one-quarter-acre parcel of land for UW-Platteville. Located within the approved campus development plan boundary, the parcel would be used for temporary off-street parking and green space. An option to purchase for \$9,250 had been accepted by the owner.

The following resolution was unanimously adopted by the Board of Regents upon motion by Regent Nikolay, seconded by Regent Doughty Luckhardt:

UW-Platteville - Bldgs + Land - *Appraisal of 0.25 acre land 27*
purchase at 435 Jay St., R 5247,
pp 26-27

Resolution 5247: That, upon the recommendation of the UW-Platteville Chancellor and the President of the University of Wisconsin System, authority be granted to purchase a 0.25 acre parcel of land, located at 435 Jay Street in the City of Platteville, for an estimated total acquisition cost of \$10,000. This includes \$750 for appraisals and closing costs. Funding will be from the 1987-89 General Fund Supported Borrowing - Advance Land Acquisition allocation.

Arboretum

UW-Madison: Indication of Willingness to Accept Gift-in-Kind of 25 Acres of Land from Martin Hanson

Regent Nikolay reported unanimous committee approval to accept a gift-in-kind of 25 acres of land from Mr. Martin Hanson. This would be an addition to the UW-Madison Arboretum's Anne Carroll Hanson Forest in the Town of Marengo, Ashland County, Wisconsin. The property, which contains approximately 2,600 feet of frontage on Beaver Dam Lake, is improved with a three-bedroom house and four cottages. Mr. Hanson would retain a 20-year right-of-use and occupancy for the three-bedroom house. This very generous gift would enhance the usefulness of this teaching and research area by making housing available for researchers and students.

Adoption by the Board of Regents of Resolution 5248 was moved by Regent Nikolay, seconded by Regent Gundersen, and carried unanimously, with Regent Hanson abstaining from the vote due to personal interest in the matter.

Resolution 5248: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the Regents indicate their willingness to accept as a gift-in-kind from Mr. Martin Hanson approximately 25 acres of land with improvements as an addition to the UW-Madison Arboretum's 956 acre Ann Carroll Hanson Forest in the Town of Marengo, Ashland County, Wisconsin, R 5248, p. 27

Regent Grover expressed his great admiration for the Hanson family's commitment and generosity to the University of Wisconsin System.

Bldgs + Land - (same)

Regent Nikolay added that the Hanson Family had previously given substantial acreage in the town of Marengo for Arboretum land. "It is in a beautiful area of the state and I want to second what Regent Grover said. We have to be deeply appreciative of what the Hanson Family has done for the University."

Regent President Schilling said a letter of appreciation would be sent on behalf of the Board of Regents.

Hanson, Martin - 25-acre gift-in-kind as an addn. to UW-Madison Arboretum Ann Carroll Hanson Forest, in Marengo, Ashland County, R 5248, p. 27

UW-River Falls - Budget + Land
~~UW-River Falls~~ Approval of Boundary Change, Intersection Hazard Mitigation Plan, and Authorization to Purchase Two Parcels of Land

R 5249, pp 28-29

The Physical Planning and Development Committee considered four transactions required in association with a project to realign the intersection of South Main Street and Cascade Avenue in the City of River Falls. The project would eliminate an unsafe condition for pedestrians and improve traffic movement. The cost of \$1.2 million would be shared by the Wisconsin Department of Transportation and the City of River Falls. The effect of the work would have some additional impact on the university, relating to property acquisitions and disposals, changes in the proximity of traffic to a residence hall, and costs of constructing replacement parking. The committee was assured that there would be additional consideration given to traffic sound attenuation through berms, plantings and other landscape improvements. After discussing the proposed project with System Administration staff, Chancellor Thibodeau and Peter Dahm, Director of Community Development for the City of River Falls, the committee unanimously approved Resolution 5249.

It was moved by Regent Nikolay and seconded by Regent Gundersen that the following resolution be adopted by the Board of Regents:

Resolution 5249: That, upon the recommendation of the UW-River Falls Chancellor and the President of the University of Wisconsin System, authority is requested to participate in realignment of the intersection of South Main Street and Cascade Avenue, a joint project that involves the City of River Falls, State Department of Transportation, and the University of Wisconsin-River Falls. Approval is requested for the following transactions:

1. Authority to change the campus boundary;
2. Authority to exchange with the City .23-acres of University-owned land located on Cascade Avenue and improved with 34 parking stalls, for .20-acres of vacant land located on South Main Street;
3. Authority to exchange with the City a University-owned parcel located at 516 South Main Street for part of a parcel located at 600 South Main Street;
4. Authority to purchase two parcels, located at 608 South Main Street and 106 East Vine Street, at an estimated cost of \$122,250 including appraisal and closing costs of \$1,000 and relocation costs of \$3,500, to be funded by 1987-89 General Fund Supported Borrowing - Land Acquisition funds.

Regent Fish indicated concern about changing the campus boundary at this time since boundary location often affected property values. He asked if there was housing involved in this proposed change.

Replying in the affirmative, Vice President Brown said the boundary change involved acquiring two additional parcels with houses on them.

Regent Fish asked if the boundary could be changed after acquisition of the parcels, to which Vice President Brown replied that it would be possible to proceed in that way.

Regent Fish asked if Vice President Brown believed changing the boundaries would inflate costs in any way.

Vice President Brown responded that it would not have an impact on the price. Accepted offers to purchased were in hand.

Regent Nikolay thought the value of those properties might be depreciated because the relocated road would be close to them.

