CHICAGO.

To the Druggists of the Northwest.

IN this Catalogue we have endeavored to quote all articles at a fair market value, and to arrange them in a form convenient for reference. Much attention has been given to illustrations, so as to make everything intelligible, and to induce the Druggist to send his orders to us by mail direct. Our Goods are excellent in quality and reasonable in price.

We pay particular attention to Druggists' Sundries and Shop Furniture, and refer particularly to our Illustrations in this department.

The comparative classification of Fluid Extracts, Pills, Pharmaceutical Preparations, and Hard Rubber Syringes is a feature peculiar to our Catalogue and of great convenience to the Druggist in view of the large number of articles of this kind which he is obliged to keep.

Our line of Fancy Goods is also very extensive, and has been so illustrated that selections can be made directly from our Catalogue without referring to samples, a convenience which we trust Druggists will appreciate, by sending us their mail orders for these goods.

Our Sponges and Chamois Skins are put up in convenient packages, and so selected and arranged that they can be easily ordered and readily sold.

We avail ourselves of this opportunity to thank our numerous friends for the cordial support which they have given us, to solicit orders from those with whom we are not personally acquainted, and to invite the Trade generally to call and see us at the "Old Drug Corner" whenever they visit Chicago.

This Catalogue is intended for a Guide to Druggists. All goods will be billed at the lowest MARKET PRICES, and PROMPTLY SHIPPED.

PART II.

Proprietary Articles and Patent Medicines,

DOMESTIC AND FOREIGN.

Our Stock in this Department is unusually complete, and "New Preparations" are being constantly added to the line as fast as warranted by the popular demand.

NOTE.—In the arrangement of this list we have not followed any arbitrary plan, but class the medicines under the names by which they are best known.

DIRECTIONS

FOR USING

ROBERT STEVENSON & CO.'S

Ready Mixed Paints.

Stir the Paint thoroughly before and during use.

The surface to be painted should be clean and free from dust; cover all knots and sappy parts with Shellac Varnish. When first coat is dry, putty all nail holes and seams.

Let one coat dry hard before applying another.

Should the Paint need thinning, use boiled or raw Linseed Oil.

RULE.

For ascertaining the amount of Paint required, add together the length in feet, both sides and ends, and multiply by average height; the product will be the number of square feet to be painted. This, divided by 225, as one gallon of Paint covers 225 square feet, two coats, gives the quantity required in gallons for ordinary use. For very rough or porous surfaces more will be required, and less if very hard or smooth.

When comparison is made between a DRY sample, as per circular, and WET sample as on opening can, there is a variance of color, which is always to be found. Our Paints when applied and DRY are intended to conform as nearly as can be with color on circular.

ALABASTINE

The BEST PAINTERS and DECORATORS USE and RECOMMEND ALABASTINE

IT CAN BE MIXED AND APPLIED BY ANY ONE

Made by spreading Alabastine on with a Wall Brush

ALABASTINE IS ADVERTISED AMONG CONSUMERS AND IS IN DEMAND

A Dealer can Sell Ten Times the Amount of Alabastine that he can of Kalsomines.

CHURCH'S IMPROVED

ALABASTINE

THE PERMANENT WALL COATING.

Adapted to All Styles of Wall Work, from Plain Tinting with Stencil Ornamentation to the Most Elaborate Decorating in Wall Relief Work.

The Only Article, for the Purpose, Advertised Among Consumers.

The reputable dealer has two objects in view in handling a line of goods. To handle those goods on which he can make the most profit and those that possess merit and will give satisfaction to his trade, and on which a trade, when once established, will be a satisfactory and growing one. No sharp dealer confounds *price* with *profit*, and he will not handle goods unadvertised and for which there is no demand, but prefers rather to handle those goods on which there are large sales, and consequently large profits, which are advertised and possess merit. Alabastine is the only wall coating advertised in the west among the users. No kalsomine or non-setting mixture is other than a temporary coat, that requires more labor and expense to remove it from the wall than to apply it, while Alabastine is a hard setting porous cement, that forms a stone-like shell and every coat added from time to time improves and strengthens the wall. We shall continue to spend a very large amount of money in advertising our goods to consumers and feel that every dealer should know the difference between Alabastine and the kalsomining or non-setting preparations, which he can learn by carefully reading the sample circular.

