## TEAM PICKED TO JUDGE IN STOCK SHOW

College of Agriculture Will  
Send Men to Interna-  
tional Exhibit

An International livestock judging team composed of Arthur M. Carmody, Mount Hope; Alvis A. Fix, Reisburg; George O. Toepfer, Madison; James R. Ballantine, Bloomington; George H. Clapp, Madison; and Phillip W. Gates, Madison, seniors in the College of Agriculture, will compete with teams of 21 different colleges representing states from New York to California at the International livestock show to be held in Chicago, November 27 to December 4.

The Wisconsin team has been chosen from men who have been judging livestock since early in the fall, under the supervision of Professor James G. Fuller. The competing teams will judge classes of beef, horses, sheep and swine. Professor F. Kleinheinz, recognized as one of the best shepherds in the United States, coached in sheep judging, and Professor G. Bohstedt in swine judging. Professor Fuller instructed in the work on horses and beefs. Herds and materials in all parts of the state including the university herd and flocks have been used by the team in preparation and practice.

The International livestock exposition is an annual event and is the largest of its kind. Animals of national fame will be shown. The Wisconsin team will leave for Chicago Thanksgiving day at 1:45 p. m.

## THREE SCENARIOS CONSIDERED FOR VARSITY MOVIE

Work of Filming Will be Begun  
as Soon as Selected Scenario  
is in Form

The competition for the \$25 prize offered by Edwin Booth for the best scenario submitted in the Varsity Movie scenario contest has been narrowed to three contestants. The three scenarios under consideration by the committee, composed of the heads of the several dramatic societies are: "Frenzied Fussing," by Lincoln Quarberg; "New Blood for Old," by Al Hartlet, and "The Man Who Fell," by John Richards.

Work of filming will be begun as soon as the scenario selected is re-written in continuity form. Much interest is being shown among the various woman's organizations on the campus, many of which are entering women for leading and minor parts. Lists of women are being received at the Movie office in the Union building. There will be opportunity for a large number of people to appear in minor parts as well as leads.

Each person entered in the try-outs will have an opportunity to actually work before the camera and the results will give the judges an accurate basis as to how well they screen.

**ATHLETIC BOARD**  
The Athletic board will meet today at 12:45 in the University gym for the purpose of making "W" awards in football.

### SUIT OR OVERCOAT?

Make your Toes Earn your Clothes Says Al Davey After Chicago Game

Allan Davey earns his clothes with his feet. For making the first score in the Wisconsin Chicago game Davey has his choice of the best overcoat or suit of clothes in Jerrem's haberdashery, N. La Salle street, Chicago.

"Which are you going to choose?" asked the impudent reporter.

"Well, er, you see, I got a coat—"

"And you haven't a suit," helpfully suggested the reporter.

"Well, yes I have, but I like the thought of going home at Christmas time all togged out in a new suit that I earned with my own little toe."

"Oh, how can you wait until Christmas to get it?"

"I am going to get it on my Chicago trip."

"I see, you like Chicago. That's why you always wait until you get there to make all your best plays."

Davey modestly refused to discuss this point nor would he describe the kind of suit he intended selecting.

### GETS THE TURKEY

W. A. Sherman Wins Annual Turkey Race—62 Entries

Finishing ahead of a field of 62 entries, W. A. Sherman, L. and S. '21, copped the annual Turkey day long distance run Tuesday in the time of 6:2-4 minutes. The finish was close, with Carl Rossmeissel closely the winner to the tape. R. L. Hohlfeld finished third, followed by J. W. Powell, fourth, and H. F. Copeland, fifth. The last man to come under the wire was G. S. Derby, who finished long after the other contestants had reported to the scorer. The course was 1.7 miles.

Sherman was awarded the Dr. Elsom Turkey day race cup and a live turkey. The other four men who finished within the first five received a live goose, duck, hen, rooster, and the last man to finish received an egg. Blue ribbons were given to the first fifteen men who finished.

The field of distance men faced the starter in front of the gym at 12:15 Tuesday noon, and the men got away to a fast start. Taking the drive up the hill and behind Bascom hall, the novice cross-country runners followed the Charter street course to University avenue and then doubled back to the gymnasium. A moving picture operator was on hand to get pictures of the finish.

### PRESS CLUB WILL INITIATE TUESDAY

The initiation of the 54 new members of Press club will be held Tuesday, November 30. The new members are expected to learn the Press club toast, which is written on the board in 37 South hall. All members, new and old, are to be in line at Lathrop hall at 5:15 p. m., and will take their suppers into the S. G. A. room. After eating, the initiation ceremony will be held.

### RED DOMINO INITIATES

Six upperclass women were formally initiated into Red Domino dramatic society last night. They are: Gladys Borchers, Frances Farington, Joy Shabolt, Margaret Emmerling, Christiana Affeld, and Ruth Koppke.

After the initiation, a banquet was given at the home of Edith Royce, 610 N. Lake street. The initiates gives an original sketch entitled, "Josey, the Faithless," in three spheres. Miss Gertrude E. Johnson, assistant professor in the department of speech read from the play Marpessa, by Stephen Phillips.

### FRANCE HAS TOO MANY ARTISTS IS OPINION OF TAFT

American Sculptor Addresses Large Audience in Bascom Hall Yesterday

"We live in the midst of beauty and are unconscious of it," said Lorado Taft, sculptor, who talked on French sculptors to a large audience in Bascom hall at 4:30 p. m. yesterday.

"When I see nature growing as though to slow music," continued Mr. Taft, "I wish that some glow of the so-called dark ages could reach us who are so self-sufficient. People today, especially in America, are not only ignorant of art, but do not understand the language of art. When I talked to the American soldiers in France, I found it necessary to revise all my lectures in order to make my sentences intelligible.

"Unlike America, France has almost too many artists. There is not enough work to go around. The French love to carve and design.

"There is a fashion in art as well as in dress, and each type of work has produced wonderful results."

