Gentlemen:-

It is with pride that we present here-
with a descriptive folder of Crocker "Nu-Seat"
quality office chairs.

There is always a great satisfaction in
bringing out something new--in designing and pre-
paring an article which will further the efficiency
and comfort of mankind.

The Crocker Chair Company has again
created and added to their already large line, a
type of office chair that will stand up under
long, severe use, and give comfort to the user.
Incidentally they are offered at a price which
makes them, with their unsurpassed quality, avail-
able to all.

To fully appreciate these new chairs,
you must see them. Samples are carried on our
floor and we invite you to inspect them at your
earliest opportunity.

Respectfully yours,

The outstanding feature of this group of chairs is the seat construction. Built up with curled hair and layer cotton on a shaped eleven ply veneer bottom makes it indestructible.

The back is also new in design; soft and shaped to fit the body.

For the person who sits at a desk, one of these chairs will make a long day's work easier

Can be had in solid walnut or birch with walnut or mahogany finish.
