To Our College Life

THE OPPORTUNITY —wherein, through Learning we may be led into worlds beyond the common grasp; wherein, through Experience we may be taught the rudiments *of* Life; wherein, through Friendship we may better understand and more deeply sympathize with our fellow men; wherein, through the stimulation *of* Ideals we may attain true Progress— this book is affectionately and reverently dedicated.

Foreword

IN the construction of this volume, we have striven to emphasize the twofold purpose for which, we believe, such a publication exists. We have attempted to present to the student body a clear and comprehensive record of the collegiate year; we have, in addition, attempted to make this epitome of such character that it will be both intelligible and interesting to all those who would know something of student life at the University.

It is our sincere wish that this book may be truly representative of Wisconsin life and spirit, that it may impart this spirit to those who seek it, and that it may serve, in later years, as a stimulating memoir of pleasant days "up and about the Hill."

In Memoriam

E. C. Woolley

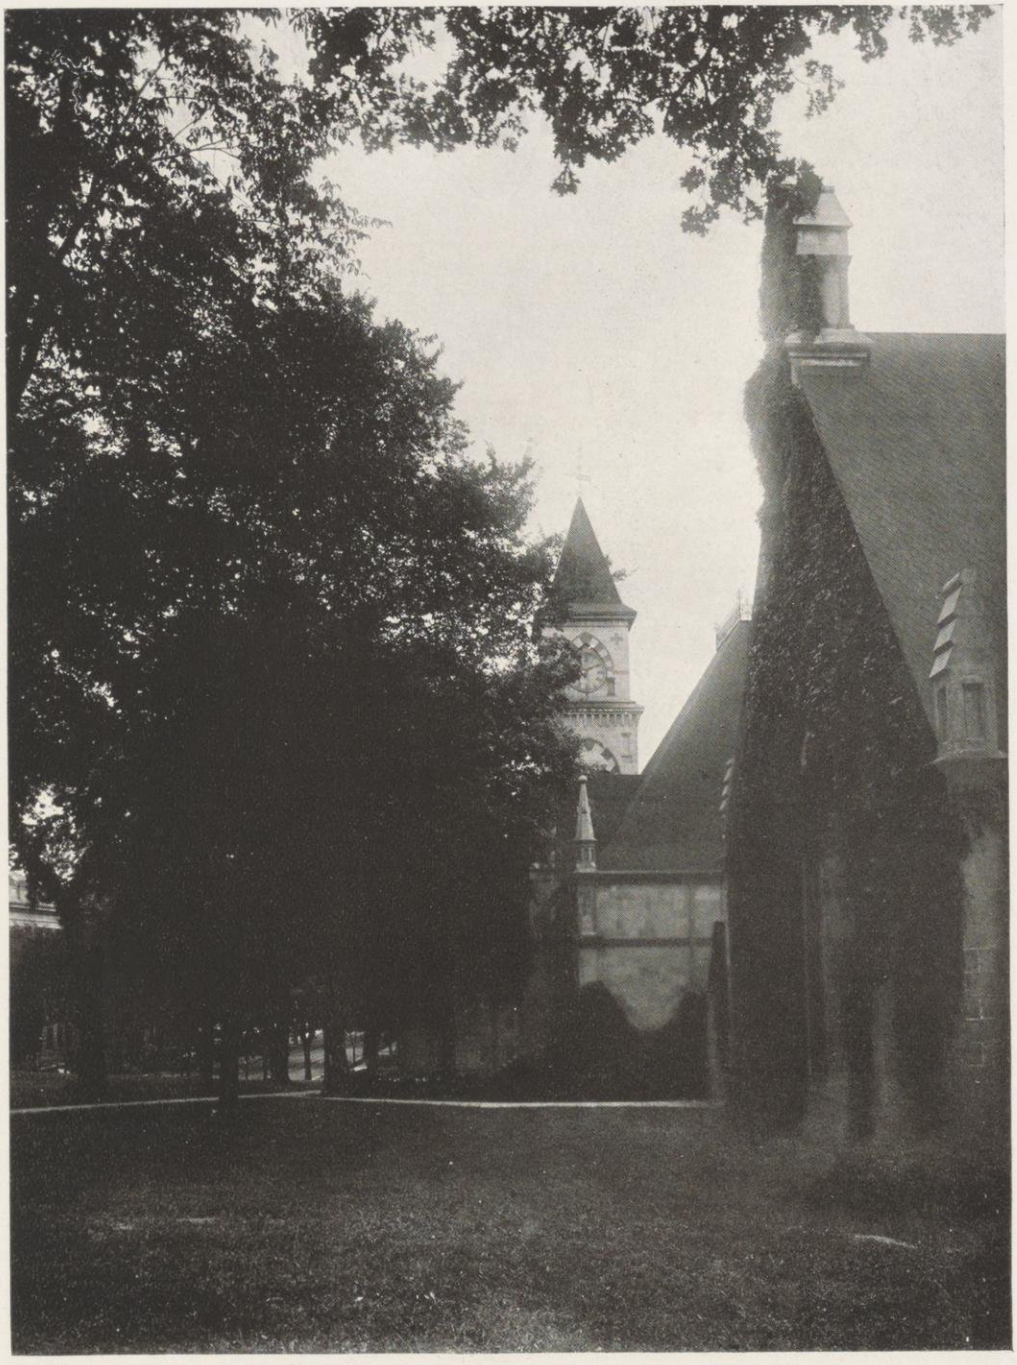
Harrison F. McCarthy

H. Stockton Ewell

Lalitha M. Folks

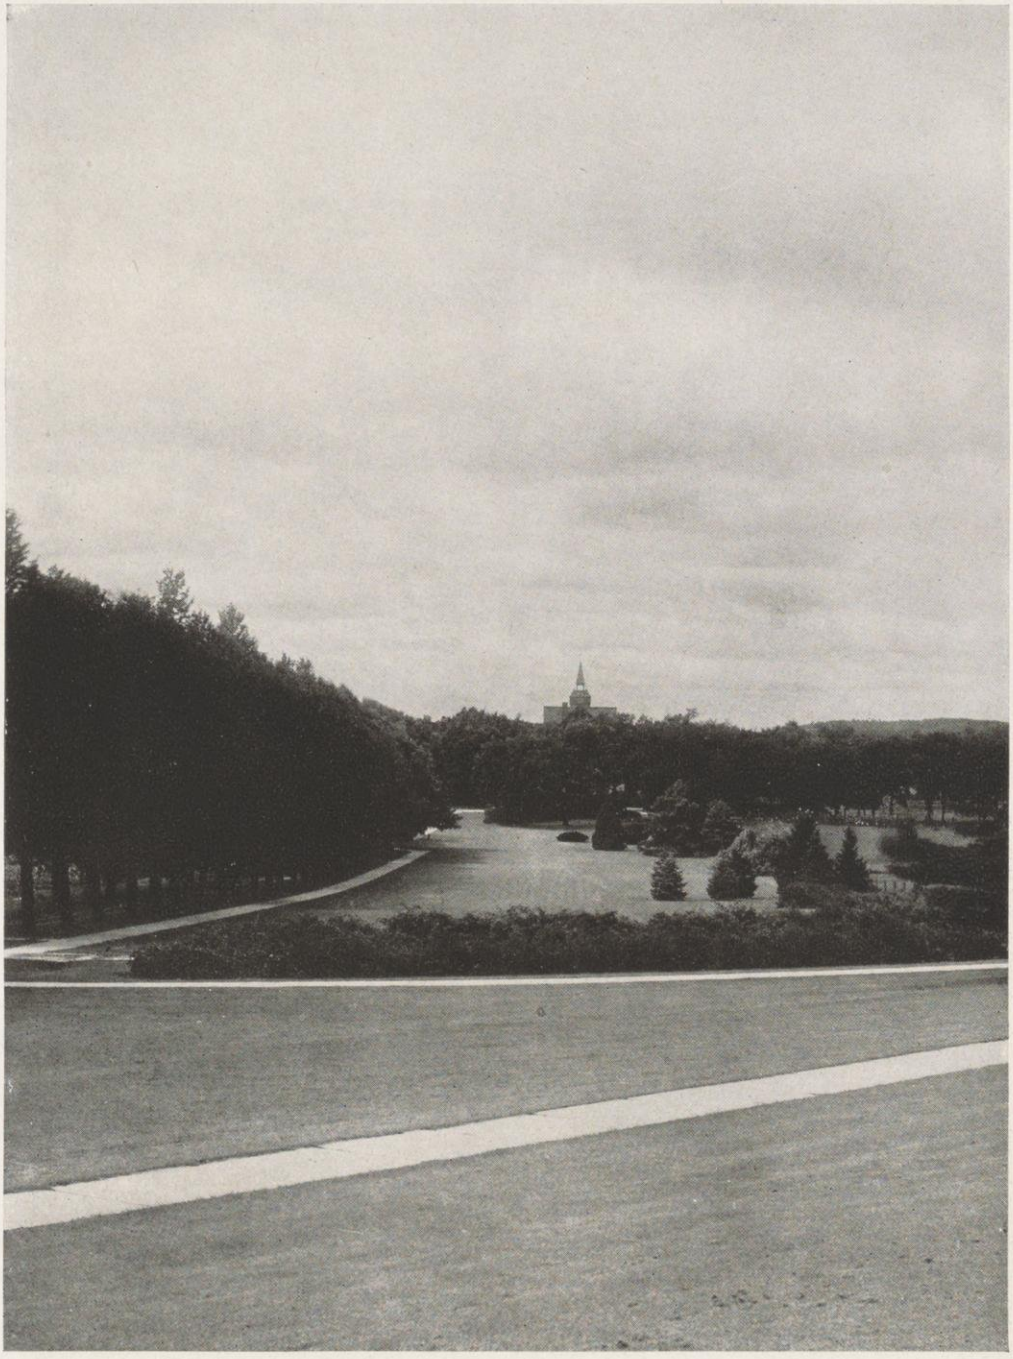
John C. Johnson

James C. Huguenin

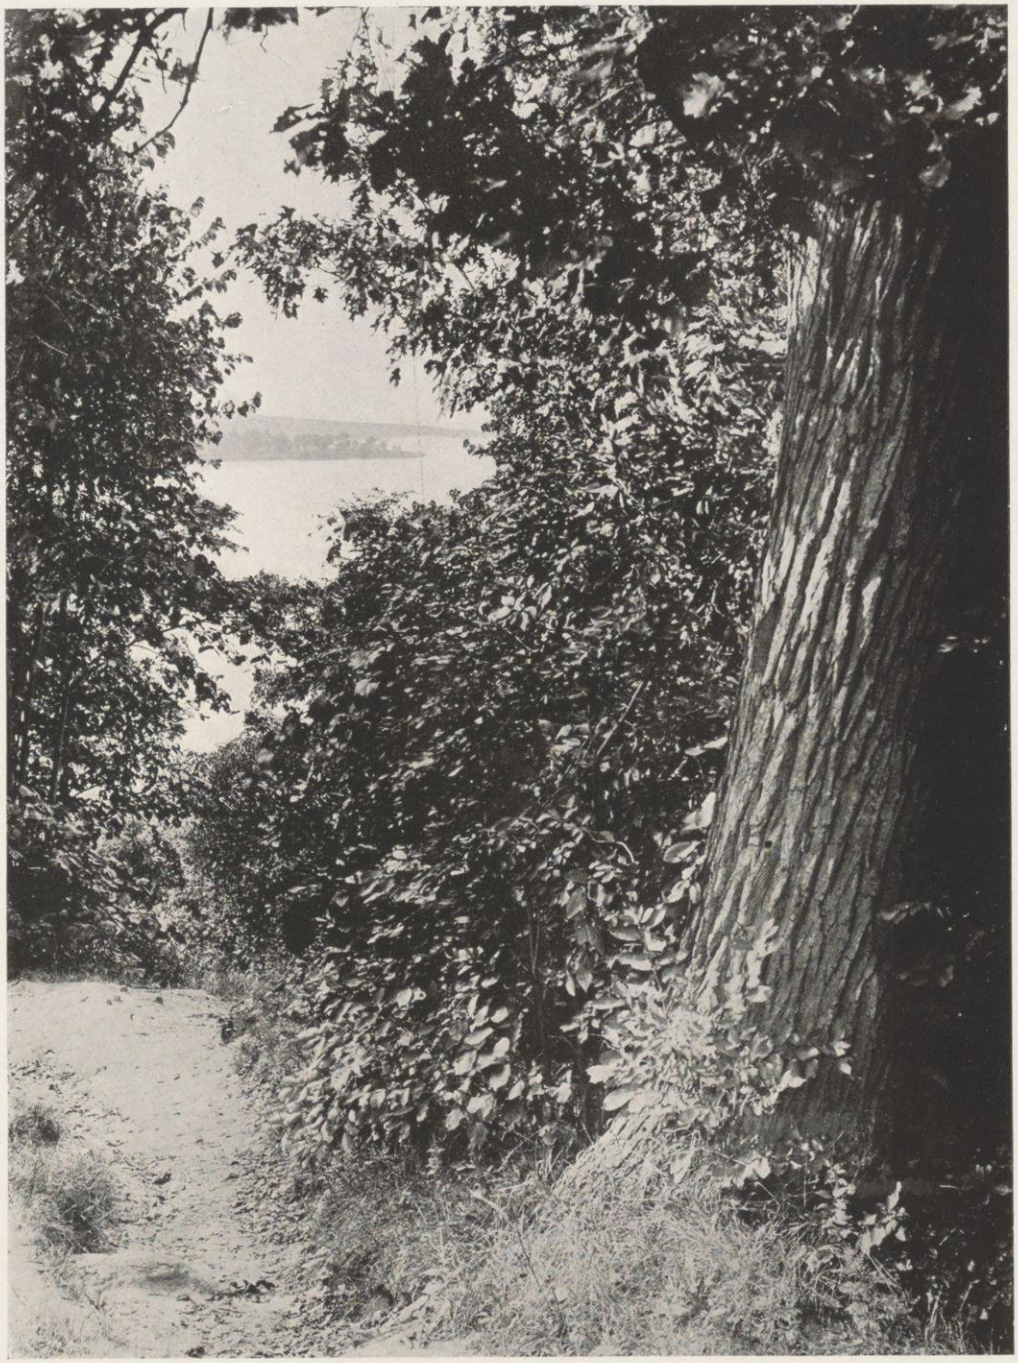


"Heard melodies are sweet, but those unheard
Are sweeter;—"

"Where health and plenty cheer'd the labouring swain,"



"How often have I loiter'd o'er thy green,
Where humble happiness endear'd each scene!"

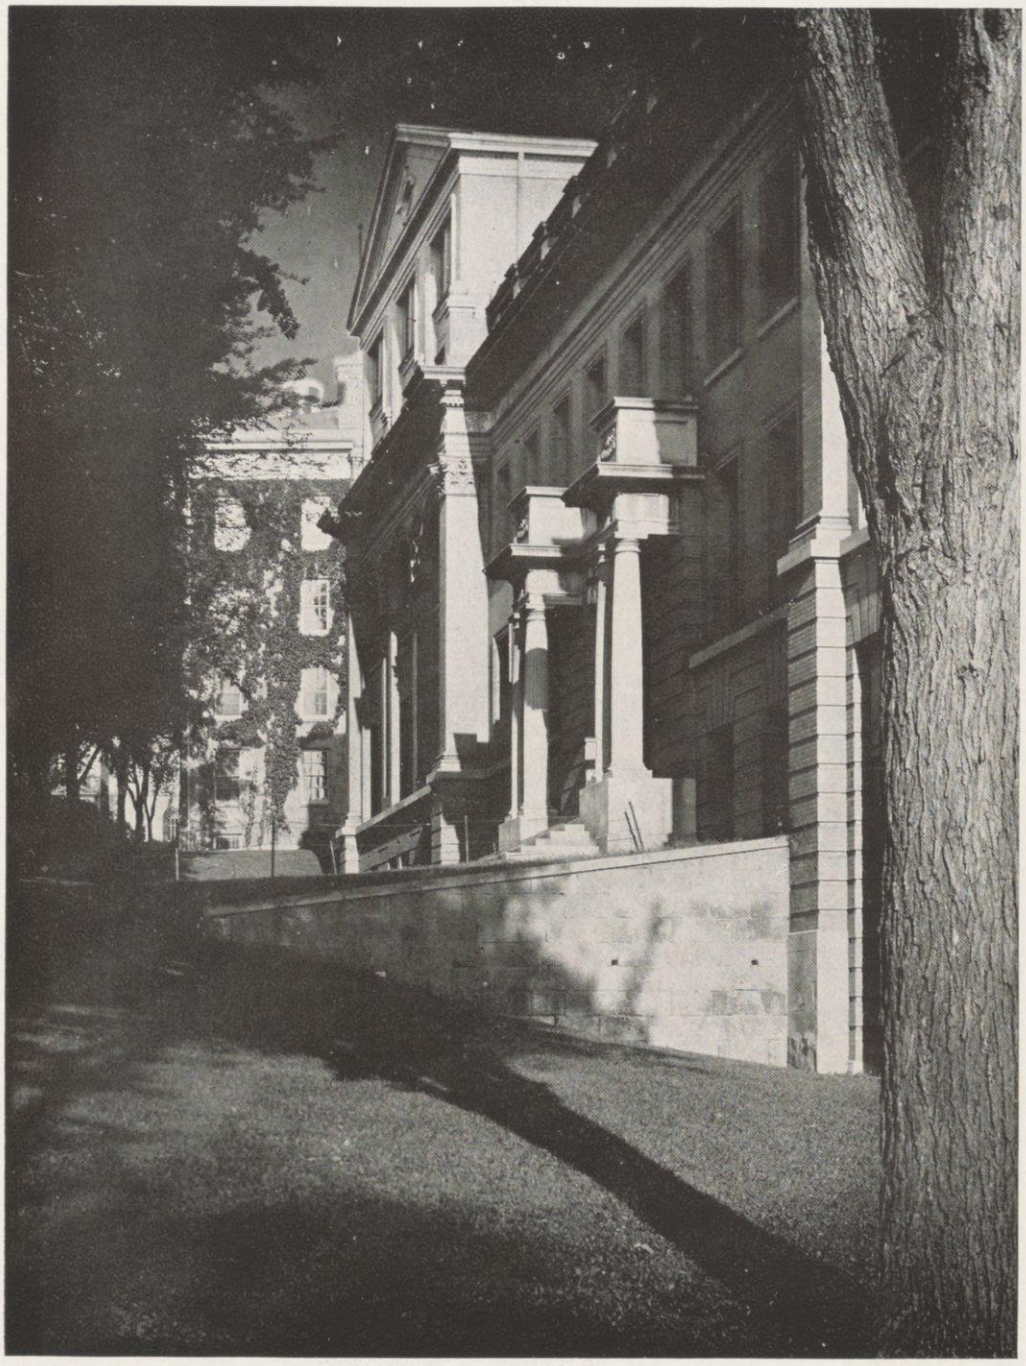


"There is joy in every spot made known by times of old,—"

Marking with silent hand the creeping hours,

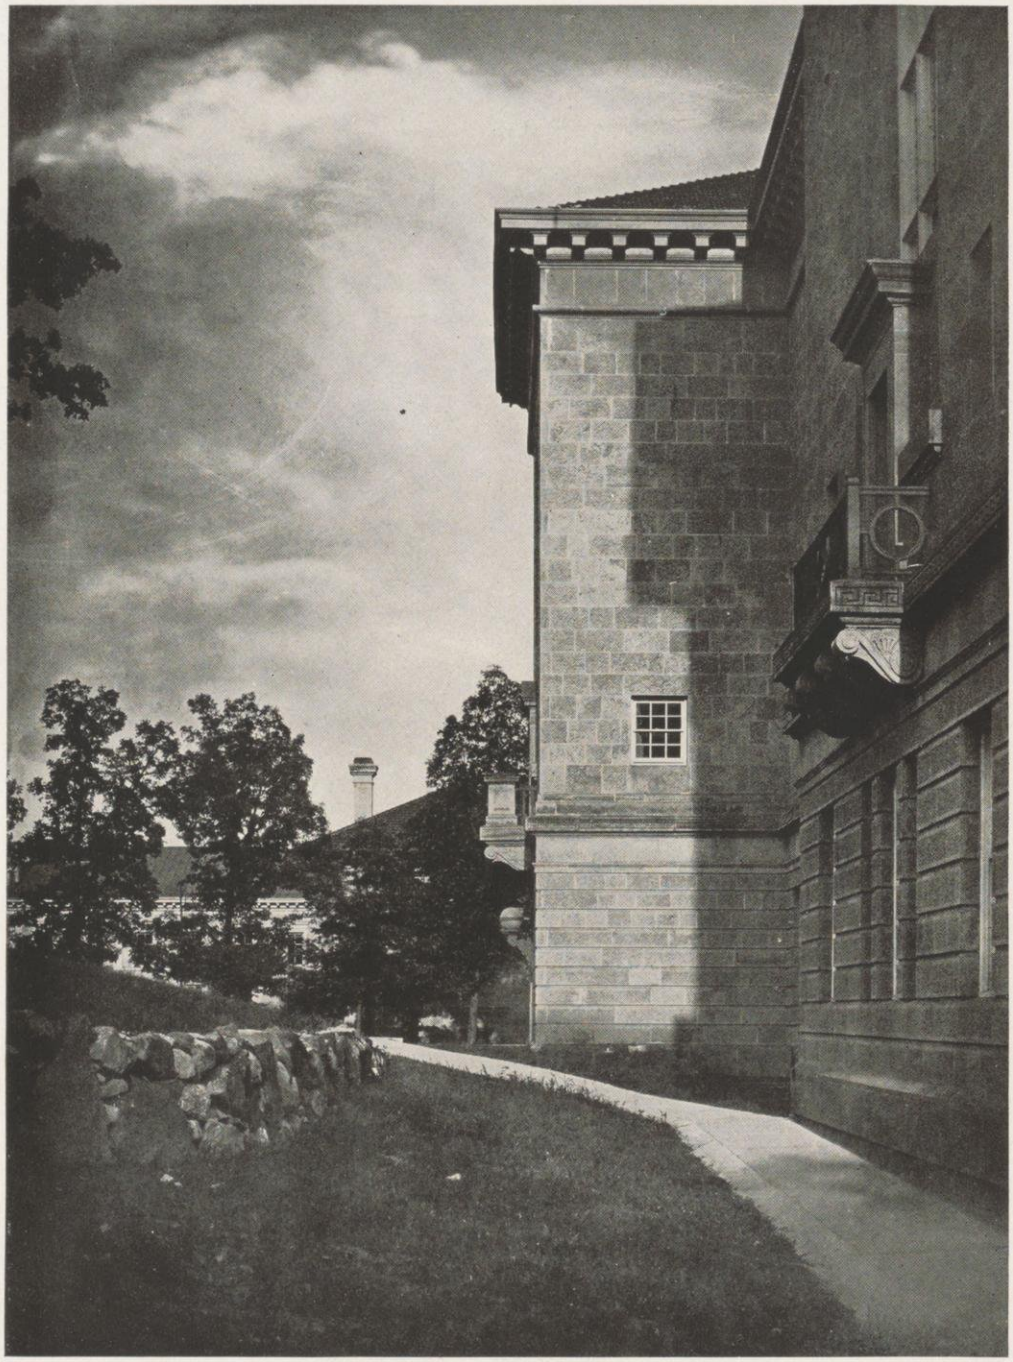
"And here were forests ancient as the hills
Enfolding sunny spots of greenery."

"View now the summer storm! above, one cloud,
Black and streaked, all the skies o'ershroud:"

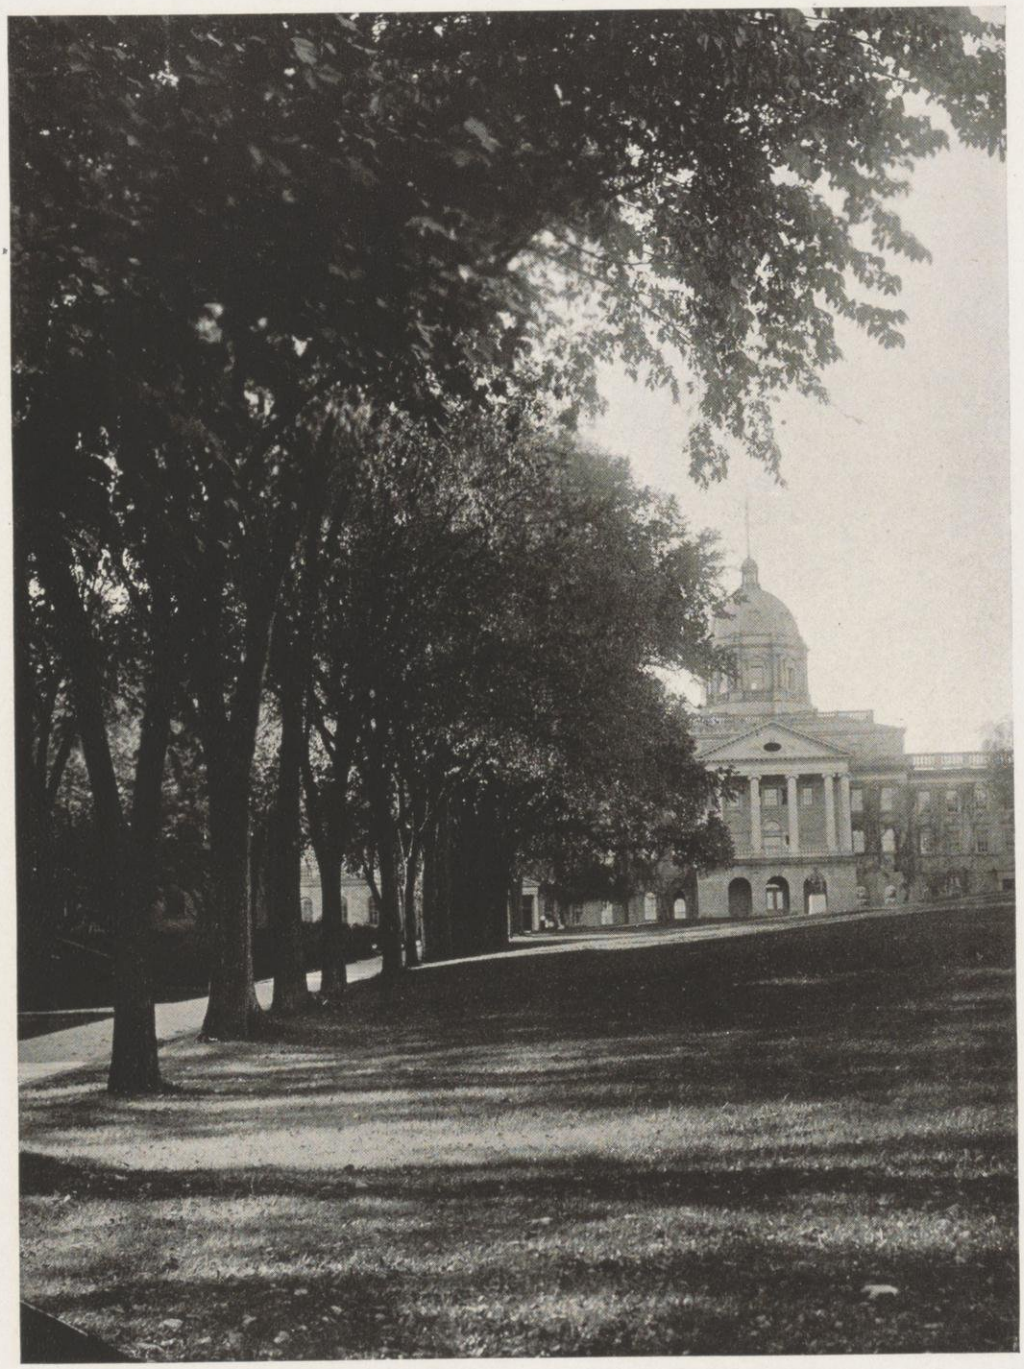


"Dull would be he of soul who could pass by
A sight so touching in its majesty;"

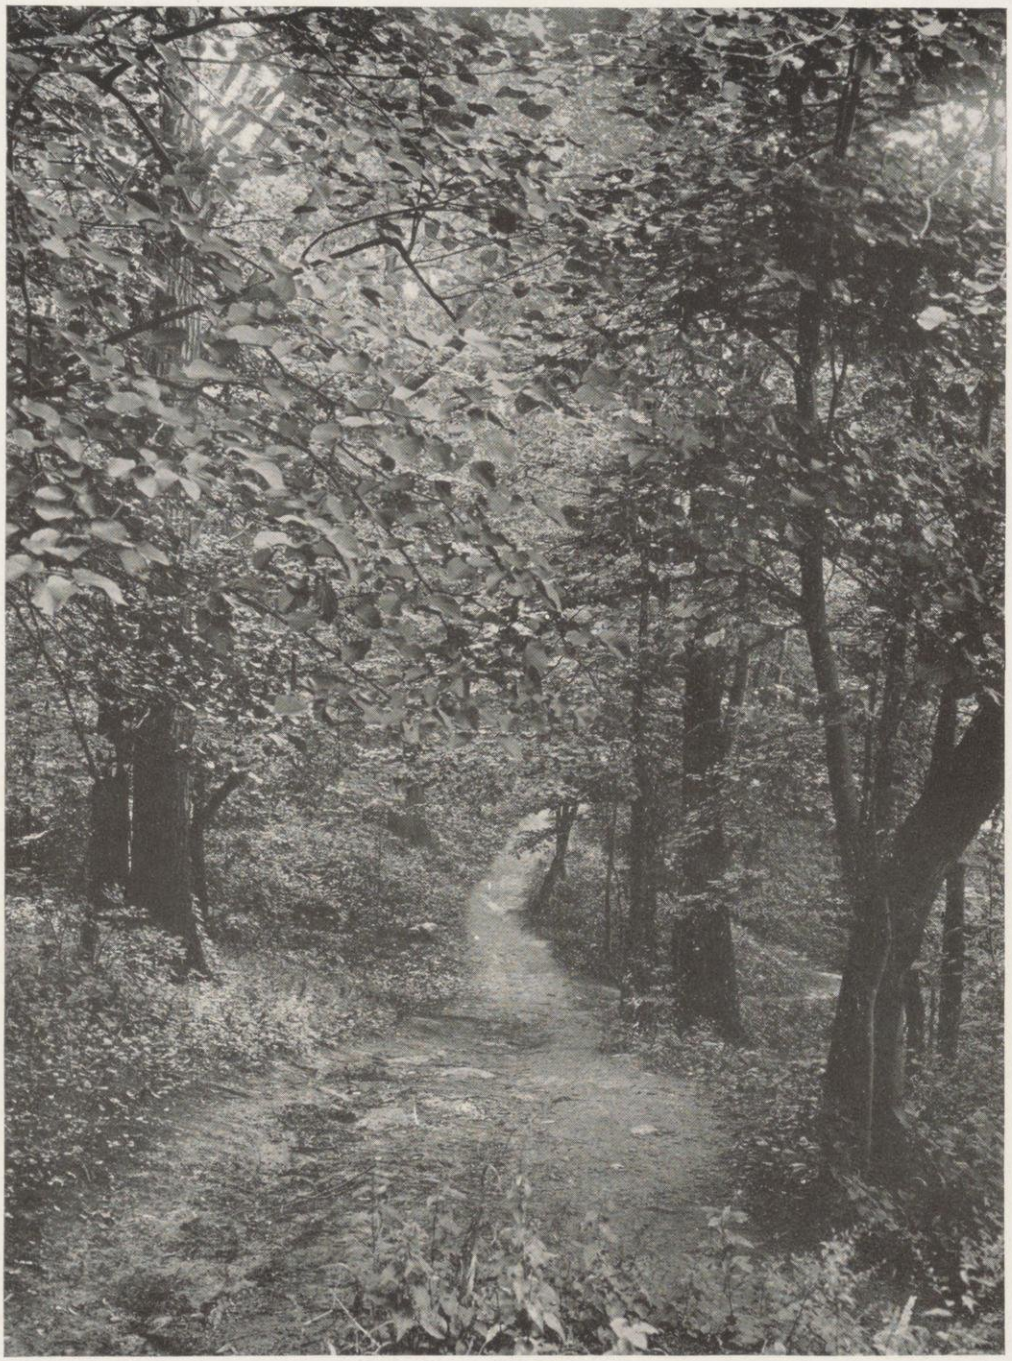
"—with seats beneath the shade,
For talking age and whispering lovers made!"



