MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Milwaukee, Wisconsin

Held in the Fireside Lounge, W150 UW-Milwaukee Union Friday, May 5, 1989 9:05 a.m.

- President Schilling presiding -

Regents Clusen, Davis, DeLong, Doughty Luckhardt, Fish, Flores, PRESENT:

Gelatt, Grover, Gundersen, Hanson, Jarvis, Lyon, Nicholas,

Nikolay, Schilling and Weinstein

ABSENT: Regent Vattendahl

Approval of Minutes

Minutes of the regular meeting held on April 7, 1989, were unanimously approved as mailed, upon motion by Regent Fish, seconded by Regent Jaryis neeting, p. 1

REPORT OF THE PRESIDENT OF THE BOARD

Introduction of C. Daniel Gelatt

Regent President Schilling welcomed Regent C. Daniel Gelatt, Jr., who had been appointed to the Board of Regents by Governor Thompson to succeed Regent M. William Gerrard. Regent Gelatt, of La Crosse, is President of Northern Micrographics and NMT Corporation. His father, Charles D. Gelatt, Sr., served on the Board of Regents for 27 years, from 1947 to 1974.

Regulative - Report or parding legislation including

Report on Pending Legislation

Discussions of Sustainable Agriculture Legislation

Noting that there had been considerable interest in legislation related to sustainable agriculture, Vice President Bornstein reported that, through the cooperation and leadership of /UW-Extension, various groups interested in this area were brought together at a lengthy session during which they were able to identify common interests. Included in that meeting, in addition to UW-Extension and UW-Madison, were representatives of the Farm Bureau, the Federation of Cooperatives, the Department of Agriculture, the Farmers' Union and the Center for Rural Development. It was made clear at that meeting that any action to increase the budgeted funding for sustainable agriculture would come from forces outside the university. The primary proponents within the Legislature for this activity were Senator Roshell and Representative The legislation discussed by these groups would cost \$1.2 million for the biennium. While not proposed by the UW System, such a package would be consistent with the interests, objectives and resource availability of all interested parties.

Commending the good faith and cooperation of all involved with this matter, Vice President Bornstein noted that Regent Vice President Lyon had been kept advised of this issue by those associated with the discussions.

creation of Agricultural Bioethics Committee

The second item, still in the legislative drafting stage, would create an agricultural bioethics committee. This Legislative Council initiative, led by Senator Te Winkle, would direct the Board of Regents to appoint an agricultural bioethics committee for the purpose of promoting inquiry concerning the environmental, social, economic and ethical implications of agricultural biotechnology research and of facilitating the open discussion of its implications both within the academic setting and in broader public forums. Members of the committee would include faculty, researchers and students in appropriate fields of biological and social sciences.

In its current state, the proposed legislation also would create an advisory committee composed of individuals or organizations specifically associated with various aspects of biotechnology. However, there was some discussion about replacing the standing advisory committee with ad hoc committees appointed as appropriate when specific bioethical issues arise.

An allocation of \$250,000 was to be recommended in the proposed legislation. Noting that University Relations Assistant Vice President David Martin had been involved in discussions with Senator Te Winkle and other members of the Legislative Council, Vice President Bornstein indicated that System staff were generally supportive of the legislation, with appointment of the committee by the Board of Regents and with provision for ad hoc advisory committees. Regent Vice President Lyon also had been kept advised of this proposal.

> Activities of the Joint Finance Committee,

It was reported by Vice President Bornstein that the Joint Committee on Finance intended to conclude consideration of the UW System budget by May 18, which meant a great amount of consideration of Legislative Fiscal Bureau papers in that short time frame.

The Joint Committee was utilizing a zero based budget approach which meant that, unless affirmative action was taken by committee, the specific proposals of the Governor would not be included in SB 31. By the end of the month, the committee hoped to forward all of their budget recommendations for consideration by the Assembly and Senate.

Vice President Bornstein thanked members of the Board of Regents and the UW System institutions for their assistance in working with the Legislature during this phase of the budget process.

Retirement Mill

A bill already passed by both houses of the Legislature provided an early retirement window through June 30, 1990, using the rule of 85 which combines years of service and age. During that window, the retirement age would be reduced from 65 to 62. After that window closed, the retirement age would revert back to 65. The formula for reducing benefit penalties for early retirement would be significantly reduced from the current retirement penalty formula. Retirement with appropriate years of service could now begin at age 57.

Covernment-purpose corporations, and

Referring to Senate Bill 69, which would govern state government-purpose corporations, Vice President Bornstein reported that the bill remained at this time in the Senate Rules Committee. The bill was slightly different from previous bills insofar as it would govern only new foundations and would require them to follow the open meeting law, have open records, and be subject to audit by the Legislative Audit Bureau. The UW System position was continued opposition on the bases that the bill provided incremental opportunity to be retroactive to existing foundations and could also adversely affect new foundations that might be established as the UW System looked toward opportunities for support from the private sector or individual contributors.

gredit Vransfer Bill, pp 2-4

Finally, Vice President Bornstein reported on proposed legislation to be introduced by Representatives Barca, Robson and Panzer and Senator Te Winkle, along with 30 co-sponsors, to increase the transfer of credits from the VTAE System to the UW System. It would direct the Board of Regents and the VTAE Board to jointly designate courses, other than college-parallel courses, that would be transferable for credit between the two systems. It also would provide that a VTAE student with an associate degree admitted to a UW institution would receive a minimum of 12 credits toward degree requirements. In addition, the VTAE student admitted to a UW Center or University, who received a grade of at least "C" in an associate degree course, could enroll in "the next higher level

course" in the same subject if the VTAE course was "similar" to a UW course prerequisite.

Each institution would have to develop written policies and procedures by September of 1990, and the bill would direct the Governor to appoint a joint UW/VTAE task force to study methods of improving transferability of credit. Finally, the bill would modify the VTAE mission by eliminating the word "terminal" from the current VTAE mission of awarding terminal associate degrees.

The UW System position would be to oppose that legislation when introduced, on the basis that it would seriously intrude on Regent and faculty responsibilities with respect to academic policy. It also would be contradictory to the historic and distinct missions of the two post-secondary systems of higher education that had served the state well both educationally and economically.

Comments on Fransfer of Credit from the VTAE System, pp 4-10

Xuf Jansont Credit - (Pana)
Regent President Schilling distributed to the Board of Regents written remarks that he had made orally at the VTAE Board meeting the previous week, his intent being to share with the VTAE Board Regent views on the subject of credit transfer. Although the issue had been discussed at length by both boards, he felt it would be helpful for the VTAE members to hear directly about Regent perspectives. While he had made it clear that the remarks he was making were primarily his and Vice President Lyon's, it was their belief that those comments accurately reflected a number of Regent concerns, although the document was not a Regent-adopted policy.

VIAE - (sana) Highlighting key points from his written remarks, Regent President Schilling noted that it was made clear at the outset that the Board of Regents does not want the UW System to be perceived as an elitist institution, but rather as a system very different from the VTAE System. Unless great care were taken in the credit transfer matter, he cautioned, these two excellent but distinct systems could become melded together, to the detriment of both.

Citing initiatives taken by President Shaw to implement decisions made in Planning the Future and his recommendations for resolving remaining issues, Regent President Schilling observed that the Board of Regents and the UW System had not been recalcitrant but rather had been forthcoming in putting positive initiatives on the table.

He went on to outline areas of concern in considering the issues of credit transfer, which must be considered: (1) in the context of enrollment management; (2) in the context of efforts to increase admission standards; and (3) in the context of varying tuition rates and the resulting issues of equity in transferring credits.

With regard to initiatives which had been taken, he pointed out that the transfer information system would help greatly in advising VTAE students as to credit transfer opportunities and that credit by examination for VTAE students provides another useful means of addressing the issue.

In concluding his comments to the VTAE Board, Regent President Schilling expressed confidence that the matter could be resolved in a way mutually beneficial to both systems and their students but not destructive of the important distinctions to be maintained.

He then invited Regent DeLong to comment to the Board of Regents from his perspective as President of the VTAE Board.

Regent DeLong

Regent DeLong pointed out that the VTAE Board had not taken a position in support of the legislation proposed by Representative Barca, just as they had not taken a position in support of other credit transfer bills in the past, on the basis that this issue should not be determined by the Legislature. However, Regent DeLong emphasized that a problem exists which must be faced by both boards in order to fulfill their responsibilities.

