Council Chooses Group to Revise Rushing System

Fraternities Make Proposals for Next Year's Regulations

The appointment of a committee for revision of inter-fraternity council rushing regulations has been made after receipt of letters of proposals from the various fraternities, it was announced Monday by Wade Boardman L2, president of the council.

The following men have been chosen to make up the committee for revision:

James Hanks '29 Chi Psi, chairman, Wade Boardman L2 Phi Kappa Psi, Martin S. Brill '30 Phi Epsilon Pi, Murray Lucas Holliday '31 Delta Tau Delta, Herbert Klingman '29 Phi Kappa Tau, R. W. Kubasta '30 Triangle, Theron Pray '29 Sigma Phi, and Michael Sullivan '29 Phi Kappa.

Much Interest Shown

On this committee the officers are represented by Wade Boardman, the court of the council is represented by Theron Pray, and the dismissed committee on rushing regulations is represented by Herbert Klingman.

Particular interests as indicated by letters received from fraternities are represented by the other five men chosen. Wade Boardman stated that the letters clearly indicate that the fraternities have given considerable thought to the subject and while they do not express unanimity of opinion, they do show that a practicable and agreeable solution may be expected.

38 Fraternities Eligible

The following fraternities submitted recommendations and are thereby eligible to vote on proposals for revision of the rushing rules:

Acacia, Alpha Chi Rho, Alpha Gamma Rho, Alpha Epsilon Pi, Alpha Kappa Lambda, Alpha Sigma Phi, Alpha Tau Omega, Beta Kappa, Beta Theta Pi, Delta Kappa Epsilon, Delta Sigma Phi, Delta Sigma Pi, Delta Tau Delta, Delta Upsilon.

Zeta Beta Tau, Kappa Sigma, Pi Kappa Alpha, Sigma Alpha Epsilon, Sigma Phi Epsilon, Sigma Pi, Square and Compass, Tau Kappa Epsilon, Triangle, Phi Beta Pi, Phi Gamma Delta, Phi Delta Theta, Phi Epsilon Pi, Phi Kappa.

Phi Kappa Sigma, Phi Kappa Psi, Phi Kappa Tau, Phi Pi Phi, Phi Sigma Delta, Phi Sigma Kappa, Chi Phi, Chi Psi, Psi Upsilon.

Men's Glee Club Sings March 1, 2

Spring Concert Includes Wide Variety of Numbers

The program to be presented by the University Men's Glee club in the annual spring concert March 1 and 2, in Music hall, is varied and popular in appeal, Prof. E. Earle Swinney, conductor, said Monday.

Among the heavier numbers to be presented Friday and Saturday night are Mendelssohn's "On Wings of Song"; "The Comrades Song of Hope," which was popular among last year's audiences; "The Little Sandman," by Brahms; and Grieg's powerful song of the Northmen, "Land-Sighting."

Outstanding among the group of lighter numbers are "Ol' Man River," from Ziegfeld's musical comedy success, "Show-Boat," "The Song of the Vagabonds," and Gilbert and Sullivan's famous "Chorus of Peers," from "Iolanthe."

Arthur R. Kreutz, '30, will play in a group of violin solos Rimsky-Korsakoff's "Hymn to the Sun"; Mendelssohn's "Capriccio"; and a tango and "Danse Espagnole" by Kreisler. George H. Seefeld, '30, accompanist for the club, will also play a group of solo numbers, including "To the Sea."

Catholic, Protestant, Jew Speak at Annual Religious Conference

Scott H. Goodnight Will Bet His Dime on Boy's Garters

"I'd be willing to bet a dime that there's not a boy in the room who has on a pair of garters," declared Dean Scott H. Goodnight Sunday evening when he spoke to the Sunday Evening club, at the Student Presbyterian Headquarters on the subject "Standards."

This statement was the reply to a general chuckle that had run over the crowd at the expense of the young ladies a moment before when Dean Goodnight mentioned the feminine fad of a few years ago in displaying highly enameled physiognomies. Mr.

University Gets Research Grant

Frasch Bequest Gives \$8,000 Yearly for Study of Nitrogen in Legumes

The sum of \$8,000 yearly for the next five years for research in agricultural chemistry has been awarded to the University of Wisconsin, the American Chemical Society announced Monday.

The fund will be used under the direction of E. B. Fred, professor of agricultural bacteriology, and W. H. Peterson, professor of agricultural chemistry, to whom it is assigned by the university budget.

The award was made under the \$1,000,000 bequest of the late Mrs. Herman Frasch, widow of John D. Rockefeller's chief chemist.

The purpose of the Frasch bequest is to allow research into the way nitrogen is taken out of the air and utilized as plant food by legumes, such as alfalfa clover, soybeans, and similar highly valuable legume hays.

Kappas Do Not Choose to Chew; Swallow Now

There will be no more Wrigley motions of the fair but firm jaws of the Kappa Kappa Gammas, at least until a recently invoked rule is repealed. Believing it unmannerly for sisters to be seen masticating chicle products, other sisters have been instructed to fine offenders 10 cents—unless the first sister gets it swallowed first.

THE FRATERNITY COLLEGE

Possibilities of making modern college fraternities university units instead of mere social organizations! This is not so extraordinary as it might seem. Read the editorial in The Daily Cardinal today on "The Fraternity College."

Father Ross, Rabbi Wise, Bishop McConnell to Talk

A Catholic, a Jew, and a Protestant will form the trilogy of speakers for the annual University Religious conference which begins next Monday afternoon, March 4, when Father J. Elliot Ross, New York, speaks at the men's gymnasium.

Dr. Stephen S. Wise, rabbi of the Free Synagogue, New York, will speak on Wednesday afternoon, March 13, and Bishop Francis J. McConnell, president of the Federal Council of Churches, will conclude the series of three major convocations on Friday, March 15, according to plans announced yesterday by Edward Fronk '30, and Lorna Snyder '29, co-chairmen.

Supplementary Discussions

The principal addresses will be supplemented by an extensive series of student discussion groups which in last year's conference attracted a total attendance of 1,800 students.

Because of the crowded conditions which prevail at the two convocations held last year in Music hall, the committee has secured the men's gymnasium for all three addresses. All three major convocations will begin at 4:30 on the afternoon on which they are scheduled.

Fronk, Snyder Co-chairmen

Plans for the 1929 conference were begun under the temporary chairmanship of Ted Thelander '29, and Eleanor Pennington '29 immediately following the culmination of the convocation a year ago in order to secure speakers of national prominence for the program. The appointment of Edward Fronk and Lorna Snyder as co-chairmen, was made in December.

Committees to manage the various aspects of the work connected with the staging of the conference are being drafted, according to Fronk, and will probably be ready for announcement Wednesday.

Engineers Choose St. Patrick Nominee at Dinner Thursday

The electrical engineering candidate for St. Patrick in the annual engineer's St. Pat's day parade will be chosen at the banquet of the A. I. E. E., student branch, at 6:30 p. m. Thursday, Feb. 28, in the Old Madison room of the Memorial Union.

The engineer who will portray the patron saint in the parade will be chosen from all branches of engineering at the election in the early part of March. Each branch chooses a candidate and then at the penny election, where a certain number of votes may be bought for a penny, a single engineer is chosen for the honor.

At this banquet there will be discussions of the eastern and western inspection-trips made annually by the senior engineers. This discussion is to be expressly for the purpose of helping the juniors decide on the trip they are to take the following year.

Two Band Trips Deplete Funds

Union Supplements 19 Cent Shortage in Tooters' Treasury

For the first time in many years the university band is unable to show a balance to be carried over for the next season, according to a financial report by Alfred W. Ptuson, student financial adviser.

The reason advanced for this shortage is that the trip to Iowa was more expensive than a trip to Chicago, which is the usual trip taken by the band. The importance of the Iowa game aroused so much sentiment among students and the public that it was decided to send the band there if funds would permit. All of the money was made except 18 cents and this sum was made up by the Men's Union.

The total receipts for the year, including money donated at the 1928 Homecoming game, money left over from last year (\$331.72), interest on the principle, and a loan from the Union Board, amounting to \$3,293.50.

The total expenditures for the year including the expenses for 65 men to the Michigan game (\$1,385.95), expenses for the Iowa trip (\$783.24) and miscellaneous expenses, amounted to (Continued on Page 2)

Y. W. Discussion Group to Argue About Heredities

Opinion was divided upon the value of capital punishment following a discussion of the topic by 12 members of the Y. W. C. A. Sophomore commission in Lathrop hall Monday noon. The tentative question for Monday, Mar. 4, is a discussion on heredity.

Following the Monday discussion groups, each member of the commission meets with her freshman group which she has in charge, and talks on the same question with them.

The purpose of the discussion is two-fold: first to stimulate thought on current questions, and second to acquaint freshmen with one another.

ELECTION NOTICE

By Friday, March 2, at 5 p. m. all candidates who wish to run for spring election offices must have their petitions, \$3. fees, and all advertising to be inserted in the voters' guides in Dean Goodnight's office.

Last Half Rally Changes Defeat Into 27-24 Win

Championship Nears as Packed Gym Cheers Cardinal Attack

Wisconsin took another step toward clinching the Big Ten basketball title in a battle of giants last night at the armory, when Meanwell's machine out-pointed Purdue, 27 to 24.

As the race now stands, Wisconsin has only to win either the Chicago or the Michigan game to tie with the Wolverines for the Western conference crown. Two victories will leave the Badgers unchallenged at the top of the list.

Cummins High Scorer

Cummins, Boilermaker pilot, was high scorer in the tilt, with a total of four field goals and four free throws to his credit. Foster and Tenhopen came next with nine and eight points, respectively.

