MADISON, WIS., THURSDAY, MARCH 7, 1901.

[Price Five Cents.]

TOSSERS IN TRAINING.

NEARLY 50 CANDIDATES OUT FOR 'VARSITY NINE.

Prospects Good for Strong Team—Fine Material for Pitching Staff—Ten Home Games.

Preliminary work in base-ball has been going on in the cage every afternoon from three to five for the past two weeks. The men are given practice in stopping grounders principally, but the candidates for the various positions are given special work. Wisconsin will be particularly strong this year in the pitching department, as some very promising material is out for the slab position. From last year's team are D. B. Mathews, law '03, and G. B. Reedal, law '01, both having enviable records as pitchers in their home towns and on the 'Varsity team. There is also O. G. Erickson, '03, who played with Minnesota two years ago. He practiced with the team last year, but was unable to play because he had not yet been here a year. A left handed ball tosser, H. L. Mitchell, '04, has been showing exceptionally good form, and may develop into a wonder. Other promising candidates are C. L. Purves, law '03, E. C. Wild, '04, and Richardson. Wisconsin will not have to overwork any of the pitchers this year.

For catchers, E. A. Pierce, '03, and O. C. Olman, '01, of last year's team are back. Among the new men, S. W. Fries, '04, and B. H. Borreson, '04, have been doing fine work with the mit. Other new men are W. E. Schreiber, '04, and G. A. G. Keith, '04. That so many of last year's men are coming back this year, makes the prospect for a strong battery exceptionally bright.

Candidates for Short Stop are J. E. Brobst, '03, and L. A. Liljeqvist, '03, both good men.

First base will probably be covered by J. V. Ware, '02, who played second base on last year's team. R. W. Lueck, law '03, is also a candidate for this position.

L. S. Leighton is out for second base and as soon as outdoor practice begins, G. A. Mowry will come out also. Both are of last year's team and make it certain that second base will be played properly.

Third base will probably be covered by E. P. Harkin, law '02 a veteran at the game.

There are other good men out for any infield position, among whom are: A. W. Kemp, Z. Merrill, and P. C. Love, all of the freshman class.

For the outfield, E. B. Cochems, law '03, and M. Muckleston, '03, are back. There is also Aug. Smith, '01, who practiced with the team last year. Other candidates are: M. F. Angell, '02, H. W. Guipe, law '03, O. J. Stephenson, '04, C. R. McCanna, '03, J. V. Wail, '04, M. J. Musser, '04, A. L. Bullis, '04, H. C. Grout, '02, F. Hoag, '04, H. M. Fellenz, law '02.

B. A. Husting, law '02, a brother of "Pete" is practicing daily and gives promise of being able to uphold the reputation earned by his big brother.

An excellent schedule has been arranged with ten games on the home grounds. Season tickets will be issued and it is expected that this will be a most successful season. A hard fight will be made for the pennant, and the team will undoubtedly be of such a character as to merit the support of the student body.

DISCUSS NEW BUILDING.

Conference of State Senators Upon Y. M. C. A. Project.

There was a conference of State Senators held in the Supreme Court consultation rooms last night. Judge Winslow of the Supreme Bench invited in a number of Senators interested in the State University, for the purpose of holding an informal conference on the Y. M. C. A. building project, placing before them the plans of the building and answering any questions which might occur to them and to receive any suggestions in regard to advisable manner of securing the funds needed for the building. After having stated the purpose in view Judge Winslow called upon Secretary Phelps to explain the present status of the enterprise. Mr. Phelps showed the importance of the student body as a field for religious work, outlining the conditions that exist in the State University situated as it is. L. W. Messer, General Sec'y. of Chicago Associations, then spoke at some length upon the breadth and permanency of the Association movement. Then followed an excellent plea by Dean Johnson for the association building from the stand point of the University itself. E. F. Riley, Sec'y. of Board of Regents, was then called upon for a few remarks relative to the Association.

Among those present were Senators Whitehead, Stout, Hatton, Bissell, Martin and Lieut.-Gov. Stone.

TAU BETA PI ELECTIONS.

Six New Members of Engineering Fraternity.