By means of slides, Mr. Taft illustrated his lecture, showing some of the representative types of art. One inspiring work in relief by F. Rude, formed on side of a triumphal arch. It represents soldiers pushing forward eagerly to battle with swords drawn. This arch forms a great triumph in French art.

"Another French sculptor, Fremier, favored the demand of the public for something dramatic. In his group called "The Bear Hunter," he represents a bear cub breaking a hunter's back. This work shows wonderful skill but rather doubtful taste.

"The grace and smoothness of classic art was favored for a while, but there came a reactionary period in which the demand for sensationalism was prevalent. However, this is considered bad taste in art. It has been encouraged deplorably, not only in French sculpture but in American poetry as well.

"Those who are leading the real Renaissance are those who are going back for material to the soft stone of the cathedrals. Until we return to simplicity there will be no revival of true art," continued Mr. Taft.

### ONLY 250 TICKETS ARE ON SALE FOR ANNUAL FOLLIES

With the ticket sale limited to 250, the mail order sale for third annual Haresfoot Follies in Lathrop gym, Saturday, December 4, opens today. The sale is limited because of the extra floor space required to put on the six specialty numbers produced by a cast of Haresfoot stars, including Wells Carberry, "Sunny" Ray, and "Sparks" Dodge.

The Follies mark the first appearance of the Haresfoot club since the production of "Marys Lamb" last spring. The success of the headliners of the Follies at the Wisconsin alumni dinner at the Hotel Sherman in Chicago last Friday night points to an unusual entertainment. Dancing to Thompson's first orchestra is scheduled between the numbers.

Mail orders should be sent to A. H. Fee, 627 N. Lake. Open sale starts Tuesday, November 30, at Morgan's and the University Pharmacy. Admission, covering dancing fee and war tax is placed at \$2.00.

**IOWA GETS NEW COACH**

### RIPON GAME IS FIRST CONTEST FOR NET TEAM

Five Football Men Report  
to Coach Meanwell—  
Fanning Injured

With but ten days remaining before his first preliminary game of the 1920-21 season, Coach W. E. Meanwell is sending his squad of basket tossers through strenuous daily work-outs at the gym. Harold Olsen will bring his Ripon team here on December 4, and the varsity men will find no little competition in this five. Of the 50 candidates who reported for the initial practice on October 2, 10 remain. These men, with the addition of five football men, will probably compose Meanwell's squad.

The Badger quintette received their first set-back of the year last night when Willis Fanning was injured, and forced to retire to the hospital for treatment. In scrimmage with the freshmen, Fanning tore the ligaments of his ankle, and may be out of the game for the greater part of the season. Coach Meanwell will be obliged to make a shift in his line-up, if he is unable to uncover another center candidate from his football material. Clarence McIntosh could fill the gap were he eligible, but he must pass incomplete examinations.

#### Football Men Report

Football men reported for equipment Monday night, and will join the squad this evening. Dr. Meanwell is depending upon the football men to bolster his defense, and hopes to develop a center from the group. All of the five men who will report are experienced basketball men, three of them being letter men on Coach Lowmans 1919-20 quintette.

Ex-captain "Mike" Knapp and "Red" Weston will not turn out immediately, owing to slight football injuries. Both men will probably take several days rest, and start work with the squad next week. Knapp and Zulfer were the main cogs in the Wisconsin offense last season. Knapp was the only Badger man to receive a berth on the All-conference five. Weston played the entire season at guard.

It is still doubtful as to whether Sundt intends to play basketball this season. He is still bothered with his ankle, which would cause difficulty on the basketball floor. "Gus" Tebber, another guard, played last year on the freshman team. Eggebrecht was a member of Kent's 1923 aggregation, and will join Coach Meanwell's squad this week. "Rollie" Williams was on the side-

## PUBLIC SPEAKING DEPARTMENT IS GIVEN NEW NAME

Will be Known as "Department  
of Speech" as Result of  
O'Neill's Recommendation

The "department of speech" is  
the new name recently given by the  
board of regents to the division of  
the College of Letters and Science  
which was formerly known as the  
department of public speaking.  
This change, which was made upon  
the recommendation of Professor  
James M. O'Neill, chairman of the  
department, is an infromity with a  
general movement going on for  
several years to bring about a more  
accurate use of terms in this field.  
The department at Wisconsin has  
been interested for many years in  
all phases of speech, study and

training, both private and public.  
Considerable attention is given to  
defective speech, stuttering and  
stammering. The name public  
speaking has been too narrow to be  
an accurate label for the department.

Professor O'Neill will retain his  
former title of professor of rhetoric  
and oratory, while Dr. Blanton's  
title will be changed to associate  
professor of speech hygiene. The  
titles of other members of the staff  
will use simply the department  
name "speech."

The National Association of  
Teachers of Speech recently changed  
its name from the National Association  
of Teachers of Public Speaking. The Quarterly Journal  
of Speech Education, of which Professor  
O'Neill has been the editor for  
six years since its foundation,  
was originally called the Quarterly  
Journal of Public Speaking.

## VILAS FUNERAL IS WEDNESDAY

Dr. Haydon to Officiate at  
Unitarian Church; Burial at Forest Hill

Funeral services for Dr. Charles H. Vilas who died yesterday morning will be held Wednesday afternoon at 3 o'clock at the Unitarian church, Dr. A. E. Haydon of the Chicago university department of comparative religion officiating.

Interment will be at Forest Hill. Among those from out of the city who will attend the funeral will be Charles A. Vilas, a nephew, and Mrs. E. P. Vilas, the latter's mother, of New York city. The bearers are to be five nephews and nephews-in-law: Charles A. Vilas, George A. Gary, Allan Henmon, L. M. Hanks, and Lucien J. Pickarts, and Dr. H. V. Halbert of Chicago, an old friend of Dr. Vilas.