"Stretch" Murphy, the lengthy Purdue center, was held to a scant four points, made in one goal and two free tosses. Hank Kowalczyk and Carl Mathhusen guarded him so closely that his teammates were unable to pass to him safely.

Purdue made a last minute attempt to even the score, with Boots and Cummins taking the offensive. Close guarding on the part of the Badgers, and a cautious use of the ball kept the Boilermakers away from the basket.

Tenseness Prevails

The tenseness of the contest was relieved after the Badgers had mounted an eight-point lead. Purdue's rally late in the half again made the result a tossup, and while the crowd yelled excitedly, the Badger defense kept the ball out of the hands of the visitors, to remain in the lead at the close.

Capt. Cummins of Purdue made the first score of the game with a free throw. Purdue followed up a few seconds later for the first field goal of the contest. The Boilermakers held the lead throughout the first half, which ended 13 to 8 in favor of the visitors.

Tight Defense

Meanwell's men played a tight defensive game during the entire first period, and although their passes were working almost perfectly, the ball persisted in bouncing off the rim. Lamber's Boilermakers, shooting frequently, counted five baskets and three gift shots.

At the start of the second period, the Cardinals dropped the ball through the net so consistently that in the first half of the second period they scored as many points as Purdue had during the entire first period. With four men shooting, Wisconsin accounted for 13 tallies at the start of the (Continued on Page 2)

Send Invitations for Matrix Table

Honorary Journalism Sorority Sponsors Annual Banquet

Invitations to the fourth annual Matrix table, sponsored by Theta Sigma Phi, honorary journalism sorority, are being sent this week to the most representative women on the campus and in Madison. This banquet, the only social function to which both town and university women are invited will be held in the Great hall of the Memorial Union, Mar. 15.

Mrs. L. S. Slaughter will preside at the banquet. Sallie Davis '29 will speak for the university women, while Mrs. J. A. Ayleward will reply for the town women. Margaret Alsop '29 will welcome the guests in behalf of Theta Sigma Phi.

Catherine McKnight '30 is arranging the musical entertainment for the banquet.

The speaker of the evening will be Michael Strange, noted playwright, poet, and actress, and the former wife of John Barrymore. Her topic will be "As Poets See Their Age."

Former "Queer" Students Merge Millions

Back in 1896 two students, C. H. Hart and C. W. Parr, drew many a laugh from their fellow-students because they were always wasting their time tinkering with some new-fangled machines which, in the opinions of some equally foolish individuals, would some day take the place of horses.

Saturday the names of Parr and Hart were named as the guiding heads in the merger of three large implement companies into a \$300,000,000 corporation, and many Madison residents remembered these two men as the "queer" students of 35 years ago. It is intimated that the merger is the

first step in the formation of an organization large enough to rival the International Harvester company which is controlled by the McCormick family of Chicago.

As engineering students at the university the two young men were intensely interested in the then startling idea of motor power, and built, in 1896, three successful motors here.

After graduation they interested several Madison men in their scheme to start a company to market the motors. Later they went to Charles City, Ia., their home, where they obtained the financial aid of two lawyers and bankers. In 1901 they built the first successful tractor. The Hart-Parr

company was formed and began the business of selling tractors to farmers. Their third machine is still in operation on an Iowa farm.

Gradually the business grew. American farms became motorized, just as the young students had visioned. Success of the company was consummated with the merger of the three companies: the Hart-Parr company, the Oliver Chilled Plow company, manufacturers of tillage equipment; and the Nichols-Shepard company, makers of harvesting equipment.

One of the first stationary motors built by the young students is still in operation at the Sinaiko Feed Co. on West Washington avenue.

Bloodgood Talks on Prohibition

"Must Guard Tendency to Continually Reform Others," Says Minister

"The Episcopal church has a thorough understanding of human nature, and knows that no more than outward decency, and often not that, can come from legislation on matters concerning personal conduct," was the statement made Sunday by Rev. Francis J. Bloodgood, rector of the St. Andrew's church in opening his sermon, "The Church and Prohibition."

"The church has consistently declined to identify itself with the Anti-Saloon League, and while I have a personal respect for many members of the W. C. T. U., I have always avoided becoming involved in their organization."

"A recent editorial published in the New Republic speaking of prohibition makes this statement: 'The churches have won the law, but they have not won individual behavior.' The editorial in the New Republic also says that 'no one will commit himself to genuine enforcement.' There is a good deal of truth in this statement. It also says that 'the mission of the church is not that of the policeman.' Although I am convinced that the police should be better paid and should have a greater recognition from the community I agree that the mission of the police differs from that of the church."

"We need to remember that drinking is not the only sin. We always need to be warned against the tendency in human nature to be continually eager to reform others, because we are apt to be continually impatient of reform for ourselves."

"On the positive side, as Christians, we are, in the words of the author to the epistle to the Hebrews, 'Looking unto Jesus.' Not only a life of vanity or sensuality, but even the most regular kind of life, that is not governed by great devotion, shows its misery, its wants, its emptiness, to the world. We must not fall into the great heresy of 'the average.' We must not reconcile ourselves to second-rate ideals. The Christian ideal is our Lord, and nothing less than this can satisfy us."

Oklahoma A and M Student Swallows Wood Polish; Dies

Stillwater, Okla. — Investigations are being made by authorities of Oklahoma A. and M. College into the death of Miss Pauline Pruitt, freshman, who died Sunday after swallowing poison after a date with Claude Poose, football star, president of the student governing body, and head of the local chapter of Sigma Nu fraternity.

Poose's account of the affair is that he escorted Miss Pruitt home from a dance to the home of her sister at 1 a. m. Sunday. At the time, Miss Pruitt complained of feeling ill. Later her sister was attracted by the girl's screams after she had swallowed furniture polish.

An inquiry conducted by the college authorities revealed no motive for the suicide, and they believed that the furniture polish was swallowed by mistake.

Miss Pruitt was a popular member of the freshman class. She was a Kappa Alpha Theta sorority pledge and was a candidate for freshman queen.

O'Shea Is Guest of Wisconsin Alumni Group in Cleveland

Prof. M. V. O'Shea of the education department, who is attending educational conventions at Cleveland, was the guest of honor at a banquet given Monday night by Wisconsin alumni in that vicinity.

Chemistry Faculty to Hold

Staff Dinner March 6

Badgers Wreck Boilermakers to Time of 27-24

(Continued from Page 1)

second half, before Purdue managed to keep the ball long enough to score. Numerous mysterious substitutions by Coach Meanwell had the Boilermakers altering their method of attack every few minutes. Late in the second half, Ellerman, who had been playing a sterling game of defense went out on his fourth personal.

Flashy dribbling by Chmielewski, and close guarding by Matthusen, who persistently dogged the footsteps of the lanky Mr. Murphy, many inches his superior, featured the second half.

Hank Kowalczyk made the first Wisconsin tally of the game when he took a close shot off the board. Schnaiter followed up with a long shot and a few minutes later Boots took a low fast pass from Murphy to put the Boilermakers five points in the lead.

Ellerman had a chance for a free throw but missed. "Bud" Foster, following the ball close up under the basket, took it off the boards as Ellerman's toss went astray, and made it good, for the second Wisconsin tally.

Purdue Leads Half

At this point Doyle went in for Ellerman. Cummins made another score from right under the basket. Murphy and Matthusen each made good a free toss. Cummins made the last Purdue score in the first period, when he took Schnaiter's free throw from the board and dropped it in. Foster made a long wide shot to bring the score to Purdue 13, Wisconsin 8; and the half ended that way, after the Badgers had missed a volley of shots under the basket.

A few seconds after the start of the second period, Cummins was hurt while dribbling down the floor, and "Pest" Welch went in at forward.

Ellerman took the ball from his own basket half way down the floor and sank a long toss from near the center, for the first Wisconsin tally. Tenhopen followed with a long basket and a free throw. Foster took one of his own shots from the board and re-directed it into the net.

Chmielewski dribbled the length of the floor, and passed to Tenhopen, who raised the score to 17 and 13, in favor the Badgers. Tenhopen tallied again after a pass from Foster. Tenhopen missed a long shot from the side-lines, and Foster took it on the rebound and scored Wisconsin's 13th point 10 minutes after the start of the second period.

Ellerman Fouls Out

Cummins and Boots scored four more points on a field goal and two free tosses, and Miller went in for Tenhopen. Miller started off immediately, with two scores from under the basket.

Murphy made good a free throw, after being fouled by Ellerman, who then went out on personals. Boots made a long shot from the open floor and Cummins took one off the boards and made it good, raising the score to 25 and 20, still in favor of Wisconsin.

Tenhopen went in for Doyle. Tenhopen then dribbled the length of the floor and made the 27th Cardinal point. Cummins' basket from immediately under the boards was the best score of the game, and it ended 27 to 24, with the Badgers still holding tenaciously to their position at the top of the conference ladder, and standing a good chance of remaining there for the rest of the season.

Scott H. Goodnight Will Bet His Dime on Boy's Garters

(Continued from Page 1)

Goodnight explained that fashions of this sort were one kind of standard.

Education, as Mr. Goodnight explained, is a thing which may be measured by standards. Instead of feet, inches, and yards, credits, grade points, and degrees are the units. He asked why it is that although people will not under any circumstances use short economic standards they will get by in measuring their own education with a short number of grade points.

Mr. Goodnight said that he has been at the university for 28 years and in that time he has seen a lot of drunkenness. This is one of the things that makes for unhappiness which he classified as "negative standards." He quoted Fielding Yost as saying "No one ever wins against booze."

Wisconsin Club at Chicago Will Hear Tom Jones

Coach Tom Jones will be the guest of the University of Wisconsin club of Chicago at their luncheon Mar. 15 which is to be held in the interests of track athletics.