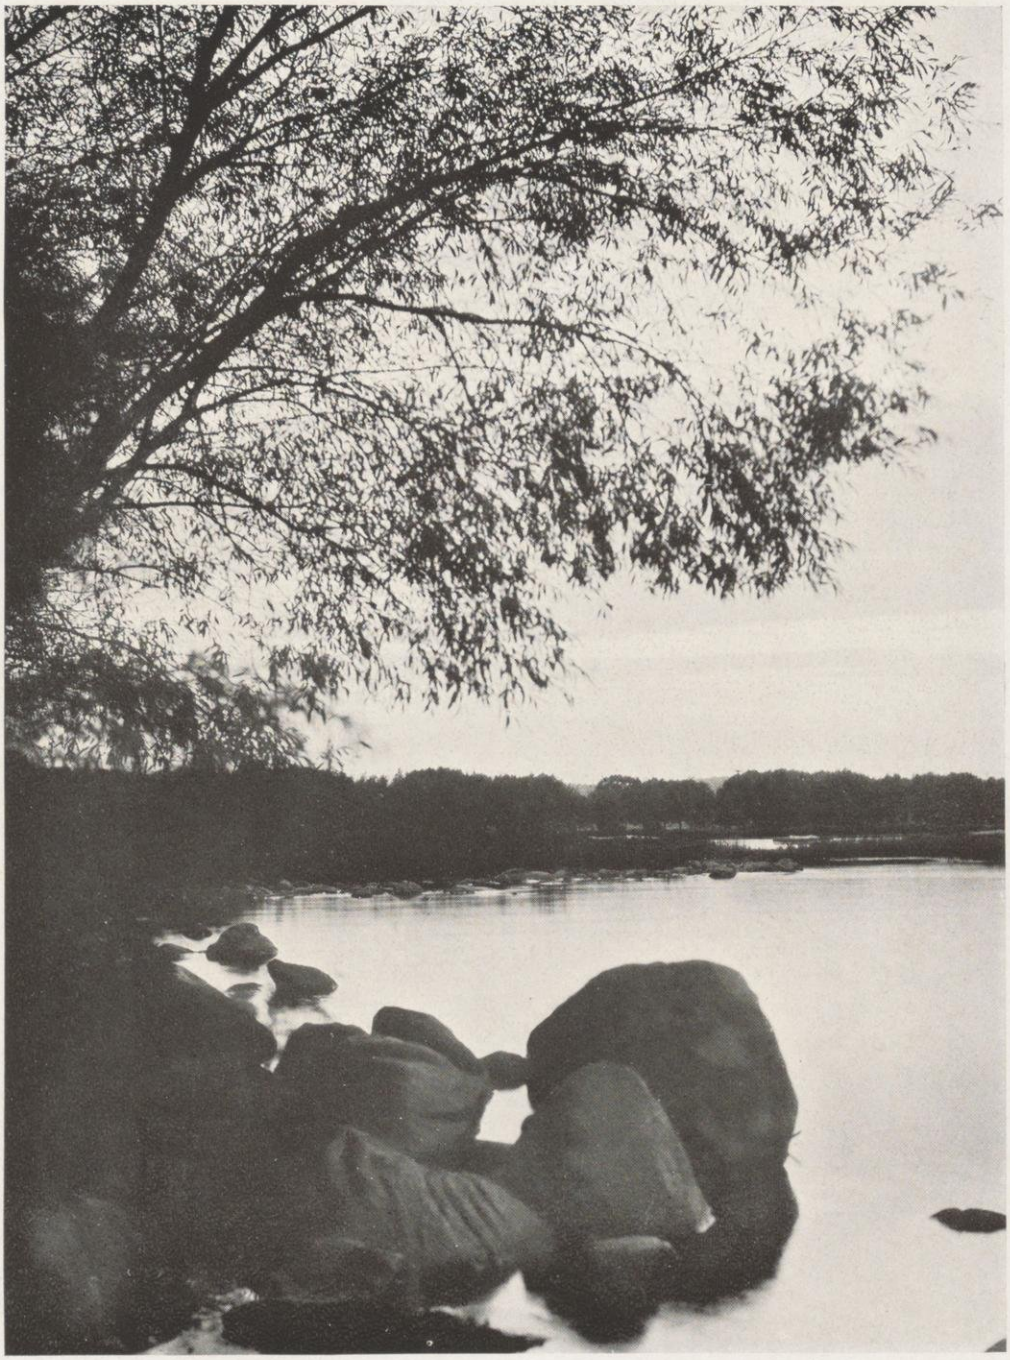
" 'Faith, an' I've forgotten the countersign,' sez 'e —"



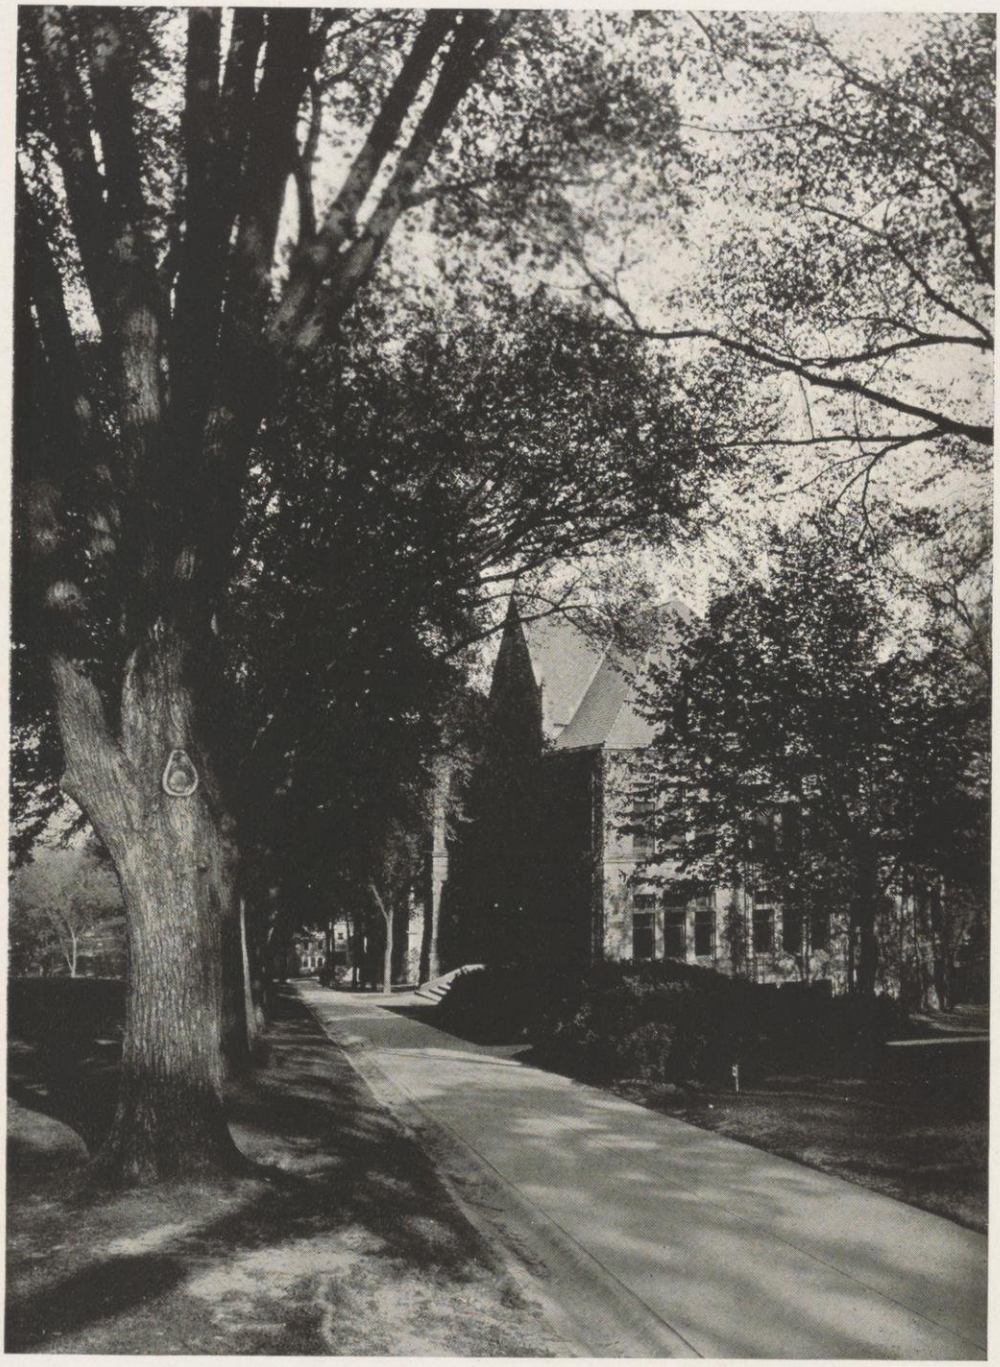
"For the mere sake of truth."



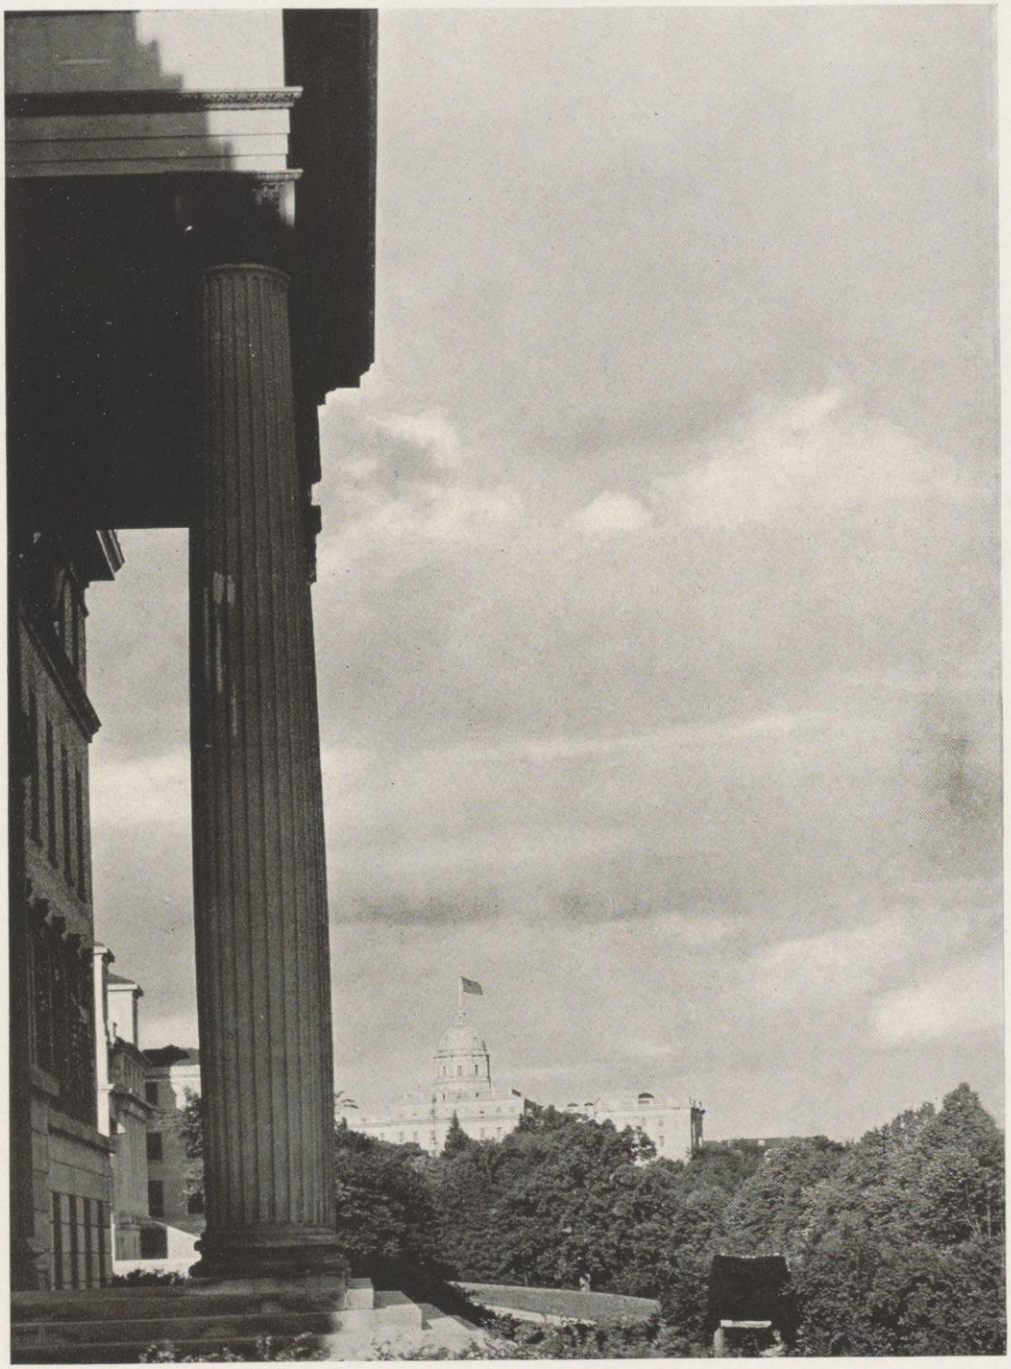
"And pleasant is the way that lies before."



"There was power in this sweet place,"

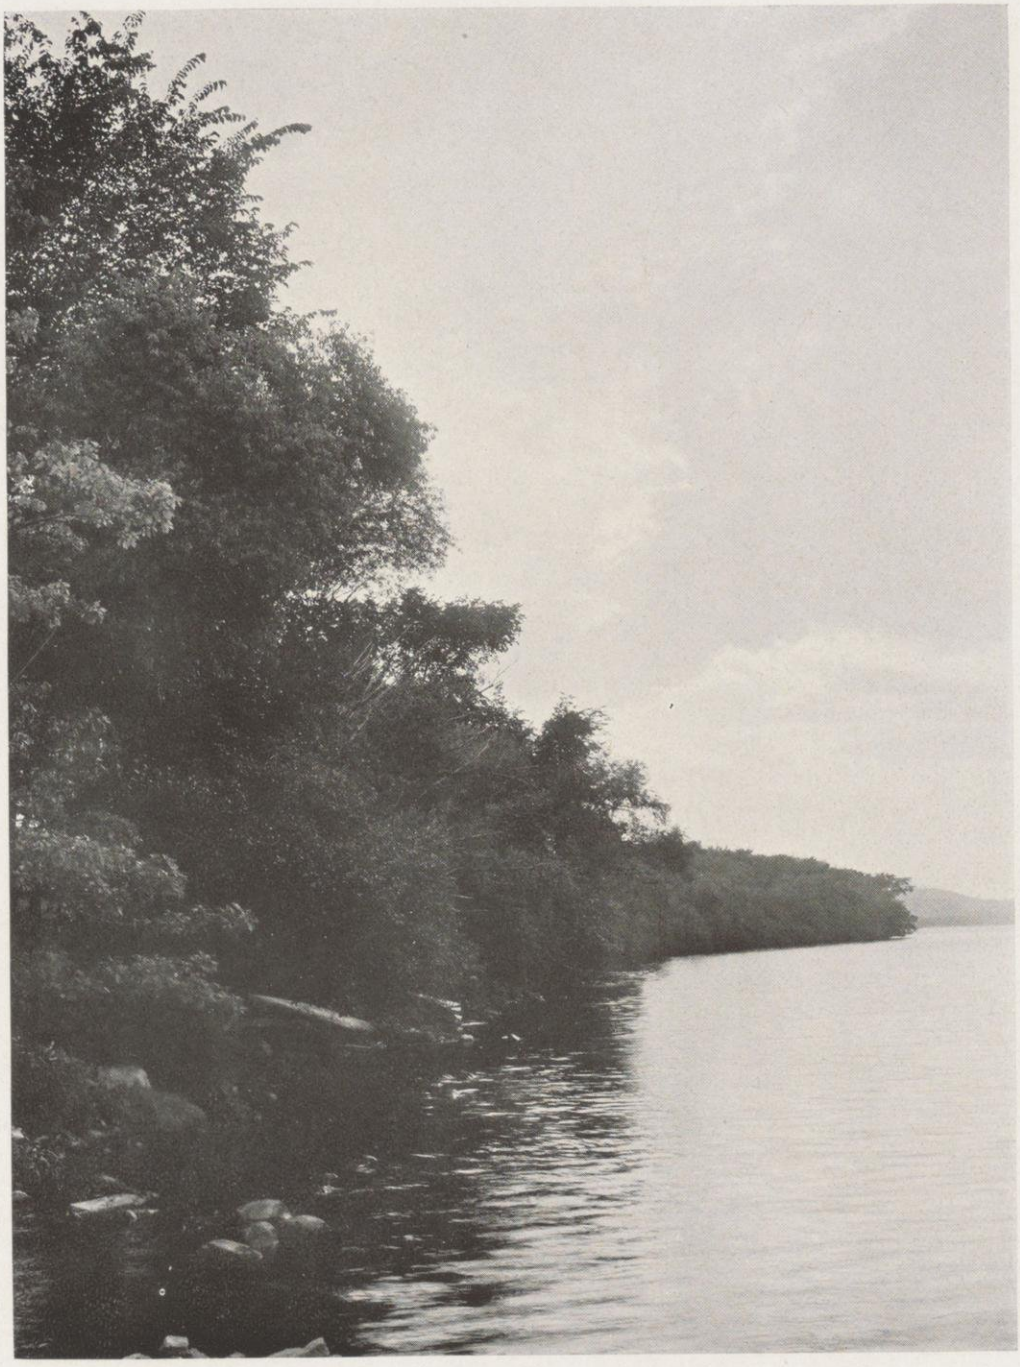


"Dull Grave! thou spoil'st the dance of youthful blood,"



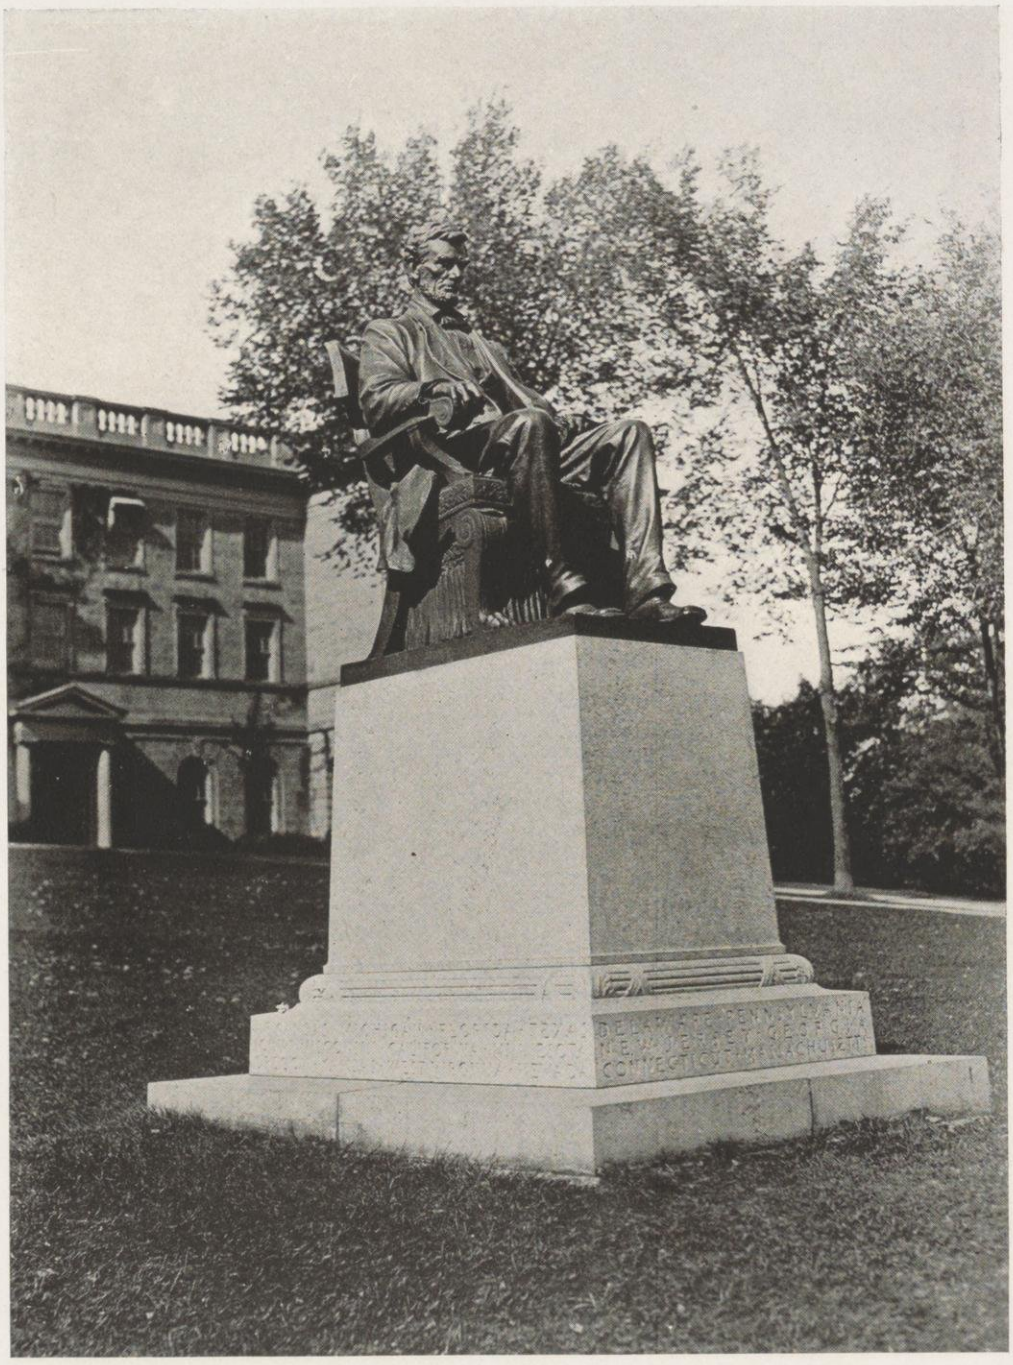
"Fine architecture, trowth, I needs must say't o't,"

"Our tree yet crowns the hill,
Our scholar travels yet the loved hill-side."

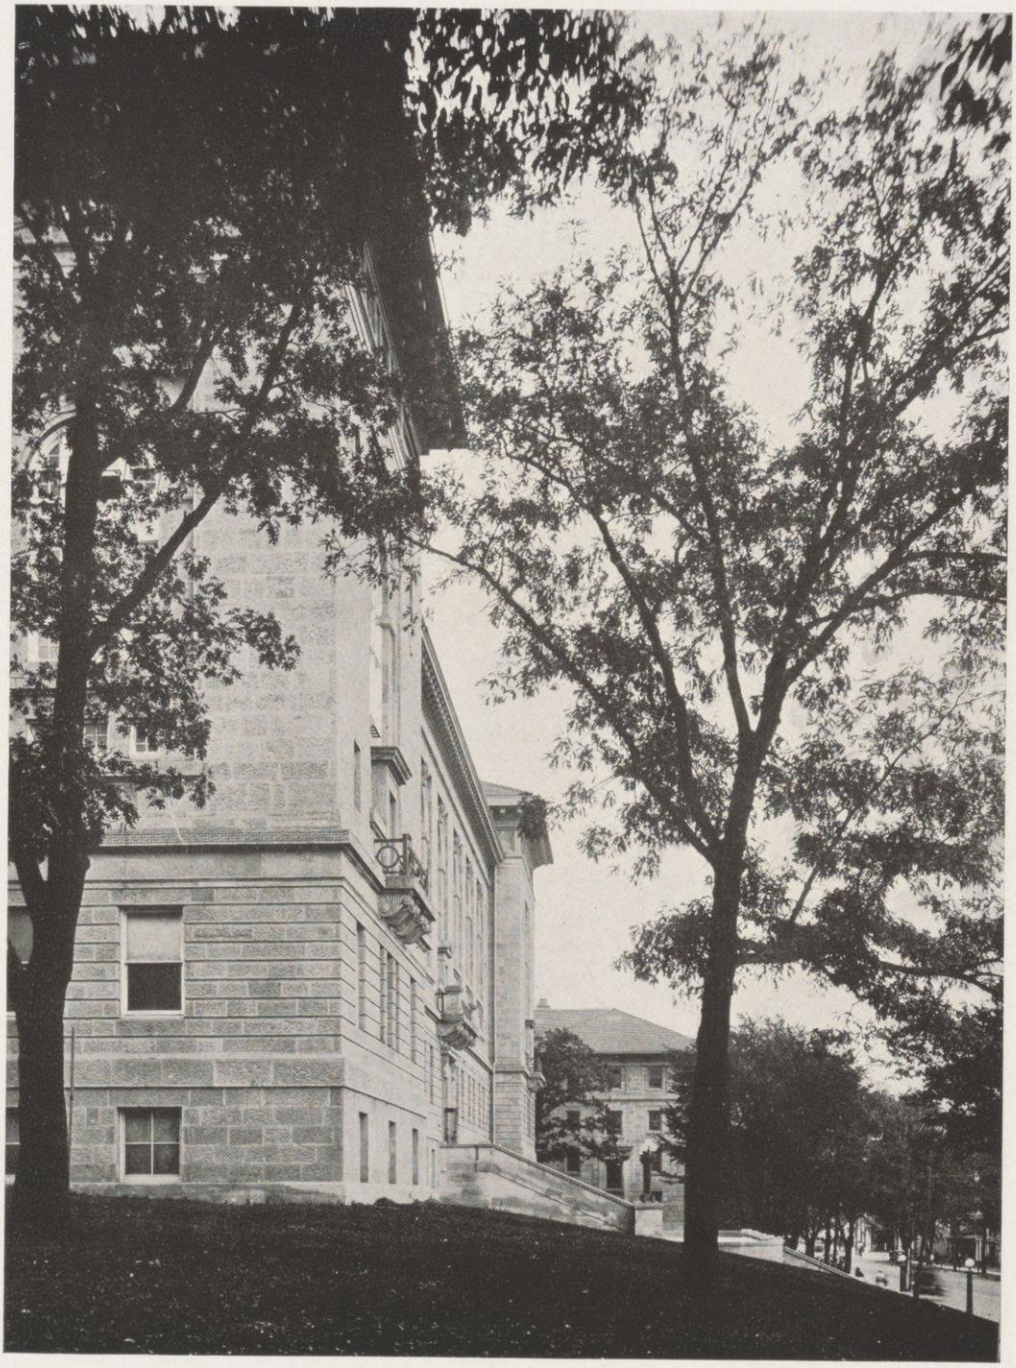


"No sound is uttered,—but a deep and solemn harmony pervades—"

And you liked to walk there, didn't you?

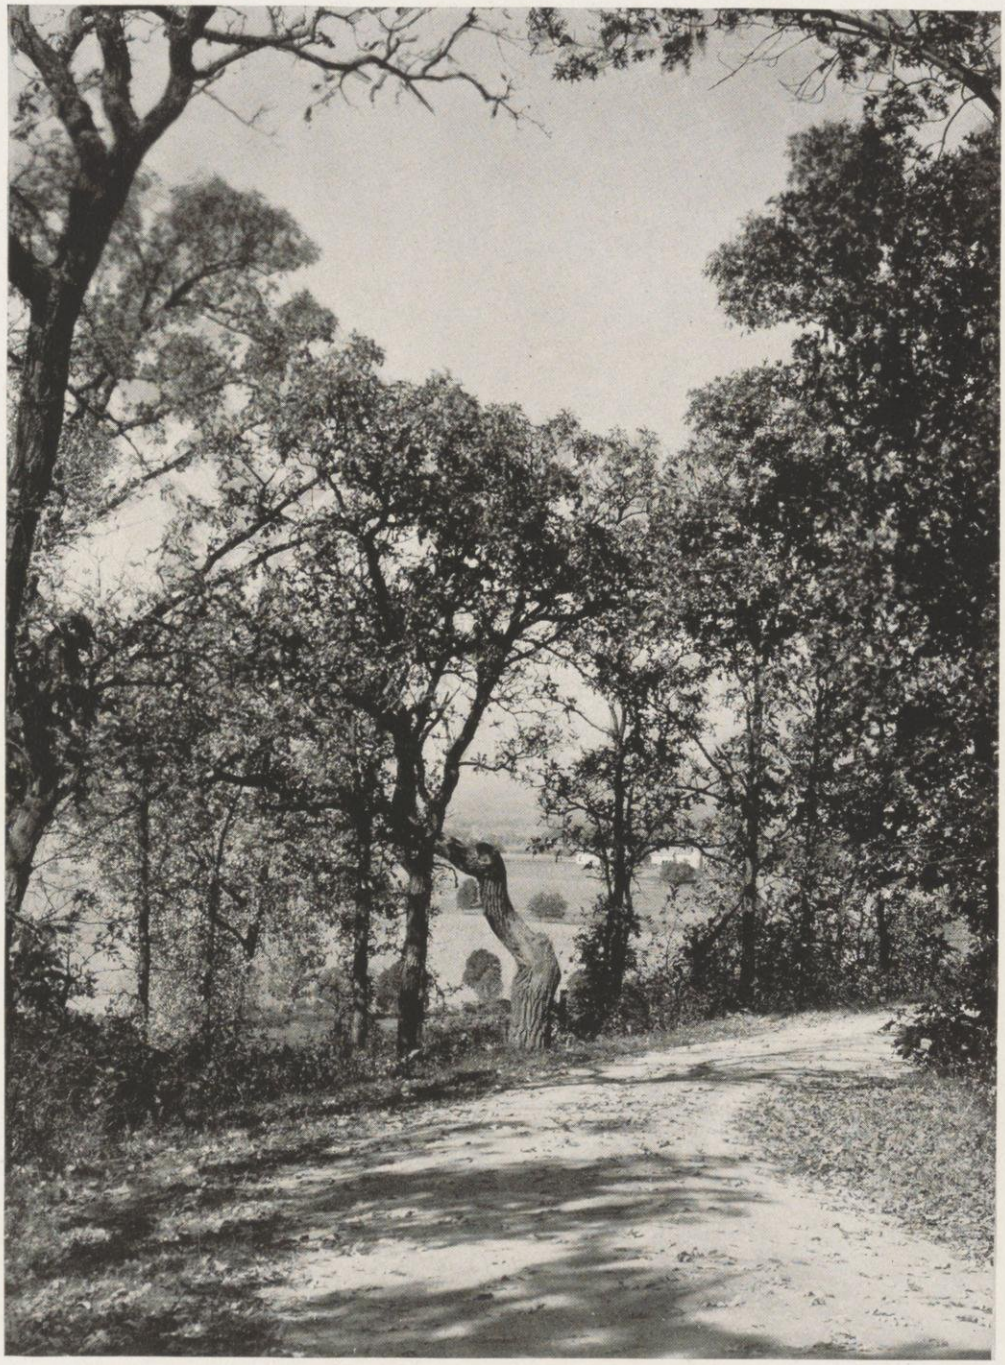


"A largess universal like the sun
His liberal eye doth give to everyone."