Noting that the mission of the VTAE System is to prepare people for vocational/technical jobs in the workplace, he commented that such training today involves much more in the way of communication skills, mathematics and other general education components of an associate degree than had been the case in the past. The issue is what should be done with those credits if, some time in the future, the student who earned them should wish to pursue a baccalaureate degree. The three currently transferable college-parallel programs at Milwaukee, Madison and Nicolet must be incorporated in the UW System enrollment management strategy, as must transfers from any other institutions. The cause of the problem, he observed, seemed to be the Regents' admission policy, which states that VTAE credits, except for college-parallel courses, are not allowed except by examination in certain cases. The problem had festered for years and constituents had gone to legislators for a solution.

VTAE institutions believed that some portion of the general education courses, as well as others, are equivalent in subject matter, rigor and quality to some UW courses. This could be determined factually through available assessment tools. At the same time, it was the unanimous view of the VTAE Board that the VTAE institutions should not become community colleges.

In today's world, Regent DeLong observed, people trained for different jobs at different times in their lives. When industries and companies changed their emphasis, the workforce had to be retrained, often in the areas of mathematics and communication skills. In addition, employees often wanted to pursue a baccalaureate degree—to qualify for a promotion or to meet requirements of changing jobs. Given that environment and the expense of education, he thought the public, as represented by the Legislature, did not believe that the two publicly funded systems of post-secondary education were fulfilling taxpayers'

wishes that credit for certain kinds of courses be transferable. As an example of the problem, he remarked that nurses who want to pursue baccalaureate degrees must attend private institutions to get credit for the two-year courses they had taken in the VTAE System.

Commenting that the VTAE System's position is not unreasonable, Regent DeLong said that it is their belief that the present Board of Regents transfer policy unfairly singles out VTAE students by specifically prohibiting transfer of VTAE credits. Instead, Board of Regents policy should treat such transfers in the same manner as students transferring from other institutions. Associate degree technical courses and associate degree general education courses should be considered for transfer based on program and course similarities at the receiving UW institution.

Second, the VTAE Board believes that present college-parallel programs at Madison Area Technical College, Milwaukee Area Technical College and Nicolet Area Technical College should continue, but that similar college parallel programming should not be extended to any other VTAE district. The intention is for associate degree programs to include the normal component of 15 general education credits.

Third, the VTAE Board supports articulation agreements between VTAE districts and UW campuses, expanding the charge of the Joint Administrative Committee on Academic Programs, and the continued use of credit by examination to identify competencies that might not otherwise be identified. Individual testing, however, should not be used in lieu of normal transfer consideration. If a particular course in a VTAE institution does meet the requirements of the receiving university, each student should not be required to take an examination.

In conclusion, Regent DeLong stated that the VTAE Board's position is based on its view of the best interest of students, not of the VTAE System. Most VTAE students must pay their own way, many have families, and on the average they are considerably older than UW System students.

President Shaw

President Shaw observed that the credit transfer dilemma involves two important values: (1) the distinctiveness of mission; and (2) providing service to students. The discussions he was having with Acting Director Davison focused on both of those issues.

Concerning service to students, he recalled that in his October presentation to the Education Committee, he expressed the view that major credits from VTAE institutions should be evaluated no differently than major credits from other institutions. This was recognized in the major-specific articulation agreements which already had been implemented as part of Planning the Future. Regent policy, however, precluded granting of credit for general education courses, except for the three college-parallel programs, and he had expressed concerns in his October report about accepting such general education credits.

Nonetheless, President Shaw noted, there were two additional considerations which resulted in modification of his position. First, the VTAE requirement that no associate of arts degree program may exceed 15

credits in general education would limit the scale to a potential transfer of no more than 15 credits, in comparison to the 60-credit college-parallel general education program.

Secondly, the number of students involved would be relatively small. One thousand students now transfer annually from the VTAE districts, the large majority of whom transfer from college-parallel programs. Even if the number of other VTAE transfers doubled, it would amount only to one-tenth of transfers to the UW System in a year's time.

Therefore, President Shaw was proposing that the policy be modified in two ways: First, to make testing available to students in the general education area, and second, to evaluate general education courses on their merits in the same way as other courses. However, the campus communities were not enthusiastic about the latter proposal because of the concern that such an accommodation would result in creation of 16 college-parallel programs. This concern related to the second value he had mentioned—the distinctiveness of mission and avoidance of duplication between the systems. The citizenry should not be double—taxed, he stated, by duplication of efforts which would result in the existence of 13 UW Centers plus 16 VTAE institutions which for all practical purposes had become community colleges.

In discussions with the academic affairs leadership of the campuses, much concern had been expressed about the need to avoid a situation which would lead to needless duplication at a time when dollars are scarce and even obtaining resources for adequate faculty and staff salaries is expected to be difficult. In the 1970s and 1980s, market forces permitted maintenance of quality while paying faculty and staff less than the rate of inflation, but now market forces were moving in the other direction, making more important avoidance of unnecessary duplication.

In discussions with Mr. Davison, President Shaw pointed out that a major difficulty in persuading the Board of Regents and the campus communities to accept his proposal was concern that the two systems' missions would in effect be fused, resulting in an overbuilt system in terms of general education and an underbuilt system in terms of meeting the technical needs of students and society. Therefore, President Shaw had asked for assurances that, first, there be no new college-parallel programs, so that for other VTAE programs the maximum amount of general education transfer would be 15 hours. Secondly, there should be a strong statement on the need to maintain distinctiveness of mission and, finally, establishment of an approval mechanism to ensure that this 15-hour requirement would not increase. He had asked Mr. Davison if he could provide a preamble setting forth those points and was awaiting his response.

With regard to the areas of concern identified in Regent President Schilling's statement, President Shaw indicated that the question of differential tuition would have to be addressed. However, if transfer opportunities were limited to associate of arts degree graduates, they would receive for transfer less than the 60 credits earned in the associate program, which would mitigate any financial advantage to starting in such a program with the intent to transfer.

Second, he thought the concern about admissions and enrollment management could be resolved in the same manner. One way admissions had been made more stringent was to avoid transfer of students who had taken less than 30 credits elsewhere.

While there would be some problems and a modicum of duplication, he felt the duplication would be constrained by an agreement on distinctiveness of mission, by assurance that there would be no new college-parallel programs, and by assurance that the general education component would not come to dominate the associate of arts degrees. If received from the VTAE System, a preamble of such assurances would be shared with the academic communities and the Board of Regents.

Board of Regents

Commenting on two issues which he felt must be addressed, Regent Weinstein said the first was the traditional role of faculty and campus administrators in setting the admission standards of their institutions—a system that had served the state well for more than one hundred years. He was concerned about the suggestion that the Board now should dictate admission standards to the institutions. The universities could not be held accountable for the product, he observed, if they were not permitted to set the standards.

The second issue related to President Shaw's responsibility for implementing the enrollment management plan. It would not be reasonable, he commented, to hold the President accountable for the success of that plan, while at the same time opening the door to a whole new category of students. However, having confidence in President Shaw's preamble proposal, Regent Weinstein thought it possible to resolve the matter without legislative intervention. He asked Regent DeLong if he agreed with that plan.

Replying that the VTAE Board concurred with the concepts outlined by President Shaw, he added that his board also agreed that each campus should set its own admission policy. All the VTAE System was asking was that VTAE credits be treated no differently from any other institutions' credits in determining transferability. Each UW institution should make that determination.

Regent Fish expressed concern that the tremendous amount of work put into the enrollment management plan would be negated if campuses were required to accept unlimited transfers. However, if the numbers were not great, he thought the situation might be manageable. It also should be kept in mind, he commented, that governance is considerably different between the two systems and that budgetary restraints also are somewhat different. With regard to governance, the Board of Regents has more control over UW institutions and chancellors than the State VTAE Board has over its districts and directors. Therefore, it might be more difficult for the VTAE Board to effect the negotiations required to resolve the matter. He was comfortable with the process whereby President Shaw was meeting with Acting Director Davison to formulate a proposal, which in due course would come to the Regents, and he did not view the problem as insurmountable.

Regent Flores pointed out that a high percentage of the minority students who attend college begin their post-secondary education in a community college or technical school. Stating that there must be the ability to bridge from one system to the other, he said that, while the UW and VTAE missions should not be meshed, the needs of individual students must be addressed, and VTAE students who wished to transfer to UW institutions should not be excluded. If the two systems did not resolve the matter, it was clear that the Legislature would take action.

Commenting that the problem should be amenable to solution, Regent Grover thought there were two steps to be taken. First, the VTAE Board should reassert its position that no new college-parallel programs would be approved. Second, every UW institution with an extended degree program should be required to consider VTAE credit transferability and, through mechanisms of testing, be required to assess the individual credentials of students from the VTAE System. Since the extended degree programs gave credit for life experience, he remarked that it also would be logical to consider credit earned within the VTAE System. The result would not be creation of a community college system, but simply expansion of existing programs. Thus, there would be no intrusion on the prerogatives of faculty governance.