Dr. Vilas is the last of his distinguished generation of Vilases, of which only the widows of his brothers, William F., Levi M., and Edward P., survive. The first resides in Madison, second in Chicago, the last in New York city. Nieces and nephews, his nearest of kin, are Mrs. L. M. Hanks, Mrs. Lucien J. Pickarts, Mrs. George E. Gary and Mrs. V. C. Henmon, all of Madison, Miss Margaret Vilas of Chicago, and Charles A. Vilas, attorney of New York city.

### WORK OF GRADUATE HONORS WISCONSIN

Library School Graduate Secures Position in League of Nations Library

The position of assistant librarian in the library of the League of Nations at Geneva is held by a graduate of the Wisconsin Library school, Miss Mona Nyhus. She was offered this position when returning to her home in Norway after completing the course in the Wisconsin Library school. Miss Nyhus' father is the librarian at the Deichmanske Bibliotek, Christiana.

This appointment is characteristic of the scope covered by the library school at Wisconsin, according to Miss Mary E. Hazeltine, preceptor of the school. The fact that the school is one of the leading library schools of the 12 in the United States attracts students from practically every state. The present enrollment, which is higher than the average number enrolled in such schools in the United States is 28. Another student from Norway is enrolled in the course this year.

Since the beginning of the course in 1905, 420 students have been graduated. They are working in practically every state in the United States; one is working in China; another in Norway, and another in France. Owing to the scarcity of trained librarians salaries have increased rapidly in the last few years and graduates of the school have a choice of many positions.

### WEATHER

The highest temperature during the past 24 hours was 38 degrees at 4 p. m., the lowest was 32 at 3 a. m. Rainfall was .02.

Heavy rain and high wind in the north Atlantic states accompany the passage of the storm that was here on Sunday. The weather is unsettled and cloudy in the Mississippi valley and on the plains. Clear weather accompanies high barometer on the Pacific coast.

### READ! ACTION!

Cadet Corps to Stage Military Movie as Novel Feature

The Cadet corps movie is to be run off Saturday afternoon. This film is to be a "feature" showing the University R. O. T. C. in action. Every section of the cadet corps is to be represented. The infantry will demonstrate modern war methods and skirmishing. The artillery will demonstrate the way in which the big guns are handled, and the signal corps will erect a radio set and other signalling apparatus.

The men taking part in this work will be conveyed by truck to a place representing country under war conditions, where the pictures will be taken. The university photographer will do this work. This is the first time that a university organization has put on a moving picture exhibit.

Upon completion of the picture it will be shown at the down-town theaters, as well as at other places in the state and country.

### RIPON WOMEN HEAR FORMER DEAN SPEAK

Mrs. Lois Mathes Rosenberry, former dean of women at the University of Wisconsin, gave an interesting address in celebration of the formation of a new Woman's Self-Government association at Ripon, Wis.

"Set a social standard that you will not merely live up to, but one you will believe in, and elect as officers girls who will represent those ideals of womanhood not only to you, but for you to the young men of the college," said Mrs. Rosenberry.

The organization has been undertaken as the result of several years of agitation and planning, the initial step having been the formation of a women's council last year. The association, just started, is for the purpose of regulating all matters concerning women students which do not fall under the jurisdiction of the faculty, for the furthering of a spirit of unity, and or the setting of moral standards for the college.

## FARMERS PAY BIG SHARE OF INCOME TAX

Will be Assessed Over 22  
Percent of Dane  
County Total

**TOTAL TAX \$199,397**

Increase of \$44,000 Over Last  
Year Says Report  
Today

Of the 9,489 persons in Dane  
County who will pay 1920 income  
taxes, 2,521, or 26 1/2 per cent, are  
farmers, according to the annual  
report of Harry Jerome, assessor  
of incomes in Dane county, which  
has just been issued. These fig-  
ures do not include taxes on cor-  
porations.

The total taxable income of  
1920 is \$12,650,658. In 1919 it was  
\$9,264,950. The total income tax  
this year will be \$199,397.45, an in-  
crease of about \$44,000 over last  
year. Of the total, the farmers  
pay \$49,274.05.

Mechanics and tradesmen, whose  
incomes are taxed, follow, their  
number being 1,263. The smallest  
group whose members pay income  
taxes are manufacturers, there be-  
ing but 45 of these. The next  
smallest group includes public of-  
ficials, of whom but 56 pay income  
taxes.

The tables given in the report  
comparing 1919 and 1920 figures  
show the following facts:

In 1919 2,560 farmers paid 24.78  
per cent of the entire county tax,  
while in 1920 the number had fallen  
slightly, 2,521 farmers paying  
22.20 per cent. In 1919 776 me-  
chanics and tradesmen paid 5.54  
per cent of the income taxes, while

in 1920 1,263 will pay only 4.47 per  
cent of the total.

Another classification in which  
there has been a notable increase in  
the number paying income taxes is  
that of professors and physicians.  
In 1919 the number of those taxed  
on their incomes was 167, while this  
year it will be 354. The percentage  
of the tax paid by this class in  
1919 was 1.68, while this year it  
will be 3.77.

Next to the farmers, the largest  
percentage of the entire income  
tax will be paid by 655 merchants  
and jobbers. They will pay 16.38  
per cent. Last year there were 603  
who paid 12.58 per cent.

Large increases have been noted  
in the number of income tax payers  
in the following classifications: pro-  
fessors and teachers, 430 to 621;  
public service employees, 125 to 471;  
retired and unoccupied, 145 to 275;  
unknown, 165 to 343; miscellaneou-  
occupations, 589 to 741; physicians  
and surgeons, 100 to 167. A sharp  
decrease is noted in the manufac-  
turers' classification, 176 having  
been assessed for income tax in 1919  
and paid 11.42 per cent of the total  
tax, while in 1920 45 will pay 5.83  
per cent.

Lawyers pay the heaviest average  
tax, the 81 attorneys assessed in the  
county paying an average of \$94.40  
each, as compared with \$74.68 last  
year. Trustees and estates come  
next with a tax of 63.55 each on  
the 81 this year. Last year 106 paid  
\$45.75 each. Next in order are  
merchants and jobbers with a \$49.  
86 tax each. The lowest average  
tax listed is paid by the 832 com-  
mon laborers taxed who pay \$3.72  
each. The second lowest are clerical  
workers, including bookkeepers.

