MANUFACTURING DRUGGISTS' STATIONERS,

S. E. Corner Clark and Lake Streets,

**CHICAGO.**

A Ten Dollar order entitles you to our Mammoth Catalogue, 380 pages, containing nearly **SIX THOUSAND** Designs in Labels and Stationery, of the newest, most artistic, practical and desirable styles.

# The Three Books Necessary.

TWO YOU HAVE—ONE YOU LACK.

Got the U. S. Pharmacopoeia—Necessary to run your business. Got a Wholesale Price Current—Necessary to buy your goods. YOU HAVEN'T GOT OUR MAMMOTH CATALOGUE—NECESSARY TO PUT YOUR GOODS UP RIGHT.

We have recently completed our Mammoth Catalogue of Druggists' Labels, Boxes, Stationery and Printed Supplies. To state a fact nothing equals it or nearly equals it in the world—380 pages, printed with exquisite taste and finish on the finest enameled paper; cloth bound in stiff covers, weight 4 lbs. and contains nearly Six Thousand designs in labels and stationery of the newest, most artistic, practical and desirable styles. It is an Encyclopædia of information for all druggists, listing every requirement in Labels, Pill and Powder Boxes, Wood, Tin, Impervious and Folding Boxes, Prescription Blanks, Druggists' Stationery and Druggists' Printed Supplies of every description. It contains a variety of forms and styles of Labels suitable for any article sold or manufactured in a drug store. As a reference book for use in getting up Labels, Wrappers, etc., for special preparations it will be found invaluable. The Catalogue is more than double the size of any other of its kind in the world and completely covers the entire ground in every detail. It classifies and lists every article used by druggists in any of these lines, gives the lowest market prices on quantities large or small and assures by accompanying designs, samples, illustrations and detailed descriptions an accurate knowledge of the kind and quality of every article with which it deals. Accompanying this work we send five minor Catalogues, especially prepared to exhibit qualities and colors of paper stock as well as printed designs. They include one Specimen Book of Prescription Blanks, one Sample Portfolio of Letter Heads, Note Heads, Bill Heads, Statements, Envelopes and Miscellaneous Stationery. One Sample Book of Non-Secret Wrappers. One Sample Book of Powder Papers and one Catalogue of Boxes of every material and description for druggists' use. The entire collection is put up in a neat box so that it may be kept together for immediate and convenient reference. We are obliged to ship the outfit by express as it weighs about six lbs. when ready for shipment.

## HOW TO GET IT.

Much as it would gratify us to supply this sample outfit gratis on application, the great expense of so costly an edition together with the cost of transportation makes it a burden which we cannot assume without some little return. But on receipt of an order for \$10.00 or upwards, made from this or any previous specimen sheet issued by us, we will send the entire outfit by express, charges paid, to any druggist in the United States who has not already received one.

## DOMESTIC AMMONIA

FOR THE HOUSEHOLD.

AQUA AMMONIA is the cheapest cleansing material in the world. Used according to directions, one tablespoonful is equal to one-third of a pound of the best soap. When used with either hot or cold water, it leaves the skin smooth and soft, and does not injure the most delicate fabrics.

AQUA AMMONIA in the Laundry gives a snowy whiteness to plain goods, but does not injure fast-colored fabrics. It saves all the soda, half the soap, labor and time, and for many purposes replaces soap entirely. It restores all the original brilliancy and lustre to old black silks, laces and woolen goods, no matter how much soiled they may be.

AQUA AMMONIA will produce a most luxuriant and healthy growth in Plants and Flowers, when used by putting a few drops twice a week in the water put on them.

### DIRECTIONS.

For the Laundry, put one tablespoonful into a pail or three gallons of water; clothes soaked with half the usual quantity of soap, and soaked over night in this water, will be perfectly cleansed and whitened with little or no rubbing.

For Glass, Silver, Crockery, Painted Walls, Stains in Marble, Oil Cloth and plain Wood-Work, use one or two tablespoonfuls to a pail of water, and little or no soap will be needed.

To Clean Hair Brushes and Combs perfectly and quickly, use a teaspoonful in half a basin of water.

For the Toilet, use half teaspoonful to a basin of water, or one tablespoonful to the bath-tub.

## CHINESE LAUNDRY BLUING

This Preparation imparts a beautiful bright blue color to clothes and is far cheaper than any other bluing now sold in the market.

It is made from the best material and warranted on a fair trial, to give general satisfaction.

It also makes a beautiful and durable Writing Ink; but if so used, one-half of the amount of soft water should be previously added.

DIRECTIONS.—From one to two teaspoonfuls for an ordinary washing.

**HOUSEHOLD AMMONIA**

Ammonia gives a snowy whiteness to plain goods, but does not injure fast colored fabrics. It saves all the soda, half the soap, labor and time, and for many purposes replaces soap entirely. It restores all the original brilliancy and lustre to old black silks, laces and woolen goods, no matter how much soiled they may be.

Ammonia will produce a most luxuriant and healthy growth in PLANTS and FLOWERS, when used by putting a few drops twice a week in the water put on them.

**DIRECTIONS.**—For the Laundry, put one tablespoonful into a pail or three gallons of water; clothes soaped with half the usual quantity of soap, and soaked over night in this water will be perfectly cleansed and whitened with little or no rubbing.

For Glass, Silver, Crockery, Painted Walls, Stains in Marble, Oil Cloth and plain Woodwork, use one or two tablespoonfuls to a pail of water, and little or no soap will be needed.

To clean Hair Brushes and Combs perfectly and quickly, use a teaspoonful in half a basin of water.

For the Toilet, use half a teaspoonful to a basin of water, or one tablespoonful for the bath tub.

Stock Folding Bottle Boxes.

Supplied unprinted, in gross lots, for economy and convenience in putting up special preparations in small quantities.

These folding bottle boxes are furnished unprinted in lots of one gross or upwards. The same label used on the bottle is attached to the face of the bottle box as shown in cut. They are of the greatest convenience to the druggist who is thus enabled to put up small quantities of special preparations in the neatest and most attractive form. Every druggist can find sale for numerous printed bottle boxes own manufacture when properly put up, but the fact that printed bottle boxes are not supplied in lots of less than 50 or 100 necessitates a great expense for packages for the great bulk of preparations that have but a limited sale. By having a few sizes of our stock bottle boxes on hand a druggist can put up dozen lots of as many different preparations as he desires at trifling expense. The same label that is used on the bottle is placed on the bottle box making a neat and attractive appearance as shown in the illustration. The cost of plain black panel labels size 1 for 2 oz. bottles is usually 50 cts. for 250 lots; 60 cts. for 4 oz. sizes in 250 lots and 75 cts. for 6 oz. sizes in 250 lots. This is the only expense that need be incurred when the druggist is supplied with our stock bottle boxes, in putting up as high as 125 packages of any article he may desire, as a 250 lot of labels supplies 125 labels for the bottles, and 125 labels to be attached to the bottle boxes; of course a smaller number will be sufficient in most cases and the remaining labels can be saved for future use. Our Label Catalogue shows innumerable styles of panel labels which will be furnished with the wording shown in the illustration. If you desire to substitute at prices quoted above each label. It will be at once apparent to every druggist how economically and conveniently he can put upon his shelves numerous preparations that he has heretofore been obliged to do without, owing to the large expense that must be incurred to secure proper packages by the old plan that made the purchase of at least 500 expensive specially printed boxes for each article an absolute necessity.