Regent Gundersen inquired as to the use of placement tests.

In response, President Shaw noted that the ACT, now required of all students as a result of Regent policy in *Planning the Future*, provided indication of a student's aptitude. A variety of tests at UW institutions then help to place students in sequential courses.

Regent Gundersen commented that in his view the credit transfer issue could be resolved only by examination.

Regent Lyon stated that he would support broadening of transfer opportunities if adequate resources were available. However, he pointed out that most discussion had focused on articulation of courses and testing rather than on resources, enrollment management, admission standards, and equity in treatment of students who might attend a UW Center versus those who might attend a VTAE institution. Noting that some of those issues were now being addressed, he expressed agreement with the points made in the paper presented by Regent President Schilling. With regard to President Shaw's prediction that there would not be many additional transfers, he commented that, while this might be true at the present, in 10 or 15 years the number of transfers could be substantial. In that case, it would be necessary to be sure that resources would be adequate to handle the increased number of students.

Since neither the Board of Regents nor the VTAE Board wished there to be legislation in this area, Regent Lyon suggested that as soon as possible the President of the Board of Regents, the President of the UW System, the President of the State VTAE Board and the State VTAE Director should develop a strategy to persuade legislators that both systems intended to move forward in resolving the matter, so that legislative intervention might be avoided.

If there were few students involved, Regent Hanson inquired as to what pressure there was for the Legislature to become involved, adding that she was uncomfortable with the Legislature mandating requirements in this area. She was concerned that changing the transfer policy would result in meshing of the two distinct systems into one vast system and that the uniqueness of the University System would be lost. She preferred an elitist University System to one mass educational system that would educate everyone poorly.

President Shaw indicated that he was motivated less by legislative pressure than by the need to deal with a complex issue fairly and with a policy perspective that would serve well in the future. As an example of the kind of situation which motivated his proposal, he cited the case of a single parent working as an accountant who is advised to earn a two-year degree. After successfully completing some courses, she is counseled to work toward a bachelor's degree for professional advancement, but finds difficulty in gaining recognition for the work she has done. While articulation agreements could provide credits for the accounting courses, current policy would preclude consideration of general education classes. Similar examples could be found in nursing and other areas.

It was such examples that tended to be reported to legislators and magnified, not because the numbers were large, but because avoidance of duplication seemed inadequate explanation for these kinds of situations. The intent of his proposal was to address such problems fairly, while avoiding unnecessary and expensive duplication between the two systems.

System Vice President Bornstein added that the kinds of situations to which President Shaw referred accounted for much of the pressure on the Legislature. Another aspect was the activity of some district VTAE directors who believed their mission should be changed, contrary to the view of the State VTAE Board.

Regent DeLong pointed out that, whether or not the State Board agreed with all that the district directors might espouse, no program could be instituted, modified, or discontinued without the approval of the State Board.

Concluding the discussion, Regent President Schilling stated his conviction that, with hard work and good will, the matter could be resolved, while maintaining a clear distinction between the missions of the UW System and the VTAE System.

Report of the President of the VTAE Board on adopter of the Roard of Possession on the Roard of Possession of Poss

Continuing Education agreement adopted by the Board of Regents the previous month had been adopted by the VTAE Board. Noting that implementation would begin soon, he expressed optimism that the new process would lead to resolution of remaining issues.

On behalf of the State VTAE Board, he stated appreciation for Regent President Schilling's remarks on credit transfer, which were very helpful

in bringing to the attention of the VTAE Board some aspects of the issue which the Board of Regents must consider. His comments had been very much

Resolution of Appreciation for Regent Emeritus Gerrard, R 5209, P. 11

Regent President Schilling presented the following resolution and moved its adoption. The motion was seconded by Regent Weinstein and adopted by acclamation with an ovation for Regent Emeritus Gerrard.

Resolution 5209:

Whereas, M. William Gerrard was initially appointed to the Board of Regents of The University of Wisconsin System by Governor Patrick Lucey in 1975 and was reappointed by Governor Lee Dreyfus in Enculus Regents - Emeritus status to Regent General R 5209, p. 11

Whereas, he has retired from the Board of Regents after having completed two full terms totaling 14 years of service; and

Whereas, Regent Gerrard was a member of the Physical Planning and Development Committee for 12 years, providing leadership to the Committee as its Chair from 1977 to 1982 and as Vice Chair from 1986 to 1989; and

Whereas, the UW System has benefited greatly from his expertise in the field of real estate, his extensive knowledge of campus facilities and lands, and his knowledge and wisdom concerning Wisconsin governmental processes;

Therefore, be it resolved that the Board of Regents of the University of Wisconsin System hereby commends M. William Gerrard for the commitment to higher education he has demonstrated by his many years of service as a member of this Board; and

With due appreciation for and recognition of the contributions he has made to the University of Wisconsin System and the people of this state, the Board of Regents hereby grants to M. William Gerrard the status and title of Regent Emeritus.

Regent President Schilling displayed a plaque to be presented to Regent Emeritus Gerrard in honor of his service.

REPORT OF THE PRESIDENT OF THE SYSTEM

Approval of Nonpersonnel Actions/Informational Items

Upon motion by Regent Fish, seconded by Regent Lyon, Resolution 5210 was unanimously adopted.

Resolution 5210:

That the report of nonpersonnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

Merrities -)

Provident Show attainty Implementation by Wis. Power & Right G.)

President Shaw noted that last month he had the pleasure of recognizing Regent Davis and the Wisconsin Power and Light Company as the second corporate contributor to the "Do College" media project, targeted at junior high and beginning high school minority students. Earlier in the month, he had viewed the filming of the media spots and was very impressed with the sincerity and sense of presence of the students, with the professionalism and dedication of the production crew, and with the cooperation of all those involved, including the dormitory residents who allowed use of their rooms.

At this meeting, he was pleased to recognize Wisconsin Bell as the third major corporate contributor to this "Do College" project.

The contribution was presented by John Geroux, Vice President for External Affairs at Wisconsin Bell, who introduced Candice Eastern-Walz, Director of Community Relations, and Dick Schultz, of the Marketing Division.

Stating that Wisconsin Bell took pride in being part of this program, Mr. Geroux observed that education is the key to a future of increasingly complex and rapidly changing technology. The import of minorities and women in the future also is increasing and the innovative "Do College" program is an excellent way to encourage more minority students to obtain the education needed in the coming information age.

President Shaw thanked Mr. Geroux for Wisconsin Bell's generous support.

pp 12-16

Presentation on the Pre-College Program at UW Milwaukee

President Shaw stated that the UW-Milwaukee pre-college program represents one of many strategies that the UW System is employing to fulfill the goals of Design for Diversity, to increase the pool of Wisconsin minority students completing high school with both the academic preparation and desire to succeed. The important role of this and other

X ref Menoritie - (same, but add; at UW-Millermker)

X ref Disign for Diversity - ("same)

programs at UW institutions has increased recently through both UW System initiatives and the Pre-College Minority Scholarship Program implemented by the Wisconsin Department of Public Instruction.

Stating that a year ago UW-Milwaukee adopted the "Milwaukee Initiative" as its plan to increase recruitment and retention of minority students, Chancellor Smith pointed out that one of its goals was to increase the pool of Milwaukee minority students prepared to enter the University of Wisconsin System upon high school graduation. Having been involved in pre-college programs for over 20 years, there are currently many UW-Milwaukee activities designed to achieve this goal. Focusing on instructional programs on the campus and in the community for minority pre-college students, some are highly selective and enroll Milwaukee's top minority high school students, while some focus instead on students who must enhance their middle and high school achievement in order to be ready for college. Many of these programs are offered on weekends during the school year, while others enroll students for a six-week program on the campus during the summer.

The chancellor then introduced Dr. Ruth Williams, Assistant Vice Chancellor and Director of the Student Academic Support Program, and Mr. Carl Corbett, Director of the Pre-College Center since 1979.

Noting that the first objective of the pre-college program is to improve the academic performance of students while attending middle school or high school, Mr. Corbett said that they do this by offering skill-building classes, tutoring, monitoring grade point averages, and encouraging students to take college preparation courses. Examples are students participating in summer programs and Saturday academic programs, with the strong emphasis on the sciences.

The second objective is to stimulate interest in education, specifically in college. The educational experience students receive in this program affords them opportunities not always available in their K-12 schools. The campus permits use of its specialized equipment such as a CAD/CAM computer for architectural design. Students may take dance, get involved in film-making, or they may be enticed by a camping experience.

