MINUTES OF THE REGULAR MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, September 9, 1983
9:00 a.m.

- President Beckwith presiding -

PRESENT: Regents Beckwith, Clusen, Conroy, Finlayson, Fish, Gerrard, Hanson, Heckrodt, Knowles, Lawton, Nikolay, O'Harrow, Schilling, and Zirbel

ABSENT: Regents Grover and Veneman

Upon motion by Regent Fish, seconded by Regent Finlayson, it was voted that the minutes of the special meeting of the Board of Regents of the University of Wisconsin System, held on July 11, 1983, and the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on July 15, 1983, be approved as mailed to the members of the Board.

REPORT OF THE PRESIDENT OF THE BOARD

It was noted by President Beckwith that the report of the July 29, 1983, meetings of the Higher Educational Aids Board and Wisconsin Higher Education Corporation was included in the Regents' agenda materials.

Regent Zirbel, President of the State Board of Vocational, Technical and Adult Education, outlined the process of new program development in the VTAE System. Stating that the dollar cost per student is figured for each such program before it is brought to the Board, she explained that, as in the UW System, programs are screened by System staff and the Board takes into account offerings at other institutions and needs within particular areas of the state. One difference between the systems, she pointed out, was that the VTAE state director had the option to put in place, without Board action, CETA programs and short-term offerings that respond to needs of particular industries.
She then described a cooperative effort in Southeastern Wisconsin to address problems identified in the report, *A Nation at Risk*. Chancellor Guskin called together a group which included Regent Zirbel, representatives of UW-Parkside and Gateway Technical Institute, three superintendents of schools, three school board members, the head of the Western Kenosha County District Administrators' Association, and the heads of two teachers' associations in the district. The goal was to get the public involved in discussing all facets of the educational process.

Chancellor Guskin added that, beginning in October, public meetings would be held in each of four areas, in order to obtain feedback about problems in the schools, after which the group would make an assessment of the state of public education in Southeastern Wisconsin. Recommendations for change, if any, would then be presented to the school boards and work on common projects would proceed. What was most exciting, he felt, was that administrators, teachers' unions, and school board members were willing to work closely together in this venture, with the realization that it might be a moment in history when citizens really were concerned about the problems of education and willing to do something about them. Regent Zirbel stated that she was very pleased about the cooperative effort and the great enthusiasm with which it was being met.

Concluding her report, Regent Zirbel noted that the VTAE State Director had headed a strategic planning session earlier in the week for district directors and board members, an exercise which she felt would lead to improvements in the System's overall organization.

Regent Beckwith presented the following resolutions concerning proposed amendments to Ch. 7, 8 and 14 of the *Wisconsin Administrative Code*:

That the Secretary of the Board of Regents, pursuant to s. 227.018(2), Wis. Stats., notify the presiding officer of each house of the Legislature and the Legislative Council, of the Board's intention not to promulgate the proposed amendments to Chapter UWS 8, Wis. Adm. Code previously submitted to the Legislature as Clearing House Rule 81-104, and of its desire to withdraw said proposed rule.

\[\text{Regents Code} - \text{scheduling of hearing on amendment to UWS 7, 8, 14 delayed at request of state Senate Adelman, comments by Prof. Anatole Beck re requiring name of chapter, pp. 2-4}\]

\[\text{Reg - Ethics Code} - \text{see Admin. Rules.}\]
That the Secretary of the Board of Regents be directed to file a notice of hearing with the Revisor of Statutes for inclusion in the Wisconsin Administrative Register, the purpose of the hearing being to consider the adoption, amendment and repeal, pursuant to sec. 19.45(11)(b) and 36.23, Stats., of rules in Chapters UWS 7, 8 and 14, Wisconsin Administrative Code, relating to outside activities and the code of ethics for unclassified staff of the University of Wisconsin System, said hearing to be held in Room 1820 Van Hise Hall, 1220 Linden Drive, in the City of Madison, Wisconsin, on the 10th day of November, 1983, at 10:30 a.m.; and further, that the Secretary of the Board be directed to submit the proposed rules to the Legislative Council for review and comment pursuant to sec. 227.029, Wis. Stats., in advance of the hearing.

The Board was informed by Regent Knowles about a discussion he had the previous day with State Senator Lynn Adelman, who had taken a great interest in the university's code of ethics for unclassified staff and who had made many suggestions to the System committee, some of which were adopted in revised form. The Senator had requested, on the basis of courtesy to a legislator, that the Regents delay for one month scheduling of a hearing, so that he could submit additional information regarding his views about the code.

President Beckwith added that Secretary Temby had advised him of the Senator's request as well. He had asked the Secretary to respond to Senator Adelman that the Board was not going to consider the merits of the proposed amendments at this point but would simply schedule a hearing, that there would be ample opportunity for him and all other interested persons to submit their comments, and that the Regents would certainly encourage him to do so. Regent Beckwith also had said that, if by reason of the Senator's proposals the Board wished to delay the public hearing, it could be done, but that the matter had been moving laboriously through the process and he hoped a hearing could at least be scheduled at this time.

President Beckwith then called upon Professor Anatole Beck, UW-Madison, who had asked to speak about this agenda item.

Indicating that he referred to a matter which he had earlier brought to the UW-Madison faculty, Professor Beck expressed the view that it was inappropriate to label the section "code of ethics" of faculty and academic staff. Like other professions, he continued, faculty had an unwritten code of ethics which had been developed over the years. Therefore, he thought the suggestion that this chapter was in fact their code would be an insult to their professionalism and integrity. He had suggested instead—and it was his understanding the UW-Madison faculty concurred—that the chapter should be titled "personnel regulations concerning conflict of interest," which he felt more accurately described its content. While it had been suggested that a different name might itself occasion greater outside intrusion on the autonomy of the faculty, he said he would be prepared to take that chance and to resist such intrusion should it occur.
President O'Neil added that Professor Beck's concern also had been considered by the System committee, which decided not to recommend a change in the title. Noting that the matter could be taken under advisement and perhaps raised again at the public hearing, he pointed out that it was not an issue which would be predisposed or settled by sending the proposed amendments to the Legislative Council in their present form.

Expressing agreement with President O'Neil, Regent Beckwith emphasized that at this meeting the Regents were not being asked to act on the substance of the proposed rules but simply to schedule a public hearing, after which changes could be made. He requested that Professor Beck send a letter stating his concern to the Secretary of the Board, so that it could be included in the record, and Professor Beck said he would do so.

With reference to Senator Adelman's request, Regent Clusen felt it would be wise to permit a month's delay, since the Senator was so deeply involved in the process and had asked for deferral as a matter of legislative courtesy. She thought it would put the Board in a bad light to deny his request, unless there was a particularly difficult scheduling problem which made it necessary to act at this time.

Stating his agreement with Regent Clusen, Regent Lawton observed that revision of these parts of the code had been in process for a long time and he saw no great urgency to act at this meeting.

Regent Fish also thought it would be prudent to grant the delay and that there would be no serious harm in doing so.

With respect to the process for promulgating the rule changes, Regent Beckwith noted that the first resolution would withdraw previously approved revisions so that new proposals could be put forward. During its four years of work on recommendations for code amendments, the System committee had received considerable advice from faculty, staff and administrators, as well as from Senator Adelman and other interested persons. The process for reviewing the result of these efforts, he continued, was to send the proposals to the Legislative Council and to schedule a public hearing, after which the Board could accept, reject or amend them. The final product would then be submitted to the Legislature for approval. Inasmuch as there would be opportunity before and at the public hearing to comment on the substance of the amendments, he did not see why it should be necessary to delay the process, although he agreed that to do so would not cause great harm.

Upon motion by Regent Fish, seconded by Regents Clusen and Conroy, both resolutions were tabled, and President Beckwith asked that the Secretary put them on the agenda for the October meeting.

Expressing concern about how others might view tabling of the resolutions, Regent Schilling suggested that it should be made clear to the System committee members, as well as to Senator Adelman, that the Board had taken this unusual action only because of the Senator's request, and President Beckwith directed that the minutes would so state.
President Beckwith then introduced Resolution 2893, which would authorize UW-Milwaukee Chancellor Frank Horton to accept the invitation of the President of the First Wisconsin National Bank of Milwaukee to serve as a member of the bank's board of directors. Noting that materials regarding past Regent action on a similar matter and relevant policies in other states had been distributed and that he had spoken to some Regents about the request, Regent Beckwith stated his support for approval of the resolution.

It was moved by Regent O'Harrow and seconded by Regent Finlayson that the following resolution be adopted:

Resolution 2893: That, as required by UWS 8.03(1)(g), Wisconsin Administrative Code, the Secretary be authorized to transmit the written approval of the Board for Frank E. Horton, Chancellor, University of Wisconsin-Milwaukee, to serve as a member of the board of directors of the First Wisconsin National Bank of Milwaukee, and that only System Administration and the Board of Regents make any recommendation or decision designating banks to serve as depositories for any University of Wisconsin-Milwaukee administered funds.

Although he had indicated previously that he would not oppose the resolution, Regent Lawton said he had reservations about the matter, based on materials provided to the Regents since that time. Inasmuch as past action by the Board before he became a member had caused chancellors, including one who was still in office, to resign from such positions, he found it very difficult to support a change in direction.

Regent Beckwith felt the Board's past action was a mistake which should not be perpetuated. Noting that the effort was to develop a close working relationship between the University System and all aspects of business in order to enhance economic opportunities, he observed that service on such boards was an important point of communication. Chancellor Horton had become a prominent citizen in Milwaukee in a very short period of time, he remarked, adding that the invitation to join the bank's board was not only a compliment to the Chancellor, but would benefit the bank as well. "It seems to me that if we are sincere in our belief that these relationships should be enhanced, we send them the wrong signal by saying that, for no good reason, the Chancellor can't serve on a prominent board of directors in the Milwaukee community." There would be no conflict of interest involved, he emphasized, since the resolution provided that UW-Milwaukee would make no recommendations or decisions regarding selection of banks at which university funds would be deposited.

Inasmuch as faculty were allowed to serve on boards of their choice, Regent Hanson asked if a faculty member would automatically have to resign upon assuming an administrative post.

√ Bank directorships - Chanc. Horton, UW-Milw, authorized to serve on Board First Wis. National Bank; no depository decisions or recommendations to be made by UW-Milw., R 2893, pp5-7
√ x-reg. (Horton) × UW-Milw-staff
In response, Regent Beckwith explained that the code provision applied only when there was potential for conflict of interest and that this matter came to the Board because the First Wisconsin National Bank had a deposit relationship with the University System, as did many other banks across the state.

Regent Knowles observed that the Board was not being asked to change policy, but rather to comply with existing rules by giving written approval in a single instance. If other instances arose, he added, written approval also would be required in each case.

Regent Lawton recalled that he had spoken against approving such board memberships in a closed session some years previously. "I will keep my promise not to fight this. But I did feel that there was new information submitted regarding these other chancellors that I had no knowledge of, and I have reservations about supporting it on those grounds."

It was noted by Regent Beckwith that the 1975 resolution to authorize a number of chancellors to serve on bank boards had failed on a 7-7 vote and that, because of the nature of the debate, Chancellor Baum had voluntarily withdrawn from the Marine Bank Board, with which the university had no deposit relationship.

Regent Gerrard asked which Milwaukee banks had business relationships with the university, and Vice President Lorenz replied that there were several accounts with the First Wisconsin, as well as with one or two other banks.

In response to a question by Regent Fish as to whether any chancellor had individual authority to establish a university depository, Vice President Lorenz said that all depositories must be approved by the Board of Regents.

Regent Beckwith added that at his request language had been included in Resolution 2893 to provide that no one at UW-Milwaukee could make any recommendation regarding selection of depositories; instead, such recommendations would be made to the Board directly by System Administration.

Speaking in favor of the resolution, Regent Schilling concurred with Regent Beckwith's earlier comments about Chancellor Horton's stature in the Milwaukee area. Noting that other chancellors were of similar prominence in their communities, he stated that, "while it is appropriate for the Board to weigh a particular appointment, as a general proposition I am in favor of our chancellors being on boards such as this because of that tie to the businesses and industries of our state."

Regent Gerrard asked if other chancellors would have the opportunity to bring similar requests to the Board, and Regent Beckwith responded in the affirmative, adding that they would need to do so only if the case involved a business relationship with the university.

Noting that Regent Gerrard voted against authorizing such service in 1975, Regent Hanson asked if he now felt differently about the matter.
Regent Gerrard said that in the intervening years he had changed his opinion. "We are living in a completely different world today, in a world where we need to improve economic opportunity. And I think if our chancellors have an opportunity to sit on these boards, it indirectly benefits the institution."

Regent Finlayson pointed out that past deliberations suggested that the importance of the chancellor's position was what caused him to be selected. "But I think in this case it is the performance of the individual in the broader community that has engendered the request. And there are controls, with the fact that we have guarded against conflict of interest. I would be very proud to vote for the resolution."

Stating that he would vote against the resolution, Regent Nikolay expressed concern that chancellors, who were busy on a full-time basis administering their institutions, eventually would become corporate directors rather than educators. "I would like to see him on the board because of the relationship between the financial community and the university. But I am hesitant about opening the door to permit our chancellors or any of our university officials to take on these extra, added duties."

While he supported the resolution, Regent Fish believed that Regent Nikolay's point was well taken. "I agree that it could reach the time where they serve on too many boards, and even though there would be no conflict of interest or fiscal impairment to the university, the impairment would be in loss of time if it got out of hand. But I do not believe this request of Chancellor Horton gets it out of hand." He referred to background material submitted to the Regents which indicated that Big Ten schools and other institutions of higher learning did not prohibit chancellors from engaging in such service, provided there was no conflict of interest. However, he added, if the Regents discerned that chancellors or faculty were spreading themselves too thin through membership on too many boards, it would be necessary to evaluate the situation at that time.

Regent Beckwith felt the Board could depend on the wisdom and judgment of the chancellors not to put themselves in a position where they could not fulfill their duties to the university.

Cautioning against limitation on all types of board service, Regent Heckrodt observed that chancellors were expected to engage in some such activities. "How about United Way, the Boy Scouts and so forth. They have to do these things. That is part of their community responsibility."

Put to the vote, Resolution 2893 carried, with Regents Hanson and Nikolay voting "No."
President Beckwith reported that Dr. Ed Muzik, Executive Secretary of The Association of UW Faculties, had asked the Regents to discuss the appeal of Mr. Stanley Larson, who had been employed at UW-Oshkosh. Regent Beckwith had previously ruled that it would not come before the Board, but after receiving a formal request by Mr. Muzik that the decision be reconsidered, he had placed the question on the closed session agenda. Because it was a personnel matter, he explained, he did not wish to discuss the subject publicly without Mr. Larson's consent.

In response to a question by Regent Schilling, Regent Beckwith indicated Mr. Larson was represented by counsel.

Regent Schilling agreed that it would not be proper to consider the request in open session without direct permission, and President Beckwith asked the Secretary to telephone Mr. Larson's attorney about the matter.

(See pages 38-39 for further discussion regarding this item.)

---

REPORT OF THE PRESIDENT OF THE SYSTEM

Adoption of the following resolution was moved by Regent Knowles, seconded by Regent Finlayson, and voted unanimously:

Resolution 2894: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

With reference to the earlier discussion concerning s. 8.03 of the Administrative Code, President O'Neil remarked that the committee chaired by Vice President Lorenz had been much concerned about strengthening conflict of interest policies. It was hoped, therefore, that the revisions of the code could move forward.

President O'Neil then introduced UW-Platteville Chancellor William Chmurny, who was attending his first Board meeting, and Dr. Lorman Ratner, who had been appointed Executive Dean of the UW Centers.

Dean Cliff Thompson, of the UW-Madison Law School, was introduced by Chancellor Shain, who noted that Dean Thompson was a native of Kansas, and a graduate of Harvard College and Harvard Law School. Having had extensive legal education experience in Africa, he came to Wisconsin from his former position as Dean of the Law School at the University of Idaho.
Remarking that by coincidence both Chancellor Chmurny and Dean Thompson came from universities in Idaho, President O’Neil added that they had appeared jointly on a public television program in that state, in which they were asked why they would go to Wisconsin, with all its financial problems. Both had replied independently that in their view Wisconsin had a long and strong tradition of public support for higher education, which could be found in few other places in the country.

The President introduced Dr. Patricia Breivik, who was serving in System Administration as an American Council on Education Fellow in Academic Administration. She came to Wisconsin from the University of Colorado, where she was Director of Libraries.

