The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

The Daily Cardinal.

UNIVERSITY OF WISCONSIN.

VOL. IV.—No. 1.]

MADISON, WIS., WEDNESDAY, SEPTEMBER 12, 1894.

[PRICE THREE CENTS.]

VISITORS WELL SATISFIED.

THEY MAKE A FLATTERING REPORT TO THE REGENTS.

GROWTH AND PROSPERITY IN ALL DEPARTMENTS.

Some Courses Need Enlarging—New Library Building Suggested.

The board of state university visitors has made its report to the board of regents of the University of Wisconsin for the year ending 1894. The committee which drew up the report, G. M. Woodward, of La Crosse being the chairman, says:

"We are impressed with the many unmistakable evidences of growth and prosperity apparent on every hand, and we heartily endorse the strong commendation of the university by the president and board of regents in their reports.

"In the report of last year it was noticed that linguistic and literary studies were not equal in power and influence to those studies classed as practical and scientific. In this there has now been a decided improvement. We desire to say that the recently established civic-historical course has proven to be very attractive and has fully justified its establishment."

The sub-committee on mechanics and engineering submits evidence that an engineering building for class rooms and laboratories is greatly needed and recommends the construction of an adequate building at once.

For the college of agriculture it is reported that during the past year 173 students have been in attendance. There is every indication of a good class next year, thirteen already having registered in the dairy course. About 350 students have received dairy instruction within the past five years—one half of this number at least are at work in the factories of the state. The engagement of a dairy professor is urged. The college of agriculture now occupies three buildings. Horticulture is fast becoming a special feature. The small fruit resources of Wisconsin are beginning to be appreciated by the people. The shipping of fruits to the country northwest offers great possibilities. The board urges the necessity of a dairy herd and also the acquirement of more land for the university farm. In regard to marsh lands, the board thinks it is possible that the marsh tracts owned by the state could be artificially drained and maintained as dry land. If possible, the experiment station should undertake investigations in this line.

The law college is reported to be in a flourishing condition, showing a steady increase in attendance. An addition to the instructional force is recommended.

The school of pharmacy is now doing good work, and it is predicted that it will do still better in the future under the present management.

The department of political science and history is found to be in good condition. The total number of persons in the various classes is 798. Six professors and three fellows give class

instructions, and five specialists are engaged to deliver lectures. The teaching force is inadequate for the number of students, and additional professors are asked for. The work of university extension has shown great vitality. The classes are numerous and well attended. Economics, English literature, history and bacteriology have proven the most popular courses. A new plan of extension is proposed by the secretary—going from town to town and organizing circles.

Under the head of library and library hall the immediate construction of a new building is urged. The library now numbers 170,000 volumes, and there is not room for all the books in the present building.

Upon accredited high schools a sub-committee reports that there are now upon the list ninety-three, of which eight fit students for all of the university courses, twenty for all of the courses except ancient classical, fifteen for all of the courses except classical and English and all the rest except general science and engineering. There are 181 free high schools in the state, which leaves eighty-eight unaccredited. The explanation is found that sixty-six high schools have only a three years' course, while the university accepts no school with less than a four years' course. In mechanical engineering the number of graduates during the past ten years has been forty-seven. The board of regents is urged to make a new list of accredited high schools. More attention is asked for the Greek language.

The university grounds are found to be in good condition, but the state of the buildings is not so good, and the board recommends that they all be thoroughly overhauled.

The committee on military and physical culture failed to make a report, but the board endorses the very favorable report on these departments made by Thomas M. Blackstock one year ago.

The board of visitors is as follows: Charles E. Dyer, D. J. Whittemore, Rush Winslow, B. B. Northrop, Lucius Fairchild, E. C. Wisall, Thomas M. Blackstock, Clara W. Everett, G. M. Woodward, W. H. Upham, Clara B. Flett and John R. Matthews.

FACULTY MEETING.

The faculty held a short meeting yesterday afternoon. As all of the professors had not returned very little business of importance was transacted. All the athletic matters were laid over until next Monday. A committee was appointed to procure offices for the new professors.