### VILLAGE TAXES RANGING FROM 10 TO 70 MILLS

The highest tax rate in any of  
the 317 villages of Wisconsin this  
year was 70.6 mills on 57.66 per  
cent valuation, and the lowest was  
10 mills on 66 per cent valuation,  
according to a village tax table  
which has just been prepared for  
the first time by the Municipal In-  
formation bureau of the University

**WAY TO EARN MONEY IS ESSAY SUBJECT**

Eight prizes amounting to \$75.00 are being offered for the best essays on "Five Ways of Earning Money at College," by Arthur Murray, the man who worked his way through Georgia Institute of Technology by giving dancing lessons.

Two of the ways presented must be original; the other three may be based on the experience of others. The contest closes December 1.

Murray made \$15,000 a year while in school, according to an article in Forbes magazine, by giving dancing lessons. His class of 600 children dancers was the largest dancing class in the world, the article states.

Following is a list of the rules of the contest:

1. Any students may enter the contest. \$75 in prizes for the best essay on "Five Ways of Earning Money at College."
2. At least two of the methods of earning money should be original; the other three may be based on the experience of others.
3. If you are working your way through college, state this fact and tell in detail what you are doing.
4. The essay should contain not more than 500 words.
5. The prizes: First prize, \$25; second prize \$15; third prize \$10; fourth prize \$5; fifth prize \$5; sixth prize \$5; seventh prize \$5; eighth prize \$5.
6. The winning essays will be published in a leading magazine. The contest judges will also be announced later.
7. Contest closes December 1. Send manuscripts to Arthur Murray, 143 East 39th street, New York, N. Y.

**NEED FIREMEN**

MILWAUKEE—A shortage of regular firemen has forced students to fire the boilers of the heating plant of Marquette University here it was announced. Students of the department of engineering are doing the work. When it became known that students would have to do the firing, student sentiment pointed to the engineers, for it was stated they should know more about shoveling coal than students of any other department.

**INDIAN POET SAYS WE HAVE NO CALM**

Sir Rabindranath Tagore.

Sir Rabindranath Tagore, the great philosopher and mystic poet of India, who recently witnessed the Yale-Princeton game, declared before leaving the university that there is no calm in America. "This is probably due to your climate," he said. "You do not commune enough with the Almighty." He said he was not surprised at the size of the crowd, for in India the football association attracts "nearly twice as many." It was the "color and organization of the crowd, and the style of play" which he noticed.

**WILL SERVE MEALS DURING HOLIDAYS**

The university Y. M. C. A. will keep its cafeteria open for the convenience of the students who remain in Madison over all holidays of the school year.

Special preparations are being made for the Thanksgiving dinner. Regular meals will be served all the rest of this week, with two exceptions: Friday evening when the boys attending the annual Older Boys' conference will hold their banquet, and Saturday noon.

The university Y. M. C. A. also expects to keep its cafeteria open during the entire Christmas recess for the benefit of the students who live too far to go home. During this period, the weekly payment plan of meals will be put into effect instead of the regular cafeteria scheme.

**INDUSTRIAL WORKER SPEAKS AT VESPERS**

The importance of a world wide convention of representative women to create and support women's industrial standards will be discussed by Frieda Meyer, delegate to the National Industrial conference of the Y. W. C. A. in 1919, at Y. W. vespers next Sunday evening.

Miss Meyer was one of 65 women who met in conference at Washington in October, 1919. While there, she was a guest at the International Conference of Working Women, at which 19 countries were represented.

The purpose of the international conference, as interpreted by Miss Meyer, coincides with that of the Y. W. C. A. conference in that they both aim to erect a set of industrial standards for women. Miss Meyer attaches much significance to the fact that the need of industrial standards for women has merited an international conference.

**BOXING IS PLANNED**

RHINELANDER—Preparations are being made here for a schedule of boxing contests to be conducted during the winter by the 25th Separate Guard Company, which have been granted a boxing permit by the state. These bouts will be the first held in this city since the appointment of the state boxing commission it is said.

APPLETON—The Appleton Chamber of Commerce has arranged a series of six lectures on subjects of particular interest to business men, to be given at intervals of one month during the winter, it was announced today. The first two lectures will be given by H. W. Sprague of Milwaukee, field director of the internal revenue service, who will explain federal income tax laws. Other lectures will deal with business organization, business system and auditing.

A large number of seniors who have had their pictures sent in for the Badger have not as yet sent in their summaries, and no pictures will be used without summaries. In order that the time and expense of having photographs made should not be lost, seniors should see to it that their summaries are sent at once to the Badger office, the editors state.

"December 1 is the last day," says Margaret Chambers, who heads the senior section of the Badger. "We are not going to accept any summaries that are turned in late. Blanks were mailed to all those listed as seniors, but any one who was overlooked may obtain a blank by calling at the Badger office. It is necessary to use the summary cards in order that all of the required information should be included."

Seniors who have sent in summary cards early before they had decided on their thesis titles may have the titles of their thesis inserted by calling the Badger office.

**MAY FUSS SUNDAYS**

The rule forbidding Sunday dating at Grinnell college is in danger of being rescinded. It is now the subject of much debate on the part of the women's league.

**ENROLLMENT BOOSTS**

APPLETON—Night school enrollment here has increased more than 50 percent since the plan of holding classes in the ward schools was adopted at the beginning of the year, it is stated by school officials. The present enrollment exceeds 800, while 150 prospective students have been turned away because of a lack of accommodations.

## LET US GIVE THANKS

**T**OMORROW the American people will turn from their ordinary vocations to observe Thanksgiving. This holiday has become firmly rooted in our national life and is one of the traditional marks of our greatness.

The idea of setting aside one day in the year at the harvest season to render thanks grew out of the naturally devotional nature of the Pilgrim Fathers. Year after year they clung to their practice and the custom was taken up by the whole nation.