While he would vote for this resolution, Regent Fish emphasized his hope that campus boundary changes would be very carefully considered, since expansion of boundaries generally resulted in higher costs for lands within them. He believed it would be preferable to buy the property first and then extend the boundary.

Regent Flores asked if there were any opposition to the project and Vice President Brown replied in the negative.

Put to the vote, Resolution 5249 was adopted unanimously.

Approval of Minor Projects

Regent Nikolay moved adoption by the Board of Regents of Resolution 5250 which was unanimously approved by the committee. The motion was seconded by Regent Jarvis and carried unanimously.

Resolution 5250: That, upon the recommendation of the UW-La Crosse, Madison and Stout Chancellors and the President of the University of Wisconsin System, authority be granted to plan, bid and construct the following minor projects, at the cost and from the funding sources indicated. These funding sources are summarized as follows:

General Fund Supported Borrowing - Maintenance	\$170,800
Program Revenues	444,800
College of Engineering Gift Funds	<u>243,000</u>
Total	\$858,600

UW-La Crosse - ~~Older + Land~~ - Appraisal

Program Revenues R 5250, pp 29-30

Report of the Vice President

Vice President Brown reported to the committee on bid openings and the status of projects.

Gifts + Grants - Discussion of

→ Policy on UW System Major Projects Funded by Gifts or Grants, pp 30-31

Regent Nikolay reported on discussion by the Physical Planning and Development Committee of the State Building Commission's proposed policy on University of Wisconsin System major projects to be constructed with gift or grant funds. The policy, which was to be considered by the Commission at its June 27 meeting, reflected the numerous discussions which had taken place between Commission staff members in the Division of State Facilities Management and System Administration representatives.

In its present form, there did not appear to be any significant conflict between the Commission's proposed policy and the Board's own policy which was adopted in February 1988. Regent Vice President Lyon joined the committee for this discussion and asked whether it would be desirable to recommend that the proposed policy be modified to include the provision from the Regent's policy that students should not be asked nor allowed to commit any money via segregated fees for use in academic capital budget expenditures.

Based on further discussions with System Administration staff, it was concluded that the recommendation should not be made, since the Division of State Facilities Management staff did not view the proposed policy as having relevance to projects funded with program revenues. Also, it could prove difficult to reach agreement between System Administration and DSFM on a definition of "academic." Staff felt the potential existed for Division of State Facilities Management staff to arrive at very narrow definition which could have an adverse impact on System requests.

Following this discussion, the committee concluded that there was no need to object to the proposed policy. It did seem, however, that the policy should not be specific to the University of Wisconsin System but should be applicable to all state agencies.

Inviting further discussion at the Board meeting, Regent Nikolay said Regent President Schilling would appreciate hearing from other Regents who were not able to participate in the committee's discussion of this policy.

Regent Schilling explained that, at a Building Commission meeting some months ago, the Governor had asked for the Board's view on this document which was drafted at his request. In that vein, Regent President Schilling had asked the Physical Planning and Development Committee to review the policy and now was asking other Regents to offer their comments. Those views would be communicated in a letter to the Governor.

Regent Clusen asked what would happen if the Building Commission policy did not agree with the Regent policy.

Vice President Brown noted that the initial draft of the Building Commission staff was considerably different from the current one and created concern for the UW System. Through much discussion, that draft had been amended substantially. He did not believe the current draft conflicted with Regent policy.

Although the policy is the prerogative of the Building Commission, Regent President Schilling commended the precedent of asking the Board of Regents for comment before adopting it.

~~Concerns about UW Hospital~~ - PPD Committee concerns, p. 31

Regent Gundersen shared with the Physical Planning and Development Committee several of his concerns relating to the University Hospital, which he had visited that week. Inadequate patient and visitor parking; out-dated, overcrowded, and patient insensitive treatment areas in the Trauma Center; biennial, rather than annual budgeting, which makes it difficult to respond to advancing technology and changes in patient treatment methods; and a perceived lack of active fund-raising were areas he felt required attention.

Budget, Capital - PPD Committee paper regarding process, p. 31

Capital Project Roles and Responsibilities

At Regent Nikolay's direction, System Administration staff had been developing a paper on various roles and responsibilities related to the capital budget process which would include a flow chart depicting the process through which a proposed building project must move from the time that it is identified to the time it is constructed. The paper was in the final stages of preparation and was expected to be available for the July or September Board meeting. The committee looked forward to receiving this information and was assured that it would be shared with all members of the Board.

REPORT OF THE EDUCATION COMMITTEE

Regent Grover, Chair, presented the committee's report.

Report of the Vice President

UW-Milwaukee - Staff - Asst. Prof. John R. Rohde named

UW-Milwaukee Faculty Award

~~Vice President Trani reported to the committee that UW-Milwaukee Assistant Professor John R. Rohde had been named a National Science Foundation Presidential Young Investigator, p 32~~

Strategic Planning - Report, Long-Range Planning
p. 32

The committee was advised that President Shaw's recommendations based on the Report of the Steering Committee for Strategic Planning in Engineering and Technology would be presented to the Board in July. The Strategic Planning for Libraries Committee had planned a systemwide symposium on September 14. The Strategic Planning in Agriculture and Natural Resources Committee was to meet the following week. The committee was to be chaired by Donald Field, UW-Madison Associate Dean of the College of Agricultural and Life Sciences and Director of the School of Natural Resources.

Academic Programs -

Annual Report on Academic Program Designations and Related Academic Approval Items, p. 32

The committee received the annual informational report on 1988-89 academic program designations and related academic approval items.