UNIVERSITY INCOME REDUCED.

At the August meeting of the board of regents it was found that the income of the university will be reduced by about \$18,000 for the coming year. This is caused by the decreased valuation of the taxable property in the state.

STUDENT DROWNED.

G. H. Simcox, '97, was drowned on Lake Winnebago, June 24. He entered the university in the general science course last fall and completed his freshman year at the university. This is the first member that '97 has lost by death.

WORK IN THE GYMNASIUM.

AN INTERVIEW WITH DR. ELSOM ON THE SUBJECT.

WORK REQUIRED OF FRESHMEN AND SOPHOMORES.

Requirements in Regard to the Use of the Gymnasium.

Dr. Elsom, the director of the gymnasium, was seen by a Cardinal reporter in regard to the gymnastic work for the coming year. The room in the southeast tower has been fitted up for the use of the director and it was here that the reporter found him.

"Work in the gymnasium," said the doctor, "will be required of the young men of the freshman and sophomore classes. They will take a minimum amount of work twice a week. This work will be small at first but will be increased from time to time. This work will be in classes under the direction of Mr. Everett, the gymnasium instructor. Classes will also be formed in the junior and senior classes and probably among the law students. The work in the military department will probably be decreased so that the actual amount of required work will not be much greater than it was before.

"Those students who use the gymnasium will be required to pay an annual fee of two dollars. The rental of the lockers will be one dollar a year, with key deposit of fifty cents. The students will first procure a card from me showing what fees they are required to pay and then make the payment to the secretary of the board of regents. It is desired that all students who intend to use the gymnasium make appointments for a physical examination as soon as possible. This examination will be required of every one before work in the gymnasium is begun. The student will fill out a card before his examination, giving data for use in prescribing exercise. I will then make out a card to be taken to Mr. Everett, who will make out a list of exercises. It will take considerable time to go through all the examinations so the appointments should be made at once."

Dr. Elsom then showed the room where the examinations will be made. It contains apparatus for measuring the body, a spirometer to test the capacity of the lungs and a new apparatus for testing the strength of the muscles. The movement of the handles of this machine force a lever against an air cushion and a column of mercury registers the force with which the lever is moved. The machine can be changed so as to test the strength of all the different muscles. All of this data will be recorded and kept in the records of the gymnasium. It will, however, be regarded as strictly private.

"Before a student can play on any of the athletic teams he will be required to pass this physical examination. Frequently a student has some heart or lung trouble which he does not suspect but which would make it

dangerous for him to engage in violent exercise. It will be the policy of this department to assist the captains of the athletic teams in every way possible, but, of course, the detail work will be left to the coaches. The training of the track team, however, will be largely under the direction of Mr. Everett and myself as all the work can be carried on in the gymnasium.

"It has been thought best to place all of the apparatus on the second floor. The room is very well suited for gymnastic work and it is also better to have everything together so that everyone can be under the direction of the instructor. The third floor will be used for the special training of the teams, for the practice of the baseball men and for various games. In all probability the large front door of the main hall will be kept closed as the gallery will be open to visitors at all times. Access to the gymnasium floor will be had by the stairway from the locker room.

"After my appointment as director of the gymnasium here I spent some time in the east, visiting the college gymnasiums at Yale, Harvard and Amherst, and the athletic clubs at New York, Brooklyn and Montreal. The Yale gymnasium is the only one which can be compared with this one. It is more elaborately finished on the inside but the exterior is not as imposing as this, nor has it as much floor space for exercise.

"There will be a regulation suit prescribed for use in the gymnasium and those students who are not already provided with athletic suits are advised to obtain this one. The only restriction, however, will be that all must wear rubber soled shoes. The regulation suit will consist of a blue worsted shirt and long Turner trousers. I regard the long trousers as best for gymnasium work in the winter on account of the liability to changes of temperature and drafts."

Dr. Elsom seemed much interested in the gymnasium and both he and his assistant, Mr. Everett, will be quite popular with the students.

—Harry Noyes, '96, will not return to the university this year.

