To our Fighting Badgers the world over we send a warm wish for a Merry Christmas, a Happy New Year, and a speedy Victory.—The Wisconsin Alumni Association.

The  *Wisconsin* ALUMNUS

★ The Board of Visitors of the University of Wisconsin has long served as a direct contact between the university and the citizens of the State of Wisconsin who are responsible for its proper maintenance and support. Six of its members are named by the Wisconsin Alumni Association, three by the Governor, and three by the Board of Regents.

Its present personnel of eight men and four women is recognized as a group of representative citizens which has been actively interested in educational welfare in their home communities as well as in their state university. They bring to the Board of Visitors a splendid background of training and experience essential for a proper study and understanding of the problems of the university. They have studied prob-

lems which must be met in the extremely critical period immediately ahead if the University of Wisconsin is to retain its position of eminence.

Aware of the acute shortage of space and inadequate facilities for teaching, research, and state service in nearly every college, school, and department, the Board consequently has devoted the past eighteen months to a physical inspection and a diligent study of the present building and equipment needs of the University of Wisconsin.

The Visitors believe that members of the Wisconsin legislature and their constituents will welcome a statement which shall reveal the true and unbiased facts concerning the REAL NEEDS OF THE UNIVERSITY OF WISCONSIN.

A SERIES of carefully planned visitations and inspection tours at periodic meeting dates has most effectively demonstrated that the greatest need of the University of Wisconsin is BUILDING SPACE.

This critical situation can be understood when it is realized that most of the present plant was designed to accommodate a student body of six or seven thousand—about one-half of what we believe will be our normal enrollment following the war. During the past fifteen years the development of physical facilities for teaching, research, and state service has been at a standstill. At the same time our neighboring states have continued a normal building and expansion program at their universities.

The goal of the citizens of Wisconsin should be to have the construction program well under way before the centennial celebration of the university in 1948.

The Interim Committee of the 1943 legislature which studied the building requirements of the University of Wisconsin has announced its recommendations for immediate construction as outlined below. The explanatory statements following each of the listed recommendations are based on what the Board of Visitors learned through many visits throughout campus buildings and departments.

1. Fireproofing of Bascom hall stairs and first floor corridors ----- \$ 125,000.00

This must be done to eliminate a recognized fire hazard at the earliest possible opportunity.

2. Library, including land purchase, equipment and utilities ----- 1,791,400.00

No person thoroughly familiar with the University will deny that this is the most important need of the many which exist for new construction. Twenty years ago when the student body was about one-half of what it was in the last normal year before the war, our legislature appropriated money to build a library. The money was not set aside, and the appropriation lapsed. The central library is the heart of the university. Space is required for books, and space must be provided for the large student body which must use them daily.

3. Dairy building, including equipment, utilities and tunnels ----- 580,800.00

Wisconsin is the No. 1 dairy state of the United States, but its dairy industry instruction and research continues to be housed in a small building more than fifty years old. It is obsolete and inadequate and should have been replaced many years ago by a building more in keeping with the reputation which Wisconsin enjoys everywhere as a leading dairy center.

4. Home Economics building wing, re-modelling, equipment and utilities --\$ 209,600.00

The present portion of the building was erected for 200 students, whereas the enrollment is now 600. The women of Wisconsin have repeatedly asked for this structure and will rejoice in this recommendation by the Interim committee.

5. Engineering building and equipment - 1,424,400.00

Most alumni remember the two old yellow brick structures at the lake and Park street, directly west of the new Wisconsin Union theater. Both of these buildings are dangerous fire-traps and are more than fifty years old. They are used for electrical and chemical engineering. Our newer engineering buildings are on University avenue and it is the plan of the university to consolidate all College of Engineering classrooms and laboratories in the new area. Wisconsin is recognized for its rapid important industrial development as it is for its leadership in agriculture. Facilities for its youth to study Engineering must not be disregarded.

6. Chemistry, rebuilding of present structure, equipment and utilities ----- 1,702,500.00

The central portion of the present Chemistry building was constructed of wood more than forty years ago, and it is not fireproof. Its two wings erected later are of fireproof construction. This old section must be removed at the earliest opportunity and replaced, not only to eliminate another fire hazard but also to provide much needed additional space for classrooms and laboratories and to accommodate the requirements of our School of Pharmacy.

The Board of Regents, mindful that there has been no legislative appropriation expended for university buildings in the last fifteen years and sincerely believing that additional new construction requirements exist of practically equal priority, has voted to recommend to the Governor and to the incoming legislature the following listed appropriation requests.

The REAL NEED

... a statement by

7. Added amount needed for foregoing projects due to increased costs -----\$ 636,040.00

It is the opinion of the Administration as well as of the Regents that the estimates of the Interim Committee are too low, especially for the Chemistry and Engineering buildings, both of which require costly equipment.

8. Biology building wing ----- 500,000.00

When the present Biology building was erected, the plans provided for the addition of two wings. This department is now badly overcrowded, and a wing should be erected at this time.

9. Bascom hall enlargement ----- 535,000.00

The College of Letters and Science has a great need for classroom and office space. Plans prepared years ago provide for an additional two floors on the southwest wing and also for a four story northwest wing.

16. Additional amount to cover increased costs -----\$ 460,660.00

The Board of Regents have added this amount to the aggregate of items 8 to 15 inclusive as a protection against possible increased costs which may develop by the time the buildings are completed.

17. Short Course dormitory and equipment 148,600.00

The 1941 legislature appropriated \$200,000.00 for construction of a Short Course dormitory. This building and equipment as now planned will cost \$348,600.00 and therefore requires a further appropriation of \$148,700.00. Our present Short Course dorm is an old wooden barrack and a relic of World War I.

Combined Total of all Interim Committee and Board of Regents recommendations -----\$12,334,000.00

The Board of Visitors endorses each of the recommendations listed by the Interim Committee and by the Board of Regents. They are vitally essential to the welfare of the University of Wisconsin and must no longer be deferred.

While the sum of approximately twelve millions of dollars is recognized as considerable, do not forget that had the legislature provided an average amount of one million dollars annually these past fifteen years and utilized PWA to its fullest possibilities, as was done at some sister state universities, and even by ourselves in the construction of dormitories and the Wisconsin Union Theatre, we would not be faced with any such critical building or expansion problem at the University of Wisconsin today.

The University is the proud heritage of the citizens of the State of Wisconsin. They, as well as the alumni everywhere, maintain a deep and abiding pride in their great University. They can appreciate that the deficiencies in the physical plant has a marked bearing on the nature and quality of the teaching, the research, and the services it is able to render to the state. Once fully and accurately informed we believe they will actively urge that the appropriations suggested by both the Board of Regents and the Interim Committee are voted by the incoming legislature.

Your Board of Visitors desires to encourage every senator and every assemblyman to visit the University of Wisconsin at their earliest convenience and spend as much time there as possible, particularly in studying the building problem which must be faced courageously and solved at this next session. We likewise recommend this procedure to interested citizens and alumni. We are fully confident that once all of our representatives are adequately informed as to the real needs of the University of Wisconsin, necessary and adequate financial support will be appropriated without further delay.

Let the alumni and citizens generally unite with a firm determination that the leadership of the State of Wisconsin be best reflected by the leadership of the University of Wisconsin.

Signed:

Basil L. Larson
PRESIDENT

M. A. Jacobson
VICE PRESIDENT

Maudie Maxwell Munroe
SECRETARY

f the UNIVERSITY

ard of Visitors . . .

10. Bacteriology building and equipment 250,000.00

Separate and centrally located facilities for all students should be provided.

11. Administration and Extension building 500,000.00

Construction of the new library will be on the site of the present Business Administration building at State and Park streets. Home Economics will require the space in their building used by the Extension Division. This new building could house all of the Administration and Extension activities.

