President Fred reported that Governor Rennebohm was releasing funds for the construction of the West Wing of the Home Economics Building from savings on the Memorial Library Building project and stated that the West Wing of the Home Economics Building would be comparable in size to the East Wing of the building and would provide much needed space to relieve the crowded condition of the present Home Economics Department facilities and would permit the department to carry out additional desired work.

Regent Grady presented the following resolution:

"The Regents commend the spirit which prompted the students and faculty in recommending the protection and preservation of human rights in the University of Wisconsin.

"The Regents are unanimous in their belief that the faculty and officers of the University of Wisconsin, throughout the long years of its history, have made an outstanding record in the safeguarding of human rights. Our University has historically served, regardless of race or creed, all who have sought its instruction. Its students now include members of all groups and segments of society, accepting each other and learning together. The Regents are proud of the ability of any student on our campus to gain recognition upon his or her individual merits, and are pleased with the growth in understanding upon our campus - an understanding so sorely needed in America and in the world.

"THEREFORE, BE IT RESOLVED, That the University of Wisconsin shall in all its branches and activities maintain the fullest respect and protection of the Constitutional rights of all citizens and students regardless of race, color, sect, or creed; and any violation thereof shall immediately be reported to the administration and the Regents for appropriate action to the end that any such violation of Constitutional rights shall be promptly and fully corrected, and future violations prevented."

Regent Grady moved the adoption of the resolution, which was seconded by Regent Kleczka.

Regent Gelatt then moved to amend the resolution by adding the words "and they hereby approve Document 933, as revised" to the end of the sentence in the first paragraph. The motion to amend was seconded by Regent Watson.

Regent Grady was of the opinion that the recital of the resolution fully covered each and every question involved.

Regent Watson, in order that the record and the motion might be understood, believed it was necessary for the Board of Regents in some way to recognize receipt of Document 933 and in some way dispose of it. He thought that Document

(Cont.)

933 had been well done and that the committee responsible for its preparation had cooperated to the utmost with the Board of Regents in making language changes that were desired. Regent Watson stated that the Regents ought to dispose of Document 933 and that he was in accord with Mr. Gelatt in approving it as an amendment to Mr. Grady's fine resolution.

A roll call on the amendment was then taken - Regents Arveson, Gelatt, Watson voting "Aye"; Regents Campbell, Grady, Hodgkins, Kleczka, Sensenbrenner, Werner voting "No". The amendment was declared lost.

Regent Watson then moved that the resolution be amended in the same way by approving Document 933 in principle. The motion to amend was seconded by Regent Gelatt.

Regent Grady indicated that there were certain recitals in Document 933 to which he had objection because he did not believe that it accurately stated the facts as they had been brought to the Regents and that there were certain actions included in the document for which there was no proof. For those reasons Regent Grady opposed the amendment.

Regent Kleczka opposed the amendment for the same reasons as stated by Regent Grady.

Regent Gelatt reported that at the meeting of the Regents in May a majority of the Regents felt that Document 933 as it then existed was in many respects a good report but that there were some things that they felt needed to be changed. He was of the opinion that most all of the things that were specified to be changed at that time had been revised in the present document and that although there might still be a few points of language in which some of the Regents might differ, in principle they were in agreement. Regent Gelatt was of the opinion that a few members of the Regents were letting disagreement with a few points cloud their full agreement with the principle. He expressed his belief that most of the members of the Board, if they would examine their positions carefully, would approve the document.

Regent Watson inquired as to whether Regent Grady's resolution pertained to Document 933.

Regent Grady asked whether his motion conflicted with Document 933. He acknowledged that the resolution did not mention 933 but that it was all inclusive, except with respect to the recitals he had noted, and that it so far as possible protected the constitutional rights of all citizens and students.

Regent Campbell reported that the revised Document 933, when it was brought to the Regents, did not carry out the promise that was made by the committee (University Committee) to eliminate two things, one of which was the reference to "inter-racial living" which he stated was taken out of the report, and the other one was the statement that the University had discriminated against negroes, which he stated had not been taken out of the report. Regent Campbell was of the opinion that the Regents could not take the report as written because it did not carry out what the committee agreed to do. He indicated that he was opposed to the amendment. He objected to the report demanding that private housing be not recognized

unless private owners agreed to take student roomers regardless of race, color, or creed, because he believed that the Regents shouldn't try to take fundamental rights away from individual property owners.

A roll call on Regent Watson's amendment to the resolution was then taken - Regents Arveson, Gelatt, Watson voting "Aye"; Regents Campbell, Grady, Hodgkins, Kleczka, Sensenbrenner, Werner voting "No". The amendment was declared lost.

A roll call was then taken on the original motion, all Regents voting "Aye", with Regents Gelatt and Watson qualifying their votes as follows:

Regent Gelatt voted "Aye" with the reservation that he believed that the amendments as previously offered should be passed.

Regent Watson voted "Aye" but requested that the record show that he believed the Regents should have acted upon Document 933.

The Secretary reported that Regent Jones had requested that he be recorded as voting in favor of Regent Grady's resolution.

Regent Watson presented the following resolution:

"The Regents record with satisfaction the desire of the student board to be of aid and assistance to the Regents as expressed to the Regents by their recent communication and by the student board president, Karl Steighorst, personally on October 13, 1950.

"The Regents of the University derive their responsibilities from the statutes which state in part: 'The government of the University shall be vested in a board of regents of nine members' and '.....shall possess all the powers necessary or convenient to accomplish the objects and perform the duties prescribed by law'. The statutes also declare - 'The board of regents shall enact laws for the government of the University in all its branches.'

"It is obvious that the Regents cannot delegate nor can they share their responsibility for the operation and control of the University. The Regents do recognize, however, that in many of their considerations it is extremely helpful to have student opinion. Such student opinion has been sought in the past and the Regents are now advised that the student board offers its personnel in any informal advisory manner desired by and agreeable to the Regents.

"The Regents, therefore, accept the offer of the student board and direct their secretary to advise the student board that the Regents

(Cont.)

from time to time will call upon representatives of the student body and other campus groups for such counsel and information as the Board of Regents may deem desirable."

Upon motion of Regent Watson, seconded by Regent Hodgkins, the resolution was adopted.

President Fred displayed and presented to the Regents a United Nations flag which had been presented to the University as a part of the United Nations Day program by the University of Wisconsin 4-H Club and recommended acceptance of the flag by the Regents. Upon motion of Regent Werner, seconded by Regent Watson, it was

VOTED, That the United Nations flag presented to the University by the University of Wisconsin 4-H Club as a part of the United Nations Day program be accepted by the Regents and that the Secretary be directed to thank the University of Wisconsin 4-H Club for the flag.

Regent Werner presented the following resolution:

"President Fred and the University of Wisconsin have been honored by the appointment, by the President of the United States, of President Fred as a member of the National Science Board of the newly created National Science Foundation. This represents not only an honor but also an opportunity for service to the state and nation.