—Walter T. Arndt, of the Cardinal, arrived in town last night.

—A. C. Wilkinson, formerly with '94, and U. of Chicago, '94, will enter the junior law class.

—Among those who will not return to the university this fall is Harry Hamilton, of the class of '95.

—Sidney Robinson Kennedy, ex-'97, and Robert P. Stair, ex-'96, are at the Delta Tau lodge.

—Ohnsted, the old football player, is back for a law course, and intends to ornament the gridiron again.

—Miss Bessie Gernon, ex-'97, leaves in about a week for the east where she intends to attend school at Ogontz.

—Dr. W. S. Marshall, instructor in biology, and Miss Clara Hughes, were married at Lima, Ohio, shortly after commencement.

Miss Mina Stone and Mr. J. H. Gabriel were married last evening at Reedsburg. Miss Stone graduated from the university with the class of '85 and has taught in Sparta and Madison since that time. Mr. Gabriel was in the class of '87, graduating from the law school two years later. He is at present practicing law in Denver, Col.

The Daily Cardinal.

PUBLISHED DAILY (SUNDAYS EXCEPTED)
DURING THE COLLEGE YEAR.

BY THE STUDENTS OF THE
UNIVERSITY OF WISCONSIN

Subscription price \$1.00 per term, \$2.50 per year
in advance.

THE CARDINAL cordially solicits contributions
from all members of the University.

All communications must be accompanied by
the name and address of the writer and must be
received at our office not later than 8:30 p. m. of
the day before they are intended to appear.

Address all matter intended for publication to
the editor-in-chief. All business communications
should be sent to the business manager.

Address,

The Daily Cardinal,

Madison, Wis.

Room 7, Democrat Building.

W. T. ARNDT, '96, Editor-in-chief.
J. B. SANBORN, '96, Managing Editor.
E. S. HANSON, '97, Asst-Managing Editor.
E. S. PARK, '97, Exchange Editor.

GENERAL EDITORS.

C. C. CASE, '95. F. M. CROWLEY, '96.
W. G. BLEYER, '96. H. A. SAWYER, '96.
F. E. BUMP, '96. G. F. DOWNER, '97.
F. V. CORNISH, '96, Business Manager.
J. F. DOHERTY, '95, Asst-Business Manager.

It is proposed that the boys start
a petition to share the gymnasium
with the dear girls. It is proposed.

One of the improvements which
should come is more chairs for the
Ladies' hall reception room. Owing to
the absurdly rigid moral tone of the
hall, it is not considered good form
to sit on the girls' laps or vice versa,
and the floor is hard.

The first social event of any promi-
nence in the present year will be the
reception given by the Christian asso-
ciations to the students at Library
hall next Saturday evening. Every
one should turn out at this and make
it a success. It is a great place to get
acquainted and to freshmen especially
it gives an excellent opportunity to
get acquainted with their own class-
mates which by the way they may find
of use to them in the near future.

The Aegis, the literary organ of the
university, goes to press today. It
will contain the usual amount of stor-
ies, poems, editorials, locals, etc. The
students should not forget the old ex-
cellencies of the paper and the steady
improvement during the past year,
and under the present head, Mr. Frank-
lin Bump, ex-editor-in-chief of this
sheet, the Aegis ought to reach the
climax of readableness. The fresh-
men especially are urged to subscribe
as the Aegis is an invaluable paper to
any interested in the literary societies,
or in seeing a creditable 'varsity in-
stitution flourish.

We want to call the attention of all
new students in this our first number
to a university organization which
should receive their undivided support
from the beginning. That is the Co-
operative association. Founded by the
students and run by the students it
is essentially a students' association.

Our advice is for all new students
to join it immediately. It can save
you many dollars on books, stationery
and athletic goods and you will have
the additional satisfaction of knowing
that you are lending your support to
a worthy cause.

To all students new and old—wel-
come; to the members of the class of
'98 thrice welcome. That their begin-
nings may be auspicious and their fu-
ture bright is the earnest wish of the
Cardinal. We have not much advice

to give them. They must all learn
from experience as we have done, but
a few suggestions may not be out of
place here. Don't let this new position
in which you perhaps now for the first
time find yourself, overcome you.