Faculty -

Changes in Faculty, Staff Designations, 1989-90, R 5251, p. 32

Regent Grover moved adoption by the Board of Regents of Resolution 5251, which was unanimously approved by the committee. The motion was seconded by Regent DeLong and carried unanimously.

Resolution 5251: That, upon the recommendation of the respective Chancellors and the President of the University of Wisconsin System, the 1989-90 tenure designations, other changes in status, and new tenured appointments, reported in the attached materials by institutions, be approved.

Emeritus Designations - Approval of 1989-90 designations, R 5252, pp 32-33

Emeritus Designations for 1989-90

Regent Grover moved adoption by the Board of Regents of Resolution 5252, which had been unanimously approved by the Education Committee. The motion was seconded by Regent DeLong and carried unanimously.

Resolution 5252: That, for their many years of dedicated service to public higher education in the state of Wisconsin, the Board of Regents expresses its deep appreciation to the members of the faculty and staff who have been granted emeritus status by the Chancellors. Further, the Board of Regents extends to emeritus faculty and staff its best wishes for many productive years ahead.

Academic Staff

→ Status Report on Proposed Process to Respond to Academic Staff Gender Equity Study, p. 33

Executive Vice President Lyall gave the committee a status report on a proposed process to respond to the Academic Staff Gender Equity Study. The president had asked for candidates to serve on a 26-member advisory committee, which would review the suggested timetable for presentation to the Board in September. She had consulted with the faculty representatives, who concurred with the proposed process, as did the Joint Committee on Employment Relations. The cost would not be known until the process was completed, but System Administration did not intend to ask the Legislature for additional funds.

UW-Milwaukee

→ Amendment to UW-Milwaukee Faculty Policies and Procedures, R 5253, p 33

Regent Grover reported unanimous committee approval of an amendment to section 4.05(1) of the UW-Milwaukee Faculty Policies and Procedures, requiring departmental executive committees to develop written criteria for merit recommendations.

Upon motion by Regent Grover, seconded by Regent Jarvis, Resolution 5253 was adopted unanimously by the Board of Regents.

Resolution 5253: That, upon recommendation of the Chancellor of the University of Wisconsin-Milwaukee and the President of the University of Wisconsin System, the amendment to Section 4.05(1) of the University of Wisconsin-Milwaukee Faculty Policies and Procedures be approved.

Leave of Absence Policy

- Discussion of policy, pp 33-34

Reporting on committee discussion of leave of absence policy, Regent Grover noted that appointive officials, particularly in educational organizations, often did not have a specified number of years associated with the initial appointment, and certain ambiguities resulted when such leaves become, in effect, open-ended. Following discussion, a motion was made and passed that Vice President Trani provide the committee with a proposed redraft of Regent Policy Document 74-9, Regent Resolution 800, Regent Policy Document 78-3, and Regent Resolution 1648, for initial review at the July 1989 meeting.

In discussion at the Board of Regents meeting, Regent Fish commented that the 1974 policy, which he had authored, resolved problems which had become apparent at that time. He was concerned that in revising the resolution, some specificity might be lost. To address the problem of an individual being appointed for an undated term, he suggested adding, to Paragraph 5 of Resolution 800, wording to provide that if the term is undated, the applicable time for the leave of absence shall be the term of the officer that appointed the individual.

Vice President Lyon stated that Regent Fish's suggestion would be placed in the minutes and considered by the committee.

Regent Grover noted that there were other issues, such as those leaves of absence for serving with a professional organization.

Regent Fish added that Resolution 800 specified political activities. While he had no objection to writing a policy for educational activities, he commented that it is best to move very carefully in the area of political activity, so as not to leave the policy open-ended and subject to interpretation.

Regent Grover replied that what Regent Fish said was in concert with the views of the Education Committee.

UW Center - Richland - Authorization to recruit Dean, RS 254, p. 34
UW Centers - Staff - (same, but add "at UW Center - Richland")

Authorization to Recruit: Dean, UW Center-Richland

Authorization to Recruit - (same)

The Education Committee unanimously approved the authorization to recruit a dean for the UW Center-Richland and also approved an amendment raising the maximum salary from \$53,000 to \$55,000 in this recruitment process.

Resolution 5254 was adopted unanimously by the Board of Regents, upon motion by Regent Grover and seconded by Regent Weinstein.

Resolution 5254: That, upon recommendation of the Chancellor of the University of Wisconsin Centers and the President of the University of Wisconsin System, the Chancellor be authorized to recruit for a Dean of the University of Wisconsin Center-Richland.

Minorities -

Status Report on Minority and Women Faculty, p. 34

Dr. Marian Swoboda presented to the committee a status report on minority and women faculty.

x ref Faculty - (same)

Regent Grover presented Resolutions 5255 and 5256, which had been approved in closed session of the Education Committee.

Professorship, Named

Named Professorship, UW-Madison

Upon motion by Regent Grover, seconded by Regent Clusen, the following resolution was adopted unanimously by the Board of Regents:

Resolution 5255: That, upon recommendation of the Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the status of Sharon Dunwoody be changed from Professor, School of Journalism and Mass Communication, College of Letters and Science, to Evjue-Bascom Professor, School of Journalism and Mass Communication, College of Letters and Science, University of Wisconsin-Madison, effective July 1, 1989.

→ named

R 5255, p. 35

Professorship, Named

Named Professorship: UW-Madison

Resolution 5256 was adopted unanimously by the Board of Regents, upon motion by Regent Grover and seconded by Regent DeLong.