Dr. Karl Patton, Dean of the School of Architecture at UW-Milwaukee, was introduced by Chancellor Horton, who noted that Dean Patton had chaired the program in urban and regional planning at the University of Illinois, Champaign-Urbana, where he also served as Director of the Bureau of Urban and Regional Planning Research. He received his Ph.D. from the University of California, Berkeley, and two master's degrees from the University of Illinois.

As a final introduction, Chancellor Shain presented Professor Winston Van Horne, of UW-Milwaukee, who had been awarded an American Council on Education internship to spend the first semester at UW-Madison and the second in System Administration.

Noting that there had been much publicity about the exodus of faculty from UW institutions, Regent Knowles remarked that it was heartening to see that there also was an influx of distinguished scholars.

While it was too early in the year to have complete fall enrollment data, President O’Neil reported that the projection last spring of 1,200 fewer students in the System seemed to have been unduly pessimistic. Instead, preliminary returns showed an increase of 2,234 students over the previous year. A final report on first semester enrollments was to be presented at the October meeting.

With respect to the issue of collective bargaining for faculty and academic staff, President O’Neil noted that two legislative committee hearings had been scheduled for later in the month. On September 20, the Assembly and Senate Higher Education committees were to meet jointly in Milwaukee for a public hearing on the two faculty/staff bargaining bills, and on September 26 the same committees were scheduled to hold another hearing at the Capitol in Madison.
President O’Neil then made the following statement:

"I would now like to offer a few thoughts on what surely has been the major topic of concern for us all this summer. It is of course the question of faculty and academic staff compensation. Perhaps I could start with a few observations and then offer several steps that we might be able to take. First, I would observe that the intensity of faculty and staff response in these weeks has been unprecedented. At no time in my 25 years as a university professor do I recall such expression of dismay, frustration and outrage on the part of my colleagues. Yet the situation which evokes those feelings is also unprecedented. We have traced faculty salary data back to World War II, when salary increases were of course limited by federal regulations. We found no year in which there was no salary increase at all. In fact, since the records on percentage increases have been kept (1951), the next lowest increment we discovered was 2.2% in 1958-59. There are only two years during more than 30 in which the increment was less than 3%. So, quite literally and factually, the current situation is in recent memory unprecedented.

"Second, I would observe that the extent of media comment and support has been particularly welcome. The Board has received copies of news reports, editorials and analyses, both of the immediate and potential effects of the salary situation. We have been especially grateful for and heartened by the measure of understanding and support which the media have shown.

"Third, I think in these last weeks the differences between Wisconsin's approach to this problem and that of other states have become clearer than they were in mid-summer. Not only in terms of actual percentage and dollar differentials, but also in terms of comparative flexibility to use other funding sources for salary purposes, the special nature of our problem has been clarified during this most recent time.

"Last, and perhaps most importantly, I would observe that Governor Earl has shown his understanding of our plight and has reinforced his commitment to the support of public higher education in this state. While he has not felt he could modify his original position—at least during the negotiation and ratification of the state employees union contract—he has clearly and frequently expressed his support for a joint commission to study the whole salary situation. That commission, I am sure, will very soon be appointed and does offer for the university community a vital avenue of hope for clearer understanding of the problem.

"Mention of the joint commission leads naturally to discussion of several specific steps. We have already had a number of discussions with the Governor and members of his staff, both about the composition of the commission and its charge. We are agreed, for example, that the commission ought to explore such questions as the current parity of treatment of university faculty/staff and other state employees; the possible use of internal reallocation and tuition income for salary increase purposes; the timing and the process of presenting compensation requests to state government; the effects of earlier less-than-competitive increases for Wisconsin faculties; present and prospective comparisons between UW System faculty/staff salaries and those of comparable institutions; intercluster comparisons within the UW System; relative levels of non-salary fringe
benefits, particularly in the retirement area; and specific steps which might offer both immediate and longer-term relief. These and perhaps other issues will be addressed by the joint commission just as soon as it can be appointed and convened. We in the university should give our full support to this undertaking and recognize with appreciation Governor Earl's endorsement of it.

"Meanwhile, we can aid the commission's work by gathering more information on our own. By letter today, I am asking each of our chancellors and the Executive Dean of the Centers to set in motion an intensive study process which would include faculty, staff and perhaps others at each institution. Within the next month or so, I expect to get preliminary reports from each of the chancellors on current and probable effects of the salary situation, as well as specific recommendations for the future. We simply need to know a good deal more in detail about what has happened, is happening, and is likely to happen at each of our institutions, than the still fragmentary reports of the departure of some colleagues and the demoralization of others. My hope is that such a study will give us a broader and deeper informational base which we can then bring to the joint commission as it gets under way.

"We should also be ready at the earliest opportunity to seek legislative support for any relief that may be possible. You may recall, I remarked in July on Senate President Risser's suggestion that we might even seek some supplemental salary funding as early as the October legislative session. If there is no chance next month, we will certainly be there in January. As we approach the next biennium, you may be confident that the salary issue will be front and center. It will be raised early and often and forcefully at every stage of the budget process.

"Finally, we must retain a sense of perspective and of proportion. It is very tempting to vent one's frustrations in ways that are neither rational nor productive. It is also natural in times of anger to indict a governor, even though he has already shown support for higher education in many ways. During his term of office, he will have many more opportunities to do so.

"The kind of perspective we need in these troubled times is reflected, for example, in a very thoughtful letter that Regent President Beckwith and I received several days ago from the UW-Madison University Committee. Similar restraint and perspective were urged earlier this week by a resolution of the UW-Oshkosh faculty. Other faculty senates and their leaders have spoken to the same effect. They are no less concerned, disappointed, or frustrated about the current conditions and no less anxious to find early solutions. But they believe, as I do, that perspective and proportion are qualities particularly vital to a great university system. We need somehow to distinguish between irreparable losses—which have undeniably occurred—and irreversible decline, which I fervently hope has not yet happened. Rational discourse, even in a time of irrational forces, is essential. Working together in this spirit, we will best make our case with those who must ultimately decide."
It was reported by President O'Neil that he recently had met with a group of university presidents and education school deans, who had issued a statement reinforcing the importance of improved relations between universities and elementary/secondary schools. The previous week, education school deans from around the UW System had been invited to meet with Carnegie Foundation President Ernest Boyer and Regent Grover, Superintendent of the Department of Public Instruction. The Carnegie report on the American high school, due to be released in Washington the following Wednesday, should have a profound effect upon the national debate, the President added, noting that as a trustee of the Foundation, he expected to offer additional comments on those recommendations and how they related to initiatives in Wisconsin.

Next on the agenda was a presentation on science education. To make that report, Vice President Lyall introduced Dr. Bassam Shakhashiri, Professor of Chemistry at UW-Madison, Professor James Stewart, of the Department of Curriculum and Instruction, UW-Madison, and Mr. LeRoy Lee, a science teacher at James Madison Memorial High School in Madison, who also was an officer of the Wisconsin Academy of Sciences, Arts and Letters.

Referring to the shortage of qualified science teachers at the pre-college level, Professor Shakhashiri described efforts of the UW-Madison Institute for Chemical Education to revitalize the teaching of chemistry at all levels. Through collaboration of the university, the private sector, state government and the federal government, it was expected that the Institute would be in full operation by the next summer, with an annual operating budget of $1.5 to $2 million. Two types of activities were planned: first, a research and development component, through which resident fellows from across the country would come to Madison for one- to twelve-month periods in order to study specific issues in chemical education; and secondly, the implementation and dissemination of the results of their work. Dissemination activities could begin immediately, he said, due to support from the university and the private sector, including grants from Exxon, Dupont, and many other companies. Workshops to be conducted throughout the year were expected to reach 1,500 teachers, each of whom would then conduct workshops in their own communities.

As a symbol of the effect of private, governmental and university collaboration, he demonstrated an oscillating chemical reaction in which the mixture of two liquids, representing state and private cooperation, produced no visible result, but the addition of a third, representing the contribution of the university, caused the liquid to change from one color to another and back again.

One activity in which the Institute had been engaged for some time, he continued, was an outreach program for middle school students throughout Wisconsin. "Youngsters are less inhibited than adults in asking questions. The sad failure of the teacher to answer those questions is what has brought this crisis upon us. We have to revitalize the teaching of science and math at the pre-college level right away."
Professor Shakhashiri then described a program of the Institute called "Chemistry Can Be Fun," noting that with aid from the System's undergraduate teaching improvement grant program, a workshop had been conducted for teachers, who could then implement such programs in their own communities. The program was an outreach effort through which students were brought to campus for a one-hour presentation about scientific phenomena and which included in-service training for teachers so they could answer students' questions about what they had seen. This year, a third component was being added which would involve selection of 160 students from Dane County to spend four consecutive Saturdays doing hands-on experiments in chemistry. Concluding his presentation, Dr. Shakhashiri demonstrated an experiment with "light sticks" as an example of the kind of activity done by students in the program.

Professor Stewart spoke about a plan for summer institutes for high school biology teachers, to be staffed by faculty primarily from the Department of Genetics and the Department of Curriculum and Instruction. The reason for focusing on biology, he explained, was that 75%-80% of high school students nationwide would take biology as their only science course and, therefore, efforts to upgrade the quality of instruction in that field would have a large pay-off. In Wisconsin, high school biology teachers had expressed a need for assistance in the area of genetics, particularly human genetics, which was becoming more frequently included in high school curricula. It was anticipated that the initial summer institute would involve 25 to 35 Wisconsin biology teachers and that the content of the program would include human genetics, genetic diseases, environment/heredity interaction, and certain aspects of genetic counseling, as well as recent advances in molecular genetics and their applications in society. The educational components would revolve around laboratory work and demonstrations that could be used in high school genetics teaching. In addition, there would be a strong focus on the application of micro-computers in teaching high school genetics, and advances in cognitive psychology, particularly in the areas of problem solving and learning, also would be included. The format would consist of a four-week, resident institute on the Madison campus, which would involve classes, guest lecturers, field trips and structured free time for discussion and work with micro-computers.

With regard to the question of financing, he indicated support might be obtained from the National Science Foundation, as well as from business and industry. Additional support might come from school districts in the form of release time for teachers to maintain contact with the Institute staff and to conduct workshops for other teachers in their districts.

In conclusion, he noted that the National Institute of Education would be sponsoring research and development centers to focus on science and mathematics education, and that UW-Madison would certainly make a bid for one of those centers.
Mr. LeRoy Lee's remarks were directed to the needs and problems of high school science teachers. Noting that the average science teacher in the state was in his or her late 30s/early 40s and that in 10-15 years people now in that age group would still comprise the majority of teachers, he pointed out that it was not only necessary to produce new science teachers, but also to assist those already in the schools. Most of those teachers, he remarked, had not had any formal updating of their training since the National Science Foundation programs in the 1960s.

As to the matter of compensation, he felt that, while wages for science teachers were not high, they were adequate in comparison to previous years when teachers had to have second jobs in order to survive. He also did not think course credit was very important to them, except as it related to salary or tax deductions. The concern expressed about salaries, in his view, was not as much related to need for money itself as it was to the message conveyed by low salaries regarding the lack of value society placed on teaching.

Stating that lack of funds for travel was another serious problem, he observed that attendance at conventions and visits to other schools were major ways in which teachers could renew their enthusiasm and develop new ideas. Another problem, he added, was lack of qualified staff to replace those leaving the profession.

Turning to specific needs of science teachers, Mr. Lee first commented on the need for recognition. As positive approaches to that matter, he identified awards given by national associations and through the Department of Public Instruction, as well as the practice by some private colleges of letting high school teachers know when they felt students from those schools had been well trained. Most significant with regard to recognition, he thought, was a feeling of partnership with universities and colleges, including the idea that high school teachers could teach college courses at times. "A university teacher comes out and says, we are in this together; what can we do? That feeling of value is going to be much more important than money in science education."

In addition, he observed that it was important for science teachers to have the opportunity to take meaningful courses at convenient times. Many courses offered by universities during the summer, he noted, were not designed for teachers but rather were content courses leading to the Ph.D. As an example of the type of program which was especially helpful, he described a course offered by DPI that summer in which 24 teachers were able to observe master teachers at work and to interact with them. Other useful courses included those offered by UW-Eau Claire in biology for teachers, by UW-Superior in earth science and by UW-Whitewater on demonstrations in physics. In addition, there was to be a three-year, federally funded project to develop programs which were expected to expose 10% of the teachers in Wisconsin to curriculum updates, and the following summer there was to be a series of workshops, some of which would be in Wisconsin, sponsored by the National Association of Biology Teachers. There also were local initiatives, such as the Madison Public School System's decision to develop a course in immunology, through cooperation with UW faculty members.
Another need, he continued, was for coordination of information, so that teachers could more easily find out where to get answers to specific questions. The Center for the Advancement of Science Education was attempting to address that concern.

Concluding his remarks, Mr. Lee indicated that long-time teachers should have the opportunity to keep informed about developments in industry, a need which could be met through such programs as fellowships which allowed teachers to spend time working with businesses.

President Beckwith expressed gratitude to Professor Shakhashiri, Professor Stewart and Mr. Lee for their informative comments.

Noting that the UW-Milwaukee Kenilworth masonry repair project was approved as requested, Mr. Winter indicated that the Blackhawk Commons project at UW-Oshkosh had been deferred to allow another appraisal in order to satisfy requirements of the state's insurance program. With respect to the Treehaven project at UW-Stevens Point, there was concern on the part of legislators about leasing the facilities, and the Governor had decided to recommend enumeration of the project to provide construction and/or purchase of those buildings. The budget increase for the UW-Stout project was approved as requested, but authorization of contract awards was deferred due to a lawsuit relating to state bonding.

President Beckwith noted that the members of the Executive Committee had been advised that these matters were ones which required prompt Regent action and could not be delayed until the September Board meeting.

Resolution 2895 was unanimously adopted, upon motion by Regent Schilling, seconded by Regent Finlayson.

Resolution 2895: That the actions of the Executive Committee at its meeting on August 12, 1983, be ratified and confirmed.

(The minutes of that meeting are attached as Exhibit A.)
REPORT OF THE EDUCATION COMMITTEE

The Committee's report was presented by Chairman Schilling, who noted that all Regents had been invited to participate in that portion of the meeting at which phase I of the academic staff review was discussed.

That report, which was to be the first of four regarding the role of academic staff, consisted of a general introduction to and history of the academic staff category. Outlining the process by which the reports were being prepared, Vice President Lyall advised the Committee that the study outline and schedule had been sent to the chancellors, who referred them to institutional academic staff and faculty committees for comment. Their suggestions then were incorporated into the final study plan. Each section of the report was to be prepared by the System academic affairs staff and then sent through the chancellors to the academic staff and faculty committees. The chancellors were to transmit the unedited comments from those committees to Dr. Lyall, so that they could be incorporated as appropriate in the documents sent to the Board.

Vice President Lyall pointed out several of the key issues identified in the first report, including the enormous diversity of the academic staff category and the role of academic staff in the overall structure of the university. She also reviewed the statutory language regarding definitions and roles of faculty and academic staff. In response to questions raised by Regents during Committee discussion, she explained that there was no System definition of short-term employment, which was one of the troublesome issues regarding academic staff. While some institutions had rules about ceilings on short-term appointments, others did not. The academic staff category had been used to respond to Regent mandates that institutions maintain staffing flexibility in order to avoid fiscal emergencies and tenure layoffs. There was, therefore, ongoing tension between the need for flexibility and the desire for job security on the part of academic staff. The short-term nature of instructional academic staff appointments was made clear in appointment letters, which sometimes included both appointment and termination notices in the same correspondence. It was indicated by the chancellors that head-count numbers were less meaningful than full-time-equivalent figures because instructional academic staff might be employed for only one semester or to teach only one course, and private sector personnel might be used in high-demand instructional areas until faculty positions could be filled. Clinical staff in the Medical School were an example of instructional academic staff hired to teach a limited specialty, the range of responsibility assigned to the position being the key determinant as to whether it would be a faculty or academic staff position. In addition, academic staff appointments might be used in areas of great student fluctuation, such as elementary-level English and mathematics. In reply to Regent inquiries about the concerns of noninstructional academic staff, it was indicated that in many respects this group had different concerns, which would be explored in detail in the November report to the Board.
Responding to a question asked in Committee about the goals of the academic staff study, Chairman Schilling emphasized the importance of becoming informed about this large category of university employees and of determining whether there were problems which needed to be addressed. He remarked that tightening of definitions might be a possible outcome, adding that sometimes problems could be diminished if people understood the reasons for their occurrence. For the next report, he requested that employment categories in the UW System be compared with those in other comparable state systems.