12. Central heating station, electrical distribution, utilities, safety devices and alterations ----- 1,000,000.00

It is obvious that the requirements of an estimated additional 12,000,000 cubic feet will necessitate a major expansion of all heating, electrical, sewerage, and water facilities.

13. Physical Education—Men's Gymnasium 1,000,000.00

There has been no provision for physical education of men other than the old Armory built exactly fifty years ago when the enrollment was about 2,000 students. No high school of large size in the state is as poorly equipped, and no university of comparable size is compelled to utilize such an obsolete structure. This essential facility should be provided by the time our boys return to the campus at the end of the war.

14. Milwaukee Extension division building addition ----- 470,000.00

Plans for an addition to the Milwaukee Extension building have been prepared so that men and women enrolled there might have space comparable to that planned for the campus at Madison. Many of the students from the Milwaukee Extension later enroll at the university at Madison to obtain their degree.

15. Dormitories and Housing ----- 1,000,600.00

More housing in the immediate post-war period must be available. At present the university has no provision for housing its married graduate students. Living space for both men and women students in Madison is at a premium and the situation will become critical at the conclusion of present hostilities.

UNIVERSITY NEWS

New Degrees

Four new degrees to be conferred upon fulfillment of certain requirements have been recently established by the faculty. The subject of the degrees must next be approved by the Board of Regents before they are put into effect.

The new degrees are as follows:

Master of science degree in engineering field or without designated field so long as all requirements in prescribed studies on-campus or off-campus are met satisfactorily;

Professional engineering degree, to be granted graduates of Wisconsin or other comparable schools upon completion of 24 credits of graduate study over a period of at least two years;

Master of business administration degree, to be granted on the basis of existing requirements for the present degree of master of arts of philosophy in commerce, to be effective for students starting their work during the current school year; and

A new bachelor of science degree in light building industry based on work and study in a new curriculum presented by the faculty of the school of commerce.

Gifts and Grants

Most of the money given to the university this month had to do with projects related to the College of Agriculture.

The Oscar Mayer company of Madison gave \$23,700, which will be combined with a previous grant to be used for study of the losses of swine due to nutritional deficiencies.

That company also gave the university \$400 to be used for scholarships to the short course.

\$2,800 was accepted from the Aeration Processes, Inc., Columbus, Ohio, for work on the absorption of substances on fat globules in dairy products.

Several scholarships were also established from grants and bequests left the university. The American Foundation for Pharmaceutical Education contributed \$400 for the renewal of its scholarship.

The late Prof. Benjamin W. Snow left about \$20,000 to establish a scholarship fund known as the "Agnes Butler Snow Fund" for scholarships to worthy students.

Other gifts accepted include \$100 from Mrs. A. F. Karcher, Burlington, Wis., for cancer research; \$3,300 from Eli Lilly and Co., Indianapolis, for a scholarship in organic chemistry; \$250 from the A. O. Smith Corp., Milwaukee, for the Journal of Land and Public Utility Economics; and \$1,278 from the Wisconsin Alumni association toward the Julius Olson Scholarship-Loan Fund.

Four books containing examples of Russian art were presented to the university by Joseph E. Davies, former United States ambassador to Russia.

Shafer Memorial

A spontaneous and widespread demand for a suitable memorial to Allen Schafer, varsity quarterback who died after receiving an injury on the football field a month ago, has resulted in the establishment of the Allen Schafer Memorial Fund.

Dr. Herbert S. Gasser, '11
Won jointly the 1944 Nobel prize
in medicine

Wins Nobel Prize

Dr. Herbert Spencer Gasser, '11, was recently awarded one of the Nobel prizes in medicine, it was announced by the Nobel Foundation in Stockholm.

The 1944 award went jointly to Dr. Gasser and to Joseph Erlanger, for the work they had done in studies of the individual nerve threads. The recipient of this world wide honor was also the recipient of an honorary doctor of science degree by the university in 1941.

Born and raised in Platteville, Wisconsin, Dr. Gasser came to Wisconsin only after his father, a well known Platteville physician, insisted that he study biological science. Gasser was originally a student of mathematics, but when his father refused to finance university work unless it was in biology, young Gasser decided to change fields.

A serious student, Gasser took his B.S. degree in 1910 and his M.A. in 1911. While attending medical school he became interested in physiology and served as an instructor in that department for two years. He also taught pharmacology on the campus here.

He finished his M.D. at Johns Hopkins university in 1915.

Dr. Gasser has been a director of the Rockefeller institute for the last ten years, having been appointed to that position when he'd already made quite a name for himself for his research on the electric current set up in the body's nervous system.

Dr. Walter J. Meek, acting dean of the medical school, has called Gasser "easily the most distinguished graduate" of that school.

He is internationally known in his field and has published papers on biological oxidation and on the application of the cathode ray tube to investigations of the nervous system.

Centennial Plans

Plans for the University of Wisconsin centennial, which will be celebrated in the 1948-49 school year were discussed recently at a joint meeting of the Board of Regents and the university centennial committee.

Projects which were tentatively considered included the joint celebration of the admission of Wisconsin to statehood in 1848 and the beginning of university instruction in 1849, publication of a history of the university, publication of a history of the state, publication of a directory of all university alumni, and various music, dramatic, and athletic events.

In order to commemorate the year of its founding the University will endeavor to make 1948-49 a year of distinguished educational work.

Members of the centennial committee include Regent Walter Hodgkins; Pres. C. A. Dykstra; Chairman W. H. Kiekhofer; E. P. Alexander, director, State Historical society; John Berge, secretary, Wis. Alumni association; F. O. Holt, director of the department of public service; and Professors H. C. Bradley, R. A. Brink, J. G. Fowlkes, Paul Knaplund, A. T. Weaver, and M. O. Withey.

The WISCONSIN ALUMNUS is published monthly, October through July, by the Wisconsin Alumni association and is entered as second class matter at the post office at Madison, Wis., under the act of March 3, 1879. Subscription to the ALUMNUS (included in the membership dues of the Wisconsin Alumni association) is \$2. a year; subscription to non-members is \$4. per year.

Vitamin Patent Invalid

Patents held by the Wisconsin Alumni Research Foundation for the production of Vitamin D have been declared to be invalid by the United States circuit court of appeals in San Francisco.

In a decision made in June of 1943 this court also declared the patents invalid, but the court withdrew its decision in August of 1944, just a year after the Research Foundation had filed a petition for the rehearing of the case.

Now the court reaffirmed its original decision, stating in addition that the Wisconsin process had been foreshadowed by work done by European scientists. The court repeated the statement made before that the process corresponded to a process of nature and, therefore, was not patentable.

George Haight, president of the foundation, indicated that the foundation might file a petition for a rehearing or an appeal to the United States Supreme court, pending receipt of a copy of the court's decision.

Gov. Walter S. Goodland
Throws his support to the university

Gov. Goodland

In his first press conference since being elected governor of Wisconsin for the 1945-47 term, Acting Governor Walter E. Goodland expressed his realization that one of the major considerations before the legislature this winter will be the appropriation due the university.

"The state and the legislature have got to face the situation at the university and have got to provide a substantial appropriation to equip it to do its business out there," he declared. "The legislature and the state have got to make up their minds that we've got a good university and we must keep it that way and equip it to do a good job."

Goodland's budget conferences began early this season, and he intends to present his recommendations to the legislature during the first week of their 1945 session.

Goodland has stated that the two chief matters facing the legislature are the appropriations due the university and those due the state's penal and charitable institutions.

Faculty Salaries Too Low

Unless salaries are increased among faculty members and the physical plant is improved, the University of Wisconsin will have difficulty in meeting competition with other state universities for faculty members, a faculty committee asserted in a report submitted last month at a faculty meeting.

