[Price Five Cents.]

SIEGE OF PEKIN. UNIVERSITY GLEE CLUBS. PRIZE OFFER--AT FULLER OPERA HOUSE SATURDAY EVENING.

CREW SUBSCRIPTIONS

LISTS BEING CIRCULATED BY THIS YEAR'S CANDIDATES.

Complete Canvass of Students—Men Working in Pair Oared Gigs on the Catfish.

Subscription lists for the support of this year's crews have been placed in the hands of the crew candidates and are being circulated. A complete canvass of the student body is being made and everybody will have an opportunity to assist in maintaining the crew department and sending crews east to represent Wisconsin at Poughkeepsie next June against Pennsylvania, Cornell, Columbia, Syracuse and Georgetown.

The lists will be called in at the end of this week. The support of the student body must be ascertained before the alumni are approached and the support of the latter will depend largely upon the willingness with which the students subscribe.

'Varsity on Open Water.

The 'Varsity crew rowed on the Catfish yesterday afternoon for the first time this year. Fourteen men were out and comparatively light work was done. In spite of the inclement weather quite a good showing was made by the various candidates.

The men worked in the pair-oared gigs with a comparatively short slide. The 'Varsity will row on the Catfish only two days each week, Tuesday and Thursday. On the other days they will take light work in the gymnasium.

The following men are out for the 'Varsity crew: Levisse, Gaffin, Steece, Murphy, Trevarthen, Hotchkiss, Singley, Armstrong, Tounsur, Werner, Moffatt, Dean, Gibson and Stevenson.

The Freshman crew is out on the Catfish every day except Tuesdays and Thursdays. Much improvement is shown in the Freshmen's work lately. They are rounding out into good form and are getting onto the stroke in good shape.

Work Begun on New Running Track.

Work on the laying of the new indoor track was commenced yesterday. The track will be built on the third floor of the gymnasium around the baseball cage. It will be built of wood, four feet wide, covered with cork and will be about fourteen laps to the mile. The banking will be sufficient to allow of fast work and will be considerably faster than either of the present indoor tracks. Only men trying for the track team will be allowed to use the track during training hours so as to prevent crowding.

The economical collection has received a number of samples illustrating the first stage in the manufacture of pearl buttons. The samples consist of "tips" and "buts," and the saws used to cut them. They were sent by Mr. Monti of Genoa, Wis. The pearl-button industry along the Mississippi is becoming very important.

Dr. O. G. Libby went to Oshkosh to-day, where he will deliver a lecture on birds before the Farmers' Institute. He will return to-morrow.

Emand Chopitea, '04, will leave for his home in South America in a week.

AWARD HOVEN MEDALS.

Frank Shroeder and C. A. Dutton Best Judges of Stock.

The Hoven gold and silver medals which are given annually to students of the Short Course for stock judging have been awarded and will be presented next Saturday.

The medals were awarded this year to the students showing the greatest degree of efficiency in judging fat stock. The \$100 gold medal was won by Frank Shroeder of Kewaunee and the \$20 silver medal was awarded to C. A. Dutton of Centerville.

The inscription on the reverse side of the gold medal is as follows: greatest proficiency in judging fat cattle, sheep and swine, by the Short Course students of the University of Wisconsin. The block test governed in making this award. On the face side the following inscription is given: "The Hoven medal, 1901, given annually by M. J. Hoven, Madison, Wisconsin."

The inscriptions on the silver medal are about the same. The silver medal is awarded to the student of second greatest proficiency in stock judging.

A great deal of enthusiasm and rivalry was shown on the part of the class and the competition was very close. The students and directors of the Short Course feel very grateful to Mayor Hoven for the deep interest manifested by him in their work, and for the many useful hints and suggestions given along the various lines of study.

LECTURE ON THE SIEMENS.

Dr. Burgess to Continue Series on Famous Engineers.

The next lecture in the series on the lives and works of famous engineers will be given on Friday, March 22, at 3 p. m. in the auditorium of the engineering building. The lecture will be delivered by Professor C. F. Burgess upon the subject of Werner and William Siemens.

This lecture will deal with the lives and works of the Siemens brothers. The name Siemens is one which is prominently connected with various lines of modern engineering progress. Werner and William Siemens were pioneers in almost every line of electrical development, and the latter is known especially for his work on the metallurgy of iron and steel, and on the production and utilization of gaseous fuel. He has done much for the abatement of the smoke nuisance in our large cities, and it is stated that had he lived a few years longer the dense London fogs would now be a thing of the past.

All are invited. J. B. Johnson, Dean College of Engineering.

Choral Union Soloists.

