JUNIOR CO-EDS PLAN FEATURES FOR SWING-OUT

Mortar Board Elections to be Announced at Senior Farewell

The closing ceremonies of the year will begin with the senior Swing-out to be held Friday evening at 6:15 on the upper campus. This is the first time that the senior women appear in cap and gown and the occasion upon which the torch of the senior women is handed down to the president of the junior women.

Mortar Board Elects.

One of the biggest events in connection with the Swing-out program is the announcement of the Mortar Board elections. The senior women's honorary organization makes formal announcement every year at Swing-out of the women elected from the next senior class. Elections are based on womanliness, service, and scholarship.

A special invitation has been issued to the men of the university to attend the Swing-out. Although this occasion is predominately a co-ed function, the men are cordially invited to play the role of spectators. The junior women want the men to feel that they are welcome at the ceremonies.

The work of the senior Swing-out is being engineered entirely by the women of the junior class under the direction of Winifred Titus and Elizabeth Chandler. Extensive plans have been made to put on a more elaborate and effective program than formerly.

Program Features Dancing.

New and unusual dancing will be the feature of the program which is being planned and arranged by Eleanor Riley and an efficient committee. Because of the difficulty of making a speaking program effective, it has been decided to limit the entertainment to specially planned dancing numbers.

The procession, which is the most effective and important part of the ceremony, will follow a different line of march. The seniors will form in double columns at North and South hall and march through the two lines of junior women, carrying the daisy chains.

Special Music Planned.

The music committee, under the direction of Helen Owen, is working out a program of songs to be sung at Muir Knoll after the program and the torch ceremony. These songs are limited in number and carefully selected. The songs that everybody knows and wants to join are the ones that have been chosen.

The music committee has also made arrangements with the university band to lead the procession and provide music for the dances.

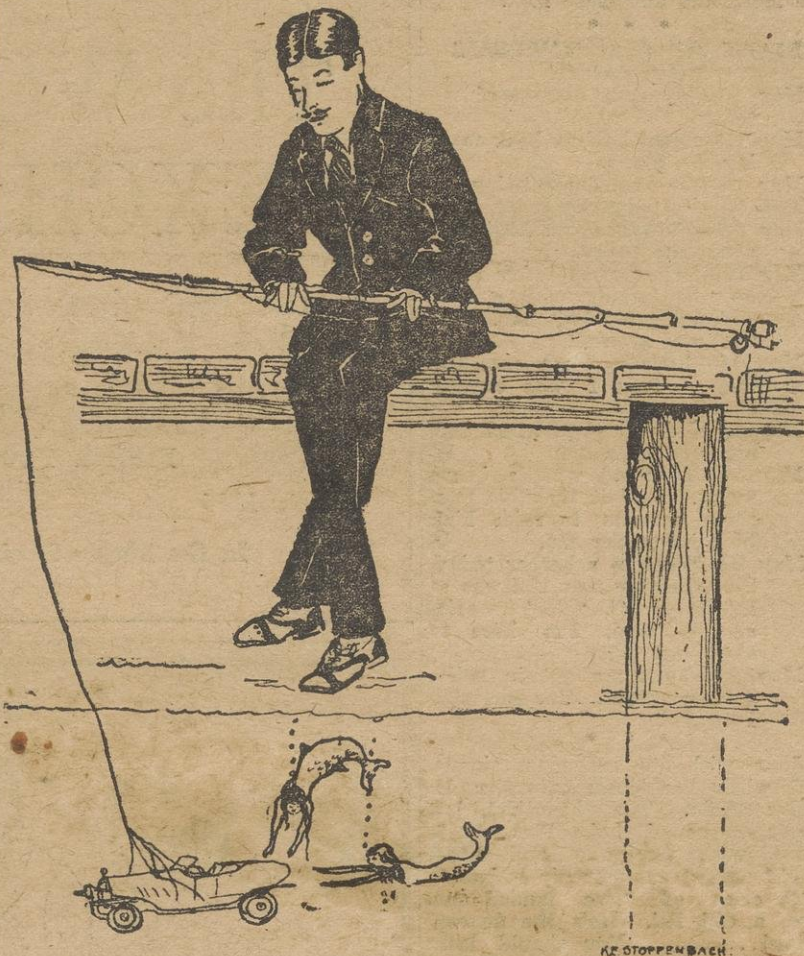

FINANCIAL REPORT AT JUNIOR MEET

A special meeting of the junior class has been called by Allan Davey, president, for this noon at 12:45 in Music hall. All juniors are requested to be present at this important meeting, as a report on Prom finance will be given.

STUDENT SENATE TO HOLD LAST MEETING

The last regular meeting of the student senate will be held tonight at 7 o'clock in the office of President Birge. Several measures of great importance are to be consid-

The Modern Fisherman—His Line

1921 BADGER TO BE DISTRIBUTED EARLY IN WEEK

Freight Tieup Causes Delay; Prize Copy to First Per- son in Line

As fast as the glue dries the 1921 Badger is nearing completion and will be ready for distribution early next week, according to word just received from Brock and Rankin, binders, Chicago, who, although they are running six months behind their regular schedule, are putting their whole staff of 400 people to work on the publication.

Owing to a freight tieup part of the 1921 Badger was lost for about two weeks, resulting in a delay of the issue.

Free Copy Awarded

Distribution will occur at Music hall and, as is customary, the first person in line will receive a free copy. Last year in spite of a pouring rain which nearly necessitated the putting out of an anchor to hold down the front steps, the walk in front of the building was crowded with specially delegated frosh. This year rumor has it there will be keener competition. The awarded volume has in the last two years been secured by Theta Xi.

Subscribers must present receipts

(Continued on Page 8)

SENIORS ASKED TO GET CAP AND GOWN

After Friday, June 4, there will be no opportunity for seniors to order their caps and gowns from the Co-op, according to a statement made by Fred Bickel, president of the class. That date has been set as the dead-line, and seniors are urged to drop in today or tomorrow to leave their orders.

Contributions to the senior chimes fund are being mailed in slowly. Each class is expected to contribute \$2,000 and the present senior class has thus far raised only \$1,100. The total amount to be raised before the chimes will be purchased is \$10,000.

The remaining \$900 must be contributed before graduation. Seniors should mail their \$4 at once to the senior memorial committee, 640 N.