Wisconsin is at "a substantial salary disadvantage" in its upper faculty ranks as compared with other leading state universities of the nation, and "plans should now be made looking forward to an adjustment of university salaries in the light of present and reasonably to be anticipated future economic and competitive conditions," the committee concluded.

Explaining that the amount involved in this salary revision should be substantial, the committee did not suggest a specific plan, but asserted its confidence that "the administration, in view of the situation which we have pictured and the data we have gathered, will wisely decide how to make these needs known to the people of Wisconsin."

Waivers

The report revealed the history of salary changes at the university during the last 15 years, and reviewed the effect of the depression salary waivers applied in 1932-33 and the recovery which has been made since 1937. It praised the action of the regents in accepting President Dykstra's recommendation to restore all salary waivers.

However, the committee disclosed that "only among instructors has the average salary regained and risen above the 1929-32 average. The average salary of instructors for 1944-45 is about \$200 higher than the 1929-32 figure. For assistant professors the average salary this year is about \$70 below the 1929-32 level, and that for associate professors is about \$200 below. Full professors salaries for 1944-45 are about \$300 below the pre-waiver figure."

Costs Are Up

During the last five years the cost of living has increased. The report states that "on the average throughout the United States the cost of living in 1943 has advanced nearly 25 per cent over what it was five years earlier."

"Members of the faculty as a whole are in the uncomfortable position of having less money to spend, of getting less for what money they do have, and of being asked to meet heavier demands upon their resources than ever before."

"The committee believes therefore, that the time has come when some reasonable adjustment of university salaries from the lowest to the highest should be made upon the basis of increased living costs."

"That part of the report dealing with the competitive condition of the university shows that Wisconsin compares unfavorably with the other four institutions with which comparison was made in the rank of full professors, and that this is true even when the restoration of waivers is taken into account. This obviously puts Wisconsin at a disadvantage in respect to either retaining or securing the services of mature scholars."

Act Soon

"The Committee believes that a general salary revision should be undertaken as soon as possible because if salary adjust-

ments are delayed or are made only in response to acute post-war competition, there is danger that they will benefit chiefly those fields in which the demand for personnel currently is the most brisk and in age classes most favorable to change of location."

Six faculty members make up the university committee which submitted this report. They are chosen on a university-wide basis, and they deal with problems of the faculty and the university as a whole.

Prof. W. A. Brink is chairman of the committee, J. G. Woodburn is secretary, and W. R. Agard, W. H. Kieckhofer, O. S. Rundell, and E. L. Sevringhaus are members.

Presidential Committee

The board of regents recently named a five man committee to work at finding a successor to President C. A. Dykstra who will leave about February 1st.

Committee members are A. Matt Werner, Sheboygan, chairman; Frank J. Senzenbrenner, Neenah; Leonard J. Kleczka, Milwaukee; Walter Hodgkins, Ashland; and John Callahan, Madison.

The board also approved a motion inviting members of the faculty to appoint a faculty committee with which the regent committee can consult and advise.

WARF Manager

The Wisconsin Alumni Research Foundation recently announced the appointment of Ward Ross, '25, as general manager and counsel of their organization.

Ross attended Harvard Law school after receiving his bachelor's degree from Wisconsin and since then has been affiliated with the law firm of Haight, Goldstein, and Hobbs in Chicago. He has served the Foundation as general counsel for a number of years.

Ross is the son of Emeritus Professor E. A. Ross, well known sociologist.

Commerce Dinner

More than 450 people attended a dinner held recently in Milwaukee to commemorate the establishment of the new School of Commerce and to honor the appointment of Fayette H. Elwell as dean of the new school.

Sponsored by a number of friends and supporters of the new school, the dinner was given by the Milwaukee chapter of the Wisconsin Society of Certified Public Accountants, the Milwaukee Association of Commerce, and the Milwaukee Alumni association.

Chairman of the meeting was Carl E. Dietze, '13, representing the Wis. Society of CPAs. Members of the Board of Regents and the Wisconsin State Chamber of Commerce also attended.

Frank O. Holt, chairman of the department of public service, was toastmaster for the dinner and introduced speakers representing a number of interested groups. They were Dr. Stewart Scrimshaw, associate dean of the School of Business of Marquette university; William J. Petersen, executive secretary of the Wisconsin State Chamber of Commerce;

Dan McNally, representing the Milwaukee Association of Commerce; Willard G. Ashchenbrenner, commerce graduate of '21, president of the Wisconsin Banker's association; Prof. Philip G. Fox, representing the faculty of the School of Commerce;

John Berge, executive secretary of the Wisconsin Alumni association; Leslie W. Van Natta, '18, president of the Wisconsin Society of CPAs; Edmund B. Shea, '13, president of the Wisconsin Bar association, and Dean Fay Elwell, School of Commerce head.

Elwell was presented with an honorary membership in the Wisconsin Society of CPAs, and was recipient of a number of telegrams and letters of congratulation from commerce graduates and leaders in the field of commerce.

Harold B. McCarty, '30
Executive secretary of state radio council

State Radio Council

Something new in the services of the university to people throughout the state was begun last month when representatives of the university and various state agencies met together at the suggestion of the Board of Regents and formulated the first state radio council.

Called to order by Pres. Dykstra, the council formulated its statement of purposes at this first meeting. These purposes are:

1. To educate by radio in its broadest sense.
2. To write a platform of policies regarding the use of radio as a state service.
3. To study the possibilities offered by frequency modulation and draft a plan for the use of frequency modulation for the benefit of the people of the state.
4. To recommend appropriations necessary for maintaining adequate program service.

Members of the council include Gov. Walter E. Goodland, honorary chairman; President Dykstra; Harold B. McCarty, director of WHA and executive secretary of the council; Frank O. Holt, director of the department of public service;

H. L. Ewbank, chairman of the university radio committee; E. G. Doudna, secretary of the state board of normal school regents; John Callahan, state superintendent of education; C. L. Greiber, director of state vocational education; M. H. Button, director of the state department of agriculture; L. H. Adolphson, associate director of the Extension Division; C. J. Anderson, dean of the School of Education; and Warren W. Clark, associate director of agricultural extension.

McCarty explained that "part of the job of the council will be to study frequency modulation (a new method of transmission which is free of static), and to recommend to the proper state agencies the applications for frequency modulation channels.

The council set up two committees, one on program service, with Holt as chairman, and one on technical planning, with Ewbank as chairman.

Health Education

Plans are being made now for a future program enabling students to take a minor in the field of health education. The complete program won't be set up for several years, but courses are being arranged now.

Under a grant given to the state by the Kellogg Foundation, Dr. Warren H. Southworth has been appointed associate professor at the university. He will probably hold his present position as director of the state health program for about five years, after which he will become a full-fledged staff member teaching health education.

Dean C. J. Anderson of the School of Education is a member of a state wide committee on health education. Dr. Florence Mahoney of the women's physical education department will start a course on health education for women in the near future, and an additional physician will be appointed to the men's physical education department to teach the same thing to men students.

Social Work Course

In answer to the request of Public Welfare Director A. W. Bayley who suggested that the university establish a school of social work, the board of regents decided to appropriate \$1800 to finance an additional course in that field.

The subcommittee of the board which studied the matter felt that courses now in effect cover most of the training which Bayley requested, but they recommended an appropriation sufficient to cover the establishment of one additional course.

Ag Conference

Wisconsin agricultural leaders and leaders of organizations interested in the farm and general welfare of the state, spent two days in Madison recently attending a conference on postwar problems which was sponsored by the extension service of the College of Agriculture.

Warren Clark was chairman of the conference arrangements, and the programs were presented by committees appointed by Dean E. B. Fred. Committee reports on rural problems were followed by discussion.

BADGER BOOK SHELF

GEORGE BANCROFT, BRAHMIN REBEL. By Russel B. Nye, MA '35, Ph.D. '40. New York: Alfred A. Knopf, 1944.