At a recent meeting of Tau Beta Pi, the honorary engineering fraternity 6 new members were elected to membership, their records for the three years being of a sufficiently high standard to qualify them. The new members are all of the class of 1902. They are as follows:

Herbert L. Whittemore, M. E., of Madison; George A. Scott, E. E., of Oshkosh; Milan R. Bump, E. E., of Spokane, Wash.; James W. Watson, E. E., of La Crosse; Chester H. Stevens, C. E., of Mason City, Ia.; Frank M. McCullough, C. E., of Sturgeon Bay.

EASTER RECESS.

Will Come One Week Earlier Than Usual.

As Easter comes on April seventh this year, the Easter recess will begin just one week earlier than announced in the calendar. The recess opens on Thursday before Easter Sunday and ends the following Monday, that is, April 4-8 inclusive.

Washburn Observatory.

The meeting at the observatory last evening was a pronounced success, about a hundred visitors being present. The telescope was pointed at Mars and a good view of it was enjoyed. The new star was also seen by the visitors.

Professor Comstock will talk about the new star to-morrow noon at the convocation meeting.

Game with Kansas.

A game has been added to the football schedule a date being arranged with the University of Kansas on October 26th.

Indiana University Glee and Mandolin clubs intend to form a concert company and make a summer tour under some Lyceum Bureau.

PHARMICS' TOUR.

PARTY WILL GO TO DETROIT AND CHICAGO.

Will Start Next Week—Drug Manufacturers and Chemical Plants Will be Inspected.

Next week a party of students from the School of Pharmacy will take their annual trip. Mr. Richtmann and Dr. Fisher will be in charge of the party. Heretofore the trip has always been confined to Wisconsin, Milwaukee being interesting with the object of studying the chemical side. This year the view is to study the manufacturing of different kinds of drugs. Wisconsin supports no institution of this character on any large scale and as the students have been kindly asked to visit the Parke, Davis & Co.'s establishment at Detroit they have accepted the offer.

The Parke, Davis and Co. establishment is the largest concern in the world which undertakes the manufacture of drugs. This institution has been established for years and take the lead in the quality of their output. They have branch offices in many of the important cities of the United States and also a branch in Montreal. The firm does its own printing, and sustains its own police and fire departments. They employ perhaps one thousand people. Wisconsin School of Pharmacy is fortunate in having the opportunity of visiting this great plant. By taking this trip the students will be enabled to study the manufacture of pharmaceutical and biological products in various forms especially on a large scale.

The students will also visit the plants of the Frederick, Stearns and Co.'s and Nelson, Baker and Co.'s establishments at Detroit. These firms are on a smaller scale but do similar work to the Parke Davis and Co. concern. It is of priceless value to visit these plants, not only to study the kind of work they do but to come in contact with large industrial firms.

The party of students leaving here will stop at Chicago on their way and if the time is not too limited they will perhaps visit some of the manufacturing plants at that place. If any, the Armour and Co., and others at the stock yards will be visited.

At Chicago the party will be joined by the students of the Northwestern College of Pharmacy. The students at this college take the trip to Detroit alternating years and from reports received there will be about one hundred and twenty-five that will go this year. The students from our School will perhaps number twenty-five, while many are still in doubt. This trip to Detroit will probably occur every other year thus giving the students in the course an opportunity of visiting a manufacturing institution one year and the next an opportunity to visit Chemical laboratories as at Milwaukee.

The students have desired to take a trip of this character for several years past but something has always hindered. While at Detroit the students of both schools will be the guests of the Parke, Davis Co. This firm will meet them at the depot, take them about the city and provide for their general entertainment during their stay there. The students will leave here Thursday, March 14th, and return in time for classes on the following Monday. While on this trip they

will stop at Ann Arbor for a short time.

The rate there and back will be a trifle more than one-third full fare for round trip. The invitation is extended to pre-medics or to any who are interested in this line of work. Any information regarding this trip can be had of Mr. Richtmann whose office is in North Hall.

High School Department.

The attention of the High Schools on the accredited list of the University is called again to the fact that a column of the Daily Cardinal is at their disposal. A circular letter was sent out last fall to the schools, asking them to open up a correspondence with the Cardinal. In some instances the request was complied with but in the majority it was ignored.

The interscholastic season will soon be here and already some schools are planning for it. Naturally the boys of the rival schools are anxious to learn what their opponents' plans are, and there is no better means of facilitating this than through the columns of the Cardinal. So let us urge the High Schools once more to write extensively of their plans for the interscholastic field meet and also of the declamatory contest.