SLAYER FACES MURDER TRIAL

Lynaugh Refuses to Take Stand Before Coroner's Jury

Following the inquest of the coroner's jury who issued a verdict recommending that Patrolman Mathew Lynaugh be held for trial for the slaying of Carl E. Jandorf, a warrant was issued last night by District Attorney Roman Heilmann charging Lynaugh with second degree murder, and remanding him to the county jail, in default of bail, to await the hearing on the warrant today.

Lynaugh yesterday refused to take the witness stand before the coroner's jury, acting upon the advice of his counsel. The inquest opened at 10 a. m. with the courtroom crowded with spectators consisting mostly of relatives of the slayer and students.

The chief witness during the afternoon's proceeding was Chief of Police Shaughnessy. He was asked by Prof. Farrington, member of the jury, whether or not Madison officers had received instructions to use firearms only as a last resort.

"They have received those instructions," said the chief.

"And is there any distinction made in the manner in which criminals are treated by the police. That is, are university students accorded any other treatment than that given other persons?"

"All criminals are treated exactly alike," said the chief.

The room was crowded with spectators, old and young men and wom-

CO-EDS HURT IN ACCIDENT ARE BETTER

Dead Girl's Body Was Sent to Ashland Last Night

Marjorie Huber, '20, who was severely injured in an auto collision Monday evening that killed one and injured two university women, was reported better yesterday afternoon at St. Mary's hospital, though still in a serious condition. Although she was for a long time unconscious, she recognized and spoke to her parents. Mary Voorhees, who is in the hospital suffering from shock, is improving steadily.

Funeral services for Amanda Hansen, killed in the accident, were held yesterday afternoon in the Powers funeral parlors. The body was taken to Ashland, the dead girl's home, at 9:30 last night. It was accompanied by Sigrid Hansen, '20, and Steiner Hansen, '23, her brother and sister, and by three Phi Mu sorority members.

Goodnight on Jury

Coroner W. E. Campbell, after investigating the case yesterday, decided that an inquest would be necessary to ascertain whether charges of reckless driving might be brought. The inquest will be held Friday. The six jurors who were sworn viewed the body yesterday afternoon in order that it might be released. The jurors are: Dean S. H. Goodnight, H. C. Netherwood, W. R. Sentlew, A. T. Feltner, O. W. Sherman, and W. T. Giffert.

The accident occurred on Monday evening about 6 o'clock when a motor car driven by Casper Hilgers of Madison collided with one driven by Robert Weaver with four Phi Mu girls. Hilgers' right front wheel, which struck the other car just in front of the rear wheel, was completely demolished by the terrific impact, which threw Miss Hansen out of the car, breaking her neck. Miss Huber and Miss Voorhees were not thrown from the car but were severely shaken. Weaver and Elizabeth Voorhees who were in the front seat, were uninjured; and neither Hilgers nor

(Continued on Page 3)

NEW POINT SYSTEM USED IN ELECTIONS

The point system for women as revised this year by S. G. A. has been rigidly enforced in the elections which took place this spring, and has proven successful in operation. The object of the system is primarily to get as many women as possible into as many activities as possible and secondly, to protect individual women from being loaded down with duties.

Every office in every organization on the campus to which women belong carries with it a certain number of points. Sixteen points are allowed to upper class women, and twelve to freshmen and sophomores. The presidencies of Y. W. C. A., S. G. A., and W. A. A., together with the woman's editorship of the Cardinal each carry the full sixteen points. Other offices are graded according to their importance and the amount of work they demand.

A committee in Keystone, the chairman of which is the census chairman of S. G. A., has charge of the point system and all nominees for office must be approved by this committee, in order that there may be no conflicts in elections. The revision of this system was worked

Mary had a little puff,
It lay right over her ear;
But when she went to bed at night,
She laid it on the chair.

WILL EXCHANGE—Three of our dears for one full-grown man, or what have you?—The Deekes.

A co-Edith can look at a man in a way that makes him feel like a plugged nickel—then she spoils the effect by saying things.

Willet Kempton entertained ye brethren with light refreshments yesterday afternoon—cost \$15 a quart. A good time was had by all.

A non-frat man sat on a fence,
And said to the fellows so dense

That they had to enquire
What was wrong with the wire,
"Look out, it's a barb-wire fence!"

MEN may think women are a nuisance, but they are rather essential Friday, Saturday, and Sunday all the same.

WANTED—To see the girl who can resist us—Frank Wolfe, Ken Ede.

Rodney Welsh has purchased a new pair of shoes. Things are quiet on

the campus.

How Dju Like to Be a Beta Sweetheart?

Neat way the Beta's have of making their new sister-in-laws feeling at home. Ain't this kissing stuff fierce?

Standing on the Alpha Delt pier, a SWEET YOUNG THING was heard to remark, "Oh, look at all the mermaids and mere men."

DIARY OF BUD MURPHY'S MOUSTACHE

May 10—My man discovered me today.
May 11—Spent half an hour coaxing me along.
May 12—He patted me today.
May 13—Patted some more.
May 14—Everybody kidded him about me today.
May 17—Felt for me today when he was talking with a man and couldn't find me. Got mad and swore.
May 19—Examined me carefully today. Said I was coming slow.
May 20—I didn't grow at all last night to spite him.
May 22—I talked with a beard today. Said it took his man three months to raise him. Still hopes for me.
May 25—Went to a barber today. He asked my man if I was to be shaved off. "No," he said, and blushed. I'm here to stay, hurrah!
May 27—Took me out in polite society on night. The girl said I tickled.

June with its sensuous, sinous, soft winds has blown onto the calendar again. The beautiful, but warm, shore of Lake Mendota is dotted with fish-poles and lines. The fragrant summer air is busted with cries of "I've landed one. Yes, a Chi Psi. He's the dearest thing!..... You should have seen the line I handed him before I landed him..... Yes, she hauled in a sucker. Wants to throw him in again..... What?"

A shark! I suppose a Phi Bete, Imagine being tied to one.... No, honestly? And she thought she was getting a whale. Only a turtle, you say..... Well, a girl's got to hand them a good line here..... I'm going in now..... You be out fishing tomorrow?..... Uh-huh. Sure, I will. Dad says he's broke and I got to land one this spring.

Could we but help it we would not inflict it, 'tis a dreadful nuisance you know, but we do it because we belong to the self-hate

Club of campus publicity seekers; our field is the world, this cardinal Wisconsin's greatest edition for Wisconsin's greatest year; but as we Aren't a bit conceited we really present profound apologies.