Prof. Carl Russel Fish, of the history department, spoke before the club Feb. 8.

Other recent speakers at the club luncheons were Glenn Griswold, editor of the Chicago Journal of Commerce, J. Harold Murray, star of "Rio Rita," and Charles R. Holden, of the Chicago Crime commission.

LIT STAFF

There will be a meeting of the Lit editorial staff in the Lit office at 4:30 today.

and "Concert Etude" by Edward MacDowell.

Tickets for the concert are on sale at the Memorial Union, University pharmacy, Ward-Brodt Music company, Brown's Book shop, and the office of the University School of Music. All seats are reserved. Both balcony and main floor are priced at 75 cents.

Mu Phi Epsilon to Hear

Elsa Chandler Recital

Elsa Chandler, who is well known in Madison music circles, will give a recital under the auspices of Mu Phi Epsilon, honorary musical sorority, Tuesday, Feb. 26, at 8:15 in Esther Vilas hall. Following the recital Mu Phi Epsilon will hold a formal reception at the Madison club.

The student council of Princeton university was forced to ban smoking, since the students had fallen into the habit of lighting their cigarettes before they left the chapel.

Prof. Rettger of Cornell Talks on Greek Science, 4:30 Today

Prof. E. W. Rettger, professor of mechanics at Cornell university, and nationally known authority on scientific ideas, will deliver two lectures here this week.

The subject of his first lecture, to be given today at 4:30 in room 165 Bascom hall, will be "The Greek Science and What Was Left of It in the Sixth Century in Western Europe."

He will speak on "How the Greek Science Was Brought Back into Western Europe and What Western Europe Did with It" tomorrow afternoon. The lectures, held under the auspices of the college of engineering, will be open to the general public.

Mallory Will Read Legends of Arthur to University Women

Louis Mallory of the speech department will read "Guinevere" and "The Passing of Arthur" at the first of a series of Monday evening poetry readings to be given by the American Association of University Women at the College club.

Women Smash Maples as Big Tourney Starts

Close Games Feature Opening of Intramural Pin Finals

The opening rounds in the women's intramural bowling tournament now under way resulted in victories for Alpha Gamma Delta, Barnard, Charter House, Beta Phi Alpha, Alpha Omicron Pi, and Theta Phi Alpha.

Alpha Gamma Delta barely won two matches from the All-Americans, by the scores of 345 to 321, and 409 to 350. The lineups: for Alpha Gamma Delta, Buelow, Polk, Roosen, and Loomans; for All-Americans, Thorsen, Engler, Krings, and Phillips.

Barnard and Chi Omega bowled two fairly even matches, Barnard winning both times by scores of 275 to 300 and 316 to 332. The lineups: for Barnard, Goeltz, Bang, Dimmitt, and Van Roo; for Chi Omega, Dines, Coston, Radley, and Swenson.

Beta Phi Alpha ran up a large score against the Tri Deltis, winning the first game, 394 to 385, and the second by a score of 444 to 385. Those bowling for Beta Phi Alpha were De Wein, Miller, Stetzer, and Week; for Delta Delta Delta, Mengies, Dodge, Parkhurst, and Moores.

A. O. Pi collected a comfortable margin over the Medics, winning the first game, 302 to 253, and the second, 372 to 314. The bowlers for A. O. Pi: Thomsen, Bell, Corless, and Stangel; for the Medics, Rouché, Coyne, Mahoney, and Rice.

Theta Phi Alpha amassed the largest scores thus far in the tournament when they defeated Gamma Phi Beta, 464 to 296, and 407 to 287. They should figure heavily in the finals. The lineups, for Gamma Phi Beta, Campbell, Brandon, Lawrence, and McLellan; for Theta Phi Alpha, Haffrechter, O'Malley, Ruskau and Van Edig.

The following schedule of games will be played this week:

Tuesday, Feb. 26
7:00—All Americans vs. Chi Omega.
8:00—Alpha Gamma Delta vs. Barnard.

(Continued on Page 7)

Fraternity Basket Ball Tournament Has Difficulties

Unscrambling Necessary in Division Four; Final Games in Doubt

Further progress has been made during the past weeks in the interfraternity basketball league, and the situation as it stands at present presents several difficulties for the selection of teams to enter the finals. The two leading teams from each division will be entered. Divisions 1, 2, 3, 5, 6, 7, and 8 are headed by squads with perfect records, and in each case the next team on the list is easily ahead of the rest of the division.

Division 4 will have to be unscrambled, and it is probable that several elimination games will have to be played. Three teams, Pi Kappa Alpha, Theta Chi and Sigma Nu have 4 wins and 1 defeat to their credit, while Phi Kappa follows closely with 4 wins and 2 defeats.

The following is the present list of interfraternity standings:

Team	W	L
Division 1		
Delta Tau Delta	4	0
Sigma Phi Epsilon	4	1
Acacia	3	2
Alpha Tau Omega	2	2
Phi Sigma Delta	1	4
Phi Epsilon Pi	0	5
Division 2		
Delta Theta Sigma	4	0
Phi Sigma Kappa	4	1
Alpha Chi Rho	3	1
Beta Kappa	1	4
Phi Gamma Delta	1	4
Sigma Phi Sigma	0	5
Division 3		
Tau Kappa Epsilon	3	0

Star Bowlers In Telegraphic Pin Tourney

With the final game of the interfraternity bowling league played, an all-star team has been picked of five members who rolled the highest averages in a nine-game series. These men will represent Wisconsin in a telegraphic meet to be held on the 28th of February against Ohio State bowlers.

Heading the list of entrants is Earl Accola, who has an average of 566, and who has the highest average in the interfraternity league.

Closely following the footsteps of the hard-hitting Accola is Alton Schmitt with an average of 564. He has bowled consistently all season and is looked for to come through in the Big Ten meet.

Much will depend on the two stars of the Phi Sigma Kappa team which won third place in the league, Carlton Nottelman and Robert Hanke. Nottelman hit the pins for an average of 555 and his partner was close behind with 554. Hanke and Nottelman were the mainstays of the Sigma Kappa's all season, helping that team to land in third place.

The final member of the All-Star team is Frank Molinaro who has been bowling under the colors of the Pi Kappa Alpha team. Molinaro attained an average of 549 for his series of games.

Mat Schedule Resumed Tonite

Sig Alpha Eps vs. Sig Chi, Sig Phi Eps vs. Theta Chi

The interfraternity wrestling schedule, which was postponed because of holidays, will be continued tonight when the Sigma Alpha Epsilon's will take on the Sig Chi's and the Sigma Phi Epsilon's will meet the Theta Chi group.

The season's schedule follows:

Division 1	
Round 2—Alpha Gamma Rho vs. Pi Lambda Phi, Mar. 1, 8:30.	
Round 3—Alpha Gamma Rho vs. Kappa Sigma, Mar. 4, 7:30; Delta Theta Sigma vs. Phi Sigma Kappa, Mar. 4, 8:30; Phi Kappa Tau vs. Pi Lambda Phi, Mar. 8, 7:30.	
Round 4—Alpha Gamma Rho vs. Phi Kappa Tau, Mar. 11, 7:30; Kappa Sigma vs. Phi Sigma Kappa, Mar. 11, 8:30; Delta Theta Sigma vs. Pi Lambda Phi, Mar. 15, 8:30.	
Round 5—Alpha Gamma Rho vs. Phi Sigma Kappa, Mar. 18, 7:30; Delta Theta Sigma vs. Phi Kappa Tau, Mar. 18, 8:30; Kappa Sigma vs. Pi Lambda Phi, Mar. 22, 7:30.	
Division 2	
Round 2—Sigma Alpha Epsilon vs. Sigma Chi, Feb. 26, 7:30; Sigma Phi Epsilon vs. Theta Chi, Feb. 26, 8:30; Pi Kappa Alpha vs. Theta Delta Chi, Mar. 1, 7:30.	
Round 3—Pi Kappa Alpha vs. Sigma Chi, Mar. 5, 7:30; Sigma Alpha Epsilon vs. Theta Chi, Mar. 5, 8:30; Sigma Phi Epsilon vs. Theta Delta Chi, Mar. 8, 8:30.	
Round 4—Pi Kappa Alpha vs. Sigma Phi Epsilon, Mar. 12, 7:30; Sigma Chi vs. Theta Chi, Mar. 12, 8:30; Sigma Alpha Epsilon vs. Theta Delta Chi, Mar. 15, 7:30.	
Round 5—Pi Kappa Alpha vs. Theta Chi, Mar. 19, 7:30; Sigma Alpha	

Badgers Slated for Six Tilts Coming Week

Hockey, Swimming, Wrestlers, Gymnasts and Track Play; No Basketball

Cardinal athletes, after turning in a record of seven victories in 10 starts on Friday and Saturday are slated for only six contests during the coming weekend.

The Wisconsin hockey team will meet Michigan at Ann Arbor in a pair of conference tilts Friday and Saturday. The only other contest on Friday will be a dual meet between the Badger swimmers and the Wolverine tankmen at the home tank.

Saturday the Card wrestlers will visit the Hawkeyes at Iowa City, the gymnasts and fencers will go to Chicago, and the Notre Dame track team, supported by Jack Elder, American Olympic team member, will meet Tom Jones' men on the home track.

Basketball Team Rests
Coach Meanwell's basketball team will receive a week's rest before the next game, which will be with Michigan at Ann Arbor next Monday night.

