University Aids Development of Choral Speaking

Study Medium For New Art in Poetry Offered by Extension Division

A Wisconsin contribution to the development of a relatively new art—choral speaking—is made through a revised and enlarged edition of a 44-page pamphlet as a "study aid," prepared by Georgia M. Corp and issued by the department of debating and public discussion, University of Wisconsin extension division.

The information assembled relates to the history and value of choral speaking, conductor and choir, choice of materials, and other aspects, and includes a new section on choric drama. A large list of books, pamphlets, and articles is given for students of the subject.

The movement for choral speaking, still new in America, is defined as one to "bring poetry back to the people, to encourage men and women to speak together the best in poetry just as through the ages they have sung together the beautiful, vital, and enduring things in music."

Marjorie Gullan, of the Speech Institute, London, is the originator of the art in Great Britain, and has made several American visits as an exponent of its possibilities. As a result, choral speaking has been greatly stimulated in the United States. In 1935 Miss Gullan visited Madison, and under the auspices of Prof. Gertrude Johnson, of the speech department, gave a 10-day course on the University campus. She has referred to this study aid as "a signal service to the choral speaking movement."

In the United States the movement has extended chiefly to the high schools, colleges, and universities, although verse-speaking choirs in churches and women's clubs have been organized in many parts of the country. The Extension division of the University of Wisconsin has furthered it through a class offered for four successive years since 1934 in its Dramatic and Speech institute, where the course is taught by Mrs. Corp.

Wisconsin Music Directors Attend U. W. Music Clinic

More than 150 directors and supervisors of music from high schools throughout Wisconsin and eight other midwestern states are attending the eighth annual Music Clinic now in session at the University of Wisconsin.

Unique in that it is the largest music "short course" of its kind held anywhere in the country, the clinic, which is sponsored annually by the State University's school of music, is held each year for three weeks during the University's summer school. The clinic this year will come to a close on July 31. The clinic offers directors and supervisors of music a complete course of practical music study with credits to apply on a music degree or certificate.

Besides Wisconsin, the eight other states from which those attending the clinic this year come are: Michigan, Illinois, Minnesota, Nevada, Iowa, Kansas, Utah, and Oklahoma. Besides the 150 directors and supervisors of music studying in the clinic this year, 515 high school student musicians from 116 schools are enrolled in band, orchestra, and chorus work.

Wisconsin citizens attending the clinic are as follows:

Thomas D. Bass, **Waupun**; Joseph Bauschka, **Antigo**; Ovid C. Benson, **Drummond**; Einar M. Cannelin, **Superior**; Howard G. Chase, **Weyauwega**; Eugene D. Cole, **Jefferson**; Eleanor A. Cross, **Waupun**; Norman V. Dellmann, **Milwaukee**; Iris D. DeVoe, **Blanchardville**; Alex P. Enna, **DePere**; Elvira W. Erdman, **Sheboygan**; Charles M. Faulhaber, **Lake Geneva**;

William C. Fuller, **Oshkosh**; Elisa E. Glaser, **Monroe**; Ben Goldberg, **Stevens Point**; George C. Goodman, **Washington**; Theodore F. Groves, **Madison**; Eva F. Haggemann, **Ft Atkinson**; F. H. Hanneman, **Mt. Horeb**; Dorothy Heinze, **Portage**; John A. Hughes, **Monticello**; Mary M. Hussa, **Bangor**; Robert H. Johnson, **Platteville**; William C. Johnson, **Spring Green**;

Sara E. Jones, **Ashland**; Marion Jordalen, **Deerfield**; Paul E. Kinney, **Washburn**; Harvey E. Krueger, **Milwaukee**; Paul H. Kundert, **Norwalk**; Ruben A. Lehman, **Ripon**; Joseph Liska Jr., **Wisconsin Rapids**; Matilda M. Matzke, **Madison**; Ted L. Mesang, **Ashland**; Rudolph A. Meyer, **West Salem**; Viola A. Norton, **New Glarus**; Lois M. Paulson, **Argyle**;

Milo G. Phelps, **Rio**; Don Radmer, **Milwaukee**; Ray Schultz, **Whitehaven**; Sister M. Celeste Hurley, **Madison**; John H. Spencer, **Balsam Lake**; Vilas E. Wensel, **Black River Falls**; Clarence L. Wold, **Winneconne**; Benjamin L. Zipse, **Walworth**; Edith L. Zipse, **Walworth**.