Personalities aside, 'neverything, can some wise brother shed a little light on what rough running game—or maybe sixty-six or seven-up—made the Alpha Delt week-end

chariot look like last January's spring bonnet? At least they ought to save the co-eds for next Sunday.

LAST VESPERS TO BE FOR SENIORS

Underclassmen Will Escort
Grads to Services at
Muir Knoll

Every senior woman wearing her cap and gown will be escorted by an

underclassman dressed in white to senior vespers Sunday, June 6, on Muir Knoll, at 4:30 p. m.

Helen Snyder, Blue Dragon president, will preside and Dean F. Louise Nardin will speak. Special music will be a part of the program. Senior Vespers is the last meeting of Y. W. C. A. this year and plans are being made to make it one of the largest services held.

JUNIOR MEETING

A meeting of the junior class has been called for today at 12:45 p. m. in Music hall.

POLICEMAN TO FACE TRIAL FOR MURDER

(Continued from Page 1)

charged with shooting and killing Jandorf, university sophomore. Beside Mr. Lynaugh sat his wife. The policeman was neatly dressed in a dark blue serge suit. On his other side sat J. M. Clancey of Stoughton who will defend Mr. Lynaugh.

Dr. W. W. Gill, was the first called upon to testify. He declared that Jandorf's death was due to a bullet wound from a 32 calibre revolver, the bullet having entered the left breast slightly below the heart. He further testified that there were several contusions about the head, one on the forehead above the left eye, one on the cheek bone and one on the left side of the bridge of the nose. He also stated that he did not believe the contusions could have been made by any very hard object but that they appeared to have been made by a fist or by a fall.

The next call to the stand was Dr. Joseph Evans of the university clinic who corroborated the statements of Dr. Gill. He declared that there was no bone injury of any kind about Jandorf's head.

Edward J. Frawley, freshman from Eau Claire, who witnessed the shooting, was then called upon. He testified that Lynaugh, holding his pistol turned on the group gathered, and said "I'll use this in self defense." This remark was made at the corner of Lake and Langdon streets. This was before Jandorf came upon the scene.

"I saw Jandorf walk up and take Lynaugh's left arm. There then ensued a conversation between the policeman and Jandorf which I did not hear. I saw the policeman give a slight kick at Jandorf's ankle with his foot and at the same time use the back of his hand, hitting Jandorf over his eye. Jandorf then struck the policeman on the cheek. I did not see the blow fall, but Jandorf did reach up his hand to strike. Then Jandorf backed up and I heard the report. Jandorf staggered and fell onto the cement walk beside the Grady house."

"Then three other fellows and I took Jandorf to the clinic, where he died immediately. We were all so stunned that we could hardly believe that Jandorf had been killed."

Prof. E. B. Fred, 627 Mendota court, another eyewitness also testified. Powers, a senior at the university was called next. He testified that Lynaugh had the revolver in his hand when he appeared in front of the Phi Delta house, and that the officer remarked, "It's lucky I didn't get a shot at you." Some of the students jeered and a few on an opposite porch hissed, according to Powers. After the shooting the officer made his way to the truck, still holding Lunney, and told the driver to go to the station. Apparently, he said, the crowd did not realize what had happened, for no opposition was made to the policeman's leaving.

Julien Lunney, freshman from Chippewa Falls, who lives at 216 Brooks st., was called shortly after

his little daughter, who was with him, were hurt.

The Hilgers car, according to Mr. Hilgers, was going at about 10 or 12 miles an hour.

"As we came down to Johnson st. I looked in both directions but saw no car and so I kept on going," he said. "Just as I was about to cross the street this car came upon us and a collision was unavoidable. I was too excited to tell much of what happened. We were hit and that is all I can say. The next thing I knew our car was turned on its side against the curbing and I looked up and saw a crowd of people gathering. I got up and noticed that one girl was hurt pretty bad. She was bleeding from the mouth as she was carried into a house near by. Then the ambulance came and took the girls away. The other car had the right of way but we could not stop in time. They were coming too fast."

Shocking Oats Doesn't Shock 12 Women in Ag Course

Planting cabbage, shocking oats, and threshing have charms for twelve co-eds in the university this year. They have organized the first woman's agricultural society in the United States.

Everything from managing an orange grove at Rio Piedra, Porto Rico, to working on a farm in Sas-hatchewan, Canada, has been done by the women in this society. Minnie H. Lippett, besides managing her own orange grove for eight years, has managed an adjoining one for several years. Florence H. Mahorney, Crawfordville, Ind., is to run a commercial farm during the coming year. Helen Holden, Chicago, daughter of Perry G. Holden, head of the agricultural extension division of the International Harvester company, and one of the greatest corn experts in the United States, will work with her father after graduation.

John A. James, assistant dean of the college of agricultural, says that he is pleased with the work that the women students are doing. He is confident that the women can hold their own with the men in agriculture.

POLICEMAN TO FACE TRIAL FOR MURDER

(Continued from Page 3)

en, rows standing in the back. At the attorney's table sat Mathew Lynaugh the policeman who is 11 o'clock. He and Jesse Cohen were arrested Friday and arraigned in superior court Saturday morning, charged with grand larceny, namely stealing the barber pole over which the trouble arose. He testified that the officer took him up Lake st., toward Langdon, holding a revolver in his hand. There was some yelling, he said, but there was no mob, about 75 students and others being scattered about in the vicinity. Jandorf, who was sitting on a little wire fence in front of the Grady house, he declared had some words with the officer, who, after kicking him, struck him with the fist that held the gun. Jandorf struck out at him and hit him. Then both the officer and Jandorf seemed to step back a pace and instantly the shot was fired. Questioned by Prof. Farrington, Lunney testified that the officer seemed much excited and had been excited right along. In answer to further questions he stated that he had been afraid of neither the policeman nor of the crowd. "I didn't know what it was all about. When I got onto the truck it was empty. I was not with the truck in the beginning. I just jumped on on Lang-

don st., and only rode about 150 feet." Recess was declared at 10:10 Lunney's testimony being resumed by the others, he testified that he had heard the officer say: "I'm responsible for this." The officer

seemed excited.

The final witness during the morning was Robert Gilman of Oshkosh, who lives at 668 State st.

Tissue Gingham 75c a yard

A very special purchase of beautiful checks, stripes and plaids in bright, cheerful colors. 32 and 36 inches wide.