Their Castle!

"Where sweet Romance was ever wont to linger —"



"When Autumn stript and sunburnt doth appear"

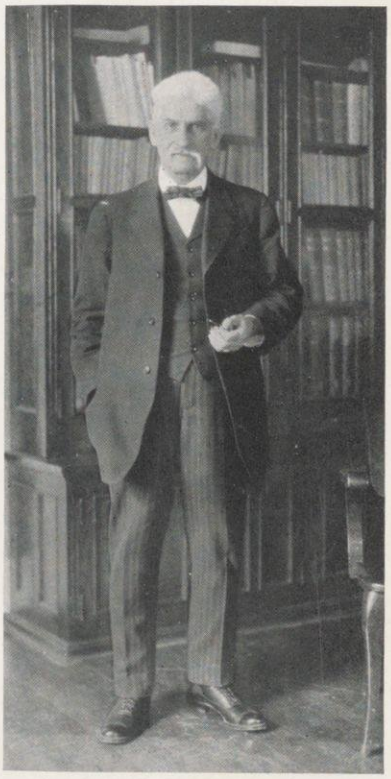
College of Letters and Science

College of Letters and Science

I AM asked to state in a few words the purpose of a student of the general course of the College of Letters and Science. How should he answer the question: "What is the college course to give one?" The technical student, whose aim is law, engineering, commerce, or journalism, can give his answer in a single word, but no such quick and definite reply is ready at hand for the student in a general course.



Dean Birge

I shall not furnish one—partly for the good reason that none exists, or ought to exist. The aim of the technical student is, in great part, external and vocational. It is, therefore, simple, direct, and easily stated. The aim of the student in the general course is almost wholly internal and personal, and is, therefore, as complex as his personality. He can not analyze this complex purpose and he finds no ready-made phrase which states it adequately. This is as it should be. The technical student gets his vocational training and with it the advantages that come from concentration and definiteness of purpose. He pays a price in an early—if not premature—narrowing of his field of view, which may cramp and check his later success. He is fitting himself to his future business, in mind and soul, and has both the advantage and the disadvantage of this process.

The general student is trying out his mind in various fields of thought before entering on the process of technical training which is to come later in his life. He knows that technical training is necessary to success. He knows that it gives much, but that, once entered upon, it also excludes much. He, therefore, would enlarge his mind on various sides and train it along several lines before he begins to shape it for his profession; since he knows that such enlargement and training will probably be impossible after professional shaping has once begun. Such a student, therefore, is continuing for himself that postponement of specialization which is at the bottom of human development and the advance of civilization, because it has permitted the rise and the strengthening of personality before the shaping forces of vocation begin to work.

For this process no characteristic word or brief phrase can be found. Those which might be attempted are either vague or pretentious, or both at once. The student who selects a general course of study must, therefore, accept it on faith as part of the inner life. Life only can disclose its full meaning to him, and this meaning can never be disclosed to those who do not share the life.

College of Engineering

College of Engineering

THE College of Engineering is, first of all, a school for the training of engineers, and its work must be judged largely by the character and success of its graduates. An important function of the college, but secondary to that of instruction, is research in the applied sciences relating to practical engineering problems. The work of the professional engineer is rapidly becoming more important in the welfare of the state and nation, and it is of the utmost importance that those in charge of large engineering and industrial enterprises shall be men of high character and training. The Engineering College does not undertake to graduate engineers, but, in the words of a motto used by the college for many years in its announcement, it "aims to turn out men of large capacity for becoming engineers." The engineering curriculum is carefully selected with these requirements in view, and emphasis placed upon those subjects which serve as fundamental training rather than those which deal only with questions of practice. The latter can, in the main, be learned more readily and effectively in practice than in school, and the short period of four years covering the engineering course cannot be given up to work which can more profitably be learned in practice. Proficiency in engineering requires many years of seasoning in actual practical work.

Dean Turneaure

The field of employment for the engineering graduate is constantly widening and many are now engaged in lines of work in which a few years ago technical knowledge was considered quite unnecessary. The proportion of graduates of this college who are not employed in the engineering profession, or in business closely related thereto, is very large—more than 90 per cent. They are widely scattered in all parts of the world, the last Engineering Alumni Directory showing graduates in forty-two states and fourteen foreign countries.

In practical research the Engineering College has always been quite active and, during the past few years, has been able to accomplish much larger results by reason of the special appropriations granted for this purpose. A considerable amount of valuable work is being accomplished in several laboratories in cooperation with committees of the National Engineering Societies, particularly the American Society for Testing Materials and the American Engineering Railway Association. In the electrical engineering department a standard laboratory has been established where a large amount of testing work is done for the public utilities of the state under the general direction of the Wisconsin Railroad Commission. Many direct contributions of value to the industrial interests of the state have also been made from other laboratories, notably, the testing materials laboratory, the steam engineering laboratory, chemical engineering laboratory and the hydraulic laboratory.

College of Agriculture

College of Agriculture

RECENT years have witnessed a development in the work of agricultural colleges that has hardly had any educational parallel within a generation. Founded on the basis of congressional beneficence these institutions in their earlier years struggled for recognition not only educationally, but from those whom they were intended to serve. In those days no science of agriculture existed, and those who practiced the art were for the most part convinced that four years of study would do more to unmake rather than train a student for his life work. The University of Wisconsin was among the earlier institutions to recognize the fact that utility was no bar to efficient training. Because a subject was useful it was no sign that it could not serve as a medium of instruction. All depended upon the point of view from which it was presented. This fundamental idea is now so thoroughly recognized that it may be regarded as having permeated the educational ideals of the day. While agricultural education has been founded on the basis of attempting to train for efficient service, yet it has laid hold of the scientific principles on which all truth rests, and more and more is utilizing the fundamental sciences, not only the natural but the economic as well.

Dean Russell

To cope with the manifold problems which present themselves in the field of production, to maintain flocks and crops in a state of health which will result in maximum development, to market and distribute the garnered product so as to prevent waste, reduce cost and insure the greatest usefulness for the labor expended are responsibilities that require the best trained intellect for the greatest success. To use these bounties of nature not for mere sordid accumulation, but as a means of better living is the privilege as well as the opportunity of the tiller of the soil. Moreover, the duty, even the obligation of a trustee, rests upon us to use all these agencies in such a manner that this holy earth which is our greatest and most fundamental natural resource is transmitted by our generation unimpaired in fertility and usefulness to those who follow after us. To train for such duties of citizenship is the purpose of the agricultural college.

But the modern agricultural college does not confine its activities to the resident student body. So intimately must it be connected with its own constituency which it is also its function to aid, that it may well be said that its campus is coterminuos with the boundaries of the state which supports it. In fact, its influence is not even so limited, for the virile agricultural college of today serves many beyond the boundaries of the commonwealth which supports it. To join in such a service and be a part of it is the ideal of the agricultural college of today.

Evening on Mendota

College of Law

College of Law

THE oldest professional school in the University is the Law School, founded forty-eight years ago by distinguished pioneer judges and lawyers of the commonwealth to furnish systematic training for future members of the bar. The large part it has played in legal education in Wisconsin is shown by the fact that three fourths of the present membership of the bench and bar of the state are either graduates, or have attended the school for a time. Five of the seven members of the Supreme Court are graduates. Both the United States senators and the federal district judges are graduates or have been connected with the school. Its graduates are scattered throughout the Union particularly in the middle and far west where they have won, in large degree, professional and political preferment.

Dean Richards

Beginning with no requirements as to preliminary education, and with but one year of legal study, the standards have gradually advanced until candidates for a degree must now present two full years of college work as preliminary to legal study, spend three full years in residence and also serve an apprenticeship of six months in a law office.

Until the law school was established on the "Hill" in 1891, when it took possession of the law building, its connection with the University was little more than nominal; since then its work has been more and more correlated with that of the course in letters and science. The requirement of two years of prelegal College work has resulted in an increasing number of students from the college of Letters and Science.

It is difficult to adequately set forth in brief compass the courses that have led to the present development in legal education. The conviction of the University authorities that since justice is the supreme concern of the state that those who are to be the ministers of justice should have the training commensurate with their duties, has been the moving power back of the many changes that have occurred in the requirements for admission, standards of scholarship, and methods of instruction. In the very remarkable advances made in the field of legal education particularly in the past fifteen years, the University of Wisconsin Law School has had an honorable part. It should be a matter of pride to Wisconsin people that the University law school was among the first schools to require three years of legal study, and the first of the established schools west of the Alleghanies to require two years of college work as preliminary to legal study.

Professor Redlich of Vienna in reporting on methods and standards of American law schools pronounced the best type of American schools far superior to legal professional schools of England and the continent. It is significant of the standards and in keeping with the progress of the University that the University Law School is one of the four schools mentioned by Professor Redlich as of the type commended.

Harry S. Richards.

College of Medicine

College of Medicine

ALTHOUGH a department of medicine at the State University was provided for by act of the legislature in 1848 and a faculty was appointed for the year 1855–6, the limited resources of the University in its early days led to a concentration along literary lines and the attempt to start a medical school was given up for half a century. In the spring of 1907 the establishment of the medical school was authorized by the legislature. During the year 1907–8 the first year of the medical course was given; during 1908–9, the second year of the course. The first two years of the present standard four year medical course consist mainly of laboratory training in the special sciences upon which medicine is directly based, anatomy, physiology, pharmacology, bacteriology, pathology and clinical diagnosis. Provision for teaching these subjects was the natural outgrowth of the courses in chemistry, physics and biology which formed the backbone of the premedical course established a generation ago to prepare our students for the study of medicine. This premedical course acquired the reputation of being one of the best of the kind in the country. The medical science course at the University now includes this premedical science work as preliminary training for the two years of the medical course offered here. Lack of adequate clinical facilities prevents the establishment at present of the last two or clinical part of the four year course but our students are welcomed in the best schools elsewhere for the completion of this work. The schools to which most of our students have gone to complete the clinical half of he medical course are Rush and Northwestern in Chicago, The Johns Hopkins in Baltimore, the University of Pennsylvania in Philadelphia, Harvard in Boston, and Washington University, St. Louis, but other good schools have also attracted some of our students.

Dean Bardeen

In addition to offering medical students a thorough grounding in those sciences upon which modern medicine is based and an introduction to methods of practical application of this knowledge, the medical school gives general students courses in anatomy and physiology, bacteriology and hygiene. Through its clinical department it has supervision of the care of student health. This has become an important part of the work of the medical school. By making medical examinations of all new students who enter the University and offering abundant facilities for medical advice and consultation opportunity is given to check the spread of disease in the student community, to furnish remedies to the individual when they do most good at the very onset of a disturbance, and to give wholesome advice as methods of developing habits of life suitable to one's personal needs and the good of the community.

Chas. R. Bardeen.

Dr. Eyster

University Extension

UNIVERSITY Extension in Wisconsin dates from the year 1892. The English form was adopted and the work consisted mainly in courses of lectures with syllabi, collateral reading and examinations, conducted by University professors, who enrolled classes in nearby towns. The Universities of Wisconsin and Chicago were pioneers in the incorporation of this work as an organic function of institutions of higher learning. The early history of the movement in this country shows slow and fluctuating growth. In Wisconsin interest ebbed almost to extinction but was renewed in 1906 when the work was reorganized and expanded. Correspondence-study was added at this time and in rapid succession departments of Debating including package libraries for districts remote from public libraries and of Welfare service covering the fields of social and civic betterment.

Dean Reber

The work was administered wholly from the central offices at the University previous to 1908, but during that year a division of the state into districts was made thus insuring discriminating service and equality of opportunity to all parts of the commonwealth. The subsequent development was uniform and rapid.

The offices of University Extension have been defined as of three-fold nature including not only the extension of the University to the whole people, but also the extension of the period of education to the whole of life and of the educational field to all the interests of life. This definition implies the several fundamental differences between the operations of the University "within the walls" and those which though emanating from within, are carried on away from the institution, and designed to reach every part of the state. Chief among these is the fact that University Extension exacts no entrance requirements other than the desire to learn and evidence of capacity to acquire on the part of the applicant.

This liberal provision, it will be seen, admits of a student body ranging from persons who have been deprived of the advantages of early education to those who have had every opportunity of academic and professional training. It likewise demands that Extension teaching shall include not only whatever is taught in residence but also vocational and cultural instruction of any grade applied definitely to the needs of employed persons of whatever rank.

The only exception to the rule of open matriculation is in the case of students who desire to accumulate credits for degrees, for whom the standard regulations of the University are rigidly enforced. With these restrictions, the work of two years may be taken in absentia for undergraduate standing.

A close co-ordination with life and its interests is inherent in the constitution of University Extension.

Louis E. Reber

Louis Ehrardt Reber, ΦΚΦ, ΣΞ, ΦΚΣ, *Dean of the University Extension Division.* B.S., Pennsylvania State College, 1880; M.S., Pennsylvania State College, 1885; Sc.D., Pennsylvania State College, 1908.

Edward Morley Barrows, *Assistant Professor.* B.A., University of Wisconsin, 1906.

George Rockwell Bascom, ΦΓΔ, *Assistant Professor of Municipal and Sanitary Engineering.* B.S., University of Illinois, 1905

Arthur Beatty, *Assistant Professor of English.* B.A., University of Toronto, 1893; Ph.D., Columbia University, 1897.

Horace Thomas Burgess, ΦΒΚ, ΣΞ, *Assistant Professor of Mathematics.* A.B., Yale University, 1906; M.A., Yale University, 1907; Ph.D., Yale University, 1909.

Wayland Johnson Chase, ΔΥ, *Associate Professor of History.* A.B., Brown University, 1887; A.M., Brown University, 1890.

Hoyt E. Dearholt, *Associate Professor.* M.D., Rush Medical College.

William Henry Dudley, *Assistant Professor.*

Peter William Dykema, *Professor of Music.* B.L., University of Michigan, 1895; M.L., University of Michigan, 1896.

Adolphine Bianca Ernst, ΦΒΚ, *Assistant Professor of German.* B.A., University of Wisconsin, 1901; M.A., University of Wisconsin, 1905; Ph.D., University of Wisconsin, 1912.

John Lewis Gillin, ΦΒΚ, *Professor of Sociology.* A.B., Iowa College; Ph.D., Columbia University, 1906.

Wilson Hogan Henderson, *Assistant Professor of Industrial Education.*

William Edward Hogan, ΓΛ, *Assistant Professor of Drawing and Machine Design.* M.E., Cornell University, 1906.

George Albert Hool, *Associate Professor of Structural Engineering.* S.B., Massachusetts Institute of Technology. 1905.

Cyril Methodius Jansky, ΣΞ, *Associate Professor of Electrical Engineering.* B.A., Valparaiso University, 1891; B.S., University of Michigan, 1904.

William Henry Lighty, ΚΣ. Ph.B., Cornell University, 1894.

Ford H. Macgregor, Acacia, *Assistant Professor of Political Science, Chief of the Municipal Reference Bureau.* A.B., University of Michigan, 1906; M.A., University of Wisconsin, 1915.

Andrew Hutton Melville, *Assistant Professor.*

Earle Bertram Norris, ΦΚΦ, ΦΓΔ, *Associate Professor of Mechanical Engineering.* B.S., Pennsylvania State College, 1904; M.E., Pennsylvania State College, 1908.

Annie Maria Pitman, ΦΒΚ, ΚΚΓ, *Assistant Professor of Latin and Greek.* A.B., University of Wisconsin, 1897; Ph.D., University of Wisconsin, 1903.

William Packard Roseman, *Assistant Professor.* Ph.B.

Edward Marvin Shealy, ΤΒΠ, *Assistant Professor of Steam Engineering.* B.S., University of Wisconsin, 1904.

Paul Frederick Voelker, *Assistant Professor.* M.Di., Iowa State Normal College, 1901; Ph.B., Drake University, 1906; A.M., Drake University, 1907.

Robert King Winning, *Assistant Professor of Electrical Engineering.* B.S., University of Kansas, 1907.

Department of Music

Dean Mills

CHARLES HENRY MILLS, *Professor of Music and Director of the School of Music.* B.M.,University of Edinburgh, 1904; Mus.D., McGill University, 1911; Fellow of the Royal College of Organists, London; Fellow of the American Guild of Organists.

PETER WILLIAM DYKEMA, *Professor of Music.* B.L., University of Michigan, 1895, M.L., University of Michigan, 1896.

FLETCHER ANDREW PARKER, *Professor of Music, Emeritus.* Graduate in Music; Boston School of Music, 1886.

CHARLES AUGUST MANN, ΤΒΠ ΣΞ, ΦΛΥ, *S. and B.; Conductor of University Band, Assistant in Music.* B.S., University of Wisconsin, 1909; M.S., University of Wisconsin, 1911; Ph.D., University of Wisconsin, 1915.

Department of Physical Education

GEORGE WOLF EHLER, *Professor of Physical Education, Director of the Department of Physical Education.* C.E., Pennsylvania Military College, 1885.

JAMES CLAUDE ELSOM, *Assistant Professor of Physical Education.* M.D., Medical College of Virginia, 1889.

CLARK WILSON HETHERINGTON, ΦΔΘ, *Professor of Physical Education.* A.B., Leland Stanford University, 1895.

MARGARET LEE JOHNSON, *Assistant Professor of Physical Education.* M.D., University of Colorado, 1908.

THOMAS EDWARD JONES, Acacia, *Assistant Professor of Physical Education.* A.B.,Iowa Teachers' College, 1905; B.P.E., Springfield Training School, 1908.

WILLIAM JOSEPH JUNEAU, ΒΘΠ, *Assistant Professor of Physical Education.* A.B.,University of Wisconsin, 1904.

WALTER ERNEST MEANWELL, ΦΚ, *Assistant Professo of Physical Education.* M.D., Baltimore Medical College, 1909.

BLANCHE M. TRILLING, *Director of the Women's Gymnasium, Assistant Professor of Physical Education.*

Geo. W. Ehler

CLASSES

Class Day Exercises

Monday, June 14—2:30 P. M.

Gymnasium

Music	Cap and Gown Quartette
Class History	Edward W. Moses and Bessie C. Rood
Class Oration	Louis E. Krumholz
Music	Cap and Gown Quartette
Farewell to Underclassmen	Fred M. Hall
Junior Response	John P. Frazee
Presentation of Memorial	Archibald E. MacQuarrie
Faculty Acceptance	Professor George C. Sellery

Pipe of Peace Ceremony

11:30 P. M.

Lower Campus

Pipe of Peace Oration	William N. Clark
Junior Acceptance	Hilding E. Anderson
Music	University Band

Commencement Exercises

Wednesday, June 16—10:00 A. M.

Gymnasium

Commencement Orators

Archie M. Peisch	College of Letters and Science
Yvonne Dauplaise	College of Letters and Science
W. Harrison Loerpabel	College of Engineering
William G. Kammlade	College of Agriculture
George R. Cunningham	College of Law

Baccalaureate Exercises

Sunday, June 13, 1915

Address by Dr. E. A. Birge, Dean of College of Letters and Science

Class Day

Monday, June 14

10:00 A. M.—Ivy Exercises	Upper Campus
2:30 P. M.—Class Day Exercises	Gymnasium
8:00 P. M.—"The Genius"—Senior Class Play	Orpheum Theatre
11:30 P. M.—Pipe of Peace Ceremony	Lower Campus

Alumni Day

Tuesday, June 15

10:00 A. M.—Annual Business Meeting of Alumni	Music Hall
12:45 P. M.—Annual Alumni Dinner	Gymnasium
4 to 6 P. M.—All Alumni Festivities and "stunts."	Upper Campus
8:30 to 10:00 P. M.—Alumni Reception	Lathrop Parlors
10:00 P. M.—Alumni Ball	Lathrop Hall

Commencement Day

Wednesday, June 16

8:30 A. M.—University Procession	Upper Campus
9:00 A. M.—Commencement Exercises	Gymnasium
2:45—Orchestral Concert	Armory Hall
4:00 to 6:00 P. M.—President's Reception	President's House

Letters and Science
AΦ
Entered as a Junior from Lawrence College, Glee Club (3) (4); Y. W. C. A. (3) (4).
Thesis—The Relation between Garfield and Conkling 1880.

WILBUR ROADHOUSE . . . . . *Beloit*
"COOT"
Engineering
Entered as a Sophomore from Beloit College
Engineers' Club
Thesis—Power Losses Occuring in The University Electrical Distributing System.

R. JOHN ROBERTS . . . . . *Hart, Mich.*
"JACK"
Agriculture

RICHARD DOUGLAS ROBERTSON . . *Patch Grove*
"DICK"
Agriculture
ΣN
Band (1) (2).
Thesis—Preservative Treatment of Fence Posts

GEORGE CLARENCE ROBINSON . . *Oconomowoc*
"BOB"
Letters and Science
Semi-Public Debate, Junior Orator (3); Joint Debate (4); Philomathia Secretary (2); Treasurer (3); President (4); Forensic Board President (4); Cadet Lieutenant (2); Captain (3) (4).

MARGARET JOSEPHINE ROHAN . . . . *Racine*
Letters and Science
Entered as a Junior from St. Clara College
Thesis—Shelley

GUSTAV ADOLPH ROSENOW . . . . *Menasha*
"ROSIE"
Letters and Science
Thesis—Historical and Geographical Influence upon the Fox-Wisconsin River.

MELVIN PASSON ROSKE . . . . . *Madison*
Agriculture
Entered as a Junior from Milwaukee Normal
Thesis—Interstate Trade in Dairy Cattle

AMANDA IDA ROSS . . . . . *Milwaukee*
Letters and Science
Thesis—Phase Rule Studies in Systems Consisting of Various Inorganic Salts and Pyridine.

LOUSENE G. ROUSSEAU . . . . . *Rib Lake*
Letters and Science
ΓΦΒ
Entered as a Junior from Milwaukee Normal; Pythia.
Thesis—A Comparison of the Rhetorical Principles of Cicero and John Quincy Adams.

JACOB ROVNER . . . . . *Madison*
"JACK"
Agriculture
Entered as a Sophomore from Ohio University
Thesis—Study of Methods for the Determination of the Number of Bacteria in Milk.

WILFRED ALEXIS ROYCE . . . . *Lead, S. Dak.*
"SPIKE"
Engineering
ΘΔΧ
Eta Kappa Nu; Friars; Glee Club (2) (3)
Thesis—Effect of Temperature upon the Accuracy of Commutating Watt-Hour Meters.

GEORGE LOUIS RUDER . . . . . *Wausau*
Commerce
ΑΤΩ; ΦΔΦ
Basketball Manager (4)
Thesis—History of Legislation against Dishonest Advertising.

FREDERICK W. RUMPF . . . *Stamford, Conn.*
Commerce
Commercial Club (2)
Thesis—A Cost and Financial Accounting System for the A Company.

OMAR T. SADLER . . . . . *Hart, Mich.*
Letters and Science
Entered as a Senior from Michigan Agricultural College. Mandolin Club (4).

WALLIS SAMUEL SALMON . . . *Mineral Point*
"WALLIE"
Engineering
Thesis—Design of a Motor Generator Set

HAZEL ALVILDE SANDERS . . . . . *Madison*
"HAY-SANDY"
Letters and Science
Thesis—Thesis Course "Grillparzer"

LOUIS MILTON SASMAN . . . . . *Black Creek*
Agriculture
Thesis—A Study of Factors Influencing Milk Production.

JAMES J. SAZAMA . . . . . *Kewaunee*
"JIM"
Agriculture
Country Life Club
Thesis—Effect of Planting Grains at Different Depths.

JAMES ALBERT SCHAD . . . . . *Baltimore, Md.*
"JIM"
Engineering
Entered as a Junior from Blatimore Polytechnic Institute. Glee Club (5); Choral Union (3) (4) (5); Exposition (4); Chemical Engineers' Society (3) (4).
Thesis—Investigation as to Change in Efficiency with Various Changes in Impeller Casing of an Anger Pump.

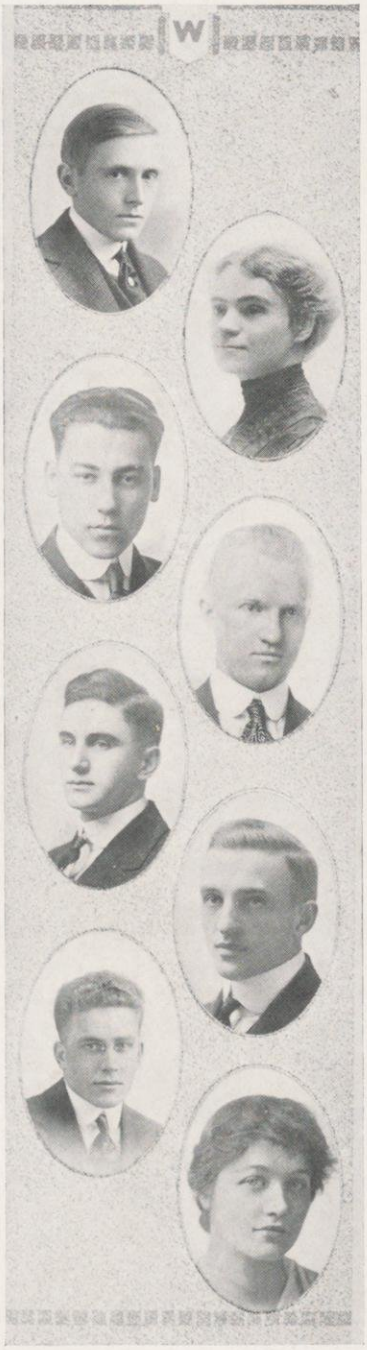
RUBY SCHAFER . . . . . *Chilton*
Normal Course
Entered as a Junior from Oshkosh Normal
Thesis—Course in Shelley

AGNES BEATRICE SCHALLER . . . . *La Crosse*
Letters and Science
Entered as a Junior from La Crosse Normal. Girls' Glee Club (3); Choral Union; Germanistische Gesellschaft.
Thesis—Love in the Life and Dramas of Franz Grillparzer.

GLADYS WILCOX SCHAPPA . . *Westfield, Mass.*
Letters and Science
Choral Union (2), Round Table (2)
Thesis—German Life in Modern Fiction

FRANK ADOLPH SCHEUBER . . *Livingston, Mont.*
"DUKE"
Letters and Science
Thesis—Geology of the Region Surrounding Lake Mendota with Reference to the Former Lake Extention.

ERNEST R. SCHIERZ . . . . . *Milwaukee*
Chemistry
Entered as a Junior from Milwaukee Normal. Germanistische Gesellschaft (3) (4).
Thesis—The Effect of some Amines on the Determination of Ammonia in Water when Nessler's Reagent is employed.



FRED CARL SCHILLING . . . . . *Horicon*
Chemistry
ΑΧΣ
Thesis—Aluminum Solder

ERNA SCHLEGEL . . . . . *Westfield*
Normal Course
Entered as a Junior from Oshkosh Normal

BERNARD SCHLOSSMANN . . . . . *Waukesha*
"BERNIE"
Medicine
Menorah Society, Treasurer (2)
Thesis—Studies of Autolysis; The Accelerating Effects of Various Acids and Alkalies on Kidney Autolysis.

ROY H. SCHMIDT . . . . . *Davenport, Ia.*
"ROSY"
Commerce
Commerce Club; Orchestra (1) (2) (3) (4)
Thesis—Cost Accounting System for Candy Manufacturing Industry.

WILLIAM J. C. SCHMIDT . . . . . *Two Rivers*
"BILL"
Commerce
Entered as a Junior from Oshkosh Normal, Hesperia
Thesis—Foreign Exchange from July 1, 1914 to July 1, 1915.

NICOLAS JOHN SCHMITZ . . . . . *Madison*
"NIC"
Engineering
Eta Kappa Nu
Thesis—An Investigation of the Effect of Low Power Factor on the Induction Type Watt-Hour Meter.

CHESTER CLAYTON SCHNEIDER . . . *Milwaukee*
"CHET"
Medicine
Phi Beta Pi, Sigma Sigma, Mandolin Club (1), Cadet Lieutenant (2).
Thesis—The Development of the Tunica Albugina in Man.

ELSIE ELIZABETH SCHNEIDER . . . . *Madison*
"FRITZ"
Letters and Science
Achoth
Thesis—Shakespeare Favorite Comedy Plots

ARTHUR K. SCHULZ . . . . . *Oshkosh*
"ART"
Commerce
Entered as a Junior from Oshkosh Normal. Beta Gamma Sigma; Commerce Club; Orchestra; Glee Club; Athenae, President (4).
Thesis—Investment Business of Trust Companies

LEONARD J. SCHWARZ . . . . . *Chilton*
"FAT"
Pharmacy

ALFRED JOHN SCHWEPPE . . *St. James, Minn.*
"SCHWEP"
Letters and Science
Entered as a Senior from Northwestern College
Thesis—The Political Philosophy of Edmund Burke as expressed in his Writings on the French Revolution.

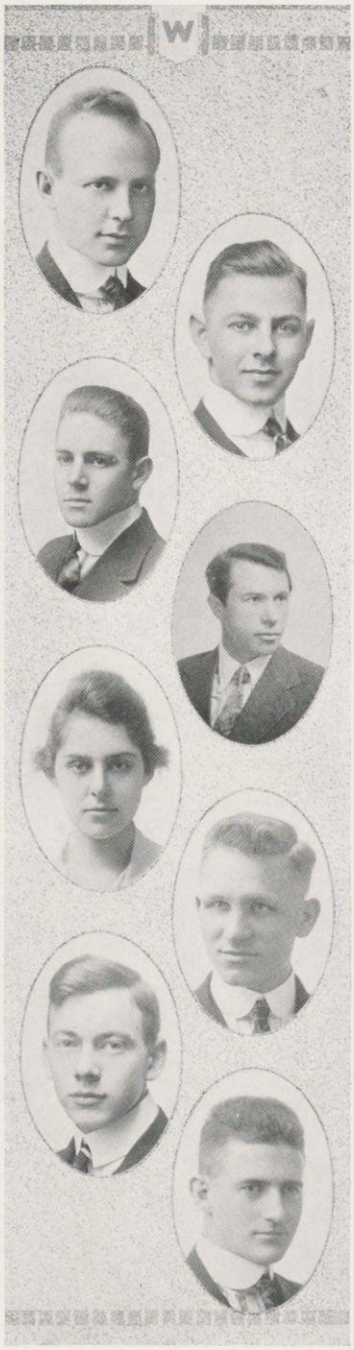
WALTER ALEXANDER SCOTT . . . . *Elmwood*
"SIR WALTER"
Letters and Science
Entered as a Junior from Whitewater Normal; Germanistische Gesellschaft.
Thesis—The Natural Setting for the Psychological Situations in the Novellen of Theodor Storm.