Resolution 5256: That, upon recommendation of the Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, the status of Karen Pridham be changed from Professor, School of Nursing and Department of Family Medicine and Practice, Medical School, to Helen Denne Schulte Professor of Nursing, School of Nursing, and Professor, Department of Family Medicine and Practice, Medical School, University of Wisconsin-Madison, effective July 1, 1989.

→ named

R 5256, p. 35

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Regent Nicholas, Chair, presented the committee's report.

Approval of Gifts, Grants and Government Contracts

The committee reviewed the report of gifts, grants and contracts for the eleven-month period ending May 19, 1989, which totaled \$358.4 million, or \$40.5 million more than the same period last year. A \$21.6 million increase in student aid and a \$21.5 million increase in research accounted for the change. Of the \$40.5 million total increase, federal funds accounted for \$38.8 million--\$22 million in student aid and \$19.6 million in research. A \$3.4 million decrease in instruction partially offset those increases.

The net increase of \$1.7 million in non-federal gifts and grants was the result of increases of \$1.9 million in research and \$1.6 million in physical plant, along with a reduction of \$1.9 million in extension.

EBASCO

*\$50,000 grant accepted, R 5257, - 36
PP 35-36*

Reporting unanimous committee approval of Resolution 5257, Regent Nicholas moved its adoption by the Board of Regents and the motion was seconded by Regent Jarvis.

Regent Fish noted that the list included a \$50,000 grant from EBASCO.

Put to the vote, the resolution was adopted, with Regent Davis abstaining.

Resolution 5257: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Budget, Biennial

→ Preliminary Allocations, Biennial Budget Policy Paper, p. 36

Regent Nicholas reported that the committee reviewed the biennial budget policy paper on preliminary allocations. After that discussion, President Shaw reminded the committee that all Regents were invited to attend the Hospital Council of Trustees meeting that afternoon, at which the hospital's 1989-90 budget would be considered.

Hospital, Council of Trustees - *Del Regente invited to meeting on 1989-90 budget, p. 36*

Compensation

→ Delegation of Salary-Setting Authority to President and Chancellors, R 5258, PP 36-38

President Shaw presented to the committee Resolution 5258, which established that salary rates would be effective on the normal dates unless the state budget provided otherwise. This would allow salary adjustments to be made retroactive to July 1.

The resolution affirmed delegated authority of the President of the System and the chancellors to establish salaries below the Group 6 maximum and the authority of the Board to approve all salaries above the Group 6 maximum and those in the Executive Pay Plan.

President Shaw pointed out that because action on the pay plan would not be completed until after the July Board meeting, the resolution provided for a delegation of authority to the Executive Committee in consultation with the System President. It was noted that passing the resolution would not preclude a special meeting of the full Board if it would be so desired. The committee unanimously approved Resolution 5258.

It was moved by Regent Nicholas, seconded by Regent Jarvis and carried unanimously that the following resolution be adopted by the Board of Regents:

Regent Policy - (same)

Executive Pay Plan - (same)

- Resolution 5258: (1) Unless otherwise specified by executive/legislative action, the effective dates for the payment of the 1989-90 pay plan rates will be July 1, 1989 for annual basis employees, the start of the academic year pay period for those on academic year appointments, and other dates as set by the Chancellors for persons with appointment periods commencing at times other than July 1 and the beginning of the academic year.
- (2) Compensation adjustment allocations shall be distributed to the institutions as soon as possible after executive/legislative action and in conformity with state law and policy, and System policy.
- (3) Within the state pay plan authorization, the Board, after consultation with the President of the System, shall establish systemwide salary minima and maxima and guidelines and permissible ranges for institutional decisions on the proportions of salary increments to be distributed for mandatory cost-of-living adjustments and additional discretionary adjustments for merit and other factors. If the Regents' meeting schedule does not afford an opportunity for timely action in this regard, the Board authorizes the Executive Committee, after consultation with the System President, to act on these matters.

Merit determinations for faculty should be based on positive contributions by the faculty member to teaching, research, public service and/or the support functions inherent in the institution's mission. Assessment of teaching faculty shall include consideration of student evaluations (Regent Policy Document 74-13, October 4, 1974).

Merit determinations for academic, limited and other unclassified staff shall be based on supervisory assessment of meritorious performance in their areas of assigned responsibility.

- (4) Each institution shall complete its merit evaluations of continuing unclassified staff prior to July 1 and establish factors for each person which can be applied expeditiously to determine salary increases among individuals, given later information on state compensation policies for faculty and academic staff for 1989-90.

- (5) Each institution shall complete its actions on stipend schedules for nonrepresented graduate assistants prior to July 1 and shall establish a factor for adjustments which can be applied expeditiously to determine stipend increases. Stipend schedules for each graduate assistant category shall be separately established.
- (6) The Board affirms the delegated authority of the President of the System and the Chancellors to establish individual salaries at or below the Group 6 maximum of the State Executive Pay Plan for 1989-90 within state policy and the funds appropriated for that year, with appropriate annual budget documentation to be reported to the Regents for information.
- (7) The Board directs that any mandated pay plan adjustments applied to individuals in the State Executive Pay Plan and others above the Group 6 maximum shall be effective on the dates determined in the executive/legislative review. If the Regents' meeting schedule does not afford an opportunity for timely action on any discretionary pay adjustments for these individuals by the full Board, the Board authorizes the Executive Committee of the Board, in consultation with the System President, to approve any discretionary salary adjustments effective for 1989-90. Appropriate information shall be provided to all members of the Board.
- (8) Compensation actions related to the unclassified pay plan and delegated to the Chancellors at or below 75% of the Group 6 maximum shall be completed in accordance with statutory requirements, legislative intent and Regents' policy and shall be reported to the President of the System by August 1, or within three weeks after the approval of the unclassified pay plans, whichever is later, to make possible the preparation of payrolls and reporting to the Board of Regents.