Tissue Gingham 59c a yard

Over 50 pieces of plaids, checks and plain. A stylish and reliable fabric. 27 inches wide.

Zephyrs 75c a yard

A solid case of the newest plaids and stripes and also plain Gingham so desirable for morning wear. Many styles for children's wear.

MEN'S PAGE

COLLEGE MAN A MERE RELIC IN FEW YEARS

At the present rate of increase, the women will outnumber the men in the university by 1950, according to figures compiled yesterday in the Men's Page office.

The basis of the arithmetical juggling is in the fact that the number of co-eds has increased 40.7 per cent in the past four years, while the gain among the men has been only 35 per cent. In 1916 the women numbered 1,690, and this year the figure stands at 2,380. There were 3,330 male students here in 1916, and in the 1919-20 registration the total leaped to 6,497.

That the women are fast over-running the entire university is seen in the enrollment this year in Home Economics. This department is now totally lost, for the enrollment is made up of 255 co-eds with no representation at all for the men. On the other hand, the women have invaded the College of Agriculture, 14 strong. The School of Music, Letters and Science, the Course in Journalism, and the Library school have been surrendered to the fair conquerors.

"Merely another sign of an advancing age," said Margaret Craighill, president of the Women's Medical association, in a few words of misplaced comment. "Haven't the women taken the lead in every movement for real democracy on the campus? We hope ultimately to be able to impose house rules upon the men; they are sadly in need of discipline. I, for one, am in favor of 10 o'clock rules and no lake privileges. If it wasn't for the men in the university, we might see a return of the good old Wisconsin spirit."

ATHLETIC ANTICS

The men's dancing class, under the direction of Tom Jones and Capt. Keliher, will perform "The Birth of a Red, Red Nose," assisted by the Haresfoot orchestra, at the boxing room, the armory, at 7:30 tonight.

"Oh, we just climbed and climbed and climbed," said Don Murdock last night after the Indoor club had taken its annual hike to Main hall. "It was so exhausting. But we had the nicest time, and the loveliest weenies you ever laid eyes on."

The Pale Blue basketball team will play the Pinks tonight.

L'ENOV (Apologies to R. K.)

When earth's last woman has painted

And the rouge is dusty and dried,

And the youngest flapper has fainted,

And the oldest maid has died,—

We shall rest and faith we shall need it,

Lie down for season or two

'Till the mistress of all good fussers

Shall call us to fussing anew.

And those who had loved shall be happy,

They shall sit in a golden chair;

They shall wink all day at the women

With yellow, black, and red hair.

They shall find real women to fuss with:—

Fran Rudy, Lil Clark, et al.

They shall dance for a year at standing,—

And never be tired at all!

And only the women shall praise us,

And only the women shall blame,

And no one will love you for money

Nor no one shall love you for fame.

But each for the joy of loving

And each, with his separate dream,

Shall work for the woman of women

For the sake of the Thing.

IN SOCIETY (All Kinds)

Pink Ribbons held its annual lawn festival and ice cream social last night on the lower campus, and over 150 boys took part in the various games. "Types of Boys at Wisconsin" was the subject of a paper recited by Joe Steinauer.

* * *

Green Gorilla is planning a number of games and stunts for the picnic of all the senior boys to be held Sunday at Picnic Point. The party will leave the pumping station at 5 p. m. and return at 9:30. The boys are asked to sign up for the outing on the bulletin board in the armory. Bring your own knives.

* * *

Indoor club will entertain tomorrow night with a dancing party at the observatory. Music will be furnished with all furnishings by the Acacia Saxophone Sobbers.

* * *

The Strollers' society has announced a lake shore hike for its 103 members next Sunday evening from 7:30 to 9:59. Lots will be drawn to determine the 103rd man. He will carry a dark lantern at the head of the procession. No chaperons seem to be available for the outing.

* * *

ALUMNI NOTES

"Bill" Ross, who will be remembered as quite some traveler on the campus a few years back, was visiting friends here last week-end. He is now a traveling man.

* * *

Judson Sparks Williams, '19, for four years an officer of Probate club, and honorary member of Bone and Ivory, has announced his engagement, according to news brought by horsemen who accidentally passed through Union Grove, Kenosha county, last week.

BULL-ETIN BOARD

The Turkey County club will meet

tonight at Lathrop. Election of officers. Bring your own pencils.

Tickets for the Pearl Button banquet may be purchased at Morgan's.

All non-honorary fraternity men

will meet tonight at 165 Kehl hall to perfect the organization of Keys and Kobwebs.

Personal—I would like to meet some girl who can fuss on Monday night. Harold Groves.

Suits For The Warmer Days!

An increasing popularity for lightweight fabrics has been most noticeable the past few seasons. This has been the incentive toward a greater impressiveness in styling and handsomer effects in patterns.

Our present showing attains a magnificent degree of fashion in sport models and neat styles.

Garments such as these tailored by Hart Schaffner & Marx and Stratford, tho costing a trifle more, show that they have style and tailoring. They don't hang like a bag or a pole, such as some light weight garments.

UNIVERSITY HAS FOUR HONORARY CO-ED SOCIETIES

Scholarship and Service Are Basis of Election

Besides the honorary organizations whose membership women share with men of the university, there are four societies expressly for women. Their standards are invariably manifold, and though each may be for the specialists in its particular field, it is founded on a broad basis which encourages scholarship and personality.

Mortar Board, Omicron Nu, Alpha Gamma Pi, and Theta Sigma Phi are the four honorary organizations, and the honor of final emblem wearers is also conferred upon Wisconsin co-eds.

Mortar Board

Mortar Board is the honorary senior organization. Elections are made each spring and are announced annually at senior Swing-out. The new members, chosen from the junior class, are those women distinguished for womanliness, high scholarship, and service to the university. Margaret Craighall is president of Mortar Board this year. The organization at Wisconsin does not belong to the national one, but its scholastic standards are higher and a movement is now being forwarded to nationalize the local fraternity.

Omicron Nu

Scholarship standards equal to those of Phi Beta Kappa combined with leadership, and personality are the standards on which seniors and second semester juniors are judged for membership to the honorary home economic fraternity. The organization is national and was founded at Wisconsin in 1915. The nineteen active members are also working for the national fund to establish a chair of Home Economics in the College of Constantine. Elizabeth Miller is president.

