The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

# Nursing: Dulcolax<sup>®</sup>

brand of bisacodyl

## **The Modern Replacement for the Cleansing Enema**

More and more, the busy nurse fully recognizes the clear-cut advantages of Dulcolax—established over recent years by clinical reports.

As these reports amply show, Dulcolax is equal or even superior in cleansing action to the enema and far less distressing to the patient. But, most important from the nursing viewpoint, Dulcolax saves the busy nurse more than a distasteful task...it saves her the precious commodity of time...time which she can well devote to more important duties.

## **Dulcolax Saves You Invaluable Time... Frees You from a Distasteful Task<sup>1</sup>**

The time required for Dulcolax administration is minimal compared with the enema routine. Because all but bedridden patients are able to use the toilet rather than the bedpan, preparation and subsequent cleansing of equipment is completely eliminated and changing of soiled clothing, bed linen or dressings is rarely necessary.