The danger in institutionalizing any observance lies in the fact that the spirit tends to be swallowed up in the form. After all, Thanksgiving is more than an occasion to enjoy turkey and cranberry sauce and to sit before the log fire chatting with old friends.

We have every reason to be inspired with the same fervor that animated the Pilgrims. When we disregard their spirit we rob Thanksgiving of its greatest value.

It was exactly three hundred years ago that the Mayflower braved the waves dashing high on "the stern and rock-bound coast." The associations of this anniversary ought to impel us to observe tomorrow in a manner befitting the memory of those who first gave thanks in the New England wilderness.

## THE LIBRARY QUESTION AGAIN

**A**S the mid-semesters approach and the necessity for hard study stares us in the face we find ourselves up against the old problem of dishonesty in taking reference books out of the library.

Early in the year this matter was touched upon in the editorial column of the Daily Cardinal and an appeal was made to the students' honor to prevent a recurrence of the evil. Similar appeals have been made to classes by faculty members. However, the entreaties fell upon deaf ears.

The practice is now as common as it ever was and seems to be getting worse instead of better.

Persuasion has apparently failed and the students are deliberately inviting disciplinary measures to bring them to a sense of decency. To resort to detective work and the infliction of penalties on the guilty would be a sad commentary on the student body. It would be a confession of moral weakness—a quality which we are proud to say has never been characteristic of Wisconsin.

The point is that the reference books must be kept where they belong whether the method of enforcement be pleasing or not. The absence of the books means the difference between a high mark and a low mark in scores of cases and in many in-

stances between a failing mark and a passing mark. It should not be necessary to name the offense in the criminal code to which our question is analogous.

The solution is up to the students themselves. The responsibility cannot properly be laid at the door of the library officials. We do the suffering and we must apply the cure.

Every fair-minded student should heartily support any action deemed necessary by the accredited agencies of student government.

## Communication

### LEAVE THE BOOKS IN THE LIBRARY

To the Editor of The Cardinal:  
The members of Professor Otto's class in American Philosophers have for two weeks been wearing horn-rimmed glasses an expressions of great sorrow. The horn-rimmed glasses were made necessary to correct eye-strain incurred in looking for a book which had disappeared from the reserve shelf; and the sad expression was the result of our unavailing efforts to find it.

The other night I wandered casually into a friend's room. There, on his room-mate's desk, stood the missing book. I seized upon it and demanded an explanation. Here it is:

"No, we're not studying it, but we had to read a book from that shelf, so we picked out the one with the largest type, and that's it."

I make comments; use your own imagination. On the one hand we have a serious-minded philosophy class lying awake o' nights because, for the lack of a book, it cannot prepare its lessons—on the other, two blithe and carefree youths who feel no stings of conscience at having abducted the book because, forsooth, it had "large print."

Can one be angry about this sort of thing? And if so, will it do any good?

### POULTRY CLUB WILL ENTER STOCK SHOW

### Plan to Add Novel Feature to "Little International" Show Held in February

The Little International Live Stock show, held annually in February by students of the College of Agriculture, will have an added feature of a students' poultry show under the auspices of the Badger Poultry club, according to an announcement by C. E. Lampman, president.

Need for a students' organization devoted to the interests of poultry raising and to conducting a poultry contest at the "Little International" event at the Live Stock pavilion, is the motive of the newly organized club, Lampman states. Prizes will be offered for the best exhibitions of poultry entered by students of the university.

Plans were discussed for making formal application to the student senate for official recognition at a meeting last night. A formal report to the senate will also be made by the Saddle and Sirloin club relative to the organization. Thanksgiving and turkey were linked into common relation by the speakers who explained the methods of raising, husbandry, feeding, fattening, shipping and cold storage of the native American fowl. William H. Frederick, C. D. Van Sickle, Glen McIlroy, and Prof. J. G. Halpin, chairman of the course in poultry husbandry, gave special talks at the meeting.

### VOTE CREDIT FOR VOLLEY BALL WORK

Credit for volley ball team and for posture was voted to be given by W. A. A. at the regular meeting last evening. One hundred points will be awarded hereafter to those who make the volley ball team.

The following new members were taken into the club: Beulah Zimmerman, Marjorie Boesch, Jessie McEllroy, Elizabeth Long, Pearl Anderson, and Leona Ruder. Pins were awarded to Frances Beecher, Ester Mainland, and Mary Keenan.

W. A. A. will co-operate with the Y. W. C. A. in producing the annual bazaar on December 11.

### LOOK IN THE WANT AD

## DRAW JUNIOR COLLEGE PLAN

Board of Education May Submit Proposal to Legislature

The proposition of establishing a junior college in Wisconsin is one which promises to receive attention of the Wisconsin legislature at the next session. The large increase of expenses at the University of Wisconsin and the call for upwards of \$15,000,000 for the next biennium will make it necessary for some plans to be made for reducing the expenses. The state board of education will probably submit a plan to the legislature for the establishment of junior colleges in several different cities of the state. These junior colleges could be operated in connection with his schools and will probably perform the first two years of college work.

When this matter was first talked of two years ago the cities of Oshkosh, Racine, Superior, Eau Claire, La Crosse and Milwaukee were mentioned as probable centers for junior high schools. It was then thought possible that the first junior college in the state would be established at Racine where the Racine College was formerly located and that the buildings of this institution would be utilized. Some plan of this sort will probably be voted on at the coming session of the legislature in order to reduce the expenses of higher education in Wisconsin.

### Meteor Plunges Into Ground and Explodes

MORGANTOWN, W. Va. — Residents in the vicinity of Kingwood, Preston county, West Virginia, were thrown into a panic last night when a large meteor fell at Howesville, five miles south of Kingwood, according to reports received here. The meteor struck in the business section of Howesville, near the railroad station. It exploded as it buried itself in the earth. The force of the blast was heard for several miles.

lines watching the team workout, and will be in a suit today.