Definite arrangements have already been made with the soloists who will take part in the May festival to be given by the Choral Union. Miss Meredith, soprano, E. C. Towne, tenor, and Dr. Carl Dufft, bass, all of New York, and Miss Mabelle Crawford, contralto of Chicago, have been secured. All of these artists are of the very first rank. Miss Meredith is considered quite equal to Mrs. Wilson, who sang at the last concert. Dr. Carl Dufft is easily a leader among the oratorio basses of the country and indeed has no rival. Rosenbecker's Chicago Symphony Orchestra has been secured. It consists of fifty men.

LAI D TO REST

FUNERAL SERVICES OVER LATE PROFESSOR WHITNEY.

Dr. Updike Speaks of Sterling Character of Deceased—Large Attendance of Faculty and Students.

The funeral services of the late Professor Whitney took place this afternoon from the family residence on East Gorham street. The services were conducted by Rev. E. G. Updike. The University Glee Club Quartette rendered two selections, "Art Thou Weary" and "Saviour Comfort Me." Many flowers had been received at the house from the large number of the friends and relatives of the deceased. The Western Society of Engineers of which Professor Whitney was vice president sent a telegram of condolence and also sent flowers. The society has several members in Madison who were in attendance at the funeral. Many members of the Faculty of the University and not a few students attended the services.

Rev. Updike spoke of the worthy character of the deceased. He spoke of Professor Whitney's unselfishness and generosity. The professor's interest and sympathies were very broad. All good causes found some place in his heart. His love went out to all men. There was something in the man greater than his profession. He was a great deal more than a teacher or an engineer. He had a powerful influence for good on all who came in contact with him. He was truly a man of character. There was something in his life more than what he said and what he did. The strong qualities which go to make up his character are not buried in his grave. He lives truly in the tendencies which he started in the world. His life was more powerful than words can express.

The honorary pall bearers were Gov. Robert M. La Follette, Acting President E. A. Birge, Judge J. H. Carpenter, Prof. John M. Olin, Prof. Alexander Kerr and B. J. Stevens. The active bearers were Dean J. B. Johnson and Professors Turneaure, Leonard S. Smith, Storm Bull, E. R. Maurer and D. C. Jackson. The interment took place at Forest Hill cemetery.

Prof. Bruce on Egypt and Soudan.

The lecture in the public course on Contemporary Politics will be given to-morrow at five, in the Law Building by Professor Bruce. Subject, "Egypt and the Soudan."

Dean Henry left last evening for Oshkosh where he will deliver a talk at the Wisconsin Farmers' Institute and Mid-winter Fair, now being held at that city. Professor F. H. King will also attend and give a talk on "The Silo and Silage up to Date." At the session this evening Dr. O. G. Libby will give a stereopticon lecture on "Our Birds." At the sessions tomorrow Sup't Geo. McKerrow will talk on "The Horse" and Professor H. L. Russell will talk on the "Latest Developments in Tuberculosis."

J. and L. Burns were called to their home in Watertown, New York, last night by a telegram saying that their mother was dying.

Everybody go to the Woodward lecture Saturday night.

MRS. WOODWARD'S LECTURE.

Promises to Furnish an Excellent Entertainment.

The lecture to be given by Mrs. Woodward Saturday evening for the benefit of the Athletic Association promises to be an excellent attraction and will doubtless receive the patronage it deserves.

Mrs. Woodward is a lecturer of exceptional ability and has the advantage of having been present in person at the places she describes. Mrs. Woodward was in Pekin during the siege last summer and while there she took about one hundred pictures which will be shown as stereopticon views Saturday evening.

Among the views will be those of native Christians, international gun in action, Minister Conger and family, Claud McDonnell, Senior Favre, barricades on the wall, the camp and the British legation compound, barricades across the canal, wounded soldiers, hospital corps, Pekin donkey-carts, Chinese women with bound feet, bell tower, English Nordenfeldt gun and lads firing, and numerous war pictures.

Mrs. Woodward will tell of what she saw and heard in China, describing various points of interest about Pekin, and will give a description of her experiences while in the besieged city.

The Men's Glee Club will sing one selection at the entertainment as will also the Girls' Glee Club and the University Quartette.

Tickets are on sale at Sexton and O'Neil's, the College Book Store and the Co-op and can also be obtained of various students about the University. These can be reserved Thursday afternoon at the Theatre. Prices will be seventy-five, fifty and twenty-five cents.

TERMS WITH IOWA.

Result of Conference With Iowa's Representative.