Several of the schools have their papers on the Cardinal Exchange list and while all the school news may be in them, it is hardly profitable for anyone to go through them and cull out the desired news; and it is hoped that these schools referred to will write a personal letter of school news for early publication. Please write on one side of the paper and with ink. Several letters have been thrown out this year because correspondents have failed to comply with these simple rules.

Local and Personal.

—State Secretary Anderson is a Y. M. C. A. visitor today.

—Mr. Ed. F. Johns of Butte Montana visited with University friends yesterday.

—John F. Flaig, '04, is recovering from several days confinement to his room.

—Hubert D. Buchanan, '01, is quite ill with a bad case of mumps at 435 Park street.

—A farewell reception will be given to the Short Course students on Saturday evening in the Y. M. C. A. parlors.

—Friends of Mr. J. H. F. Franke, '02, will be pained to hear that he is in a very precarious condition at his home in Milwaukee. He is suffering from an attack of diphtheria.

—The 1901 Badger Board held a business meeting in the Law Building last evening to settle up their accounts. Nothing definite was decided upon, but it is expected that when everything is settled up they will give a banquet.

—Dean E. E. Bryant of the Law School is contemplating a trip through the south for a month or so. It is not definitely settled but it is rumored that Professors Olin and Bashford will have 2-5 a week, taking the classes of the "Grand Old Man," in the event of his taking the trip.

A blank petition has been sent to University of California for the students to sign protesting against the Transvaal war.

The Glee Club Trip.

The matter of a Glee and Mandolin club trip is receiving some very vital consideration both from the faculty committee on music and from themselves. The facts of the matter seem to be that reports have been circulated that last year some members of the clubs behaved in a manner discreditable to themselves and the University in one or two instances. As a consequence the faculty committee on music seems to be outspoken against allowing the clubs to take an out-of-town trip this year.

While it is a fact that in years past members of the clubs have given cause for criticism, yet it seems that the step contemplated is a radical one and one whose every aspect ought to be fully considered before it is definitely decided upon. In the first place these clubs represent a line of student endeavor that is supported by every college and university in the country of any size whatsoever and one that the University of Wisconsin can scarcely afford to do without. Their concerts are a legitimate source of advertising for the University and have always been up to the standard of such organizations. It is understood that the amount and quality of the material available is unusually good this year.

The most serious effect of the suspension of Glee club action will be removal of any incentive for work along musical lines. The interest in music in the University is lamentably small under any circumstances and the stimulation of a glee club trip means that such interest will be practically killed for some time. Of course the point of view of the clubs themselves is to a considerable extent a selfish one. They feel that they deserve a trip as a reward for their work and as an incentive toward increased proficiency.

Every member of the two clubs has

now signed a petition to be presented to the faculty in which he pledges himself to behave in a manner becoming to a gentleman and creditable to the University. The members who were the transgressors last year are not now in the clubs and the prospect seems to be that, as a consequence of the airing the matter has received, the trip this year if taken will result in no injurious effects.

Members whose academic record is not up to the requirement should unquestionably be debarred from participating in a trip. Such men have no justification for requesting the privilege. Neither does the Cardinal or anyone else defend the disgraceful occurrences which have sometimes accompanied the trips of the clubs. These are to be most severely condemned by everyone who has the welfare of the University at heart, but the appearances seem to be that if given another chance this year no ill reports will come from the clubs. Suspension of Glee club activity means a slump along musical lines that will be followed only by a slow recovery.

Industrial Education.

An article on "American Industrial Education, and What It Should Be," prepared by a committee of the Society for the Promotion of Engineering Education is being very favorably received throughout the country. Dean Johnson was chairman of the committee, composed of men chosen from some of the leading engineering schools of the country to prepare a report on the subject. Mr. C. M. Woodward, "father of manual training schools" contributed a great deal to make the article a success. The second edition of the report is already published, the first edition being of a thousand copies. Mr. Andrew Carnegie who is planning a Technical school in Pittsburg, has sent for a copy of the article and the work promises to have a great influence in shaping all kinds of industrial education in this country because of the many needs and demands of such institutions.

The article answers these demands in such a manner as to be of great value to technical education in this country.