Alpha Gamma Pi

The Wisconsin chapter of Alpha Gamma Pi, commerce organization, was established April 28, 1919, and now numbers five members, Orpha Coe, president; Irene Hensey, Anne Christianson, Helen Oles, and Helen Roth. The organization co-operates with the commerce fraternity, Beta Gamma Sigma, and endeavors to form a connecting link between the faculty and the students. Its members are chosen on the basis of scholarship, commercial ability, and leadership.

Theta Sigma Phi

Theta Sigma Phi was established at Wisconsin in 1909 and corresponds to Sigma Delta Chi, honorary journalistic fraternity. Candidates for membership are those who have shown promise in journalistic endeavor and who are intending to continue journalistic work. Each member is required to send in some articles for publication each year. A prize of \$5 is annually awarded to the best piece of literature in any publication issued on the campus during the year.

Lately, Theta Sigma Phi held its bi-annual convention at Madison at which gathering representatives from the nineteen active chapters were present.

Wisconsin chapter numbers nineteen active members all of whom are prominent in journalistic projects on the campus. Among the honorary members of the fraternity are Zona Gale, Edna Forber, Harriet Monroe, and Elle Wheeler Wilcox.

Final Emblem Wearers

Two or three girls, chosen by a committee of faculty members of the physical education department and representative members of the junior and senior classes, qualify each year to wear the "final emblem," a flat medallion bearing the figure of a dancing girl. The award of this honor is based on scholarship, service, and good sportsmanship.

The girls entitled to wear the emblem this year are Phyllis Hamilton, Louise Weld, and Eleanor Gaik.

TABARD INN PLAN IS BIG SUCCESS

23 Co-eds Cook, Clean, and Keep
House; Meals Cost
\$4.25

BY EDITH HADLEY

One way in which the university solves some of its housing problems is by renting co-operative houses to women. Tabard Inn is a new experiment in co-operative housekeeping. Before its establishment there were three university co-operative houses: Mortar Board cottage, the A. C. A. house, and Blue Dragon Inn. These were founded by the organizations whose names they bear, and housed small groups of girls. When the new infirmary was built all of these houses had to be vacated.

University Leases House

In order not to destroy the co-operative plan which had worked out quite successfully in the smaller groups, the university leased a large house opposite the Physics-Economics building. They offered to rent it at cost to women students on certain conditions. Students who had been living in the co-operative cottages were asked to promise their help in filling the new house and in making it a success. This included willingness to have the cost of repairing added to the house rent for the first three years. If the new experiment worked well during the time of the lease, the university planned to buy the house.

This year the experiment has proved successful. Every "Tabarder" who does not graduate expects to return to the inn next year. Many more than can be accommodated have asked for admittance. There has been a waiting list ever since the house opened.

House Work is Divided

The twenty-three women who live at Tabard Inn this year do the cooking, cleaning, and other housework and thus save much of the expense connected with a university educa-

tion. However, they do not consider the financial gain the chief benefit they derive from their co-operation.

Among the privileges which they enjoy is independence gained by possessing a home and the close friendships formed by working and playing together. Opportunity to earn their board by preparing the meals, and by doing the ordering and book-keeping, is given to six of the students at the co-operative house. Other house work is divided up among the rest. Each girl's share amounts to about 2½ hours a week.

Board at Tabard Inn has been from \$4.00 to \$4.25 a week this year. Very good meals have been served. Their low cost is the result of wholesale buying, careful planning of menus, and the privilege of ordering groceries through Lathrop cafeteria. Room rent is from \$6 to \$10 a month.

Housekeeping duties have not prevented women staying at Tabard Inn from having a good time or from taking an active part in university affairs. Several parties and receptions have been given during the year. Representatives of most of the university women's organizations live at the house. Among them are the president of Omicron Nu, a member of Mortar Board, a member of the Y. W. C. A. cabinet, a Forensic board representative, and three members of the Glee club.

ARTS AND CRAFTS

The regular meeting of the Arts and Crafts club will be held in the Applied Arts laboratory tonight at 7:15. Stanley McCandless will demonstrate lighting on a model stage. All interested are invited to attend.

THE PLACE OF THE CO-ED

FIFTY-SIX years ago marks the entrance of the co-ed into the college life of Wisconsin. She worked her way in by proving that she did not lower the scholastic standards held so high by the university and by the fact that she showed that she could face all the problems of the life side by side with the men. It was not until 1873 that classes were formed which included both men and women and it was as late as 1897 before the women were given a dean. Since that time the co-ed has taken more and more responsibility in the line of activities outside of the regular curriculum. During the war there were many openings usually filled by men, which were filled by women. Responsible editorial work, heads of important university committees were turned over to the women who felt that their duty to their country and Alma Mater was to fill the places left vacant by the men who went to serve in another way. It was but a small method of showing the appreciation which the women of the university felt towards their university brothers.

When the men returned women were on a more equal basis so far as accomplishing big things was regarded. Although men again took over their own work, they recognized the work that women were capable of doing. This past year, however, the co-ed and her place in the university has been belittled. This is due to two facts—one, the attitude of the co-ed herself, and the other, the way in which men regard her. "This university ought to be just for men," say many men this year. Then they qualify this statement by saying that the co-ed is frivolous, that she dresses with more deliberation and thought than she studies, and that she is good for society—a "good sport" but little more. They admit that there are exceptions but it is not the exception that is to save the co-ed's reputation as a force in the university. How is the co-ed as representative of the whole to answer these accusations? The time is ripe for some setting of standards which will put her where she belongs next year. The time is ripe when she should realize that a well balanced woman is the Wisconsin ideal, an ideal not unattainable. When the co-ed, as in the parody of Kipling's "If," can dress and make herself attractive and not make dress her saint, when she can prove that her marcelled locks cover working brains, when she can help society an interesting sideline and not a vocation, she will cancel the effect of any remarks which may be made about her. This is her problem if she would live up to herself as she was in the days when she earned her way into the college life of Wisconsin.

WOMEN! OCCUPY IMPORTANT PLACE ON PUBLICATIONS

Responsible Work on Campus Magazines Done by Co-eds

The work of university women on campus publications shows the best record in the history of Wisconsin. Women occupy important positions on the staffs of the Badger, Cardinal, Octopus, the Literary magazine, Who's Who, the Country and Commerce magazines.

The biggest increase in number of women and amount of responsible work done by them is found in the staffs of the Country and Commerce magazines. Orpha Coe and Irene Hensley are the first women's editors of the Commerce magazine. They do not have a distinct section but handle all material of special interest to women in the field of commerce. On the business staff of the magazine Lillian Soderberg, Avis Coddington, and Pearl Lichtfeld are advertising assistants. Mary Fowler is assistant circulation manager, and Helen Olds is a circulation assistant.