Vice President Lyall concluded the report with a summary of four elements contributing to the use of academic staff: (1) the Regent mandate to try to avoid fiscal emergency; (2) fixed-term funds and positions from the Legislature; (3) experience with fiscal retrenchment; and (4) employment prospects in a time of continuing economic uncertainty.

Regent Schilling then summarized the Education Committee's review of eight new academic programs which had been presented for a first reading. The four-stage process by which new programs were implemented was outlined by Vice President Lyall, who explained that System Administration reviewed a preliminary entitlement to plan, and if it was approved, the institution sought an authorization to plan. Next, System Administration reviewed the proposal and brought to the Board those which were recommended for implementation. The first reading provided an opportunity for questions and comment about the program, while at the second reading, Board action was requested. Stage three was development of an implementation document by the institution, and stage four was the five-year review of the program.

In its stage-two review, Regent Schilling continued, System Administration asked the following questions: Does the proposed program fit the institution's mission? Are need and student demand for the program demonstrated? Does it avoid unnecessary duplication and provide needed student access? Are there resources sufficient to support a high quality program? What is the impact on existing programs and resources? He pointed out that funding for new programs came principally from internal reallocations, but might also be obtained from outside sources or, rarely, from special legislative appropriations. Regents expressed interest in receiving information for each new program with respect to reallocation plans and trends within institutions.

The new program proposals follow:

**UW-Madison: M.S. in Manufacturing Systems Engineering**

The program was presented to the Committee by Chancellor Shain, Engineering Dean John Bollinger, and Mechanical Engineering Professor Marvin De Vries, who described the work of a committee formed four years previously to design the program and seek advice from state industries as to what was needed. In the fall of 1982, IBM announced a competition for funds to develop the very program this committee had been contemplating, and UW-Madison successfully competed for a $2 million grant to prepare new courses, upgrade existing courses and develop laboratory facilities. In addition, the University negotiated a $2.3 million gift of computing
equipment, and operating funds were being sought from several other companies. Due to outside funding, the program was expected to be self-sustaining for the first four years. It was also reported that the program would be put on videotape as part of the College of Engineering's outreach effort. Because practicing engineers might lack academic prerequisites, there would be an option to fill in those gaps and finish the degree in three to five years.

UW-Milwaukee: B.A. in Law Studies

Chancellor Horton introduced Letters and Science Dean William Halloran to present the three UW-Milwaukee programs, noting that all had been under development since the 1970s. Describing the law studies proposal, Political Science Professor Marvin Summers indicated that it was first planned as a certificate program. The National Endowment for the Humanities then made a grant to UW-Milwaukee to develop an undergraduate major. Given the degree title, he said, it would be necessary to advise undergraduates that this was not a pre-law program or legal training. The importance of that point was emphasized by President O'Neil, who remarked that many law professors were concerned about pre-law students trying to focus too early on law studies, rather than on a broader-based education. It was explained that the program would deal with law from the perspective of history, philosophy and social sciences, and that it represented a national curricular trend. With regard to reallocation, it was noted that, by using existing courses, current resources would be better utilized.

In discussion at the Board meeting, Regent Clusen asked if the program was intended to prepare para-legal personnel.

Responding in the negative, Regent Schilling indicated that it would be a liberal arts degree, rather than a technical program, and Chancellor Horton added that the purpose was to study the importance of law in society.

Regent Beckwith asked if the degree was considered a professional program and how it differed from a major in philosophy, political science, or history.

In reply, Dean Halloran said its focus on the study of law through the ages could be compared to the focus in art history on visual art through the ages.

Regent Fish inquired about the type of student who could be expected to enroll in the program, to which the Dean responded that participants might include any students who, through their introductory courses or other experiences, developed an interest in law as a subject of study.

Questioning the need for a separate degree in law studies, Regent Beckwith noted that at UW-Madison there were courses such as those in history of law and philosophy of law which interested students could take while pursuing a major in a number of different fields.
President O'Neill recalled that some years previously, when he chaired an Association of American Law Schools committee on teaching law outside of law school, there was strong interest in the teaching about—rather than the teaching of—law, legal systems and legal processes, at the undergraduate level. Several surveys had been conducted to find out what was being offered, the first of which resulted in the discovery that there were no more than six baccalaureate degree programs, typically at rather large universities which had a wide range of course offerings. The last survey revealed 20-22 such programs and a clear growth in recognition of study about the legal system as a discrete baccalaureate field. It seemed to him, therefore, that the proposal fit into an evolving national pattern. Before the second reading, he thought it would be useful if UW-Milwaukee could ascertain the present status of similar programs across the country and provide that information to the Board.

Adding that at UW-Madison there was an undergraduate major in behavioral sciences and law, Dean Halloran said he had been informed that there were about 35 students enrolled in that program during the last academic year.

**UW-Milwaukee: Master of Industrial and Labor Relations**

UW-Milwaukee Economics Professor Melvin Lurie described the program, noting that a need for it had been identified in the Milwaukee area. Initially, UW-Green Bay, UW-Milwaukee and UW-Oshkosh had tried to develop a cooperative program, but an external review found the administrative structure unworkable. UW-Milwaukee, however, hoped to invite participation from those institutions in the program being proposed. It was pointed out that the only similar offering in the state was a non-credit program at Marquette University.

Reviewing the base reallocation process for all three new programs being presented by UW-Milwaukee, Chancellor Horton indicated that they depended heavily on courses currently being taught and that none exhibited a great need for additional resources.

**UW-Milwaukee: Master of Public Administration**

The proposal was presented by UW-Milwaukee Political Science Professor Brett Hawkins, who noted that the Political Science Department would have responsibility for the program, but that it also would require courses in the School of Business Administration. Explaining that the program emphasized municipal administration, as well as urban policy and general public administration, he stated that, although three other UW System institutions had programs in public administration, demand justified this addition and that the municipal administration emphasis was particularly appropriate for the Milwaukee area.
Chancellor Weidner, Vice Chancellor Kuepper, Communication and the Arts Professor Donald Larmouth, and Science and Environmental Change Professor Dennis Girard presented the proposal. Like other UW-Green Bay programs, it would be interdepartmental in nature, with the emphasis on human language, cognitive processes and communication theory. It was not directed toward a specific occupation, and the curriculum would be dissimilar to most computer science curricula in and out of the state. It was noted that UW-Green Bay had all necessary faculty and most needed courses in place for this major. Vice President Lyall added that computer science programs around the state had a variety of focuses.

The proposal was presented by Acting Vice Chancellor Ben Greenebaum and Fine Arts Chair Rhoda Gale Pollack who described the evolution of the program as a separation from the communication major. In response to a question regarding duplication of such programs in the System, they explained that the UW-Parkside offering would be a liberal arts program, not one devoted to professional training, and that it would emphasize the study of dramatic literature as well as performance. It was pointed out that students would be prepared either for graduate work or for professional schools and that the program also had a cultural outreach element. Noting that some funding would come from box office receipts, they indicated resources for the program were in place and stable.

Chancellor Marshall, Vice Chancellor McDonough, Letters and Science Dean Howard Thoyre, and Mathematics and Computer Science Professors Bruce Staal and Daniel Goulet presented the proposal. It was noted that, while new resources would be required to mount the program, UW-Stevens Point had taken advantage of a System program to retrain professors from anthropology, English, biology, psychology and mathematics. These faculty members understood computer applications in their own disciplines and had strengthened their disciplinary teaching, as well as the ability to contribute to the new major. With respect to the question of program duplication, Regents asked why the department did not perform simply a service function instead of offering a new degree, to which the response was that other computer science programs stressed study of the machine itself, while this one would emphasize the use of the computer as a tool.

In discussion at the Board meeting, Regent Hanson asked if a Title III grant which had been obtained would cover the initial costs of the program, to which Chancellor Marshall responded in the affirmative, adding that while the annual allocation could vary, the amount for the current year was $367,000.
Regent Schilling pointed out that, with respect to both the UW-Green Bay and UW-Stevens Point computer degree proposals, there had been a great deal of discussion in Committee about guarding against proliferation of such programs and that the proponents had spent considerable time demonstrating the uniqueness that each offered.

**UW-Stout Programs - First reading of proposal for**

**UW-Stout: B.S. in Applied Technology, p.21**

Chancellor Swanson and Vice Chancellor Face spoke to the Committee about this program. Describing it as a natural extension of UW-Stout's special mission in industry and technology, they explained that industrial education programming was developed first, followed by management-oriented industrial technology programs. This transdisciplinary major was for those who would apply technology.

In further discussion at the Board meeting, Regent Fish recalled that, when he served on the Merger Implementation Committee, it had been made clear that the Legislature wanted to stem the continued expansion of programs. "While they did not say it in that many words, the theory was that, if you're going to start a program, you ought to stop one. With the help of some faculty people and others, we were able to head that off. Obviously, you do not want to get into a numbers game on programs, and where there is a clear-cut need, we certainly want to have it. But I think we should all be cognizant of the fact that every time we add new programs, it does not make our job any easier with the Legislature." Therefore, he thought it would be beneficial when new programs were presented to have at the same time a recap of degree programs which were eliminated in the last year or biennium.

Noting that the Education Committee discussed each proposal in depth, Regent Schilling said a recurring theme had been that on one hand, the university had to keep up with the times, but on the other hand, it was necessary to question closely where the funds would be found to mount new programs. "We were concerned that someone might draw the mistaken impression that as soon as the budget sessions are over, the Board of Regents is approving a bunch of new programs. I think it is important to emphasize that in most cases the funds for these programs are either the result of reallocation or outside funding of some type. And in fact, the discussion was along that line in so many cases that I, for one, raised the question that maybe we ought to be hearing what the trends of reallocation point to. In other words, are we going to have computer sciences offered as a degree in every university in our System and medieval history nowhere? Are we taking from some of our traditional, basic programs the funds needed to run the newer programs to a degree that perhaps we should be wary?" As a result of this discussion, he added, the Committee had asked the chancellors to provide further information about trends in reallocation and how the process related to the new degree proposals.

Regent Knowles indicated that it would be interesting to know what programs had been eliminated.

It was noted by Vice President Lyall that, since merger, 124 had been terminated and 95 had been added.
While he was in favor of having information about reallocation and elimination of programs, Regent Lawton referred to Chancellor Horton's comment the previous day that it was not easy to maintain such a scorecard. Due to the constant shrinking and expanding of programs by faculty, it was difficult to say that a certain number of dollars had been taken from one program and reallocated to another.

Regent Fish explained that he was not asking for identification of reallocation money in dollar amounts, but was suggesting that it would be helpful to identify the number of new programs being started and the number of old programs being eliminated. That evaluation should be made simultaneously, he emphasized, to avoid legislative criticism that programs were being continually expanded.

Regent Beckwith added that when he met with legislators and others the question frequently was asked as to why there were "x" number of programs in various fields. He therefore agreed that coupling of information about termination and addition of programs was important. "It points up something which has always been a little bit frustrating to me, that the nature of the academic process is such that it does not engage in the kind of advance planning as a System that most businessmen are familiar with, where you look ahead five or ten years and determine what you are going to engage in. Instead, we have faculty making decisions on an ongoing basis."

Regent O'Harrow felt a "devil's advocate" dimension was needed in deliberations about new programs. When such proposals were recommended to the Education Committee, he asked, who was responsible for taking the opposite side and perhaps arguing against them. "There should be some element of cross examination. Regent Schilling has a grave responsibility as Chairman of this Education Committee, because Wisconsin has limited resources and we have a big institution with growth at every point. You have to hold them within the frame."

Regent Schilling explained that much of what Regent O'Harrow suggested took place in the review process conducted by System Administration, at which time matters of duplication and need for programs were questioned. Noting that new programs normally were brought forward in January and September, he said this year they were delayed because of budget considerations, which resulted in a larger number than usual being presented at one time. He asked Vice President Lyall to comment on the percentage of programs which survived the System review process.

Indicating that the process involved considerable discussion and questioning, Vice President Lyall responded that approximately one out of four or five programs was approved for presentation to the Regents and that sometimes proposals were withdrawn or modified in the course of review. With hundreds of degrees in the System, she observed, an increment of eight was not a very large addition to the total stock, considering that the new programs represented a year and a half's effort.

Regent Lawton pointed out that Chairman Schilling also was very thorough in raising questions about the merits of programs and about possible reasons for not approving them.
Noting that the same process took place at the campus level, Chancellor Horton said one of UW-Milwaukee's proposals had been under discussion since 1973 and another since 1976. There was, therefore, a whole series of checks and balances before new program ideas even reached the System level. With so many hurdles to be crossed, he was concerned that faculty might give up the pursuit of new directions, "and thus, our product mix would remain rigid and constant, which I think would be very detrimental for any university which wants to stay on top of their disciplines."

Regent Schilling continued the report of the Education Committee, stating that a presentation on the five-year review of the Ph.D. in Urban Social Institutions at UW-Milwaukee was made to the Committee. Chancellor Horton described the success attained in combining three disciplines to create an interdisciplinary program, which had been especially useful to people employed in urban-oriented positions. Since there was no undergraduate program as a counterpart, one problem had been that there were few graduate stipends, which hindered enrollment of out-of-state students.

Resolutions 2896 through 2899, approved in closed session of the Education Committee, were presented to the Board by Regent Schilling.

It was moved by Regent Schilling, seconded by Regent Zirbel and unanimously carried that the following resolution be adopted:

Resolution 2896: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Barbara Hinckley be changed from Professor, Department of Political Science, College of Letters and Science, to Glenn B. Hawkins and Cleone Orr Hawkins Professor of Political Science, Department of Political Science, College of Letters and Science, University of Wisconsin-Madison, effective September 9, 1983 with no change in salary. (Auxiliary allowance, $10,000/year)

Upon motion by Regent Schilling, seconded by Regent Finlayson, Resolution 2897 was adopted unanimously.

Resolution 2897: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the Chancellor of the University of Wisconsin-Madison be authorized to recruit for a Dean of the School of Allied Health.
Regent Schilling moved and Regent Zirbel seconded the following resolution, which was unanimously adopted:

**Resolution 2898:** That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Platteville, the Chancellor of the University of Wisconsin-Platteville be authorized to recruit for a Dean of the College of Agriculture.

Adoption of Resolution 2899 was moved by Regent Schilling, seconded by Regent Zirbel, and voted unanimously.

**Resolution 2899:** That, upon the recommendation of the President of the University of Wisconsin System and the Executive Dean of the University of Wisconsin Centers, the Executive Dean be authorized to recruit for Dean of the University of Wisconsin Center-Manitowoc County.

---

**REPORT OF THE BUSINESS AND FINANCE COMMITTEE**

Vice Chairman Fish reported for the Committee.

The first resolution approved by the Committee concerned acceptance of gifts, grants and U.S. government contracts. The year-to-date total of almost $88 million was considerably higher than the previous year, due in part to earlier processing of federal student financial aid. The total received from the federal government was substantially greater than the prior year, while the total of all other categories was approximately the same. The list, which encompassed two-months' activity, included 127 research grants from the National Institutes of Health for the UW-Madison, amounting to about $10 million, and 43 from the National Science Foundation for approximately $2.7 million.

The following resolution was unanimously adopted, upon motion by Regent Fish, seconded by Regent Hanson:

**Resolution 2900:** That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.
Regent Fish reported that the bequest of the late Charles E. Stanford of Waupun, Wisconsin, was presented to the Committee. The terms of Dr. Stanford's last will and testament provided for 50 percent of his estate to go to the UW Medical School after all expenses and a $10,000 bequest had been paid. He received a B.A. degree in 1931 and an M.D. degree in 1934 from the UW-Madison. Because the estate had not been inventoried, no estimate of its value could yet be made.

It was moved by Regent Fish, seconded by Regent Knowles and unanimously carried that Resolution 2901 be adopted.

Resolution 2901: That the bequest of the late Charles E. Stanford, Waupun, Wisconsin, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

The Committee then approved the bequest of the late Beatrice H. Barsantee of Henderson County, North Carolina. The terms of her last will and testament provided for three-fourths of the estate to go to the University of Wisconsin, to be held in trust and invested by the university for the creation and maintenance of a scholarship fund to be known as "The Colonel Harry Barsantee Scholarship Fund" for journalism students, to be selected by the faculty of the School of Journalism. It was further provided that only income from the trust could be utilized.

Beatrice Holbrook Barsantee attended the University of Wisconsin in Madison during the summer session in 1926 to complete work on a teaching certificate, having previously attended Chicago Normal School for three years. Harry Barsantee, her husband, graduated in 1926 from the University in Madison with a B.A. degree in Journalism. A preliminary estimate of the university's share of the estate was $150,000.