Gallagher's goal two minutes before the end of the last period gave the Wisconsin hockey team a 1-0 triumph over the Chicago Athletic association. The Winter Sports frolic staged by Johnny Farquhar also closed Saturday after having attracted numerous entries from Chicago, Milwaukee, Oconomowoc, Stoughton and other cities. Hans Troye of the Badger team won the Class A ski jump while Joe Maurin of Milwaukee topped the Class B riders.

Fresh Tracksters Win
Tom Jones' track squad achieved a one-sided victory in a dual meet with Minnesota, capturing the decision by a score of 67½ to 36½.

The swimmers obtained an even break on their road trip, losing to Illinois, 42 to 29, but defeating Purdue, 47-24. The water polo team lost to the Boilermakers.

Coming through in expert fashion to capture four firsts out of the six events, Art Masley's gymnasts outpointed Purdue and Minnesota in a triangular meet. Wisconsin totaled 1,112 points, while Purdue had 1,094 and Minnesota 1,010. The fencers were beaten by Purdue, 8-6. The Wisconsin mat squad came back strong in the heavier weights to win from Minnesota, 18-12.

Lowman and Uteritz Drill 40 Baseball Candidates

Forty candidates are reviewing fundamentals and indulging Wisconsin baseball in light hitting drill in the gym annex under the eyes of Coach Guy Lowman and Freshman Coach Irv Uteritz. Lowman will make a small cut in the squad soon and carry between 25 and 30 men on the roster until the spring training trip starts in April.

Maroons Build Track Title Hopes on Norman Root

Norman Root, ace sprinter on University of Chicago track team, is one of the chief hopes of the ambitious Maroons this year. They have their collective eye on the Big Ten title.

Epsilon vs. Sigma Phi Epsilon, Mar. 19, 8:30; Sigma Chi vs. Theta Delta Chi, Mar. 22, 8:30.

Murphy Leads in Big Ten Scoring, Foster Is Second

While "Stretch" Murphy is maintaining a lengthy and probably unapproachable lead in individual conference scoring, his lead was cut down by the Badgers' close guarding, combined with the sharpshooting of "Bud," Wisconsin forward.

Murphy was held to one basket in Monday's tilt, and his total of field goals now stands at 39. The addition of the two free throws that he made last night brings his total points to 112 points.

Foster, Badger forward, is in second place, with 34 field goals and 20 free throws, for a total of 88 points, 9 of which he made Monday night.

The first five places in the Big Ten individual standings are:

	G.	FG.	FT.	TP.	PF.
Murphy, Purdue	10	39	33	112	19
Foster, Wis.	10	34	20	88	11
How, Iowa	10	32	15	79	15
Vari Howe, O.S.U.	9	32	14	78	14
Gist, Chicago	10	29	16	74	14

Resume Water Polo Schedule

Gym Pool Will Be Scene of First Round To- night

Interfraternity water polo teams will continue their schedule of games tonight at 7:30 o'clock in the gym pool. Games in the first round have either been played or postponed because of holidays.

The schedule follows:

Division 1	
Round 2—	Beta Theta Pi vs. Pi Kappa Alpha, Feb. 26, 7:30.
Phi Gamma Delta vs. Theta Xi, Feb. 26, 8:30.	
Round 3—	Beta Theta Pi vs. Sigma Phi Epsilon, March 5, 7:30.
Pi Kappa Alpha vs. Theta Xi, March 7, 7:30.	
Round 4—	Beta Theta Pi vs. Theta Xi, March 12, 7:30.
Phi Gamma Delta vs. Sigma Phi Epsilon, March 14, 8:30.	
Round 5—	Phi Gamma Delta vs. Pi Kappa Alpha, March 28, 7:30.
Sigma Phi Epsilon vs. Theta Xi, March 28, 8:30.	
Division 2	
Round 2—	Delta Sigma Phi vs. Sigma Alpha Epsilon, March 1, 7:30.
Phi Kappa Sigma vs. Triangle, March 1, 8:30.	
Round 3—	Delta Sigma Phi vs. Sigma Phi Sigma, March 5, 8:30.
Sigma Alpha Epsilon vs. Triangle, March 7, 8:30.	
Round 4—	Delta Sigma Phi vs. Triangle, March 12, 8:30.
Phi Kappa Sigma vs. Sigma Phi Sigma, March 14, 7:30.	
Round 5—	Phi Kappa Sigma vs. Sigma Alpha Epsilon, March 29, 7:30.
Sigma Phi Sigma vs. Triangle, March 29, 8:30.	
Division 3	
Round 2—	Kappa Sigma vs. Sigma Chi, Feb. 28, 7:30.
Phi Sigma Kappa vs. Zeta Psi, Feb. 28, 8:30.	

Division 3	
Round 2—	Kappa Sigma vs. Sigma Chi, Feb. 28, 7:30.
Phi Sigma Kappa vs. Zeta Psi, Feb. 28, 8:30.	

(Continued on Page 7)

Pi K A's Finish First in Bowling Tourney Finals

Delta Sigma Phi's Come a Near Second; Teams Closely Bunched

With the finish of the interfraternity bowling league, the Pi Kappa Alpha team is nestled in first place, with 18 wins to their credit. Next in line is the strong Delta Sigma Phi team which has won 16 games. These two teams fought neck and neck until the final week of the season when the Pi Kappa's were able to eke out two more wins than the Sigma Phi's. The Phi Sigma Kappa's landed third place in the league with 14 games won.

All of the teams were closely bunched, and the final standings of the teams was in doubt until the last games were played.

1. Pi Kappa Alpha—18 games won.
2. Delta Sigma Phi—16 games won.
3. Phi Sigma Kappa—14 games won.
4. Phi Epsilon Kappa—10 games won.
5. Sigma Phi Epsilon—7 games won.
6. Acacia—7 games won.
7. Phi Kappa—5 games won.
8. Chi Phi—2 games won.

Trackmen Await Notre Dame Tilt

South Bend School Stronger Than Losing Gophers; Summaries

Returning highly elated from Minneapolis with an overwhelming victory over the Minnesota track team, the Wisconsin squad is preparing immediately for the meet against Notre Dame which is to take place here Saturday afternoon.

The Catholic school has a much stronger team than the Gophers, having defeated Northwestern and being barely nosed out by the champion Illinois squad. Jack Elder, the only man who has ever defeated Percy Williams, the Olympic champion in the 100 and 220 yard dashes, will be the headliner, and should win the 40-yard dash. Elder has equalled the world's record for the 60-yard dash oftener than any other man and is a remarkably fast starter. Notre Dame will also have the two Brown brothers, who finished first and second in the cross country meet here last fall. Vachalis, the Mexican runner, will enter the two mile, with one of the Browns, the other running the mile. Quigley is a remarkably fast half miler and has been undefeated this year. Walsh, a son of the Walsh of baseball fame, is a good shot putter and is given a good chance to win the event. McDermott, the Notre Dame vaulter, cleared 12 feet, 3 inches in the Northwestern meet, and should defeat the Badger entries for first place. O'Brien, a high hurdler, is another star on the Irish team.

Wisconsin, however, will have the advantage in second and third places, thus placing the result of the meet in doubt until the last events. Cassidy, Badger miler, has recovered from the cold which prevented his appearance at Minneapolis. Folsom will also be able to take part in the meet Saturday, while Diehl, who was handicapped by both a cold and leg injury, should make a better showing.

Summaries of the meet against Minnesota:

- 60-yard dash—Larsen (W), first; Benson (W), second; Diehl (W), third. Time—6.4.
- 100-yard dash—Anderson (M), first; Strain (M), second; Moe (W), third. Time 4:28.9.
- Quarter mile—Henke (W), first; Catlin (M), second; Finch (M), third. Time 52.7.
- Half-mile—Fink (W), first; Rasmussen (M), second; Hoffman (W), third. Time 2:02.
- Two-mile—Goldsworthy (W), and Dilley (W), tie for first and second; North (M), third. Time 9:58.3.
- High hurdles—Jacobs (M), first; Roden (W), second; Purtell (W), third. Time 9.0.
- Low hurdles—Eisele (W), first; Brandt (W), second; Henderson (M), third. Time 8.2.
- Shot put—Nuepert (W), first; Shoemaker (W), second; Johnson (M).

Murphy Instructs Crew in Leader Style

"All right, boys, you've got the body swing, now get some leg drive."

These are the words of Coach George "Mike" Murphy, as he instructed his 1929 Varsity Crew in the Leader style of rowing. The varsity is undergoing constant changes, in the daily workouts, in an effort to find the most powerful, smoothest working combination. Friday night's workout there were three inexperienced men in the varsity shell, while the Jayvee was made up almost entirely of experienced men.

The veterans rowing in the varsity were Drouet, Goodman, and Horsfall—all of last year's Varsity. At stroke was Oberdeck, the smoothest rowing man on last year's frosh. Keenan, at seven; Weber, at four; Beers at two;

and Otjen, at one, are new to the varsity boat.

Coxswains Scarce
For the first time in recent years coxswains are in demand. Coach Murphy issues a call for all eligible men under 125 pounds to report to him for a coxswain try-out. Bobby Jones is the incumbent Varsity cox, but more men are needed to make the run the second, third, and fourth boats; freshmen are needed to direct the first year huskies.

Don Miller, the former Navy coxswain, who is now in attendance at Wisconsin, will not be eligible until next year, when he completes his necessary year of residence, and he may grow out of his coxswain's shoes by that time.

Crews Working Hard

The crews are working steadily, with the Jayvee not far behind the Varsity in both rowing form and power. This crew is composed of a former Varsity stroke, two men from last year's Jayvee, and five men from former freshman crews. The only newcomer is Woodward, a big, strong boy, who has only been out a few weeks, and lacks experience.