#### Taylor Playing Well

Captain "Cop" Taylor leads the ten men who have survived Meanwell's weeding-out process. Taylor played an excellent offensive game last season, and won several games in the late periods with his long shots. This fall the new leader has developed a better eye than he had at the close of last season, and is dropping them in from all corners. Frogner and Caesar are filling the guard positions. Both men are "W" wearers from the 1919-20 team.

The remainder of the squad is composed of last year's frosh, and varsity substitutes. These men are "Eddie" Farrington, Jack Williams, "Les" Gage, Ed Frawley, "Phil" Bloecker and Charles Horn. Farrington played under Coach Meanwell on the frosh squad some years ago, but has not played varsity ball since. Bloecker is an "aWa" man from last season, and a husky guard. He is a boxer also. Williams, Gage, Frawley and Horn were members of the frosh team last year. Of these men Williams looks the most promising for one of the forward positions.

The Badgers will play at least eight preliminary games, with a possibility of several others. These will be played between December 4 and January 3, on which date the Northwestern-Wisconsin game will take place at Evanston. Ripon, River Falls normal, Knox, of Galesburg, Ill., La Crosse normal and Milwaukee normal will all be met before the holidays. On December 15, some smaller state college will be brought here, but no contract has been signed as yet. Shortly after Christmas South Dakota will journey down for a two games series in the university gym.

**Y. W. BAZAAR SLOGAN**  
MUST BE IN TODAY

**Plan of Decoration Changed**  
From Japanese Garden to  
Seasonal Pageant

All slogans for the Y. W. C. A. bazaar must be in the slogan box in the Y. W. office in Lathrop hall by 12 noon today. The winner of the contest and the chocolate cake will be announced this afternoon. The slogans must not be longer than eight words, and must have the name and address of the originator plainly written on the slip with the slogan.

The decoration plan of the annual Y. W. C. A. bazaar to be held in Lathrop hall, December 11, has been changed from that of the Japanese flower garden to that of a pageant representation of the four seasons. The Christmas spirit, in the form of snowy decorations and pine will be filled with booths displaying a large assortment of Christmas gifts. Spring and the Japanese tea garden will be represented in the S. G. A. room where burning incense, fans, parasols, and flowers will be used to create a South Sea atmosphere. Summer and water sports will be represented in the swimming pool where the Dolphin club will give exhibitions in swimming, and diving. Lathrop parlors will be decorated in fall colors, and will be used for dancing.

The fortune-telling booths will be on the second floor. Plays of different countries will be staged

by the French, Hawaiians, Chinese, Japanese, and Norwegian students in the university, and a Japanese play will be put on by Red Domino and Twelfth Night jointly.

### UNION CALLS FOR PLEDGE PAYMENTS

Collection of subscriptions made by students and faculty members to the memorial building fund was started this week by the Memorial committee at its office on the second floor of the Alumni headquarters building, 821 State street. H. L. Ashworth, secretary of the committee, issued the following statement for the attention of subscribers:

"The committee has not sent written notices of payment to individual subscribers in the university campaign and it trusts that this and other notices through The Cardinal will be sufficient.

"The committee set November 15 as the date for first payments and such payments are now being received. All student and faculty subscribers are requested to immediately look up their pledges and take care of initial payments at once, or of paying entire subscriptions if they so desire.

"Subscribers who have lost or mislaid their duplicate pledge records can obtain necessary information regarding same at the committee's office by phoning University 129 or calling in person.

# SOCIAL WAR IS BEGINNING SAYS DE MAN

Belgian Author Traces Post-Bellum Evolution in Speech Here

LABOR IS ON ASCENT  
Tendency in Europe is Toward Socialism, He Declares

"There is no post-bellum Europe, the war is not over," said Dr. Henry De Man, Belgian author and educator in a talk on "Post-bellum Europe" yesterday afternoon in Bascom hall. "It is hard to make a distinction between the war period and the reconstruction period. The war, whatever its origin may have been, has culminated in a social war. It is not over, it is just beginning.

"The tendency in Europe is toward the ascent of labor to political power and a general development toward socialism. One of the most curious and paradoxical phenomena, an outcome of the war, has been to bring about the seizure of political power by industrial classes in countries where social and political conditions seemed to be least favorable to seizure of power by these classes. Russia, the most backward in industrial, social and cultural development, is an example of one such country.

#### Why Soviets Succeed

"The success of the Russian soviet form of government was due not to its own strength but to the weakness of the former government which collapsed because of its inability to maintain itself. It has been given importance because of political reaction on the outcome of the war and its social effects in other countries of Europe. The developments in other countries, though not so spectacular, have been just as fundamental.

"I think the great outstanding fact has been the growth of the labor movement in social and industrial aspects. The great difference between Russian socialism, at least in its commonest form, and the labor movement in the rest of Europe is on account of the fact that the labor unions in Europe and the peasants form a non-resistant class. They are industrial workers of minority movements using minority methods, while in western Europe the yare industrial workers of majority movements using majority methods.

#### Labor and Politics

"The great difference in their methods is illustrated by the fact that the backbone of the movement is the labor unions. In Russia, on the other hand, it is primarily a political movement. This is manifested by the belief that the state supported by the army is the order of government par excellence. The industrial organization of workers has played no part in the Russian revolution itself.

"The aim of the labor unions has become more and more political. An immediate fact that demonstrates the labor movement is that the conquest of control of production which was a mere theoretical plant in their platform before the war has entered into a state of realization. This has come about by two means, immediate industrial action of labor unions and nationalization, that is, some form of control of production which organizations especially create to represent the community and take possession of the management of the unions.

#### Real Social Movement

"The labor movement has transformed itself into a real social and political movement. I think that the very difficulty, the very slowness of the social evolution of central and western Europe, the much more intensive character of the struggle that labor must maintain to get control, is a guarantee of success. The movement is making self-government of the masses and

the equality of opportunity in industrial fields a reality."

Dr. De Man has been making a study of industrial conditions in the United States and is now making a lecture tour through the Northwest on his way back to New York, from whence he will return to Belgium.