What makes a Graduate school great? One answer, I suppose, is its ability to meet the competition of other schools. Beyond the mature contributions of its own faculty, its greatness must be proved by its ability to attract students who can, under its

direction, carry on and publish purposeful contributions to scholarship which win the commendation not merely of local teachers but of a disinterested jury of the ablest veteran authorities of national standing. We have long been confident of our science departments, but can our departments of the humanities meet such a test? Here is some heartening evidence.

Russel Nye's *Bancroft*, based on a UW dissertation, won him the much-coveted Alfred A. Knopf prize of \$1200 in the face of national competition, an assistant professorship at Michigan State college, a Rockefeller Fellowship, and national acclaim among outstanding critics. Among eminent historians, Henry S. Commager reviewed the *Bancroft* as "the definitive biography"; Allan A. Nevins, director of the NBC's "Cavalcade of America," concludes (in *The Saturday Review*) that Mr. Nye "thoroughly and succinctly explores every part of Bancroft's activities and competently surveys his numerous achievements"; Odell Shepard, winner of a Pulitzer Prize for Biography, concludes in *The Nation* that it is "a sound and refreshing book about one of the chief moulders of the prevailing American mind and mood"; Edmund Wilson's section of *The New Yorker* alert for human interest, found Mr. Nye's book "as good a life . . . as we are likely to have," while *Time* magazine in its two-column review, finds nothing to censure and praises the book as "erudite, close-packed, readable." The Dean of the Harvard Graduate school, Howard Mumford Jones, UW '14, eminent authority on Bancroft's period, devoted a full page of *The New York Times Book Review* to showing that the book is "a solid historical contribution."

While I agree heartily with these verdicts, what impressed me most in the book is its balance, the way in which Mr. Nye has seen his subject "in the round" and has worked out, in smooth texture, the complicated "cross-fertilization" of all Bancroft's ideas—religious, humanitarian, political, social, economic, historical, and cultural—and demonstrated the extent to which they were conditioned by current events. Bancroft not only wrote a ten volume *History of the U. S. (1834-1876)*; he made history—as a pioneer in educational reform and popularizer of German philosophic ideas, as Secretary of the Navy and later Secretary of War, as our Minister to England (1846-9) and to Germany (1867-74), and as the head of the Democratic party in Massachusetts. Combining colorful narrative with just interpretation and well balanced criticism, Bancroft's story is unfolded with the symmetry of a flower, complete and proportioned to "The Last Leaf." It is not untouched with beauty. If, as Mr. Nye shows, Bancroft's central theme was a faith in the verdicts of the majority of the common people, a conviction that history is the record of God's purpose in ordering the progress of the world, a belief in the high destiny of America, it is heartening in these days to be reminded, in so entertaining a way, of the optimistic doctrines which helped to give our forefathers the courage and determination to make democracy humane and eminent. And it is a good omen that the UW Graduate school can attract and train students capable of producing such books of finished scholarship and broad human appeal, books which win national acclaim among those most competent to judge them.—Harry Hayden Clark, Professor of English.

Prof. John Guy Fowlkes
Now dean of summer session

Fowlkes is Dean

Prof. John Guy Fowlkes, director of the summer session since 1942, has been raised to the status of full dean of the summer session, by action taken by the board of regents recently.

President Dykstra explained that "Because of the confusion of the term Director in connection with the summer session, the status of directors as reporting to deans and the fact that the head of the summer session is a liaison officer between the president and the deans, together with the fact that for so many years the director of the summer session has been known as dean, it is recommended that the title of director of the summer session be changed to dean of the summer session."

Dean Fowlkes has been a member of the faculty since 1922 and has been a full professor since 1927. He holds a Ph.D. degree from Columbia university, is a member of many educational associations, and is the author of many books in the field of education.

National Committees

Three faculty members will serve on committees of the Association of Land-Grant Colleges and Universities next year, it has just been announced.

President Dykstra served as chairman of the executive committee for 1944 and will continue to be a member of this committee in 1945. He will also continue to be a member of the committee on relationships with the federal government.

Miss Frances Zuill, director of home economics, will serve as vice-chairman of the home economics section of the association for 1945.

Noble Clark, associate director of the agricultural experiment station, will remain chairman of the post war planning committee and will also start a term as member of the experiment station organization and policy committee.

Scientists Win Awards

Dr. A. O. HOUGEN, professor of chemical engineering, was made recipient of the 1944 William H. Walker award of the American Institute of Chemical Engineers for his outstanding contributions to chemical engineering literature.

The award was based on two papers Dr. Hougen prepared for the Institute's transactions on the subjects of the drying of solids, and heat, mass, and momentum transfer in the flow of gasses through granular solids.

* * *

Malcolm Robert IRWIN, professor of genetics, was awarded the 1938 Daniel Giraud Elliot medal by officials of the National Academy of Sciences, when they met recently in Washington, D. C.

The medal was given for the "most meritorious work in zoology or paleontology published during the year." The article published by Irwin appeared in the *Journal of Genetics* and dealt with the general subject of hereditary differences and similarities in closely related species of pigeons and doves.

This medal originated during the period of the Civil War, having been established by Congress then and approved by Pres. Lincoln.

Write History

Two faculty members now on leave from their duties on the campus are busily engaged in writing war histories for the United States Army. They are Prof. Merrit Y. Hughes, former head of the English department, and Prof. Mary C. Devereaux, of the library school.

Hughes, now a major in the army, is following up Lt. Gen. George C. Patton's Third Army and is writing its history from the recently used battlefields. The triumphant military history has taken Maj. Hughes to France and most recently to the western front where Patton's troops have engaged in successful campaigns for the Metz fortress.

After enlisting in the army, Maj. Hughes was returned to the campus briefly for a course of study with the civil affairs training school for officers who were later assigned as aides and attaches to Allied governors of liberated territories in Europe.

Miss Devereaux is on leave to work with the army air forces where she is writing the history of the army air forces technical command, including flying and technical training.

She has recently been transferred from St. Louis, Mo. to Ft. Worth, Tex., where she is located at the headquarters of the technical command.

Miss Devereaux expects to complete the history by September 1945.

Curry's Painting

John Steuart Curry's painting, "Our Good Earth—Keep It Ours!" will be given to the College of Agriculture for its permanent art collection. It was originally painted for the U. S. Treasury department at the request of treasury officials, and has been widely used on war posters.

To Go Overseas

Dr. Elmer L. Sevringhaus and Coach Harry Stuhldreher may carry the fame of the Wisconsin campus abroad soon.

Dr. Sevringhaus has been given permission by the regents to take a leave of absence with pay to go to Italy to study the nutritional deficiencies of the civilian population for a period of approximately four months. He will join a 12 man team of scientists from American universities on the research trip. His departure date depends upon the approval of the United Nations Relief and Rehabilitation Administration in Italy. He will serve as clinical director of the team and will be continuing the type of nutritional research he has done at Wisconsin. The results of this experimentation will help determine the extent to which rehabilitation of the starving populace can be accomplished by nutritional correction.

Coach Stuhldreher has been granted a three month leave with pay by the board of regents so that he can accept a request of the special services division of the war department if he is finally chosen by the division. His trip would take him to overseas camps where he would be engaged in demonstrating and promoting various sports.

Vivas

Prof. Eliseo Vivas, of the university philosophy department, was appointed visiting professor to the University of Chicago last month and began his courses Nov. 10. He is giving a series of philosophy lectures as well as a course in "The 100 Great Books."

He has been granted a year's leave of absence by the Board of Regents and will come back next summer to an associate professorship in the department of comparative literature. One of the most popular courses on the "hill" has been his "Philosophy of Contemporary Literature".

