INTRODUCTORY.

THE first volume of Pott's Directory of Sheboygan City and County is introduced to the public with the anticipation of meeting a good reception, for our work has been long and wearisome; and now, that our task is done, we are pleased to state that our directory for 1895-96 is more complete than any similar previous publication.

We know that it is impossible to arrive at perfection, and we lay no claim to infallibility; but we have aimed to arrive as near as possible to that point, and we ask your kind indulgence for any omissions or imperfections.

With especial pride we point to the fact that this directory is wholly a Sheboygan product; the different firms who helped to complete the work are enumerated on the last inside cover of the book.

It is the greatest work of its kind ever attempted in Sheboygan; it has grown on our hands since the work was begun, and instead of publishing a volume of about 350 to 400 pages, as we expected, we now have a directory of over 500 pages. The general directory of the city of Sheboygan alone contains 9,200 names, while the directory published two years ago contained about 8,200 names. This unforeseen growth of the work is the cause that the date of publication was delayed for several weeks.

In conclusion, we tender our sincerest thanks to those business men who have encouraged this publication by their patronage, and we hope for a continuance of their support in the future.

Respectfully,

POTT & ZORN.

SHEBOYGAN STREET DIRECTORY.

The city of Sheboygan is divided into two divisions, the North side and the South side, the river being the dividing line.

The streets running north and south have numbers, beginning at the lake, and are called on the north side: North 1st street, North 2d street, etc.; on the south side, South 6th street, South 7th street, etc. The streets running east and west are called avenues. Short streets are called courts or places.

The houses of the city are numbered according to the Philadelphia plan, that is: 100 numbers are counted for each block. On streets running north and south the even numbers are on the west side of the street, and the odd numbers on the east side. On streets running east and west the even numbers are on the north side of the street and the odd numbers on the south side.

For numbering the houses on the streets running east and west, No. 1 is at the shore of Lake Michigan, east of 1st st. Nos. 101 and 102 are always the corners of the street running east and west and 1st street, and 100 numbers are added for each block from the lake. Thus we have on these streets the following numbers:

Between 1st and 2d street, from 100 upward; between 2d and 3d, streets, from 200 upward; between 3d and 4th streets, from 300 upward; between 4th and 5th streets, from 400 upward, and so forth. This plan is the same for the north side and the south side.

For numbering the houses on the north side on the streets running north and south, the most southern bend of the river, at 8th street bridge, is taken for a basis and called No. 1; 100 numbers are added for each block north from this point. Thus the intersections of N. 8th street with the following avenues have the following numbers:

Maryland ave.....	101	Niagara ave.....	901
New Jersey ave.....	201	Ontario ave.....	1001
Virginia ave.....	301	Erie ave.....	1101
Jefferson ave.....	401	St. Clair ave.....	1201
Pennsylvania ave.....	501	Michigan ave.....	1301
Center ave.....	601	Huron ave.....	1401
New York ave.....	701	Superior ave.....	1501
Wisconsin ave.....	801		

The same rule applies to all other streets running north and south on the north side.

For numbering the houses on the south side, on the streets running north and south, the most northern bend of the river, on S. 14th street bridge, is taken for a basis and called No. 1; 100 numbers are added for each block south from this point. Thus the intersections of S. 14th street with the following avenues have the following numbers:

Niagara ave.....	101	New Jersey ave.....	801
Wisconsin ave.....	201	Maryland ave.....	901
New York ave.....	301	Illinois ave.....	1001
Center ave.....	401	Indiana ave.....	1101
Pennsylvania ave.....	501	Kentucky ave.....	1201
Jefferson ave.....	601	Alabama ave.....	1301
Virginia ave.....	701	Georgia ave.....	1401

The same rule applies to all other streets running north and south on the south side.

.....
.....

THE SHEBOYGAN TIMES.

THE OLDEST For over FORTY-ONE years it has striven, earnestly and honestly to make the natural advantages of Sheboygan known to the business world, and to in every way aid, to the **NEWSPAPER** best of its ability, in adva ncing its commercial and manufacturing interests. In doing this it has not hesitated to make the interests of the men engaged in these **PUBLISHED** enterprises practically its own interest, so far as endeavoring to promote them through its columns is concerned. It does not, therefore, hesitate to claim and ask for a **IN** reasonable, living share of the business patronage of those who have thus been directly or indirectly benefited by its publication. As an advertising medium it circulates among the best class of **SHEBOYGAN** readers and purchasers in city and county, and its rates are very low, in accordance with the general rate values in other business. Patronage solicited. Subscription, **COUNTY** \$2.00 per year. Cash strictly in advance, \$1.50 per year. In its Jobbing department, good work promptly done at reasonable rates is the rule. Call on or address THE TIMES, 823 New York avenue, Sheboygan, Wis.

POTT'S DIRECTORY

(OF)

SHEBOYGAN COUNTY.

ALPHABETICAL LIST OF NAMES OF RESIDENTS,

With Section, Township and Post-Office.

The following is a list of residents of Sheboygan County (excepting those residing in the cities of Sheboygan and Plymouth and in the villages of Sheboygan Falls and Elkhart Lake), followed by their section, township (or village) and post-office. Where two numbers appear (16 or 23), the second denotes the number of the town in 'Town Greenbush or range in 'Town Holland. Where only one number appears in these towns, it denotes in Holland, that the respective section is in range 22, and in Greenbush, in town 15. — Where the name of the town or village is the same as the post-office, such name is only given once.