Badger Grad Heads Missouri Celebration

E. A. Trowbridge, a graduate of the University of Wisconsin in 1906, and now head of the animal husbandry department at the college of agriculture at the University of Missouri, has recently been named chairman of a special committee to plan the cele-

bration of the 50th anniversary of the Missouri Agricultural Experiment Station. Trowbridge was raised in Buffalo county at Mondovi.

In addition to the salary waiver restorations, the budget contains increases in rates of pay totaling \$102,660 for 687 of the employees. Of these employees, 433 are on the non-instructional staff, while 254 are on the instructional staff.

The work done thus far has made it possible to describe the behavior

of this factor when subjected to various treatments. It is readily soluble in water, but not in acetone. It is absorbed on charcoal at neutral pH. It is readily destroyed by heat in autoclaving.

Thus far, no extensive study has been made on the distribution of this factor, but it has been found in considerable quantities in yeast and fresh milk. Cereal grains seem to be very deficient in it.

In view of the fact that this fac-

THE UNIVERSITY OF WISCONSIN PRESS BULLETIN

The purpose of this Bulletin is to bring to the newspapers of Wisconsin and their readers—the people of the state—pertinent news and information concerning their State University. The University Press Bureau will gladly furnish any special news or feature stories to editors. Address letters to R. H. Foss, editor, Press Bureau, University of Wisconsin.

Journalism Summer Enrollment Increases

With 175 students enrolled in its six summer session courses, the school of journalism of the University of Wisconsin reports a slight increase over the enrollment of 165 during the 1936 summer session.

The most popular course is supervision of student publications, in which 39 are enrolled. Feature writing has 35 students, and short story writing enrolls 27. Some 27 are enrolled in the course in interpreting foreign news, and 24 are studying public opinion and the press. In the course in teaching reporting and copy-reading, 23 are doing their practice work on the Daily Cardinal and the Madison newspapers.

The summer journalism staff consists of Prof. Grant M. Hyde, chairman, Prof. Helen M. Patterson, and Prof. Robert M. Neal.

Regents Approve Research Program at Wisconsin U.

A research program in both the social and natural sciences, involving the expenditure of \$211,542 which will provide for 161 different research investigations in a wide variety of fields, was approved for the coming year by the University of Wisconsin board of regents at its recent meeting.

Two of the research investigations are to be conducted on a large scale during the 1937-38 year. They are a school broadcasting study, to be made on a fund of \$17,042 furnished by the General Education board, and a cancer research program to be carried on under the Bowman-McArdle cancer fund of \$20,000.

The school broadcasting study will be made to determine through demonstration and evaluation the place of radio in the classroom, and to devise methods for its most effective use. The cancer research program for 1937-38 is a continuation of the cancer studies carried on for some years at the State University. This program has been greatly enhanced during the past few years because of increased funds resulting from individual gifts made to the University for this research.

Of the total amount of \$211,542 voted for Graduate school research allotments for the year, \$50,000 comes from the state to support 43 different special investigations; \$117,000 comes from the Wisconsin Alumni Research foundation to support 113 different research studies; \$7,500 comes from the research foundation to support three post-doctorate fellowships; while the remainder of \$37,042 is for the school broadcasting study and the cancer research.

Regents Adopt Budget; Restore Salary Waivers

The University of Wisconsin board of regents at its recent meeting adopted a budget for the fiscal year 1937-38 which restores salary waivers amounting to a total of \$466,341 to the State University's employees.

The 1937-38 budget, as recommended by Pres. C. A. Dykstra and unanimously approved by the regents, totals \$8,934,731 for the year, which represents an increase of about \$1,022,000 over the funds spent by the University last year.