The frosh have not yet been divided into regular crews and probably will not be divided until the lake opens up. About 50 freshmen are engrossed in learning the fundamentals in an effort to become so perfect that they cannot be denied a place in the first boat when the yearlings attempt that first hazardous adventure on the waters of Lake Mendota.

The Daily Cardinal

"Complete Campus Coverage"

Founded April 4, 1892

University of Wisconsin official daily newspaper, owned and controlled by the student body. Published every morning except Monday by the Daily Cardinal company at the Memorial Union building, and at the Cardinal Publishing plant, 740 Langdon street, Madison, Wis. Printed by the Cardinal Publishing company, Member of the Western Conference association.

Entered as second class matter at the postoffice, Madison, Wis.

Subscription rates—\$3 per year and \$1.75 per semester by carried in Madison; \$3.50 per year and \$2.00 per semester by mail. Single copies 5 cents each.

Editorial offices—Memorial Union building, 3rd floor, telephone B. 250 before 5:30 p. m.; 740 Langdon street, telephone B. 250 after 5:30 p. m.

Business office—Memorial Union building, 3rd floor, telephone B. 6006 before 5:30 p. m.

Publishing plant—740 Langdon street, telephone B. 1137, G. W. Tanner, plant manager.

The Fraternity College

Is It Possible to Make Modern Fraternities Into College Units?

Frank Aydelotte in "The Oxford Stamp" has remarked that, "The college at Oxford is a sort of enlarged American fraternity, heavily endowed, engaging in the business of instruction and disciplining, determining the life of the undergraduate in all its human and social aspects."

It is a significant statement when one considers that American universities for the past 10 or 15 years have been contemplating some form utilizing part of the British structure. It is obvious (England giving to the college what American schools cannot: a selected stock of well prepared and intelligent beings) that American universities cannot wholly adopt the English plan; to do so, it would seem, will be fatal to the democracy of the American institution. Yet there is nothing which forbids selecting such ideas as may be suitable from the British university structure.

We have heard a great deal of talk in the past few days about the "problem of the fraternity," and it has been increasingly said that sub-division of a university is a feasible way of keeping a valuable intimacy and avoiding an industrial appearance. Does it not appear that a union of these two movements is a possibility?

Here, on one hand, we have a great many establishments which at present house fraternities. Their function is primarily social. They house and feed the undergraduates. Why cannot they also educate them? The idea is not as ridiculous as it seems.

We are informed by students, who are in a position to observe such things, that the Experimental college would be improved were it to consist of, say 60 students, and if this number were not diluted, or not disturbed at the end of the first year by a horde of newcomers. We have been told that the Experimental college was numbered at 250 because that was the dormitory capacity. If this is true, numbers would not seem to have played a large part.

Now it is also true that the average fraternity house can care for about 30 men. It is possible that a group of 30 could live and work together in much the same manner as do students now in the Experimental college. The instruction would, of course, be on the tutorial plan.

It would even be possible for two or three fraternities, similarly located to combine resources and living conditions for the common interest. But, you will say, this means sacrificing much cere-

mony and a great deal of tradition. You may be quite right but one cannot judge these things on grounds of sentiment alone.

This is mere idle speculation. Fraternities might easily turn into graduate or upper class societies instead. But the moral, if we must have one, is that progressive fraternities will be on the alert for such moves and will anticipate them.

We believe that if the Interfraternity council wished to do a piece of constructive work it could do no better than to survey some of the aspects and implications of this plan.

Campus Planning

While Policies May Be Laid Down Under Certain Conditions, Factors Vary

The art of planning for regions, cities and institutions has come steadily to the fore in the past 20 years. Wisconsin expands in a definitely directed way, commonly known as the Peabody-Cret Plan. Saturday Paul Cret, co-designer of the plan, was in Madison to meet with the structural development committee of the board of regents.

While a plan may be laid down under certain given conditions such as the rate of expansion and the factors determining this expansion, some of the factors are variable. Especially is this so at Wisconsin where the condition of the state is reflected in the university which it supports. The prosperity of the state determines how much money may be spent on the university; the prosperity of the citizen determines how many students will go to college.

Inasmuch as these factors change, the details of the plan must also change if it is to continue to be a good one.

Among the various planning and architectural problems discussed were: (1) Extension of the lower campus to Murray street, or to Lake street, between Lake Mendota and University avenue. (2) The new library building. (3) The "hump" on the upper campus.

For the first question it would appear that the extension to Lake street would offer more advantages. A splendid unit of buildings might be constructed at each corner of the Lake street block. Almost any other plan would destroy the view of the beautiful facade of the library.

The "hump" on the upper campus might be utilized in such a way that it would be unnecessary to remove it. One is impressed in the spring with the long sweep of green grass, leading the eye to Bascom hall at the top of the hill. Yet the long stretch of green becomes monotonous. Would flower beds on the campus destroy the present effect? Would they break the rhythm of the view from State street as well as break the monotony? One thinks not; and would this not be a solution to breaking the "hump"?

The Daily Cardinal intends to print shortly a series of articles explaining and criticising the present plan of development. This work is something, we feel, with which every student should be familiar.

Two Library Suggestions

One Concerns Disappearances of Books; the Other Asks a Typewriting Room

Sometime in the not-far-distant future a new library building is to be erected, and student interests might well be served by offering suggestions to the Board of Regents as to features to be incorporated in the new building.

We might start the list with a suggestion to correct the present situation under which books have a way of disappearing from the reserved-book shelves in the reading room. The policy followed in Bascom reading room, whereby reserved books are withdrawn over signature for a maximum period of two hours, seems to be effective in preventing the unaccounted disappearance of books. If such a reserved-book reading room could be located in the new library building, present difficulties should be eliminated. The labor cost of maintaining such a reading room should not be so high as to make the suggestion unreasonable, and it would be offset, at least in part, by the saving in books.

Another suggestion—one which we believe appeared in the Daily Cardinal a couple of years ago—is that a room be provided where students may use typewriters in taking notes. The typewriter has become a popular labor-saving (and grade-raising) device among students, and anyone who has taken notes on a machine is aware of the advantage of this method over longhand note taking. The number of portable typewriters owned by students is, we believe, large enough to make it unnecessary for the university to furnish machines for the room. It might be advisable, however, to supply a limited number of machines and charge a nominal fee to students who wished to use them regularly. Investigation of the development of this sort of provision at other institutions would be helpful, and an extremely valuable adjunct to the new library could be worked out.

Two suggestions have been made here. There are doubtless more which should be brought to the attention of the parties responsible for the design of the new building. Students with pet peeves caused by conditions in the present library arrangement which might be eliminated in the new building ought submit an outline their grievances and suggestions for improvement to the Board of Regents.

ORPH

Charley Ray at the Orph jumps on the stage with the swagger that has won the hearts of movie fans. He sings and does imitations and looks exactly like his pictures. I take a fiendish delight in discovering that people look like their pictures.

DANCE

Jack Mason of the Canton, O., Masons and his hot orchestra of the Thompson hot orchestras will perform from the rostrum of the Great hall rostrums in the Union building of the Wisconsin Union buildings Friday and Saturday nights. Better get a date and come because you might get a Xmas card idea for Ma-chamer.

Rockets Fillers

Swimming is a fine thing to accustom one to the water.

THE EDITOR OF THIS COLUMN IS THE HALF WIT'S HALF BROTHER. WHAT DO YOU THINK I'VE GOT DOWN HERE? A DUCK?

Columbus Discovers America

Col: Lay down the gang plank.

Of course, I'm to be the first one to set foot on the new land.

Voice: Just like a Columbus.

Col: Silence. Where's the gang plank?

Mate: Sir, I discover that we didn't bring any. No one expected to find any land.

Col: Negligence, how are we going to get ashore?

Mate: There are some Indians coming out here in canoes.

Col: How do you know they are Indians?

Mate: Sign language.

Col: Ah! Deaf and dumb Indians.

Mate: Now I know where all those Paris cigar stores get their Indians.

Col: Say, you forget that we are the first ones to see this land.

Mate: Right you are, Cap.

What about swimming to shore?

Col: Pretty chilly, isn't it?

Mate: No. I understand that people come down here to spend the winter.

Col: You don't know anything about that, you fool.

Mate: Why I read all about it in the travel book we bought at home.

Col: Well remember that this expedition will not have any heretics. Now you forget your travel books or you walk the plank.

Mate: All right, Cap.

Col: I'm boss here.

Mate: But we haven't any plank, Sir.

Col: CURSES!!!

7:30—Liberal Club meeting, Assembly room.

8:00—Reading, Lucine Finch, Great hall.

BEREFT HEARTS

Dear Readers:

The "Bereft Hearts" column has been started with the definite idea of helping the many broken hearts on the campus. Perhaps the man you have gone with steadily for some time has seemed to lose interest very suddenly, or the girl you love has become cold and makes some flimsy excuse when you call for a date. Hundreds of other tragedies occur each day; and, although they seem small to the onlooker, they are very vital to you who suffer through them.

Then, too, there is the question of etiquette problems. You may be invited to your first dinner dance, your first formal, or some other function and are not quite sure what to do, say, or wear. Perhaps some other etiquette question in regard to dress, table manners, or like things has puzzled you for a long time. If so, the "Bereft Hearts" column will answer your question and try to put you at ease.

Questions of importance besides those of etiquette and love affairs often harass the undergraduate. Your career in later life, the time you should spend in studying, outside work, and dating, or how to date, two men or two girls from the same house and get away with it have puzzled many a girl or man. Let Marjorie Jane help you solve your difficulties.

Address all letters to Marjorie Jane, care of the Daily Cardinal. The letters will be answered as soon as possible. Watch for the column on Tuesdays, Thursdays and Sundays.