Upon motion by Regent Fish, seconded by Regent Knowles, the following resolution was adopted unanimously:

Resolution 2902: That the bequest of the late Beatrice H. Barsantee, Henderson County, North Carolina, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.
Noting that Section 2053(1) of the 1983-85 Budget Act required that a report on use of the faculty recognition fund be made to the Governor and the Joint Committee on Employment Relations, Regent Fish stated that the report presented to the Committee in response to that requirement described the basis for allocation to the institutions and ways in which funds were distributed to selected faculty. The increases granted through the recognition fund represented about two tenths of one percent of the faculty salary base.

Adoption of Resolution 2903 was moved by Regent Fish, seconded by Regent Clusen and unanimously voted.

Resolution 2903: That, upon recommendation of the President of the University of Wisconsin System, the report on the uses of the Faculty Recognition Fund be approved and transmitted to the Governor and Joint Committee on Employment Relations.

In his report to the Committee, Vice President Lorenz spoke first about the final 1982-83 financial report for general program operations and other state appropriations. It was noted that the carry-forward balance to cover possible fee/tuition shortfalls and other contingencies was just over $1 million, which amounted to about .002% of the total appropriation, and that a balance of $1-$2 million in that category had been previously endorsed by state government. Because general purpose revenues were annual appropriations, amounts not expended lapsed to the state general fund at the end of each fiscal year. In accordance with a commitment to the Governor last December, $502,000 from the general purpose operations appropriation was lapsed. Due to a number of factors, including energy conservation, a warmer than normal winter, greater utilization of less expensive fuels, and deferral of coal purchases, $1.1 million was lapsed from utility appropriations. As a result of lower than budgeted federal capital contributions for loan funds, the state-required match was reduced accordingly, resulting in $485,000 from that fund being lapsed. The total amount lapsed to the general fund was $2,121,387.

The Committee reviewed the 1983-84 schedule for the System Administration Internal Audit Department, which showed that over half the time would be devoted to federally mandated audits of student financial aid and accounting systems. Other scheduled audits covered student academic fees and other revenue-producing operations.

Regent Fish summarized a report made to the Committee by Vice President Lorenz on efforts by System institutions to accommodate the needs of Nigerian students who were experiencing problems in receiving financial support. In the fall of 1982, there were 398 Nigerians enrolled in the System, while there were probably no more than 25 who had not been allowed to register for the current semester. Campus officials had been working with the Nigerian embassy and consulates, the U.S. Department of State, and
the U.S. Agency for International Development. In addition, efforts were under way on an almost daily basis between the U.S. Department of State and Nigerian government officials to enable the transfer of funds to the United States for support of the students, who were in this country on educational visas from their governments. In a considerable number of cases, the Nigerian government had guaranteed the educational funds for specific students, and agreement apparently had been reached that those commitments would be honored. Earlier in the week, the Nigerian Consulate in Atlanta, Georgia, had assured officials at several System campuses that students supported by federal and state governments would receive the necessary financial support. On the basis of that verbal assertion, the students were being allowed to register with the understanding that the money would be forthcoming. The 25 remaining students also had educational visas, but without the same governmental commitment. In those cases the problem generally was that, although the students had the necessary funds, the Nigerian government was not moving to transfer them to the United States.

Referring to a report on employment contracts submitted to the Board members, Regent Lawton asked if the large number of UW Hospital accounts turned over to attorneys came about as a result of the recent audit.

Responding in the affirmative, Vice President Lorenz indicated that, although the percentage of accounts receivable had not been increasing, they were being turned over for collection more quickly than in the past.

---

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Chairman O'Harrow reported for the Committee.

The first item on the Committee's agenda concerned purchase of five parcels of land, three for UW-La Crosse and two for UW-Madison. The properties for UW-La Crosse were located within the approved campus boundary and in key locations for outdoor field development. The first parcel, located at 1602 La Crosse Street and appraised at $47,500 and $47,200 had been optioned for $46,000 plus $5,000 closing and relocation costs. The second, on North 17th Street, was appraised at $41,000 and $42,000 and had been optioned at $41,000 plus $2,000 in closing and relocation costs, while the third, on Farwell Street, was appraised at $31,500 and $32,000 and had been optioned at $28,000 plus $5,000 in closing and relocation costs.

At UW-Madison the request was to acquire two parcels of vacant land totaling 0.77 acres at an estimated cost of $112,000 plus relocation of up to $10,000. One portion was a 25-foot strip north of the Central Soya Building and the other was a 0.54-acre parcel located north of the Primate Lab between Orchard and Charter Streets. In response to questions regarding the value of those oddly shaped parcels to anyone but the university, the Committee was advised that the land could be purchased by commercial interests and rented as parking space.
The following resolution was adopted unanimously, upon motion by Regent O'Harrow, seconded by Regent Nikolay:

**Resolution 2904:** That, upon the recommendation of the UW-LaCrosse and UW-Madison Chancellors and the President of the University of Wisconsin System, authority be granted to purchase the following parcels of land, at costs indicated, including appraisals, closing and relocation, from 1983-85 Advance Land Acquisition Funds:

- **UW-La Crosse:**
  - 1602 La Crosse Street, $51,000; 600 N. 17th Street, $43,000; and 1713 Farwell Street, $33,000

- **UW-Madison:**
  - Illinois Central Gulf Railroad Property (0.23 acres, between Randall Avenue and Orchard Street and 0.54 acre, between Orchard and Charter Streets), $112,000

Regent O'Harrow reported that the Committee then considered a request to seek the release of $1,101,000 of 1983-85 advance land acquisition funds and for authority to appraise, option and purchase 17 specified parcels at or below the average of the appraised values. The proposal would establish an approach consistent with that desired by the State Building Commission, wherein an annual release of advance land acquisition funds would be requested. All parcels would be within Board and State Building Commission approved campus boundaries, would be appraised by two independent appraisers, and would be acquired at or below the average of the appraised values plus required relocation costs. The appraisals would also be reviewed and recommended for action by the Division of State Facilities Management's Bureau of Property Planning and Evaluation prior to property purchase. Parcels acquired under authority granted by Resolution 2905 would be reported to the Board, and additional Board action would be required to purchase any parcel above the average of the appraised values, as well as for all parcels not specifically identified in the request. Parcels identified and funded in enumerated construction projects would also require Board approval.

It was considered desirable that these lands be acquired as they became available to complete campus plans, improve pedestrian and/or vehicular circulation, create more space, and discourage environmental deterioration. All parcels had been offered to the state within the past six months, but negotiations were delayed pending availability of the 1983-85 appropriation for advance land acquisition, as the 1981-83 appropriation had been fully expended.

Regent O'Harrow moved adoption of Resolution 2905. The motion was seconded by Regent Gerrard and unanimously carried.
Resolution 2905: That, upon the recommendation of the UW-Eau Claire, Green Bay, LaCrosse, Madison, Platteville, River Falls, Stevens Point and Stout Chancellors and the President of the University of Wisconsin System, authority be granted to seek the release of $1,101,000 of 1983-85 Advance Land Acquisition Funds to appraise, option and purchase the specified parcels at or below the average of the appraised values.

Parcels to be acquired under the Systemwide portion of the allocation will be submitted for Regent review and approval prior to seeking other required authorization.

Each parcel acquired under this authority is to be reported to the Board in the Report of Non-Personnel Actions by Administrative Officers of the Board.

Two leases of space for UW-Madison were approved by the Committee. The first involved 50 acres of pasture land and barn space near Columbus to accommodate a herd of approximately 50 cattle which were central to a long-term grant supported research project of the School of Veterinary Medicine. The facilities and the services provided by the lessors met the special requirements of this "closed" herd, and the project director wished to continue the lease from November 1, 1983, through October 31, 1984, at an annual cost of $12,000 in federal grant monies, which also included feed and care for the cattle.

The second lease was for 9,900 square feet of space in a building at 979 Jonathan Drive, Madison, from October 1, 1983, through September 30, 1984, with two successive, one-year renewal options. The annual cost of $98,300, to be supported by grant funds, included all utilities, real estate taxes and special assessments. The space was occupied by the Occupational Health Laboratory of the State Laboratory of Hygiene.
Upon motion by Regent O'Harrow, seconded by Regent Finlayson, the following resolution was adopted unanimously:

Resolution 2906: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted to enter into the following leases:

1. Fifty (50) acres of pasture land and barn/shed space at:

   FitzGibbon Farm
   Route 3
   Columbus, Wisconsin 53925
   (Township of York, Section 10)

   John T. and Janice A. FitzGibbon, Lessors
   Route 3, Box 73
   Columbus, Wisconsin 53925

   This lease continues the rental of approximately 50 acres of pasture land and barn or shed space to accommodate a herd of approximately 50 cattle which are central to a long-term grant-supported research project of the School of Veterinary Medicine. The lease covers the period November 1, 1983 to October 31, 1984 at an annual rate of $12,000 which also includes feed and care for the cattle located at this site.

2. 9,900 square feet of space in a building located at:

   979 Jonathan Drive
   Madison, Wisconsin

   Daniels Construction Co., Lessor
   901 Stewart Street
   Madison, Wisconsin

   from October 1, 1983 through September 30, 1984 with two successive, one-year renewal options. The lease cost for the first year will be $98,300 ($9.84/square foot), including all utilities, real estate taxes and special assessments. The second and third year rental costs, if the options are exercised, would be increased by 5% annually. The rental payments will be provided from grant funds administered through the Department of Health and Social Services.
Reporting on proposed budget increases for two major projects, Regent O'Harrow explained that at UW-River Falls the request was to increase by $8,000 the budget for the Agricultural Science Building addition - food science project to provide sufficient funds to install a steam generator needed to provide uncontaminated culinary steam. The existing steam cleaner produced undesirable tastes in milk-based food, since the unit utilized steam produced by the heating plant and was affected by the boiler compound used. The $8,000 would supplement the remaining project contingency balance to cover the estimated $24,325 cost of removing the existing cleaner and installing a new steam generator, including all labor and materials. The revised project cost would be $2,844,700 from GPR-residual general fund supported borrowing.

The request for UW-Superior was to increase the Library humidity control project by $80,750 for a revised total cost of $379,200 from GPR-supported borrowing. The concept and budget report was developed using equipment capacities and design air flow volumes based on a minimal occupancy level, matched with the actual number of building users in order to reduce equipment costs and energy consumption. However, the preliminary design process revealed that the proposed solution could not achieve the prescribed level of dehumidification. A new design was made which would solve the problem but which would cost an additional $32,800 for dehumidification work and $47,950 for energy conservation, including design, supervision and contingencies.

It was moved by Regent O'Harrow, seconded by Regent Gerrard and unanimously carried that the following resolution be adopted:

Resolution 2907: That, upon the recommendation of the UW-River Falls and UW-Superior Chancellors and the President of the University of Wisconsin System, authority be granted to increase the budgets for the following major projects, by the amounts and from the funding sources indicated:

**UW-River Falls**

Agricultural Science Building Addition - Food Science project, $8,000, GPR-Residual General Fund Supported Borrowing, for a revised total estimated project cost of $2,844,700

**UW-Superior**

Library Humidity Control project, $80,750, GPR-Supported Borrowing (Minor Project Allocation: $32,800 and Energy Conservation Allocation: $47,950), for a revised total estimated project cost of $379,200
Regent O'Harrow stated that the Committee then reviewed a minor project at UW-Whitewater to convert an elevator at the University Center, which would cost $84,000 in non-GPR program revenues. The project involved installation of a larger elevator cab and controls, along with some related minor remodeling at the basement, main floor and second floor landing points to increase accessibility to the partial basement and partial second floor.

The following resolution was unanimously adopted, upon motion by Regent O'Harrow, seconded by Regent Gerrard:

**Resolution 2908:** That, upon the recommendation of the UW-Whitewater Chancellor and the President of the University of Wisconsin System, authority be granted to plan, bid and construct the University Center Elevator Conversion project at UW-Whitewater at a cost of $84,000 from Non-GPR Program Revenues.

A concept and budget report was presented to the Committee for UW-Madison's electrical distribution system expansion project at a cost of $720,000 from GPR-general fund supported borrowing. The purpose of this project (approved in the 1981-83 and 1983-85 capital building program budgets) was to perform additional electrical utility work to utilize existing transformer capacity from the Bacteriology Building and Murray Street substations. The third segment of a series of biennial improvements considered necessary to maintain adequate, reliable power for the campus, it was based on the Waters and Associates, Inc., 1975 engineering study, which recommended phasing of the work in each biennium through 1989. The electric system additions included in the project had been selected on the basis of magnitude of need.

Regent O'Harrow moved and Regent Gerrard seconded Resolution 2909, which was adopted unanimously:

**Resolution 2909:** That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the concept and budget report for the Electrical Distribution System Expansion Project be approved and authority granted to plan, bid and construct, at the cost of $720,000 from GPR-General Fund Supported Borrowing.

It was reported by Regent O'Harrow that Vice President Winter advised the Committee of State Building Commission action in July as to release of advance planning funds for a number of projects previously approved by the Board. In August, $1,983,000 in 1983-85 minor project funds were released.
Chancellor Penson reviewed with the Committee the planning process for the Blackhawk Commons fire restoration and addition project, including an explanation of the campus decision to support the concept and budget report and project design. In addition to increasing the budget to meet the cost of new building code requirements, approval granted by the Executive Committee in August provided for redesign of the former food service space to make it more compatible with campus needs. The Committee was informed that the reason for the State Building Commission's decision to defer the project for one month was to complete an additional insurance loss appraisal because the state had exceeded a $5 million self-insurance loss in 1983. Losses over $5 million were covered by a private insurance carrier with additional appraisal requirements. Chancellor Penson indicated that a meeting was to be scheduled shortly to resolve this issue in order to allow final action by the Building Commission at its September meeting.

Vice President Winter also advised the Committee that the request for approval of a lease of the Treehaven Field Study Station was deferred by the Building Commission. Staff of the Division of State Facilities Management were directed by the Governor to prepare language for introduction in the October 1983 session of the Legislature to provide enumeration of the project for acquisition or construction of the station. It was not anticipated that the Building Commission would take any further action regarding this matter.

Energy Conservation - Review of annual report on energy management

Noting that the Annual Report on Energy Management was reviewed by the Committee, Regent O'Harrow said it showed that the System continued to realize substantial heating fuels savings in comparison with the base year of 1972-73. Several universities had achieved reductions of nearly 50%, including UW-Eau Claire (49.8%), UW-Green Bay (48.8%), and UW-River Falls, (48.5%).

The 1983 System Land Holding Report was presented to the Committee.

The final item before the Committee was a request for authority to increase the scope of work related to underground electrical extensions (as recommended by the Division of State Facilities Management), as well as site-work portions of the King Hall remodeling project at UW-Madison, and to reinstate $114,400 to the project budget, for a revised total cost of $2,062,900 from GPR-general fund supported borrowing. Authorized by the Board at $2,348,000, the project was bid at $1,948,500. As the DSFM staff assessed electrical needs of the facilities in the immediate area of King Hall, it seemed cost effective to recommend construction of additional manholes and duct distributions to provide a system with expanded capacity. Additionally, disruption of the area around several buildings provided an opportunity to improve pedestrian safety, provide bicycle parking, and allow landscaping to tie the buildings together visually and
blend the area into one unified composition. The cost for these improvements, along with construction of a fire-rated exit from King Hall through the adjoining Soils Building was estimated at $50,000, with $10,000 of the current budget to be used toward those costs.

Upon motion by Regent O'Harrow, seconded by Regent Gerrard, the following resolution was unanimously adopted:

Resolution 2910: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to increase the scope of work related to the underground electrical extensions and sitework portions of the King Hall Remodeling project and to reinstate $114,400 to the project budget, for a revised total project cost of $2,062,900 from GPR-General Fund Supported Borrowing.

Regent Fish asked if the UW-Stevens Point Foundation was satisfied with the decision on the Treehaven project.

Regent O'Harrow felt they were uneasy about the project, and Vice President Winter added that neither the University nor the Foundation had been consulted about the decision.

In response to a request by Regent Fish for further explanation as to what had occurred, Mr. Winter said an announcement had been made by the Governor at a Building Commission meeting that it was his intention to have the project enumerated for purchase or construction, so that the state would own the property, instead of the Foundation owning it and leasing it to the state. There had been no objection by other Building Commission members to the Governor's recommendation.

Referring to leases approved by the Board earlier in the meeting, Regent Fish suggested that, in the future, information on prior lease rates be included with requests for lease renewals, and Regent O'Harrow expressed agreement with that recommendation.