Last March Prof. Vivas accepted a special invitation from the National University of Mexico to participate in the Inter-American Cultural Exchange program, a cooperative Pan-American enterprise. As a good-neighbor envoy, the Venezuelan born professor delivered a series of lectures on contemporary American philosophy. In 1941 Professor Vivas was visiting professor of contemporary philosophy at the University of Puerto Rico.

Currently an editor of the new *American Bookman*, he is a former editor of *Kenyon Review*, has contributed to scholarly quarterlies, reviews, and technical journals of philosophy, esthetics, and literary criticism. In 1939 he was visiting professor of contemporary philosophy at Columbia university, and the same year accepted a Guggenheim fellowship, publishing a study of the esthetics of George Santayana.

Russian Literature

When Rockford College arranged its Institute on Contemporary Russia which it conducted during November, three Wisconsin faculty members were chosen to lead

a discussion on Russian literature, in an open forum.

They are Dr. Philo M. Buck, professor of comparative literature; John Steuart Curry, artist-in-residence; and Dr. Edmund I. Zawacki, assistant professor of Slavic languages and literature.

Educators from all over the country attended the institute.

Dykstra Portrait

Faculty members are now contributing to a fund to pay for a portrait of President Dykstra which will be a tribute to their chief administrator.

Two committees have been set up, one to chose an artist to paint the portrait, and the other to accept contributions to pay for it. The portrait which will probably be hung with those of all other presidents of the university, in Bascom hall, will be presented at an occasion held in honor of Pres. and Mrs. Dykstra.

Prof. MeKeel

A nation anxious to improve the race relations in future generations should start by training their small children to be free of race prejudice, Prof. H. S. MeKeel declared before the National Committee for Mental Hygiene at their annual meeting in New York recently.

"Race prejudice is one of our widespread folkways . . . Most of our children begin to learn one form or another from the minute they can sit up at the family dinner table.

"If we raise children who are more free in their expression, we may have less neurotic adults."

Kahlenberg Papers

The original papers of the late Prof. Louis Kahlenberg (1870-1941) are being collected by some of his former students with the assistance of Prof. H. A. Schuette, and three bound volumes of reprints of these papers will be presented shortly to the State Historical society.

This memorial project has taken several years of searching, and some 145 titles have been compiled. The funds for carrying on this work were largely furnished by Robert F. Koenig, '07, of Freeport, Ill.

Prof. Robert L. Reynolds
Spoke to faculty about London

FACULTEACHINGS

• . . . President Clarence A. Dykstra—"Why We Need to Plan Now" (presented to the South Central Wisconsin forum on postwar planning.)

"We must join to provide the employment which is the condition precedent to peaceful living. Neither agriculture nor manufacturing can provide the share of employment they once did, and the service occupations are therefore of larger importance.

"Free enterprise must face the question of public employment and what it means. We must have the field of private services and the government tied together.

"Since responsibilities come home to roost in home communities, post war planning becomes a very real responsibility. We should plan now to understand the problems we will be up against and be ready to act when the need is upon us.

"I believe the democratic system will work its own way out not only for the benefit of our people, but of the whole world."

• . . . Professor John M. Gaus—"Grass Roots Democracy and the Future" (presented to the Milwaukee County League of Women Voters.)

"We must try continually to determine the social changes in our communities. Only in this way can we plan for the development of communities in which we will feel more at home, less strained and jittery, and less intolerant—because we will know a little more as to where we are and whither we are tending."

"The metropolitan area, made up of the city and its suburbs, becomes a physical and functional organic unit, but it is not unified politically. Herein lies, perhaps the chief municipal governmental problem of our generation.

"In offering places to live and sites for business, the city is thrown into competition with the suburbs. The city maintains public services which have to be duplicated in the suburbs. That is why we hear talk of urban development, the need for slum clearance and public housing. These become necessary to secure the government's interest in home mortgages."

Scott Dies

Prof. William A. Scott, 82, former director of the school of commerce, died at his home in Winter Park, Fla. on Nov. 6.

Prof. Scott was a member of the faculty for a total of 39 years, having been commerce director for 27 years. He taught political economy and was the author of a number of books on the subject of money.

He is survived by his wife and son, Stuart.

Babcock Memorial

The late Dr. Stephen M. Babcock is being remembered in the establishment of two more memorials.

Recently the board of regents here voted to place a special plaque of commemoration on his monument in Cassville, N. Y., where Babcock is buried.

A Babcock memorial garden of hollyhocks is being started at Tufts college, Medford, Mass. where Dr. Babcock took his first college work. Seeds from the Babcock gardens here have been planted in the Tufts garden.

Reynolds on London

Life in crowded wartime London was the subject Prof. Robert L. Reynolds talked about to members of the University club at an informal dinner meeting recently.

Limited recreational facilities for American soldiers are creating a problem for American and British authorities in England. Many public places have been forced to close. The means of transportation are exceedingly congested, declared Prof. Reynolds.

Much of the English countryside has been converted from pasturage to plowed land in order to step up food production. Reynolds explained that he had been served Wisconsin dairy products in London restaurants.

In referring to the robot bomb attacks, Reynolds said, "If they had come a lot sooner and a lot harder, there is no telling what demoralizing effect they might have had on the British population."

Reynolds returned to the campus this fall after two and a half years in government war service, 13 months of the time in London.

Faculty Notes

Maj. Gen. John S. WOOD who is now commanding the 4th Armored division, one of the spearheads of Patton's army, is the same John S. Wood who served as ROTC commandant at the university for four years during the twenties. He was a major at that time.

Frank O. HOLT, chairman of the department of public service, has been appointed by Gov. Goodland to serve on a committee which will pass upon and determine qualifications of educational and training institutions for World War II veterans who desire to take advantage of state or federal aids.

Mrs. Etta S. GILLIN, wife of Emeritus Professor John L. Gillin, passed away on Nov. 15 in Madison after an illness of eight weeks.

A Liberty Ship has recently been launched in Panama City, Fla. bearing the name of the late Ransom A. MOORE, former head of the agronomy department.

Capt. Gilbert H. DOANE, director of libraries at the university, recently spent a week visiting Madison on his way to Ft. Ord, Calif. He had just returned from nearly nine months in the European Theater, coming directly from France.

Prof. J. B. KOMMERS of the mechanics department of the College of Engineering, recently attended a meeting of a war research committee in New York. His special field of interest is that of fatigue of engineering materials. He is co-author of the first American textbook on that subject.

Annie Marie PITMAN, professor of Greek and Latin in the Extension Division, was recently granted the status of emeritus professor by the board of regents. Prof. Pitman retired a year ago after "long and distinguished service", according to Pres. Dykstra's tribute to her.

Class Elections

Co-eds are making a great bid for that type of recognition which has always gone to men students on the campus.

This year two of them ran for junior class president—an office which has always been practically synonymous with the title, "Prom-king." It was understood that if either of them won, the prom, which will be held on January 26, would be ruled over by the "Queen" and her escort.

However, the campus voters decided that a real "king" might be more appropriate. Jerry Wulk, Marion, Wis., an activities man around the Union, was elected class president.

Seniors are being ruled by a woman, though, this year. Their choice for class president, Martha Woodling, Wauwatosa, Wis., was also last year's prom queen. It is no common thing for a co-ed to be prom queen one year and class president the next.

War Council

War council, a representative board of nine key students who are involved in war activities on the campus, is continuing its job of coordinating all such activities by sponsoring new projects as the need for them arises.

The most recent demand is that for war workers in the RMR corporation which makes small batteries for walkie-talkie sets. A recruiting program for part-time workers on Saturday and Sunday is well under way. It is expected that through the project the 200 necessary workers can be located.

In connection with the 6th War Loan drive, the council held a rally on the lower campus at which the university band played and various servicemen explained the need for the bond drive by relating some of their own personal experiences.

Women students in organized houses have wrapped a number of Christmas presents in a project which WSGA sponsored.