ELOISE SUSAN SEAVERT . . . . . *Chicago*
Letters and Science
ΚΚΓ
Entered as a Junior from Lewsis Institute
Thesis—Thesis Course in Mathematics

GUSTAV A. SELL . . . . . *New Ulm, Minn.*
"GUS"
Agriculture
Acacia
Alpha Zeta, Freshmen Crew; Varsity Crew (2) (3); Sophomore Football; Class Treasurer (4); Y. M. C. A.; Cabinet (3) (4); Student Conference (2) (3) (4).
Thesis—A Study of the Relation between Supply and Price of Wheat, Based on a Study of the Minneapolis Market by Weeks, over a Twelve Year Period. (1904–1916).

ELMER LOUIS SEVRINGHAUS . *New Albany, Ind.*
Letters and Science
Phi Beta Kappa; Hoosier Club; International Club, Treasurer (2) (3), President (4).
Thesis—A Study of the Alkaloid Content of Passiflora Incarnata.

LELAND S. SEYMOUR . . . . . *Peshtigo*
"CY"
Letters and Science
ΔΥ
Yellow Helmets; Manager of Track (4), "W"; Junior Play (3); Chairman Junior Dance Committee.
Thesis—An Analysis of the Federal Appropriations for the Fiscal Year 1914–1915.



LEWIS J. SHANHOUSE . . . . . *Rockford, Ill.*
Law

NATHAN SHAPIRO . . . . . *Medford*
"SHAP" "SHEP"
Commerce
Thesis—How Mail Order Competition Affects the Country Store.

EDITH LUCILLE SHARKEY . . . *Chicago, Ill.*
Letters and Science
Thesis—The Philosophy of Gustave Frenssen

HARRY A. SHEARER . . . . . *Fennimore*
Medicine
ΦΚΣ; ΦΒΠ
Band (1) (2) (3); Mandolin Club (1) (2) (3); Haresfoot Orchestra (3).
Thesis—Bacteriology of Cancers

FREDERICK WARREN SHOEMAKER . . *Waupaca*
Agriculture

OSCAR JOHN SIEKER . . . . . *Sheboygan*
Agriculture
Country Life Club, Secretary-Treasurer (4)
Thesis—The Percentage of Meat to Hull in Wisconsin's Pedigreed Varieties of Oats.

ELEANOR A. SIME . . . . . *Stoughton*
Home Economics
ΑΦ
Thesis—The Harmonious Use of Oriental Rugs with Period Furniture.

HORACE DAVID SIMMONS . . . . . *Milwaukee*
"SIM"
Letters and Science
ΣΑΕ
Sigma Delta Chi; Monastics; Editor-in-Chief of the Awk (4); Sphinx Staff (2); Badger Board (1) (2) (3).
Thesis—An Analysis of the Humor of Fallstaff.

JOSEPH ELLSWORTH SIMMONS . . *Hazel Green*
Agriculture
Entered as a Sophomore from Platteville Normal
Thesis—The Effect of Shaking on the Bacterial Count of Milk by the Plate Method.

GEORGE LANE SIMPSON . . . . . *Oshkosh*
"BIG EBER"
Normal Course
ΣN
Entered as a Junior from Oshkosh Normal; Star and Arrow, Football (4), "W".
Thesis—The Pedagogy of Geography

JOHN H. SKAVLEM . . . . . *Stoughton*
"SKAV"
Medicine
Entered as a Sophomore from St. Olaf College; Sigma Sigma.
Thesis—A Comparison of the Accuracy of Gas Formation on Lactose Broth and Lactose Bile as a Presumptive Test for B. Coli.

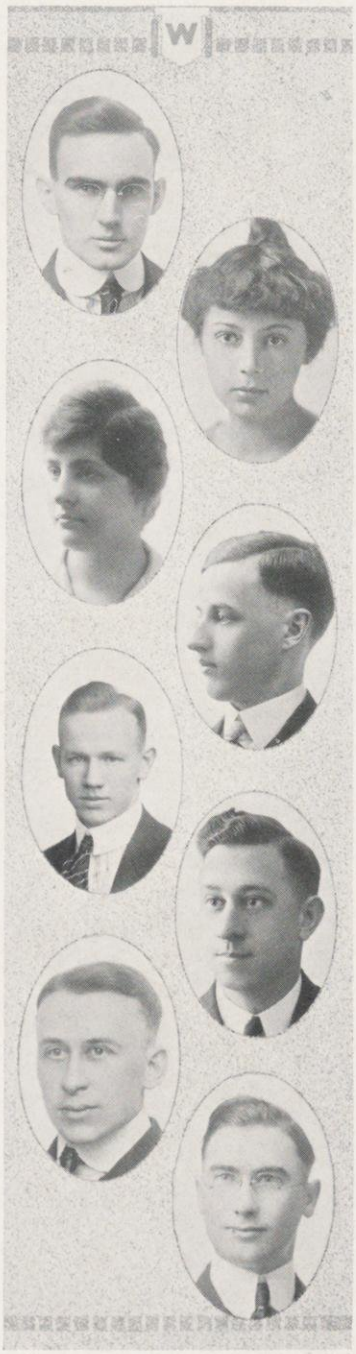
AGNES CECELIA SKELTON . . . . . *Madison*
"SNOOKS"
Music
Glee Club; Choral Union; Pythia

JOSEPH G. SKIRM . . . . . *Princeton, N. J.*
"JOE"
Engineering
ΔTΔ
Mining Club, President (4)
Thesis—The Separation of the Wisconsin Zinc Ore by the Flotation Process.

FRANK JOSEPH SLABY . . . . . *Algoma*
"SHORTY"
Agriculture
ΦKΨ
Freshman Baseball, Captain; Varsity Baseball (2) (3); "W".
Thesis—The Resistance of Butter Molds to Heat

PERRY A. SLETTELAND . . . . . *Pigeon Falls*
"OLE"
Law
ΦΔΔ
John B. Winslow Law Club (1); Tennis, Manager (3); Winner of Doubles (3); Band (1).
Thesis—Do we have Freedom of Speech and Press?

CHARLOTTE ESTELLE SMITH . . . *Chicago, Ill.*
"CHARLIE"
Letters and Science
Pythia; Geneva Club
Thesis—Henry James as a Literary Critic



EARLE EUGENE SMITH . . . . . *Oshkosh*
"SMITTY"
Commerce
ΑΣΦ
Entered as a Junior from Beloit College. Class Track (2) (3); Commerce Club.
Thesis—A General Survey of Marketing Conditions Relative to the Pea Industry of the United States.

EDITH M. SMITH . . . . . *Port Washington*
Letters and Science
Entered as a Junior from Rockford College; Germanistische Gesellschaft; French Circle (3) (4).
Thesis—Sources of Grillparzer's Dramas

HELEN G. SMITH . . . . . *La Crosse*
"SCHMITTY"
Letters and Science
ΠΒΦ
Entered as a Sophomore from La Crosse Normal; Mystic Circle.
Thesis—The Villains of Shakespeare's Tragedies

HOWARD LEAMAN SMITH . . . . . *Madison*
"HOW"
Commerce
Beta Gamma Sigma; Commerce Club
Thesis—Parcel Post

LYNWOOD HERBERT SMITH . . . *Oakland, Cal.*
"SMITTY"
Commerce
ΒΘΠ
Iron Cross; Star and Arrow; Inner Gate; Football (2), "W" (3) (4); Basketball (2), "W" (3) (4); Track (3) (4), "W" (3); Class President (3), Sergeant-at-Arms (4).
Thesis—The Postal Savings Banks of the United States.

WINFIELD SCOTT SMITH . . . . . *River Falls*
Agriculture
Entered as a Junior from the River Falls Normal
Thesis—Preliminary Studies in Making Cider Vinegar.

WILLIAM A. SNEEBERGER . . . . . *Racine*
Letters and Science
Thesis—Precipitions

GEORGE F. SOELCH . . . . . *Madison*
Engineering
Thesis—Investigation of Proper Conditions for Annealing High Carbon Steel.

LAWRENCE AVERY SOLBERG . . . . *Mondovi*
"SOLLIE" "SWEDE"
Pharmacy
Thesis—Lotions

GEORGE EDWARD SPENGLER . . *Fort Atkinson*
"DUTCH"
Agriculture
Thesis—Factors Influencing the Bacteriological and Sediment Content of Milk.

LILLIE LUISE SPIERING . . . . . *Mayville*
Letters and Science
W. A. A.; Varsity Baseball (2) (3); Indoor Baesball (3); Y. W. C. A.; Germanistische Gesellschaft.
Thesis—The History of Dodge County, Wisconsin, Congressional District.

VERA BELLE SPINNEY . . . . . *Madison*
Home Economics
Omicron Nu; Euthenics Club; W. A. A.; Varsity Basketball (1) (2); S. G. A. Treasurer (4); Exposition Committee (3).
Thesis—A Study of the Nitrogen in Protein Free Milk.

DAN M. SPOHN . . . . . *Goshen, Ind.*
Letters and Science
ΦΔΘ
Haresfoot, Show (1) (2), Club (2) (3) (4); Union Vaudeville Committee (4), Junior Play, Manager (3).
Thesis—Methods of Unfair Competition

TRUMAN RHOADES SPOONER . . . *Whitewater*
"ELI"
Commerce
Entered as a Junior from Whitewater Normal
Thesis—War Financing in England

FRED STADELBAUER . . . . *Munich, Germany*
Letters and Science
Acacia
Thesis—Economic Legislation in Germany in 1914–15 to Defeat England's Blockade During the War.

MARTHA ELLEN STANLEY . . . . *Alton, Ill.*
Home Economics
Castalia; Euthenics Club
Thesis—Heat Used in Cooking Meats

MILDRED BROWN STARR . . . . *Greeley, Colo.*
Normal Course
ΚΑΘ
Entered as a Junior from Colorado State Teachers' College; Red Domino.
Thesis—The Tragic Elements in Shakespeare's Comedies.

EDWIN RICHARD STAVRUM . . . . *La Crosse*
"EDDIE"
Letters and Science
ΒΘΠ
Star and Arrow; Captain Freshman Football (1); Football, "W" (2) (3) (4); Class President (4).
Thesis—History of the First United States Bank, 1791–1811.

MAYNARD JOSEPH STEERE . . *Kalispell, Mont.*
"STEERE"
Engineering
Civil Engineers Society President (4); All U. Club; President (3).
Thesis—Design of a Concrete Bridge

GLENN WILLIAM STEPHENS . . . . *Chicago*
"STEVE"
Law
ΦΑΔ
John B. Winslow Law Club (3); President of Law School Association (5); U. W. Circus (2).

STEPHEN DEWITT STEPHENS . . . . *Madison*

Wisconsin Magazine (4); Awk (3) (4); Student Conference (3); Athenae Semi-Public Debate (2); Forensic Board (4).
Thesis—History of Student Literary Thought in the University of Wisconsin.

VERNE L. STEPHENSON . . . *South Bend, Ind.*
Letters and Science
ΑΔΦ
Thesis—The Relation of Irving's Sketch Book to the Modern Short Story.

JOHN FRANK STEPHL . . . . . *La Crosse*
"STEFF"
Chemistry
Freshman Dec; Sophomore Semi-Public
Thesis—The Determination of Ammoniacal Nitrogen in Meat by the Folin Method.

MILTON CARL STEUBER . . . . . *Madison*
"MILT"
Engineering
Class Treasurer (3); Civil Engineering Society
Thesis—Performance of a Sixteen Inch Cranberry Marsh Pump with Various Alterations in the Impellor and Casing.

EDWIN K. STEUL . . . . . *Madison*
"ZEKE"
Agriculture
Thesis—Potato Scab and Potato Seed Treatment

LEIGHTON STEVENS . . . . . *Madison*
Letters and Science
Entered as a Junior from Western State Normal; Kalamazoo, Mich.
Thesis—Tennyson's Enid, A Comparison with the Story of Geraint.

CARLISLE E. STEVENSON . . . . . *Marinette*
"STEVE"
Music
Glee Club; University Orchestra (1) (2) (3) (4); Haresfoot (3) (4); Band (1) (2) (3) (4); Band Quartet (3) (4); Librarian Choral Union.

ALICE VICTORIA STEWART . . . *Metropolia, Ill*
Home Economics
Entered as a Senior from McKendree College; Blue Dragon, Euthenics Club.

BERNICE K. STEWART . . . . . *Madison*
"BUDDIE"
Letters and Science
Theta Sigma Phi, Treasurer (3), Vice President (4); W. A. A.; "W" (4); Cardinal (3) (4) Pythia.

PAUL REEVE STIMSON . . . . . *Appleton*
"STIM"
Engineering
Entered as a Sophomore from Lawrence College
Thesis—The Heat Treatment of Brasses

CYRENA STIRWALT . . . . . *Prairieton, Ind.*
"CY"
Letters and Science
ΑΦ
Entered as a Senior from DePauw University
Thesis—Cicero De Anima

MYRTLE HOLMES STOCKING . . *Lindenwood, Ill.*
Normal Course
ΑΧΩ
Entered as a Junior from Northern Illinois Normal
Thesis—Intelligence Tests on Defective Children

VICTOR M. STOLTS . . . . . *Sechlerville*
"VIC"
Law
Entered as a Junior from Carroll College

RALPH WILLIAM STONE . . . . . *Lancaster*
"BILL" "MIKE"
Agriculture
ΣΑΕ
Friars; Baseball (2) (3); Class Treasurer (1) Live Stock Club; Chairman Sophomore Dance Committee (2).
Thesis—A Comparison of the Values of Various Feeds for Beef Cattle.

ALBERT MILLER STORRS . . *Ft. Thomas, Ky.*
"AL"
Agriculture
ΣΝ
Thesis—Forage Crops for Swine

LOYD MABIE STRAND . . . . . *Madison*
Engineering
Entered as a Sophomore from Carroll College
Thesis—Induction Motor Control

PETER CARL STREHLOW . . . . . *Madison*
"PETE"
Agriculture
Alpha Zeta, Class Basketball (1) (2) (3); Inter-College Basketball (1) (2) (3); Band (1) (2) (3) (4).
Thesis—Breeding Records of University Swine Herd for 1915 and 1916.

ROBERT ROY STREHLOW . . . . . *Madison*
"BOB"
Law
Entered as a Junior from University of Omaha

LEOLA MAY STRICKLER . . . *New Ulm, Minn.*
"OLE"
Home Economics
Omicron Nu
Thesis—The Effect of Different Processes of Cooking on Digestibility of Starch.

CHARLES WHITEMAN STUART . . . . *Monroe*
"STEW" "CHUCK"
Engineering
ΧΦ
U. W. Engineer's Club; A. S. M. E.; Engineers' Minstrels.
Thesis—Efficiency Tests on a Chicago Pneumatic Tool Company 30 H. P. Oil Engine.

IMOGEN STURTEVANT . . . . . *Madison*
"JEAN"
Letters and Science
Thesis—Histology of Aquilegia Grandiflora Anemone Coronaria.

KAN SU . . . . . *Kwangsi, China*
Engineering
Entered as a Sophomore from Nanyang College; Chinese Students' Club, Vice President (4).
Thesis—Design of a Union Freight Terminal at Shanghai, China.

PHIL ROBERT SULLIVAN . . . . . *Iron River*
"SULLY"
Agriculture
Football (1) (2); Class Football (3)

BARNETT SURE . . . . . *Milwaukee*
Agriculture
Entered as a Sophomore from Milwaukee Normal
Thesis—The Significance of Amide Nitrogen in the Nitrogen Metaletism of the Plant.

BESSIE IRENE SUTHERLAND . . . *Eau Claire*
"BESS"
Letters and Science
ΑΓΔ
Castalia, Secretary (2), President (4); Asst. Prom Chairman of Refreshment Committee; Bowling (4).
Thesis—The Determination of Fat in Cream

LEAH ELIZABETH SUTHERLAND . . . *Madison*
Letters and Science
Entered as a Junior from Montana State Normal. Rocky Mountain Club.
Thesis—A Study of the Reliability of Individual Measure of Class Instruction.

MILO KENDELL SWANTON . . . . . *Madison*
"MIKE" "SMILO"
Letters and Science
Delta Sigma Rho; Cross Country (3); Track (2) (4); 1916 Badger Board; Student Conference (4); Athena Secretary (3), Vice-President (3), President (4); Junior Orator; Winner of Junior Ex.; Sem-Public Debate (2); Joint Debate (4); Forensic Board.

J. RODNEY SWETTING . . . . . *Berlin*
Engineering
A. S. M. E., Vice President (4)
Thesis—A Test of a Locomotive Headlight Turbine.

WALTER M. SWIETLIK . . . . . *Milwaukee*
"WALT"
Engineering
Entered as a Senior from Marquette University
Thesis—Design of a Steel Arch Bridge

JULIA CECIL SWORD . . . . *Mount Carroll, Ill.*
"JUL"
Letters and Science
Entered as a Junior from Frances Shinner School; Choral Union (3) (4); S. G. A. Board.
Thesis—Burns' Philosophy of Life

JAMES SYKORA . . . . . *Batavia, Ill.*
"JIM" "SY"
Agriculture
ΑΧΣ
Alpha Zeta; Forensic Board (4); Agricultural Literary Society, Vice President (3) (4), Treasurer (3); University Exposition (3).
Thesis—Role of Kaolin in the Counteraction of Plant Poisons.

HENRY WHITNEY TABOR . . *St. Ignatius, Mont.*
"HANK"
Engineering
ΣΧ
Entered as a Sophomore from the University of Montana; Freshman Basketball (2); Rocky Mountain Club (2) (3) (4).
Thesis—Performance of a 16" Auger Pump with Various Alterations of Impeller and Casing.

JENNIE TALBOT . . . . . *Berlin*
Letters and Science
Entered as a Junior from Ripon College; Baseball (3); Y. W. C. A.; Cabinet (2)
Thesis—Christmas Traditions

THOMAS P. TAMMEN . . . . . *Nakomis, Ill.*
"TOM"
Letters and Science
ΦΓΔ
Entered as a Junior from Illinois State Normal University.
Thesis—The Diplomatic Relations between the United States and Germany, 1870–1914.

JOHN WILLIAM TANGHE . . . . . *Milwaukee*
"JOHNNIE"
Engineering
C. E. Society; Exposition Committee (3); Manager Engineers' Minstrels (4).
Thesis—The Valuation of Buildings from the Assessor's Standpoint.

JOSEPH VINCENT TAYLOR . . . . *Marple, Neb.*
"JOE"
Medicine
ΦΒΠ
Entered as a Sophomore from the University of Nebraska; Sigma Sigma.
Thesis—Acid Acceleration of Liver Autolysis

MARGARET LINCOLN TAYLOR . . . . *Lancaster*
Home Economics
Entered as a Sophomore from Lawrence College; Achoth; Euthenics Club; Wahzheda Camp Fire.
Thesis—The Preservative Effect of the Various Ground Spices.

MELVIN HELMER TEIGE . . . . . *Marinette*
Agriculture
Student Conference (4); Country Life Club; Nora Samlag.
Thesis—The Effect of Maturity and Storage on the Viability of Seed Corn.

SIDNEY S. TELFER . . . . . *Ft. Atkinson*
"SID"
Middle Agriculture

ELSE TESCHNER . . . . . *Milwaukee*
Letters and Science
Entered as a Junior from German-American Teachers Seminary; Germanistische Gesellschaft.
Thesis—Character Development in the Modern German Novel.

RUTH MARIE THOMAS . . . . . *Chicago, Ill.*
"TOMMY"
Letters and Science
ΚΚΓ
Entered as a Junior from Rockford College; Hockey (3) (4); Varsity Hockey (3); Assistant Circulation Manager of Wisconsin Magazine; Clef Club (3) (4), President (4).
Thesis—Music and Musicians in Grillparzer's Life and Works.

EDMUND HARRY THOMPSON . . . . . *Blair*
Agriculture
Alpha Zeta
Thesis—The Relation of Maturity to the Germination of Seeds.

VICTOR E. THOMPSON . . . . . *Madison*
Letters and Science
Entered as a Junior from Stout Institute
Thesis—Scientific Management as Applied to the Teaching of Industrial Arts.

ADELE VICTORIA THURINGER . . . . *Madison*
"ADL"
Letters and Science
Thesis—Dorothea Dix: Her Work in Prison Reforms and as Superintendent of Federal Nurses during the Civil War.

HOWARD THWAITS . . . . . *Milwaukee*
"HAWKER"
Engineering
Triangle
Sophomore Football (2); Engineers' Football (4); Civil Engineers' Society
Thesis—A Consideration of Road Conditions and Construction in Milwaukee County.

JAY MILLER TIFFANY . . . *Aberdeen, S. Dak.*
"TIFF"
Letters and Science
Thesis—The Laundry Business in the United States

RUTH MURIEL TOMLINSON . . . . *Ashland*
Letters and Science
Entered as a Junior from Milwaukee Downer College
Thesis—The Return from the Dead, in Ballad, in Tale, in Drama and in General Tradition.

MIRIAM DOWNING TOMPKINS . . . *Wauwatosa*
Letters and Science
Entered as a Junior from Milwaukee Normal
Thesis—The Religious Conceptions of Mathew Arnold.

"JIM"
Agriculture
ΦΚΣ
Entered as a Junior from Hampden-Sidney College, Va.

HORACE WARNER TRUESDELL . . . . *Madison*
Agriculture
Thesis—The Effect of Phosphorous on Nitrogen Fixation.

YU-MEI ZHENTZU TSENG . *Haimen-Hsien, China*
"BILL" "YM"
Chemistry
Thesis—The Chemical Analysis of Silicon

FLORENCE NIGHTINGALE TURNER . . *Madison*
Home Economics
Euthenics Club, Treasurer (3) (4); W. A. A.; Hockey (1) (2); Bowling (1).
Thesis—A Study of the Use of Bacterial Pigments as Dyes.

GLENN PATTERSON TURNER . . . . *Madison*
Law
ΦΔΦ
Prosecuting Attorney for Student Court (4)
Thesis—Free Speech

WELLS EUGENE TURNER . . . . . *Wausau*
"TONCE"
Letters and Science
ΦΔΘ
Entered as a Junior from Beloit College
Thesis—Recent Development in Box Manufacturing

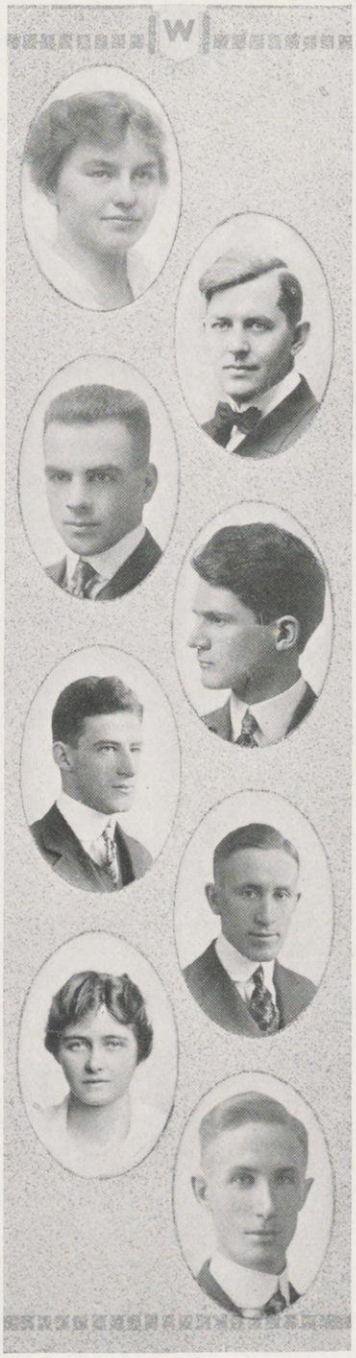
HARVEY A. UBER . . . . . *Milwaukee*
"WHISTLING CHARLIE"
Normal Course
Entered as a Junior from Milwaukee Normal; Orchestra (3) (4); Band (3) (4).
Thesis—River Terraces of the Wisconsin

STANTON UMBREIT . . . . . *Milwaukee*
"STAN"
Engineering
Tau Beta Pi
Thesis—The Stability of Iron-Silicon Alloys in Acid, Alkali, and Zinc Chloride Solutions

SAMUEL CRANE VAIL . . . . *Evanston, Ill.*
"SAM" "BIRD"
Letters and Science
ΨΥ
Skull and Crescent, Monastics, Haresfoot (3); Union Vodvil(4).
Thesis—The Economics of a Farm Tractor

HELEN S. VAN ARSDALE . . . . . *Racine*
"HELEN VAN"
Letters and Science
ΔΓ
Entered as a Junior from Wellesley College; Theta Sigma Phi; Swimming (3); Badger Board (3); Daily Cardinal (3); Black Bat.
Thesis—William Morris and the Germanic Sagas

HOWARD M. VAN AUKEN . . *Des Moines, Ia.*
"VAN"
Commerce
Commerce Club; Friar; University Circus (1); Wisconsin Pageant (1).
Thesis—A Survey of Retailing in Madison: Service Given by the Merchant.



MARGARET PATTERSON VAN DYKE . *Kilbourn*
"MADGE"
Letters and Science
ΠΒΦ
Entered as a Junior from Milwaukee Downer College
Thesis—The History of Kilbourn, Wisconsin

Freshman Traditions

Major Traditions

1. No freshman shall wear a derby or stiff hat except on Prom night. The prescribed green cap shall be worn in the fall between registration and November first and in the spring between Easter Sunday and the end of examinations.
2. Freshmen and sophomores shall not sit or lean on the gym fence.
3. No freshman shall be impertinent to an upperclassman.
4. Between the first of November and Easter every freshman shall wear on his coat lapel a small green button with a red center.

Minor Traditions

1. No freshman shall smoke on the university grounds except in the Wisconsin Union before May 1.
2. No freshman or sophomore shall wear corduroy trousers.
3. No freshman shall carry a cane unless physically disabled.
4. No freshman shall sit or loiter on the steps of any university building.

Coach Juneau

The Football Season

Cap't Elect Meyers

ON THE twentieth of September Coach Juneau called his men together for the first regular practice of the 1915 season. The Material looked promising. With such men of last year's team as Captain Buck, Smith, Stavrum, Cummings, Rau, Galvin, Kreuz, Gardner, and Mucks as a nucleus to build upon, the prospects for a victorious season were indeed very bright. The freshmen team of last year also yielded some excellent material, and in Simpson, Koch, Rosenberger, Gunderson, Pottinger, Craemers, Hancock, and Goethal the Badger coach had some men worthy of a good trial. In addition there were McCrory, Filtzer, Walsh, Berg, Weimar, Landry, Beyer, Meyers, George Simpson, Wenzel, and Beyers who were out to fight for positions on the eleven. The task of molding this wealth of material into a finished football machine was given to four men of well known ability, and in whom the students of Wisconsin had the utmost confidence. Besides Coach Juneau, who had charge of the entire squad, the Athletic Council had secured the services of "Keg" Driver, the old Wisconsin fullback, Tom Wilson, who starred at guard for Princeton and who was given charge of the Badger line, and "Butts" Butler, all-American tackle on our 1912 championship team.

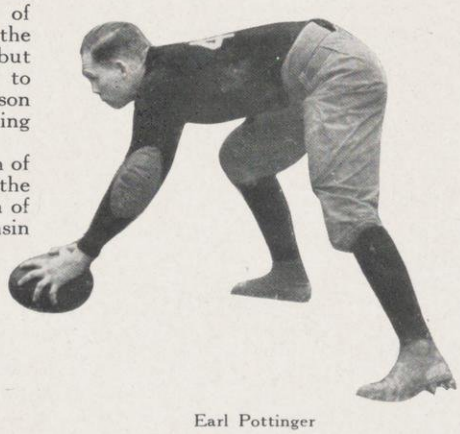
With but ten days in which to train the men before they were to meet the Lawrence team, the coaches drove them at a hard clip, holding practice twice a day until classes started. Aside from a weight reducer, the early work served the purpose of putting the men in fine shape for the coming week, and by the following Monday the coaches had two teams in scrimmage against each other.

The Lawrence College team had been in training for almost three weeks before its game with Wisconsin on October 2nd, and for that reason it was predicted that the game would be a close one. 13 to 0 was the best score that the critics could give to the Varsity. But the story after the game was vastly different, for the Badgers trounced the college men to the tune of 82 to 0. The game was really more of a track meet than a football contest, the Cardinal backfield scoring at will. The team showed itself able to handle the ball, did very little fumbling, used the forward pass exceptionally well, showed a good team work and a decided spirit of aggressiveness. The veterans indicated that they could still play football, and the rooters realized that in Captain Buck they had one of the greatest tackles that ever wore a Wisconsin uniform. Of the new men, Dow Beyers at half, Eber Simpson at quarter, and Paul Meyers at end played a fine game. If there were any scouts watching the game, these men must have given them a series of surprises by getting off some brilliant plays.

With a fair idea of the ability of their men, the coaches started to bolster up the weak spots in preparation for the Marquette game which was only a week off. The interference of the team was the thing with which Coach Juneau was not well pleased, and he quickly set about perfecting that branch of the team play. Shifts in the lineup were frequent during the next few days, for the coaches were making a number of experiments. The most notable of these was the placing of Beyers at the pivot position. He played it well, but after a few days it was decided to keep him at half, and retain Simpson at quarter where he had been doing some excellent playing.

Harry Rieger

The Marquette game on the ninth of October was a repetition of the Lawrence comedy with the addition of three more points to the Wisconsin score, the final count being 85 to 0. Although not much of a contest from the spectators point of view, the game showed a material improvement in the team. The interference was infinitely better, and there was far more drive and smoothness to the team work. The victory



Earl Pottinger

Jack Cummings

was won by the use of straight football alone, for the team didn't open up with a single play which it had not used the preceding week. The line held like a wall at all times, and frequently the forward men broke through to block Marquette's punts.

By this time the writers in the middle west were beginning to recognize that the Badger supporters were going to be favored with a good team. Minnesota and Illinois loomed up as class A material, and gave promise of giving the Cardinal squad a hard run for first money in the big games. As Chicago was barely able to gain a victory over Northwestern, she was generally conceded to be weak, but the early dope bucket was bound to have many upsets before the final games were called.

Captain Buck

With the two preliminary games out of the way, the team was pointed toward the contest with Purdue at Lafayette. The mid-week scrimmage, however, did not show any real class, and the student body did not hope for victory by more than a 14 to 0 score if they should be fortunate enough to get away with the long end of the count. Coach Smith of Purdue had set his heart on winning from Wisconsin, and he had not left a stone unturned in an attempt to down the Badgers. As it was the annual homecoming game for the Purdue alumni, the town was crowded with enthusiastic supporters of their team. Confidence reigned supreme at the Indiana institution, and that, together with the resemblance of a Mardi Gras decorated town, made the opening of the conference season an auspicious one for the Badger squad.