Civil Engineers, Sp. Engineers, L. S. Soph, Agrics—T. Watson.
Electrical Engineers—L. H. Levi-see.
All dues should be paid by March 16th.
Treasurer.

Freshman Class Meeting.
An enthusiastic crowd of freshmen gathered yesterday afternoon in room 16, Main Hall for election of class officers. The "hill" and the engineering students were as usual the two factions of the class and strenuous efforts by both were made to run through their respective tickets.

There was an attempt on the part of the engineers to delay the meeting, to avoid an election, but the "hill" students were determined that the object of the meeting should be carried out. After an unsuccessful attempt to adjourn, during the early part of the meeting, the business went on smoothly. The interest centered in the election of president and after that not much rivalry existed. Albert Marshall was nominated by the "hill" students and William Rowe by the engineers. The ballot resulted in the election of Marshall, he receiving 132 of the whole number of votes cast as against 65 for Rowe. The rest of the ticket was elected by acclamation and is as follows: for vice president, Miss Rhoda White; for secretary, Charles Lyman; for treasurer Loren Blackman. The whole ticket was a victory for the "hill" students.

Iowa will establish a School of Commerce the coming fall.

phies.

Chemical Club.

One of the most valuable and at the same time least understood of the University's many clubs and societies is the Chemical Club now entering upon its eighth year. The club has had a prosperous existence so far and bids fair to continue improving from year to year.

There are no officers elected, anyone may attend the meetings, mere attendance constitutes membership and there are no fees whatever. Dr. Hillyer has the direction of the club under his charge and he makes out the weekly programs.

The club is conducted in much the same manner as are other Journal Societies. At each meeting some member, an instructor, assistant or student in chemistry presents a report upon some interesting recent articles in chemical journals. These reports are much in the nature of reviews and treat mostly of recent discoveries or of interesting research work, the results of which have just been made public. Besides these reports there are often interesting presentations of research work done in our own laboratories. In most cases such research work is presented before the club before it appears in the columns of some chemical journal. The presentation of a subject before the club takes up the greater portion of the hour and the rest of the time is devoted to a general discussion.

The meetings are not at all popular, in the sense of their being of interest to the general public, for the facts of chemistry do not easily lend themselves to popular presentation. The club is however extremely popular among its members.

Communications have been received by Manager Hutchinson from the football managers of University of Wisconsin and Michigan asking for dates during 1901 football season. Christmas and New Year's are the days mentioned as being the most convenient to those institutions for games. No answers have at yet been made to these communications. —Daily Californian.

Michigan will hold her annual track meet in the gymnasium next Saturday.

Something New.

Repeating alarm clock you must get up as they will ring for 10 minutes at

Gamm's, the Jeweler.

Tailor Made Suits.

At Chas. J. Speth's 222 State st. made by the well-known M. Born Co., of Chicago. We guarantee satisfaction in fit and price.

At this time of year there is one thing that most people forget all about; that is their bicycle, it ought to be cleaned, overhauled and possibly enameled and parts nickel plated, a coaster hub brake would be a nice thing to have on it. This is the time to have these things attended to, so as 'twill be ready when the season opens. We do this work right. Wm. J. Park Co., 113 State Street, Phone 460.

Madison Steam Laundry, 111 King street, Telephone 815. Prices Reasonable. Work first class, goods delivered promptly.

PROF. T. H. BRAND

RUSH MEDICAL COLLEGE.

In Affiliation with the Univ. of Chicago.
Organized 1837.

The academic year of Rush Medical College is divided into four quarters, corresponding with those recognized with the University of Chicago, beginning respectively the first of July, first of October, first of January and first of April, each continuing for twelve weeks. A recess of one week occurs between the end of each Quarter and the beginning of the next following.

The general course of instruction requires four years of study in residence with a minimum attendance upon three Quarters of each year. A student may begin his college work on the first day of any Quarter, and may continue in residence for as many successive Quarters as he desires. Credit will not be allowed, however, for more than three consecutive Quarters. At least 45 months must elapse between the date of a first matriculation and the date of graduation. For further information, address

RUSH MEDICAL COLLEGE,
Chicago, Illinois.

CHANGE OF LOCATION.

We are now situated at 215 State Street with everything new and up-to-date. The quality of our work is our best argument for permanent trade.
J. L. OSTIN, Tailor.