Introducing students to career options is the third objective. Hands-on experiences could be in chemistry, endocrinology, aquatic biology, microbiology, speech therapy, nursing, architecture, health rehabilitation, engineering, theatre and film.

The fourth objective is to familiarize students with the college campus. Students follow a schedule similar to college students and there are many opportunities for socialization with other students who are also college-bound. The distance itself is an adjustment for the students, since usually it is traveled by bus from the city's north or south side to the campus' east-side location. UW-Milwaukee faculty also become role models, instill confidence, and serve as personal contacts for these students. It is the program's hope for these students to learn that education can be fun; it can be intriguing; it can be hard work; but most of all, it can be for them.

Approximately 800 students are served at the Center each year, with 85 percent being from a racial or ethnic minority group, with 86 percent from the Milwaukee Public School System. In the last three years, Mr. Corbett explained, there has been a significant expansion in some programs and the creation of several new programs, all because of the Department of Public Instruction's Pre-College Minority Scholarship. The list of new programs includes the Summer Reading Camp, the American Indian Residential Program and the Rainbow Arts Program in Fine Arts. The newest program, created at the request of the Milwaukee DPI office, is called the UW-Milwaukee Basics Plus Summer Day Camp and will address the particular needs of at-risk students. To be responsive to the needs of the community, the Center has developed new programs for the United Community Center, the Calvary Baptist Church, and the UW-Milwaukee Experience for North Division High School, all free of charge for the students and organizations.

A recent survey of those high school graduates who were pre-college participants disclosed that 84 percent of the students contacted had entered college. The students are not required to enroll at UW-Milwaukee, the intent of the program being that students enroll in some post-secondary institution. However, 41 percent did select UW-Milwaukee as their post-secondary institution, with 58 percent choosing a UW System school. Graduates of the program have attended schools all across the country, such as M.I.T., Spellman, Marquette and Carroll College.

Mr. Corbett then introduced Tracey Turner, who had enrolled in the Pre-College Center as a freshman and is currently a UW-Milwaukee senior majoring in psychology.

Ms. Turner explained that her first university experience occurred with the Pre-College Center seven years ago while attending Milwaukee's James Madison High School. She had found exciting the prospect of attending an educational summer program to pursue a college career after completing high school.

During her first summer in the program, she took courses in English composition, biology, geometry and a course in college survival skills. The biology course was much more experimental and the lecture material went into greater detail, which was much more understandable than the high school biology class she was to take the following semester, and she believed it also helped to increase her reasoning skills. The geometry course prepared her for high school geometry, giving her an advantage over her classmates. The college survival skills course, not offered in high school, taught time management and note taking, which was extremely fundamental during her high school senior year. In that year, she attended school full time, worked part time and managed to keep her grade point level at a 3.0 and above. The pre-college program was akin to attending college. Monday through Friday, she would go to a different building for each course and eat lunch at the cafeteria, while still mixing with other college students. While instilling responsibility, the program encouraged and motivated independence.

Returning to high school after her summer experience, she looked at her surroundings in a new light, feeling more important and more adult. She successfully applied some of the techniques from the college survival skills course to her high school courses and became anxious to attend the program for a second summer.

Ms. Turner began her second summer feeling more comfortable with the college atmosphere and took courses in English composition and chemistry, which previewed material she might have the following year. Returning to high school for her junior year, she discovered that her pre-college computer class had been more advanced than her high school computer class, and she also found high school trigonometry more understandable as a result of that summer experience.

During these summers in the program, there was opportunity to explore professional facilities that could become career targets. There were tours of the Center for Great Lakes Studies, the Medical College of Wisconsin, and to a Milwaukee area hospital. Because of these visits, Ms. Turner decided to focus on physical therapy as a career option, which continued throughout high school and into her freshman year at UW-Milwaukee. The pre-college program presented her with experience that she continues to use today and familiarized her with the university campus which housed a library that was the size of her entire high school.

The program's counselors served as role models and encouraged students to make long-term personal commitments to realistic plans. She began to encourage her younger sister to focus on preparing for high school and college and, after seeing the effect of the pre-college program, her mother began preparing her younger sister for a college education at an early age and is encouraging her to attend the pre-college program.

Ms. Turner feels that the pre-college program motivated and increased her self-esteem, helping her develop a healthy attitude regarding her future and the effect that these choices might have on the community. She is currently a senior at UW-Milwaukee majoring in psychology and working as a part-time counselor at a psychiatric facility for long-term mentally ill adults. Her future plans include attending graduate school next year to work toward a Ph.D. in Psychology.

Thanking her for the presentation, Regent Hanson expressed the Board's pride in students such as Ms. Turner.

President Shaw stated that hearing such a presentation was very gratifying and resulted from cooperation with the Department of Public Instruction, the local school system and UW-Milwaukee.

Regent Grover noted that the pre-college program had begun during the administration of President O'Neil and as a result of the Joint UW/DPI Study on Minorities. The Department of Public Instruction received \$250,000 to stimulate young people in the minority community by exposing them to the collegiate experience. With that money, children were sent to college campuses in this state for a cost of about \$250 a week. While scholarships were available for those students once they enrolled, the difficulty was in finding funds for a program which would help them recognize the opportunity that awaited them in college.

Stating that a million dollars could be used to send 4,000 minority children to a college campus, Regent Grover reported that the Joint Committee on Finance was unwilling to support the needed funding. He

asked the Board of Regents to assist in persuading the Legislature to adequately fund this program which would help greatly in increasing minority enrollment in the UW System. Another program for which university assistance is needed in obtaining funding is Teacher World for which only \$60,000 is available. The effort is to encourage 600 children, many of whom are minorities, to become teachers. Teachers in the state were so enthused that over 600 people had applied for the 15 positions available to work in that program.

Regent Weinstein suggested that Regent Grover and President Shaw might discuss ways in which the UW System could be helpful in obtaining support for the pre-college program. For example, a presentation on the program, by those directly involved, might be made to members of the Joint Finance Committee.

Regent Gundersen complimented Regent Grover for maintaining Wisconsin's ranking of second in the nation in ACT scores.

Dutstanding Student Government Award, P. VW- Green Bay Standart asen recipions of Resident's Outslanding Habent Good, P. 16

President Shaw announced that this year's winner of the President's Award for Outstanding Student Government was the UW-Green Bay Student Association, for its leadership in improving student representation in institutional policy review and for its constructive and productive work on a range of academic, social, administrative and community issues. He recognized two officers of the student association, Jay Wadd and Mary Grouse, who were present for announcement of this award.

XNY Resident Noting that there were a number of outstanding student government programs this year, President Shaw recognized for honorable mention the UW-Oshkosh and UW-Stout student governments which had excellent programs, particularly in terms of their working with the surrounding community.

> Commending the practice of giving awards to student organizations for their accomplishment, Regent Gundersen asked if faculty who received awards also were recognized.

The response was that congratulatory messages to those receiving major awards were sent by Regent President Schilling and by President Shaw.

Regent Flores added that such awards also were announced at meetings of the Education Committee and then reported to the full Board of Regents.

REPORT OF THE EDUCATION COMMITTEE

Regent Grover, Chair of the Education Committee, presented the committee's report.

Board of Regents Meeting Minutes 5/5/89

1988 Equal Opportunities in Education Report P.17

This report was presented at a portion of the meeting to which all Regents were invited by Dr. Marian Swoboda, Assistant to the President for Equal Opportunity Programs. In discussion, there were suggestions that attempts be made to quantify progress and that future reports be more candid and more critical where warranted in assessing whether progress is being made at a satisfactory pace.

And Cudits - replace or subgroup or transfers of cudits, p. 17

A subgroup of vice chancellors, chaired by Gaylon Greenhill of UW-Whitewater, had been meeting to develop recommendations for facilitating transfer within the UW System in the context of enrollment management, and also to smooth transfers for students from VTAE programs. The subgroup was to report to Dr. Trani in June.

of VIAE - (Laras) National Science Foundation Presidential Young Investigator Awards P. 17

Eight UW-Madison faculty researchers had been named winners of the National Science Foundation Presidential Young Investigator awards, which cited them for outstanding teaching and research: In astronomy, Assistant Professor Robert Mathieu; in biochemistry, Assistant Professor Richard Amasino; in chemistry, Assistant Professors Robert McMahon, Edwin Sibert and Lloyd Smith; in computer science, Assistant Professors Mark Hill and Susan Horwitz; and in electrical and computer engineering, Assistant Professor Barry Van Veen. The eight were among 197 award recipients chosen by the National Science Foundation from more than 1,600 nominations.