Budgets -

→ 1989 Internal Audit Schedule, p. 38

The committee reviewed the proposed 1989-90 internal audit schedule.

Budget - Review of
Financial Statements, p. 39

Responding to a request by committee members, a financial report comparing expenditures to the annual budget was presented for the committee's review. These reports are to be made on a quarterly basis.

Uniform Chart of Accounts - update, p. 39

Update on Uniform Chart of Accounts

An update on the uniform chart of accounts was presented to the committee.

Strategic Planning -

Institutional Administrative Data Processing Strategic Plans, p. 39

A review of institutional administrative data processing strategic plans was made to the committee.

Report of the Vice President

Vice President Poellnitz reported to the committee on the reserve for revenue shortfall and other contingencies.

University Trust Funds -

Report on Trust Funds, p. 39

Regent Nicholas reported that trust funds now exceeded the high point before the market crash, which was about \$119 million in August of 1987. As of the end of May 1989, they totaled \$127 million, up about \$8 million, most of which was market appreciation.

At 12:15 p.m., the following resolution was moved by Regent Jarvis, seconded by Regent Nicholas and unanimously adopted on a roll call vote, with Regents Clusen, Davis, DeLong, Doughty Luckhardt, Fish, Flores, Gelatt, Grover, Hanson, Jarvis, Lyon, Nicholas, Nikolay, Schilling and Weinstein voting "Aye" (15), and no regents voting "No."

Resolution 5259: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., including possible action on appointment of a Vice Chancellor for Legal Services, UW-Madison, appointment of Dean, College of Education and Graduate Studies, UW-La Crosse, appointment of Dean, College of Education, UW-Whitewater; for possible action on appointments to Boards of Visitors at UW-Green Bay and UW-Superior; and to confer with legal counsel, as permitted by s. 19.85(1)(g), Wis. Stats.

- - -

CLOSED SESSION ACTIONS

The Board arose from closed session at 12:55 p.m. and made the following announcements:

UW-Green Bay - Visitors

Resolution 5260: That, upon the recommendation of the UW-Green Bay Chancellor and the President of the University of Wisconsin System, the following appointments be made to the UW-Green Bay Board of Visitors:

For appointment to terms ending in June 1992: Mr. Bruce Deadman, Mr. Neil Dick, Ms. Lucy Forsting, and Mr. Jerry Waukau;

For reappointment to a term ending in June 1992: Ms. Nanette Nelson; and

For appointment to terms ending in June 1990: Mr. Wayne Destree and Ms. Irene Streblov, R 5260, p. 40

UW-Superior - Visitors

Resolution 5261: That, upon the recommendation of the UW-Superior Chancellor and the President of the University of Wisconsin System, the following appointments be made to the UW-Superior Board of Visitors:

For appointment to terms ending July 1992: Dr. Jasjit Minhas, and Ms. Sandra A. Wright; and

For reappointment to terms ending July 1992: Mr. Robert Mercier, and Mrs. Sue L. Theno, R 5261, p. 40

Chancellors

Resolution 5262: That, upon recommendation of the Chancellor of the University of Wisconsin-Madison and the President of the University of Wisconsin System, Melany Stinson Newby is appointed Vice Chancellor for Legal and Executive Affairs, University of Wisconsin-Madison, effective August 1, 1989, at an annual salary of \$80,694. 8/1/89, R 5262, p. 40

x ref Legal Counsel - (same)

(Regents DeLong and Nikolay voted in opposition to Resolution 5262.)

x ref Newby, Melany Stinson - Opposed UW-Madison Vice Chancellor for Legal & Executive Affairs, effective 8/1/89, R 5262, p. 40

UW-La Crosse - Staff -

Resolution 5263: That, upon ~~recommendation of the Chancellor of the University of Wisconsin-La Crosse, the Regent Selection Committee and the President of the University of Wisconsin System~~ → Robert Krajewski ~~be~~ appointed Dean, College of Education and Graduate Studies, ~~University of Wisconsin-La Crosse, effective July 1, 1989 or as soon as possible thereafter, at an annual salary of \$70,000.~~ → R 5263, p.4)

