The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

## Retrieval Extraordinaire.

Only the Roth Net™ enables complete endoscopic retrieval with the delicate touch needed to preserve polyp specimens, yet the strength and security necessary for foreign body extraction.

Because every specimen is precious, and every foreign body critical, trust the improved Roth Net for complete capture and retrieval.

Our patented "butterfly" net technology:

- > Facilitates complete polyp retrieval
- > Shortens procedure time
- > Delivers uncompromised specimens for histopathologic analysis
- > Provides simple and secure foreign body retrieval