Thanksgiving Service

An hour-long Thanksgiving service was held for all students on Thanksgiving morning in the Union Theater, sponsored by the university committee on lectures and convocations.

Gov. Walter Goodland represented the state, President Dykstra the university, and Capt. L. K. Pollard, commanding officer of the naval training schools, the armed forces.

Thanksgiving hymns were sung by the congregation, led by Prof. E. B. Gordon and a choir.

Veterans Welcomed

A smoker was held last month for the veterans who are enrolled in the university this semester. Pres. Dykstra was the main guest speaker, and the program also included Capt. Price of the Veteran's Administration, Col. Levenick of the Veteran's Recognition board, and Bill Rodiger and Anne Boegholt, leaders of the student

Prof. Joel Stebbins congratulates Dudley Huppler, '39
Huppler's unusual watercolor won the Capital Times purchase prize at the annual Wisconsin Salon of Art held in the Union during November

board and the Memorial Union student activities.

Wisconsin Players presented a program and several students gave musical selections.

Veterans were made to feel welcome to Wisconsin and were urged to join campus organizations in order to meet their classmates.

Deans and professors were on hand to make the acquaintance of the veterans.

Pipes For Coeds

The cigarette shortage appears to have done things to co-ed smokers. The proprietor of a State street tobacco shop has announced that in the last month he has sold at least 70 little pipes, and all but about three or four, were sold to college girls.

Slow Down

Some old-timers think the campus crowd goes just too fast this day and age. Apparently some university authorities do too, for since Dec. 1 a ruling has been in effect which aims at slowing things down.

The regents approved the 15 mile-per-hour speed limit on most of the roads and streets in the university area. Everything enclosed by the boundaries made by S. Park st., University ave., Elm drive, Lake Mendota, and the stock pavilion falls under this "go slow" ruling.

Law School Small

This year only 59 students are attending the Law School as compared with a peacetime average of 400 students per semester, it was recently announced by acting dean Oliver S. Rundell, professor of law.

Ten of the students enrolled now are veterans, and eight are women. Three students left school this semester, two for the army and one for Hollywood.

Prof. Rundell explained, "The proportion of lawyers in active service is probably higher than that of any other profession. In times of peace, the lawyer more than anyone else represents the soldier-civilian dispute. He carries on torrensic battles, but he isn't trained for war. When war comes, he has no training which will qualify him for noncombatant service."

Foreign Students

The registrar's figures show that at present some 68 foreign students are enrolled on the campus. Of this group the largest delegation is from China, the second largest from the Territory of Hawaii, and the third largest delegations are from Canada and Iceland, which have the same number of students attending.

Theater

The Wisconsin Union theater is celebrating its fifth anniversary this year with a greatly stepped up schedule of concerts and plays.

The concert series, celebrating its 25th anniversary season, offered Ezio Pinza, Metropolitan basso; the Serge Jaroff Don Cossacks; Bidu Sayao, Met. soprano; Isaac Stern, violinist; and Luboshutz and Nemenoff, duo-pianists. Concerts have become a Madison as well as university tradition and for the first time in the drama group's 23 year history, the season books were sold out—and that about three weeks before the first show. To satisfy patrons another performance was booked for each of the artists. This year one out of every five students is attending the concert series.

The campus was jubilant when theater manager Charles Owens was able to book the Theatre Guild's "Othello" with Paul Robeson, Jose Ferrer, and Uta Hagen. Originally scheduled to play at the Parkway, the two theaters got together and decided it would be appropriate to have Uta

Hagen, daughter of Prof. Oskar Hagen of the art history department, play at the campus theater.

The Play Circle was showing "Orphans of the Storm" with the Gish sisters and Joseph Schildkraut recently when by a coincidence Schildkraut was playing in person at a local theater in "The Cherry Orchard". At Fred Buerki's invitation Schildkraut came over to see the film which, produced in 1921, showed him as a very young man. He kept up a running commentary on the sets, costumes, actors, and students stayed past their dinner hours to see the film with him.

SPORTS

Basketball

"We ought to win a few games," says Coach Harold "Bud" Foster in discussing the prospects of his Badger basketball team, but there are those on the campus who feel that the Badgers have a championship club, for the team has experience, height, and speed. Coach Foster has been working with it since school opened in the fall.

Veterans around whom Foster has built his squad are six-foot, two-inch Ray Patterson, who is being tried at forward this year instead of his usual center spot, because the Badgers have taller men for the pivot position; six-foot one-inch forward Des Smith; guard Bill "Smiley" Johnson; forward-guard Kurt Grim; and guards Bob Hollinger and Gene Mathews.

Lending height to the squad are the boys who are battling it out for the center post: six-foot, six-inch All-City center Don Rehfeldt of Chicago, and six-foot, four-inch Bill Bachman of Cincinnati.

The Clinics

"Successful" is the term Basketball Coach "Bud" Foster uses to describe the basketball and boxing clinics which stumped the state between Nov. 17 and Nov. 25 to create greater interest in the two sports in the various areas.

The clinics consisted of demonstrations for high school coaches and their squads in the various areas, with nine basketball players under Foster's direction, and several boxers, under the guidance of Vito Schiro, former Badger star, giving the exhibitions.

Sponsored by the athletic department, the clinics were held in the high school gymnasiums at Neenah on the afternoon of Nov. 17; at Stevens Point on that evening; at Ashland on Nov. 18; at Eau Claire on Nov. 19; and in the university field-house on the morning of Nov. 25.

Basketball players who took part were Ray Patterson, second highest scorer in the Big Ten last year; Des Smith; Bill Johnson; Bill Zorn; Vernon Krueger; Bob Kline; Kurt Grim; Don Rehfeldt; and Bill Bachman.

The trip was made by auto, with the players giving demonstrations at the various high school gymnasiums. By the time the boys reached Eau Claire, Foster says, they were so tired and loose that every shot they took went in, and they rolled up 50 points in 20 minutes.

The high school coaches who performed as chairman of the clinics in their area were Ole Jorgenson at Neenah, Russ Reholz at Stevens Point, Roy Melvin at Ashland, and Cy Buker at Eau Claire.

Coach Tom Jones
Looks like a banner year

Cross-Country

Wisconsin's harriers keynoted what promises to be a fine year for Coach Tom Jones, when they took the conference championship on November 11 on Chicago's tough Washington Park course.

The victory capped a great season, in which the Badger thinclads were beaten only once, by Great Lakes, while they scored triumphs over Milwaukee State Teachers college, Truax field, Notre Dame, Purdue, and Illinois. Ohio State, Purdue, Illinois, Iowa, and Chicago were the other teams entered in the conference race, and they finished in the order listed, after Wisconsin.

Individual star for the Badgers was navy trainee Bill Lawson, who was undefeated in every race that the Cardinal wearers ran. He was tied once, in the Purdue meet, when he and Badger captain Knight Webster crossed the line hand in hand.

Webster, star of last year's track and cross-country teams, reached peak form at the end of the year, finishing second to Lawson in the last three races, including the conference tilt.

Basketball Schedule

The Badgers home schedule follows:

At Madison:

Dec. 2	-----Lawrence College
Dec. 9	-----Marquette
Dec. 16	-----Notre Dame
Dec. 20	-----Iowa Seahawks
Jan. 6	-----Northwestern
Jan. 13	-----Minnesota
Jan. 22	-----Great Lakes
Feb. 9	-----Ohio State
Feb. 10	-----Michigan
Feb. 17	-----Purdue
Feb. 24	-----Iowa

At Milwaukee Auditorium:

Dec. 13	-----Marquette
Dec. 24	-----Missouri (Doubleheader)

ALUMNI CLUBS

Alumni Club Assembly

Wisconsin Alumni clubs all over the country have banded together to adopt a constitution uniting them into the Wisconsin Alumni Club Assembly.