FOR THE PERIOD 06-01-89 THROUGH 05-31-90
AWARD # NAG 5-1135
MSN ENGR NUC ENGR&E PHYSC (144-AZ31) 40,000.00
- 2) A SPACE TELESCOPE SCIENTIFIC INVESTIGATION USING
A HIGH SPEED PHOTOMETER
FOR THE PERIOD 03-02-78 THROUGH 08-31-89
AT A TOTAL COST OF \$10,759,601.00
AWARD # NAS5-24487, MOD. 55
MSN GRAD SPACE SCI&ENG CT (144-L324) 345,000.00
- 3) SOME NEW MATHEMATICAL METHODS FOR VARIATIONAL
OBJECTIVE ANALYSIS OF METEOROLOGICAL INFORMATION
USING SPLINES AND CROSS VALIDATION
FOR THE PERIOD 05-01-83 THROUGH 09-30-89
AT A TOTAL COST OF \$597,170.00
AWARD # NAG5-316, MOD. 12
MSN GRAD SPACE SCI&ENG CT (144-T131) 43,623.00
- 4) HIGH SPEED PHOTOMETER GTO SUPPORT
FOR THE PERIOD 05-01-86 THROUGH 10-15-89
AT A TOTAL COST OF \$493,000.00
AWARD # NAS5-29448, MOD. 6
MSN L&S SPACE ASTRON LAB (144-X910) 228,000.00
52. NASA, MARSHALL SPACE FLIGHT CENTER
MARSHALL SPACE FLIGHT CENTER, AL
WISCONSIN ULTRAVIOLET PHOTO-POLARIMETER EXPERIMENT
FOR THE PERIOD 09-04-81 THROUGH 06-30-89
AT A TOTAL COST OF \$9,411,760.00
AWARD # NAS5-26777
MSN L&S SPACE ASTRON LAB (144-R418) 72,000.00
53. NATIONAL SCIENCE FOUNDATION
WASHINGTON, DC
IN SUPPORT OF THE FOLLOWING:
- 1) STUDIES OF VIBRATIONALLY EXCITED POLYATOMIC
MOLECULES USING ALMOST DEGENERATE PERTURBATION
THEORY
FOR THE PERIOD 01-01-88 THROUGH 06-30-90
AT A TOTAL COST OF \$118,400.00
AWARD # CHE-8713749, MOD. 1
MSN L&S CHEMISTRY (144-AB18) 59,200.00

GIFTS, GRANTS AND CONTRACTS
JUNE 9, 1989

UNIVERSITY OF WISCONSIN - MADISON

RESEARCH

- 2) MATERIALS PROCESSING INITIATIVE: NEW ION
IMPLANTATION TECHNIQUE FOR IMPROVED PERFORMANCE
OF CUTTING TOOLS AND DIES
FOR THE PERIOD 05-01-88 THROUGH 10-31-90
AT A TOTAL COST OF \$510,000.00
AWARD # DMC-8712461, MOD. 1
MSN ENGR MAT SCI & ENGR (144-AD55) 255,000.00
- 3) STUDIES OF SURFACE STRUCTURES, PHASE TRANSITIONS
AND ADATOM INTERACTIONS
FOR THE PERIOD 05-15-88 THROUGH 10-31-90
AT A TOTAL COST OF \$184,200.00
AWARD # DMR-8720778, MOD. 1
MSN L&S PHYSICS (144-AG15) 92,000.00
- 4) UNSATURATED HYDROCARBON CATION RADICAL CHEMISTRY
FOR THE PERIOD 05-01-88 THROUGH 10-31-90
AT A TOTAL COST OF \$183,500.00
AWARD # CHE-8801588, MOD. 1
MSN L&S CHEMISTRY (144-AG38) 88,500.00
- 5) GENETIC CONTROL OF DROSOPHILA EMBRYONIC
PATTERN FORMATION
FOR THE PERIOD 07-01-88 THROUGH 12-31-90
AT A TOTAL COST OF \$160,000.00
AWARD # DCB-8801814, MOD. 1
MSN GRAD MOLECULAR BIOL (144-AH21) 80,000.00
- 6) DYNAMICS AND MAINTENANCE OF THE INTERTROPICAL
CONVERGENCE ZONES
FOR THE PERIOD 05-01-89 THROUGH 04-30-90
AWARD # ATM-8822980
MSN L&S METEOROLOGY (144-AW92) 47,728.00
- 7) FRACTURE ENERGY TESTS FOR EARTHQUAKE AND FAILURE
ANALYSIS OF CONCRETE DAMS: COLLABORATIVE PROJECT
OF NORTHWESTERN UNIVERSITY & UNIVERSITY OF
WISCONSIN
FOR THE PERIOD 04-15-89 THROUGH 03-31-91
AWARD # CES-8819068
MSN ENGR ENGR MECHANICS (144-AY23) 135,986.00
- 8) MATHEMATICAL SCIENCES: EVOLUTION OF INTERACTING
PARTICLE SYSTEMS
FOR THE PERIOD 05-15-89 THROUGH 04-30-90
AWARD # DMS-8901545
MSN L&S MATHEMATICS (144-AY35) 31,400.00
- 9) FRACTURE ENERGY TESTS FOR EARTHQUAKE AND FAILURE
ANALYSIS OF CONCRETE DAMS: COLLABORATIVE PROJECT
OF NORTHWESTERN UNIVERSITY & UNIVERSITY OF
WISCONSIN
(REU SUPPLEMENT)
FOR THE PERIOD 04-15-89 THROUGH 03-31-91
AWARD # CES-8819068

**STATEMENT OF PRINCIPLES ON THE TRANSFER OF CREDIT FROM THE VOCATIONAL,
TECHNICAL AND ADULT EDUCATION SYSTEM TO THE UNIVERSITY OF WISCONSIN SYSTEM**

The Board of Regents of the University of Wisconsin System and the Wisconsin Board of the Vocational, Technical and Adult Education System adopt the following statement of principles as a basis for preparing an undergraduate transfer policy regarding the transfer of credit from the Vocational, Technical and Adult Education System (VTAE System).

Through differentiated missions, the University of Wisconsin System (UW System) and the VTAE System are responsible for the majority of postsecondary education and training options available to the state's adult citizens. The historic mission for the VTAE System has been that of providing programs which enable students to acquire the occupational skills, education and training necessary for full participation in the work force stressing job training and retraining.

It is recognized that a professional development pattern exists for many trained in certain vocational-technical programs who later transfer to a UW System institution to continue their studies in the same general field. It is further recognized that although the primary mission of the VTAE System is to offer occupational/technical programs, a certain amount of general education and occupational supportive coursework in the areas of natural science, mathematics, communication skills, and behavioral and social sciences is an integral part of vocational/technical training. With this in mind, the challenge is to maintain the well conceived distinctiveness of the educational missions of the two Systems without creating unnecessary and unreasonable roadblocks for students wishing to pursue further education and additional costs for taxpayers.