—Marjorie Jane

Readers' Say-So

EDITOR'S NOTE: The Readers Say-So is maintained in the interests of Daily Cardinal readers who wish to express their opinions on various subjects. Contributions are welcome at all times. Writers are requested to limit their letters to 250 words. Author's names must be signed on the original, although they may be withheld from publication.

ATTENTION COACH FARQUAHR

Editor, The Daily Cardinal:

Coach Farquahr turned out a dandy hockey team for us this year, and we had a lot of fun at his Winter Carnival. Why he should spoil it all by ordering a bunch of bullies to most discourteously herd off skaters from the lower campus last Friday evening is what I fail to understand.

The announcement in The Daily Cardinal that there would be a grand skating party to music announced nothing about the fact that you, Coach Farquahr, intended to "pass the hat" to the skaters who took advantage of the announcement. I should like to know the why and the wherefore!

In view of the fact that there has been a considerable amount of unfavorable criticism about the campus regarding this action, I think it would be most advisable to offer some sort of explanation. No doubt you had some good reason for it. Please tell us all about it. The evening was totally spoiled for a goodly number of students, which entitles them to an explanation.

"29"

A Chancellor's Advice

Chancellor Burnett of the University of Nebraska has been coping with the problems of a somewhat overburdened faculty and under-financed budget with vigor and imagination. He is seeking to inspire, in his faculty, a desire to make the most of its opportunities, and in his students a desire to make the most of their lives. His words are listened to with increasing respect, as he discusses the university, which belongs so closely to all of us, and which holds much of the secret of the future welfare of Nebraska.

In the October number of the Nebraska alumnus Chancellor Burnett begged his faculty members not to shut themselves off in monastic isolation; to have definite and tangible aims, the striving for which would give increased zest to life; to regard teaching as an opportunity for inspiration. And then he said something about students that applies, equally well, to everyone. He remarked:

"I am not so much concerned over the intellectual capacity of a student as I am over his application and his inside driving power. The tragedy of life is not the lack of intelligence, but the inertia that leaves people using only 25 per cent of their powers. One of the constant problems of the instructor is to awaken on the part of the student this consuming desire and determination to make of himself something in the world."

If one were measuring causes of failure, in any line of endeavor from ditch-digging to teaching in college, the principal one of all would probably be this inertia of which Chancellor Burnett speaks. There is another word for it, and that is laziness. Too many people are content with simply "getting by." They are satisfied to do just enough, or a little less than enough if it is not immediately found out. They are willing to go along, with vast powers pent up within their brains and their muscles, and yet they use but a quarter of their strength. In this is the great waste in life, and it is the great cause of defeat. There may be other factors in success, but give a man "inside driving power" and he can bend the other circumstances to his will.

—OMAHA WORLD HERALD

Note: Prof. Bleyer NEVER "mourns" about American newspapers.

Engineers Hear Mead, Paxson

Discuss Boulder Dam Problems and Life of George Washington

Difficulties in the construction of Boulder Dam were described by Prof. D. W. Mead, a member of the Boulder Dam commission, at the banquet of the Wisconsin Engineering club and the Madison Technical club Friday evening in Christ Presbyterian church.

D. W. Mead

The affair was the final event of the two-day annual meeting of the Engineering society. W. L. Miller, president of the Madison Technical club, presided.

Prof. D. W. Mead illustrated his lecture with slides of the dam's location and processes of construction. Recommendations of the commission of which he was a member, with Prof. Warren J. Mead, also of the Wisconsin faculty, were used by congress in drafting Boulder Dam legislation.

Prof. F. L. Paxson, of the department of history, told of the life of George Washington. He discussed the new immigration law, and commented on the variety of nationalities which have entered into the making of America.

W. J. Mead

Prof. L. F. Van Hagan, newly-elected president of the Engineering society, was introduced and gave a short talk, as did Joseph Schwada, Milwaukee city engineer, past president. Music was furnished by the Madison Men's choir, directed by Sigfrid Prager, director of the Civic orchestra and chorus.

Liberal Club to Hold First

Meeting of New Semester

The first meeting of the Liberal club this semester will be held tonight at 7:30 p. m. in the Memorial Union. The room will be announced on the bulletin board in the lobby. Important reports will be presented and the election of a secretary and two members of the executive committee will be held.

Professors Made Members

of Lutheran Brotherhood

Profs. R. B. Anderson and Julius E. Olson of the Scandinavian languages department were voted honorary memberships in the Lutheran Brotherhood of the Bethel Lutheran church Friday night.

Prof. O. Haugen, as well as the other two were made members of a committee for furthering the scheme of making Oct. 9 Lief Erikson day. The committee was appointed by Henry Loftsgordon, president of the brotherhood.

SWIMMING COW

A cow belonging to a farmer near Danville, Va., swam 20 miles during a flood of the Roanoke river.

If the buyer shows eagerness give him plenty of time.

Two Women Turn Chicken Hatchers With Novel Incubator and Six Eggs

Norma Smyers '30 and Evelyn Larson '31 believe in the Easter spirit. In their opinion the Easter spirit includes Easter chicks as well as eggs.

Being students at the university and living in a room at 311 N. Brooks street, they find it inconvenient to keep a hen for the purpose of hatching the chicks. Accordingly they have arranged for an electric light and a radiator to furnish the incubation. The raw material includes six eggs which they brought from Blue River between semesters.

The six eggs individually wrapped in cotton have been placed in a small box on their radiator. When the heat goes off at night an electric bulb is placed in the box. By means of a thermometer the girls constantly regulate the heat between 103 and 104 degrees.

Each of the eggs has an individual name: "Sol," "Oscaromelet," "Hepa-

tica," "Ham," "Peter," and "Scrambled Sam."

All has been calm and quiet in the egg box except for the other day when "Sol" dropped out. He is cracked, but his foster parents still are hopeful that he—or she—will breed true.

The young ladies are still undecided as to what will happen when—and if—the eggs hatch. At least it is certain that one of the chicks is to be given to the farmer who supplied valuable information as to the temperature at which the eggs are to be kept. The others may later go back to Blue River to be prepared for future chicken dinners.

The box in which the eggs are being kept has been labeled "Physiological experiment—Handle With Care."

Miss Smyers is a Letters and Science student, while Miss Larson is enrolled in the home economics course.

Students to Pick Union Council

Campus Boards' Elections Will See Indirect Naming of Members

When undergraduates of the university cast their ballots for the officers of the campus boards they will be choosing the members of the Union council, as such, for the first time. The choice will, of necessity, however, be an indirect one.

Council Governing Body

The Union council, which is the governing body of the Wisconsin Union as provided for in that body's constitution, is composed of the president, the two vice-presidents, the secretary, and the treasurer of the Wisconsin Men's Union, the president and a specially-elected representative of the Women's Self Government association, the president of Keystone, the house director and the steward of the building, all of whom are ex-officio members.

Other members are two faculty members whose terms are to be two years in duration, but to end in different years, and a two-year alumni representative, all chosen and appointed by the president of the university. Another two-year alumni representative is chosen by the governing board of the Alumni association.

Seven New Members

Seven new members are to be elected to Union board, five sophomores and two juniors, which will bring about a change in the personnel of the representatives of the Men's Union, inasmuch as a new set of officers will be elected following the results of the March voting.

A new head is to be selected for the Women's Self Government association and the representative elected by women of the university, including all four classes and graduate students, will be chosen precisely to fill the office on the Union council.

Of the other members the term of one of the faculty representatives and the alumni member chosen by the president will expire. Whether or not they will be reappointed is not known. The president of Keystone, senior women's honorary society, is chosen from the leading women of the junior class.

Madison Editor Flays Lawyer Consoles Frank

"Downtown university presidents" and "associate poolroom coaches" come in for a bit of biting sarcasm in one of the weekly letters of William T. Evjue, editor of the Capital Times to Dr. Glenn Frank.

The note follows:

To Dr. Glenn Frank

(Dear Glenn): We note that you are to have the co-operation of downtown university presidents in the management of the institution over which you preside. This is fine. What would Glenn Thistlethwaite do without the help of the associate poolroom coaches every fall? When a corporation lawyer takes a knife and fork sock at the university on the Gordon affair and then drags in the university's refusal to accept Rockefeller money to fortify his argument it becomes apparent that something beside the unimportant Gordon matter is "eating him." Mr. Rieser doesn't like the way you are running things evidently. Well, there are a lot of people in Wisconsin who wouldn't like to see the university conducted according to the blue prints which would be laid down by the reactionary Mr. Rieser. Meanwhile, Glenn, tough trying to please everybody, eh?

WORLD'S HIGHEST BRIDGE

The Grand Canyon bridge, spanning the Colorado river close to Lee's Ferry, 130 miles north of Flagstaff, Ariz., is said to be the highest highway bridge in the world. It is the only bridge for 600 miles.

Press Club Hears Milwaukee Writer on Feature Work

"How to Write and Sell Feature Articles for Newspapers" will be the subject of a talk by Lloyd Gladfelter '26, of the Milwaukee Journal News Bureau, at the meeting of the Press club Thursday at 7:30 p. m. in the Assembly room of the Memorial Union. Election of officers will be held prior to the address. Gladfelter is a graduate in journalism from this university and has ever since been connected with the Milwaukee Journal.

Scott Goes South; Morton Lectures in Bank Economics

Prof. W. C. Morton, of the economics department, is lecturing in banking economics during the absence of Prof. W. A. Scott, who is sojourning in Florida with his wife.

Prof. Scott's other advanced classes are doing special work during his absence that corresponds to the work that they had been doing in their regular sessions.

The absent professor is expected to be back at his regular post by the end of the spring recess.