Arrangements for the debate with Iowa have been completed. P. Tschärner returned yesterday from Prairie du Chien where he met C. C. Converse of Iowa and drew up a contract for two years. The debate this year is to be on May 10th at Madison. Next year the place will be selected by Iowa.

The agreement provides that the judges mark on argument only. The time allowed each speaker will be as follows: first speaker twenty minutes, second speaker twenty-two minutes, last speaker on affirmative twenty-five minutes, last speaker on negative twenty-six minutes and the affirmative will be allowed a four minutes closing rebuttal.

The debaters for Wisconsin are W. E. Smith, P. Tschärner, and A. V. Smith, and they have been working hard to make it a success. Iowa has chosen F. W. Moore, F. S. Merriam and C. C. Converse. The question chosen is: Should the United States construct the Nicaraguan Canal?

The debate promises to be hotly contested; and, as it is the only inter-collegiate debate Wisconsin has this year, her representatives are all the more anxious to win.

Lecture on Cicero.

Dr. Showerman will lecture on Cicero tomorrow afternoon at 2:30 in room 64, U. H. The lecture will be accompanied by readings from the author, and will be illustrated with stereopticon views.

The stereopticon views for Saturday evening are the only pictures of their kind in the world.

Crew Subscriptions.

The lists which are being circulated by the crew candidates for the crew fund will be called in at the end of the week and the management is anxious to know just how much money can be counted on from the students before they make any plans for the race at Poughkeepsie. The response of the business men of the state will be much in proportion to the willingness of the students to support aquatics at the University. Of course it will be impossible to expect much of the people in Wisconsin, if the undergraduates themselves, who have a direct interest in the crews, have opportunities to watch their work, and generally get a chance to view an exhibition race each year, are unwilling to give anything in their support. The crews promise to be as fast this year as in the past, and their eastern trip is dependent on the support of the students.

Lecture on China.

The lecture by Mrs. Woodward Saturday evening should be of interest to all people of Madison. The lecturer will tell of scenes and customs which were photographed by her. During the siege of Peking, the foreigners underwent many severe trials and as Mrs. Woodward has the reputation of being a highly interesting speaker she should be welcomed to Madison by a large audience. The odd customs and peculiarities of the Chinese people can best be learned from speakers who are perfectly familiar with the country. The recent trouble in the orient adds to the interest of this lecture and every one should be well informed on the conditions as they now are in the east. China will probably become the centre of the world's activity before many centuries and the old time supremacy of the western peoples is likely to be overthrown by these formerly ex-

clusive people of the orient. The lecture should afford an excellent opportunity to learn the way and manners in which the other half of the world lives.

OFF FOR GOLD FIELDS.

Francis H. Crosby One of the Distinguished Party.

Francis H. Crosby, son of Prof. Crosby of the Racine high school, is one of a notable party of gold seekers which has just started for the Klondike. His companions are the newly appointed executive of the northwest territory, Gov. Ross of Ottawa; Charles Rhodes, brother of Cecil Rhodes of south African fame, who gets credit or is blamed as being direct instigator of the boer war; H. M. Coleman, the brother-in-law of Mrs. Crosby and consequently an uncle of Francis, and Wm. Webster of the New York Insurance company. Francis Crosby is 23 years of age and graduated last June from the Wisconsin University at Madison. He is a bright and adventurous young man whose ambition it has been for several years to try his luck in the Klondike gold fields. Coleman, his uncle, hails from Chicago, but has been in Alaska for several years and is considered very wealthy as the result of his work in the arctic gold mines. He owns valuable claims on Dominion creek, Clear creek and Eldorado, about forty miles from Dawson City, which latter place the party expects to reach in the course of three weeks. From there they will travel with horses and sleds to the mines. Coleman employs some 20 men at wages of \$10 a day. Work is not steady, however, and the price for board is \$3.50 per day. The mines are now closed for the winter and Dawson City is crowded with idle gold diggers in a vain search for something to do to keep soul and body together. Coleman came back from the diggings last fall in order to secure special machinery with which to carry on his search for the yellow metal. It is his intention to establish young Crosby as his manager, as he intends to return to the states soon.

Secretary.

Y. W. C. A.

The meeting Friday afternoon will be led by Miss Florence Allen. All girls are invited.

The University of Michigan has this year established a course for those who intend to go into business similar in the main to our School of Commerce here. It differs, however, in that it is not made a separate school like ours, but is only a department of the regular Letters and Science course. Students do not begin to specialize in this work until the end of the sophomore year. The course then takes three years, two as undergraduates and the third as a fifth year to their course. The chemical and physics departments of the University are helping them in every way they can, and the work is going on very favorably.