To assist students in maximizing their educational potential in the most cost effective manner, the Board of Regents will revise the UW System undergraduate transfer policy to permit UW System institutions to accept up to fifteen (15) general education credits from a successfully completed non-college parallel Associate Degree program at a VTAE System institution. Where the quality and consistency of that coursework is judged to be comparable to the coursework of the receiving institution, the credit(s) will transfer. In cases where UW System institutions find VTAE System coursework not acceptable for transfer, VTAE System students will have an opportunity to earn credit by examination as outlined in the UW System Undergraduate Transfer Policy.

UW System institutions will work with the VTAE System institutions to identify cases where non-college parallel Associate Degree programs have a direct relationship with one of their programs. In such cases, students who complete a VTAE System program and subsequently enroll in a UW System program may be able to transfer certain related occupational and technical credits. Where program relationships are found to exist, transfer articulation agreements are encouraged. All such credit transfer and articulation agreements must be approved by the UW System Office of Academic Affairs.

EXHIBIT A

The Board of Regents also reaffirms its undergraduate transfer policy that allows credits satisfactorily completed in the three VTAE System accredited college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, and Nicolet Area Technical College to transfer to universities in the UW System through freshman and sophomore years of college work.

VTAE System students will be advised that the opportunity to transfer VTAE credit to UW System institutions is subject to institutional policies enacted to meet UW System Board of Regents policies governing admission and enrollment management.

To evidence commitment to continuing mission differentiation, the Wisconsin Board of Vocational, Technical and Adult Education and the UW System Board of Regents will provide to all students who apply to either a VTAE System or a UW System institution an advising statement that describes the purposes, programs, and opportunities related to both vocational-technical and university education. Such a statement will encourage students who have a goal of a baccalaureate degree to enroll in a university or VTAE college parallel program, while technical-education oriented students will be encouraged to enroll in a VTAE System institution.

To further highlight the distinctiveness of their educational missions, the UW System Board of Regents and the State Board of Vocational, Technical and Adult Education agree to the following assurances: (1) the VTAE System and the UW System will not seek to expand their missions into the other's statutory responsibilities; (2) the VTAE System will offer only those general education courses needed for students to complete their Associate Degree programs (normally, such courses do not exceed 15 credits); and (3) the college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, and Nicolet Area Technical College will continue, but college parallel programs will not be initiated in other VTAE System districts.

It is equally incumbent upon both Systems to improve the means by which information about credit transfer opportunities is disseminated to advising staff and current and prospective students. Toward that end, the President of the UW System and the VTAE System State Director are directed to have the Joint Administrative Committee on Academic Programs (JACAP) develop a comprehensive plan to ensure that UW System/VTAE System transfer information is sufficiently organized and distributed.

The UW System and the VTAE System will, through their respective governance processes, implement the above principles by December 31, 1989.

May 17, 1989

PROPOSED ORDER OF THE BOARD OF REGENTS OF
THE UNIVERSITY OF WISCONSIN SYSTEM
ADOPTING, AMENDING AND RENUMBERING RULES

Agency contact persons: Patricia B. Hodulik (262-6497); Judith Temby
(262-2324)

[INTRODUCTORY CLAUSE]

The Board of Regents of the University of Wisconsin System proposes an order to renumber UWS 17.06(1), (2)(a)(b)(c), (3), (4), (5) and (6); to renumber and amend UWS 17.06(2); to amend UWS 17.02(1), (4) and (9), and UWS 17.06 (intro.); to create UWS 17.02(10), (11) and (12), UWS 17.06(1)(a), and UWS 17.06(2), relating to student nonacademic misconduct.

[PLAIN LANGUAGE ANALYSIS PREPARED BY THE UW SYSTEM]

Pursuant to s. 36.35, Wisconsin Statutes, the Board of Regents of the University of Wisconsin System ("Board") is authorized to promulgate rules governing student conduct and procedures for the administration of violations. The proposed order revises the Board's existing rules governing student nonacademic misconduct to include specific prohibitions, subject to disciplinary sanctions, on discriminatory harassment. With the addition of a new example of proscribed conduct at proposed s. UWS 17.06(1)(a), the rules would make clear that physical conduct posing a serious danger to the university community and having a discriminatory animus is prohibited. Under proposed s. UWS 17.06(2), certain types of expressive behavior directed at individuals and intended to demean and to create a hostile environment for education or other university-authorized activities would be prohibited and made subject to disciplinary sanctions. The rules would also make minor changes in the definition section of ch. UWS 17.

[TEXT OF RULE]

SECTION 1. UWS 17.02(1), (4) and (9), are amended to read:

UWS 17.02 Definitions. (1) "Chancellor" ~~where-used-in-the~~
~~chapter-shall-mean~~ means the chancellor or designee.

(4) "Disciplinary sanction" or "sanction" ~~shall-mean~~ means any action affecting the status of an individual as a student which is taken by the university in response to student misconduct. The term shall include probation, resignation or leave for misconduct, suspension or expulsion, written reprimand, denial of particular university privileges, and other less severe actions not enumerated herein. Disciplinary sanctions shall not include cut-off or revocation of a student's financial aids; however, this shall not be interpreted as precluding the individual operation of rules or standards governing eligibility for student financial aid under which the imposition of a disciplinary sanction could result in disqualification of the student for financial aid. Each institution is authorized to adopt a more explicit listing of sanctions and actions which is consistent with the provisions of this section.