Perhaps you have never before been
your own master,—don't let this new
idea of freedom carry you away so
completely that you will leave all your
past behind you and begin anew.
There is much that is good in the old
life you have left. Don't forget the last
handshake and wise injunctions of
your father nor the tearful prayer of
your mother. They came from the
heart and must not be despised. Be
careful in choosing your companions.
Don't think that you have found a
new friend in every person or group
of persons who rush you around and
make a good deal of you in these early
days. You will find out in time that
their designs are not always so unself-
ish as they may seem now. Go slow
and pick your acquaintances carefully.
It will pay in the end.

If you have been in the habit of at-
tending church or week-day religious
services in your home don't give it up
now. The habit is a good one and can
do you no harm while as for giving it
up we cannot say as much.

If you have made high resolves live
up to them. Don't let the sneers of
companions scare you from what you
know to be right. If you are sure you
are on the right track follow it up
"though the heavens fall."

Above all remember that you are
here for work and the sooner you get
down to it the better. First impres-
sions go a good way with all of us and
it will be much easier to keep the good
reputation you now have than to make
one again after you have once lost it.

Work hard this fall term for it is
during the first few months that you
will acquire, if you ever do, habits of
study.

And so we say again don't let the
glamour of this new life dazzle you.
Do the work that is laid out for you
well and earnestly and a successful
university course is assured you.

THE ARCHON.

The first issue of the Archon, a
weekly paper published by the stu-
dents of the Madison high school, ap-
peared yesterday. It is a neat paper
of the same size as the Cardinal and
contains a number of articles of inter-
est to the high school students. The
history of the high school is given and
the prospects for their football team
discussed. A number of good editorials
and a number of personals complete
the paper.

—Prof. Van Hise will probably not
return from Europe until Oct. 1st.

CARDINAL POINTS.

A rash saying—Willie has the small-
pox.

Out of the ordinary run—a 102 yard
dash.

Judging from the looks of Ladies'
hall the peach crop this year will be
excellent.

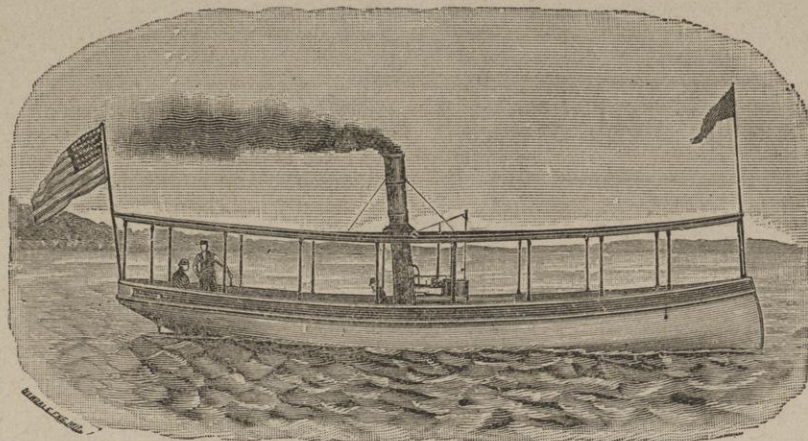

Any one who can afford to subscribe
to the Cardinal and does not, is mean
enough to steal the Lord's Supper and
then go back for the table cloth.

NEW MEN OF THE FACULTY.

INSTRUCTORS WHO BEGIN WORK THIS YEAR.

CHANGES AND ADDITIONS IN SEVERAL DEPARTMENTS.

New Physical Director, Commandant, and Others.