Fellowships, Genaral -Alfred P. Sloan Fellowships announced, p. 17

The Alfred P. Sloan Foundation had announced the names of 91 young scientists who had been selected to receive research fellowships of \$25,000 each. Included was Kenneth D. West, UW-Madison economist.

Fellowships, deres Guggenheim Fellowships annual, pp 17-18

Four UW System faculty members have been awarded Guggenheim Fellowships for 1989. The fellowships, which are based on "unusually distinguished achievement in the past and exceptional promise for future accomplishment," were awarded to UW-Madison professors David McLeod Bethea, slavic languages; Arthur B. Ellis, chemistry; Hendrik A. Hartog, law; and UW-Milwaukee professor Cecilia Condit, film.

National Academy of Sciences - Sleether 3 300-Madein professor to maintending p. 18

The National Academy of Sciences, the nation's leading honor society scientists, had chosen 60 new members. Among them were three from idison: R. Byron Bird, Professor of Chemical T., Vice President for scientists, had chosen 60 new members. Among them were three from UW-Madison: R. Byron Bird, Professor of Chemical Engineering; Winston J. Brill, Vice President of Research and Development at Agracetus and Adjunct Professor of Bacteriology; and Neal First, Professor of Meat and Animal Science. The election of these three new members brought to 42 the number of current UW-Madison academy members.

Board of Regents Meeting Minutes 5/5/89

for Edward Wardness Designation of Chancellor Emeritus Status UW-Green Bay

Adoption by the Board of Regents of Resolution 5221 was moved by Regent Grover and seconded by Regent Jarvis.

UW - Heart Bay ")

(Same, but drop the "UW - Heart Bay")

Resolution 5221: Be it resolved, that the Board of Regents, upon the recommendation of the President of the University of Wisconsin System, expresses appreciation to Professor Edward W. Weidner for his able leadership as Chancellor of the University of Wisconsin-Green Bay from 1966-1986 and, that upon his retirement, designates him Chancellor Emeritus of the University of Wisconsin-Green Bay.

Regent Fish stated his understanding of the agreed procedure whereby a chancellor who retired from that office but remained on the faculty would not be granted emeritus status until he or she fully retired.

Noting that the practice had not been followed uniformly in the past, Regent Clusen asked how Dr. Weidner would be apprised of this recognition.

Indicating that Chancellor Outcalt would wish to personally inform him, President Shaw added that there also would be an appropriate letter and citation.

In response to a question by Regent Flores, President Shaw indicated that it had been the Board's wish, as Regent Fish had stated, that a person be completely retired before granting of emeritus status, although there had been occasional exceptions. This was not an uncommon procedure across the country.

Regent President Schilling observed that those who served on the Board when Dr. Weidner was chancellor remembered him as a very dedicated, competent and hard-working leader -- the first chancellor of UW-Green Bay and chancellor for 20 years.

Put to the vote, the resolution was adopted by acclamation, with an ovation for Dr. Weidner.

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Regent Nicholas, Chair of the Business and Finance Committee, presented the committee's report.

Approval of Gifts, Grants and Contracts

Vice President Poellnitz reported to the committee that total gifts, grants and contracts for the ten-month period ending April 15, 1989, were \$330.4 million, or \$45.8 million more than the same period last year. A \$21.7 million increase in student aid and a \$21 million increase in research accounted for the majority of the increase. Of the \$45.8 million total increase, federal funds accounted for \$39.1 million, \$21.9 million in student aid and \$18.3 million in research.

The non-federal share increased by \$6.7 million, \$2.7 million in research and \$2.4 million in extension being the most significant changes.

Reporting unanimous committee approval of the following resolution, Regent Nicholas moved its adoption by the Board of Regents. The motion was seconded by Regent Jarvis and carried, with Regent Davis abstaining from the vote.

Resolution 5222: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Regent Gundersen noted that pride should be taken in UW-Madison's ranking of tenth in the nation in private funding.

Authorization for UW-Stout to Enter into a Contract with General Electric, R 5 2 2 3, PP 26-27.

Regent Nicholas reported unanimous committee approval of authorization for UW-Stout to enter into a contract with General Electric for the purpose of fellowship training, to provide technical assistance to the Government of Turkey to improve the skills and productivity of its workforce. It is required that an institution obtain Regent approval prior to entering into contracts with private profit-making organizations where the value is in excess of \$100,000.

Vice Chancellor Face advised the committee that two other universities were involved in this project and that students from Turkey would be coming to UW-Stout to participate in the program.

It was moved by Regent Nicholas and seconded by Regent Jarvis that Resolution 5223 be adopted by the Board of Regents.

Resolution 5223: That, upon the recommendation of the UW-Stout Chancellor and the President of the University of Wisconsin System, authority be granted for UW-Stout to enter into a contractual agreement with the General Electric International Service Corporation for fellowship training to provide technical assistance to the Government of Turkey in the areas of learning resources development, electronics and computing. This approval is for the initial contract period of May 1, 1989 through November 30, 1990 and for subsequent extensions under Phase II of the project.

In response to a question by Regent Flores, Vice Chancellor Face indicated that there would be two groups of students, with each group having six students in electronics and six in computing.

Regent Schilling added that the Business and Finance Committee thought very highly of this program.

Put to the vote, the resolution was adopted unanimously.

Rupilianes - Report or Chargeback Policy for Centralized Services p. 27

Vice President Poellnitz advised the committee that the initial draft policy on charging auxiliary enterprises for centralized services had been revised in three major ways: (1) charges to auxiliaries for heating plant operating costs had been removed; (2) further clarification had been added to the definition of auxiliary programs and centralized services; and (3) institution-specific methodologies had been made acceptable if the charge more accurately reflected the cost of services provided. The committee was assured that the policy addressed institutional concerns and was well balanced.

The paper outlined the specific methodology to be used to charge auxiliaries for these services and pointed out that the effect of the policy might be to raise or lower the charges currently in existence at various institutions. The policy would provide uniformity throughout the system where none currently exists. The effective date would be July 1, 1990, it being too late for implementation this year.

Rob McGinnis, of United Council, asked that the following issues be addressed prior to full implementation of the policy: Whether any changes would be made to Financial Policy and Procedure Paper #37; what would happen to the chargeback if auxiliary revenues decrease; and why UW-Madison's methodology should be changed if the institution and the students are currently satisfied.

Tuse of Segregated Fees for Legal Services, PP 27-28

Reporting on review by the Business and Finance Committee of this matter, Regent Nicholas said Legal Counsel Hodulik began the presentation by referring to the informational report on Financial Policy and Procedure Paper #20 presented at the March, 1989, meeting. The report provided the historical and legal background to the prohibition of the use of segregated fees to pay legal costs, which was based on the requirement that the expenditure must be shown to be "necessary and convenient" to the educational purposes of the UW System. Student legal services programs had been allowed as an exemption, if they are provided under contracts approved by the Governor and if they prohibit the commencement of any legal action adverse to the UW System.

At the March meeting, Regents expressed concern about students, in

their capacity as student government representatives, being sued and not

being able to obtain legal representation. Generally, the Attorney General's Office provided legal representation or those institutions with student legal services programs provided representation. However, since not all institutions have legal services programs and the Attorney General's Office may decline representation, situations could exist where a student, sued as a student government representative, would not receive university-funded legal representation.

To alleviate this potential problem, two policy alternatives were presented: one an amendment of FPPP #20; and the other, a separate Regent policy statement. Both approaches would require the use of special counsel contracts approved by the Governor, and actions adverse to the Board and the UW System would be prohibited. If a change is to be made, Attorney Hodulik suggested that amendment to FPPP #20 would be preferable, since it is the main source of guidance to the institutions on the appropriate uses of segregated student fees.

Rob McGinnis, of United Council, and Jay Lewandowski, President of the UW-Parkside Student Government, spoke in favor of an amendment to allow payment of legal fees in those situations where representation is not available. After discussion, Regents felt representation was available from the Attorney General's Office in the UW-Parkside situation. Generally, student government officials have representation and protection by the Attorney General's Office, the UW System Legal Office and the Board of Regents. Accordingly, no change in policy was recommended. Legal Counsel Stathas indicated he would look into the possibility of the State Risk Management Fund absorbing the legal costs incurred by the UW-Parkside Student Government—approximately \$386.

In discussion at the Board meeting, Regent Weinstein pointed out that there is another aspect to the issue, as shown by the situation which arose at UW-Milwaukee, in which the student government wished to confront the Chancellor, but had no access to legal representation, whereas the Chancellor has unlimited access to legal services. He expressed the hope that the committee would consider that side of the issue.

