The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

As a service to you...

HERE'S THE PFIZER PRODUCT INFORMATION MOST FREQUENTLY REQUESTED BY NURSES

Methods of administration, range of dosage, possible reactions, what to expect and what to look for—everything you want to know about Pfizer products is epitomized in the Pfizer hospital data sheets. If you don't already have them, use the coupon below to send for a complete set as described below. You'll find them useful, informative... perhaps invaluable.