With regard to the King Hall remodeling project (Resolution 2910), Regent Fish observed that background materials supporting the request should have made reference to the change in scope of the project and identified what elements of it were being increased.
UNFINISHED AND MISCELLANEOUS BUSINESS

Regent Clusen presented her report on the request of Ms. Susan Coe for review of the decision by UW-Stevens Point not to renew her appointment.

In response to a question by Regent Heckrodt, Regent Clusen said she had spoken personally with the Chancellor and the head of the Faculty Senate about the case. With regard to the question of how tenure-track faculty were evaluated as they went through the process, she also had spoken with people from other campuses in an effort to determine whether Ms. Coe's case was unique or whether it reflected the usual experience of tenure-track faculty in the System. What she had found was diversity in handling such matters, as there was in many other aspects of the System. However, it seemed to her that a central issue was whether personnel were consistently informed about what they needed to do in order to achieve tenure and whether they were advised early enough in the process as to any problems that might exist. "In the end, the kernel in this case seemed to be that Ms. Coe was not aware of the obstacles in her path to tenure, as stated in the reasons given by the administration at the time it was denied."

Replying to a question by Regent Conroy, President Beckwith indicated that the case could be considered either in open or closed session. Since Ms. Coe was present, it was being discussed publicly.

Regent Finlayson inquired about the allegation of sex discrimination, which was based on the fact that a male had been given tenure within the same time period, despite the problem of tenure density.

Noting that the case had gone to the Equal Employment Opportunity Commission on that point, Regent Clusen observed that there were few things more difficult to prove by evidence than racial, minority or sexual disparity. She thought the EEOC was perhaps in the best position to make a judgment about that issue.

Vice President Lyall added that she had shared with Regent Clusen some specific questions which she felt would need to be addressed if the Board decided to have a hearing or appoint a hearing examiner.

Regent Clusen stated that if it was the wish of the Board, she would further review the case to specify in more detail the issues which should be considered. Remarking that to do so would narrow the scope of the review, she felt the Board also had the option of taking a broader view and considering the case in total.

Regent Beckwith observed that in each personnel case brought before it the Board was faced with a difficult balancing of position. "On the one hand, it is the obligation of the Board in my view to ensure the integrity of the process and that there are no procedural errors so that the issues have been properly addressed. And I think we also want to be assured that a fair and just result has been achieved, without at the same time getting involved in a de novo review of all of the committee decisions and the chancellors' decisions." For the Board to conduct an undefined, de novo hearing and then to decide whether or not Ms. Coe should be granted tenure, he observed, would be to run the risk of having to review over time a large
number of tenure decisions. His inclination was to think that was not an appropriate role for the Board, and he was therefore reluctant to authorize a hearing without having a clear understanding of what issues were to be addressed and whether it was to be a de novo hearing.

Noting that she also had reviewed a complex personnel case, Regent Conroy said she found the process for achieving tenure to be very complicated and difficult to understand. "I read three constitutions and the statutes and thought anybody that gets through to the Board probably deserves a hearing simply because they got that far." One reason to be concerned about the complexity of the process, she pointed out, was the tendency of people to challenge adverse decisions more frequently than in the past. In this case, she supported the recommendation for a hearing because she felt there were too many unanswered questions. "You see, there is a lot at stake here. We are not talking about putting a bicycle rack somewhere. This is a human being's career."

Remarking that the question of the role of directors versus that of management also was involved, Regent Beckwith said that, while he shared the concerns which had been expressed, it was important to keep in mind that the Regents could not act as managers.

Regent Conroy asked if the handling of personnel matters had become more complex since formation of the System through merger. While the process had become more complicated, Regent Fish replied, he did not think it was because the System was merged, but rather it was because people tended to appeal decisions with greater frequency. He did not know how it could be simplified, however, without taking away faculty governance prerogatives. With respect to Ms. Coe's case, he asked how the EEOC decision would affect any hearing the Board might hold.

If there was a finding of sex discrimination, Regent Clusen said, it would certainly affect the Board's deliberation and, indeed, might cause the university itself to consider the case further. If the appeal was denied, on the other hand, she thought the Board would then know that the allegation should not be an element in its decision.

Regent Beckwith asked if President O'Neil was aware of any decisions by the EEOC or the courts which led to the forced granting of tenure.

While he did not know of any EEOC decision which had that result, President O'Neil indicated that there had been several cases at the federal appellate court level in which overruling of a negative decision had the effect of granting tenure. In a case like this, it seemed to him that, were a hearing to be granted, the person conducting it would want to discover the present status of the EEOC proceeding. If that were the only issue on which the appeal was based, he thought that might be reason enough not to go forward at this level, but if other issues were involved, the charge of sex discrimination would presumably be put aside while the EEOC was considering it.

In response to a question by Regent Beckwith, Ms. Coe indicated that she was currently on the faculty at UW-Stevens Point.
Regent Beckwith then asked if it was fair to say that, while her appeal must be resolved before completion of the academic year, it was not necessary to make a decision immediately, and Ms. Coe responded in the affirmative.

Questioned about the status of the EEOC investigation, Ms. Coe said she had been advised that the complaint had been sent to the EEOC litigation department for analysis, but that she had been given no indication of when a decision might be made.

While he did not wish to imply any criticism of Regent Clusen's report, which he viewed as excellent, Regent Beckwith suggested that action be deferred until the next meeting so that Regent Clusen could consider the question of whether to define more specifically the issues for review or to recommend a de novo hearing. Asking that the implications of a de novo review also be considered, he pointed out that such a hearing could be a very lengthy and arduous process. Secondly, he added, staff should endeavor to find out when a decision by the EEOC could be expected.

Ms. Coe noted that the EEOC had given her the impression that they would not come forth with a final decision until the Board had acted on the matter.

Regent Beckwith said he did not know that the Board of Regents wanted to be in a position of trying to make a legal interpretation as to whether or not the equal rights law had been violated.

Regent Fish inquired as to whether it would be correct to assume that, if Ms. Coe were to be granted tenure, such action would also resolve the discrimination complaint.

Regent Beckwith thought that would be true, inasmuch as no loss of income was involved.

Regent Hanson inquired about the process by which Ms. Coe's appeal had been assigned to an individual Regent for review.

It was explained by Regent Beckwith that rather than involve the whole Board in making an evaluation as to whether a review should be granted, the procedure for handling appeals generally had been to assign the case to an individual Regent, who would search out the facts and then make a recommendation as to whether or not it should be reviewed and, if there was to be a review, the form it should take and the issues involved. That practice had seemed to work well, he stated, since it would be difficult for the Regents as a group to study the lengthy records involved in personnel cases.

Regent Conroy asked if Regent Clusen would benefit from additional time to consider the case in light of the recommendations she had just received from Vice President Lyall.

Noting that the intent of those suggestions was not to influence her conclusion but rather to be specific about exactly what a hearing would cover, Regent Clusen stated that she was willing to continue working on the case if that was the wish of the Board.
Regent Heckrodt recommended that action be deferred so that Regent Clusen could identify specific issues for review, adding that he did not feel there was enough information to vote on the matter at this point.

Regent Beckwith said he would be reluctant to adopt the report, if it meant a de novo review of the case by the full Board. While he did not oppose the idea of a review, he thought it would be a bad precedent for the entire Board to conduct a de novo hearing, such as might be given by a faculty committee. Since it did not appear that a short delay would be harmful to Ms. Coe, he felt the matter should be deferred for a month to consider whether the review process could be further refined.

It was moved by Regent Beckwith, seconded by Regent Conroy and unanimously voted that the report be returned to Regent Clusen for further consideration in consultation with President O'Neill and Vice President Lyall, and that her conclusions be reported at the Board's next meeting.

Regent Nikolay asked if the Board had ever considered adoption of a defined process for handling personnel cases.

Responding in the negative, Regent Beckwith suggested that System staff could be asked to assess the prospects for doing so. He observed, however, that because such cases involved a wide range of issues, they did not all lend themselves to the same process.

Regent Lawton felt it was important to retain flexibility in order to best do justice in the various cases brought before the Board.

It was pointed out by Regent Nikolay that, without an established procedure, there was danger that an individual could charge that the Board gave his or her request less consideration than others might have received.

While a similar process had generally been followed in the various cases brought to the Board, Regent Beckwith agreed that Regent Nikolay's point was well taken and that staff should look into the matter.

It was announced that Regent Conroy would defer her report on the appeal of Dr. Masud Mufti in order to permit review of the case by the Executive Dean of the UW Centers.

Turning again to the appeal of Mr. Stanley Larson (see page 8 for earlier discussion), President Beckwith announced that Mr. Larson's attorney wished to have the matter discussed in open session, but that the Chancellor and Vice Chancellor asked that it be partly considered in closed session. He was, therefore, prepared to have a report by Vice President Lyall on the history of the case, along with a statement by Mr. Muzik, presented in open session before proceeding to closed session for further discussion.
In response to a question by Regent Schilling, President Beckwith explained that while Mr. Larson had not been contacted directly, he was represented by the attorney who had been contacted that morning. The Board was not obliged to comply with the attorney's request for discussion in open session, he noted, adding however that Mr. Muzik would not be allowed under the law to make his statement in closed session.

System Counsel Stathas said in his opinion closed session discussion would be appropriate because the matter involved individuals other than Mr. Larson.

Regent Schilling inquired as to whether Mr. Larson and his attorney could attend a closed session if they were present and President Beckwith responded in the affirmative.

Regent O'Harrow suggested that the matter be deferred so that Mr. Larson and his counsel could be present.

In response to a question by Regent Beckwith, Mr. Muzik indicated that he thought it would be appropriate to delay the matter for a month. It was noted that Mr. Larson was no longer employed at UW-Oshkosh.

Regent Schilling emphasized that care should be taken to insure that proper procedures were followed. He therefore recommended deferral of the matter at this time so that Mr. Larson's preference could be ascertained in writing as to whether he wished the matter to be discussed in open or closed session.

It was moved by Regent Schilling and seconded by Regent Lawton that discussion of the appeal of Mr. Stanley Larson be deferred until the October 7, 1983, meeting of the Board and that the Secretary communicate to Mr. Larson the request that he be present at that meeting, along with his attorney if he should wish to be accompanied by counsel.

Regent Beckwith noted that the merits of the case, per se, would not be discussed. Instead, there would be a review of the history of the case, followed by a report on his decision to deny the request for a hearing. The question then would be whether or not the Board wished to give further consideration to the matter.

Indicating that he expected Mr. Larson to request discussion in open session, Mr. Muzik asked at what point he would be permitted to make a statement.

President Beckwith replied that if the Board acceded in such a request, Mr. Muzik could make his statement when the item was considered. If the Board decided to take the matter up in closed session, his statement could be made before the closed session began.
Regent Conroy then made a statement regarding the issue of faculty and staff compensation. While she supported increased salaries, she was disturbed about criticism of the Governor because raises were not provided. "I am particularly bothered because the problem has been with us in the university for ten years. And I think it is unfortunate that the Governor, who has been in office for eight months, is saddled with not only the budget problem, but now is being really abused in the press and by some faculty members because he failed to grant an increase that probably should have been looked at seriously any number of times over the past ten years." Noting that four years previously a surplus had been returned to the taxpayers, she recalled no great objection to that being done, although the state was then in a better position to deal with the university's compensation problem. It concerned her that a great issue was being made of the salary matter at this time rather than when the state had surplus funds available. "I just feel that we have to trust this new Governor to have an opportunity to solve all the problems of the state and not just one."

Regent Schilling stated it was important to note, however, that in the past four years faculty and staff had received salary increases which were reasonably substantial, although not as large as the Board would have wished. "What is unprecedented about this time is that they got none. So I think we as Regents would certainly expect a different kind of reaction from faculty. They have had yearly increases and it is natural for them to be dismayed when they did not get any this time."

Regent Conroy noted that in the face of a double-digit inflation rate for all those years, it should have been clear that salaries were falling far behind. "I do wonder about the failure to react when it could have been fixed."

Regent Fish believed it would be harmful to prolong the discussion. While he was not critical of the statements that were made, he hoped the faculty/staff compensation issue would not be placed in the context of what could or should have been done. "We ought to concentrate our discussion on what we are able now to do. We ought to look at where we are going and not try to go back and criticize this Governor or another Governor or two more or three more." He felt it was important to avoid creating an adversarial climate regarding the salary issue.

Regent Lawton added that while he agreed with Regent Conroy, he also agreed with Regent Fish. "This is water over the dam." Although he was distressed about the salary situation, he continued to have confidence in the Governor's concern about the problem and in his willingness to listen to rational criticism.

---

At 12:40 p.m., the following resolution, moved by Regent Knowles and seconded by Regent Zirbel, was unanimously adopted on a roll call vote, with Regents Beckwith, Conroy, Finlayson, Fish, Gerrard, Hanson, Heckrodt, Knowles, Lawton, Nikolay, O'Harrow, Schilling and Zirbel voting "Aye" (13) and no Regents voting "No."
Resolution 2911: That the Board of Regents recess into closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., to consider the sale of land, as permitted by s. 19.85(1)(e), Wis. Stats., to consider personal histories, as permitted by s. 19.85(1)(f), Wis. Stats., and to confer with legal counsel, as permitted by s. 19.85(1)(g), Wis. Stats.

CLOSED SESSION ACTIONS

The Board arose from closed session at 1:30 p.m., at which time adoption of the following resolutions was announced:

Resolution 2912: That, upon the recommendation of the UW-Green Bay Chancellor and the President of the University of Wisconsin System, the following persons be appointed to the UW-Green Bay Board of Visitors for a term ending June, 1986:

Michael R. Mullen, of Green Bay
Thomas Ratterman, of Green Bay
William Gollnick, of Oneida

And that the following persons be reappointed to the UW-Green Bay Board of Visitors for a term ending June, 1986:

Marian Warpinski, of Green Bay
Chester J. Ligons, of Kewaunee

Resolution 2913: That, upon the recommendation of the UW-Superior Chancellor and the President of the University of Wisconsin System, Mr. Ernest J. Korpela, of Cornucopia, be appointed to the UW-Superior Board of Visitors to serve for a term ending June 30, 1985.

Resolution 2914: That, upon the recommendation of the Executive Dean of the UW Centers and the President of the University of Wisconsin System, the following persons be appointed to the Board of Visitors of the UW Centers for terms ending June 30, 1986:

Mr. William A. Draves, Fond du Lac
Mr. Hugh C. Higley, Menomonie, Michigan
Dr. Dale F. Sinnett, Richland Center
Mr. Roy F. Valitchka, Appleton
Resolution 2915: That, upon the recommendation of the UW-Whitewater Chancellor and the President of the University of Wisconsin System, Mr. Joseph E. Schopen, of Ft. Atkinson, be appointed to the UW-Whitewater Board of Visitors to fill the unexpired term of Mr. John Formella, for a term ending June 30, 1984.

Resolution 2916: That, upon the recommendation of the President of the University of Wisconsin System, Reuben Lorenz be appointed Acting Executive Vice President of the UW System, effective immediately.

The meeting was adjourned at 1:30 p.m.