With a savage and fast attack the oval was brought down to the Badger's territory by the home team, and, before ten minutes had passed, Pultz had kicked the ball over the cross bar from the thirty yard line. This lead was not overcome until the second quarter, when a blocked kick by Hancock and his subsequent falling on the ball gave our boys a touchdown. This started the long looked for rally, and early in the second half we added another score. Dow Beyers was standing on his own twenty yard line when a Purdue kicker booted the ball into his waiting arms. He immediately made up his mind to enter the hall of fame headed by Pogue of Illinois and Russell of Chicago; so he started right down the field for eighty yards, scattering the Smithmen to the left and right of him. This ended the scoring for the time being. The Purdue team opened up after this with a vengeance, and by a series of Zepplin attacks they fairly took the Badgers off their feet. After some brilliant forward passing, the ball was placed on the Wisconsin five yard line, and things looked rather gloomy for the Cardinal. But, put to the supreme test, the forward wall was able to hold its own, and the ball went to Wisconsin on her own three yard line. The Boilermakers had made their last stand and lost, and now they were rapidly weakening. The initial signal of this came in the first minutes of the last quarter, when Dow Beyers took the ball, and raced thirty yards throughthe entire Purdue team for another score. Simpson then returned the kickoff, a distance of sixty yards, putting the ball in play on the Purdue twenty-five yard line. Two hurriedly executed forward passes gave the ball to Craemer across the opponent's goal, and the scorers added another seven points to the total score of Bill Juneau's team. This ended the game, and the Badgers left town with a 28 to 3 victory tucked under their belts.

Toppy Rau

The game showed good offensive work, and also taught the linemen some tricks in holding a heavy line at bay on their own five yard line. While the Badgers were downing the Boilermakers, the Ohio State team was holding the fast Illinois aggregation to a 3 to 3 tie. As a result of this, Ohio State realized that if they could win from the Badgers, they would have every chance in the world of going

Borge Gunderson

Glenn Taylor

through the remainder of their schedule without a blemish. Coach Juneau also felt that his team was facing probably the most critical point of the year, and he was prepared to fight hard for a victory. Coached by an old Wisconsin star, Jack Wilce, who knew our defense and our weaknesses, the Buckeyes ran on the field with a confidence and aggressiveness that promised to give the husky Badgers a merry tussle before they were through with the afternoon's work.

About 8000 fans gathered to see the game, and not one of them left without a feeling that he had received his money's worth to the last penny, for never in the last few years has there been a game with such a variety of good thrillers. The first half was replete with good ground gaining and forwarding passing. Twice the Badger backs worked the ball down to the one yard line, only to meet with strong opposition. The Buckeye line would hold like a stone wall, repulsing the fierce onslaughts of the Badgers and throwing them for losses. In this half it was Cub Buck who kept the Ohioans at bay, for he soon solved their plays and plugged the holes as fast as they were made. The second half was fairly well started when Dow Beyers took the pigskin on his own twenty yard line, and, with the aid of splendid interference, skirted the end for the first touchdown of the game. From this time on there was a renewed vigor in the attack, and with a determined look in their eyes, the Cardinal jerseyed men went after their opponents in hot fashion. The first thing to happen was a thirty yard run for a touchdown by Beyers, in which he wriggled his way through the whole Ohio team, and crossed the south goal line. A third touchdown came when Dow stood on Ohio's sixteen yard line, and shot a neat forward pass over the goal line into the waiting hands of Eddie Stavrum. After the game had reached this point, the coaches rained in substitutes, and no further scoring was done during the afternoon.

Dow Byers

The Badgers had shown themselves to be past masters of the air line game, for it was by use of the forward pass that they were able to penetrate the Ohio defense. The Maroon scouts who watched the team perform, must surely have gone home with a wonderful tale, for Alonzo Stagg put his men through a very hard week of work in preparation for the coming clash on Stagg Field. But Coach Juneau didn't stop here With the three big teams of the conference ahead of him, the Badger mentor started after the championship flag with a vengeance. The men were put through some hard scrimmages, and the rough spots were gone over. The concensus of opinion in the middle-west was that the Maroons were at last due for a drubbing on their own field. To see the Madison team go through their daily workouts at Camp Randall, one could not help thinking the same, for the men worked like Trojans to get in the best possible condition. When the eventful day arrived, it appeared as though the whole University must migrate, for fully 3000 people left for the Windy City to see their pets in action. Very few people predicted anything but a Wisconsin victory, and the betting was almost all in favor of the Juneau squad.

Upwards of 26,000 people witnessed this struggle, which will go down in football annals as one of the hardest fought games ever played on the historic Stagg field. A perfect day met the men as they appeared on the gridiron, with the possibility that it was a trifle too warm for excellent football. A few minutes after the kick-off, Pete Russell, the speedy Chicago captain, fumbled a punt, and Cub Buck picked it up and raced for the Maroon goal posts. He got within a yard of it before he was stopped by Kitty Gordon, but on the next two plays Lyn Smith put the ball across the last chalk line for the first score of the afternoon. It was then that the Midway men started to fight. They plunged through our line as though it were made of paper, and it seemed as if the Badger forward wall would crumble every minute. Cub Buck's position was the only impregnable spot in the defense. His efforts alone saved us in the first half, but a fumbled ball paved the way for a Chicago touchdown. Spurred on by the great work of their captain, the Badgers went after the Maroons with a vengeance, for by sheer bucking of the line they brought the ball down to the shadow of the uprights, and Smith went over for another touchdown. Then came the fatal moment

Ray McCrory

Manager Stang

Lyn Smith

in the history of the 1915 season, for Simpson missed the goal which, as we shall see later, meant a defeat or a tie game with the Maroons.

The second half opened up with a 13 to 7 score in favor of our invaders, but the Maroons were playing a stellar game and it was obvious that the wiley wizard of the Midway would uncork some tricks on the Badger team. Fighting madly for another score, the team answered the Varsity Toast and marched down the field to the Maroon's two yard line. With one more down to go, Smith fumbled the ball, a misplay that lost a last chance to score, for after that it was all Chicago. A series of exchanges brought the ball to the center of the field. A punt fumbled by a Wisconsin back on his own eleven yard line gave the Maroons the chance they wanted, and on the next play Pete Russell struggled through the line for a touchdown. Spike Shull kicked the ball through the uprights for the winning point of the game. From this time on the predominant figure was Buck; he was here, there, and everywhere.

Eddie Stavrum

Against the wits of Stagg were pitted those of Buck and the sheer weight of eleven men against him made the Badger captain go down in defeat. But in the sting of this loss is the recognition of the wonderful piece of fighting that the big tackle did, and his name will be on the lips of many who saw that game long after the score of it has been forgotten. Beyers was completely smothered, and it seemed as though the wonderful interference he had had just a week before had vanished into the unknown and dismal nowhere.

It was a bitter defeat, but the rooters stayed by the team in grand style and a series of "pep sessions" livened things up at Camp Randall. A new line was whipped into shape, and the team looked new when it appeared for scrimmage. Byers and Smith were both injured the Tuesday following the Chicago game, so a new backfield combination had to be worked up. Like a burst out of a clear sky came the revealing of professionalism among stars of the Big Nine. Solon, the Minnesota captain and star, was declared out of the game, and we ourselves were hard hit when Galvin, who was a regular at fullback, resigned because of talk concerning his amateur standing. Mystery surrounded the team, and it was not known just what was to take place at Illinois. Kreuz was again rounding into shape and the coaches were whipping some new men into form for the backfield positions, while George Simpson, Filtzer, and Wenzel were being groomed to take the places of some of the deposed lone men.

The Illinois invasion was made with a feeling of defeat on the part of most people, but the team was going to make a desperate stand. Both teams scored the first quarter by way of a place kick,—Eber Simpson dropping the ball over the bar for the Badgers. The Badgers played their opponents even all through the first quarter, but in the second period the Illini opened up with a varied attack, and the fleet little pilot, Potsy Clark, bolted through the center of the team for a touchdown. This swayed the tide of battle, and the hopes of the Cardinal eleven for a victory were over. The team was on the defensive from this time until the end. Illinois' advantage was followed up by a long forward pass in the third quarter, and after a few plunges through the center of our line the ball was again placed over the Wisconsin goal. A game rally was tried by the Badgers in the fourth quarter, but there was only a faint ray of hope that it could possibly bear fruit. Paul Meyers showed himself to be an expert at handling the forward passes, and his catching featured the last period. McCrory and Taylor, two recruits, made their first real debut into the limelight, and during the second half they made things pretty interesting for the Suckers. But in spite of a plucky fight, we were obliged to go home with a 17 to 3 defeat staring us in the face.

Ass't Mgr. Macfadden

Could Wisconsin come back as she had done in the past when defeat was certain? This question was asked by every loyal follower of the team, and was the one to be answered the following Saturday at the annual Homecoming Game with Minnesota. A torch-light parade and monster mass-meeting on Friday night showed the team that the good old Wisconsin spirit was still there to support them.

Just the right kind of weather was on hand to greet the 18,000 people who crowded Camp Randall on the afternoon of November 20th. Shortly after

Eber Simpson

George Simpson

the opening whistle, the Badgers repeated their performance of the last two years by scoring three points; Eber Simpson brought cheers from the bleachers by booting a pretty place kick between the bars. The first quarter was about evenly divided, but in the second the hard runs by Bierman began to tell, and the Badgers had to fight hard to keep the Gophers away from their goal.

A few minutes after the beginning of this period, as Minnesota was preparing to go into her famous shift, a cracking sound was heard on the north side of the field, and a minute later three hundred feet of bleachers gave way under their heavy load of rooters. By a stroke of good fortune, serious injuries were remarkably few, although many slight sprains and minor bruises were reported. The panic which resulted was soon quieted, and within fifteen minutes after the accident the game was resumed.

Minnesota quickly worked the ball down to the Badger's two yard line where, by a wonderful defense, the team held fast and took the ball from its opponents. The punt-out was a short one, however, and the Gophers recovered on our ten yard line, Bierman going over the line a minute later for the first touchdown of the game. The Badgers fought fiercly against the onslaughts of the Northmen, but they were unable to stave off the heavy attacks.

Moose Gardner

In the third quarter the Minnesota team again worked its way up the field, broke through the Cardinal's secondary defense, and placed the ball safely behind the goal posts. One more score came in the last quarter when the speedy captain of William's squad tore loose for a touchdown, thus giving his team a total of 21 points. This ended the scoring, and the Badgers had once more fallen in defeat before the mighty team from the north; but not a Wisconsin man left the field that day without great respect for the team that wore the Cardinal. They fought as only Wisconsin men can fight when they are called upon to do their best.

Taken as a whole the season is considered one of the most unfortunate that Wisconsin has had for many years. At the start of the season we were favored with some of the best material that has ever graced the Camp, but through one reason or another it failed to produce. The one shining light throughout the season was Captain Buck. It was Buck who stopped the attacks of the opposing elevens when they appeared to beat our team down; it was Buck who started the rallies that meant gains and points. Several touchdowns in the early games were made by Cub himself when he broke through and picked up blocked punts. And as a reward for his great playing, he was placed on all the Western honor teams and on many of the all-American elevens. We all regret that Cub was chosen for the second rather than the first all-American team picked by Walter Camp, but this was no doubt due to the poor showing the Badgers made in their most important games.

At the close of the football season came an outburst from those critics who saw in the coach the reason for the team's poor showing. Bill Juneau has always done his level best for his Alma Mater; his failure to turn out a winning team has not been through lack of personal endeavor or conscientious application as coach. Wisconsin may be sure that he gave all he had. In the face of this criticism, he tendered his resignation at the same time offering to do all he could toward the solution of the athletic problem. When the team is called together next fall, they will be under the direction of Paul Withington, formerly assistant coach at Harvard. We welcome Dr. Withington to Wisconsin, and wish him all success possible.

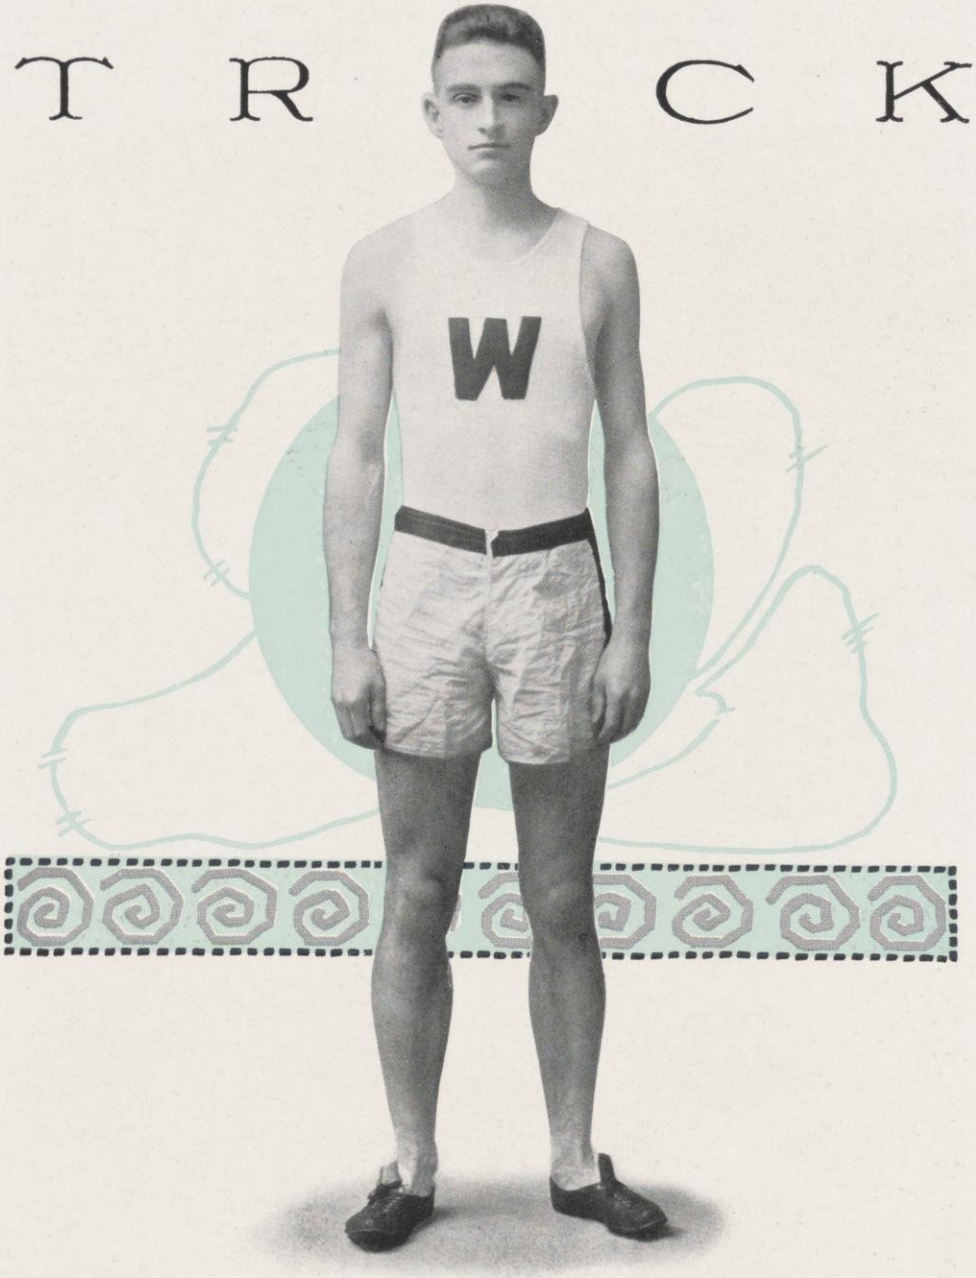
The Famous Shift

TRACK



The Track Season

Coach Jones

Captain Hedges

IMMEDIATELY after the close of the indoor season, Coach Jones' track team took up strenuous training at Camp Randall. Although the prospects did not point to a championship because of the mediocre showing the team made in the indoor conference meet, the Badger coach, with his usual honest endeavor to build up a winning aggregation, started at the outset to redeem the honors lost indoors.

When Bob Hedges called his team together for outdoor work at Easter time, he had a good nucleus of star performers around which the coach might mold his coming champs. As for middle distance men, the team was well fortified with the veterans Hedges, Harvey, Benish, Goldie, and Merrill, and the able recruit Arlie Schardt. Although Ray Williams was the only W man in the quarter mile event, he soon found able assistance in the persons of Mathews and Smith. In the development of Al Booth, Red Casey and Carmen Smith as men of ten second ability in the hundred, the Badger mentor overcame one of the biggest difficulties with which he was forced to cope. In accomplishing this task, he also supplied stars to win points in the two-twenty and the mile relay. In the weights, the only last year's man to compete was Tubby Keeler; but with the world renowned Arlie Mucks, and big Moose Gardner, the Cardinal team found a combination of weight heavers which later proved invaluable material. There was a decided lack of old material in the jumps, but there was plenty of young blood to step up for instructions. The newcomers were Spike Huston, Phil Stiles, Van Auken, and Les Nelson. They were all men of no mean ability, and as a result, they succeeded in garnering many points for the team before the termination of the season. The outlook in the hurdles was at first dubious, but after no little trouble on the part of the coach, he succeeded in presenting a formidable triumvirate to meet the occasion in the persons of Mead Burke, Spike Huston and Don Dixon. It was this array of talented men, aided by a few others, which was destined to develop into one of the greatest teams Wisconsin ever sent to a Big Nine meet.

Wisconsin's four mile relay team made a very creditable showing in the two April meets in which they were entered. In the Drake games the men succeeded in establishing a new record for the classic, and carried off the honors with ease. The following week they journied to Philadelphia for participation in the famous Penn meet. Here the team finished a very close third, giving Michigan a good fight throughout the entire four miles. Of the four that composed this team, only one, Bob Hedges was lost by graduation. With Harvey, Merrill and Schardt to compete this season, we should look for some fine performances in the distance runs.

On May first the Track team traveled to LaFayette, where they were scheduled to open the season with a meet against Purdue. They went into the meet favorites, and fulfilled all expectations by piling up a score of 84 to the opponents' 42. Dow Harvey broke into the limelight in this meet by stepping the half mile in 1:55–3/5. This was not only the fastest time made up to

Cap't Elect Harvey

Tubby Keeler

Arlie Mucks

Speed Williams

that point last season, but it also set a new Wisconsin record. Speedy Al Booth easily captured the hundred and two twenty yard dashes, and Barney Knudsen took second in both events. Led by Arlie Mucks, the Badger weight men took nine points in the shot, while Arlie also tossed the discus for a win. Mead Burke foiled the Boilermaker hurdlers by winning both races in fast time. Nelson won the high jump, while Phil Stiles easily outleaped all competitors in the broad jump. The pole vault went to Huston, and George Benish capped the climax by taking a well earned victory in the two mile grind.

Encouraged by the victory over Purdue, Wisconsin went down to Champaign determined to keep its slate clear of defeats. Although all pre-meet dope was against us, the team managed to upset all calculations and to come out on the long end of the score. Al Booth, as before, started the scoring by taking the hundred and two twenty, both in record time. Dow Harvey, not to be outdone by his teammate, led Schardt and Merrill across the mark by negotiating the distance in 4:23. After a brief rest the plucky Badger came back, winning the half mile in the fast time of 1:57–2/5. These races branded the fleet little runner as a big contender for first honors in either race at the coming conference meet. Arlie Mucks gained the distinction of being individual point winner of the day by placing first in the shot, discus and hammer. He put the shot 47 feet 3 inches, thereby setting a new conference record, which, however, could not stand as it was not made in a Big Nine meet. Ray Williams then scored another first by taking the quarter mile in 50-4/5 seconds. The Illinois men took all three places in both hurdle events. The pole vault ended in a tie between the Wisconsin vaulter Huston and the Illinois captain, Schobinger. In the high jump, Phil Stiles and Parker of Illinois divided the honors, both clearing the bar at 5 feet 11 inches. Phil Stiles smashed all conference records when he jumped 24 feet 11-1/2 inches in the broad jump. This jump stands as the western record for last year. The famous Mike Mason of the Illinois team also established a record when he broke the tape ahead of his strong competitors Benish and Hedges. Both Wisconsin men completed the distance within the old record time. The final score of the meet was 71 to 55, in Wisconsin's favor.

Billy Goldie

As a result of this meet, Wisconsin's cinder team was the slight favorite for Western honors. The outlook became even brighter the next week, when our aggregation met and defeated Minnesota by over 80 points. In this one-sided contest, the Badgers made a clean sweep of every event with the exception of the two mile. The meet served as a very good work-out for the big competition which was now only two weeks away.

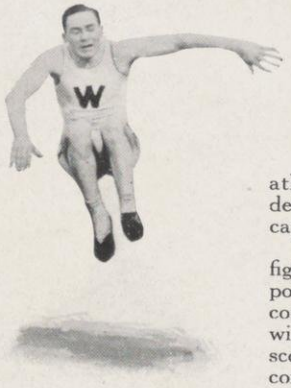
As Chicago had won their dual meet with Illinois, the Maroons, as well as the Badgers, had completed the season with a clean slate. So it is little wonder that these two teams went to Urbana ruling strong favorites among the many schools fighting for supremacy.

Baldy Merrill

Moose Gardner

Tom Casey

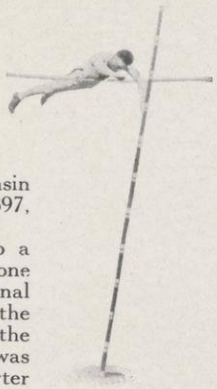
Wisconsin Wins a Championship



Phil Stiles

It was the opinion of all those who witnessed the track and field meet of the Intercollegiate Conference Athletic Association, held on June fourth and fifth, 1915, at Urbana, Illinois, that it will go down in history as one of the best organized and most efficiently handled affairs ever held in Western collegiate circles. Here, on the athletic grounds of the University of Illinois, Wisconsin defeated the field, and, for the first time since 1897, came away with the champsionship track honors.

The battle royal for first place developed into a fight between Wisconsin and Chicago. Only one point separated the two schools at the finish, the final count being 38 to 37. Not until the last event was the winner decided, for when the relay was announced the score stood Wisconsin 35, Chicago 32. Chicago was conceded first place on her quartet of stellar quarter milers, but the Badgers, by defeating all other competitors, finished in second place, thereby winning the meet by a single point.



Herb Taylor

Many records were smashed in the desperate fight for points. Francis Ward of Chicago tied both dash records. As a result of a third and fourth won by Smith and Casey in the century, and a second taken by Booth in the furlong, Wisconsin, however, lost but little ground in these events despite the success of the Maroon runner. Dismond of Chicago and Ray Williams finished first and second respectively in a fast quarter mile. The negro, who had been a strong favorite, lived up to his reputation by covering the distance in 49–1/5 seconds. The mile was by far the most interesting race of the afternoon. Meyers of De Pauw proved himself the dark-horse of the meet by defeating Harvey; and by travelling the circuit in the exceptional time of 4:19–1/5, he bettered Baker's record of 4:20–4/5 in 1910. Harvey, however, finished a close second and Schardt took third. The conference record was also broken in the two mile when Mason of Illinois beat Watson of Minnesota by running at a 9:33–2/5 clip. George Benish and Billy Goldie took third and fourth respectively in this race.

On the field, the Badger team fared excellently. It was here that Arlie Mucks clinched the individual honors, thereby doing more than his share towards placing Wisconsin first in the point list. In the discus, he took the blue ribbon with a toss of 137 feet. He also captured the shot put, leading Moose Gardner by a safe distance. Added to these he took a third in the hammer, giving him the honors for the day. It was generally thought that Arlie's failure to smash any weight records was due to the hot, oppressive weather conditions under which he was forced to labor. The sun, however, did not affect Phil Stiles, for he set up a new conference record for Wisconsin, by leaping 23 feet 9–3/4 inches in the broad jump. Wisconsin did not score in the pole vault, high jump or hurdle races. In the latter two events, George Simpson, of Missouri, set new conference records.

Arlie Schardt

Les Nelson Spike Huston Lyn Smith

Al Booth

Carmen Smith

Mead Burke

George Benish

Due praise must be given to the men, who, fighting against many odds, came through with a victory for Wisconsin. Although there were but few Madison students present to lend encouragement to our team, the plucky work of our men won over the sympathies of the big crowd. During the final relay the stands rang with cheers for Wisconsin and the clear strong tones of the Varsity Toast echoes across the field. To Tom Jones and to the 1915 Track Team should be given the well earned credit for the biggest Cardinal victory of the year.

This memorable meet ended the college careers of several members of the team, but others, by continuous training, won high honors in mid-summer meets, thus giving Wisconsin a still more prominent position in the Hall of Fame.

It took but four Badgers to place Wisconsin third in the annual meet held under the auspices of the Central Amateur Athletic Union. Arlie Mucks set records in both the shot put and the discus throw, while Ray Williams took third in the 440, and Red Casey scored a fourth in the hundred yard dash. In the meantime, Phil Stiles raised our total number of points to 18 by outdoing his many rivals in the broad jump.

After qualifying for the chance to compete in the big San Francisco National Championship games, Arlie Mucks and Phil Stiles journeyed to the coast for their final meet of the season. On August 7, 1915, in the big stadium at San Francisco, the efforts of these two men placed Wisconsin seventh out of a field of twenty-five excellent teams. Mucks was easily the star of the meet, winning both the shot put and the discus, with throws which placed him on all the honor teams in the country in both events. Stiles boosted Wisconsin's total to eleven by taking a fourth place in the broad jump. His failure to win the event was due to the injury of his ankle, a mishap which had befallen him only a week before.

The 1915 Track season was one of the most successful ever experienced at Wisconsin, for our team was victorious in every big meet. The men of the team possessed ability, they were clean plucky fighters, and they had a coach who demanded, encouraged and received the best they could give him. There is every reason to believe that this status will exist throughout the coming season, and that 1916 will see another Track championship chalked up for our Cardinal athletes.

Coach Lee

Cross Country Season

WITH four members of the 1914 team as a nucleus and with several other experienced track men out for the long run, the prospects for a strong 1915 Cross Country team seemed exceptionally bright to Coaches Lee and Jones. Minnesota's championship team, however, was still intact, and with the Illinois team also looking to be nearly as strong, the prospects of the championship coming to Wisconsin, were slim.

Although the early season time trials were encouraging, the real capabilities of the men were not brought out until the dual meet with Minnesota at Minneapolis. Despite the handicap of an unfamiliar course, the Wisconsin men ran away from the Gophers, defeating them decisively, and immediately became the favorites for the conference honors which were to be decided here but three weeks later.

At this point when the chances for a championship seemed the brightest, Captain Billy Goldie was declared ineligible, having participated an extra year on the track team in violation of the three year rule. The championship hopes of the coaches and team were indeed lowered by this action, but in the end it served as an impetus to put a stronger fighting spirit into the Wisconsin runners. At the meeting of the team members on the night after the announcement was made, every man resolved to work a little harder and exert every effort toward filling the place higher up to which he had succeeded.

The result of this united team action was seen when the well balanced Wisconsin quintet, composed of Felton, Benish, Merrill, Golden and Lawson, finished the best in the conference race, held here on Nov. 20. Although Watson of Minnesota and Mason of Illinois finished first and second respectively, the Badger men, with Schardt in the lead, followed so closely behind, that the meet and the championship, the fifth one of its kind in six years, came to Wisconsin.

It is difficult to pick any stars in the Wisconsin team, but Demmer Golden is especially deserving of praise, for he took Goldie's place when the latter was declared ineligible and with almost no previous experience, ran one of the best races ever put up by a Wisconsin Sophomore.

Next year, with Captain-elect Schardt, the veterans, Felton, Golden and Lawson, and an abundance of promising new material, there appears to be no reason whatever that Coach Lee, recognized as the best cross country coach in the conference, should not bring home to Wisconsin another championship team.

BASE BALL

The Baseball Season

WHEN the first call for candidates for the 1915 Baseball team was sounded, eight "W" men and a likely looking aggregation of new material reported in the Gym Annex. From the start it was evident that keen competition would characterize the fight for positions on the team. Captain Herzog, Roach, Boulware, Jewett, Slaby, Moon and Machotka—"W" men from the previous season—set about to hold down their old positions. George Levis proved an immediate find at third base, while Pederson gave promise of becoming a mainstay in the infield. The back-stop position was well taken care of by Paul Roach, and a pitching staff composed of Sackerson, Galvin, Moon and Neupert, bid fair to rank with the best in the Conference. Boulware and Jewett were the best bets for the outfield positions, the competition for the open berth narrowed down to a duel between Leubchow and Ray Bill.

Taken all in all, it was rather promising material that greeted Coach "Slim" Lewis, when he put in his appearance on the first of March. Under the able direction of that popular mentor, practice took on a very definite form, and by the time the squad got out-of-doors, "Slim" had a formidable machine at work. A week's practice on the diamond put the boys in fair condition for the spring trip, in spite of the slippery field and the low temperature. On April third, the Badger team started its annual spring training trip, and in short order defeated both Northwestern College of Naperville, Ill., and Armour Institute of Chicago. On the final day of their trip, however, they were nosed out in a ten inning game with Notre Dame, the final score being 3 to 2. Then followed rapidly a few preliminary games at home, in which Northwestern of Watertown was defeated twice and Beloit College was snowed under a 19 to 0 score. The team was going good at this time, and hopes for a victory over Chicago in the first Conference game of the season were running high. But inability to safely connect with the subtle curves of the mighty Des Jardien proved the undoing of the Badgers, and the team returned from Chicago on the wrong end of a 3 to 0 score. Two days later, Beloit College got revenge for their 19 to 0 defeat at the hands of Wisconsin, when they trounced Wisconsin by a score of 4 to 2, in a game played at Beloit.

Coach Lewis

The home season opened on April 26 and the team that made its debut against Ohio State on this occasion was a different one from the team that had played in the previous games. A fighting spirit and an abundance of "pep" had been instilled in the men, and before the eyes of "Prexy", Governor Phillip and other high officials of the State, and a loyal crowd of Wisconsin fans, the Badgers proceeded to maul the Buckeyes to the tune of 14 to 1, in an eight inning game. In this game, Sackerson let the Ohio team down with two scratch hits while Bill, Levis, Boulware and Pederson were pounding the ball to all corners of the lot and tiring themselves out running around the bases. On the following day, the team left for what looked like a critical series, for it was to invade Indiana and Purdue,

Captain Herzog

Captain Elect Boulware

Malc Galvin

teams that were looked upon as the dark-horses of the Conference. Playing errorless ball, and with Moon twirling in mid-season form, the Badgers defeated Indiana by a 4 to 2 score. The next day, with Sackerson in the box, Wisconsin whitewashed Purdue 5 to 0, the Boilermakers being able to secure but two scratch hits.

