The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

A wonderful coffee your patients can have!

Because of its caffeine content, regular coffee may be against "doctor's orders" for some of your patients. But Sanka Coffee cannot possibly affect even the most delicate nerves.

You can serve it to any patient, any time. Because Sanka Coffee is 97% caffeine-free, it can't cause sleeplessness, jangled nerves, increased heart action or

excessive stimulation of the kidneys. Yet Sanka Coffee gives a patient all the fresh-brewed flavor of the very finest coffee blends—only tasteless, odorless caffeine has been removed.

Why not treat yourself to a delicious cup of Sanka Coffee? See if it doesn't let *you* sleep better when you're off duty—feel better when you're on duty.

SANKA COFFEE