Signed: Judith A. Temby  
Secretary

    MSN HS-MED ONCOLOGY (144-T280) 357,863.00

12) POSTDOCTORAL AND GRADUATE TRAINING IN NUTRITION
    (REGENCY CATEGORY IS INCORRECTLY STATED AS
    RESEARCH)
    FOR THE PERIOD 07-01-83 THROUGH 06-30-84
    AWARD # 5 T32 DE07031-09
    MSN AG&LSC BIOCHEMISTRY (144-T281) 39,296.00

13) NUCLEOTIDYL AND PHOSPHOTRANSFERASE STEREOCHEMISTRY
    FOR THE PERIOD 07-01-83 THROUGH 06-30-84
    AWARD # 5 RO1 GM30480-03
    MSN GRAD ENZYME INSTITUTE (144-T304) 103,459.00
RESEARCH

14) CLINICAL CANCER EDUCATION PROGRAM
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 5 R25 CA18397-09
MSN HS-MED HUMAN ONCOLOGY (144-T306) 45,728.00

15) METROPOLITAN AND NONMETROPOLITAN MIGRATION STREAMS
1975-1980
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 1 RO1 HD17700-01
MSN L&S SOCIOLOGY (144-T307) 67,723.00

16) CHOLESTEROL METABOLISM OF HEPATIC NEOPLASMS
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 5 RO1 CA15664-09
MSN HS-MED PATHOL & LAB MED ANAT PATH (144-T315) 107,616.00

17) MECHANICAL PROPERTIES OF CA-ACTIVATED HEART MUSCLE
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 2 RO1 HL25861-04
MSN HS-MED PHYSIOLOGY (144-T318) 107,541.00

18) COMPARATIVE FERTILITY TRENDS
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 5 RO1 HD15982-02
MSN L&S SOCIOLOGY (144-T320) 33,230.00

19) MECHANISM AND INHIBITION OF RIBONUCLEOTIDE REDUCTASES
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 2 RO1 GM29595-04
MSN AG&LSC BIOCHEMISTRY (144-T325) 80,425.00

20) METABOLIC FACTORS INVOLVED IN BLADDER CARCINOGENESIS
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 5 RO1 CA14524-09
MSN HS-MED HUMAN ONCOLOGY CLIN ONCOL (144-T336) 120,826.00

21) INTERFERONS IN BLADDER CARCINOMA EXPERIMENTAL MODELS
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 5 RO1 CA27436-03
MSN HS-MED HUMAN ONCOLOGY CLIN ONCOL (144-T337) 94,073.00

22) INSULIN ACTION IN ISOLATED CARDIAC MYOCYTES
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 1 RO1 HL29632-01
MSN HS-MED PHYSIOLOGY (144-T338) 76,235.00

23) ENDOCRINOLOGY AND MORPHOLOGY OF IMPLANTATION
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 2 RO1 HD12683-04A1
MSN HS-MED ANATOMY (144-T358) 68,314.00

24) BOTULINUM NEUROTOXIN: STRUCTURE AND ACTIVE SITE (S)
FOR THE PERIOD 07-01-83 THROUGH 06-30-84
AWARD # 5 RO1 NS17742-02
MSN AG&LSC FOOD MICRO&TOXIC (144-T366) 84,637.00

AWARD # NAG 2-242
MSN ENGR ENGR EXPER STA NUCL ENGR (144-T468) 16,500.00

32. NASA, GODDARD SPACE FLIGHT CENTER
GREENBELT, MD
IN SUPPORT OF THE FOLLOWING:

1) A SPACE TELESCOPE SCIENTIFIC INVESTIGATION USING
A HIGH SPEED PHOTOMETER
FOR THE PERIOD 03-02-78 THROUGH 01-31-85
AT A TOTAL COST OF $4,958,710.00
AWARD # NAS5-24487, MOD. 29
MSN GRAD SPACE SCI&ENG CT (144-L324) 58,000.00

2) THE GEOMETRIC STRUCTURE OF ECLIPSING SYMBIOTIC BINARIES
FOR THE PERIOD 08-01-83 THROUGH 07-31-84
AWARD # NAG5-353
MSN L&S ASTRONOMY (144-T489) 1,200.00

33. NATIONAL ENDOWMENT FOR THE HUMANITIES
WASHINGTON, DC
IN SUPPORT OF THE FOLLOWING:

1) AMERICAN LEGAL HISTORY, 1870-1950
FOR THE PERIOD 09-01-80 THROUGH 08-31-83
AT A TOTAL COST OF $140,086.26
AWARD # RD-00016-80-2076, MOD. 3
MSN LAW LAW SCHOOL (144-Q302) 15,287.26

2) CREATION OF AN OLD SPANISH DICTIONARY THROUGH
COMPUTER TECHNIQUES (COMPLETION OF THE DICTIONARY
OF ALPHONSINE PROSE)
FOR THE PERIOD 07-01-83 THROUGH 06-30-85
AWARD # RT-20283-83
MSN L&S SPANISH & PORT (144-T322) 250,000.00

3) NEW VARIORUM EDITION OF KING LEAR
FOR THE PERIOD 07-01-83 THROUGH 06-30-86
AWARD # RE-20263-83
MSN L&S ENGLISH (144-T425) 91,976.00
UNIVERSITY OF WISCONSIN - MADISON

RESEARCH

4) A HISTORY OF CARTOGRAPHY, VOLUME III
   FOR THE PERIOD 09-01-83 THROUGH 08-31-85
   AWARD # RT-20345-83
   MSN L&S GEOGRAPHY (144-T445) 75,000.00

34. NATIONAL SCIENCE FOUNDATION
   WASHINGTON, DC
   IN SUPPORT OF THE FOLLOWING:

   1) STUDIES OF THE DEVELOPMENT AND EVOLUTION OF
      LOCAL SEVERE STORMS FROM SESAME 1979 DATA
      FOR THE PERIOD 01-01-81 THROUGH 10-31-83
      AT A TOTAL COST OF $245,982.00
      AWARD # ATM-8017350, MOD. 2
      MSN L&S METEOROLOGY (144-Q623) 15,082.00

   2) STOCHASTIC MODELS FOR THE GROWTH AND MOVEMENT
      OF POPULATIONS
      FOR THE PERIOD 05-15-81 THROUGH 10-31-84
      AT A TOTAL COST OF $112,535.00
      AWARD # MCS-8101526, MOD. 3
      MSN L&S MATHEMATICS (144-Q653) 12,000.00

   3) THE ROLE OF LIPIDS IN MEMBRANE EXCITATION IN
      PARAMECIUM
      FOR THE PERIOD 07-01-81 THROUGH 12-31-84
      AT A TOTAL COST OF $248,130.00
      AWARD # BNS-8100832, MOD. 2
      MSN AG&LSC BIOCHEMISTRY (144-0945) 85,180.00

   4) THE ANALYSIS OF GENE FUNCTION AND REGULATION IN
      BACTERIOPHAGE MU
      FOR THE PERIOD 09-01-81 THROUGH 02-28-85
      AT A TOTAL COST OF $225,638.00
      AWARD # PCM-8109769, MOD. 2
      MSN AG&LSC BACTERIOLOGY (144-R086) 80,000.00

   5) CYCLIC NUCLEOTIDES, PHOSPHORYLATION AND SODIUM
      TRANSPORT IN SINGLE MUSCLE FIBERS
      FOR THE PERIOD 05-15-82 THROUGH 10-31-84
      AT A TOTAL COST OF $100,419.00
      AWARD # PCM-8112761, MOD. 1
      MSN HS-MED PHYSIOLOGY (144-R986) 9,824.00

   6) STRUCTURAL-FUNCTION STUDIES OF THE TRIGEMINAL
      GANGLION
      FOR THE PERIOD 08-01-82 THROUGH 01-31-85
      AT A TOTAL COST OF $78,889.00
      AWARD # BNS-8241215, MOD. 1
      MSN GRAD WAISMAN CENTER (144-S211) 38,824.00

   7) MAGNITUDE AND FREQUENCY OF HOLOCENE FLOODS
      FOR THE PERIOD 07-01-83 THROUGH 12-31-84
      AWARD # EAR-8306171
      MSN L&S GEOGRAPHY (144-T234) 45,724.00
RESEARCH

8) ASYMPTOTIC PROBLEMS IN FUNCTION THEORY AND INTERGRODIFFERENTIAL EQUATIONS
   FOR THE PERIOD 07-01-83 THROUGH 11-30-84
   AWARD # MCS-8200728
   MSN L&S MATHEMATICS (144-T276) 33,565.00

9) COMPUTER RESEARCH EQUIPMENT (COMPUTER SCIENCE)
   FOR THE PERIOD 07-01-83 THROUGH 12-31-84
   AWARD # MCS-8304535
   MSN L&S COMPUTER SCI (144-T369) 133,400.00

10) MACROLIDE AGLYCONES
    FOR THE PERIOD 07-01-83 THROUGH 12-31-84
    AWARD # CHE-8304221
    MSN L&S CHEMISTRY (144-T397) 98,368.00

11) ENZYMES INVOLVED IN REGULATION OF NITROGEN METABOLISM
    FOR THE PERIOD 07-01-83 THROUGH 12-31-84
    AWARD # PCM-8302630
    MSN AG&LSC BIOCHEMISTRY (144-T409) 45,000.00

12) PHILOSOPHICAL ISSUES IN EVOLUTIONARY THEORY: TWO PROBLEMS
    FOR THE PERIOD 06-27-83 THROUGH 12-31-84
    AWARD # SES-8308152
    MSN L&S PHILOSOPHY (144-T410) 12,000.00

13) SATELLITE CELLS, REGENERATION POTENTIAL AND OLD AGE
    FOR THE PERIOD 07-01-83 THROUGH 12-31-84
    AWARD # PCM-8302348
    MSN HS-MED ANATOMY (144-T452) 70,000.00

14) PRICING AND PREDICTION IN REGULATED INDUSTRIES
    FOR THE PERIOD 08-01-83 THROUGH 01-31-86
    AWARD # SES-8308439
    MSN L&S ECONOMICS (144-T459) 54,154.00

15) METAL AND NONMETAL-BORON CLUSTERS: SYNTHETIC AND MECHANISTIC STUDIES
    FOR THE PERIOD 09-01-83 THROUGH 02-28-85
    AWARD # CHE-8302399
    MSN L&S CHEMISTRY (144-T460) 64,000.00

16) COEVOLUTIONARY STUDIES OF PREDATOR-PREY INTERACTIONS IN THE FOSSIL RECORD
    FOR THE PERIOD 08-01-83 THROUGH 01-31-86
    AWARD # BSR-8307099
    MSN L&S GEOL & GEOPHYSICS (144-T461) 54,163.00

17) INVESTIGATIONS OF TWO-PHOTON SPECTROSCOPY AND ASSOCIATED RELAXATION PHENOMENA
    FOR THE PERIOD 07-01-83 THROUGH 12-31-84
    AWARD # CHE-8306697
    MSN L&S CHEMISTRY (144-T466) 100,000.00
UNIVERSITY OF WISCONSIN - MADISON

RESEARCH

18. ANTARCTIC AUTOMATIC WEATHER STATIONS: OPERATION AND DATA ANALYSES

AWARD # 83-CRCSR-2-2263
MSN AG&LSC AGRONOMY (144-T615) 99,914.00

6) STUDIES OF THE MECHANISM UNDERLYING SYSTEMIC VIRUS INVASION OF PLANTS
FOR THE PERIOD 09-01-83 THROUGH 08-31-85
AWARD # 83-CRCSR-1-1225
MSN AG&LSC PLANT PATHOLOGY (144-T627) 75,000.00

7) PESTICIDE IMPACTS IN WISCONSIN
FOR THE PERIOD 09-15-83 THROUGH 09-30-84
AWARD # 83-CRCSR-2-2110
MSN AG&LSC ENTOMOLOGY (144-T628) 11,491.00

8) ISOLATION OF PROTECTIVE AND IMMUNOGENIC ANTIGENS OF PASTUERELLA HAEMOLYTICA
FOR THE PERIOD 09-15-83 THROUGH 09-30-86
AWARD # 83-CRCSR-2-2201
MSN VET M PATHOBIOLOGICAL SCI (144-T629) 95,554.00

9) ASSOCIATION OF CAMPYLOBACTER JEJUNI WITH FOODS OF ANIMAL ORIGIN
FOR THE PERIOD 07-15-83 THROUGH 10-31-86
AWARD # 83-CRCSR-2-2308
MSN AG&LSC FOOD MICROBIOLOGICAL TOXIC (144-T667) 371,735.00

10) MECHANISM OF ACTION OF PHOSPHOENOLPYRUVATE CARBOXYLASE
FOR THE PERIOD 09-01-83 THROUGH 08-31-85
AWARD # 83-CRCSR-1-1297
MSN L&S CHEMISTRY (144-T693) 90,000.00

22. AGRIC, SCIENCE AND EDUCATION ADMIN.
PEORIA, IL
DEVELOPMENT OF BETTER PRODUCTION TECHNOLOGY AND THE GENETIC IMPROVEMENT OF PROCESSING CUCUMBERS
(EARLY TERMINATION OF PROJECT)
FOR THE PERIOD 10-01-82 THROUGH 08-08-83
AT A TOTAL COST OF $23,800.00
AWARD # AGR DTD 09-01-82, MOD. 1
MSN AG&LSC PLANT PATHOLOGY (144-S581) 11,200.00-

23. COMM, NATIONAL OCEANIC & ATMOSPHERIC ADM
ROCKVILLE, MD
PARTICIPATION ON THE INTERNATIONAL SATELLITE CLOUD CLIMATOLOGY PROJECT
FOR THE PERIOD 09-01-81 THROUGH 06-30-85
AT A TOTAL COST OF $587,678.00
AWARD # NA81AA-D-00119, MOD. 5
MSN GRAD SPACE SCI&ENG CT (144-R513) 200,000.00

24. MADISON METROPOLITAN SCHOOL DISTRICT
MADISON, WI
Prime Contractor with DED
ESTABLISHMENT OF A TRAINING AND DEMONSTRATION PROJECT
FOR THE PERIOD 07-01-82 THROUGH 06-30-84
AT A TOTAL COST OF $16,000.00
AWARD # AGR DTD 09-01-82, MOD. 1
MSN GRAD WAISMAN CENTER (144-S550) 9,000.00
RESEARCH

25. DHHS, PHS, ALCHL DRUG ABUSE MNTL HLTH ADM
   ROCKVILLE, MD
   IN SUPPORT OF THE FOLLOWING:

1) RESEARCH SCIENTIST DEVELOPMENT AWARD
   FOR THE PERIOD 07-01-83 THROUGH 06-30-84
   AWARD # 5 KO2 MH70903-10
   MSN HS-PSY PSYCHIATRIC INST (144-T406) 38,237.00

2) POSTDOCTORAL FELLOWSHIP AWARD
   FOR THE PERIOD 06-01-83 THROUGH 05-31-84
   AWARD # 7 F32 MH08669-02
   MSN L&S SOCIOLOGY (144-T488) 17,736.00

3) BIOPSYCHOLOGY OF COMMUNICATION AND BEHAVIOR
   FOR THE PERIOD 09-01-83 THROUGH 08-31-84
   AWARD # 5 KO2 MH00177-07
   MSN L&S PSYCHOLOGY (144-T666) 39,658.00

26. DHHS, PHS, NATIONAL INSTITUTES OF HEALTH
   BETHESDA, MD
   IN SUPPORT OF THE FOLLOWING:

1) GENETICS AND INBREEDING IN NON-HUMAN PRIMATES
   (AWARD REDUCED TO REFLECT UNOBLIGATED BALANCE
   FROM PRIOR YEAR)
   FOR THE PERIOD 08-15-82 THROUGH 08-14-83
   AT A TOTAL COST OF $93,568.00
   AWARD # 5 R24 RR01216-04, MOD. 1
   MSN L&S PRIMATE RES CTR (144-S415) 11,520.00

2) SCOR: NUTRITION AND METABOLISM IN INFANT LUNG
   DISEASE
   FOR THE PERIOD 09-30-82 THROUGH 11-30-83
   AT A TOTAL COST OF $623,104.00
   AWARD # 5 P50 HL27356-02, MOD. 2
   MSN HS-MED PEDIATRICS (144-S560) 1,430.00

3) STUDIES OF HYSTERESIS EFFECTS IN ACCOMMODATION
   FOR THE PERIOD 09-30-82 THROUGH 11-30-83
   AT A TOTAL COST OF $47,475.00
   AWARD # 5 RO1 EY03421-03, MOD. 1
   MSN L&S PSYCHOLOGY (144-S564) 3,977.00

4) MECHANISMS OF SURFACE-INDUCED THROMBOGENESIS
   (REVISED TO REFLECT EARLY TERMINATION. RESEARCH
   WILL BE CONTINUED UNDER GRANT RO1-HL24046)
   FOR THE PERIOD 01-01-83 THROUGH 06-30-83
   AT A TOTAL COST OF $80,956.00
   AWARD # 1 RO1 HL29673-01, MOD. 1
   MSN ENGR ENGR EXPER STA CHEM ENGR (144-S761) 21,257.00

5) DEMOGRAPHIC STUDIES OF FAMILY STRUCTURE 1960-1980
   FOR THE PERIOD 04-01-83 THROUGH 03-31-84
   AT A TOTAL COST OF $127,101.00
   AWARD # 5 RO1 HD15227-03, MOD. 2
   MSN L&S SOCIOLOGY (144-T022) 25,763.00

   WIDE-BAND MONOLITHIC MICROWAVE AMPLIFIER STUDY
   (SAME AMOUNT TO BE PUT INTO NEW CONTRACT)
   FOR THE PERIOD 07-01-80 THROUGH 09-30-83
   AT A TOTAL COST OF $283,851.00
   AWARD # N00014-80-C-0923, MOD. 5
   MSN ENGR ENGR EXPER STA EL&COMPUT (144-0136) 67,774.00