A division of the Wisconsin Alumni association, this organization is comprised of club presidents. Every club president automatically upon election becomes a member of the Alumni Club Assembly.

The aim of this new organization is to make each individual president's job easier by means of cooperative endeavor. The assembly will become a clearing-house for all ideas regarding alumni clubs.

Presidents of the various clubs met on Oct. 14, with the directors of the Alumni association and decided that the Assembly would enable the clubs to become stronger and more plentiful.

The constitution as drawn up by an organization committee was adopted.

Serving in the capacity of Assembly members, the presidents at the meeting elected their executive committee. Members of this committee are Herbert G. Schwahn, Milwaukee; Irving Rice, St. Paul; Harold L. Geisse, Wausau; Lynn Tracy, Chicago; and W. G. Aschenbrenner, Racine.

Club presidents who drew up the constitution are Schwahn, chairman; Aschenbrenner; Tracy; Robert Lauson, West Bend; and Mrs. R. E. Lynch, La Crosse.

The executive committee's first meeting was held in Milwaukee on Nov. 3d.

Schenectady

Newly elected officers of the Wisconsin Alumni club of Schenectady, N. Y. are as follows: president, Thorvald E. Thoreson, '43; vice-president, W. E. Blowney, '20; and secretary-treasurer, Laura L. Blood '12.

Gogebic Range Club

Officers were recently elected for the newly formed Gogebic Range club of the Ironwood-Hurley region. They are as follows: Mrs. William Cloon, '15, president; Gordon Connor, '29, vice president; Mrs. Robert Bremner, '36, secretary; and Rose Castagna, '37, treasurer.

The board of directors includes in addition to the officers, the following alumni: Dan S. Young, Alvin S. Haglund, Harold F. Connors, and Mayme Rigotti.

Chicago, Cleveland

Harry Stuhldreher was the speaker before the Nov. 6, Wailing Wall meeting in Chicago. He brought official pictures of the Purdue game and discussed the plays. He also appeared more recently at the Cleveland College Club on Dec. 3. Here too alumni were given the opportunity of hearing him and seeing official football pictures.

Door County

At a recent organization meeting of all Badgers in Door county, J. A. Van Natta, '24, was elected president. Mr. Van Natta is the superintendent of schools in Sturgeon Bay, Wis.

THE \$64 QUESTION

Many questions are being asked these days about the next president of the University of Wisconsin. Without infringing on the prerogatives of the Board of Regents, let's look at one of these questions that deserves special attention right now: What kind of president does the University of Wisconsin need?

Two facts have an important bearing on this question. First of all, we must take into consideration the changes that have taken place in the president's job in recent years due to the University's rapid growth and expanded services. The University has more than 2,700 full-time people on its payroll and operates on a budget of 11½ million dollars a year. Its operation involves all the manifold problems that are inherent in an organization of this size.

Secondly, the job is too big for any one man to handle alone. Some have suggested that the next president of the University should be a scholar, an educator and a business man—all in one. This paragon may be floating around somewhere, but my hunch is that it is expecting a little too much to find all these qualifications in one individual. Furthermore, if this paragon does exist, he is very likely holding down a job that pays three or four times as much as the salary customarily paid to Wisconsin presidents.

In some Wisconsin circles, there has been an inclination to seek a University president with all the characteristics listed above—plus others. We have sort of taken it for granted that the president of the University of Wisconsin must be a scholar, an educator, an administrator, a public speaker and also a bit of a politician. Such practice is fraught with danger. It produces a tendency to expect the impossible from the University's executive head. When the impossible doesn't happen, the critics bring out their hatchets. It's unfair to put this responsibility on the president's shoulders without giving him the assistants he needs to carry the load.

President Needs Assistants

It would seem more logical, therefore, to pick a president who has a full measure of *one* of these characteristics and then provide him with assistants to handle the other jobs that need to be handled in the president's office.

Since education is the primary purpose of our University, it seems reasonable that its president should be first of all an educator. Some may prefer a scholar. Some hold that the president should be both an educator and a scholar.

Having selected this president, the next step is to see that he gets the assistants needed to do his job effectively. In a sense, these assistants would be vice-presidents, each with specific duties and responsibilities. Without defining these jobs too specifically, here are three that seem logical in view of present campus needs:

1. Business manager—to handle the complicated budget and business problems that demand expert supervision in an institution as large as the University of Wisconsin.
2. Director of public relations—to interpret the University to the people of Wisconsin and to develop

activities which make the University's services increasingly helpful to the state.

3. Educational coordinator—to coordinate the teaching facilities of the University so that its students may get the highest possible returns from their work on the campus; to develop new courses and new educational opportunities to meet the demands of our changing post-war world.

The president must be big enough to delegate both authority and responsibility to these "vice-presidents". The president's job is an executive job. If he isn't big enough to delegate this authority and responsibility, he isn't big enough to be the president of a great university like the University of Wisconsin. These assistants will relieve the president of much of the detail that makes his job so difficult under the present set-up. Wisconsin presidents need a cabinet like this to maintain Wisconsin's leadership among American universities.

\$10,000 Men

This plan isn't worth a darn, of course, unless these assistants are big enough for their respective jobs. No \$5,000 a year men will do. These assistants should be \$10,000 a year men. If this seems out of line, remember that one of our Big Ten neighbors pays its business manager \$24,000 a year—and considers it a good investment. It costs money to hire brains and ability in the University, just as it does in the business world. Half-pint executives never get results in any field. Fortunately for Wisconsin, there are men on our campus right now qualified to hold these important jobs.

Such assistants would enable the president to do three things that are all-important to every executive.

First of all, this plan would give the president time to concentrate on the big objectives of our University life; to make big plans for attaining these objectives. This would also give the president more time to THINK—and thinking is just as important to a university president as it is to the president of Allis-Chalmers.

Secondly, this plan would give the president more time for informal mixing with faculty, students, alumni, business and professional leaders, labor heads and others interested in the University's welfare. Such exchange of ideas is good for all concerned, including the president.

Thirdly, the plan outlined above would give the president greater opportunities for providing the leadership that rightfully should come from the president's office. Leadership is essential in all organizations and exceedingly important in a University with over 2,700 employees. If proof is needed to substantiate this statement, look at the administration of President Van Hise. His inspired leadership brought to the University the combined support of faculty, students, alumni and citizens of the state. President Van Hise demonstrated that every institution is but the lengthened shadow of one man. Wisconsin needs another Van Hise as the University gets ready to start its second century of service to the people of our state.—JOHN BERGE.

IN LINE OF DUTY

They Gave Their Lives So That Freedom in This Country and Abroad Might Not Perish

Lt. Col. D. BURGESS, '19, Stoughton, died August 20. He had served with the HQ 4th Armored Division, at Pine Camp, N. Y. from 1941 to 1943. He had also served in the first World War.

★

1st Lt. Benjamin C. McCARTNEY, '42, Washington, D. C., died of wounds received over Italy, September 22. Lt. McCartney's father is Rev. Dr. Albert J. McCartney, pastor of the Covenant First Presbyterian Church, Washington, D. C. Lt. McCartney was bombardier on a B-26 Marauder based in Sardinia. He had received the Air medal.

★

Ensign Bradley GOODYEAR, '34, Buffalo, N. Y., was killed in an airplane crash in February, 1942.

★

Capt. Hugh D. JONES, '41, son of Mr. and Mrs. John D. Jones, Jr., R. 2, Box 481, Racine, was killed in action in France August 31. He received his captain's commission and was sent to England in December, 1943. Capt. Jones was a member of the intelligence section of the Second Armored division. His wife is the former Barbara Mattern, '42.

★

1st Lt. Enos D. (Bud) LLOYD-JONES, '43, son of Ralph Lloyd-Jones, 104 River Heights Dr., Mason City, Ia., was killed in action in France on September 13. He was serving as executive officer of Co. K, 2nd Infantry, 5th division. His wife is the former Barbara Thomas, '43. He was the nephew of the late Chester Lloyd-Jones, who was on the faculty of the university for many years.