Regent Jarvis replied that, with United Council's advice, what had been considered was the issue of legal representation for defense costs, rather than the issue that arose at UW-Milwaukee. That matter was discussed at the last meeting, but was not discussed again at this meeting.

Rescission of Policy on Radio and Television Broadcasting R 5224, PP 28-29

Regent Nicholas reported unanimous committee approval of Resolution 5224, which involved rescinding the May 13, 1950, policy on radio and television broadcasting, which would prohibit seeking competitive bids for exclusive broadcasting rights on a statewide radio network for UW-Madison football and basketball games. On the basis that the policy is outmoded, rescission was recommended in order to permit UW-Madison to seek competitive bids for a radio network that would cover the entire state for its football and basketball games.

Tref Regist - Policido uma (2000)

In committee discussion, Regent Fish emphasized that by rescinding the existing policy, no action was being taken on the broader scope of prior actions regarding advertising. It was pointed out that the rescission would have no impact on delayed broadcasts by WHA. Regents were told the financial impact of rescinding the policy would be positive and that the contract would go through the normal state bidding process.

Adoption by the Board of Regents of Resolution 5224 was moved by Regent Nicholas and seconded by Regent Nikolay.

Resolution 5224: That, upon the recommendation of the Chancellor of UW-Madison and the President of the University of Wisconsin System, the Statement of Policy on Radio and Television Broadcasting adopted by the former Board of Regents of the University of Wisconsin on May 13, 1950, be rescinded.

In response to questions by Regent Clusen, Vice President Bornstein stated that there was nothing in the policy recommended for rescission that would impact on the operations of the broadcast properties of the university. The recommended action would rescind a policy of the Board which preceded merger and preceded present-day broadcast activities. The contract would be bid on behalf of the UW-Madison and the bidding process would follow strictly state bidding procedures.

Put to the vote, the resolution was adopted unanimously by the Board of Regents.

free Beodemic

Tuition Policy and Modeling Options, p. 29

The Business and Finance Committee was advised that, except for the increase resulting from special fee increases for nonresident undergraduates, law students and business master's candidates, the 1989-91 budget assumed that the overall percent of cost paid by students would remain at 35 percent, the same percent paid in 1988-89. Resident undergraduates would continue to pay slightly less than 35 percent, the same percentage as last year. It was estimated that if the pay plan were approved as part of the biennial budget, fees would increase by about seven percent, which would be approximately the same average increase estimated by other Big Ten institutions.

At the July 1988 meeting, the Regents asked that alternative fee structures be presented prior to action on the fee schedule for 1989-90. Assistant Vice President Jensen discussed six alternatives to the 1988-89 fee schedule, five of which were revenue neutral, meaning they would have generated the same amount of revenue as the 1988-89 approved fee schedule.

Report of the Vice President

Vice President Poellnitz reported to the committee that the reserve for revenue shortfall and other contingencies was estimated at \$1.2 million.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Regent Nikolay, Chair, presented the report of the Physical Planning and Development Committee. Lease of Space at 150 E. Milman H.

UW Centers Approval of Lease of Space R 5225, PP30-3)

The committee unanimously approved a request to lease 8,368 square feet of space at 150 East Gilman Street in Madison for administrative offices for the UW Centers, to replace inadequate space currently occupied at 149 North Frances Street. It was noted that this lease, unlike others, provided for a decrease in rental if justified by the Consumer Price Index.

It was moved by Regent Nikolay and seconded by Regent Doughty Luckhardt that the following resolution be adopted by the Board of Regents:

Resolution 5225: That, upon the recommendation of the UW Centers
Chancellor and the President of the University of
Wisconsin System, authority be granted to enter
into the following lease:

8,368 square feet (SF) of space in a building located at 150 East Gilman Street, Madison, Wisconsin.

Lessor: Verex Assurance, Inc. 150 East Gilman Street Madison, Wisconsin 53703

The lease covers a five-year term beginning August 1, 1989 through July 31, 1994. The initial annual base rates of \$92,020 per year (\$11.13/SF) for 8,268 SF of office space and \$500 (\$5.00/SF) for 100 SF of storage space includes custodial services. The rental adjustment for each of the four subsequent years will be based on the increase or decrease of the National Consumer Price Index, not to exceed an increase or decrease of five percent per year.

The Lessee is responsible for the actual utility cost, which is estimated to be \$1.75/SF. Rental payments will be funded from the UW Center's GPR Operating Budget Funds. Visitor parking will be available. In addition, four underground parking stalls will be provided at no cost and an additional 11 underground parking stalls will be available to rent.

In discussion at the Board of Regents meeting, Regent Fish asked if the property now being leased on Frances Street would be abandoned by the university when the UW Centers moved to the new location, and Regent Nikolay replied in the affirmative.

Regent Fish requested that, for leases on new properties, agenda materials indicate the disposition of the property to be vacated so that the Regents would know whether the new lease would be an added expense or a

Put to the vote, Resolution 5225 was adopted unanimously.

Blook for Acherely lease of Apone at 333 N, Randsel ave. In

College of Engineering + Andrew, R5226, pp 31-32

UW-Madison: Approval of Lease of Space

Regent Nikolay reported consideration by the Physical Planning and Development Committee of a request for UW-Madison to renew a three-year lease at 333 North Randall Avenue. Under this lease, 9,617 square feet of office space is occupied by various College of Engineering programs and 1,669 square feet of storage space is used by University Archives. The lease rates set forth in Resolution 5226 were negotiated by the Department of Administration. The committee approved the resolution on a vote of two

"Ayes" and one "No."

1 3 3 3 N. Kordsel Qve, - (Same, but drope "at 3 33 N. Landael Res.)

Adoption by the Board of Regents of Resolution 5226 was moved by Regent Gundersen and seconded by Regent Fish.

Resolution 5226:

That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority is granted to renew a three-year lease for 11,316 square feet of space in a building located at 333 North Randall Avenue,

Madison, Wisconsin.

(Some as "Related "atma)

Lessor: The University of Wisconsin Foundation

P.O. Box 8860 Madison, WI 53708-8860

Various College of Engineering programs occupy 9,617 SF of this space for offices and 1,669 SF of storage space is used by University Archives.

The three-year lease period begins July 1, 1989 and continues through June 30, 1992 at annual rental rates as follow, which reflect a 3% yearly escalation:

Cost Per SF Office Storage Annual Rental Term of Lease \$10.01/SF \$2.61/SF July 1, 1989 to June 30, 1990 \$100,692.24 \$10.31/SF \$2.69/SF \$103,713.00 July 1, 1990 to June 30, 1991 \$10.62/SF \$2.77/SF July 1, 1991 to June 30, 1992 \$106,824.40

The Lessee is responsible for the cost of electricity, custodial services and supplies, and snow and trash removal (approximately \$1.50/square foot). Rental payments will be provided by UW-Madison General Purpose Revenue Operating Budget Funds.

In response to a question by Regent Weinstein, it was indicated that Regent Nikolay had voted against the resolution because it contained an escalation clause on lease rates.

Put to the vote, Resolution 5226 was adopted by the Board of Regents, with Regent Nikolay voting "No."

Land Leas of the Wisener's Clear of the Wisener's Clear

UW-Madison: Approval of Lease of Space

On a vote of two "Ayes" and one "No," the Physical Planning and Development Committee approved lease replacement office space for UW Madison's Wisconsin Clearinghouse in a building located at 315 North Henry Street, The present location at 1245 East Washington Avenue was to be vacated at the owner's request.

R 52-27, PP 32-33

The lease terms, annual rental and per square foot costs set forth in Resolution 5227 were negotiated by the Department of Administration.

Upon motion by Regent Gundersen, seconded by Regent Jarvis, the following resolution was adopted by the Board of Regents with Regent Nikolay voting "No."

Resolution 5227: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to lease approximately 3,025 square feet of space on the second floor of a building located at 315 North Henry Street, Madison, Wisconsin.

Lessor: L. L. R. Venture Group

315 North Henry Street Madison, Wisconsin 53703 The lease covers 3,025 square feet (SF) of office space for the Wisconsin Clearinghouse for a five-year period beginning September 1, 1989 through August 31, 1994, at an initial annual rental rate of \$24,956.40 (\$8.25/SF). The annual rental adjustment will be based on the increase or decrease of the National Consumer Price Index, not to exceed an increase of five percent per year. The Lessor is responsible for the cost of all utilities and most services. Lessee is responsible for the cost of interior janitorial services related directly to the leased space, which has been estimated to cost an additional 75¢ per square foot, and general comprehensive liability and contents insurance.

The rental payments will be funded by Program Revenues generated through the sale of Wisconsin Clearinghouse publications.