31. ENERGY, DEPT OF
    ARCONE, IL
    IN SUPPORT OF THE FOLLOWING:

   1) ONE CARBON METABOLISM IN ANAEROBIC BACTERIA:
      ORGANIC ACID AND METHANE PRODUCTION
      FOR THE PERIOD 08-01-83 THROUGH 07-31-86
      AWARD # DE-AC02-83ER5154, MOD. 4
      MSN AG&LSC BACTERIOLOGY (144-T515) 106,000.00

   2) HIGH BETA EQUILIBRIUM, STABILITY AND TRANSPORT
      FOR THE PERIOD 08-01-83 THROUGH 10-31-84
      AWARD # DE-AC02-83ER45023
      MSN L&S PHYSICS (144-T524) 150,000.00

   3) OPTICAL STUDIES OF DYNAMICAL PROCESSES IN
      DISORDERED MATERIALS
      FOR THE PERIOD 09-01-83 THROUGH 02-29-84
      AWARD # DE-AC02-83ER5154
      MSN L&S PHYSICS (144-T626) 80,000.00

   4) STATE-TO STATE UNIMOLECULAR DYNAMICS
      FOR THE PERIOD 09-01-83 THROUGH 02-28-86
      AWARD # DE-AC02-80ER10755
      MSN L&S CHEMISTRY (144-T713) 44,524.00

32. ENERGY, DEPT OF
    LAS VEGAS, NV
    IN SUPPORT OF THE FOLLOWING:
UNIVERSITY OF WISCONSIN - MADISON

RESEARCH

1) LIGHT ION BEAM FUSION CAVITY PHENOMENA
   FOR THE PERIOD 06-06-83 THROUGH 02-07-84
   AWARD # DE-AS08-B3DP40184
   MSN ENGR ENGR EXPER STA NUCL ENGR (144-T674) 39,865.00

2) WET WALL CAVITY RESPONSE IN ICF REACTORS
   FOR THE PERIOD 06-06-83 THROUGH 02-07-84
   AWARD # DE-AS08-B3DP40183
   MSN ENGR ENGR EXPER STA NUCL ENGR (144-T676) 59,904.00

3) A PRELIMINARY CRITICAL ISSUES STUDY OF SIRIUS, A
   SYMMETRIC-ILLUMINATION, INERTIALLY CONFINED DIRECT
   DRIVE FUSION REACTOR
   FOR THE PERIOD 06-06-83 THROUGH 02-07-84
   AWARD # DE-AS08-B3DP40185
   MSN ENGR ENGR EXPER STA NUCL ENGR (144-T677) 74,883.00

33. ENERGY, DEPT OF
   NEW YORK, NY
   FOUR SEDIMENT SAMPLES FOR POLLEN AND CHARCOAL AND
   DIATOM ANALYSIS: ONE SEDIMENT FOR C-14 ANALYSIS
   FOR THE PERIOD 07-01-83 THROUGH 09-30-83
   AWARD # PD #EM 83-7126
   MSN ENV ST CTR FOR CLIM RES (144-T476) 2,444.00

34. ARGONNE NATIONAL LABORATORY
   ARGONNE, IL
   PRIME CONTRACTOR WITH DOE
   MASTER'S THESIS RESEARCH ON NUCLEAR WASTE
   MANAGEMENT
   FOR THE PERIOD 06-01-83 THROUGH 05-31-84
   AWARD # AGR DTD 06-20-83
   MSN L&S GEOL & GEOPHYSICS (144-T308) 12,000.00

35. E G & G IDAHO, INC
   IDAHO FALLS, ID
   PRIME CONTRACTOR WITH DOE
   STEAM GENERATOR TUBE RUPTURE FOR A LIQUID METAL-
   WATER SYSTEM: RELIABILITY AND PHENOMENOLOGICAL
   MODELLING
   FOR THE PERIOD 07-11-83 THROUGH 11-30-83
   AWARD # C83-100174
   MSN ENGR ENGR EXPER STA NUCL ENGR (144-T613) 10,225.00

36. UNION CARBIDE CORPORATION
   OAK RIDGE, TN
   PRIME CONTRACTOR WITH DOE
   TORDIDAL IMPROVEMENTS
   FOR THE PERIOD 07-01-83 THROUGH 09-30-83
   AWARD # Po #19X-43362W
   MSN ENGR ENGR EXPER STA NUCL ENGR (144-T509) 25,000.00

37. ENVIRONMENTAL PROTECTION AGENCY
   WASHINGTON, DC
   IN SUPPORT OF THE FOLLOWING:
RESEARCH

1) TRIHALOMETHANES IN DRINKING WATER AND COLON CANCER
   FOR THE PERIOD 08-01-83 THROUGH 07-31-84
   AWARD # R808685-02-0
   MSN HS-MED PREVENTIVE MED (144-T514) 82,161.00

2) ANALYSES OF THE EFFECTS OF INCREASED ACIDITY ON
   LAKE ECOSYSTEMS BY A WHOLE LAKE MANIPULATION
   EXPERIMENT: SITE GENERAL ACTIVITIES AND
   ZOOPLANKTON STUDIES
   FOR THE PERIOD 08-01-83 THROUGH 05-31-85
   AWARD # CR-810941-01-0
   MSN L&S LIMNOLOGY CTR TROUT LAKE (144-T682) 41,035.00

36. SRI INTERNATIONAL
   MENLO PARK, CA
   PRIME CONTRACTOR WITH EPA
   DROSOPHILA SLRL TEST OF TWO CHLOROBENZINES
   FOR THE PERIOD 06-22-83 THROUGH 06-21-84
   AWARD # PD #57148
   MSN L&S ZOOLOGY (144-T511) 25,000.00

39. NORTH DAKOTA GAME & FISH DEPARTMENT
   BISMARCK, ND
   PRIME CONTRACTOR WITH INTER
   MAINTENANCE AND TRANSMISSION OF EPIZOOTIC
   HEMORRHAGIC DISEASE IN DEER AND BLUE TONGUE VIRUS
   IN NORTH DAKOTA WILDLIFE
   FOR THE PERIOD 06-20-83 THROUGH 06-30-84
   AWARD # AGR DTD 06-08-83
   MSN AG&LSC VETERINARY SCI (144-T507) 30,000.00

40. INTERIOR, FISH & WILDLIFE SERVICE
   WASHINGTON, DC
   EFFECTS OF HUMAN ACTIVITY ON THE REPRODUCTION,
   BEHAVIOR AND HABITAT USE OF BALD EAGLES NESTING ON
   THE ST CROIX NATIONAL RIVERWAY
   FOR THE PERIOD 07-15-83 THROUGH 09-30-83
   AWARD # 14-16-0009-1511, MOD. 11
   MSN AG&LSC N R-WILDLIFE ECOL (144-T508) 10,065.00

41. NATIONAL AERONAUTICS AND SPACE ADMIN
   CLEVELAND, OH
   CONTAINERLESS PROCESSING OF UNDERCOOLED MELTS
   FOR THE PERIOD 09-01-83 THROUGH 08-31-84
   AWARD # NAG3-436
   MSN ENGR ENGR EXPER STA MET & MIN (144-T625) 60,000.00

42. NASA,AMES RESEARCH CENTER
   MOUNTAIN VIEW, CA
   CONTROLLED ENVIRONMENT INJURIES TO PLANTS
   FOR THE PERIOD 05-01-81 THROUGH 01-31-84
   AT A TOTAL COST OF $184,578.00
   AWARD # NCC 2-136, MOD. 3
   MSN AG&LSC HORTICULTURE (144-0752) 6,000.00
RESEARCH

43. NASA, GODDARD SPACE FLIGHT CENTER
   GREENBELT, MD
   IN SUPPORT OF THE FOLLOWING:

1) ANALYSIS OF THREE-DIMENSIONAL THUNDERSTORM MODEL
   OUTPUT IN TERMS OF GEOSYNCHRONOUS SATELLITE
   OBSERVATIONS
   FOR THE PERIOD 03-01-80 THROUGH 07-31-84
   AWARD # NAG 5-23, MOD. 4
   MSN L&S MетеoroLOGY (144-P244) 50,147.00

2) RESOLUTION STUDIES AND ENERGY DIAGNOSTICS OF FGGE
   GLOBAL DATA SETS AND GLAS GCM SIMULATIONS
   FOR THE PERIOD 06-15-80 THROUGH 07-31-84
   AWARD # NAG 5-81, MOD. 1
   MSN L&S MетеoroLOGY (144-P954) 124,963.00

3) HIGH RESOLUTION INTERFEROMETER SOUNDER (HIS)
   PHASE II
   FOR THE PERIOD 05-13-83 THROUGH 12-15-83
   AT A TOTAL COST OF $329,375.00
   AWARD # NAS5-27608, MOD. 1
   MSN GRAD SPACE SCI&ENG CT (144-T213) 329,000.00

4) COOPERATIVE VAS PROGRAM WITH THE MARSHALL SPACE
   FLIGHT CENTER
   FOR THE PERIOD 07-29-82 THROUGH 07-29-84
   AT A TOTAL COST OF $111,686.00
   AWARD # NAS8-34732, MOD. 2
   MSN GRAD SPACE SCI&ENG CT (144-S450) 89,049.00

44. NATIONAL ENDOWMENT FOR THE HUMANITIES
   WASHINGTON, DC
   IN SUPPORT OF THE FOLLOWING:

1) AMERICAN LEGAL HISTORY, 1870-1950
   FOR THE PERIOD 09-01-80 THROUGH 08-31-83
   AT A TOTAL COST OF $149,899.97
   AWARD # RD-00015-80-2076, MOD. 4
   MSN LAW LAW SCHOOL (144-O302) 9,813.17

2) A HISTORY OF CARTOGRAPHY, VOLUME III
   FOR THE PERIOD 09-01-83 THROUGH 08-31-85
   AT A TOTAL COST OF $122,396.00
   AWARD # RT-20345-83, MOD. 1
   MSN L&S GEOGRAPHY (144-T445) 122,396.00

45. NATIONAL SCIENCE FOUNDATION
   WASHINGTON, DC
   IN SUPPORT OF THE FOLLOWING:

1) MAKER - A SOFTWARE IMPLEMENTATION TOOL FOR
   DISTRIBUTED SYSTEMS
   (REDUCED TO REFLECT TRANSFER OF PRINCIPAL
   INVESTIGATOR TO THE UNIVERSITY OF VIRGINIA)
   FOR THE PERIOD 06-01-80 THROUGH 08-31-83
   AT A TOTAL COST OF $90,482.00
   AWARD # MCS-8003341, MOD. 2
   MSN L&S COMPUTER SCI (144-P471) 38,000.00
RESEARCH

2) A STUDY OF RESPIRATORY VIRUS TRANSMISSION AMONG THE PERSONNEL AT McMurdo Station, Antarctica DURING THE "WINFLY" ISOLATION PERIOD FOR THE PERIOD 08-01-80 THROUGH 02-28-85
   AWARD # DPP-8015486, MOD. 3
   MSN HS-MED PREVENTIVE MED (144-Q013) 57,646.00

3) QUANTUM MECHANICS OF ATOMS AND MOLECULES FOR THE PERIOD 03-01-81 THROUGH 02-28-85
   AT A TOTAL COST OF $138,006.00
   AWARD # CHE-8023004, MOD. 2
   MSN L&S CHEM LAB - THEOR (144-O612) 46,000.00

4) MECHNISTIC AND ANALYTICAL STUDIES IN ORGANIC ELECTROCHEMISTRY FOR THE PERIOD 09-01-81 THROUGH 02-28-85
   AT A TOTAL COST OF $285,082.00
   AWARD # CHE-8111421, MOD. 2
   MSN L&S CHEMISTRY (144-R005) 88,000.00

5) SYNTHETIC APPLICATIONS OF ORGANOMETALLOIDS FOR THE PERIOD 09-01-81 THROUGH 02-28-85
   AT A TOTAL COST OF $194,234.00
   AWARD # CHE-8111038, MOD. 2
   MSN L&S CHEMISTRY (144-R117) 68,701.00

6) QUANTITATIVE GENETIC ASPECTS OF GROWTH AND FORM FOR THE PERIOD 09-01-81 THROUGH 02-28-85
   AT A TOTAL COST OF $209,979.00
   AWARD # DEB-8109904, MOD. 2
   MSN AG&LSC ENTOMOLOGY (144-R315) 70,221.00

7) LOW FREQUENCY WAVE PROPAGATION STUDIES IN THREE-DIMENSIONAL GEOMETRY FOR THE PERIOD 09-01-81 THROUGH 02-28-85
   AT A TOTAL COST OF $124,000.00
   AWARD # ECS-8110038, MOD. 2
   MSN ENGR ENGR EXPER STA EL&COMPUT (144-R402) 45,000.00

8) NORTH ATLANTIC AND MARGINAL ICE ZONE OBSERVING SYSTEMS STUDIES FOR THE PERIOD 04-01-82 THROUGH 03-31-85
   AT A TOTAL COST OF $160,206.00
   AWARD # DPP-8119155, MOD. 1
   MSN L&S METEOROLOGY (144-R832) 86,238.00

9) ANALYTICAL-EXPERIMENTAL BEHAVIOR OF NONLINEAR ORTHOTROPIC MEDIA FOR THE PERIOD 07-01-82 THROUGH 12-31-84
   AT A TOTAL COST OF $176,625.00
   AWARD # MEA-8120393, MOD. 1
   MSN ENGR ENGR EXPER STA MECHANICS (144-S023) 95,800.00

10) CONTROLLING ELEMENTS IN MAIZE: AN EXAMINATION OF THEIR EFFECT ON GENE FUNCTION FOR THE PERIOD 08-15-82 THROUGH 01-31-85
    AT A TOTAL COST OF $121,361.00
    AWARD # PCM-8207987, MOD. 1
    MSN AG&LSC GENETICS (144-S313) 63,613.00
RESEARCH

11) MICROWAVE AND ELECTROMAGNETIC HEATING OF AND INTERACTIONS WITH PLASMAS IN LINEAR AND TOROIDAL GEOMETRY FOR THE PERIOD 08-15-82 THROUGH 01-31-85 AT A TOTAL COST OF $252,622.00 AWARD # ECS-8206027, MOD. 1 MSN ENGR ENGR EXPER STA EL&COMPUT (144-S429) 130,000.00

12) INTERACTION OF ELECTROMAGNETIC FIELDS WITH ATOMS AND MOLECULES FOR THE PERIOD 09-01-82 THROUGH 02-28-85 AT A TOTAL COST OF $125,000.00 AWARD # CHE-8207235, MOD. 1 MSN L&S CHEM LAB - THEOR (144-S459) 65,000.00

13) PEPTIDE HORMONE REGULATION OF PROTEIN PHOSPHORYLATION FOR THE PERIOD 09-01-82 THROUGH 02-28-85 AT A TOTAL COST OF $138,000.00 AWARD # PCM-8208920, MOD. 1 MSN L&S ZOOLOGY (144-S524) 70,000.00

14) TWO-YEAR CONTINUATION OF DATA ANALYSIS OF PROJECT ROSE - PETATLAN AFTERSHOCKS FOR THE PERIOD 08-15-83 THROUGH 01-31-85 AWARD # EAR-8309506 MSN L&S GEOL & GEOPHYSICS (144-T220) 53,000.00

15) FUNCTION AND EXPRESSION OF THE SPOT 42 GENE OF E. COLI FOR THE PERIOD 07-15-83 THROUGH 12-31-84 AWARD # PCM-8309618 MSN HS-MED PHYSIOLOG CHEM (144-T243) 73,000.00

16) STRUCTURE OF DYNAMICS OF POLYATOMIC GAS PHASE IONS (CHEMISTRY) FOR THE PERIOD 07-15-83 THROUGH 12-31-84 AWARD # CHE-8302856 MSN L&S CHEMISTRY (144-T530) 80,000.00

17) HIGH RESOLUTION SPECTROSCOPIC STUDIES IN AERONOMY FOR THE PERIOD 09-01-83 THROUGH 02-28-85 AWARD # ATM-8311511 MSN L&S PHYSICS (144-T617) 69,000.00

18) FUNDAMENTAL NUCLEAR MAGNETIC RESONANCE STUDIES OF TWO SPIN SYSTEMS (CHEMISTRY) FOR THE PERIOD 08-01-83 THROUGH 06-30-85 AWARD # CHE-8306896 MSN L&S CHEMISTRY (144-T652) 76,038.00

19) THE ROLE OF CHILDREN'S ECONOMIC STATUS IN THE LEVEL OF INTERGENERATIONAL BEQUESTS FOR THE PERIOD 08-01-83 THROUGH 04-30-85 AWARD # SES-8300017 MSN L&S INST-RES ON POV (144-T659) 66,000.00
RESEARCH

20) INVESTIGATIONS OF THE BIOCHEMICAL MECHANISM OF THE FUNGAL DEGRADATION OF LIGNIN FOR THE PERIOD 09-01-83 THROUGH 02-28-86
AWARD # PCM8304123
MSN AG&LSC BACTERIOLOGY (144-T663) 59,998.00

21) IMAGE PROCESSING SYSTEM FOR MACHINE VISION RESEARCH
FOR THE PERIOD 09-01-83 THROUGH 02-28-85
AWARD # ECS-8217392
MSN ENGR ENGR EXPER STA EL&COMPUT (144-T694) 36,000.00

22) ANALYSIS OF NEURONAL CIRCUITRY IN PIRIFORM CORTEX
FOR THE PERIOD 09-01-83 THROUGH 02-28-85
AWARD # BNS-8311118
MSN HS-MED ANATOMY (144-T695) 80,000.00

23) SPECIFICITY IN THE CORTICOSPINAL PATHWAY
FOR THE PERIOD 09-01-83 THROUGH 02-28-85
AWARD # BNS-8311517
MSN HS-MED ANATOMY (144-T696) 52,000.00

24) INTEGRATION OF FEATURAL AND CONTEXTUAL INFORMATION IN LETTER AND WORD IDENTIFICATION
FOR THE PERIOD 09-01-83 THROUGH 02-28-86
AWARD # BNS-8310870
MSN L&S PSYCHOLOGY (144-T697) 72,313.00

25) DISSECTIONS OF A DEVELOPMENTAL PATHWAY
FOR THE PERIOD 08-01-83 THROUGH 01-31-85
AWARD # PCM-8311933
MSN L&S ZOOLOGY (144-T699) 75,000.00

46. RESEARCH TRIANGLE INSTITUTE
RESEARCH TRIANGLE PARK, NC
PRIME CONTRACTOR WITH STATEAID
AN INTEGRATED SYSTEM OF REGIONAL POPULATION PROJECTIONS FOR SOCIOECONOMIC PLANNING IN BOLIVIA (REDUCTION IN CONSULTANT’S FEE)

MINUTES OF THE MEETING OF THE EXECUTIVE COMMITTEE
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Held by telephone conference
Originating from the Clarke Smith Room, 1820 Van Hise Hall
Friday, August 12, 1983
9:10 a.m.