Lecture on Jewish Drama

Will Be Given Feb. 27

Philip Bregstone of Chicago will lecture on "The Yiddish Drama" at the Hillel foundation Wednesday evening, Feb. 27. Bregstone is a student of literature and is acquainted with the most prominent figures in the literary world. The lecture is free to the public.

Alumnus Picked for Federal Job

J. M. Jansky '17 Given Post on Hoover's Radio Commission

The appointment of J. M. Jansky '17, of the University of Minnesota, to a post on the federal radio commission, was approved by the senate interstate commerce commission Friday on the condition that the senate accepts a section in the pending bill which fixes the expiration of the terms of radio commissioners on Feb. 23, 1930.

Arthur Batcheller, of Massachusetts, was also appointed at the same time. The settlement agreed upon gives the men one year terms instead of the longer periods for which they were nominated.

A capital correspondent has ventured the guess that President Coolidge did not disturb the vacation of President-elect Hoover in asking his advice with regard to re-appointing the commissioners. His old custom of turning to the secretary of commerce was followed, but this time, it was to Mr. Whiting that he turned.

Mr. Whiting, in turn, is supposed to have asked W. D. Terrel, chief radio supervisor, for advice, which happened to be that Jansky and Batcheller be appointed. So the ultimate result was the same as though Mr. Hoover had been consulted, since Mr. Terrel is also his chief radio man.

Temperatures of 50 and 60 below zero have been reported at the North Pole.

WORLD of SOCIETY

Dorothy Bolton and Richard Ratcliff Married Saturday

The wedding of Miss Dorothy Bolton '27, daughter of Mr. and Mrs. Percival H. J. Bolton, Janesville, and Richard Updegraff Ratcliff '27, son of Mr. and Mrs. H. H. Ratcliff, 10 West Gorham street, Madison, took place Saturday afternoon, Feb. 23, in Janesville.

The ceremony was performed in the First Congregational church, and the candlelight and baskets of spring flowers and lilies added a suggestion of early spring to the decorations.

The bride wore a gown of white moire and a veil of tulle, adorned with lilies of the valley. She carried a sheaf of calla lilies. Bridesmaids were Helen Kober, Gwendolyn Jacobs and Esther Johnson, sorority sisters of the bride who attended the university here. Their gowns of taffeta in pastel tints blended with the flower decorations.

Ushers were Roy Ragatz, Lowell Frautschi, Leslie Kindschi, and Irving Tressler, all of Madison.

Mr. and Mrs. Ratcliff are leaving Thursday on the Leviathan for a wedding journey of three or four months in Europe. They will make their home in Madison. The bride is a member of Alpha Delta Pi sorority and the bridegroom belongs to Theta Chi fraternity.

Announce Wedding of Jennelyn L. Fadness and Ralph Timmons '26

Miss Jennelyn L. Fadness, daughter of Mr. and Mrs. A. E. Fadness, 409 West Johnson street, and Ralph D. Timmons '26, 119 South Blair street, were married Saturday evening by the Rev. A. J. Soldan.

Attendants were Miss Ragna Finhart and Duffy Peterson.

Following a short trip, the couple will be at home in Madison. Mr. Timmons is a son of Mr. and Mrs. L. D. Timmons, Monroe.

Deans at Convention

Deans F. Louise Nardin and Zoe Bayliss returned Monday from Cleveland, O., where they attended the National Conference of Deans of Women. Miss Bayliss, who was one of the speakers, discussed "The Personal Record Card in the Office of the Dean of Women."

Several Entertain for Mrs. Frederic A. Ogg

Farewell entertainments are being given for Mrs. Frederic A. Ogg, who will be in the east and in England during the next few months.

Twelve guests will attend a dinner given by Mr. and Mrs. Joel Stebbins at their home Wednesday evening in honor of Mr. and Mrs. Ogg.

Mrs. Chester Lloyd Jones was hostess at a luncheon Saturday for Mrs. Ogg.

Luncheons were recently given for Mrs. Ogg by Mrs. W. R. Sharp and Mrs. J. P. Harris.

Lange-Gruenewald

A marriage of interest in Madison is that of Miss Linda Lange, daughter of Mr. and Mrs. Frederick Lange, Oshkosh, to Arthur H. Gruenewald. The wedding took place on Feb. 10. Mr. Gruenewald, who is an attorney in Oshkosh, was a student in the university Law school.

Alpha Gamma Delta

Lola Kjellgren, Rockford, and Ruth Evans, Sun Prairie, were guests at the Alpha Gamma Delta house this week-end. Elizabeth Ehrler '29, Eleanor Cross '30, Doris Schomburg '30, and Gertrude Maruer '29 spent the week-end in Milwaukee. Harriet Vance '30, and Sarah Loomans '30 visited in Racine. Marie Hoff '30 and Marian Suits '32 went to Chicago. Marion Hoegberg '30 visited her home in Rockford.

Northwestern Held First Athletic Fete After Badger Game

Evanston, Ill.—The first athletic informal of 1929 was given in Patten gymnasium from 9 to 12 p. m. Saturday evening after the Wisconsin Northwestern game.

The Northwestern Troubadors, an eight-piece orchestra made its debut in campus social activities at this event.

This orchestra has been playing at the Sherman hotel and Coconut Grove.

The interscholastic meet will be financed this year with the money obtained from the athletic informals.

UNIVERSITY CLUB

The University club of Madison is entertaining with a dinner dance Friday evening. Mr. S. M. McElvain is in charge of the arrangements.

Working His Way Through School; Drops Studies in Favor of Business

"Come right up! The bell doesn't ring anyway."

The invitation confronts you at the foot of the stairs. As you walk up, lovely ladies smile at you from either side. At the top, a devil suddenly appears, leering wickedly. You push open a door at the side—and you are in a sign painting establishment.

It is called "Signs of Wallace." The youthful proprietor—who was a U. W. student up until last June—has ingeniously arranged his "9x12" workshop so that it also serves as supply room, display room, and reception room.

There are two huge easels, placed side by side, which together have been named "The Weasel." Below are shelves and drawers and cubby holes; another row of shelves lines one side of the room. All are filled with paints, brushes, papers, half-completed signs, and other articles unidentified.

Signs of all types and varieties line the walls. A portrait of Gilda Gray faces one of Herbert Hoover. Many of the posters are familiar. They advertise University Players' productions, University dances, and other University events.

Tacked to the ceiling—there is no other place for them—are Harvard, Chicago, Michigan, Washington, Princeton, and two Wisconsin university banners.

At the time of this invasion, Mr. Wallace was at work on a poster for a Madison church. He talked while he painted, describing his start while attending the university.

"I had a hard time convincing the Madison business men that I was old enough to do business," he said. "So I tried raising a mustache."

Evidently it worked, for the business grew to such an extent that he was forced to drop his studies. He began doing other work also—gold-leaf lettering, designs, dance programs, and charts. All of the Bascom

theater posters are done now by Mr. Wallace.

I began to leave and he called me back.

"Don't forget to mention my wife," he said. "She's the business end of the concern. She does all the book-keeping and office work—all the work I hate to do."

And so I mention Mrs. Wallace.

University Professors

Write for Encyclopedia

Five university professors have been listed as contributors to the encyclopedia of social sciences, started in 1924, the first volume of which will appear shortly. Professors Carl Russell Fish, Benjamin H. Hibbard, Joseph Jastrow, Alexander Meiklejohn and Pitman B. Potter have contributed papers. Prof. Potter's is on "Annexation."

Rabbi Sums Up Judaism in Talk

Landman Speaks at Wayland Club on Jewish Religion Sunday

Judaism, according to Rabbi Solomon Landman in his address to the Wayland club at the Baptist church Sunday evening, is a religion having no set dogmas or articles of faith, but expressing above all, faith in God as the ideal of morality.

Jewish religious leaders have always differed in opinion; no one creed has ever been accepted. There is, however, among the Jews, a basic belief in the unity of God. The heart of Judaism is its code of ethics which, in its social aspects, hopes for the realization of an age of perfect social justice.

Rabbi Hillel, the man after whom the Hillel Foundation has been named, summed up the religion with the following statement:

"If I am not for myself, who is for me? And if I am for myself alone, who am I? If not now, when?"

According to Rabbi Landman's interpretation, the first question is a challenge to individual morality. The second question is a statement of the social responsibility of the Jew. The third question implies that Judaism is a religion whose ideals are to be achieved in this world rather than in the hereafter.

The complexity of Judaism is the result of the combination of nationalism and religion. Judaism was the religion of the Jews; when their government was inadequate, their religion was the centrifugal force which held them together.

Rabbi Landman summarized Judaism as follows: "Judaism, far from offering a system of beliefs and ceremonies fixed for all time, is as multifarious and manifold in its aspects as life itself. It comprises all phases and characteristics of both a national and a world religion."

National Council May Adopt Gordon's Music Credit Plan

The Wisconsin plan for credit in music in the state high schools will be presented by Edgar B. Gordon, of the university school of music, and will be considered by members of the National Research Council of Music Education, during the annual meeting of the group in Cleveland, Feb. 25 and 26.

Mr. Gordon, who is one of the 18 members of the organization, is presenting the Wisconsin plan for credit in the hope that it will be adopted as a national standard by the council.

Mr. Gordon is chairman of the committees on music courses, and on chamber music in secondary schools. Although the national council meets but annually, each of the committees carries on its work continuously throughout the year.

Other members of the council include Peter W. Dykema, formerly of Madison, and now connected with the Teachers' college at Columbia; Will Earhart, director of music in Pittsburgh; Russell V. Morgan, director of music in the Cleveland schools; and George Gartlan, director of music in the Greater New York city schools.