## MADISON TO PLAY FOR STATE TITLE

Meet Superior in Turkey Day Contest—Both Teams Undefeated

Madison High school will meet Superior Thursday afternoon at Camp Randall for the high school football championship of the state. Madison has captured the title for the last three years and is given the edge in Thursday's battle, although the Lake shore school has annexed every game of the season by a large margin. Madison has played the strongest teams in this section of the state and her goal line has not been crossed once.

The fact that three of Madison's regulars are on the sidelines at present considerably lessen the home team's chances of a victory. Smedal, guard, and Gotstein, end, two of the absent men, will probably be in the lineup Thursday, Coach Endres states. Whether Walsh, Madison's quarterback, will become eligible in time for the game, is still doubtful.

An advance ticket sale is being conducted by students of the school to defray the necessary expense of bringing the Superior team here.

Tickets are selling for \$1.00. All students desiring to attend the game are requested to communicate with Stuart Strong, B. 7612, in respect to obtaining tickets. All Superior men are asked to get their seats together.

**AT THE STRAND**

SHIRLEY MASON and LON CHANEY in a scene from MAURICE TOURNEUR'S production 'TREASURE ISLAND', A PARAMOUNT ARTCRAFT PICTURE

**AT THE STRAND THEATER**  
The bold buccaneers of "Treasure Island" live again in Maurice Tourneur's remarkable photoplay production of the Stevenson classic, which is opening at the Strand theater today. Mr. Tourneur is a master when it comes to turning great sea stories into motion pictures. He proved it in "The Life Line" and Conrad's "Victory." "Treasure Island" confirms this conviction.

The famous producer has retained on the screen all the romance and villainy of the Spanish Main that Stevenson knew so well how to portray. In excellent realistic detail he has reproduced the old Benbow Tavern, where lived young Jim Hawkins and his mother. The coming of Bill Bones, the raucous sea captain, and later of Black Dog; the fight over the sea chest and the capture of the chart showing the location of Captain Flint's treasure by Jim; the expedition to seek the buried gold; the mutiny, the battles with the pirates at the stockade, and the final success—all the absorbing episodes that have made Stevenson's book a delight live vividly on the screen.

In the role of young Jim Hawkins, Shirley Mason gives a more charming performance than any boy actor could hope to offer. Lon Chaney is a master of malignity as Pew and Merry. Charles Ogle, Al Filson, and Sydney Dean do fine work. But the chief credit must go to Mr. Tourneur. He has made of this Paramount Artcraft production a picture no one, screen lover or not, can afford to miss.

Mack Sennett's latest comedy, "You Wouldn't Believe It" is also being shown.

**AT THE FULLER**

The master screen craftsman, David Wark Griffith, producer of the screen's greatest sensations, creator of the most advanced innovations, finder and developer of the world's greatest screen stars, has produced another wonderful production, "The Love Flower," which is being heralded everywhere as a creation of exquisite beauty, haunting charm and spirited drama. United Artists Corporation recently announced its release and the first showing of this newest Griffies production in this community will be at the Fuller theater today.

Words of the most superlative degree and descriptions of the most laudatory nature have not been found to express in adequate terms this wonderful picture play of love and adventure such as only a Griffith, a master, may reveal in all its beauty, strength and excitement. Critics have pronounced it one of the most remarkable productions that has ever come from this master hand and fans everywhere have reveled in its beauty and excitement and heralded it as a production comparable only with the most wonderful that has come to the screen in the past few years.

**TO REDISTRICT STATE IS PLAN**

**Legislature May Increase Power of Northern Wisconsin**

The redistricting in the state of the new senate and assembly congressional districts will be one of the important tasks to be considered at the coming session of the legislature. The most noticeable feature of the coming re-arrangement will be the increase in power in northern Wisconsin. Many of the well settled districts in southern Wisconsin will lose their senate and assembly seats and these will go to districts in northern Wisconsin.

It is probable that the eleventh district will be subdivided. Accord-

ing to a recent census the first congressional district has a population of 252,448 as compared with 213,608 ten years ago. The second district, the sixth and the seventh and eighth districts will probably undergo some re-arrangement. These districts have not kept pace with the other districts.

At the same time is a reapportionment of senate and assembly districts and a general view of the situation would indicate that northern Wisconsin will get one of two additional state senators and probably from five to eight additional assemblymen. For the state senate, which contains 33 members the unit of apportionment will be 79,752. For the assembly which contains 100 members the unit of apportionment will be 26,318. The law requires a strict adherence to a just apportionment and legislation not based upon this principle has been defeated in Wisconsin courts as gerrymandering.

## SEES FALLACY IN PATENT LAW

Dr. Cottrell, Director of U. S. Mine Bureau, Speaks Here

"The Relation of Patents to Scientific Research" was the topic on which Frederick G. Cottrell, director of the United States Bureau of Mines, spoke to the engineering students at 11 o'clock this morning in the auditorium.

He pointed out the fallacies in the present patent laws and declared for a better system to protect those inventions that were brought about by the research work of students and instructors.

A company was formed in 1912 to secure patents on all inventions coming through research and to hold such patents until the invention was perfected. This company, backed by the Smithsonian Institute, is known as the Research Corporation.

All profits from inventions are devoted to the furtherance of research or to the institution in which the work was done.

Dr. Cottrell advised engineering students to study patent laws and to familiarize themselves with the work of the patent attorney. Dr. Cottrell was a professor of physical chemistry in the University of California. While there he patented the process and apparatus for the electrical precipitation of dust, fumes, and mists. He assigned this patent to the Research corporation, and the income from his patent used for chemical research.

He became physical chemist and then metallurgist of the United States Bureau of Mines. Last spring he was made director of the bureau.

## PLANS FORMED FOR PILGRIM EXERCISES

## Tercentenary to be Celebrated by Dinner and Concert Here

Many Wisconsin citizens from various parts of the state will attend part or all of the exercises in connection with the Pilgrim tercentenary celebration to be held at the University of Wisconsin on December 7 to 9. The number of requests for reservations for the dinner on December 9 has forced a material enlargement of the original plans.