PRICE LIST.

IN CASES—5 lb. Moisture-proof Double Paper Packages—20 in a Case.

LIST	White	10 Cents
	All Tints	11 Cents

Remember we say "that no kalsomine maker can claim durability," as all users know that kalsomines and non-setting preparations of all nature, and under whatever name, scale off in a comparatively short time, instead of hardening with age, like Alabastine.

If any dealer will send us the name of a good decorator in his town, we will be glad to send both the dealer and decorator lithograph proofs, showing different styles of wall decorating which can be done with Alabastine and the line of stencils we manufacture.

N. B.—Notice the two new shades of Alabastine, Nos. 8 and 14, which, by intermixing with other tints shown on sample card, will produce an endless variety of the leading fashionable tints for decorating

N. B.—When cans are sent to us to be refilled send them by express, with tag plainly marked with name of party sending them, so that they can be immediately identified; also state whether they are to be returned by freight or express.

☞In making shipments of Oils, Benzine, Turpentine, etc., the railroad companies take them for separate transportation only, and forward them in special cars two or three times a week. On this account customers frequently do not receive them as promptly or at the same time as their other goods.

Thomsen's Extract of Malt

JULES THOMSEN.

Why have Thomsen's Extract of Malt Preparations had such a splendid success, both with the medical and pharmaceutical profession? Because they have proved themselves to be superior to any other Malt in the market.

WE GUARANTEE our goods to be strictly pure, made in a way that no other manufacturer uses, and we are most careful not to destroy any of the diastatic power in the Malt, at the same time producing as much maltose and albuminates as possible, without adding any foreign matter. Our Malt Extract will, in five hours, at the temperature 35° to 40° C., convert 30 per cent. of starch into sugar; proved by some of the first-class chemists in this country.

This is the most desirable style in the market, as the inside surface is perfectly smooth and rounded in the bottom, rendering it easy to remove all the ointment, there being no angles in which it can lodge. A lining of paraffine paper is put in the top of each cap, effectually protecting the metal from corrosion.

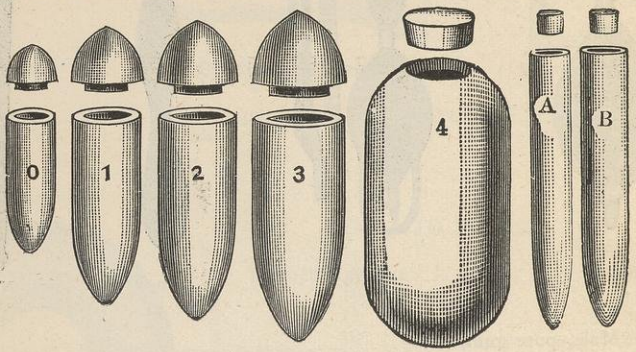
WITH

CONOIDAL SELF-SEALING STOPPERS,

All made from Pure Butter of Cacao only.

EACH BOX CONTAINS A MEDICINE DROPPER AND A PAIR OF TONGS.



The object of this invention is to enable physicians and druggists to produce a Suppository which is cheaper and more reliable than those made by the old method.

Nos. 0, 1, 2, and 3 are provided with conoidal stoppers. The stoppered ends are to be inserted, when the contraction of the sphincter ani will force the suppositories up into the rectum without the use of a suppository syringe or any other appliance whatever.

A sample box of **HOLLOW SUPPOSITORIES** will be mailed free on application, to

HALL · & · RUCKEL,

WHOLESALE DRUGGISTS,

216, 218, 220 Greenwich St., - NEW YORK.