Of the total budget for the coming year, only \$3,334,440 is scheduled to come from the state under the state budget "B" which was adopted by the state legislature. This represents an increase for 1937-38 of about \$634,000 in aid from the state for the University.

In adopting the 1937-38 budget, the regents in effect deserted the salary waiver system which has been in effect on all University salaries since 1931, although all University salaries in excess of \$3,000 are still reduced in accordance with the following schedule:

On the first \$3,000 of each salary—no cut.

On the next \$1,000 or fraction—cut 15 per cent.

On the next \$1,000 or fraction—cut 20 per cent.

On the part over \$5,000—cut 25 per cent.

Under this schedule, salary waivers on all salaries throughout the University up to and including \$3,000 are completely restored, and there is no cut on the first \$3,000 of any salary. Restoration of the salary waivers under the new schedule, however, amounts to increases for all of the University's 2700 employees, many of whom are on a part-time basis only.

Of the total of 2700 employees, about 2300 earn less than \$3,000 a year, and thus under the new schedule they obtain complete salary waiver restoration. Only about 400 of the employees earn over \$3,000 per year and will be subjected to the cuts.

In addition to the salary waiver restorations, the budget contains increases in rates of pay totaling \$102,660 for 687 of the employees. Of these employees, 433 are on the non-instructional staff, while 254 are on the instructional staff.

The work done thus far has made it possible to describe the behavior

650 Enroll In Music Clinic at State University

Many from Wisconsin Homes Chosen on Cast for Big Musical Production

More than 500 high school students of music, and several hundred directors and supervisors of music, from 116 schools scattered throughout Wisconsin, are enrolled in the eighth annual music clinic which is now in session at the University of Wisconsin.

Enrollment in this summer's clinic, which continues for three weeks, coming to a close on July 31, represents an increase of 175 students over last year. Of the total of 515 high school musicians enrolled in the clinic, about 370 registered for band work, while the remainder are enrolled in orchestra and chorus work.

Sponsored annually during the Wisconsin summer session, the clinic offers high school music students membership in either the "All-State" band, orchestra, or chorus, and study under outstanding professional music teachers and conductors.

One of the features of the music clinic this summer will be a trip to Milwaukee, to be made by the clinic band of 370 pieces and the clinic marimba orchestra of 25 pieces, next Saturday, July 24, to play on the final program of the Milwaukee Mid-Summer Festival. The band and orchestra will travel to Milwaukee by special train and it is estimated that they will play before about 100,000 persons who are expected to crowd Milwaukee's Juneau park for the final festival program.

"The Lass of Limerick Town" will be presented with full costuming, action, and orchestra accompaniment under the direction of Prof. W. H. Manning, nationally known vocal teacher and opera coach of Cedar City, Utah. The cast for this comic opera will be presented in both matinee and evening performances on Thursday, July 29; and "The Lord Now Victorious," from Cavalleria Rusticana, which will be staged in the State University's football stadium on the evening of Friday, July 30.

"The Lass of Limerick Town" will be presented with full costuming, action, and orchestra accompaniment under the direction of Prof. W. H. Manning, nationally known vocal teacher and opera coach of Cedar City, Utah. The cast for this comic opera was chosen this week after tryouts of more than 150 candidates were held at the University. The high school student singers, most of whom are from Wisconsin homes, who have been selected to take the parts in the opera at either the matinee or evening performance, are as follows:

Judge Hooley—Bob Salzer, **Milwaukee**, Shorewood, and Theodore McNeely, **Madison** West high school.

Mrs. O'Flynn—Marion Roecker, **Milwaukee** North Division high school, and Carol Huebner, **Madison** West high school.

Justice—Wilbur Ogden, **Madison** East high school, and Ralph Schuerman, **Richland Center**.

Butler—Irving Sklar, **Madison** West high school, and Nathan Smith, **Wisconsin Rapids**.

Coachman—Myron McKittrick, **Madison** East high school, and Walter Spiegel, **Oconto Falls**.

Rose—Paula Blust, **Milwaukee**, Shorewood, and Marjorie Hardor, **Milwaukee**, Washington high school.