Shortly after this successful trip, Indiana was again defeated on the home grounds, due to the hard hitting of Ray Bill and "Shorty" Slaby. Wisconsin and Illinois were now tied in the race for first place. Illinois was scheduled to make her annual visit to Madison a few days after the Indiana game, and hopes were running high for a Badger victory. But "Red" Gunkle, Wisconsin's old hoodoo, was too much for Coach Lewis's men, and the Badgers were forced to accept defeat. There was still a fighting chance, however, and the following week, the team journeyed to Evanston where they played a tie game with the crack Northwestern nine. But in the next game, Wisconsin's hopes for a championship went glimmering, for "Red" Gunkle of Illinois again hung the Indian sign on the Badgers. Herzog, Roach and Boulware brought the Wisconsin team up to within striking distance of victory, but a belated ninth inning rally by Coach George Huff's men gave Illinois the game.

Windy Levis

The chances for the pennant were now gone, but Herzog and his men started after a place near the top of the ladder. The next game was at Madison, and Pat Page's aspiring Maroons were Wisconsin's opponents. Galvin, the big fullback, showed his calibre in this game when he not only twirled a good game, but brought victory to the Badgers with a timely three bagger which put Wisconsin on the long end of a 5 to 3 score. This was the last appearance of the old Badger rival, "Shorty" Des Jardien, and he was compelled once more to accept defeat at the hands of Wisconsin. In the final games of the Badger schedule, Minnesota was defeated twice by Wisconsin. Heavy hitting on the part of Bill and Pederson, and good pitching by Herb Moon gave Wisconsin a ten inning victory in the game at Madison, while the superb twirling of Galvin netted victory at Minneapolis. "Malc" held the Gophers to seven scattered hits, while Levis and Jewett brought up the score with timely three baggers.

At the end of the season, it was found that the Illinois team had captured first place with Wisconsin second on the list. Coach Huff, of the Suckers, declared that the team representing Illinois in 1915 was the best he had ever developed, a statement that gives a great deal of credit to the Badgers for their good fight. Although Wisconsin will be without the services of Captain Herzog, Catcher Roach, Pitchers Galvin and Sackerson and Outfielder Jewett, there are a number of "W" men remaining who will form the nucleus of the 1916 team. With a large number of substitutes and last year's freshmen, Coach Lewis should be able to develop a team that will afford stiff competition to the other teams of the Conference.

Paul Roach

Prospects for the 1916 Season

(April 5, 1916)

Practice started in the annex with the beginning of the second semester. Coach "Slim" Lewis arrived during the first week, and under his able direction the work-outs became fast and spirited.

The old men from last year's squad who were eligible and reported for practice in February were

Herb Moon

Ray Bill

Captain Boulware, Moon, Levis, Slaby, Pederson, Connelly, Brady, and Kloser. Quite a squad of promising new material came out, notable among whom were Kuehn, Gavin, and Fox for the catching end; Eber Simpson for the first base job; Brennan, Barger, and Wanzer for the infield; Cusick, McCrory, Brann, and Beckwith for the pitching staff; and Riese, Ross, and McDonald for the outer gardens.

The greatest problem that the coaches had to face was the development of battery material. There was no catching material that promised to develop into such backstops as Ruehl and Roach had been. Kuehn and Kloser are good men and are working hard. The former, due to his pegging ability, will probably be used in most of the games if he can overcome the handicap of his comparative inexperience. Moon, who in his two years on the Varsity has proven himself a heady twirler with good speed and benders, will be the mainstay on the mound. McCrory, Brann, and Beckwith are all showing good stuff at present and should be able to bear a great part of the pitching grind. At first base, Connelly and Eber Simpson are having a spirited race for the Varsity job. Connelly played in a couple of games last year, while Simpson is a new man on the list. The latter, however, seems to have the edge on his rival, both in fielding and batting and will probably be a fixture at first. Brady of last year's squad and Brennan, a new man, are making strong bids for infield jobs, although they will have no little difficulty in ousting the regulars of last year,—Levis, Pederson, and Slaby,—from their positions. In the outfield there are two vacancies to be filled. Captain Boulware will probably be retained in center. It now looks as though Ross would play left, and McDonald or Riese would occupy the other garden berth.

Pete Pederson

Twenty-three games are already scheduled for the season, and with the return of Minnesota to the ranks, one or possibly two games may be played with the Gophers. The Badgers will meet Notre Dame for two games, Armour Institute, Chicago Y. M. C. A., and Campion College for one each. The subsequent schedule includes the conference games, two more contests with Notre Dame, and practice games with Beloit and Northwestern at Watertown.

Illinois, who is always a strong contender for conference honors, seems to have the best chance of picking off the pennant this spring. She has a good coach, good material, and a splendid southern trip scheduled. Chicago, with her eight months trip to Japan, has a well seasoned team and should land well up in the running. The best bet for Wisconsin, judging by what the dopesters say, is third place. But let us hope that "Slim" has some surprises to spring that will upset the dope and land us on top.

BASKET BALL

The Basketball Season

Coach Meanwell

SOON after the opening of the fall term, Dr. Meanwell issued a call for basketball men, and two days later the prospective material for our varsity team was in action on the armory floor. While everything pointed to a fairly good team, few predicted that Doc Meanwell and his able assistant, Captain Mel Hass, would succeed in producing a championship combination.

During the football season the basket tossers were completely over-shadowed by the excitement wrought up by the gridiron artists. But Hass, Levis, Morris, Olsen, Thomas, Chandler, Carlson, McIntosh, Carrol, Wanzer, Casey, and Hoppert, all men of no mean ability, were attending practice faithfully three and four times a week. As Doc Meanwell's famous short passing game is a very difficult style of play to master, the men spent much time in learning to play the fine points in a machine like manner.

With the addition of three good men at the close of the football season, the squad was complete. Smith, a last year's man, Meyers, the 1916 football captain, and Eber Simpson, the varsity quarter back, were the late-comers. These men quickly acquainted themselves with Wisconsin's style of play, and two weeks after the Minnesota football game, the Badger mentor had his machine primed for the first pre-liminary game.

The Beloit game, from which the Cardinal boys easily emerged victors, gave the Badger rooters the first glimpse of their team. A week later the Lawrence five was defeated to the tune of 46 to 11. With one exception, the men who started these games held their positions throughout the season. Morris, a guard of excellent ability, was later obliged to give way to the veteran Smith, who demonstrated remarkable talent in guarding under the opponent's basket.

The team was called back a week before the termination of the Christmas recess to take a training trip of four days. By means of stellar playing in all departments, they won the six scheduled games in easy fashion. The only difficulty encountered was with the Milwaukee Normal alumni team, which held our boys to a 24 to 18 score. By defeating Wabash a few days later, the team finished the preliminary season with a clean slate.

The conference season opened with a trip which was to include games with Purdue and Iowa. Doc Meanwell was rather skeptical as to the outcome of these games, but he made the assertion that if the team came home victors, he felt certain that Wisconsin would possess the coveted pennant in the end. The Boilermakers, although touted as strong contenders for the gonfalon, were completely baffled by the short pass game, and the Wisconsin boys left for Iowa City with a 33 to 17 victory under their belts. The Iowa quintette afforded our team more competition by tying the score just as the finish gun sounded. In the five minute over time period, however, George Levis scored five points, thus giving us the game with a 36 to 31 score.

As a result of the interest stimulated by these victories, the home fans were now very anxious to see the team in action against a Big Nine school; so when the local season opened with Minnesota on January 15, a large and enthusiastic crowd was on hand to see the scrap. The first half, which

Captain Hass

Windy Levis

Lyn Smith

was full of hair-raising plays, ended with the Mill City boys one point in the lead. But in a true comeback style, the Hass clan took a wonderful brace, and soon rolled up a score which was far beyond the reach of the visitors. The final score was 31 to 11. Chandler, the star soph center, caged seven baskets besides playing a star game at the pivot position. The big Purple team from Evanston was next to invade our stronghold. This conflict was of the type which holds the spectators on edge up to the final whistle. Northwestern was ahead, and there were but three minutes to play, when Bill Chandler again did himself proud by evading the Evanstonian guards for the basket which tied the score. Then, at the crucial moment, Doc sent Paulie Meyers into the fray to add new life to the team. Paulie responded by caging two ringers in rapid succession which sent the crowd wild with joy, and gave Wisconsin a 22 to 18 victory. Not since the Purdue game in 1913 has there been such a thrilling five minutes of basketball staged on the armory floor.

The next two games were carded for foreign floors, and the first of these, which was with Illinois, was recognized by all to be the most important set-to of the season. The Suckers, who were going at top speed, were not to be stopped by the doughty Badgers. In fact, the down staters put a crimp in our 1,000% aspirations with a knockout blow to the count of 27 to 20. By making seven baskets and five free throws, Ralph Woods, the diminutive Illini forward, practically defeated the Badgers single handed. The last game before mid-semester examinations was played at Chicago where the Maroons were handed a 29 to 18 drubbing.

After two weeks of successful playing against "Old Man Con's team," the Wisconsin boys met, and easily defeated the Methodists of Nebraska Wesleyan. The score was 25 to 20. The second Illinois game was now only five days off, and the fans, remembering the outcome of the first conflict, were greatly worried over the prospects for a victory. The early demand for tickets far exceeded the seating capacity of the gym, and when the night of the game arrived, hundreds of disappointed fans were turned away. This game would probably determine the championship, as Illinois, Northwestern, and Wisconsin were now tied for first place.

The Cardinal boys, filled with determination, attacked the visitors with hammer and tongs, and before the Suckers awoke to what was going on, the Badgers had scored nine points. Illinois made their first point on a free throw. The spectators, who well remembered the feat of Ralph Woods some weeks before, expected to see him cut loose with a string of baskets at any moment, but Olsen had the little fellow well covered, and the star from Illinois had to be content with a lone score. Three field goals, made in the first half, were all that the Illini could garner. In the second session they were still more helpless, and the game ended with a score of 34 to 14. This battle brought out no individual star.

In the meantime, Northwestern lost another game, which put the Badgers ahead in the race with six victories and one defeat. The next week, Purdue came to Madison for their return game. After the first five minutes, the Boilermakers were well in the rear, and the game finished with Wisconsin on the long end of a 35 to 22 score. Captain Hass played a stellar game, managing to cage the sphere four times. Chandler, Olsen, and Levis each made three baskets.

Iowa, in its return game, was repulsed by a score of 38 to 19. The only redeeming feature of this slow and uninteresting game, was the stellar tossing of George Levis. With eleven baskets to his credit, "Windy's" points alone defeated the visitors. Because of Illinois defeat at the hands of Northwestern the next night, the championship now lay between the Evanstonians and the Badgers.

Three days later the Cardinal five made a hurried trip to Minnesota, where they took a listless game from the Gophers. The score, 34 to 14, is evidence of the ill success of the Northmen in penetrating Meanwell's defense. The last game on the home floor was played with the lowly Maroons. Despite their many defeats, Chicago sprung a big surprise by continually breaking up

Ole Olsen

Bill Chandler

Frank Morris

Paulie Meyers

Wisconsin's famed short pass game, and holding the Cardinals to a comparatively low score up to the last ten minutes of play. But Mel Hass and the guards finally penetrated Chicago's strong defense, and shot several baskets which put Wisconsin safely in the lead. The final score stood 24 to 12.

Four days later our invincible quintette journeyed to Evanston, where a victory would give them a clear title to the championship. In the event that Northwestern captured a victory, however, they would be tied with us for first position. So both teams, with their strongest line-ups ready for action, were out for a victory. The first half, a constant seesaw affair, ended with the Purple possessing a comfortable lead of 15 to 10. What took place in the dressing room between halves we do not know, but we do know that a plot was brewing which was to give the Northwestern rooters a hard and decisive blow. The second half started, and the Badgers started with it. They finally forged ahead, and held their slim lead to the last. This game, which ended 24 to 21, will undoubtedly go down in history as one of the hardest fought and best played games ever staged in the middle west. The whole team starred, and with it Doc Meanwell.

George Carlson

This review would be incomplete if it were not to pay some tribute to those who were responsible for this very successful season. Doc Meanwell, who is hailed as the premier coach and strategist of the game, cannot be given too much credit for the part he contributed. Doc invented and put into practical use the short passing game, the system which had much to do with the team's success this season. But this style of play is not used advantageously by all coaches, for with it a teacher with a strong personality is an absolute necessity. Our coach possesses this quality.

Captain Mel Hass, who proved himself a star through his aggressive, heady playing, and through his extraordinary ability as a leader, has certainly earned a place on every all conference five. We must take off our hats to him, and although he has played his last game in a Wisconsin jersey, his name will be long remembered by Wisconsin students. George Levis deserves great credit for the feat of leading the conference in baskets made and points scored. His quick passing and skillful dodging was also a big factor in many games. Lyn Smith proved a marvel at breaking up the well planned tricks of the enemy. The crowd was thrilled many times by his leaps into the air to intercept an opponent's pass. Harold Olsen, the only junior on the team, is perhaps the fastest guard in the middle west. He is accurate, and can spoil 'most any offense which the enemy may present. He has one big year left in which we expect to see him repeat his good work. Bill Chandler, the youngest member of this star aggregation, played a consistently good game at the pivot position. He not only handled himself like a veteran on the defense, but he also was close on the heels of George Levis for the greatest number of points registered. Morris, Carlson and Meyers, the three remaining "W" men of the squad, all played consistently when called upon, and formed a reserve that had much to do with the ultimate success of the team. Simpson and McIntosh were faithful workers of no mean ability, and will undoubtedly be occupying regular berths next year.

Out of a total of 20 games played, the team was defeated only once. Only twice did a team score more than 25 points against the Varsity; Iowa made 31 and Illinois rolled up 27. The team scored a total of 634 points against the opponents 337.

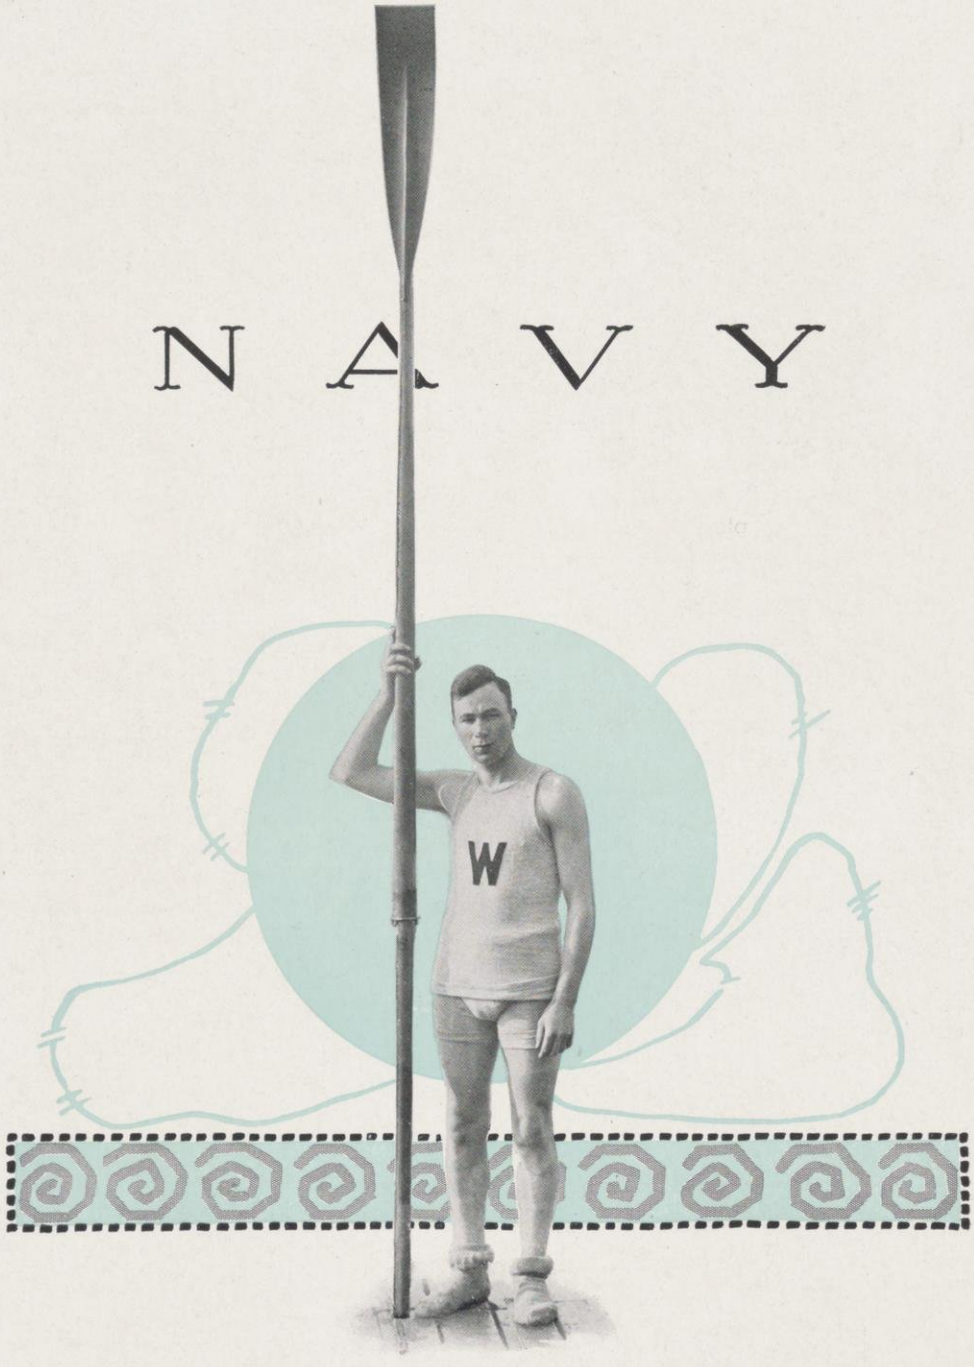
NAVY



The Navy

CONTRARY to the belief of the followers of Wisconsin crews, the abolishment of inter-collegiate rowing has not put a stop to aquatics at Madison. Needless to say, however, keen was the disappointment of many a student and alumnus to feel that "Are you ready, Wisconsin"? did not ring out over the Hudson last spring. The action of the faculty put this damper on the crew enthusiasts and has directed much good oarsman material to some other branch of athletics. Crew has passed to rowing at Wisconsin but as rowing it is having good support. Coach Vail has reduced the minimum weight limit for participants in this sport, and many have taken this opportunity to become oarsmen who were formerly too light to qualify. The desire to outstrip the men that swept the river the previous year has passed, and in its place is the appreciation of the sport itself and the joy of an afternoon spin on Lake Mendota.

Coach Vail

Nor have all forms of crew racing died at the University. Each college is represented by two crews which hold a series of races, while the picked men of the Mendota and Badger Crew Clubs compete to acquire the Club Trophy. After these events have been decided, a Varsity is picked from the veteran oarsmen which is pitted against the Freshman crew in a final race.

The representation of Wisconsin by a crew in foreign waters has been deprived the undergraduates because of the belief that this intense competition was injurious to the men participating in this sport under the training facilities which the University offered. The alumni, as well as the undergraduates, regret that such action on the part of the faculty was necessary, but they feel that this action is only temporary, a thing to exist only as long as present conditions continue. It is indeed to be hoped that this very clean and sportsmanlike form of inter-collegiate competition will be restored and that Wisconsin will again be represented on the Hudson by a shell with red-bladed oars.

Women's Athletics

Women's Athletic Association

History

THE Women's Athletic Association was founded in 1907. During this year the society was called "The Girl's Athletic Association." Miss Grace Hobbins was the first president of the organization. In 1908, the name was changed to the present one, and it was reorganized upon a new basis. It was then made a secret honorary association with elective membership. Ten honors could be won, three of which entitled the member to a pin, and five to a "W." Since that time, the system of points and honors has been revised entirely. In 1913, the society was again put upon a new basis, and, instead of the secret, exclusive organization of the past, W. A. A. became broader, and much more inclusive. Any woman student may become a member by attaining the necessary athletic and scholastic requirements. In February, 1916, twenty-eight new members were taken in at one time. There are at the present one hundred and ten members, the largest number that the society has ever had. The meetings are held monthly.

Final Emblem

Purpose

The purpose of W. A. A. is to promote interest in athletics and sports of all kinds, not only among the girls who are especially adapted for such work, but also those who have had very little experience in athletics before they came to the University.

Ideals

The ideals of the organization are health, sportsmanship, scholarship, and skill.

Membership

In order to become a member of W. A. A. it is necessary for a girl to have been in school at least one semester; to have attained a scholastic average of at least 77; and to have won 125 points by being on teams or otherwise gaining the necessary honors. Anyone who fulfills the qualifications may apply for membership.

Honors

The first honor which may be obtained after entering the organization is the pin, designed by Susan Armstrong, '07, which may be gained after a girl has won 300 points. When 600 points are obtained, a small emblem is presented. A "W" sweater is given to those who have 800 points. From six to eight Juniors, and

twelve to sixteen Seniors have "W" sweaters. The final emblem, a small gold emblem designed by Margaret Armstrong, '13, is not presented upon the basis of points. A picked committee chooses Seniors from among those who already have a sweater, for this honor.

The first time a girl makes a first team of hockey, archery, bowling, indoor and outdoor baseball, tennis, track, or swimming, she receives 100 points. The second time, she receives 50 points, and the third and fourth times she receives 75 points. All second teams count 25 points, and the same number of points are also given for walking forty miles a semester. For fulfilling the requirements in fencing, dancing, and like physical competition, 50 points are given. For taking gymnasium in the Junior and Senior years, 50 and 75 points are given respectively.

No girl is allowed to be on more than one team each semester, thus leaving an opening for those girls who are not as strong physically, to compete. The object is to get as many girls as possible interested in sports. Each sport is in charge of a girl known as the "head," who assists the instructor, does her utmost to arouse enthusiasm, sees that training rules are obeyed, and helps to pick the teams.

The Forensic "W" Men

The Inter-Collegiate "W" Men

In recent years various activities in American colleges have met the demand for a badge of merit by awarding activity letters to their participants. Two forms of "W" are given at Wisconsin for those attaining a certain mark in Oratory and Debate. The oldest "W", which is in the form of a gold fob, is given from the proceeds of a fund established by Mrs. William F. Vilas. These fobs, seven in number, were previously awarded to the six inter-collegiate debaters and the N. O. L. orator, but since the establishment of the extra inter-collegiate debates this year, they are given while they last, according to college rank; seniors, juniors, and sophomores in order. The other "W" is a cloth letter awarded by the Forensic Board to all men representing the University in inter-collegiate debate, and to the joint debaters. One or both of these emblems mark the Wisconsin Forensic man, and it need hardly be said that they are coveted honors.

The Debating Season

Bloch
Higson
Anderson

NEVER in the history of the University of Wisconsin has such a profound interest been shown in the field of Forensics as during the past year. Inter-literary society rivalry, keen and wholesome, has never been at a higher pitch.

The Joint Debate, the oldest forensic contest in the University, and conceded to be the greatest accumulation of facts, arguments, and intensive analysis in the college debating circles of the world, was not below the usual standard. The question of sickness, old age, and invalidity insurance was upheld by Philomathia who, in the words of Robinson argued that, "to solve the problem of sickness and infirmity, the uninsured industrial worker is the individual to be reached, and compulsory methods of insurance alone, reach him." In supporting the negative for Athenae, the line of thought in their disputation is exemplified in the words of Bloch; "Give the workers economic justice and you will allay the growing discontent and constant upheaval of the industrial masses." The decision went to the affirmative.

In the inter-collegiate debating triumvirate consisting of Wisconsin, Michigan, and Illinois we find this year an increased interest which has served to give the men on the Wisconsin teams a determination to bring victory to their Alma Mater.

Further evidence of the impetus given to Forensics in the past year is the greatly increased activity of the Forensic Board, which after a desire had been expressed by the Universities of Missouri and South Dakota, succeeded in uniting the University of Wisconsin in a new inter-collegiate relationship with those two Universities. South Dakota is reputed to have some of the best debaters in the West and Missouri boasts of not having lost a debate in the last eight years. This new triangle, in which we are united with the West and the South, bids fair to equal in import the older one mentioned above.

The annual dual inter-collegiate contest between the Agricultural colleges of the Universities of Wisconsin and Minnesota has enlarged its field by taking in the Agricultural college of the University of Iowa to form a new triangle, and these students of science are showing that they are just as capable of propounding truths from the platform as in carrying out the doctrine of "making two blades of grass grow where one grew before."

Robinson
Black
Swanton

The past year has found Forensics at Wisconsin expanded in its scope until six Universities, instead of three, are connected with us in inter-collegiate debate, a conjunction which takes in representative schools of both the middle west and the south.

Northern Oratorical League

Friday, May 7, 1915

Wright

The Twenty-Sixth Annual Oratorial Contest of the Northern Oratorical League
S. U. I. Auditorium, Iowa City, Iowa

La Follette

A History of Forensics at Wisconsin

OLDEST and most illustrious of all extra-curricular activities at the University of Wisconsin is the work in oratory and debate. Exhibitions, consisting principally of orations, were given from the very beginning by the students of the preparatory school which later became the University; and before college classes had begun there was organized, in the little brick building on Wisconsin Avenue, the present Athenaean society. This was on October 24th, 1850. In the next spring the University began classes of college rank in North Hall, where Athenae took up quarters. In the year 1852–3 some of the younger members, constituting a radical faction, left Athenae and founded the Society of the Friendly Brothers, a secret organization. This faction was known successively as the Oratorical Society and the Polymnian (from Polymnia, the goddess of lyric poetry, though construed by the Athenaeans as derived from *polys*, many, and *lymos*, mud and meaning "many mud heads.") At some time between May and July, 1854, the name Hesperia was chosen, and under that name the society still exists.

These two societies were sufficient for the men of the student body until after the Civil War. Then a society was organized in the Preparatory department, in the fall of 1867, called the Philomathian. Lacking a hall, and having a constantly changing membership, it never prospered, and on May 27th, 1873 ended its existence. The same troubles harassed the Philadelphian, also a preparatory society, which was organized in 1874 and lived only a few years. In the seventies, since the existing societies were limited in membership, there were many attempts at organization. Calliope, an offspring of Hesperia, began in 1874, and a short time later Linonia was organized. These societies lacked the steadying traditions of the older lits, however, and failed to exert much influence on the forensic activities of the University. On April 18th, 1886, the remnants of these organizations were gathered together in Adelphia, which died from lack of vitality about three years later, but was revived in 1890. On September 29th, 1893, Phoenix was organized, rising from the ashes of the now deceased Adelphia. She failed to achieve the millenial existence of her fabled namesake, however, for no trace is found of her after a few years. The only society founded during this period which has lived and exerted an influence on Forensics is Philomathia, begun, according to the best authority, on September 17th, 1886. After a hard struggle she became prosperous, entered the Joint Debate League in 1892, was victorious, and has kept a high place since that time. Her original purpose is said to have been oratorical, and her emphasis has always been on oratory rather than debate.

The women's societies have been fewer in number but none the less successful in their work. The oldest is Castalia, organized December 28th, 1863, and existing at the present time in very good health. Laurea was begun in 1872, and after taking part in forensic affairs with honor for many years was dissolved in 1899. A Varsity Girls' Debating Club was in existence in 1897, but little is known of its work. Pythia was started in 1902, and exists at the present time as the only rival of Castalia. Round Table, which began in 1909, has had no meetings during the current year, but hopes are being entertained for its revival. In the earlier days these societies had exhibitions and debates very similar to those of the men's organizations, but when the men drifted more and more to economic and political discussions, the women retained their more aesthetic interests, and are now the only real literary societies of the literary society group.

Membership in all of these societies was open to all students. There have been many more limited societies; the Senate, an upperclass society for parliamentary practice, the Law Class Society, the Forum, the E. G. Ryan Society, and the Columbian in the Law School; the Engineering school lits which later became almost purely technical; and the Agricultural Society which, instead of limiting its interests, has broadened them, and has now become identified with the general debating activities to such an extent that it must be considered with the other societies, in spite of its college limitation.

In forensic work the University has always been interested first in debating. The first intersociety debate was between Athenae and Hesperia in December, 1858, but it was not until 1867 that the present series of Joint Debates was begun. In all, forty five have been held, dealing prin-

cipally with political and economic questions. Many of them, on publication, have received the highest praise from economic journals in America and Europe, and from economists of rank, so that it is no idle boast that the Wisconsin Joint Debate is "the greatest college debate in the world."

Inter-collegiate debating at Wisconsin began in 1893, when Michigan sent a challenge for a debate, which was accepted. The debate seems to have been managed by the literary societies, with only literary society men participating. The question was the subsidizing of the merchant marine, and Wisconsin lost, because at the last moment Michigan insisted that style and gesture be considered, the result being that the Wisconsin men entered with a protest against running a debate as a declamatory contest. Wisconsin's ideal of debating was a battle of wits, with very little consideration for the polish which was insisted upon at other schools. Part of Wisconsin's lack of success in inter-collegiate contests may be laid to this fact, while much of the success of the men trained in Wisconsin debating must be attributed to the emphasis on clear thinking rather than oratorical display.

In oratory Wisconsin has met other western Universities in two great leagues. The first was organized in February, 1874, at the instigation of the Adelphi society of Knox college, and consisted of representatives from each of several states, chosen by inter-collegiate contests within the state. It had as its original intention the establishing of rivalry in mathematics, physics, and other branches of study besides oratory, though these aims have not as yet been accomplished. Wisconsin sent her first representative in 1875, and thereafter until 1880, when, on account of dissatisfaction with the system and the competing talent, she withdrew. During this time the University furnished one inter-state victor in the person of Robert M. LaFollette, who gave the oration "Iago", an oration which is one of the few great student productions of the University. There were no other inter-collegiate oratorical contests until the present Northern Oratorical League was organized in March, 1890, Professor T. C. Trueblood of Michigan taking the lead. Wisconsin has participated continually since that time, and has three victories to her credit, Max Loeb in 1905, Charles S. Pearce in 1909, and Alvin Reis in 1913. The league at present consists of Northwestern, Oberlin, Minnesota, Michigan, Illinois, Iowa, and Wisconsin. Prizes are given from the income of three thousand five hundred dollars given the league by Congressman F. O. Lowden, an alumnus of Iowa. A contest of somewhat less importance than the preceding two is the Hamiltonian, held by the Hamilton Club of Chicago, in which the University has been very successful. A prohibition contest, under the management of the Inter-collegiate Prohibition Association, has, within recent years, had a fair degree of success.

Forensic interest in the University has had many fluctuations. In the early days the literary societies were the centers of student life and activity, both social and intellectual. With the advent of co-education the purely social side of college life began to grow in importance, and the secret societies took over that function on which the literary societies refused to place the desired emphasis. By repeated division and specialization of interest, the literary societies have become smaller factors in the general student life, nor do they in the least regret that the social and athletic fevers have raged outside, rather than inside, the society halls. The circumstance may have caused occasional depressions in forensic interests, but if so, surely a great forward movement is showing itself this year in the six inter-collegiate debates held with six state colleges or universities, in the competition at the oratorical contests and the intra-collegiate debates, and in the increased interest on the part of students and faculty, as evidenced by the increasing attendance at all forensic affairs. Though sixty-six years old, forensic activities at the University of Wisconsin are not senile—rather they are youthfully sturdy and vigorous.