Special Attention is called to the fact that the **No. 3 Hollow Suppositories,** when filled with **Glycerine,** have been found to produce by far the most successful results in cases of **Constipation.**

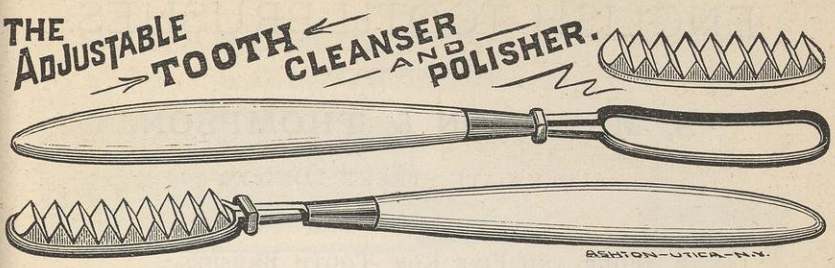
FELT TOOTH BRUSH.



Having all the advantages of the old bristle Tooth Brush and the following advantages over same:

MORE CLEANLY—PERFECT POLISHER—NO LOOSE BRISTLES—NON-IRRITATING TO THE GUMS—POWDERED READY FOR USE—ENDORSED BY THE PROFESSION.

PRICE LIST.

ALL GOODS SOLD UNDER CONTRACT.

Ideal Felt Tooth Polishers, per doz. boxes (12 Felts in a box)	$ 1 50
Holders, in bone, horn, or oxydized silver, per doz.	2 75
The Ideal Holder and Polishers, complete, per doz.	4 25

The Adjustable Tooth Cleanser and Polisher

is a medium of cleansing the teeth to perfection, substituting a highly prepared Felt for the customary bristles.

A SOFT FELT is an excellent polisher, as well as a ready absorbent, pleasant in touch, and not lacerating the tenderest gums—advantages which a hard-bristle brush, by the nature of the material, could not pretend to claim.

TESTIMONIALS.

MME. MODJESKA: "I believe the Ideal Felt Tooth Polishers to be an invention that will, in time, almost entirely supersede the brush of bristles."

MARION HARLAND describes them as a "genuine blessing," adding, "It makes the gums red and healthy, polishes the enamel, and prevents the formation of the unsightly black line near the roots."

ESTABLISHED 1739.

Perfumers to the Royal Family and Foreign Courts,

WHOLESALE DISTILLERS AND SOLE MANUFACTURERS OF

ESS. BOUQUET

FROM this perfume becoming the peculiar favorite of HIS LATE MAJESTY GEORGE THE FOURTH arose many imperfect imitations of the article, and which continue to be sold under the name of BOUQUET DU ROI, ESPIRT DE BOUQUET of George the Fourth, etc ; but the ESSENCE BOUQUET exclusively prepared by BAYLEY & CO , Cockspur Street, London, is the only article entitled to those appellations, and which possesses an unrivaled and DISTINCT fragrance. This perfume has also become a peculiar favorite in every foreign court and city.

THE FAMOUS RECAMIER PREPARATIONS

Read what Prof. Thomas B. Stillman, M.S.E., Ph.D., of Stevens Institute of Technology, says:

MRS. H. H. AYER. 40 Broadway, New York, Jan. 7, 1887.

Dear Madame—Samples of your Recamier Cream and Recamier Balm have been analyzed by me. I find that there is nothing in them that will harm the most delicate skin, and which is not authorized by the French Pharmacopœia as safe and beneficial in preparations of this character. Respectfully yours, THOMAS B. STILLMAN, M. S. E., Ph. D.,
Analytical and Consulting Chemist.

FROM THE CELEBRATED PORTRAIT OF GERARD.

FOR THE COMPLEXION.

Positively made from a formula used for many years by

MME. RECAMIER,

And never before manufactu ed for sale.