"Women have done a big share important work this year."

of the Country magazine. "For the first time they have a distinct section in every issue of from four to six pages devoted to the home economics department."

The Badger has a large number of women who have done responsible work this year. Elizabeth Chandler as head of the organizations department sold over 165 pages of space worth approximately \$5,300. Winifred Titus was the assistant business manager, Ernestine Jenison is associate editor of the Badger, and Guinoir Helberg is local advertising manager. Other heads of departments are Mary Boyd, art editor; Lydia Lacey, sorority editor; Frieda Rummel, engraving editor; Marguerite Shepard, editor of woman's athletics; Margaret Brown, editor of the senior section; Margaret Chambers, head of classes. Among the workers on the business staff were Lorna Lewis, correspondent and private secretary; Dorothy Shurtliff, office manager; Marjorie Six, office manager of the circulation department; Margaret Green, assistant collection manager; Harriet Bartlett and Dorothy Ware, circulation workers.

Eighteen women workers are on the Cardinal staff. Marion Roth is woman's editor, and Marguerite Shultz is society editor. Marion Strassburger and Marion Goodwin

"S. G. A. is Heaven," Say Co-eds of '70

Curfew Rang at Sunset in Early Days

By MILDRED GERLACH

The unborn S. G. A. system would have been a Declaration of Independence to the sheltered and sequestered damsels of the '70s and '80s. The privileges which the modern co-ed deems restrictions would have been considered unprecedented license by our grandmothers.

Strict Rules Held

In those days there were stories told in whispers of the girls who were expelled because they stayed out on the lake in a row boat after dark. There was the awful case of the lass who was so indiscreet as to go buggy riding after dark. Unforgivable sin!

Presently, the desirability of social intermingling was recognized and old-fashioned mixers were held each Friday evening. The young ladies and young men each attended in groups, and returned home the same way. Once a year, an interfraternity dance was given which corresponded in importance, if anything could, with the Prom of today. It was the only event of the year to which a man might ask the maid of his choice. It was far more serious if he chose the wrong one, then, for he had to wait a year to rectify his mistake.

But those "old girls" had some spunk, too. They put up a strenuous protest when the regents ordered them not to hang their laundry in the front yard of Ladies' hall. The custom finally passed away in a natural manner.

Physical Education Started

The co-eds of the prehistoric days decided that they would like to have physical education. Such a bold experiment as engaging an instructor was laughed down by the powers-that-were, so Miss Hoopskirt hid herself to the Armory, exercised her wiles on the commanding officer, who accommodated her and her associates with instruction in the art of the Broom Manual. Private means finally were scraped up, and an instructor from Sargent was procured. After several years of drilling with guns, a gymnasium department, or rather the skeleton of one was produced, and the foundation of the present efficient organization was laid.

Mary E. Hill, of the class of '77, the oldest co-ed in Madison, tells of some of the events of that period that were considered very thrilling. "The year before I entered, there had been great excitement. A fancy dress ball had been held in Ladies' hall (now Chadbourne) and three men had appeared, masked and

dressed as girls. One of them was expelled and the other two were consigned to utter disgrace and ignominy on the campus."

Men were not allowed on that territory sacred to the "young ladies" except for a two-hour period from 3 to 5 p. m. Saturday afternoons. Permission had to be granted for any larks, such as buggy riding or walking.

Co-education In '60.

The admission of women into the University of Wisconsin occurred in the time of the Civil War and as a war measure was originally intended to last during the war only. The fear of depletion in the number of instructors overcame opposition and a woman's normal school was installed.

At first, there was no connection whatsoever between the interests and activities of the men and women. The two dormitories, North and South hall might have been on opposite sides of the planet for all the communication that went on between them. Castalia was formed to strengthen the bond between those women of similar interests, and in a burst of endeavor the society held an open meeting, featuring a pageant representing the secession of the states. The following night a social hour was held by Prof. and Mrs. John W. Sterling at which the men and women met socially for the first time. The ice was broken and a more cordial relationship was henceforward established than had previously existed.

Chadbourne Built

In 1867, women were allowed to take a few of the same subjects that the men did, and in 1870, the need for a woman's hall was recognized. The erection of the building met with severe opposition. President Paul A. Chadbourne considered resigning his position, in view of the fact that he considered it an unheard of state of degradation to be president of a co-educational institution.

Women continued to progress, however, and the class of '74 was allowed to study the full course with no substitutions of drawing for higher mathematics, or similar considerations. C. W. Butterfield, in his "History of the University of Wisconsin," says of this time: "During this university year, the conclusion was reached that the course of study should be exactly the same for students of either sex; and thus, after twenty-three years in the University of Wisconsin, it was found that young ladies were equal in mental power to young men; and co-education became a fixed fact."

DISTRIBUTE BADGER EARLY THIS WEEK

(Continued from Page 1)

when calling for their books. Persons who can not locate their receipts will not be able to secure their volume the first day or two of distribution because of insufficient time to look up the sale in the records during the first rush.

All books reserved must be called for within three days of the first issue, after which they will be placed on open sale and disposed of to those people who are now on the waiting list. The price of the 1921 Badger will be \$4.25, as set last fall.

The David J. Molloy company, specialists in the art of embossing and decorating leather coverings, have written to the Badger heads that the cover of the 1921 Badger is the most artistic design that they have ever made.

Y. M. C. A. GIVES OUT TWO STUDY PRIZES

Grade reports from the dean's office show that the Y. M. C. A. dormitory had a high record for scholarship during the first semester. Wilbur Katz, a freshman in the College of Letters and Science, received a first prize of \$15, and Wilson Trueblood, an engineering sophomore the second prize of \$10. Katz' weighted average was 95.8 per cent and Trusblood's was 94.2 per cent.

An analysis of the grades show 10 per cent of the men with averages above 90 per cent, and an additional seven with marks between 89 and 90. Besides this, over 68 per cent had weighted averages above 80 per cent. As an inducement to students who were too low the first semester to figure in on the prize contest, this semester's prizes of another \$25 will go to the men who succeed in raising their marks the most since last

eighteen reporters are women, and there are three women assistants in the business department. Marie Bodden and Garnet Kleven are on the board of control.

