The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

**“What every nurse
needs to know about
Electrical Safety
In The ICU.”**

This twelve minute videocassette program explains basic information about electricity, and how nurses may best prevent electrical mishaps. Experienced nurses demonstrate the correct electrical safety techniques and show how equipment must be maintained for safe operation in a hospital setting. The program, **Electrical Safety In The ICU**, accompanied by a study guide, addresses the Standards for the Intensive Care Unit established by the Joint Commission of Accreditation of Hospitals (JCAH).

The Pediatric Nurse As Teacher, is a new twenty minute videocassette program which reviews basic teaching techniques for: Infants/Toddlers, Pre-schoolers, School age children and Teenagers. A study guide is provided.

To order these programs, and others in the LexCom award winning, library of videocassette training programs for health care professionals, call or write LexCom. A complete brochure is provided free upon request.