Recamier Cream
$1.50 each.

Recamier Balm
$1.50 each.

Endorsed in the Warmest Terms by Hundreds of Ladies,

Among them Mrs. James Brown Potter, Mrs. Lily Langtry, Mme. Modjeska, Mrs. Ella Wheeler Wilcox, Mlle. Zelie de Lussem, etc., etc., copies of whose letters will be sent you on application, together with a beautiful colored portrait of Mme. Recamier, Imperial size.

RECAMIER CREAM IS NOT A COSMETIC,

But a delightful Healing Compound, and is guaranteed, if used according to directions, to remove roughness, red spots, pimples, etc., from whatever cause; to cure all irritation from sun or wind, and to freshen and invigorate the skin, making it youthful and soft in appearance.

RECAMIER BALM IS NOT A VULGAR "WHITE WASH" OR SO-CALLED "BLOOM OF YOUTH,"

But a harmless and fragrant liquid, absolutely imperceptible except in the delicate freshness it imparts to the skin. It is now used, for its strong tonic effect on the complexion, by hundreds of women who never have made use of a cosmetic, as well as by the legion of unfortunates whose complexions have been almost irretrievably ruined by the use of the lead washes with which the market is flooded.

THE ATTENTION OF PHYSICIANS IS INVITED

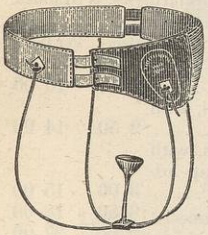
TO THE

DR. McINTOSH

Natural Uterine Supporter.

No Instrument has ever been placed before the Medical Profession which has given such UNIVERSAL SATISFACTION.

EVERY INDICATION OF UTERINE DISPLACEMENTS IS MET BY THIS COMBINATION;

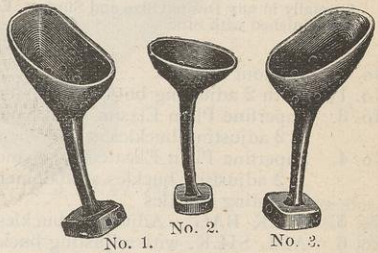


PROLAPSUS,

ANTEVERSION

AND

RETROVERSION



No. 1. No. 2. No. 3.

ARE OVERCOME BY THIS INSTRUMENT, WHEN OTHERS FAIL.

The abdomen is held up by the broad morocco leather belt with concave front and elastic straps to buckle around the hips. The Uterine Support is a cup and stem made of highly polished hard rubber, very light and durable, shaped to fit the neck of the womb, with openings for the secretions to pass out, as shown by the cuts. The cup and stem are suspended from the belt by two soft elastic Rubber Tubes, which are fastened to the front of the belt by simple loops, pass down and through the stem of the cup and up to the back of the belt.

One of the many reasons which recommend this Supporter to the Physician is, that it is self-adjusting, as the patient can remove it at will, and replace it without assistance. It can be worn at all times, will not interfere with nature's necessities, will not corrode, and is lighter than metal.

Reduced Price to Physicians is $5.00 each, to Druggists $4.25.

Instruments sent by mail at our risk on receipt of price; or we can send by express, C. O. D., with express charges for returning money added.

CAUTION.—Owing to the great success of our Supporter, several worthless imitations have been made which are often substituted for our instruments, to the detriment of the patient and the disappointment of the physician. To protect our patrons from imposture, we stamp each pad of the Abdominal belt in gilt letters, "Dr. McIntosh N. U. Supporter, Chicago, Ill."; the base of each cup is stamped "Dr. McIntosh N. U. S. Co., Chicago, Ill., U. S. A." For further information in regard to the Instrument, address

DR. McINTOSH NATURAL UTERINE SUPPORTER CO.,

300 Dearborn St., Chicago, Ill.

Our valuable Pamphlet on "Displacement of the Womb," giving a more complete description of the Instrument, will be sent you free on application.

