The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

MALPRACTICE

The Malpractice Suit: A Survival™ Guide for Physicians and Their Families. A 60 minute front-line report that will help end the pain and frustration of malpractice.

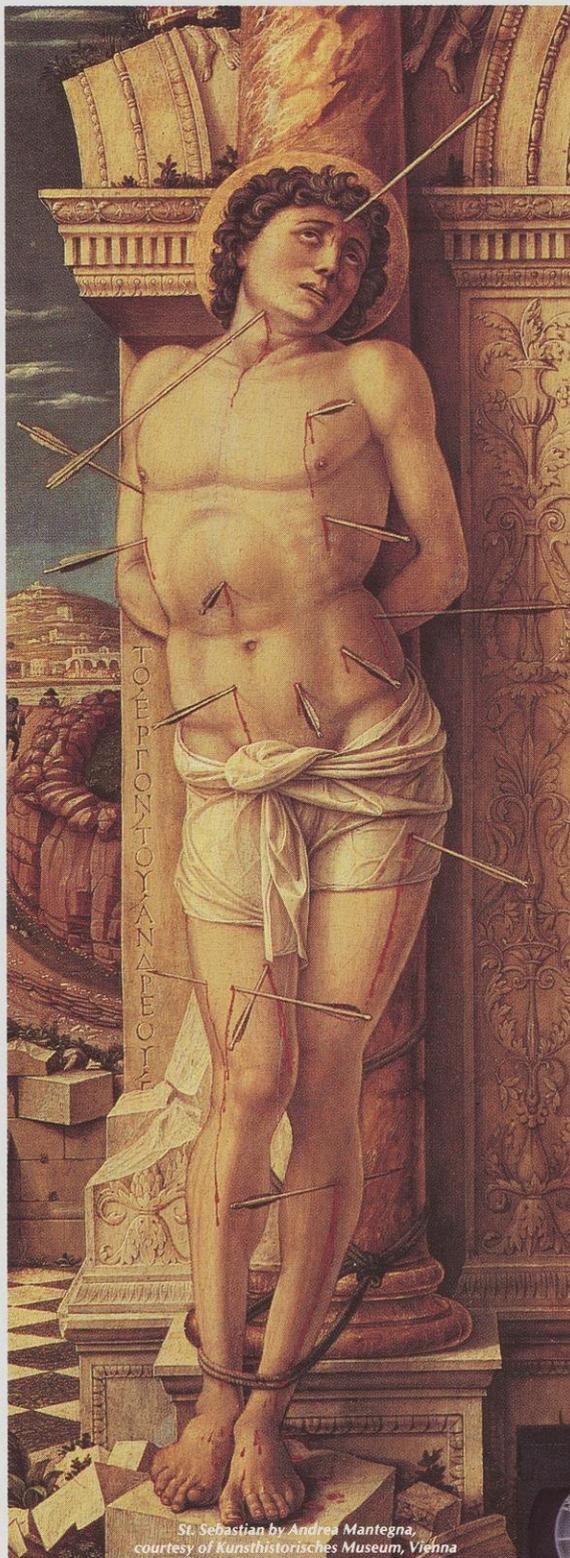

For physicians currently in a malpractice action. Especially their families. Gritty, head-on discussions—live and on-camera—with physicians and their families about what really happens, what they're going through, and how they're dealing with it.

It will help. Learn how to deal effectively with the emotional and procedural upheaval. Understand the mechanics of malpractice. And the emotions—the anger, the isolation, the frustration.

Get back in control. Just watching it—even one time—can make a difference. A big difference. In the way you feel. In the way your spouse feels. In the way your family feels. In the way you deal with your practice and your attorney.

You are not alone. And, the odds are in your favor. Nearly 1 out of 4 doctors will be sued this year. But about 90% of the cases never go to trial; and of those that do, 75–80% are decided in the physician's favor.

By physicians. For physicians. Real doctors captured by the 3-time Emmy-award-winning producers nationally known for their programs produced for the PBS series *DISCOVER* and *NOVA*, and for such *FRONTLINE* episodes as "Sue The Doctor?" Additionally, the originators of the *Survival™ Guide* have backgrounds as doctors and teachers at Harvard Medical School.