Third Row—Elliott, Kellogg, Stone, Bailey, Martin, Whitemore, Schelling, Erwin

THE history of the Agricultural Literary Society dates back to the fall of 1904, when several prominent agricultural members of the "Hill" literary societies conceived the idea of forming an agricultural literary society, in which membership would be limited to students in the long and middle courses in agriculture at the University of Wisconsin. Among this group of progressive "Agrix" were found several men who are now, or who have been in the past, prominent members of the agricultural faculty, i. e., Professors J. G. Fuller, E. J. Delwiche, J. G. Milward, and J. L. Tormey, and also the present State Commissioner of Agriculture, Professor C. P. Norgord. These students drew up a constitution which was adopted in 1905 and revised in 1915. The society has flourished in spite of difficulties, becoming a member of the U. W. Forensic League in the fall of 1915, when two representatives were elected to the Forensic Board. With the formation of a Triangular Debating League between the Agricultural Colleges of the Universities of Wisconsin, Iowa, and Minnesota, the future looks bright for Forensics in the University of Wisconsin College of Agriculture.

Season in Oratory

MORE than usual interest has been shown in the forensic contests of the past year, not only by the Literary Societies but more especially by the faculty and the students in general. The increased interest can be attributed largely to the activities of the Forensic Board, who left nothing undone, in the way of notifications, both in the Cardinal and on printed placards distributed about the campus, to acquaint the student body with the significance of the various forensic events. As a result the past year has found an increased attendance at Music Hall, "The Old Forensic Battleground," whenever a contest was held.

Wright

Oratory, while not extended in its scope during the past year as has the activity of inter-collegiate debating, has by no means suffered a reversal. In the Northern Oratorical League Contest of March 3, 1915, Mr. Gustave Wright represented Wisconsin with an excellent oration on the subject of Infant Mortality. The contest was held at Iowa City and was one of the most closely contested oratorical events in the history of the league.

In the final Oratorical contest, Mr. Milo K. Swanton, winner of the Senior Open, was chosen to represent Wisconsin in the N. O. L. to be held at Urbana in May. "The American Incrimination," the subject of Mr. Swanton's address, deals with the policy of shipping munitions of war to the belligerent nations. It is interesting to note that six of the seven contestants in the Final discussed questions of national or world-wide importance which have grown out of the present war. Mr. Forrest R. Black, who won second place, very ably told of the evils of child labor and its effect on the future of the race. Mr. Black will represent Wisconsin in the Hamiltonian Oratorical contest at Chicago.

In the Junior Ex., as has always been the case, a great deal on interest was shown, especially by the different literary societies, partly because it is a strictly inter-literary society event and partly because it is the oldest oratorical contest in the University. It was won by Mr. Louis G. Weeks. The Junior Open, won by Mr. Edward M. Livingston, and the Sophomore Open, won by Mr. Ray M. Heckman, were very strongly contested and extremely interesting. To Mr. Philip F. La Follette goes the honor of winning the Freshman Dec. in a contest in which all of the contestants were unusually good. It can be said in conclusion that the interest and spirit shown in the various contests as manifested by the determined efforts and diligence of the contestants is an excellent criterion of the success of the past year in Oratory.

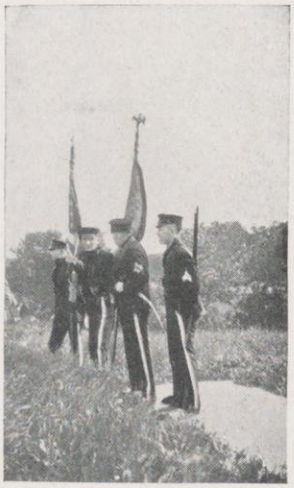
The Government Inspection

THE annual Government Inspection took place on Saturday, May 29, 1915. The inspecting officer, Major Andrew Moses, arrived Friday afternoon. That evening a reception and dance was given in his honor by the Commandant and the officers of the Corps. The inspection began at eight o'clock the next morning. The Brigade was formed at the Armory and marched to Camp Randall, since rain had spoiled the Lower Campus for drilling purposes. The rain could not dampen the ardor of the men, and in spite of a wet field and a slight drizzle, the inspection program was carried out in an excellent manner. Shelter tent pitching, company drill in close and extended order, and bayonet exercises were done by individual companies. Separate battalions executed close order drill and battalion parade. The Radio Detachment erected masts and were ready to send messages when the rain prevented. The Brigade was then marched back to the Armory, where Major Moses inspected. When this inspection was finished the Brigade was dismissed with instructions to reform on Langdon Street at two o'clock for the working out of the maneuver problem.



"The Colors"

The maneuver problem consisted of the following situation: the hostile countries of Madison and Middleton are at war. By a sudden concentration and rapid march, the Middleton forces have secured possession of the rich and populous district of Eagle Heights. They have defeated the Madison forces, bottling them up on Picnic Point, and are threatening the manufacturing cities along the Point. Fugitives from the battle bring word of the disaster to the Madison commander and he decides to attack at once. On the approach of the Madison forces, the Middleton commander retires to Eagle Hill, intrenches his position, and outposts his line from the bridge to College Hills Road. The defense, which consisted of two battalions, was commanded by Colonel Martin and the attack was led by Colonel Conover. While the main body of the attack proceeded along University Drive, a flanking guard went out by the road through the cattle yards. This detachment turned the flank of the Middleton outguard, forcing these men to retire. The outguard at the bridge was then forced to retreat and touched off several pounds of powder, theoretically destroying the bridge. Because of the lack of time, the Engineering Company had constructed a bridge in the morning further down the stream. Over this the main body crossed. The outguards gave way before the flanking movement, retiring alternately and securing safety by a cross fire. The outguards retreated along the road around the swamp in order to avoid blanketing the fire from the trenches. The attack began in an echelon movement and developed into a great enveloping arc toward the west. The advance across the eight hundred yards of swamp in front of the trenches was made by utilizing squad columns, thin lines, company rushes, squad rushes, and lastly two man rushes. A bayonet charge, when the line was within one hundred yards of the trenches, terminated the attack. The Brigade marched back to the Armory, passing in review down University Avenue.

Guardmount, executed by a company of sophomores, was the last feature of the inspection program, and proved a fitting climax to the most successful day ever witnessed in the Military Department of the University.

History

DURING the last three years the Department of Military Science has advanced more rapidly than any other department in the University. This is due entirely to the work of our Commandant, Lieutenant Philip G. Wrightson. When he took charge, the Corps consisted of one regiment of seven hundred men. He leaves to his successor two regiments totaling over fourteen hundred. He realized that interest and enthusiasm in the work were the greatest needs of the department and he set about to cultivate interest, knowing that enthusiasm would follow. A number of changes, making for more efficient organization, were brought about during his first year.

"The Commy"

The old schedule called for two hours of drill a week, to be increased to four in April. This was altered to provide for two hours of drill and one hour of recitation on tactics, a week. Separate sophomore companies were formed, eliminating the friction formerly caused by the combined drilling of freshmen and sophomores. The custom of awarding the colonelcy to the captain of the compet winning company was dropped, and instead, the captain who had done the best work throughout the year, received the appointment. Last year two regiments were organized, the program of work to be covered was increased, and drill by colleges inaugurated. The freshmen companies took up extended order, bayonet exercises and outpost duty. Every man was required to fire thirty rounds of ammunition at the iron targets in the athletic annex. The sophomores took up outpost problems, semaphore signaling, Butts manual exercises, guard mounting, and first aid. The annual competitive drill was changed from a five minute close order to a fifteen minute close and extended order drill, medals being provided for both the sophomore and freshmen winners. The department's social function, the Military Ball, was staged in such a manner that it ranked next to the Junior Prom. This variety aroused the general enthusiasm to such an extent that for the first time the University of Wisconsin was ranked by the War Department as a Distinguished Institution. With this record to sustain, the present Corps began its scholastic year. This year the freshmen uniform was changed from cadet blue to the service olive drab, which improved the appearance and increased the comfort of the men. The War Department has furnished two Colt machine guns, which are handled by a company of sophomores. Those excused from drill for medical reasons are given a course in military hygiene. There is also an efficient Hospital Corps. The communication end of the service is handled by the Signal Company, sending messages by semaphore signals, wireless telegraphy, and the heliograph. The Engineer Company is instructed in bridge and earthwork building. Classes in which difficulties in drill and manoever problems are discussed, are held for all officers. More stress has been laid upon firing and every man must fire thirty preliminary and thirty record shots on paper targets. It is required that eighty percent be made for a semester's credit, while ninety percent brings the award of marksman's bars.

The medals are to go this year to the company that has done the best work throughout the year. For this reason the companies are graded each drill period on drill, discipline, and attendance, and their respective standings are published at the end of each month. The spirit of competition has been further fostered by inter-company basket-ball games, track meets and rifle matches. Company spirit has been developed by smokers, dances and Orpheum parties. The work of the Brigade up to the present time has done full justice to last year's record and gives promise of again winning for Wisconsin a place on the "Distinguished" List.

Lieutenant Wrightson's departure at the end of this year leaves a vacancy that will be hard to fill. His tireless efforts in building up the department have brought him a most enviable reputation and have inspired the students to more enthusiastic work.

The members of the Corps unite in wishing that his future work be marked with the same degree of success as has been achieved in his position of University Commandant.

Convocations

Taft

Burton

THE purpose of the 11:50 convocations, held for the first time this year, has been to give the students of the University an opportunity of hearing discussions by the faculty members upon the standards which should govern different phases in our college and outside life. They have included talks on the standards in our college life as a whole, standards in athletics, standards in business, and standards in international relations. It was also hoped to make some of the meetings an open forum, and this idea was adopted by the sophomore class on March 9, when the candidates for the Badger and class offices presented their platforms before a large number of the class

Intersorority Society

Mystic Circle

MYSTIC Circle was organized about ten years ago as a bridge and social club. However, the purpose of the society has become greatly changed during the last two years. Its chief purpose at the present time is to carry on some big charitable work each year. Three freshmen are chosen each year from Delta Gamma, Gamma Phi Beta, Kappa Kappa Gamma, and Pi Beta Phi, to become members of this society.

Members

Wyslynx

WYSLYNX, the oldest inter-sorority society, was founded in 1904 to promote good fellowship. Every spring, a sophomore from each of the eight sororities in existence at the time of the founding of the society, and two non-sorority girls are elected to become members.

Class Organizations

"Blue Dragon"

Elizabeth Kelly . . . . . President
Dorothy Bannen . . . . . Vice-President
Ruth Boyle . . . . . Secretary
Dorothy Lewis . . . . . Treasurer
Lillie Spiering . . . . . Cheer Leader

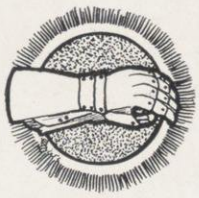
The movement of having class organization among the women came to completion this year when the 1916 girls initiated into the University a new society, "Blue Dragon." This title with all its traditions will be bequeathed to each succeeding Senior class society of women. This first "Blue Dragon" leaves a worthy memorial which is the endowment of a new community house for college girls.

"Yellow Tassel"

Clara P. Moser . . . . . President
Gladys Palmer . . . . . Vice-President
Esther Hazelberg . . . . . Secretary
Inez Noll . . . . . Treasurer
Kate Whitney . . . . . Cheer Leader

Yellow Tassel, the junior women's organization, was also founded by the 1916 class. In this, its second year, it has done much to promote a spirit of good will and interest among the girls, and has fulfilled the plans of the Junior Advisory System. Two large and successful entertainments were given by Yellow Tassel for the Freshmen advisees. A spring banquet completed the year's program of events.

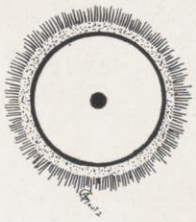
Red Gauntlet



Margaret Fraser	President
Irene Jones	Vice-President
Ruth Stolte	Secretary
Elsie Howell	Treasurer
Elizabeth Kendall	Cheer Leader

The chief work of "Red Gauntlet," the Sophomore girls society, founded in 1913, is the organization of the Junior Advisory System for the following year. This year Red Gauntlet has made a step toward clean class politics by taking up and carrying out the idea of a class convocation at which the candidates for offices speak. In this society the making of firm friendships has been promoted by organized cheering at class games, a hiking system, banquets, teas, stunt parties, and picnics.

Green Button



Susan Ramsay	President
Helen Brown	Vice-President
Margaret Lathrop	Secretary
Adelaide Paine	Treasurer
Margaret Fellows	Cheer Leader

Four years ago the women of the class of 1916 met at a luncheon and organized under the name "Green Button," symbolic of the emblem of recognition, worn by the Freshman girls, and each succeeding class has enjoyed the precedent, established by this class. This "Green Button" society has united the 1919 women classmates this year by means of successful teas and spreads, and by meetings to further the spirit for girls' athletics.

Keystone

First Row—Zillmer, Pritchard, Kelley, Ayer
Second Row—Moser, Wahl, Glassow, O'Shea, Boyle, Eitelgeorge
Third Row—Fraser, Bodman, Pleuss, Wright O'Neil, Ramsay, Ebinger

Keystone, a society which consists of the presidents of the women's organizations in the University, was established in 1909. Its purpose is to prohibit monopoly in women's activities by the use of the "point system." It also confers with the Dean of Women on matters concerning the general interest and welfare of the women students.

COLLEGE LIFE

Nobody Home

Prologue

FOR Twisting the *Badger's* Tale, we think some explanation is due you, especially if you are so unfortunate as to be an engineer without your slide-rule, a Hill man without a girl, or an Agric without anything. If then, in reading your Badger, you have not turned first to this section, a very unwise though natural action, you have seen Wisconsin life self-conscious, as a freshman before a professor, or a co-ed before her mirror. For instance, the photographs *and* thesis subjects of our seniors imply both seriousness *and* intellect; the faculty section suggests dignity, or partly, at least; *and* the sorority views insinuate even beauty. But live *and* learn, for now you reach the end *of* the *Badger,* and hereby hangs a different tale. A tale, not disguised by dress suits *and* linen collars, but twisted into the flannel shirts *of* reality. In other words, we judge people by their back yards. We would rub all the powder off a Gamma Phi's nose to discover one freckle *of* truth. Therefore, be not surprised at what you see, for truth is more strange than an Alpha Delt without bone-rimmed spectacles. Do not become angry at what you see, we beg *of* you. If you are not altogether a rational being, we are pleased but not responsible, *and* indeed are not trying to make you resemble C. R. F. delivering a lecture, but we are simply portraying the truth *of* Wisconsin Life as it is seen through the window *of* a smile.

TWISTING THE BADGER'S TALE

Twisting The Badger's Tale

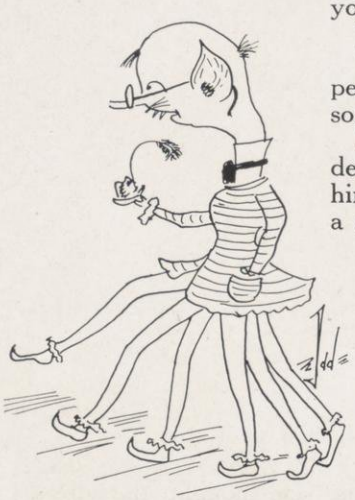
A Tale of Two Cities

"—and all was Madness"—Poe.

LAST night I had a horrible dream. It still haunts me; I am uncomfortable and perplexed, and I can't stop thinking about it. You see, it was like this.

I was walking along University Drive when I met a purple person with six legs and a large, amorphous head, who claimed to be a Martian answering to the name of Glkzwrq. He had fallen out of his gyroscope into the placid waters of Mendota, and he wanted to know whether this was another place like the one on the opposite shore, where he had crawled out of the lake.

"Oh dear, no!" I assured him. "That's Mendota,—an insane asylum, don't you know."



"And what is this?" he asked.

"This is a University" I replied. "Place where people come to learn many things. Totally different sort of institution."

Interest appeared on his violet countenance, and he demanded to be told all about it. I promised to show him the whole outfit, and took him home to dinner as a starter.

At the table Bill Burns and Herb Smith were discussing their schedules. "By Golly" said Bill, "youghta take Aztec Art. Pipe course—you can go to sleep in class, and the old boy don't mind how much you cut!" Delighted gasps from Herb.

Glkzwrq pricked up his ears. "What is that—cutting?"

"That means not going to your classes" I informed him.

"They seem very delighted to be able to, er, cut," observed he.

"Sure they are. Everybody is."

"Why don't they abolish these useless and tiring classes, then?"

He was an extremely stupid person. I explained to him patiently that classes were not useless, that they were what we were here to go to, and there wouldn't be any university without them. He only said "Hmmm-m-m" in a pungent tone, and dropped the subject.

Later in the evening we went to a dance. My Martian was perfectly amazed to see the immense crowd working away at that form of violent exercise called the Fox Trot, dancing like grim death, convoluting and maneuvering to the wild strains of some barbaric melody, copiously assisted by cow-bells and tin cans. "These people,—they are assuredly mad?" he enquired.

"No, no, not at all! Why some of our foremost, most intelligent students are here!" I said indignantly.

"Ah, it is some religious festival, then?"

"Well, not exactly. It is a form of,—of diversion. They do it for pleasure. Don't you see?" No, he didn't see. That carp couldn't see the simplest things. But his attention was distracted by a passing couple. The better half of it, a small, fluffy individual, murmured to her partner as they glided past, "Oh, Jack, you are such a heavenly dancer; and so big and strong!" Jack clawed at his collar in inexpressible emotion, and then asked her to three parties in a row.

"The young lady admires the young man very much, I take it." observed Glkzwrq.

"Don't you believe it," said I. "She's simply pulling his leg."

His emerald eyes widened. "Wha-a-at? Pulling his—"

I jumped hastily into the breach, convinced he could understand nothing. "She's, she's, oh confound it! I mean she's fooling him, deluding him, leading him on, getting something for nothing. In reality she thinks he's a poor simp—which he is. That's what most of the girls really think of the men who take 'em around. But they make those men think they admire 'em intensely, and they become all obnoxious with infatuation, and spend all their allowances. See?"

"The men,—they believe all this?"

"Absolutely—drink it in."

"But you say they are highly intelligent?"

"Why, er, yes. Supposed to be. Come on downstairs."

We descended. It was the feeding hour, and the place was packed with females getting free grub. The S. R. O. sign was out. I told Glkzwrq how much masculine money the shop took in every night.

"But what do the men get out of it?" he enquired?

"Why, uh—the pleasure of the girls' society. Don't you see?"

He cast a slow, all-embracing glance over the assembled sirens. "Ah, yes. Society. Pleasure. To be sure. Hmm-m-m." That seemed sufficiently expressive, and I took him home.

Next day I took my Martian up the Hill. We went into the Law shop, where a Prof. handed the class a 500 page assignment which he had heard of somewhere, admonished them for laziness, and then strolled over to the University Club to spend the afternoon at billiards. We went out on the stoop and heard a troupe of German engineers informing the world in close—too close—harmony that St. Patrick was an engineer, he was, he was. Then we went further up, and listened to a lecture by Urdahl. It was here that I had an ancient impression reversed. I thought the Martians never slept.

After class, Glkzwrq and I went out to see the sights thoroughly. I showed him the whiskers of the language department. I gave him a peep at Tommy Dickinson, C. R. Fish and Louie Kahlenberg. I let him listen to a conversation between a Chi Psi and a D. G. We witnessed a Main Hall sorority meeting, and I introduced him to a few Alpha Delts. I took him into the Libe. He thought, the silly ass, that it was a club, and I couldn't persuade him it was a place where people studied. We attended a meeting of the Student Court. There were only five members present, however five were enough. We stood outside Goodnight's office and listened to the skrieks of dying student activities. We watched the Betas chasing an athlete down the street and throwing pledge pins at him. We observed Dean Birge's executive committee amusing themselves at target practice. We went into the clinic and witnessed ninety-six patients waiting to see one of the three doctors. I took him to Lawrence's, Herman Singer's, the Co-Op and the Orpheum. Then I had to take him somewhere else to revive him. I showed him the purity league employed in censoring student publications, and devising plans for faculty control. I walked him out to the Sigma Phi manor, and brought him home in a wheelbarrow. I let him listen to the co-eds eat in Lathrop Hall. We took one hasty look at the Athletic board, and one hasty smell of the Gym swimming tank.

He had said nothing for the last three hours. When I told him we had seen practically everything, he found his voice at last. He thanked me for my kindness, and said he was going—immediately.

"Where to?" I asked.

"Back to Mendota" he replied. "The folks there admit that they're crazy."

Now wasn't that the devil of a dream?

Prom Scandal

And you found our parties dull,
Boisterous, hardly to your taste, my dear?
Its people seemed uninteresting.
But this I learned—'twas not for pleasure here
You accepted my date—well just
For—ask the sisters why you fuss.

And the large house obtains your praise
Unqualified—a lodge and he,
So all whereat perfection stays?
And 'twas for this you excused yourself, I see.
And I—well, of me you need not ask,
I played your game, and you have dropped your mask.

—*Apologies to Browning but especially to Al and Bertha*

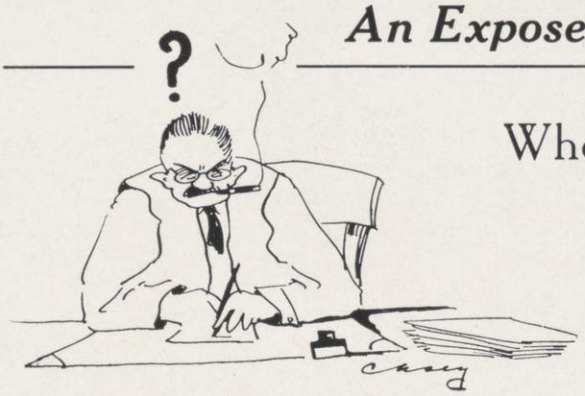
An Expose'



"Dear Son"

Dear Son:-

I have here before me your marks of the past semester. As you probably know, they are very unsatisfactory. I cannot understand how this came to happen, for you have heretofore had good grades, and I know that you have at least a reasonable amount of intelligence.

Can it be that you are taking college as a joke ? Is it possible that you are idling away your time in pool-rooms ? Or has the cigarette habit got you ? It must be one of these things.

You can probably recall the things I told you before you left for college. You will remember that I warned you against any such habits. You might as well understand that it is up to you to make good. I am, therefore, expecting you to straighten up this unfortunate affair and to see that it never occurs again

Father

J.S.F./ D.I.K.

Who Would Have Thought This of John Paul Frazee ?

The Latest Ford Joke

The Psychology of Self Advertising

History

A course founded by Julius Caesar in 17, B. C. and followed advantageously by Napoleon Bonaparte, St. Patrick, and Charles Chaplin. Established at the University of Wisconsin 1914–15 by Joseph W. Bollenbeck under the supervision of Professors Fish, Urdahl, and Kahlenberg, who have had marvellous results during the past year.

Purpose

The Psychology of Self-Advertising demonstrates how to achieve either popularity or prominence; never both, for the combination is impossible. This course should not be confused with Starch's stiff psychology of advertising which has disappointed many ambitious but misguided students because it teaches them how to advertise soap, soup, and cigarettes—in fact, all raw products except themselves.

Here are a number of basic principles of the *Psychology of Self-Advertising*, with examples to prove the all-powerful results.

Sign everything conspicuously and frequently

This is a principal factor in the careers of Horace D. Simmons, Ralph E. Nuzum, and Bob Casey.

Go to big places with big people

Examples:

John Frazee to Europe with Henry Ford
Gil Blake to Prom with Peggy O'Neil
Harold Wengler to "Watch Your Step" with himself.

Talk about yourself and conquests

Examples:

Vic Brady, Theodore Roosevelt, Professor Ernst.

Be a saint and parade the fact

Examples:

Charlotte Bodman, President of S. G. A.
Bubbles Maurer, St. Patrick a-float.

Cover your face

Examples:
Cub Buck, Crawford Wheeler, Chick Walton, and other favorites of the Wisconsin Magazine.
Edna Purtell's Studio veil.

Use your name consistently

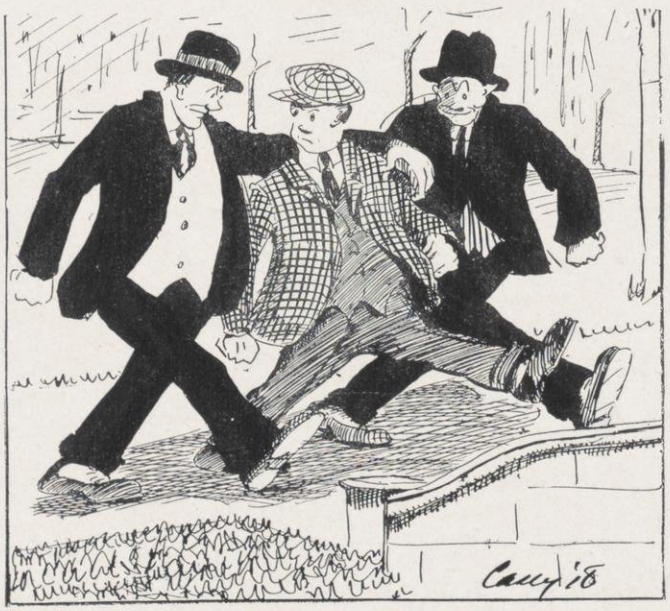
Examples:
Phil La Follette, Brigham Young, Tommy Atkins, Snippy Snell.

Be yourself, whenever with Louis Pradt or other skyrockers

Examples:
B. Bunn, Pete Treadwell, Ring Lardner, Carl Russell, Mamie Anderson, Marion Luce, B. Young, etc., etc.

"Self-Advertising is not free advertising", emphasizes Bubbles Maurer, "it takes too much engineering."

MOTTO—"In US we Trust."



Student Voting

Co-education

Dear Ed:—

A refining thing is Co-education,
Its influence is plainly seen;
Look at the Engineer, look at the Agric,
Think what you might have been.

A refining thing is Co-education,
Your life it does but little mar;
You sneak through the byways instead of the highways
When journeying down to the bar.

Co-ed.

Pro

Dear Co-ed—

You're refining you say, and quite truly.
Dear lady, we'd miss you I ween;
But think of the worry and bustle and scurry
Of shaving at seven fifteen.

The light of your smile has made pallid
The lights we should really pursue;
And we're thinking of fussing when we should be bucking,
We're being "conned out" just for you.

Ed.

A Fast Gait

The Tale of the Modern Mermaid Tavern

'Twas five o'clock.
The dying embers of the falling sun
Their farewell glances threw
Into the Mermaid Tavern,
Gilding the ham as it fell in flakes,
And burning to living amber
A foamed topped cup which lay not long
Before a Sigma Chi.

"Nondescript collection"

Gather'd 'round the tables were
The pards of Bacchus,
Wise and otherwise.
Gene Casserly, pianist,
And clamoring sponsor of Yucatan for
neutral breath;
Harry Herzog,
Erstwhile captain of the baseball team
And now a mighty swashbuckler of
the Milwaukee pros;
A Phi Delt pledge or two;
A nondescript collection of Delta Taus,
Completed one table.
Under which lay
An animal, long, gaunt, and with a yearning look,
The Delt beerhound,
Personification of a thirsty race.

Far in one corner sat the A. T. Os.,
Making much noise among themselves,
Trying to look like college sports,
But all in vain.

Fat Dennis was not absent;
No, indeed.

"Personification of a thirsty race"

He and Jonny Blair gazed quietly
Into each other's eyes,
Across the peanuts and the food for thought.
A bell rings.
Forth issues from his den,
Leo, the Lion,
Roaring in rather pleaséd terms
At such a vast assemblage.

"What shall it be, Gentlemen?"
Whereupon rose a clamor,
Chanting the gamut of wines,
Mellowed under Italian skies
Or deep in Spanish castles,
Kentuckey's finest
Or the perfumed cordials of romantic France.
But always rang the chorus
Of those who patronize home industries,
Deeper, fuller than the rest it rose
And in a mighty voice, it sang,
"Beer for me."

Rave, you fussers of the co-ed meek,
Fed on milk and honey.
Rave, you prohibitionists pure,
Wiser men than you
Have poured oblations in
The Mermaid Tavern.

Wherein Wisconsin Differs

I. Our Pets

1. "John, did you forget to put the badger out?"
2. Our playful canines—Red Domino, or, the Ellen Terriers.
3. The Sigma Phi brat-lings; our Babes in the Wood.
4. The kitten-ish Pi Phis and the beer-hounded Delts.

II. Our Pests

1. Burdette Kinne, Rough on Hats. Immune from Prussic Acid.
2. Sky-rockets that don't mention us.
3. Sometimes those that do.
4. The Alpha Fleas and the Gamma Flies.

III. Our Poets

1. William Ellery Leonard, Iva N. Ketcham, Ralph E. Nuzum.
2. Choice excerpt from Prof. Leonard's Cycle of Love Lyrics:
   He sings thusly—
   "————A thousand froggies, all in pea-green jacket,
   What-a what-a, What-a what-a,
   What-a what-a racket!" O the lyre!

Preparedness

Put on your {smoking jacket / kimona} hang your {slide-rule / powder-puff} on the floor, attach a {meerschaum / fudge} to your facial expression, settle comfortably into a {standing / piano} position / stool} and confine your remarks to {*?x!/$x!! / darn} You're prepared!

NOW, the first week in September, the Sig Chis shine the punch bowl and the steins, the Kappa Sigs their bar-room door, the Sigma Phis the gilt edges of their donated copy of "Who's Who," and the Betas their fifty-seven rusty pledge buttons.

The freshman futurist turn of thought prompts him to bring his Papa to school with him, knowing he could tell the best lies about his capabilities and would be invaluable in paying (?)—friendly calls to our dear Mr. Gilbert. That same lad totters to his medical examination on a pair of hired crutches, not to be lured into our brave kaydet corpses.

Don't be neutral; fortify yourself with these:

1.—When you call on Mamie Anderson be well armed—(exactly, Oscar)—well-armed with Rentschler's, Keeley's and Tiffany's best. One look at those eyes and you're maimed for life.

One Minute Sketch of a German Umpire at an Irish Ball Game

2.—When you arrive at school in September, bring your bargain straw hat along, for April. What does it matter if Spring finds it out of date? You will have been prepared, and can venture forth with the robins, chirping under your little nest of straw.

3.—Go ice boating in a bathing suit, the way Johnnie Mitchell does. Then, when Conklin's ice holes suddenly yawn before you, you will realize at once—perhaps—that you have saved a large Pantorium bill.

4.—In icy weather, carry sawdust in your pockets. In going up the hill, you can sprinkle it ahead of you, and you will find more people following you up than ever before in your life. All those who slip alone beside you, will be looking up to you.

5.—In passing the Engineering building, carry a coil of copper wire in order to connect with the otherwise meaningless shocks sparked out in song by the battery on the steps.

6.—Allow enough time in dressing to be sure to be completely prepared for society. Dick Knott arrived at the Theta house one Friday evening, to find his socks trailing around his ankles. He had forgotten to put on his Paris. He was Knott, unprepared.

In this day of conflict, you should be prepared, at any time, for shells. If you are French or English, be prepared for the German shells. Keep away from Milwaukee. If you are a bum canoeist, look out for the Varsity shells. If you are an actor in Edwin Booth, look out for egg shells. If you still eat with your knife, and use a table fork like a pitch-fork, look out for patty shells. If you are going to sit on the beach in a bathing suit, be prepared for sharp sea shells. And if you are eating walnut fudge, at the Gamma Phi house, be prepared for nut shells. In this particular instance, it is best to be prepared for anything nutty. Remember also that any nut has a hard shell—except a doughnut.