C. N. GREGORY.

Charles Noble Gregory was born at Unadilla, Otsego county, N. Y., August 27th, 1851. His father was Jared C. Gregory, who was a regent of the university from 1869 to 1881. He came to Madison in 1858 and received his education in the schools of the city and at the University of Wisconsin. He graduated from the university in 1871, taking the Latin salutary. After graduation he studied law in the office of Gregory and Pinney and took the degree of LL. B. in 1872. He then became a member of the firm of Gregory, Pinney & Gregory, and practiced law with that firm and its successors until his election to the faculty. He was an alderman of Madison in 1882-85 and a member of the board of education in 1883. He served as president of the Wisconsin alumni for one year. In 1882 he succeeded his father as curator of the State Historical society. He has been retained for some years by the St. Paul railway company and among the important cases with which he has been connected are: The Ford will case, the Dean will case and the French murder case. He has been secretary of the Historical and Political Science association since its organization, and a paper which he read before the association, entitled "The Corrupt Use of Money in Politics," has been published and attracted considerable notice. Mr. Gregory will be professor of law and associate dean of the law school and by the terms of his election gives up all practice except in the supreme court of Wisconsin. He is a member of the Rho Kappa Upsilon fraternity.

H. H. EVERETT.

H. H. Everett, instructor in physical culture, was born at Chambersburg, Pa., Sept. 11th, 1866. He studied at the University of Chicago and while there played in the foot ball and base ball teams and won several medals in track athletics. He was also a member of the Union athletic club of Chicago. After he left the university he was assistant at the Chicago Y. M. C. A. gymnasium and afterward at the Casino Pastime academy. He then went to Manistee, Mich., as director of the Olympian club gymnasium. The next year he joined the U. S. life saving service at Michigan City, Ind., in order to gain a practical knowledge of boating and swimming. Congress has presented him with a medal for bravery in life saving, having saved eight lives while at the life saving station and seven since. He then did considerable sparring and wrestling, his only defeat being by Evan Lewis. He was director of the Elgin gymnasium for the three years and a half before he came here. He has studied medicine at the Chicago Medical college and under the best Chicago physicians and has also studied the Swedish massage system.

J. E. ELSOM.

J. E. Elsom, the professor of physical culture and director of the gymnasium, graduated from the Virginia medical college in 1886. About the time of his graduation he also passed the state

medical examination. After some hospital practice he went to a physical training school in Springfield, Mass. From there he went to Galveston, Texas, to take charge of the gymnasium there. He remained there two years and was then made director of the Y. M. C. A. gymnasium at Minneapolis, one of the largest in the northwest, where he remained until his election as professor of physical culture at Wisconsin. After his election he went east and spent some time in the larger gymnasiums. Dr. Elsom has done considerable work as a gymnast and athlete and is especially good at the pole vault. He is a member of the American association for the advancement of physical education.

E. H. FARRINGTON.

E. H. Farrington, associate professor of dairy husbandry, was born in Penobscot county, Maine. He was educated at the Maine State Agricultural college, taking special work in chemistry, and graduating in 1881. He took graduate work at the Yale Scientific school for one year and remained at New Haven as chemist of the Connecticut experimental station for six years. He was next a chemist at the Massachusetts Institute of Technology and then at the government experimental station. He has been instructor in dairying at the Illinois experimental station. During the world's fair he was chief chemist of the World's Columbian Exposition dairy test.

NEW COMMANDANT.

Lieutenant Edward Chynoweth, of the 17th infantry has been detailed as military instructor at the university. Lieutenant Chynoweth is a brother of Regent H. W. Chynoweth. He attended the university but did not complete his course, entering West Point instead and graduating in 1878. He has been stationed at Fort Russell near Cheyenne, Wyoming.

Lieut. McGrath, who has been here for the past three years, expects to rejoin his troop, the fourth cavalry, at Walla Walla, Washington. Lieut. McGrath has filled the position with great ability and carried with him the respect and good wishes of the students.

PROSPECTS FOR FOOTBALL.

With the return of the students active football training will be begun. It is too early yet to attempt to say much about the work but the schedule is practically completed and is as follows: Chicago Athletic Association at Madison Oct. 6.

Milwaukee Athletic Association at Milwaukee Oct. 13.

Purdue at Lafayette Oct. 15.

Beloit at Beloit Oct. 20.

U. of C. at Chicago Oct. 27.

Northwestern at Madison Nov. 29.