In order to assist the local faculty the University of Michigan has employed special lecturers from abroad and Professor Jones was one of these. He began his series on February 11th and finished them last week. Fifteen lectures were given, five each week, Professor Jones spending alternate weeks at Ann Arbor and Madison. He had to assist him the one hundred maps of the Industries of the United States which won the Grand Prize at the Paris Exposition.

Percy McGeorge the famous bicyclist has been engaged to train Pennsylvania's bicycle squad.

Pennsylvania is to have a new laboratory of Physics, the gift of an unknown alumnus.

AMATEUR SPORTS.

Annual Championship Meeting of the
A. A. U.

The annual outdoor track and field
championship meeting of the Metropol-
itan Athletic Association of the Amateur
Athletic Union will be held on Friday
and Saturday, July 26 and 27, 1901, in
the magnificent Stadium on the
grounds of the Pan-American Expo-
sition.

The Stadium is the largest and most
beautiful arena for sports ever erected
in America. It covers a plot 678½
by 450½ feet, and has a quarter-mile
track with a width of 20 feet, and
ground area ample for the require-
ments of all the events contemplated.
The seating capacity is 12,000.

The championship committee is
composed as follows: Chairman, John
J. Dixon; Thomas F. O'Brien, C. Sul-
livan, Bartow S. Weeks, J. P. Boyle,
M. Flynn, Star A. C.

The Handicap Events will be run
off on the first day as follows:

Track events:—50 yards run, 300
yards run, 600 yards run, 1,000 yards
run, four miles run, 220 yards low
hurdle race.

Field events:—Putting 16lb. shot,
throwing 16-lb. hammer, throwing the
discus, running high jump.

On the second or Championship day
the following scratch events will be
run off:

Track events:—100 yards run, 220
yards run, 440 yards run, 880 yards
run, one mile run, three miles run,
120 yards high hurdle race, 220 yards
low hurdle race.

Field events:—Putting the 16-lb.
shot, throwing the 16-lb. hammer,
throwing the 56-lb. weight, throwing
the discus, running broad jump, run-
ning high jump, pole vault.

The regulation metropolitan associa-
tion championship gold die Medal
will be given to the winner, silver to
the second, and bronze to the third, in
all scratch events; also gold, silver
and bronze medals in handicap events.

The scratch events are open only to
registered athletes holding member-
ship in the clubs of the Metropolitan
Association. The handicap events are
open to all registered athletes. An
entrance fee of one dollar must ac-
company each entry for each event.
Entries close with Jas. E. Sullivan,
Box 611, New York City, on July 15,
1901.

No entry will be received excepting
upon the official entry blank and the
right to reject any entry is reserved.

Madison Steam Laundry, 111 King
street, Telephone 815. Prices Reason-
able. Work first class, goods delivered
promptly.

Madison Steam Laundry.

Spring is almost here, and you have
done nothing with that bicycle you
put aside last fall, you will need it
soon, and will then regret that you did
not take it to Wm. J. Park Co., 113
State St., and have it cleaned and
put in shape for the season. There
is time yet before the rush. We will
call for it, phone 460.

ANNOUNCEMENT.

We wish to announce to our many
old and new student friends a fine as-
sortment of iron and brass beds,
dresses and chiffoniers, book cases
and desks, rockers and chairs, etc.,
at prices to suit everyone. Give us a
call and let us show you over our as-
sortment.

Haswell and Scholl, 11 and 13 South
Pinckney street.

ALFORD BROS., STEAM LAUNDRY.

It may not be an act of charity, but
it certainly is not an act of economy
to patronize fourth grade laundries. If
you are looking out for "Number
One" you should certainly patronize
us. 113 and 115 N. Carroll street.
Phone 172.

Adapted for Banquets.

Such is the One Minute Coffee
House No. 2. Curtains to shut out
the gaze of the multitude while the
loaves and fishes are distributed.
Any time between 10 p. m. and 4:10 a.
m. you can hold a jollification meet-
ing. Eat and be merry.

THE HUB

Our Specially Tailored Ready-to-wear Spring Clothing

is now in stock. These garments are exclusive patterns, made specially for
us with stiffened hair lined fronts, to insure their retaining shape, and cut
in the new military style. We have both in suits and coats and vests from
\$10 to \$20. Especially designed for young men. An investigation will
convince you that there is no need of paying double for custom made.

Nobby Footwear

In shoes it has been our aim
and study to carry in stock
all the latest creations the
season offers in young men's
styles at popular prices, \$3
to \$5. We think we have
succeeded. We illustrate one
of the sweetest styles of the
famous Stacy, Adams & Co
make. We show many Ox
fords.