The Wisconsin Octopus has three women on its board of editors—Marion Roth, Dorcas Hall, and Winifred Moss. Until recently Marie Bodden was an associate editor. Lela Hendricks is circulation manager and her assistants are all women.

On the Who's Who staff, Elizabeth Chandler was assistant editor, Winifred Titus was woman's editor, and Hazel Wolfe was her assistant. Dorcas Hall and Dorothy Carlock worked in the national department, and Alice Ligare and Alice Edison were copy editors. There were about six women assistants, and a number of workers in the business staff.

Of the seven editors of the Literary magazine, four are women, Janet Durie, Frances Dummer, Rachel Commons, and Elsie Gluck. More than half of the contributions to the magazine are from women.

GREEN BUTTON HAS ANNUAL BANQUET

Nomination for officers for next year will take place at the Green Button banquet to be held Thursday evening at 5:30 at the Candy shop. Election of officers will be followed up on Monday. A new policy will be adopted next year whereby the vice-president will be social chairman and the secretary will be publicity chairman.

The present officers of Green Button are: Marjorie Severance, president; Mary Baldwin, vice-president; Helen Rockwell, treasurer; Mildred Klann, social chairman; Gertrude Heller, publicity chairman.

All Freshmen women are urged to buy their tickets for the banquet as soon as possible. Cleo Parsley has charge of the tickets which may be purchased for one dollar each at Barnard and Chadbourne

DANCING DRAMA WILL BE GIVEN ON FIELD DAY

Pupils of Miss H'Doubler to
Present "Dream Gate"
in Open Air Theater

Through the Dream Gate and into the land of fancy, where flowers are living, breathing things, wanders the little mortal girl in the dancing drama entitled "The Dream Gate" which will be one of the numbers of the dancing program to be presented by the pupils of Miss Margaret H'Doubler at 6:30 o'clock Saturday in the open air theater back of Main hall as the conclusion to the Field day program.

The entire program is highly symphonic in nature and presents great variety and a wide range of appeal. The numbers reveal changing moods of interpretation and expression, with costuming and scenic effects, simple but effective, and in keeping with the outdoor, daylight character of the performance.

The two dance dramas, "The Dream Gate" and "The Sleeping Princess" are the leading numbers of the program. The "Sleeping Princess" with Betty Sehon as the princess and Catherine Meyer as the prince is the most elaborate of the individual numbers.

Tarantula, the Schubert, Walse, interpretation, the Vagabond dance, The Moonbeam and the Sunbeams are only a few of the delightful dances which will complete a well-balanced and artistic program.

The dancing marks the close of the season's work, and is part of

Bathing Caps and Accessories Ready for Seashore Days

25c to \$2.00

Jersey Bathing Suits

Made of a firm texture jersey in slip-on models with square and "V" necks. All colors.

\$6.50 to \$25.00

Keeley-Neckerman Company

Field day, the women's annual closing exhibition, arranged every year by W. A. A. Field day arrangements this year are under the management of Hazel Wright and include a track meet, a baseball game, quoits and archery matches, and the dancing program.

The athletic matches will begin at Camp Randall at 3:30. Heretofore the dancing has taken place at Camp Randall after the track meet, but this year it was decided, for convenience of the spectators and

for the greater appropriateness of the setting, to present the somewhat more elaborate program in the outdoor theater. A charge of 65 cents admission will be made for the dancing and no extra charge

will be made for programs.

At the close of each match Varsity teams in the five sports included in the Field day program will be announced.

HALLS ARE FILLED FOR COMING YEAR

That the housing problems for students next year will be acute is evidenced by the fact that already the waiting lists of Barnard and Chadbourne halls, the two women's dormitories, are far longer than they have ever been before.

Barnard, with its 151 rooms already filled for next year, has 170 names on the waiting list, while Chadbourne's waiting list contains 85 names in addition to the 12 girls in the hall. In filling the halls one third of the rooms are given to freshmen women in the state are given the next choice, and those from out of the state are taken last.

"The high cost of living has had a great deal to do with the increased popularity of dormitories during the last few years," said the mistress of one of the halls. "Not only does it cost less to live in the halls, but the women are assured of good wholesome food and healthy surroundings."

NEW HEADS CHOSEN BY CIVIL ENGINEERS

MANY WOMEN WORKING WAY IN UNIVERSITY

Of the 2,500 women at Wisconsin this year approximately one out of every five is self-supporting to some degree, according to Dean F. Louise Nardin.

"I am confident," said Dean Nardin, "that the woman who has the health, ability, and courage to work her way through college will ultimately prove a success in life. She has demonstrated that she possesses the qualities of mind, body, and spirit that are necessary to success. No woman because she is self-supporting is ruled out of extra-curricular work in the university."

Woman Leaders Work

Many of the women who hold leading positions in extra-curricular work, such as publications, music departments, and Student Government association, are earning money for part of their expenses for this year. One woman has done clerical, stenographic, and filing work, waited on table, ironed, told stories to children, and taught at night school for part of her support while in the university.

Several women are assistants to stenographers in professor's offices, several are earning money by writing special feature articles for the newspapers and magazines. One woman is society editor of The Democrat. A junior, who made Phi Beta Kappa this year, has waited on tables and done clerical work for her support. Another woman has covered some of her expenses by directing community singing, doing library work, and taking a prominent part in Y. W. C. A. secretarial work.

Student Employment Bureau

The Student Employment bureau in the alumni building has seventy-five women listed in clerical and stenographic work. These women are busy from one to four hours a day in offices on the hill and out in town.

In the Administration building, the department that has control of student employment has 119 women listed on the pay-roll of the university. Their work is principally stenographic and clerical work. During October and February,

months of registration, the number of student women workers is swelled considerably. All of the workers listed by the bureau are holding steady positions.

Jobs Numerous

In the office of the dean of women, about 105 women workers are listed. Some of them work for room and board, about twenty-six hours a week; others wait on tables at Chadbourne, Barnard and the Irving; several take care of children for which they receive a dollar for afternoon and evening. Many girls earn money by ironing, and some of them work as clerks in the stores on Saturday.

Serving at teas and dinners, helping with church suppers, mending, cleaning, copying, and reading lessons to old people or stories to the blind, are other ways of earning money utilized by women of Wisconsin.

The University of Wisconsin has no separate employment bureau that provides for all the needs of the students. Each college has its waiting list of those women who desire to do job work that requires only a small part of the day. There is a need for a department of student employment, in which lists of places where student help is needed, can be utilized for everyone wishing to do something toward self-support.