UN-Madison: Approval of Land Sale Centery Reserve, R 5228, P. 33

The following resolution, which was unanimously approved by the committee, was unanimously adopted by the Board of Regents, upon motion by

Regent Nikolay, seconded by Regent Doughty Luckhardt.

Resolution 5228: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to convey 1.43 acres of unimproved property at the West Madison Agricultural Research Station, in the Town of Middleton, Dane County, to the Middleton Cemetery Association at a total price of \$10,000. This parcel is adjacent to the Middleton Junction Cemetery, in the southeast 1/4 of the southeast 1/4 of Section 22, T.7 N.-R.8 E. Town of Middleton, Dane County, Wisconsin.

UW-Whitewater: Approval to Purchase Land

Regent Nikolay reported unanimous committee approval for UW-Whitewater to purchase a .36 acre parcel of improved property within the approved campus plan boundary. Appraised at \$63,000 and \$65,000, an option to purchase had been accepted for \$64,000. The estimated total cost of \$70,600 included closing fees and appraisal fees of \$1,000, and relocation costs of \$5,600.

It was moved by Regent Nikolay and seconded by Regent Davis, that Resolution 5229 be adopted by the Board of Regents.

Board of Regents Meeting Minutes 5/5/89

UW-Whitewater - Bldgs + Land - Cutterity to-

Resolution 5229: That, upon the recommendation of the UW-Whitewater Chancellor and the President of the University of Wisconsin System, authority be granted to purchase a 0.36-acre parcel of improved property located at 280 North Case Street, in the City of Whitewater, at an estimated total cost of \$70,600, including closing costs, appraisal fees, and relocation costs; using 1987-89 General Fund Supported Borrowing - Advance Land Acquisition Funds. > R 5229, PP 33-34

Regent Flores asked if there was any opposition to acquisition of this property, and Chancellor Connor responded in the negative.

Put to the vote, Resolution 5229 was adopted unanimously.

Dept Land - Experiment for equipment to produce oddl. chilled water

to seel to VA 74 sepital, R 5230, pp 34-35

UW-Madison: Approval of Scope Expansion and Location Change

The Physical Planning and Development Committee unanimously approved authorization for several actions relating to the UW-Madison central chilled water additional capacity project, including execution of an agreement to sell chilled water to the Veterans Administration. The committee agreed that it should be a mutually beneficial arrangement.

Adoption by the Board of Regents of Resolution 5230 was moved by Regent

Nikolay and seconded by Regent Jarvis.

Resolution 5230: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of X ref Resolution 5230: That, upon the Chancellor and the President of the University of Wisconsin System, the following actions be authorized:

(1) Approval to bid and purchase chilled water

(2) Approval to the 1987-89 Phase I Central Chilled

- Water Additional Capacity project, at an estimated cost of \$5,141,000 General Fund Supported Borrowing for 7,000 tons of additional capacity;
 - (2) Approval to change the location of the equipment from the planned site of the old University Avenue Heating Plant to the Walnut Street Heating and Chilling Plant;
 - (3) Approval to increase the scope of the project by 2,000 tons of additional capacity, to meet the needs of the Wm. S. Middleton Memorial Hospital, with the understanding that the Veteran's Administration (VA) will pay for the additional costs of this increase, estimated at \$1.5 million, and

(4) Approval for the officers of the Board to execute an agreement with the Veteran's Administration for the purpose of selling chilled water to the VA.

In discussion at the Board meeting, Regent Fish asked if there was a guarantee that the VA would, in fact, execute the contract so that the university would not find itself with 2,000 tons of excess capacity.

Vice President Brown replied that the agreement with the VA would be signed before placing the final order for the chiller.

Regent Fish asked that the record reflect the intent stated by Mr. Brown.

Put to the vote, Resolution 5230 was adopted unanimously.

1 - Bedget Land

Regent Nikolay reported unanimous committee approval of accepting a

Regent Nikolay reported unanimous committee approval of accepting a gift-in-kind from the Nature Conservancy of 23 acres of specialized spruce bog. This parcel is near the Saukville Field Station which, in turn, is adjacent to the 2,200 acre Cedarburg Bog. The committee concurred with the recommendation of the UW-Milwaukee Chancellor that this generous gift be accepted, since it would broaden the wetland habitat available for research and teaching.

Upon motion by Regent Nikolay, seconded by Regent Flores, the following resolution was adopted unanimously by the Board of Regents:

Resolution 5231: That, upon the recommendation of the UW-Milwaukee Chancellor and the President of the University of Wisconsin System, the Regents indicate their willingness to accept as a gift-in-kind from the Nature Conservancy the donation of approximately 23 acres of land adjacent to the University's Saukville Field Station, located in the Town of Saukville, Ozaukee County, Wisconsin.

UW Stevens Points Approval to Renew Agreement to Sell Steam to St. Michael's Hospital. Stevens Point, R 5232, pp 35-34

The Physical Planning and Development Committee unanimously approved renewal of the agreement allowing the UW-Stevens Point to sell steam to St. Michael's Hospital in the City of Stevens Point, continuing the agreement first approved by the Board in July 1982.

The following resolution was adopted unanimously by the Board of Regents, upon motion by Regent Nikolay, seconded by Regent Jarvis:

Resolution 5232: That, upon the recommendation of the UW-Stevens Point Acting Chancellor and the President of the University of Wisconsin System, approval be granted to renew the agreement developed between the University and St. Michael's Hospital, Stevens Point, for the sale of steam to the Hospital by the University. The agreement will be effective July 1, 1989 or upon the date of final signatures, whichever occurs later, and may be renewed annually by mutual agreement of both parties. The Regents are to be advised of each annual renewal in the Report of Non-Personnel Actions by Administrative Officers of the Board.

Approval of Minor Projects

Reporting unanimous committee approval of Resolution 5233, Regent Nikolay moved its adoption by the Board of Regents. The motion was seconded by Regent Doughty Luckhardt and carried unanimously.

Resolution 5233: That, upon the recommendation of the UW-Eau Claire, Green Bay, Madison, Oshkosh and Superior Chancellors and the President of the University of Wisconsin System, the following minor projects be approved, and authority granted to plan, bid and construct, at the budgets and from the funding sources indicated. The funding is summarized as follows:

uthorization to Revise Value Basis for Removing/Razing Obsolete or Unneeded University Structures, R 5234, p 37

Upon motion by Regent Nikolay, seconded by Regent Doughty Luckhardt, the following resolution, which was unanimously approved by the Physical Planning and Development Committee, was adopted unanimously by the Board of Regents:

Resolution 5234: That, upon the recommendation of the President of the University of Wisconsin System, approval be granted to revise the value basis of obsolete or unneeded University structures which the Chancellors may authorize for removing/razing from a replacement value not exceeding \$100,000 to a current value not exceeding \$100,000, subject to compliance with policies of the State Building Commission. This revision would make the Board's basis consistent with that used by the State Building Commission.

Report of the Vice President

The Physical Planning and Development Committee received a report by Vice President Brown on bid openings and the status of projects. Vice President Brown also provided a status report on the request for funding maintenance projects for the UW-Madison Athletic Department, which was to be submitted to the State Building Commission for consideration at its May 31, 1989 meeting.

Genard Regent M. William

Resolution of Appreciation to Regent Emeritus Gerrard for Physical Planario Y Development Communities, p, 3%
A special resolution recognizing the service of Regent Gerrard on the

A special resolution recognizing the service of Regent Gerrard on the Physical Planning and Development Committee was adopted by unanimous vote of the committee.

ADDITIONAL RESOLUTION

Persolution of Appreciation to UW-Milwaukee for Appreciation

Regent Grover presented the following special resolution and moved its adoption by the Board of Regents. The motion was seconded by Regent Hanson and unanimously carried with an ovation.

Resolution 5235: Whereas, the Board of Regents has again had the pleasure of holding our May meetings at UW-Milwaukee; and

Whereas, special arrangements for these meetings included interesting and informative presentations on the International Business Program and the Pre-College program, as well as a tour of the impressive American Geographical Society Collection; and

Whereas, the gracious hospitality extended by Chancellor and Mrs. Smith, along with the entire UW-Milwaukee community, is deeply appreciated;

Therefore, be it resolved that the Board of Regents of the University of Wisconsin System hereby expresses its gratitude to UW-Milwaukee for this very productive and enjoyable visit.

ADDITIONAL BUSINESS

Appointment of Regent Cundersen as Vice Chair of the Physical Planning and Development Committee

President Schilling announced the appointment of Regent Gundersen as vice-chair of the Physical Planning and Development Committee, to succeed Regent Emeritus Gerrard, and expressed appreciation to Regent Gundersen for his willingness to serve in that capacity.