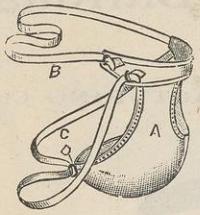
THE "SYRACUSE."

With Self-Adjusting Sliding Loop at Back of Pouch.



The pouch (A) is supported by two bands, the large band (B) passing around the body, and the small band (C) passing around the buttocks and through the sliding loop (D). The loop (D) slides freely on the small band (C) and thereby allows the pouch to adjust itself just as the movements of the person or clothing require; consequently the Suspensory will fit, no matter what position the body may assume.

The sliding loop (D) makes Suspensory self-adjusting and gives freedom of movement. Prevents pulling, cording and chafing. Gives support without restraint of motion. Renders displacement impossible. Makes our Suspensory perfect fitting, and affords comfort and relief to wearer.

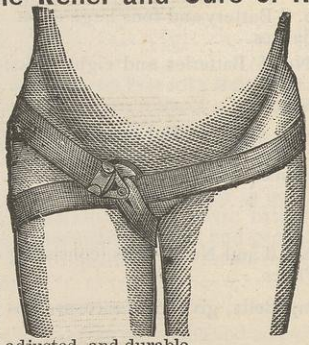
WERUM'S ELASTIC TRUSS,

For the Relief and Cure of Hernia.



The pad for Werum's Elastic Truss is made now of solid nickel silver and can not rust.

It is held by the belt in such a manner as to prevent it from slipping either sideways, up or down, which is a very important matter. The pads for youths' and infants' trusses are made of polished Florida cedar. The belts for infants' trusses are made of fine silk webbing.

This celebrated Truss is now used by thousands of people who say *it is the most comfortable of any they have ever worn*, and that it is undoubtedly the best in use.

It can be worn day or night, on either side.

It will not chafe the wearer.

It can not slip from its position

It can be placed on any part of the abdomen, for any kind of hernia.

It weighs only a few ounces, and can be sent by mail for a few cents.

It is applied in such a manner as to secure a pressure on the pad, without drawing the belt tight enough to feel uncomfortable.

It is simple, cheap, easily adjusted, and durable.

The pad and belt can be separated and a new belt replaced in half a minute, if desired.

It is provided with an adjustable buckle, with which the wearer can increase or diminish the pressure at will.

The quality has been greatly improved lately, and at the same time the prices are reduced to those named below:

Dr. Parker's Lever Elastic Truss and Abdominal Supporter.

The Lever Elastic Truss is an Elastic Band, united to an abdominal pad, of proper shape and construction to give a support to the abdominal muscles, with one or two adjustable rupture pads attached, as the case may require, for single and double rupture. Firmly attached to the lower part of the abdominal pad is a graduating spring lever, the object of which invention is to overcome the objections which have always hitherto rendered the various so-called elastic trusses almost useless for retaining hernia. The effect of our Graduated Lever is to increase the pressure on the lower part of the abdominal pad, and at the same time bringing about an upward and inward support, thereby effectually preventing any escape of the rupture; this result is absolutely unattainable in any other elastic or belt truss now before the public.

Enameled pad and spring attached, giving an upward and inward pressure.

THIS ORIGINAL AND WORLD-RENOWNED DIETETIC PREPARATION IS A SUBSTANCE OF

UNRIVALLED purity and medicinal worth—*potent for good and powerless to harm.* A solid extract, derived by a new process from very superior growths of wheat—nothing more, and as a

FOOD, it would be difficult to conceive of anything more wholesome and delicious. It has justly acquired the reputation of being the salvator

FOR INVALIDS AND THE AGED; An incomparable aliment for the growth and protection of

INFANTS AND CHILDREN; A superior nutritive in continued fevers; The most nourishing and strengthening food for

NURSING MOTHERS and CONVALESCENTS; And its rare medicinal excellence in INANITION, and INTESTINAL DISEASES, has been incontestably proven; often in instances of consultation over patients whose digestive organs were reduced to such a low and sensitive condition that the IMPERIAL GRANUM was the only thing the stomach would tolerate, when life seemed depending on its retention.