Between Oct. 27 and Thanksgiving three big games will be played at Madison with the U. of Ia., U. of Minn., and Lake Forest university in the order named, but the exact dates are not yet determined owing to the delay of the Minnesota management in settling a date. When this date is fixed the others will be quickly arranged.

The home games will be played at Randall Field and it is more than likely that the team will also practice there, though the lower campus may be used if it can be put in condition. The coach has not yet been secured but Manager Myers and Capt. Lyman have several men in view, any one of whom can be secured when the time comes. Training table will be started in about a week. The prospects are a little uncertain as yet. All of last year's team except the tackles will be in college this fall and the new class should certainly furnish some good material.

—Miss Grace Hopkins, '94, will teach at Elkhorn during the coming year.
—Royal B. Hart, of the class of '90, married Miss Nellie Weirell, at Madison, June 20th.
—Miss Helen Steensland, '89, and Dr. S. A. Nielson, of Madison, were married on June 29th.
—The engagement of Louis D. Sumner, '93, and Miss Catherine Clawson, '94, has been announced.
—W. D. Hiestand, registrar of the university, and Miss Francis Richards were married on June 26th.
—H. M. Haskell, '93, now principal of the Oregon high school, and Miss Jennie M. Piper, of Pipersville, were married Aug. 29.
—Among the members of the faculty who spent the vacation abroad were: Prof. Haskins, Prof. Comstock, Prof. Kerr and Mr. Pyre.

—A number of photographs from Prof. Salisbury of the geological formations in New Jersey have been received by the department of geology.
—F. B. Wynne and N. B. Arnold, of law '95, and E. M. Hooker, formerly with '94, were among those who passed the state bar examination this summer.

—George O. Buckholz, of Janesville, Porter C. Peck, of Sioux Falls, S. D., and George Chittenden, of Ripon, all of the incoming class, are staying at the Delta Tau Delta house.

—Students—We want your patronage.
W. J. Park & Son.

—All students are cordially invited to call at the "Cook Shoe Store," 13 South Pinckney street, and inspect the latest styles in fall and winter footwear.

—We have all the text books and supplies you will need.
W. J. Park & Sons.

—Students all go to the Gem Restaurant. Meals at all hours. Open day and night. Students are always welcome.

—Students will find it to their advantage to examine the large and elegant line of footwear carried by C. S. Gill & Co., 13 South Pinckney street, before making their purchases.

WANTED.

A good salesman to travel in a Specialty Line and canvass Country Trade in this state. A party with some experience preferred. Reference required. Address Lock Box 415.

ATTENTION, STUDENTS.

The new clothing store at 228 State street with an entire new stock of clothing and gent's furnishing goods, is the headquarters for the students. Special rates will be given to all of them. Call and convince yourself.
Chas. J. Speth.

—R. G. Norton, watchmaker and jeweler, 110 Monona avenue.

—The Wisconsin academy furnishes instruction for students in those branches in which candidates for the university are lacking.

—J. W. Ball, confectionery, milkshake, soda-water, and lunch counter, 436 State street.

—Chas. Spette, one who has formerly had dealing with university students, is now located in pleasant quarters on State street.

—Dr. Everett has moved his office from the Fuller opera house block to the Pioneer (Vilas) block where he will be glad to see his old friends.

—Students will find the best cigars, cigarettes, confectionery and stationery at F. J. Riley's, 221 State street. Give him a chance to please you.

—The College Book Store has an immense stock of second-hand books this fall. You will do well to call and look them over.

SPECIAL ANNOUNCEMENT.

All regular university exercises on Thursday, Sept. 13, from 12 to 2 o'clock are hereby suspended and all students of all colleges, departments and courses are summoned to meet at Library hall, to hear an address by the president of the university.
C. K. Adams, President.

SINGERS, ATTENTION!!

There are vacancies to be filled in every part of the U. W. Glee club. Applicants are requested to apply to Prof. Parker, room 15, or to Prof. Sired, room, 5 Ladies' hall.
G. H. Greenbank, Manager.