Four Members of Cardinal Staff Receive Promotion

Four members of the Daily Cardinal editorial staff were given promotions at the meeting of the Cardinal Board of Control held Monday. William P. Steven was made news editor; Herbert Tschudy, first assistant news editor; Carlos Quirino, assistant news editor; and Julia Carr, assistant woman's editor.

Coon to Tell Women's Club of Modern Music Thursday

Prof. L. A. Coon of the School of Music will speak on "Music Today and Modernism" at the Woman's club, Thursday at 2:30 in the Woman's building. The talk will be illustrated with piano and phonograph music.

COMPLETE CAMPUS COVERAGE

By The Rambler

By THE RAMBLER

Week-end rambles about the Memorial Union bring many strange incidents to light. There's the good samaritan who spent Sunday morning in the Rathskeller. He saw a hungry squirrel searching for food in the snow in back of the building. Taking the initiative he bought a package of salted peanuts, urged the furry animal over to the window, and then gave it the contents of his purchase. A half hour later it was still nibbling. And they think that students are only here to dissipate.

Later in the day Bill Wilcox '32 treated the audience to a hearing of his private phonograph records. Bill's records and the Union's electrola made an excellent combine. One thing, however, the wax discs were reproductions of every known variety of blues, stomps, and low-downs. The only means he lacked were those of the movietone and vitaphone.

The Union elevator went in for some new antics Sunday. One can always trust this reliable performer for a truly extraordinary and different stunt every few days. This time it refused to stop at any floor but the second. If you pressed the button for it from any floor in the building it would come down and then rebound upward to the second floor. And if you took the courage, as the Rambler did, to enter it at the second floor and press the button for another floor, it would go there and then just as quickly whisk you back to the starting place. And if this sounds improbable the Union engineer can verify it.

Here's what the cloak room man told me: Two students came at different times insisting that they had left their hats there. Later they returned to apologize for having made mistakes. Talk of absent-minded professors.

One man thought it was a cleaning establishment, leaving his clothes to be brushed.

And then there's the prize story. Saturday night, after the "Snow Ball" a young chap was turning the Union high and low to find his vest which he was certain he had removed in the building. It was still missing at last reports.

According to snow-shovellers at the Union, there is just one architectural detail that is incorrect. The steps should have been built 500 miles south.

Modern slang may be expressive enough when used among men who are familiar with its meaning, but when brought before the more learned men of the university, it is rejected as being "vague."

Such was the case with Prof. Warner Taylor, head of the freshman English department, when a theme was submitted to him containing the phrase, "big moment."

At the next class, the theme was returned, with the comment "vague" after the "big moment" phrase.

Jansky Arranges for Electric Metermen to Meet

Prof. C. M. Jansky of the University extension division has been commissioned to work out a detailed program for the ninth annual school for electric metermen to be held in Madison April 5 to 13. The school will be held in connection with the University extension division and the Engineering school.

Prof. Paxson to Talk to Women About Washington

Prof. Frederic L. Paxson of the history department will address the Madison Business and Professional Women's club on "George Washington" at their February meeting, to be held at the Lorraine hotel Thursday.

Now Finds Sad World Young Again

DREAMS THAT COME TRUE

I am sitting alone in my room tonight,
Dreaming and smoking my old cob pipe;

I smoke and dream, and dream until I get a plot, and get a thrill.

I am in the writing game, you see;
And the pipe-dreams softly bring to me Scenes of carnage where the red blood ran,

And the dreams all come from a bright Blue can.

It's just a can of Edgeworth-cut—
Fragrant as flowers—sweet as a nut;
Of all Fate's kindly gifts to man
Is this gift of dreams from the bright Blue can.

I sit me down at eve, to smoke;
And soon am wrapped in a magic cloak;
It has banished trouble, it has banished pain,
And the sad old world is young again.

J. H. Rockwell

Botanist Has Ship Garden

Governmental Collector Now Bound for Tropics; Carries Specimens on Yacht

Miami, Fla.—A floating flower conservatory is now on its way to the Windward Islands for a four months' plant gathering expedition.

Aboard his private yacht, the Uto-wana, Allison V. Armour, of New York, collaborator with the United States department of agriculture, is slipping southward in quest of rare plant specimens. The plant collector indulges his hobby in a manner that would bankrupt any but a person of means.

Has Spacious Yacht

The botanist purchased his 1,000-ton vessel in 1924 and converted it to a spacious private yacht, probably the largest ever to visit Miami.

The boat is 230 feet long, overall, has an extreme breadth of 34 feet and draws 11 feet, 6 inches when fully loaded. It is powered by two 350-horsepower Atlas Diesel engines, giving a cruising speed of 10 knots an hour. The fuel capacity is 272 tons of high grade distillate fuel oil, allowing the ship a cruising radius of 12,000 miles or six months without touching port.

Can Transport Rare Plants

The unusual feature is the plant propagation room that has been made in the former cargo hold of the boat. This compartment enables the owner to transport rare tropical plants to northern botanical gardens without injury to the specimens.

Armour, since purchasing the yacht, has cruised the Baltic, North Sea, European, African and Asiatic waters and has completely circumnavigated the globe in his travels. Captain James H. Williams is in command of the crew of 32 men.

Carnegie Men Book

Flying Band for Prom

Pittsburgh—Negotiations are being completed for securing America's first flying orchestra for the Carnegie Men's Junior Prom, at the Pittsburgh Country club March 8. The flying orchestra is the first of its kind in the world. The group flies from place to place, and plays at some of the finest affairs in the country. It will make an unusually long stop in Pittsburgh, staying after the Prom to play at the Aviation show the following week.

Modern Literature Club

Hold Meeting Thursday

Miss Charlotte R. Wood of the University English department will lead the Modern Literature Study group at its second February meeting Thursday. The club will discuss "Long Lance" by Chief Buffalo Child Long Lance, and "Red Bird" by William Ellery Leonard at the meeting.

Chemical Engineers Hear

A. P. Colburn, 7:15 Tonight

Allan P. Colburn, Chemical engineering fellow, will address the regular meeting of the American Institute of Chemical Engineers at 7:15 tonight. The meeting is to be held in the auditorium of the chemical engineering building.

Bulletin Board

This column is for the use of all organizations and university staff members who wish to reach large groups readily. No charge is made for notices. Notices may be brought to the editorial offices in the Memorial Union, or phoned to B. 250, before 5 p. m. of the day preceding publication.

BADGER STAFF

The 1930 Badger wants three Sophomore men to work on the business staff of the yearbook.

LIBERAL CLUB

A regular meeting of the Liberal club will be held on Tuesday, Feb. 26, at 7:30 p. m. in the Memorial Union.

A. I. E. E.

The A. I. E. E. Student Branch will hold a banquet at 6:30 p. m. Thursday, Feb. 28, in the Old Madison room at the Union. The banquet will be followed by reports on the eastern and western inspection trips, with open discussion on the trips. Also the election of the A. I. E. E. nominee for St. Pat. The banquet is open to all interested E. E. students at 75 cents per, payable at the door. Phone B. 4603 for reservations.

POETRY GROUP

The Y. W. Sophomore poetry discussion group will meet Tuesday in the Windsor room at Lathrop hall at 12:45. The discussion is to be on "Whimsical Poetry."

PYTHIA TRYOUTS

Pythia Literary Society will hold tryouts on Wednesday from 4:30 to 5:30 in the Windsor room in Lathrop hall and also from 4:30 to 5:30 Thursday in Lathrop parlors.

GERMAN CLUB

A meeting of the German club will be held Thursday, Feb. 28, in Lathrop parlors. The meeting will consist of a song fest besides the regular program. German, Swiss, and Austrian songs will be sung in which all present will participate in mass singing. Students should bring along German song books and musical instruments if they have any. All visitors are welcome.

A. I. C. H. E.

Regular meeting of the A. I. C. H. E. at 7:15 tonight in the auditorium of the Chemical Engineering building. Allan P. Colburn, chemical engineering fellow, will speak.

FRESHMAN FROLIC

Committee chairmen of the Freshman Frolic will meet with the Freshman Executive committee at 3:30 Tuesday afternoon in the Memorial Union.

Wisconsin Cows Will Go on Tour

Second Annual Good-Will Tour Will Leave Madison Monday

Holstein, Guernsey, and Brown Swiss cows owned by the University of Wisconsin will form an important section of the train that will carry Wisconsin's second annual good-will tour to the southern and eastern states Monday. Reuben James, '29, will accompany the cattle as herdsman under the direction of Arlie Mucks. Prof. George M. Briggs, assistant state leader of county agricultural representatives, will be one of the party. Other passengers will be Solomon Levitan, state treasurer; W. A. Duffy, Wisconsin commissioner of agriculture; and J. A. Ving, commissioner of marketing. The party will reach Washington, March 4, and will witness the inauguration of President-elect Herbert Hoover. Vice-president elect Charles Curtis, has been invited to attend the banquet of which all members of the group will partake at the Mayflower hotel.

AN ANNOUNCEMENT of unusual interest

The selection of a *Lee Court* service organization for the University of Wisconsin is announced by *Lee Court & Co.* The following members of the student body have affiliated themselves as our representatives:

John F. Doyle

Harold E. Foster

Roswell E. Brown

Charles W. Crewe

John A. Paul

Herbert H. Thomsen

Harold R. Larson

James L. Clarke, Jr.

This announcement is of vital importance to the college man who gives to his personal appearance the consideration which it deserves. *Lee Court* Appointments will bring tailor-made correctness in a new and convenient way. Our staff will be pleased to explain in detail the features of this new service. Headquarters 630 N. Lake St.

LEE COURT APPOINTMENTS

The Daily Cardinal will carry further information concerning Lee Court Appointments
