## HOME, SWEET HOME

'Mid pleasures and palaces though we may roam,  
Be it ever so humble, there's no place like home;  
A charm from the skies seems to hallow us there,  
Which, seek thro' the world, is never met with elsewhere.

Refrain. Home, home, sweet, sweet home.

I gaze on the moon as I tread the drear wild,  
And feel that my mother now thinks of her child,  
As she looks on that moon from our own cottage door,  
Thro' the woodbine, whose fragrance shall cheer me no more.

An exile from home splendor dazzles in vain;  
Oh, give me my lowly thatched cottage again;  
The birds singing gaily, that came at my call,  
Give me them, and that peace of mind dearer than all.

NO, THE LOG CABIN ON THE COVER IS NOT  
TAKEN FROM ANY PARTICULAR ONE  
ON LAKE GENEVA

This week and next week and possibly longer we are going to devote the pages of "Bay Leaves" to Homes and their furnishings and the gardens and lawns around them.

The sketch which you find on the cover is taken from one of the many beautiful books which I have before me which you can find at any of the Lumber Dealers who have advertisements in this issue.

This is one of many times that the editor regrets his inability to print in colors the beautiful homes pictured in these books, some are really books, of beautiful homes.

It is n't just the new home, but many are devoted to modernizing the present home. In magazines much emphasis is being placed on making use of the attic and basement. One booklet entitled "The Home Idea Book" contains 58 pages with chapter headings such as "Working Wonders Through Remodeling", "Twenty Charming New Home Designs", "Side Walls That Add Beauty and Character to the Home", "Color Sifted from Nature's Palette To Bring Beauty to the Home", "Decorating Interiors", "Unightly Ceilings are no Longer a Problem", "New Materials for Colorful Kitchen and Bathroom Walls", "Placing the Kitchen on a Business Basis", "Where and How to Plan The Bathroom", "How Modern Financing Methods have Brought Home Ownership within Reach of Almost Every Family."

Another book which you will find at your Lumber Dealer is entitled "How to Have the Home You Want". It is a beautifully illustrated book of 115 pages. This book has a complete story of what you need to consider in buying a home site and in building the home on it. The reading of these books is a real education. Of course these books are limited in numbers, but you will be interested in borrowing them for a week-end reading.

In Lake Geneva, Williams Bay and Fontana and nearby communities there are a great many of the finest artisans which you can find any where. A journey around the lake will convince you that today as in former days real carpenters and other workmen have built homes on the Lake.

If you are planning on building or remodeling, you will do well to consult with those who are telling of the wish to serve you in the pages of "Bay Leaves" in this issue and in those of the next few weeks.

From information received lately it augurs well for many new homes on the lake this Spring and Summer. It is rumored that some 10 houses are planned for Cedar Point Park alone, sounds like the days before the depression.

Two new homes are in the process of construction right now, both are on the lake shore in Cedar Point Park.

Frank M. Van Epps, Editor.

We appreciate the confidence that you have placed in us in electing us to the offices of trust in the Village of Williams Bay.

We will endeavor to carry on the duties of our respective offices to the best of our abilities.

We thank you.

During the first ten years of the Village of Williams Bay, Inc. the emphasis was placed on growth and home building. During that time the population of the Village grew from 420 to 630. During the last ten years the village passed through an improvement era, with installation of the water and sewage systems to care for that increased growth.

In the decade ahead of us the tendency is again for growth. The emphasis will be placed on beautification of our village, its lake shore, its streets, etc.

We will do whatever we can to help make Williams Bay not only a bigger, but a better place for home builders.

# ANNOUNCING REDUCTIONS IN COMMERCIAL ELECTRIC RATES

We are pleased to announce important reductions in rates to commercial lighting and small power customers.

Detailed information on the extent of the reduction for various amounts of service used, will be furnished to customers affected, and to others if desired. The new rates have been approved by the Public Service Commission, and become effective for all service used after the April meter readings.

Downward rate adjustments for any class of customer indirectly benefits all classes. While merchants and business houses directly benefit from this particular reduction, all citizens benefit from it indirectly. "What helps business helps everybody."

This marks another step in our general rate reduction program which has included and will continue to include reductions as fast as possible to all classes of customers- residential, commercial, industrial, and municipal.

We appreciate that our first obligation to the public is to render the best in service. The most important thing is service. We derive great satisfaction from every forward step taken in the raising of service standards.

But to us the really bright spots on our highway of progress are those times when we can announce rate reductions- rate reductions regardless of the obstacles of increased taxes, increasing operating costs, and necessary increased investment for improvement in service or safety to employees and public.

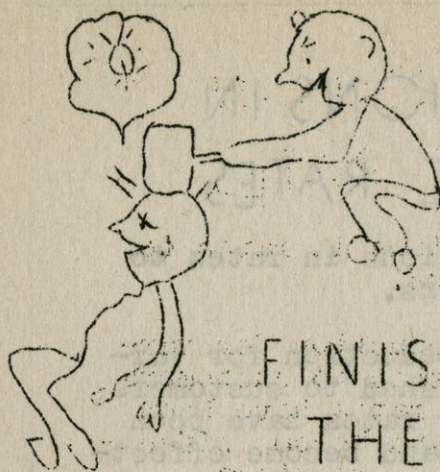

We like to make rate reduction announcements like this one. The oftener we can do it, the better we like it.

## HOW WILLIAMS BAY VOTED ON THE PRESIDENTIAL QUESTION.

One hundred six voters took the trouble to write in the name of Thomas E. Dewey - the highest no. of votes for an elector on the Republican ticket was 190, which was voted for Zimmerman who was pledged for Dewey. The highest for Vandenberg was 66.

In the First District William A. Sheldon George R. Cady, Dewey Pledged had 168 and 128 votes.

On the Democratic Delegate Ballot with the names printed in; 79 votes were cast for Roosevelt and 28 for Garner.

The highest number of votes for Roosevelt delegates was 50

Therefore on the basis of delegates ballots, Williams Bay voted Republican about 4 to 1.

## VERY INTERESTING MEETING FOR MEN'S COMMUNITY CLUB.

The men of the Village learned a lot about running a railroad from G.W. Carnell of Racine who was sent to represent the Chicago & Northwestern Ry.

Mr. Carnell who is Traveling Representative for the Galena and Kenosha Divisions has a very pleasing personality and a frank way of putting all the cards on the table.

Better train service was discussed and we hope that our round table conference will bring results in several respects.

Though more trains cannot be expected we can hope for cleaner coaches and screened windows, etc.

52 were present. In the opening prayer M.T. Peterson gave recognition of Carl Cable Bjorge who was a guest of the Club one month ago as a member of the Basket Ball Team.

The women's choruses were particularly enjoyed, and was the groups' first appearance.

Elizabeth Webb, cello soloist, proved herself to be a musician of much ability in her solo numbers. This is a beautifully sounding instrument when well played. Mrs. Webb is a member of the faculty of the Webb School of Music, Elkhorn.

Mrs. Roeker received her B.M. degree from the University of Pittsburgh, and did advanced study in music at Pittsburgh Music Institute.

She displayed much skill and splendid technique in her rendition of Liszt's difficult "Rhapsodie No. 14."

Mrs. Roeker and the choir greatly appreciate the patronage and generous support of the many who attended the concert, and otherwise contributed to make it a success.