(9) "Institution" ~~for-the-purposes-of-this-chapter~~ means any university or an organizational equivalent designated by the board.

SECTION 2. UWS 17.02(10), (11) and (12) are created to read:

(10) "Days" means calendar days.

(11) "Intentional conduct" means conduct which the student knew or reasonably should have known would result in conduct prohibited by this chapter.

(12) "Members of the university community" means students and employees of the university.

SECTION 3. UWS 17.06 (intro.) is amended to read:

UWS 17.06 (intro.) Offenses defined. The university may discipline a student in nonacademic matters in the following situations. ~~For the purposes of this section, the term "intentional conduct" shall include conduct which the student knew or reasonably should have known would result in occurrences prohibited by this section.~~

SECTION 4. UWS 17.06(1), (3), (4), (5), and (6) are renumbered UWS 17.06(3), (4), (5), (6), and (7).

SECTION 5. UWS 17.06(2)(a), (b) and (c) are renumbered UWS 17.06(1)(b), (c) and (d).

SECTION 6. UWS 17.06(2) is renumbered 17.06(1) and amended to read:

(1) For intentional conduct which constitutes a serious danger to the personal safety of other members of the university community or guests. In order to illustrate the types of conduct which this paragraph is designed to cover, the following examples are set forth. These examples are not meant to illustrate the only situations or types of conduct intended to be covered.

SECTION 7. UWS 17.06(1)(a) is created to read:

(1)(a) A student would be in violation if he or she attacked or otherwise physically abused, threatened to physically injure, or physically intimidated a member of the university community or a guest because of that person's race, sex, religion, color, creed, disability, sexual orientation, national origin, ancestry or age.

SECTION 8. UWS 17.06(2) is created to read:

(2)(a) For racist or discriminatory comments, epithets or other expressive behavior directed at an individual or on separate occasions at different individuals, or for physical conduct, if such comments, epithets, other expressive behavior or physical conduct intentionally:

1. Demean the race, sex, religion, color, creed, disability, sexual orientation, national origin, ancestry or age of the individual or individuals; and

2. Create an intimidating, hostile or demeaning environment for education, university related work, or other university-authorized activity.

(b) Whether the intent required under par. (a) is present shall be determined by consideration of all relevant circumstances.

(c) In order to illustrate the types of conduct which this subsection is designed to cover, the following examples are set forth. These examples are not meant to illustrate the only situations or types of conduct intended to be covered.

1. A student would be in violation if:

a. He or she intentionally made demeaning remarks to an individual based on that person's ethnicity, such as name calling, racial slurs, or "jokes"; and

b. His or her purpose in uttering the remarks was to make the educational environment hostile for the person to whom the demeaning remark was addressed.

2. A student would be in violation if:

a. He or she intentionally placed visual or written material demeaning the race or sex of an individual in that person's university living quarters or work area; and

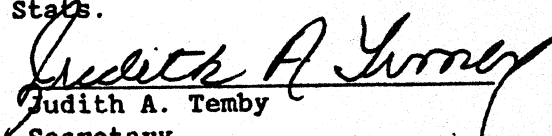

b. His or her purpose was to make the educational environment hostile for the person in whose quarters or work area the material was placed.

3. A student would be in violation if he or she seriously damaged or destroyed private property of any member of the university community or guest because of that person's race, sex, religion, color, creed, disability, sexual orientation, national origin, ancestry or age.

4. A student would not be in violation if, during a class discussion, he or she expressed a derogatory opinion concerning a racial or ethnic group. There is no violation, since the student's remark was addressed to the class as a whole, not to a specific individual. Moreover, on the facts as stated, there seems no evidence that the student's purpose was to create a hostile environment.

It is proposed that this rule shall take effect on the first day of the month following publication in the Wisconsin administrative register as provided in s. 227.22(2)(intro.), Stats.

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT)

Facilities ~~Activity~~ - Naming of 2 rooms at UW-Stevens Pt. after faculty members, ~~Stevens A~~
Xref Bldgs. Naming
UW-Stevens Pt.
- (same)

Under the authority granted by Resolution 674, and upon the recommendation of the Campus Facilities Naming Committee, UW-Stevens Point Acting Chancellor Howard Thoyre has approved the naming of two rooms in the Communication Arts Center in honor of deceased faculty members. Room 227 will be known as the Albert Croft Memorial, to recognize the contributions of Mr. Croft who served as a member of the UW-Stevens Point faculty for 16 years prior to his death in January 1984. He also was the first chairman of the university's communication department. Room 333 will be known as the Toby Goldberg Lecture Hall. Professor Goldberg was a specialist in film criticism and history on the university's communication faculty prior to her death in August 1984.

UW-Parkside - Hedge & Land - Easement to

- B. Officers of the Board have executed an agreement under general authority granted by Resolution 518 (06/07/73), granting an easement to Wisconsin Electric Power Company for electric and telephone lines to service the UW-Parkside Benevolent Foundation Residence Halls development, *Stevens B*

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT) Continued

C. Under the authority granted by Resolution 674, UW-River Falls Chancellor Gary A. Thibodeau has approved the naming of the studio theatre in the Kleinpell Fine Arts Building after Mr. Sanford Syse, a deceased staff member. This naming was recommended by the Faculty Senate through the Campus Planning Committee. Mr. Syse was a member of the faculty from 1962 to 1973. During that time he was designer and technical director of the University Theatre.