Lots of people know when to be prepared. An Engineer never forgets to take his slide rule to class with him. This is the exception rather than the rule. Girls lay out all the different sets of finery for the week-end, on Friday afternoon. They are prepared for anything, a skirmish, capture, a retreat, a quick engagement, or imprisonment in arms.

{Your pipe's out.
{Help yourself to the fudges.

Professional Practice

ONE cold March day in April, the University of Wisconsin, situated as it is, half-way up the hill on the North side of the campus, was the point of embarkation of a great company. The Slide-rule Manipulators had slipped on silk hats, black paint, red hair, and mustaches over their corduroys and Paris-green tights over Bubbles Maurer, and had still further disguised themselves by changing their cuff-links. They were out to get air and to tempt the squirrels and, incidently—those cunning rascals—to advertise the ENGINEERS' MIN-,STRELS.

The coldness of the day is but one of the many illustrations of the friendly relations that do *not* exist between the Engineering and the Legal bodies of the University, in spite of the Engineers' efforts to win the Lawyers' favoring glances by extending to them invitations to the aforementioned Minstrels, and everything.

On the other hand, the Law School does not even sing on their steps between classes—so there you are.

As we delve more deeply into the matter we find another point, which point, we make mention, is the kernel of the nut—no, Rachel, neither the word kernel nor the word nut calls to mind any Freshman experiences in the Armory. (Pardon his interruption to our train of think). This case of Blackstone's Commentaries versus Kent's Handbook hinges around a conspicuous figure in history, one St.

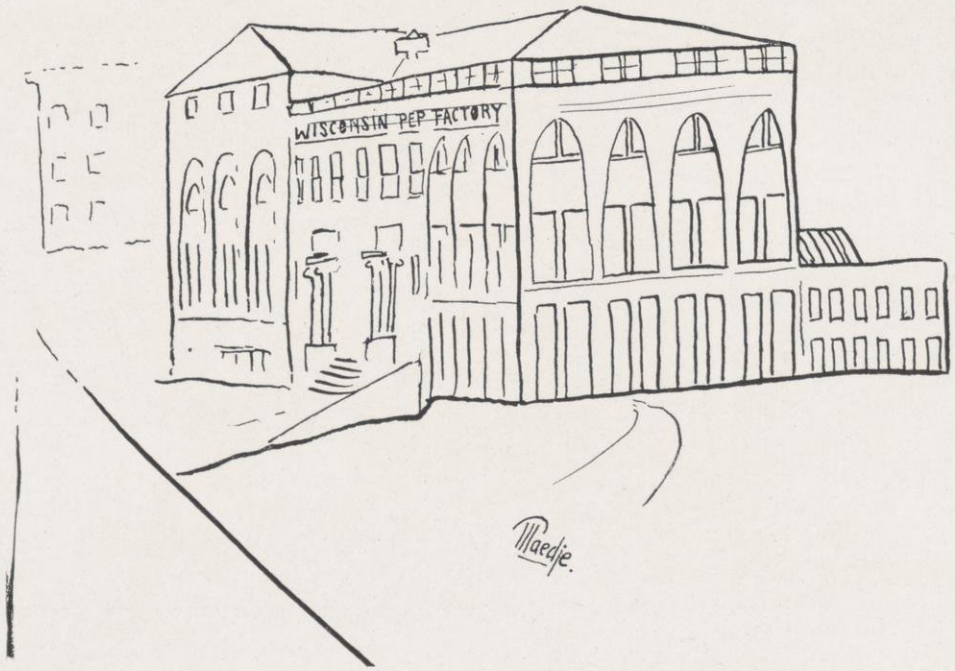
Patrick by name, with whom the Campus-Cut-ups on the right hand page here seem to have a drag. An Engineer, you know, can't like a man with no music in his soul, so they are exempt from any criticism of their part in the nasty affair; but if it is jealousy of the Engineers' intimacy with other saints that prompts the Lawyers to go so far as to laugh during a front porch meeting of the Factory Hands, the Legal attitude is inexcusable.

But we cannot soliloquize, we must hasten on to the bitter end. That promising, young Dash Osborne fellow, who has a crypt in the Mausoleum, assures us of the reason. Whst! The lawyers are mad because Pat left a few progenitors of our present-day Engineers on this Old Isle when he cleaned the place for Peggy O'Neil's ancestors some years ago.

Not only that, but—it is indeed regretable to have to say this about as nice a crowd of fellows as all deceased engineers surely are—any one with half an eye and a mind open to conviction, persuasion, occupants, callers, anything such as lawyers have, can get clearly the idea that the Engineers aspire to a rival *bar*. This then, we offer as the deep undercurrent causing such blood-thirsty animosity.

Now, it is only fair to both parties implicated to state right here, emphatically, that—

THIS IS THE END.



V. O. C.

There once was an organization
Which created quite a sensation.
Its purpose was clear
To those who held dear,
The mysterious charm of flirtation.

It was started at old Delta Gammer,
And at that without very much clamor;
For its qualifications
Made but three limitations,—
All the rest were open to amour.

These "Victims Of Circumstance" truthful
Admitted, that as they were youthful,
They'd been kissed once or more
By the Langdon Street door—
A crowd that would make quite a booth full

Young gentlemen, pray, get right in it,
Don't let this thing stand for a minute;
Van Arsdale, Wiehl,
And Peggy O'Neil
Should be captured—although dead agin' it.

Efficiency

(*Cutting down the costs to save expenses.*)

1. Having Ned Hill answer the bill collectors' calls so that they will know instantly that there is nobody home.
2. Removing the unused front seats in the class rooms.
3. Maintaining the promptitude of sorority house phone-hopping.
4. Choosing a quiz seat next to some "Professor's Delight."
5. Cutting through the Capitol on the way to a famous 5 o'clock gathering.
6. Inducing her to buy a roadster she cannot drive—theory expounded by Bubbles St. Patrick Mauer who put it into practice.
7. Gene Casserly, at eighty, taking lessons on a harp.

Beautiful Wisconsin Scenes

The Romantic Movement

THIS 'ere last fall I wanted some genural cultur, seein as I'd never known nuthin' but genural farmin', so I sines up with this 'ere Romantic Movement Coarse, under this 'ere Campbell. They named them high-advertized soups after him, you know, 'count of his havin' a line as smooth an' slippery as their best tomato brand. But I never been so disappointed in a line of gab in awl my life. Why, that high-brow prof stood up beehind that littul wash basin of a stool an' either told me lies or else wot I had known all my life anyhow, which amounts to lies, don't it?

He was always a-quotin' frum sum potry guy wot soundid like a Frosh wot has just been spilled into the lake and was consequenshal soured on life. One of them pome-fellows had a theory 'bout like this: "Wot the lips thirst for, must be reel someware." Now I could of told these innocunt enginears in that coarse just where they could find wot the lips thirst fer, and beleeve me, it's reel. It's just one reel after anuther, around the lamp-post and the corners. You know just a littul ways frum the (Helen) Park (inson) hotel, the plase where Windy Levis hangs around awl the time, Haw-haw, that littul plase the Delts call Home Sweet Home, and where the Sig Chi's tell their rosary beads over and over every night, the beads on top of them bumpers, hey, ain't it, Dash Osborne? You know that plase? That's where you find wot the lips thirst fer.

Then in a butiful drammy book it tawked about a angel with a head of fire. I've known fer about 5 munths who that wuz—it wuz this 'ere lady-killer wot thinks hisself a angel, this 'ere Hairuld Wengler. He names all the heroes in his stories Hairuld.

Old Bill Wordsworth, Mr. Campbell says, beleeved as how humanity wuz precipitated by nature. Is it, say! You should of seen ole Johnny Abbot fall over Mapul Bluff cave an' all! Now I don't mean that, Johnny—that's just a Bluff. And you should of seen this Looie Pradt get bowled over by a goat on the home farm onct. Precipitated by nature? My gosh, yes. But shucks, the Words of a guy like that ain't worth very much to me.

This Romantic Movement guy says reel literature demands sterling values—but you ought to of seen the Bursar gimme back a bum quarter and make me giv him a good one. Literachure ain't any better off than he is, is it.

On the hole, I feel I waisted my 12 bones in takin that coarse. I think I kin find more Romantic Movements in rell life than in Mane Hall. You get the best in the 5 reel ones at the Varsity.

And say, for Romantic Movements, you ought to see Vic Brady sidle up to Freddy Legler, or Berthy Biscuit raise them big eyes of hers up to Doc Meade. Romantic Movement? Gosh yes. Ain't it so, Doc?

"Awk! Awk! Awk! Awk!"

(The Ford turned the corner on two wheels.)

Blessings on you, Awk!
Silk-hatted progeny of S. A. E., the Awkwardly inclined.
You, rained upon us from an innocent sky,
Did liquidate the Sphinx,
Amassing numerous dimes.

Awk—
Distant relative of humor,
Nearest kin to co-ed thought,
(Pardon me, Louis, I forgot the Column),
We thank you for revealing exactly
What a Misogyn-ist.
We thank you for your covers,
Not hung upon our walls as ornaments, but held
In holy reverence
Unto their very shreds.
Ancestral Worshipper,
Again we thank you for your jokes;
Happy thoughts of childhood days they bring,
Or golden legends old.

O Awk—
Long life to you!
We hope never o'er your grave to weep,
Nor o'er your issues,—being always broke.

The All-Western Negative

Quarterback on our Forensic team upon reading the casualty lists of an S. G. A. mixer.

A Point of View

NOT being a Phi Gamm, I exhausted my supply of patience and found myself repeating the same cuss words before I got my collar fastened. "A lot of trouble," you might say, but a student at this University must get a little outside polish, even though with it, he acquires a little softening of the brain. Moreover, this night I was going to fuss Smiley, a co-ed who does not study in the fruit cellar of the Pi Phi house on Friday nights. Smiley appeared to be one of those girls who can look a waiter at Churchill's in the eye and say, "Garçon, a little green chartreuse," without the semblance of a blush. She was, nevertheless, from Lodi and was taking Home Economics. Therefore never say that a girl wastes her time at the University of Wisconsin.

"HE"

I chewed a package of Spearmint while Smiley was adding a little local color.

"I hope I didn't keep you waiting," Smiley followed the words through the parted curtains.

"Not at all," I answered, sticking five wrappers into my pocket and my tongue into the empty side of my mouth to preserve a regularity of contour.

The dance was just around the corner. We rode around in a taxi. "Two dollars, please."

Woman is now man's equal. Thus when Smiley appeared from the dressing room, I did not bow to her but tackled her around the waist, and avoiding the opponents' onrush, we dodged through a broken field. The orchestra beautifully played, "If You Hadn't Been So Bashful With My Mother, I'd Be Old Enough To Marry Now," and other outgrowths of the American artistic spirit. I caught snatches of intelligent conversations concerning Ev Dicken's new dress and the Beta's last mixer. "Here," I mused, "the spirit of our great co-educational institution best expresses itself."

"Isn't Mel Haas strong looking," whispered Smiley.

"So is the punch," I answered, for just then I saw Glen Richardson take a second glass.

The next moment, a couple, doing the sprints, almost knocked us down. I begged pardon for being in the way.

"Oh, that's all right," answered the good looking masculine member.

"Isn't he nice," said Smiley.

"I haven't enjoyed anything so much as that dance since I wrote off my last con exam. Turn off the lights, will you Jake? The two great menaces of civilization are Germans and——

Curtain.

Another Point of View

IT'S half-past eight, and he hasn't called me up yet! Now how do I know whether I'll have time to darn that ladder in my stocking or not! Of course, it probably won't show, unless Horace Simmons takes to doing that new Ferris Wheel whirl of his. Such dancing ought to be prohibited by Sittig-ation. Ah! the phone! Hello! Why-er, no, she isn't here. This is Smiley Smurk. Anything I can—oh, good-by! Well, the old crab! If I'd known he wouldn't ask me for a date, I'd have called her to the phone. She can have a man like that all to herself. Heavings! The doorbell! His voice, plague take him! And not a speck of powder on my nose! That's right, spill it all over the front of my dress. Yes, Grace, tell the animal I'll be down in a minute,—

"SHE"

Oh, hel-lo, Mr. Woodbefusser! Why, has it been twenty minutes since you came? Well bless your heart, I wouldn't have kept you waiting for anything! Where did you say we were going? What! The Studio! Why—I thought you said something about a Semi-formal! What? Good-night, I've given a date to the wrong—oh yes, that's lovely. I adore the Studio. The indirect lighting is so cunning. I always did like to have lights indirect.—

Oh, what a crowd there is here to-night! Oh no, I don't mind it at all. I like to come in contact with as many people as possible. Yes, you are certainly helping me that way tonight. Yes. My word, will you look at that short skirt! Really, Mr. Woodbefusser, don't you hate to see anything like that? Good looking! What do you mean, Mr. Woodbefusser? I'm surprised. No, your dancing is just lovely. Oh, don't say that. There's something so restful in just walking around, after a strenuous dance with Lester Reichert. Yes, he got 98 in Philosophy. I admit it, he is peculiar. Yes, I took "Man and Nature." I was so much more interested in the Man side of it. You know, you can't rely too much on Nature, even if you are naturally good-looking.

Pardon me, but couldn't I ride on your feet awhile? Turn about, you know. Oh, how could you think I meant it seriously! I was only starting to speak of Chin Chin, where the girl danced on top of the man's feet. I think that would be so cute, quite the reverse of the usual thing you know. A dance with Brigham Young? Oh, how delicious! He's such a beautiful man. There's real soul in his eyes, I just know it. And he wears such tasty shirts. Is he any relation to that man in Utah that had the harem? No? I thought perhaps the idea ran in the family.

Twelve o'clock, really! I'm so surprised! I thought it must be that about two hours ago. Oh, I've had such a thr-i-i-i-lling time. I enjoy a man like you, Mr. Woodbefusser. You're different from the rest. I'd like to know you better, because I feel that you have lots of good cents.

Well, Grace, will you believe me, I made a most horrible mistake! ! ! Oh, of course, he was painfully boring. He just looked stupid and intellectual all evening, and climbed all over my ankles, and chipped the toes of my new white shoes just awfully. I had a terrible time. Why, yes, when he asked for the date, I thought he was going to— Curtain

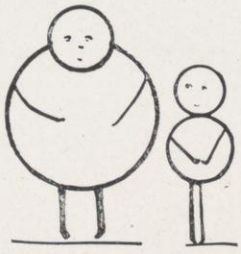
A Little Simplicity

For all Freshmen, some Sophomores, and a few Upperclassmen

I. SIMPLE DOPE.
II. SOFT SOAP.
III. AWFULLY SIMPLE.
IV. SIMPLY AWFUL.

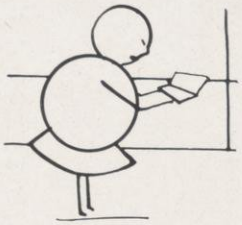
Speaks for Itself

Simple Dope

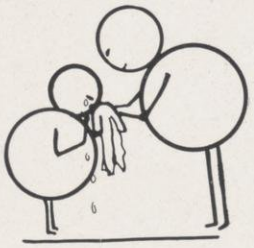


Louis Pradt
Is far from fat,
And "Bubbles" far from lean—
If the two could divvy up a bit,
They'd strike a happy mean.

Pat Morris was an Irishman,
But still he was no thief;
Yet when he met the faculty,
'Twas Pat that came to grief.



Eleanor Sheakley went to the cupboard,
To get her fair features "done."
But when she got there, her paint-box was bare
Of her dates she could not keep one.



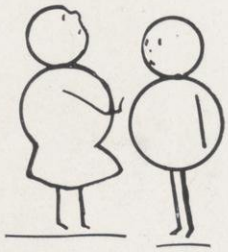
Hush, my little freshman, don't you cry,
You'll be a Beta bye-and-bye—
Get on any sub team and you'll get by—
Hush, my little freshman, don't you cry.

Bean porridge hot,
Bean porridge cold,
Bean porridge at the Gath
Nine days old.
Some like it hot,
Some like it cold,
But no one likes it at the Gath—
Nine days old.

Simple Dope

Goosie goosie gander,
Where do you wander?
Theta house, Kappa house,
And sometimes Delta Gammer.

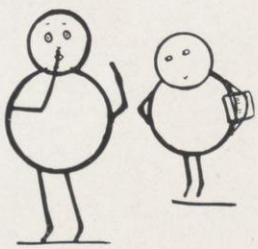
Where are you going, my pretty maid?
To see Dean Birge, kind sir, she said.
May I go with you, my pretty maid?
No, you're why I'm due there now, she said.



Twinkle, twinkle, co-ed fair,
Skirts and nose high in the air,
Far beyond my purse you lie,
There'll be no diamond 'tween thee and I.

Bloodthirsty Sophomore!

Fee fi fo fum,
I'm on the track of a poor Freshman,
And be he alive or be he dead,
Mendota's waters must cool his head.



Hush-a-by, "Glorious,"
Louis is near,
Keep it dark, keep it dark,
Much is to fear.
If he should catch you
On some student's mouth,
Student would find himself
Travelling south.

Freshman Traditions

From a young point of view

Soft Soap

(Things that every child should know.)

THIS is Mis-ter Ar-lie Mucks. He is big and strong and every-thing. The pic-ture shows him at his fav-o-rite game. Do the lit-tle Pi Phi's know what the game is? Yes—it is called "Skip-ping the Rope."

THIS is Rick Woll-ae-ger. He is great, too. He made Kap-pa Be-ta Phi. Af-ter that, Sig-ma Chi was easy. Rick has red hair. He is a Ger-man. Do you won-der that he is great?

THIS is a pic-ture of an Ed-i-tor. An Ed-i-tor is a man who writes books. This Ed-i-tor writes Bad-ger books. He wrote this book. Is'nt he busy?

THIS is Gim-me Lu-cre Gil-bert, the Bus-tar. Does the Bus-tar know Pa-pa? No. Does Pa-pa know the Bus-tar? Yes. He sees that name in his lit-tle boy's I-ti-mized Ex-pense Ac-count e-very month. The lit-tle boy can-not spell such hard words as "Or-phe-um" and "Fus-sing," so he puts lit-tle words like "La-bor-a-tory Fees" in the Ac-count. Isn't the Bus-tar wick-ed to charge so many La-bor-a-tory fees?

Through editorial negligence there is no "Bubbles" in Soft Soap.

Simply Awful

Finishing Touches

One of the Finished Products

It remarks to its valet: "Eucalyptus, my good man, lay out a pair of Bostons. Too chilly, you know, for the Paris."

Get This Wit

She—"How do I look to-night?"
He—"O, fair to middleton."

Note by the editors: (15 miles at $0.0200 a mile)
Get us?

Acquire the habit of using Bock, the Sigma Phi face wash.

Looks like rain; tastes like soup—The Awk.

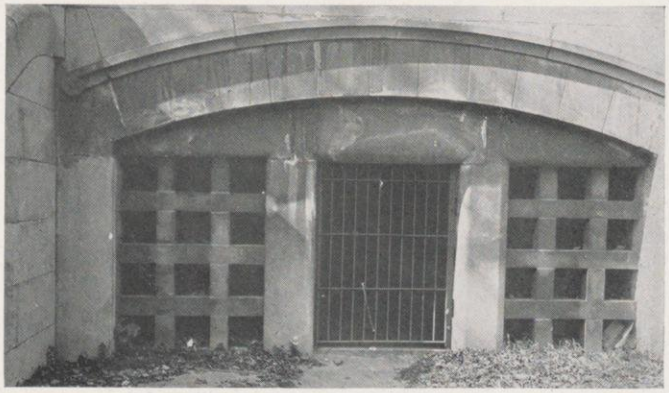
British

Archie—"The Pi Phi arrow signifies velocity. That is why the guhls a' so devilishly pawpula', yu know."

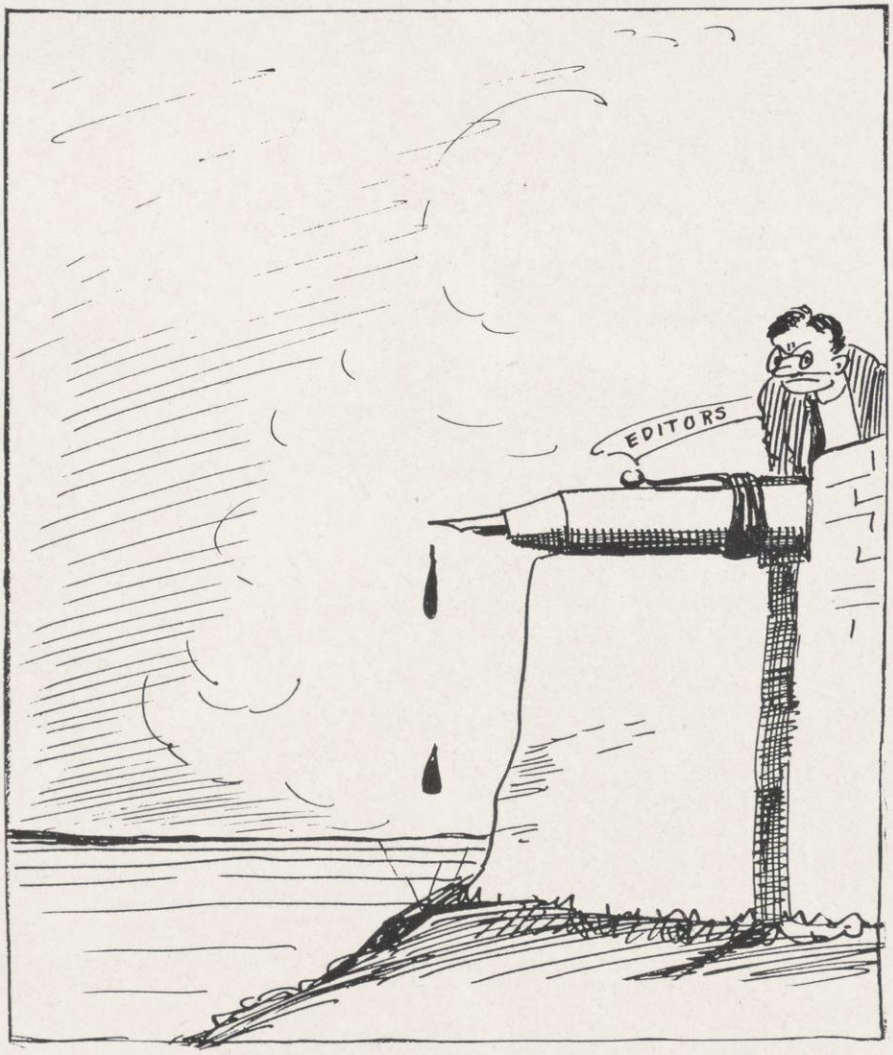
Now, Archie! You are a dashing fellow, but we can't hand your insight into the fussing situation a thing. (We are terribly sorry that this unfortunate subject arose and inserted the above remonstrance to show our displeasure—nay, more, our disappointment, even—Ooo, perish the thought!) We bite, Arch, why are they popular?

To the man, be he 'live or Alpha Delt, who will tell Eddy Asahel Birge what is thought of him by some students some times, is offered a worn bicycle.

When We Are Finished



Entrance to the Stiff Lab.



Our Last Line of Defense

Perhaps a Soliloquy

AWAY *from the many calls for copy, the telegrams whistling back and forth concerning Cut number "seven hundred and what not," the final arguments with Mr. Blank regarding his page or section, and all the multitude of conflicting, bothering noises that surround our Editorial office—we seek a few moments of solitude to reflect upon a year's experience and, incidentally, to write "filler" for the last Editorial page of our Book. Having previously indulged in a foreword, we do not intend to present any explanation of the many things we have tried to incorporate in this volume, nor will we endeavor to apologize for any imperfections. We realize that the possibilities for improvement in a book of this character are numerous. We have tried to seize upon a few and develop them. If we have failed, we are sorry; if we have been fortunate enough to succeed, we are grateful. We have put forth every effort to avoid mistakes in names, facts, cuts, and records, and hope that the number of such will be a minimum. We hope, too, that no satire will be so keen as to justly offend, and that no freedom in the use of nicknames will be mistaken for lack of respect on the part of the Editors. In short, it is our vain hope to have pleased everyone.*

We feel that this publication represents a great deal of effort, interest, and application on the part of many persons, and that whatever may be its faults or shortcomings, due praise should be given to those responsible for its more favorable points. We wish, first of all, to sincerely thank the Printers and Engravers for their personal interest and co-operation throughout. We are deeply indebted to Mr. Baumgartner, of the Cantwell Printing Co. for his unceasing and painstaking efforts to produce a well printed Badger, and to Mr. J. J. Sher of the Bureau of Engraving, for his many suggestions and criticisms covering the planning of the entire book. The entire Badger Board, especially Miss Eleanore Ramsay, Messrs. Gerold Luebben, Edwin Gould, Harold Wengler, Al Sandberg, and Clarence Grosser, are deserving of high commendation for the meritable aid in their respective departments. To the quota of advertisers, photographers, members of the faculty and the host of others who co-operated with us in many ways, we feel an inexpressible debt of gratitude. We appreciate it all. In conclusion, let it be said that we feel more than compensated for the work of the past year in that it was one of pleasant associations, and in that it presented the Opportunity of serving Wisconsin as best we could.—The Editor.

DON'T BE MISLED

IF advertisers offer you Malted Milk that is not "HORLICK'S" then beware of substitutes. Some dispensers buy a cheap grade of Malted Milk but charge *you* the same price as for the *original.* You don't relish being imposed upon by such questionable methods. To protect yourself, when ordering, be sure to *insist* upon and *get*

HORLICK'S

The Original

MALTED MILK

The Standard for over a quarter century.

Very refreshing and nourishing after a "grind" or a turn in the "gym," or a "hike."

More beneficial than tea or coffee.

At all fountains. Also sold in sealed glass jars, for preparing in room or club.

The quality that comes from more than 50 years of concentration on the manufacture of "longer service" valves explains why

Jenkins Bros. Valves

are the choice of those who recognize the valve equipment as a permanent part of the building, to be specified on the basis of service-giving capacity. ¶ There is a Jenkins Bros. Valve for practically every purpose — for plumbing, for heating or for power. All genuine bear registered trade mark as shown in the cut. ¶ Catalog descriptive of the entire line mailed on request.

Rent Money Buys A Summer Home

"Best For The Camp" Bears The "GOLD MEDAL" Stamp

Why pay $25, $30, $40, or more per month to rent a summer home, when for one season's rent you can buy and *own your* summer home—one that you can easily take anywhere, or quickly take down and store for the following season. The famous

"GOLD MEDAL" FOLD-UP Portable House (Pat. No. 1170188)

is light, strong, convenient to pack, easy to put up or take down. Sanitary—perfectly ventilated—screened—comfortable. Ideal for summer "outdoor sleeping" houses. "Gold Medal" patented folding frame construction means convenience and long life. Sizes, 1 to 5 rooms. Ask your Sporting Goods Dealer or Tent Mfr. to tell you about "Gold Medal" FOLD-UP Houses and Folding Tent Frames.

WRITE FOR CATALOG "B" showing "Gold Medal" Houses. Also Catalog "A" of folding camp beds, cots, chairs, tables and other camp equipment. If you intend going camping or establishing a summer home, you'll want both these free books. Write for them today. Valuable **Camper's Manual** for 10 cents in stamps. If your local tent maker cannot tell you about the wonderful "Gold Medal" Folding Tent Frames, ask us.

FREIGHT BAGGAGE

THE MILL BRAND

THIS TRADE-MARK IS PROTECTED BY REGISTRATION IN THE UNITED STATES PATENT OFFICE. ALL CASES, BUNDLES OR PACKAGES CONTAINING PAPER OF OUR MANUFACTURE ARE PLAINLY STENCILLED WITH THIS TRADE-MARK.

Any person, firm or corporation who states that we are not paper makers, or that we make for them or others, any paper carrying a dealer's private watermark or brand, is either misinformed or guilty of willful misrepresentation.

We make all the papers that we sell, therefore know of what and how they are made, and each grade carries with it an unwritten guarantee of suitability for the purpose for which it is recommended. Back of the guarantee is a Plant representing an investment of several million dollars, and an enviable reputation for fair dealing.

Our Trade-Mark, our Water-Mark and our Brands are, therefore, an assurance to the buyer that the same paper is not offered to him under a dozen or more names at different prices, and an obligation on us to maintain quality that it would be business suicide to trifle with.

As a further protection to buyers as well as ourselves, our products find a market only through our own warehouses and our recognized agents.

We welcome inquiry, and will gladly furnish samples on request.

We Find It Very Easy

To run a laundry that will please our patrons: that's our business. We are not afraid to tell why it is that we find this business so easy. We run it to suit you; that's only right. You pay the money, that's your business. All the same, there are lots of laundries where you pay the money and get all the trouble. Because we take the trouble, is why we are getting too large in a business way.

"Bureau" Supremacy Commands Attention!

LOOK back over the past years and ask yourself what other Engraving Institution, specializing in college annuals, has wielded so wide an Influence over the College Annual Field?

Ask yourself if College and University Annuals are not better today because of BUREAU PROGRESSIVENESS and BUREAU INITIATIVE?

You know that the BUREAU OF ENGRAVING, Inc. inaugurated the system of Closer Co-operation with college annual boards in planning and constructing books from cover to cover.

Our marked progress in this field commands attention. Our establishment is one of the largest of its kind in this country. Our Modern Art Department of noted Commercial Art Experts is developing Artistic Features that are making "Bureau" Annuals Famous for Originality and Beauty.

And again, the help of our experienced College Annual Department is of invaluable aid. Our up-to-the-minute system, which we give you, and our Instructive Books will surely lighten your Burden.

A proposition from the Natural Leaders in the College Annual Engraving field from an organization of over 150 people, founded over 17 years ago, and enjoying the Confidence and Good Will of the foremost Universities of this country, is certainly worth your while.

Is not the BUREAU OF ENGRAVING, Inc., Deserving of the Opportunity of showing what it can do for - YOU?

HARMONY

"How parts relate parts, or they
To whole the body's harmony"—Pope

It is essentially necessary that the several units of a room setting be in perfect harmony in order to produce a pleasing whole and that the quality of the reproduction be in harmony with the quality built into furniture during the period after which it is patterned; otherwise there is incongruity of purpose. It is therefore evident that in order to have harmony, settings must match perfectly in design, quality and finish. Our stock is replete with choice suites for dining room, living room, library and hall, faithful in conception to the most popular period motifs, distinctive for the fine quality at a medium price and for the comprehensive guarantee protecting the customer.

BAILEY FURNITURE CO.
412 State Street

Madison, Wisconsin

A CITY with an Honorable Past, a Busy Present and a Brilliant Future; famed for its Beauty, Culture, Industry and Thrift; with a population of 30,000; almost surrounded by the "Four Lakes," the most beautiful lakes in America; the seat of the University of Wisconsin. A city of "Atmosphere, Achievement and Ambition," worthy of wider development and greater growth. *The Wisconsin State Journal* is enlisted for the establishment of this, through the creation of a Productive, Progressive, and Public Spirited Civic Consciousness.