Sold by Druggists. Shipping Depot, JOHN CARLE & SONS, New York.

IMPERIAL GRANUM has become one of the most popular and best appreciated articles of diet for the last comers into the household. It is really a capital food, one that can be commended as furnishing the best principles for infant diet. It also has a very large sale as a food for invalids and the aged, and we learn from its proprietors that the sales are not only increasing constantly, but those who use it seem better pleased than ever with its results.—*N. Y. Pharmaceutical Record.*

The lives of untold thousands of children have been saved by IMPERIAL GRANUM, and careful mothers are loud in their praises of this well-known food, and pharmacists can safely recommend it.—*Proceedings Illinois Pharmaceutical Association*, 1887.

BEING the pioneers in this line of manufacturing, and the largest house of the class in the world, Messrs. Seabury & Johnson possess the experience and facilities to prepare, in a form not elsewhere equaled, and with a degree of uniformity and excellence attempted by no other manufacturer, everything in the line of PLASTERS, SURGICAL DRESSINGS, or ANTISEPTIC APPLIANCES required in the most modern practice of antiseptic surgery. Physicians are cautioned against cheap imitations, the use of which will be found unsatisfactory at the best, and in many cases will render abortive the skill of the surgeon and the nurse, by reason of the goods not containing the medication indicated by the label, or through lack of skill in their preparation and the use of impure materials. Medical and Pharmaceutical Journals have lately abounded in warnings against the frauds which the manufacturers of cheap goods are perpetrating upon the profession and the public. We have repeatedly exposed these frauds, and now have only to respectfully suggest to our friends that, for their own protection, they always specify "S. & J." or "Seabury," when ordering goods in our line, and refuse to accept any other make.

WARNER & CO.'S EFFERVESCING

BROMO

(WARNER & CO.)

SODA

Useful in Nervous Headache, Sleeplessness, Excessive Study, Over Brainwork, Nervous Debility, Mania, etc.

DOSE—A heaping teaspoonful in half a glass of water, to be repeated once after an interval of thirty minutes, if necessary. Each teaspoonful contains 30 grs. Bromide Sodium and 1 gr. Caffein.

It is claimed by some prominent specialists in nervous diseases that the Sodium Salt is more acceptable to the stomach than the Bromide Potassium. An almost certain relief is given by the administration of this Effervescing Salt. It is also used with advantage in INDIGESTION, DEPRESSION following alcoholic and other excesses, as well as NERVOUS HEADACHE. It affords speedy relief for MENTAL and PHYSICAL EXHAUSTION.

Moxie Nerve Food

THE GREAT REMEDY FOR NERVOUS AND MENTAL EXHAUSTION.

It has recovered Paralysis, Softening of the Brain, Locomotor Ataxia, and Insanity when caused by nervous exhaustion. It gives a durable, solid strength, and makes you eat voraciously; takes away the tired, sleepy, lifeless feeling like magic; removes the fatigue from mental and physical overwork at once; will not interfere with the action of vegetable medicines.

DOSE, ONE OUNCE EACH FOUR HOURS.

The Loss of Gas from the Bottle does not Weaken or Injure the Moxie.

Special attention is called to our syrup in gallon cans, prepared for soda fountain use. It is stronger than any other syrup made—half ounce is sufficient for a glass.

These goods, the only genuine, have our copyrighted signature and vignette label over the cork, and a syrup label on the side of each package.

LOOK OUT FOR COUNTERFEITS!

The Famous Nerve Food, as a Beverage, is prepared ready to drink as poured from our Moxie Bottle.

RESTS AND REFRESHES MORE THAN ANY OTHER BEVERAGE.

Half a Day of New and Vigorous Life in Every Drink.