Freshmen are advised by the Dean of Women to finish at least one semester's work before attempting to finance themselves. It is thought that a woman should establish herself scholastically before she tries to do other work. Those women who must earn all expenses for the four years are advised to attend for a longer period than four years.

OCTOPUS SENIOR DRIVE NEARS END

Week's Work Promises Big Alumni Circulation For Next Year

With but four more days of the Octopus drive left, 15 women, under the direction of Lela Hendricks, started on a personal canvass of the seniors yesterday. These women will approach every one of the 900

seniors in order that those who leave school this June can be assured of their copies of the Octopus for the coming year. Those who do not intend to come back next fall may also subscribe at this time.

There will be eight issues of the Octopus with the subscription price of a \$1.75.

The purpose of this campaign is to build up a strong foreign alumni circulation like that of The Lampoon and The Record. These magazines are much indebted to their alumni subscribers for the prestige and heavy circulation that they control. The continuity and longevity of school spirit is engendered by these well-established humorous magazines.

It is not only to establish its own prestige, but to stimulate and keep

alive Wisconsin spirit among its alumni that the Octopus is attempting to put the name of every senior on its list.

Thus far but 11 fraternities and sororities have turned in their totals, which show a ninety per cent response among the seniors of those organizations. All fraternities and sororities must have the returns in by Thursday, June 4. The results of the non-fraternity and non-sorority canvass will be in Saturday, June 5.

SQUARE CLUB

There will be a special meeting of the Square club Thursday, June 3, at 7:30 in the Y. M. C. A. The meeting will be short but the business is urgent. All members are requested to be present and on time.

Y. W. C. A. WORK HAS BIG FIELD

Reports of Cabinet Members Outline Association Activities

Annual reports from 15 student members of the university Y. W. C. A. cabinet show that the constructive work of the association during the past year included not only the promotion of Christian influences and high standards on the campus by means of the religious conference and discussion groups among women, but also co-operation with the local churches to increase church attendance, social service in connection with the city agencies, and community service work among the industrial girls.

The university Y. W. C. A. has been instrumental in bringing noted speakers, whose messages might otherwise never have reached Wisconsin. It originated and planned the vocational conference for women which have opened many avenues for service to the university girl.

It has favored the personal democratic basis of membership in the association whereby any woman in the university may become an active voting member regardless of church affiliation and creed. It aided, three

years ago, to get first action on the personal basis in the national organization. At present it is working to secure the vote of every member on the personal basis in order to adopt it constitutionally for next year.

Social service work has been in connection with the Associated Charities, the day nurseries, playground work, settlement work, and classes in English among foreigners.

Industrial work has been among the industrial girl of Madison who have been organized into clubs to meet weekly for recreational programs, classes in domestic science, civics, politics, and economics. The aim has been to develop leadership among the girls, to fit them for efficient service, and to educate them regarding working conditions. The university girls act only in an advisory capacity so that all the club work is planned and executed by the girls themselves.

The university Y. W. C. A. receives monetary support from student pledges, faculty pledges, alumni pledges, candy sales, and an annual bazaar. It charges no membership fee and receives no monetary support from the university. On its budget it supports a trained secretary, an office secretary, sends \$250 annually to the national organization and pays the expenses of visiting speakers, besides the committee expenses.

During the year committee teas are held, a reception for all university women in the fall, and an annual mixer.

GREEN BUTTON BANQUET

Green Button will hold the an-

nual banquet at the Candy shop on Thursday afternoon at 5:30, June 3. Nomination of officers of Red Gauntlet will take place at the

close of the evening. All freshmen women expecting to attend must purchase tickets before Wednesday at Barnard and Chadbourne halls.

WOMEN NUMBER FIFTY PER CENT IN JOURNALISM

Prove Successful in Entering Wide Field of Newspaper Work

More than 50 percent of the students in the course in Journalism are women. Long ago, when the course was young, newspaper work was considered primarily "a man's job." Now and then a woman, a little bolder and more daring than the rest of her species, would venture to throw in her lot with the masculine crowd. But her life was not easy.

By the time the journalism department at Wisconsin was on its feet, the number of women had increased to 20 per cent. Soon it reached the 33 per cent mark. Last year, just after the war, seventy-nine of the eighty-seven students enrolled in the course were women. And last fall, with the enrollment at the university almost normal again, the number of women exceeded the number of men.

They go in for everything—these women journalists. Out of last year's class, practically every woman is engaged in a field all her own. Frances Holmberg, '19, is managing editor of the Wisconsin Journal of Education. Louise Ludlum '19, who was woman's editor of the Cardinal last year, is today commercial editor of the Sioux City Journal. Harriet M. Pettibone, '19 is editor of the Woman's page of the Milwaukee Journal. Hester Robinson, '19 is writing special feature articles for the New York Evening Sun. Florence E. Collins '19 is editor of the women's department of the Orange Judd Farmer.

The first woman president of Press club is Esther Van Wagoner, who held that position last year.

The class in special feature writing offered in the journalism department is being represented in

many of the big national magazines. Articles written by women in the class this year have been sold to Life, The American Magazine, The Red Cross Magazine, Furniture Review, McCall's Magazine, The Delineator, The Merchants' Trade Journal, and the Outlook, as well as numerous newspapers all over the country.

WOMAN'S HALL HAS PASSED BY FIFTIETH YEAR

The fifteenth anniversary of the date on which the Wisconsin legislature appropriated a fund to build Chadbourne hall, the first dormitory ever built on a co-educational campus in this country, was celebrated May 7 of this year.

The five decades in the history of Chadbourne were represented by separate pageants. A group of eleven women, dressed in gorgeous old silks with puffed sleeves and hoops, gave the prologue to the foundation of women's educational rights. The second stage in the history was the period during which Chadbourne was built, the period when women were beginning to have equal rights with men. From 1880 to 1890 the women began to ask participation in athletics.

It was during this period that Chadbourne was the center of all university activities. The name Chadbourne was given during 1900 to 1910. It was discovered later that President Paul Chadbourne, in honor of whom the hall was named, was an ardent opponent of co-education. The fifth period represented the years 1910 to 1920, the latter years of which Chadbourne was given up to the S. A. T. C.

Sentenced to Death—Seven men, including army officers and civil officials, who participated in the bombardment of Guatemala City in April, have been sentenced to death before a firing squad.