Regul Committees to serve in that capacity.

Regul Committee p. 38

Regent Flores, Chair of the Council of Trustees, reported on the Council's April 7, 1989, meeting, noting that the Council was pleased to welcome Regent Gundersen as a new member.

Superintendent Derzon reported on patient activity, which showed a positive financial position. Mr. Derzon also reported to the Council on preliminary plans for a proposed construction project for the 1991-93 biennium. The project, which would be constructed below the Trauma and Life Support Center expansion project, would consist primarily of faculty office and research space, with additional space assigned for outpatient clinics. Still in the early planning stages, the proposed project would be reviewed by the Center for Health Sciences Construction Planning Committee and the Campus Planning Committee before being advanced to UW-Madison and UW System administrators. The Council approved a motion in support of continued planning for this project with provision that the project be given further review by the Council, following more detailed planning efforts. The Council will be updated on the status of the project at each level of progress and review.

Vice Chancellor Noren provided an update on the Center for Health Sciences Policy, Management and Planning Steering Committee. Four subcommittees had been appointed and were expected to complete their work next fall.

Vice Chancellor Noren was advised that the proposed Trauma and Life Support Center/Operating Room expansion projects for the 1989-91 biennium were approved by the State Building Commission. It was expected that the projects would be completed by the spring of 1991 and 1992 respectively.

The relationship of the Council to the Competition Committee was discussed, with the understanding that further discussion would occur at future meetings.

The Council received a report on quality assurance programs and approved new faculty appointments.

At 11:55 a.m., the following resolution was moved by Regent Lyon, seconded by Regent Davis and unanimously adopted on a roll call vote, with Regents Clusen, Davis, DeLong, Doughty Luckhardt, Fish, Flores, Gelatt, Grover, Gundersen, Hanson, Jarvis, Lyon, Nicholas, Nikolay, Schilling and Weinstein voting "Aye" (16), and no Regents voting "No."

Resolution 5236:

That the Board of Regents recess into closed session to consider personnel matters, including possible action on authorization to offer a salary in excess of the Group 6 maximum at UW-Madison, appointment of a Vice Chancellor at UW-Green Bay, and appointment of a Vice Chancellor for Legal Services at UW-Madison, as permitted by s. 19.85(1)(c), Wis. Stats., for deliberation and action on recommendation for dismissal from tenured appointment, as permitted by s. 19.85(1)(a), s. 19.85(1)(b), and s. 19.85(1)(g), Wis. Stats., to consider purchase of property for UW-Madison, as permitted by s. 19.85(1)(e), Wis. Stats., to consider naming of facilities after persons, UW-Madison and UW-Milwaukee, as permitted by s. 19.85(1)(f), Wis. Stats., and to confer with legal counsel, as permitted by s. 19.85(1)(g), Wis. Stats.

CLOSED SESSION ACTIONS Knopper appointed his chancellar as of 6/1/89, R 5237 The board arose from closed session at 1:10 p.m. and made the

following announcements:

Resolution 5237:

That, upon recommendation of the Chancellor of the University of Wisconsin-Green Bay and the President of the University of Wisconsin System, William G. Kuepper be appointed Vice Chancellor for Academic Affairs, University of Wisconsin-Green Bay, effective June 1, 1989, at a salary of \$75,000.

Resolution 5238: That the Board of Regents approves the naming of the Marietta House, WW Milward as the Edith S.

E- (some, but add at VW-M, I woulder")

That, upon the recommendation of the President of Resolution 5239: the University of Wisconsin System and the Chancellor of UW-Madison, the salary of Steve Yoder be increased to \$82,000, on a nine-month basis,

Africal Series of Solary increases for Steve Moder to \$82,000, on a nine-month basis, effective July 1, 1989.

(Recorded as voting "No" on Resolution 5239 were Regents DeLong, Doughty Luckhardt, Nicholas and Nikolay.)

(Return of Steve Moder to \$82,000 as \$7/1/89, \$5239, \$6,40 R 5239, p. 40

Resolution 5240:

It is resolved that the Board now finalize its action of April 6, 1989. Accordingly, the Board finds and concludes that the UW Centers Chancellor has met his burden of proving just cause, and the Board accepts the final recommendation of the UW Centers Chancellor and the UW Centers Appeals and Grievances Committee and adopts their findings and conclusions in the matter of Mr. Dean Patterson, except that Instructor Patterson is entitled to backpay for the period of time reasonably necessary to have completed the UWS Chapter 4 proceedings in this case, which the Board hereby finds is seven months. In making this finding the Board relies on the following which it finds from the record, to-wit: four months are due as the reasonable period of time from the finding of charges by the Chancellor to the Chancellor's final recommendation, and three months are due as the reasonable period of time for the Board's own review of the entire record. R 5240, p. 41

This backpay award is to begin with Mr. Patterson's rate of pay in effect on January 23, 1979, and shall be increased by the applicable legal rate of interest.

The motion for attorney's fees is denied inasmuch as a federal court already has awarded fees for establishing entitlement to a UWS Chapter 4 hearing.

The Board's decision does not rest on the contents of the Chancellor's April 25, 1989, submission.

Further, pursuant to secs. 227.47 and 227.48, Wis. Stats., Instructor Patterson and his counsel are informed that: (a) the effective date of this decision for purposes of judicial review shall be the date the Secretary of the Board formally transmits this resolution to Mr. Patterson's counsel; (b) only Mr. Patterson is regarded as a party who appeared before the Board in these proceedings for purposes of entitlement to judicial review; and (c) Mr. Patterson is entitled to have this decision judicially reviewed by filing in circuit court an appropriate petition within thirty days of the effective date of this decision naming as party respondent the Board of Regents of the University of Wisconsin System.

Patterson, Mr. Dean.

The meeting was adjourned at 1:10 p.m.

dith A. Temby

There are none to report this month.

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT)

A. A renewal agreement leasing a parcel of land from the State of

Ranking (same) ful add 'alu-Eou Elona") Wisconsin (Building Commission) to the Board of Regents on behalf of the UW-Eau Claire has been executed by the Board President and the Secretary of the Commission. This parcel is surplus to the needs of the District State Office Building at Eau Claire consideration of the lease of the land, the UW System Board of Regents will assume full responsibility for the operation and maintenance of the parcel. The land will continue to be used for vehicular parking. The term is from March 16, 1989 until June 30, 1999 unless sooner terminated by mutual agreement of the parties hereto or with three years prior notice by DOA subject to it being needed for State Office Building expansion or parking needs. this occur, DOA shall compensate UW-Eau Claire for improvements made after May 1, 1989. The compensation shall be reduced by 1/10 of the value every year so that, by June 30, 1999, there shall be no compensation due to the University. This agreement supercedes the

UW Starens Port one executed in 1972.

A Lease Agreement for 200 acres of property in Langlade County to be used for educational and scientific purposes has been entered into. The land is owned by the UW-Stevens Point Foundation, Inc., and will be leased by the Board of Regents on behalf of the University of Wisconsin-Stevens Point. The term is from August 11, 1989 and ending June 30, 1993. The cost of the lease agreement will be approximately \$600 per year (the amount of the real property taxes).

The agreement between the City of Oshkosh and the Board of Regents, on behalf of UW-Oshkosh, for the provision of relocation services has been renewed. The contract term is January 1, 1989 through December 30, 1992, unless terminated by either party, with 90 days advance notice. The fee for the services to be provided, which encompass all necessary relocation services in connection with and respecting the responsibilities of the Board as a Condemnor provided for in Chapter 32, Wisconsin Statutes, shall not exceed \$20,000 for the four-year period.

Freiletin, Maring of

Under authority granted by Resolution 674, Chancellor Donna Shelala, has approved the naming of the porticultural gardens at the corner of Babcock and Observatory Drives. The recommendation of the Dean of the College of Agricultural and Life Sciences, they will be known as the "Allen Centennial Gardens" after the late Professor O.(Oscar) N.(Nelson) Allen, The biographic information provided by the College states that: "It is appropriate that this outdoor botanical research and study area be named after Prof. Allen because of his distinguished, life-long investigations and classification of a family of plants known as leguminosae. Long before most other researchers recognized the value of leguminosae, Prof. Allen and his wife, Ethel K., devoted their professional careers to the study of this plant family. Today, agriculturists around the world recognize leguminous plants as playing a crucial role in efforts designed to meet world food and fiber needs."

E. An agreement has been executed between Merrill Lynch & Co, Inc. and the Board of Regents of the University of Wisconsin System which implements a student internship program for the benefit of a student in Consumer Sciences.