- Chairman Beckwith presiding -

COMMITTEE MEMBERS PRESENT: Regents Beckwith, Fish, Lawton, O'Harrow, Schilling, and Veneman

Chairman Beckwith called on Regent O'Harrow, Chairman of the Physical Planning and Development Committee, for a report on the four matters before the Executive Committee.

Noting that the resolutions had been approved at a telephone conference meeting of the Physical Planning and Development Committee on August 9, Regent O'Harrow presented the first item, which involved a budget increase and a change in funding sources for the Memorial Student Center at UW-Stout:

Resolution 2889: That, upon the recommendation of the UW-Stout Chancellor and the President of the University of Wisconsin System, approval be granted to increase the budget for the Memorial Student Center project at UW-Stout by $496,000 and for funding source change at the cost and from the sources indicated:

The reason for the requested increase was that the general contractor's bid exceeded the budget by nearly $496,000, he explained, adding that Committee members were particularly concerned about the amount of the overrun. They were advised, however, that bidding had been rigorous and that the only recourse under state policy was to reject all bids and redesign the project. Regent O'Harrow remarked that he also was troubled by the increase in general fund-supported borrowing, which now amounted to almost half the funding for the project.

Noting that the major change in funding involved program revenues, Vice President Lorenz indicated that the Building Commission had set a bonding maximum of $2.5 million, which was not being exceeded, to be financed from program revenues. He also explained that state general purpose revenues were paying $3.1 million for the exchange of buildings, the estimated interest earnings on which would be $238,600. That amount could be considered part of general obligation bonding or reassignment of capitol improvement fund earnings.

Regent Fish asked how the university could get an interest credit if the state was paying interest on the money, to which Mr. Lorenz replied that the reason was that the funds were to be transferred from general purpose revenues to program revenues.

In response to a question by Regent Fish concerning the reaction of the State Building Commission to such a procedure, Vice President Lorenz reported that Mr. Paul Brown, Secretary of the Commission, had expressed support for it and indicated that the money probably would come from increased bonding authority. The amount of $238,000 would have been earned if the funds had been transferred by January 1, 1983.

Regent Fish felt the procedure was devious, inasmuch as the university was to get credit for the interest, but the state still had to pay it. He asked if the matter could not have been resolved at the Board's regular meeting in July or if it could be deferred until the September meeting.

Indicating that the bids had come in after the July meeting, Vice President Lorenz noted that another month of delay would result in increased costs.

Regent Beckwith said his understanding of the situation was that, if the state had paid for the building in January, the university would have had the $3.1 million, which could be drawing interest, and that the university would receive the interest because the building was being transferred from utilization as a program revenue source to a non-program revenue use. Expressing concern that title had not been transferred in January, he asked if the building was still being used as a student center.

Vice President Lorenz responded in the affirmative, adding that it would continue to be used for that purpose for some time to come. He explained that the building was not entirely paid for and that program revenues would have to fund the debt service until payment was complete, even though the building would be used for academic purposes.
It was moved by Regent O'Harrow and seconded by Regent Veneman that Resolution 2889 be adopted.

Regent Fish stated that he would reluctantly vote for the resolution but that if he were on the Building Commission he would vote against the project.

Put to the vote, the resolution was unanimously adopted.

Presenting Resolution 2890, Regent O'Harrow noted that the requested budget increase in the UW-Oshkosh Blackhawk Commons project was attributable to code requirements, as well as provision for improved circulation patterns and a more efficiently designed bookstore.

Resolution 2890: That, upon the recommendation of the UW-Oshkosh Chancellor and the President of the University of Wisconsin System, the concept and budget report for the Blackhawk Commons Fire Restoration and Addition Project on the UW-Oshkosh campus be approved with a budget increase of $469,300 for a total project cost of $3,169,300 to be funded with $1,440,600 of insurance proceeds and $1,728,700 of program revenues and authority be granted to plan, bid and construct.

Regent Fish asked if the $1,440,600 fully covered restoration of the fire damage, with the $1,728,700 representing new improvements.

Responding in the affirmative, Vice President Winter noted that the remodeling brought into force new code requirements, including a higher rating for the floor of the bookstore, a sprinkling system, enclosure of stairways and a fire wall.

Regent Veneman felt the architect for the project had been negligent in not including those items in the original estimate. In the future, he suggested, that firm should be avoided.

Expressing agreement with Regent Veneman, Regent Fish referred to plans which specified 1-1/2" batt insulation for the exterior walls and estimated a pay-back period of 5-6 years. That would be the most inefficient insulation that could be used, he remarked, adding that the pay-back period was more likely to be 12-14 years. Stating that he could not understand how an architect could use such poor insulation in designing for energy conservation, he suggested that, if batt insulation were to be installed—which he would not recommend doing—there should be at least a full stud thickness of it. "That isn't going to increase the cost of the building by $500. And then you will get a pay-back of 5-6 years. But you won't get it with 1-1/2". It's ridiculous to build it that way."
Regent Beckwith said a statement should be on record with the Division of State Facilities Management and others involved, that the Committee members believed the increased costs should have been anticipated and that they were very disappointed with being required to increase the budget at this point. He asked that a copy of the letter setting forth the Committee's concerns be sent to each Regent.

Regent Schilling asked if the university participated in discussions regarding design of the project, to which Vice President Winter responded in the affirmative, and it was noted by Regent Beckwith that all agencies involved were somewhat at fault.

Regent Fish pointed out that, if an agency was dissatisfied with what the Division of State Facilities Management had done, it should bring those concerns to the Building Commission. "We should have made our case at that time, and we still should make it."

Although the university had oversight, Regent Beckwith noted, the expert who was hired nonetheless had the responsibility to do the job right. "Maybe our people should have caught it, but that does not excuse the expert."

Upon motion by Regent O'Harrow, seconded by Regent Veneman, Resolution 2890 was adopted unanimously.

Continuing his report, Regent O'Harrow presented the following resolution, noting that it involved several buildings, both classrooms and residence halls, to be built by the UW-Stevens Point Foundation and rented by the university:

Resolution 2891: That, upon the recommendation of the University of Wisconsin-Stevens Point Chancellor and the President of the University of Wisconsin System, authority be granted to amend the lease dated July 1, 1981 with the University of Wisconsin-Stevens Point Foundation, Inc., to lease 28,190 square feet of space at the Treehaven Field Study Station located near Tomahawk from the University of Wisconsin-Stevens Point Foundation, for the period May 1, 1984 through April 30, 1991 at the annual cost of $162,100 to be funded from GPR-supported funds of $92,365 and Program Revenues of $69,735, and from May 1, 1991 through June 30, 2006 at the annual rate of $1.50 per square foot.

While the Foundation could not have completed construction within the time frame established under the original resolution, Regent Fish added, it was believed they would be able to meet a revised schedule. Expressing support for Resolution 2891, he said it was necessary to allow the Foundation to proceed as best it could.

Regent O'Harrow also stated his support for the resolution.
Regent Beckwith asked why the project required action at this time, rather than at a regular Board meeting.

Noting that in July it was still assumed that the state would construct the facilities, Vice President Winter explained that since then it had become apparent that it could not be done in that way because of the time required by the state to mount a project and because the buildings would be major projects requiring enumeration in the fall legislative session. At the same time, the Foundation independently decided that they did not wish to have a mixture of foundation-owned and state-owned buildings. In order to allow enough time to construct the buildings by May 1984, he continued, it was important to act at this time and to seek Building Commission approval later in the month, since delay of construction for another month would mean that it would become too near the approach of the winter season to assure completion by May.

Resolution 2891 was adopted unanimously, upon motion by Regent O'Harrow, seconded by Regent Veneman.

Regent O'Harrow moved adoption of the final resolution, noting that the purpose of the project was to prevent masonry from falling and perhaps injuring passersby.

Resolution 2892: That, upon the recommendation of the UW-Milwaukee Chancellor and the President of the University of Wisconsin System, authority be granted to plan, bid and construct a $15,000 Kenilworth Building Masonry Failure Investigation and Repair Project for UW-Milwaukee to be funded from GPR-Capital Improvement Fund Earnings-Minimum Maintenance/Health and Safety Allocation.

Regent Fish asked if this was the same building on which there had been a masonry failure several months previously, to which Vice President Winter responded that the earlier project had involved Merrill Hall.

Regent Beckwith inquired as to the reason it was necessary for the Committee to act on a $15,000 item, and Vice President Winter replied that Regent approval was required in order to take the project to the Building Commission.

Regent Fish explained that funding could be allocated from minor project monies without Building Commission approval but that, since the request was for funding from general health and safety allocations (an all-agency category), Commission action was required.

Another reason was that both study and repair were involved, Vice President Winter added, noting that need for additional expenditures might be identified.
Seconding Regent O'Harrow's motion, Regent Veneman observed that there really was no choice but to approve the project.

Put to the vote, Resolution 2892 was unanimously adopted.

The meeting was adjourned at 9:35 a.m.

August 16, 1983
B. UW-STEVEN'S POINT

1. 1979-81 Energy Modifications - Three Buildings
   (College of Letters and Sciences/College of Professional Studies/PE Building) (8001-26)
   ADD $ 33,800.00

XII. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT).

A. A Student Exchange Agreement between the Johann Wolfgang Goethe University, Frankfurt, West Germany, and the Board of Regents of the University of Wisconsin System on behalf of the University of Wisconsin - Milwaukee, beginning with the fall term in 1983 for three years was signed November 30, 1982, by the Chancellor at UW-Milwaukee.

B. An agreement between Extension Journal, Inc., and the Board of Regents of the University of Wisconsin System on behalf of UW-Extension regarding editing, publishing, and distributing the Journal of Extension, effective July 1, 1983, has been signed by the Vice President and Trust Officer.

C. Agreements between the Corporation for Public Broadcasting (CPB), Washington, D.C. and the Board of Regents of the University of Wisconsin System for public radio stations WHA and WUWM agreeing to accept reduced Community Service Grants if National Public Radio (NPR) fails to repay CPB under the terms of a NPR-CPB loan agreement have been signed by the Vice President and Trust Officer effective until September 30, 1986.

D. A Memorandum of Understanding between the University of Linkoping in Sweden and the University of Wisconsin Urban Corridor Consortium, providing for the exchange of students between them for the period of one academic year, has been signed by the Vice Chancellor of the University of Wisconsin - Green Bay, the Chairman of the Steering Committee of the Urban Corridor Consortium of Universities.

E. The UW-Madison Vice Chancellor for Administration has signed a lease agreement providing for leasing a portion of the Eau Claire Family Practice Clinic space to Dr. Robert Hume, covering the period September 1, 1983 through August 31, 1985. The rate will be $500 per month for 1,100 square feet of space. This lease was initially reported in April 1982.

F. A Volume Purchase Agreement for Zenith Data Systems Products (microcomputers) on behalf of students, faculty members, and staff members of the UW System has been signed by the Executive Vice President for the one-year period from July 21, 1983 and continuing on a year-to-year basis thereafter. Either party shall have the right to terminate this agreement upon giving the other party sixty days written notice of such decision.

G. At the request of the Dean of the College of Agricultural and Life Sciences and the Director of the Experimental Farms, the UW-Madison Chancellor has approved the razing of Buildings 0861, 0862, and 0863 located on the Wolman Farm of the Arlington Experiment Station. These buildings (a barn, tobacco shed, and storage shed) have been used for carpentry supplies and hay storage needs which are now being met through consolidation of storage at other locations at the Station.
H. An agreement between the Board of Regents and South Carolina Electric and Gas Company, Columbia, S.C., on behalf of UW-Madison, has been signed by the Vice Chancellor for Administration. This allows access to the Company’s lands by University representatives for purposes of taking measurements in a well bore hole and will assist research efforts in the Department of Metallurgical and Mineral Engineering. The term of the agreement is from June 1, 1983 through May 31, 1984.

I. The renewal lease between the Board of Regents and Mr. Mike Shelton for space in Randall Towers, housing Bob’s Copy Shop, has been signed by the Vice Chancellor for Administration. The lease covers the period August 1, 1983 through July 31, 1984, at the increased rate of $420 per month and also reflects strengthened insurance and liability clauses.

J. A renewal of the lease between the Board of Regents and Mrs. Donna Senn, Menomonie, for the use of Lot 4, Block C, Riverside Drive, for UW-Stout student vehicle parking from September 1, 1983 through August 31, 1984, has been signed by the Vice President for General Services. The annual rate is $1,150.

K. A new twenty-year lease (January 1, 1983 through December 31, 2002) between UW-Superior and the United States Department of the Army for the University’s use of a 1.6 acre parcel, known as the former U.S. Coast Guard Station on Wisconsin Point, has been signed by the Chancellor on behalf of the Board. The annual cost remains at $630, and the property will continue to be used for a Biological and Chemistry Laboratory related to Lake Superior Studies.

L. An agreement has been signed by the Vice President for General Services involving police and security services to be secured from Grant County on behalf of UW-Platteville. The agreement is effective from July 1, 1983, and will provide police and security services on the campus for special events such as, but not limited to, athletic events, student dances, and concerts. Under its terms, Grant County will be paid the amount of $9.16 per hour per officer during the current calendar year plus the employer share of social security taxes. Future charges will be increased proportionate to police officer wages plus employer social security charges. The agreement is to remain in effect unless it is terminated by mutual consent of both parties in which event a three-month written notice must be given to the other party and supersedes a similar agreement with the City of Platteville, as reported to the Board in November 1981.

M. The lease agreement between Golf Green Storage, Madison, and UW-Madison for its Division of Housing for lease of 2,000 square feet of space for off-season storage of grounds equipment and material has been signed by the Vice President for General Services. The term is from November 1, 1983 to October 31, 1984, and includes a one-year renewal option to October 31, 1985. The annual rate of $2,880 is unchanged from the previously reported agreement (November 1982).

N. The lease between the Board of Regents and the Presbyterian Student Center Foundation for the Parking Lot at 439 North Murray Street, utilized to assist in satisfying parking needs for UW-Madison in the east area of the campus, has been signed by the Vice President for General Services. The annual cost remains at $4,216 and has not been increased since September 1976. This agreement has been in effect since 1961.