Final plans for the commemoration, as announced by the University of Wisconsin, the State His-

torical society, and the commemoration committee appointed by Governor E. L. Philipp, include a program on December 7, a convocation, and a dinner on December 9.

The program of December 7, opening at 8 p. m., will include a commemoration concert by the Madison Choral union, the reading of the poem on "The Rock of Liberty; A Pilgrim Ode," and a cantata of "The Wreck of the Hesperus," with music by C. H. Mills, director of the University School of Music.

Dr. Samuel M. Crothers, of Cambridge, Mass., will address an all-university convocation on December 9. On the evening of that day, a dinner will be given under the auspices of the State Historical society. President E. A. Birge will act as toastmaster. Among the speakers will be Dr. Charles H. Beale,

Milwaukee, Karl Mathis, Wausau, and Thomas Priestly, Mineral Point.

## Torrens System To Be Explained Friday

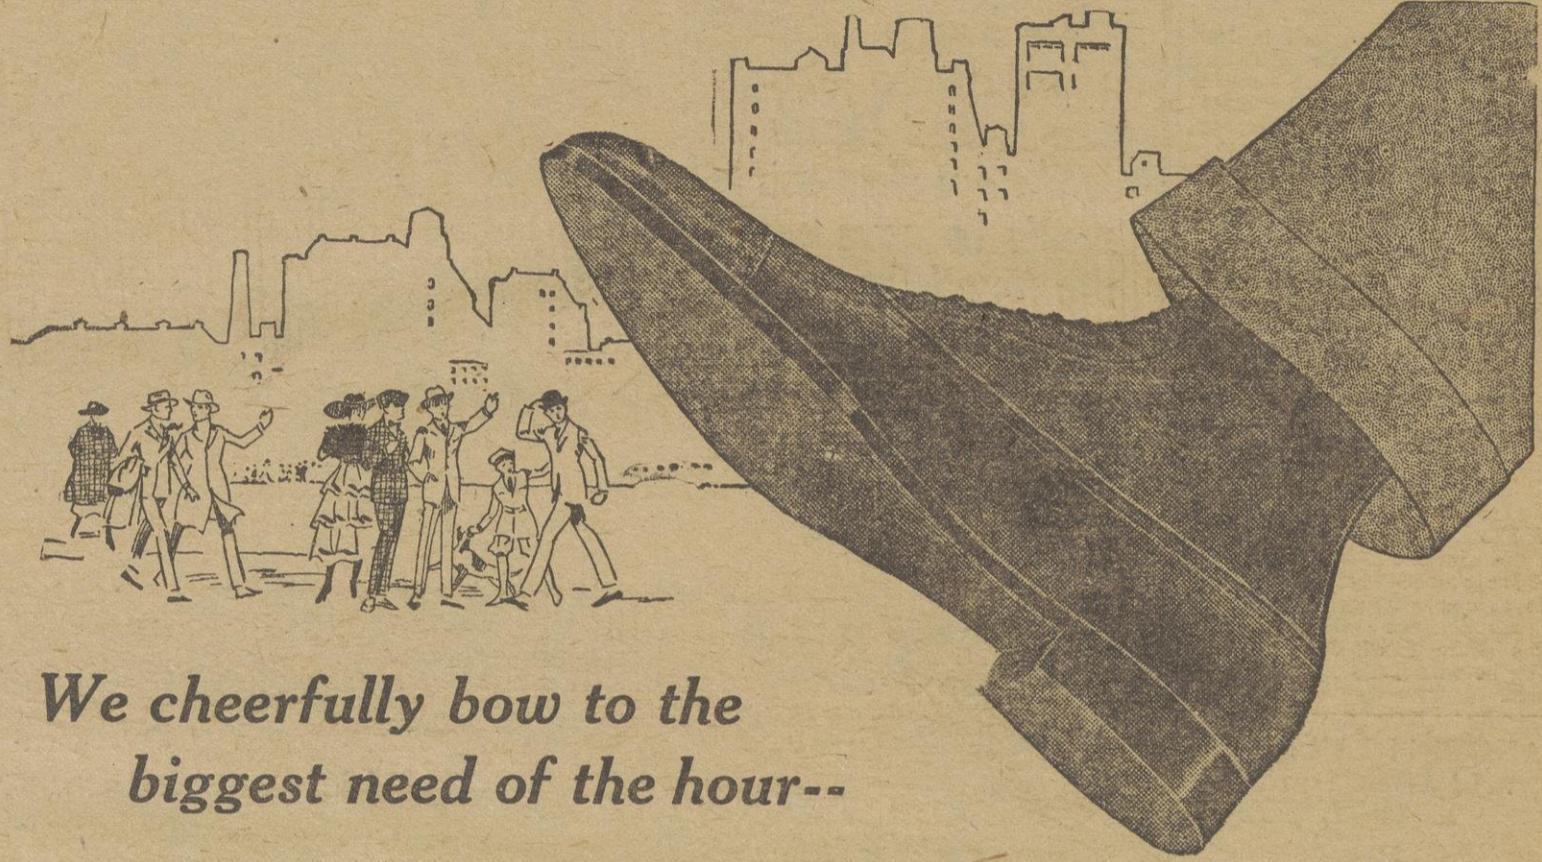

The legislative committee appointed at the last regular session of the legislature to investigate systems of land title registration, based on the Torrens system, will hold a public hearing in the corporation room in the south wing of the capitol at 2 o'clock Friday afternoon. The question of recommending the adoption of a Torrens system at the coming session will be considered. All those interested in the subject of land title registration are asked to appear. The members of the committee who will attend are Assemblymen John S. Kaney,

chairman, Milwaukee; George Oakes New Richmond, and John F. Buckley, Waukesha. W. J. Goldschmidt, Milwaukee attorney, is acting as assistant to the committee.