Betty—Martha Knutson, **Lodi**, and Betty Jane Lund, **Reedsburg**.

Pomeroy—Harold Pfister, **Sheboygan**, and Arthur Lehman, **Hiroon**.

Mike—John O'Neil, **Madison** Central high school, and John Marty, **Monroe**.

Molly—Kathryn Mathis, **Madison** Central high school, and Louise Bartel, **Mywood**, **Ill.**

E. Q. Hicks—Orville Shetney, **Lancaster**, and Joseph O'Neil, **Bodgeville**.

Sir Charles—Henry Preest, **Fort Atkinson**, and Ben Park, **Madison** East high school.

Lady Worthington—Gretchen Nommeusen, **Shawano**, and Mary MacCor-mack, **Whitehall**.

Pat—Harold Peterson, **Milwaukee** Bay View high school, and Jack Baum, **Oconomowoc**.

U. Scientists Find New Essential in Animal Nutrition

Previously unknown to the scientific world is a factor needed for the nutrition of animals which was recently discovered and described by C. A. Elvehjem, C. J. Koehn, and J. J. Oleson, of the University of Wisconsin, working in cooperation with the Wisconsin Alumni Research Foundation. The new factor belongs to the vitamin B complex, but has not yet been named.

With the existence of the new factor established, the Wisconsin scientists turned their attention toward isolating it. Certain discarded fractions of the liver which have been used in preparing vitamin B-2 and flavin, were precipitated with a mixture of alcohol and ether, and when tested were found to be highly active in the new factor. Further purification and concentration have been brought about by means of solvents and precipitation.

U. Faculty Helps Plan State Fair Dairy Day

Eight members of the University of Wisconsin college of agriculture faculty have been named on committees for Dairy Day at the Wisconsin State Fair, August 27.

Those named include: Dean Chris L. Christensen; T. L. Bewick and Miss Grace Rountree, 4-H Club department; Arlie Mucks, animal husbandry; Miss Gladys Stillman and Miss Mary Brady, home economics extension; R. H. Rasmussen and W. A. Summer, agricultural journalism.

High Grades Win Honors for 28 in Agriculture at U.W.

Twenty-eight students who graduated from the courses in agriculture and home economics at the University of Wisconsin in June were awarded high honors or honors for superior work during their college course. This is the announcement of Ira L. Baldwin, assistant dean of the college of agriculture of the State University.

High honors in agriculture were won by James P. Jolivette of **La Crosse**; Lawrence Wm. Witt, **West Allis**; and Orville Wyss, **Medford**.

Miss Alice C. Grinde, **De Forest**, won similar high honors in home economics.

Honors in agriculture were awarded to: John M. Bond, **Milwaukee**; Thomas L. Carpenter, **Slinger**; Herbert C. Kriesel, **Onalaska**; Alvin J. Chlorga, **Chilton**; Jack F. Schinagl, **Chicago**, **Ill.**; and Robert M. Stern, **Milwaukee**.

On the honor list in home economics were: Margaret M. Baird, **Waukesha**; Estelle M. Birong, **Madison**; Ruth E. Buss, **Milwaukee**; Anna F. Carlson, **Escanaba**, **Mich.**; Doris E. Clark, **Goodman**; Lois E. Dennhart, **Neenah**; Frances E. Doudna, **Poyntette**; Marion Fuller, **Necedah**; Constance L. Gieseler, **Towner**, **N. Dakota**; Lucile M. Holl, **Milwaukee**; Esther L. King, **Madison**; Ruth V. Payne, **Portage**; Margaret E. Reynolds, **Madison**; Claire E. Salzmann, **Fond du Lac**; Betty Anne Schlimgen, **Madison**; Kathryn Spielmann, **Park Ridge**, **Ill.**; Virginia L. Swander, **Pittsburg**, **Pa.**; Hazel May Wurster, **Milwaukee**.

U. W. Students from Wisconsin H o m e s Get Scholarships

Thirty-six cash scholarships and fellowships for University of Wisconsin students, recommended by the faculty committee on loans and undergraduate scholarships, were approved by the State University board of regents recently.
