### W. B. Saunders

#### 1 Nathan & Oski HEMATOLOGY OF INFANCY AND CHILDHOOD, 2nd Edition

A thorough revision of the world's only definitive reference on blood dyscrasias, this authoritative reference has been completely reorganized into two volumes. Much new material has been added to this second edition: many clinically-oriented chapters; expanded coverage of genetics, immunology, anemia, coagulation and cancer; and a valuable appendix on blood values in fetal life, infancy and childhood. Diagnosis and treatment of each disease is fully detailed and references accompany each chapter.

Edited by **David G. Nathan**, MD, Chief, Division of Hematology and Oncology, Children's Hospital Medical Center and Sidney Farber Cancer Institute; Pediatrician-in-Chief, Sidney Farber Cancer Institute; **Robert A. Stranhan** Professor of Pediatrics, Harvard Medical School, Boston; and **Frank A. Oski**, MD, Prof. and Chairman, Dept. of Pediatrics, State Univ. of New York, Upstate Medical Center College of Medicine, Syracuse. With more than 55 contributors. Two volume set totaling about 1696 pp. About 353 illus. Advance copies available now. 2-vol set about \$130.00. **Order #6678-7.**

#### 2 Hurwitz CLINICAL PEDIATRIC DERMATOLOGY

The first definitive reference in pediatric dermatology, Hurwitz includes over 470 color illustrations. Each chapter in this book is a thorough review of one classification of skin disorders, including for each: pathogenesis, differential diagnosis, histopathology, therapy and pertinent annotated references. New and unusual disorders are discussed, as well as the more commonly known cutaneous diseases. An introduction explains terms and procedures used in dermatology for the non-specialist reader.

By **Sidney Hurwitz**, MD, Assoc. Clin. Prof., Pediatrics and Dermatology, Yale Univ. School of Medicine. About 496 pp., 474 illus. Ready Feb. 1981. About \$60.00. **Order #4872-X.**

#### 3 Feigin & Cherry TEXTBOOK OF PEDIATRIC INFECTIOUS DISEASE

This new reference covers all the bases, from the common cold to Legionnaires' Disease. The text is direct and well-organized, and includes contributions from many of the country's leading pediatricians. Emphasized subjects include host-parasite relationships and the pathogenesis of infectious diseases; infections of specific organ systems; infections with specific microorganisms; aids to diagnosis; infection control and prevention; and chemotherapy. A special section on animal sources of disease features a fifteen page table of carriers, and the illnesses they transmit.

By **Ralph D. Feigin**, MD, J.S. Abercrombie Professor and Chairman, Department of Pediatrics, Baylor College of Medicine; Physician-in-Chief, Texas Children's Hospital, Texas Medical Center, Houston; and **James D. Cherry**, MD, Prof. of Pediatrics and Chief, Division of Infectious Diseases, Department of Pediatrics, Center for the Health Sciences, University of California School of Medicine, Los Angeles. About 1,728 pp., 392 illus. Ready March 1981. About \$95.00. **Order #3586-5.**

#### 4 Hughes & Buescher PEDIATRIC PROCEDURES 2nd Edition

Here's detailed information on common pediatric procedures in a clear, succinct format. You'll find easy-to-read coverage on invasive procedures required for diagnosis as well as those used in treatment, and non-invasive procedures applicable to both well and sick children. Expanded sections on procedures related to upper airway and respiratory tract, and on umbilical artery and vein cannulation, are included.

By **Walter T. Hughes**, MD, Eudowood Professor of Pediatric Infectious Diseases; and **E. Stephen Buescher**, MD, Dept. of Pediatrics, both of The Johns Hopkins University School of Medicine, Baltimore, MD. 1980. 367 pp., 232 illus. \$24.95. **Order #4826-6.**

#### 5 Holder & Ashcraft PEDIATRIC SURGERY

The effective replacement for our classic text on pediatric surgery by Gross, this volume emphasizes more common pediatric surgical disorders and those procedures the general surgeon is likely to perform on children. The text progresses inclusively from simple to very complex procedures; its wide-ranging coverage serves both the technical needs of the surgeon as well as the reference needs of the pediatrician, internist and family practitioner.

By **Thomas M. Holder**, MD, and **Keith W. Ashcraft**, MD, both of the Children's Mercy Hospital, Kansas City, MO. 1,166 pp., 751 ill. Oct. 1980. \$68.00. **Order #4737-5.**
