INTRODUCTORY.

49

WITH this issue of the Sheboygan City and County Directory, the publisher reverts to the plan originally adopted, of putting the county in general into a single alphabetical list, rather than grouping the residents by townships. This plan was considered by most patrons to be the preferable one, as it is manifestly easier to locate an individual in a single list than to be compelled to hunt for the name through a score of minor lists. In deference to the judgment and wishes of many patrons, therefore, the change has been made—and it is to be hoped that it will result as satisfactorily as has been expected.

More than usual pains have been taken to secure correctness and reliability, both in the city and county. No effort has been spared that experience could suggest, to insure the absence of errors. Of course it cannot be expected that even with the most herculean efforts perfection shall have been reached. We are but human, and until the millenium shall have come in other things, one cannot expect to realize a Utopian dream of absolute correctness in such a mundane thing as a Directory.

For the rest, we can congratulate the citizens on a solid, healthy growth. A diversified manufacturing industry is being developed which promises well for the future stability of the city; and as to actual gain in population, the figures show an increase of seven per cent. in the number of names contained in the Directory, which would make 21,500 as about the number of people now contained in the city limits.

Very truly,

A. G. WRIGHT,

Publisher.

SHEBOYGAN STREET DIRECTORY.

For the purpose of establishing a uniform system of numbering, the city is divided into two grand divisions—North and South—Sheboygan river being the dividing line.

The numbers on North Side streets running south and north run north from the river at 8th street bridge, one hundred for each square.

The numbers on South Side streets running north and south run south from the river at 14th street bridge, one hundred for each square.

The numbers for all streets running east and west run west from Lake Michigan, one hundred for each square.

On streets running north and south, even numbers are on the west and odd numbers on the east side.

On streets running east and west, even numbers are on the north and odd numbers on the south side.

For the numbers of all streets running north and south in the North division, see N. 8th street.

For all streets running east and west in the same division, see Superior av.

For the numbers of all streets running north and south in the South division, see S. 14th.

For all streets running east and west in the same division, see Indiana av.