★

S/Sgt. Louis N. HAUGH, '42, son of Mrs. E. Haugh, 2502 Chamberlain Ave., Madison, was killed in a plane accident in the Aleutians, in June. He is survived by his wife, now living in Wauwatosa.

★

Lt. Gilman L. SUND, '43, son of Mr. and Mrs. Gustav Sund, Westby, was killed in action over England, September 27. He took his training with the air corps in fields at Santa Ana, King City, Calif., Boise, Idaho, and Wendover Field, Utah.

★

Pvt. Ora L. COX, '46, son of Mr. and Mrs. Ora M. Cox, 3138 Lindbergh St., Madison, was killed in action in France

on October 8. He enlisted in January, 1943 and took basic training with a coast artillery unit at Camp Stewart, Ga.

★

Lt. Sherman J. COVET, '37, son of Oscar Covet, 501 Tower Ave., Superior, was killed in action in the European theater, August 10. He had trained at Edgewood Arsenal, Ft. Douglas, and Camp Silbert.

★

Pvt. James H. FLAD, '47, son of Mr. and Mrs. John J. Flad, Sr., Shorewood Hills, Madison, was killed in action October 20 near Aachen. He was with the advance American infantry unit in the assault on the German west wall, and had previously been awarded the Purple Heart for wounds. He entered service in October, 1943 and went overseas in March, 1944.

★

Lt. Paul A. GEVELINGER, '43, son of Mr. and Mrs. A. P. Gevelinger, R. 3, Mineral Point, was killed in action July 20, in the South Pacific area. He had been reported missing in action since early in August. Lt. Gevelinger received his wings and his commission as ensign at Corpus Christi Naval Air station in May, 1943. He had spent about a year in the S. Pacific with a naval task force as the operator of a dive bomber. He had been promoted to full Lieutenant several months ago.

★

Lt. Frederick W. FIEDLER, Jr., '42, son of Dr. F. W. Fiedler, 822 Charles Place, Memphis, Tenn., was killed in action August 24 in France.

★

Lt. Frank W. STAFFORD, '43, son of Mr. and Mrs. Walter Stafford, 1409 Seventh Ave. N., Great Falls, Mont., was reported killed in action in Czechoslovakia. He had previously been reported missing in action. Lt. Stafford was a bombardier-navigator on a Flying Fortress and had been overseas since August. He is survived by his wife, Barbara.

★

1st Lt. Gerald A. PLAUTZ, '40, son of Mr. and Mrs. Harry Plautz, 4333 N. Morris Blvd., Milwaukee, died of wounds received in action in France. He had been wounded in the Italian campaign, had recovered and then been wounded again in the Belfort section of France. He is survived by his wife, Juanita, 3415 N. Murray Ave., Milwaukee.

2nd Lt. Elver R. LEISTIKOW, '46, son of Mr. and Mrs. E. L. Leistikow, 2653 N. 82nd St., Wauwatosa, was killed in action in Italy, on October 17. He was pilot of a Liberator bomber, had entered service in 1943 and was sent overseas August 9, 1944.

★

Robert A. GITTES, '43, son of Mr. and Mrs. A. Gittes, 25 Minetta Lane, New York City, was killed in action in France, on October 14.

★

Lt. Col. Preston T. VANCE, '14, head of the Publications department, S-3 Section, of the Field Artillery school, Ft. Sill, Okla., died in a Ft. Sill hospital on November 17. Col. Vance who had returned to active duty in November, 1942 following his retirement from the army three years before, began his army career as an officer in the Kentucky National Guard in 1916. Immediately following WW 1 he served as assistant professor of military science with the ROTC at Chicago university.

PRISONER OF WAR

Capt. Milton E. DOWSE, '33, first reported missing in action when he failed to return to his unit on D-Day on the Normandy beaches in France, has now been reported a prisoner of war of the German government. He was in command of a paratroop unit at the time of his capture. His wife and two children live in Los Angeles, and his parents, Mr. and Mrs. Milton Dowse, live in Kenosha. Capt. Dowse entered service in October 1941 and served with a tank unit before becoming a paratrooper.

★

Maj. Gordon K. SMITH, '38, previously reported missing in action in the European area, has now been reported a prisoner of war held by Germany. He served with a paratroop unit. His wife, Martha, lives at 91 Hamilton Place, Fond du Lac, Wis.

★

1st Lt. Robert O. WIERDSMA, '45, previously reported missing in action over Germany since October 7, has now been reported a prisoner of war. Lt. Wierdsma was a pilot of a Thunderbolt fighter plane. He is the son of Mr. and Mrs. Oliver W. Wierdsma, Ixonia, Wis.

MISSING IN ACTION

Lt. Philip Drake ANDERSON, '37, son of Dr. N. Philip Anderson, 2027 Cass St., La Crosse, Wis., has been reported missing in action since the bombing of Schweinfurt, Germany, on October 14, 1943. He was a doctor, and had married the former Edith Moody, of Bournemouth, England.

Staff Sgt. Burton C. HOLTZMANN, '38, brother of Pearl H. Holtzmann, Ableman, Wis., has been reported missing in action in the European area since August 24, 1944. He served with the Army Air Force.

Capt. Walter J. SAWITZKY, '40, son of N. Sawitzky, 2551 N. 52nd St., Milwaukee 10, Wis., has been reported missing in action.

2nd Lt. Alfred JACOBSON, '42, son of Mrs. R. E. Jacobson, 1304 W. 58th Pl., Los Angeles 44, Calif., has been reported missing in action in the South Pacific area since July 28, 1943.

Capt. Paul L. MATHISON, '42, son of Mr. and Mrs. Otto E. Mathison, 1201 Jennifer St., Madison has been reported missing in action over Germany since October 12. He was a pilot and squadron commander with a Liberator bomber unit in England. Capt. Mathison had been awarded the Air Medal for anti-submarine duty over the Atlantic. He left the country in June. His wife is the former Gwen Pekel, '43.

Lt. Alan V. MOHR, '42, son of Mr. and Mrs. C. A. Mohr, 2724 Regent St., Madison, Wis., has been reported missing in action over Yugoslavia since September 2. Lt. Mohr was piloting a P-38 Lightning fighter plane which left Italy for a strafing mission to Nis, Yugoslavia. His plane crashed after being damaged by anti-aircraft fire. Lt. Mohr enlisted in December 1942 when he was attending Engineering school here.

Lt. James N. QUINN, '42, son of Mrs. Joseph M. Quinn, 405 Cherry St., Marshfield, Wis., has been reported missing in action.

1st Lt. Charles Madison LEE, '43, son of Ellis A. Lee, 259 E. Third St., Richland Center, Wis., has been reported missing in action since August 8, 1944, after participating in an air mission over France.

Lt. Richard G. ANDERSON, '44, son of Mr. and Mrs. A. F. Anderson, 4400 Twenty-first Ave., Kenosha, Wis., has been reported missing in action since September 17, 1944. He was a pilot of a C-47 transport plane which participated in the airborne invasion of Holland on that date. Lt. Anderson had been commissioned in April and had written that he was in Iceland on August 28th. He enlisted in February 1943, when he was a student here.

2nd Lt. Mark R. GRILL, '44, son of Mr. and Mrs. Matthew Grill, 1341 Merryman St., Marinette, Wis., has been reported missing in action after a mission over Bernburg, Germany in July. He was a bombardier-navigator on a B-24 Liberator bomber.

2nd Lt. George J. KOEHN, '44, son of Mrs. Alma I. Koehn, 337 W. Dayton St.,

Madison, Wis., has been reported missing in action over France since September 24, 1944. He was the pilot of a B-24 Liberator bomber, and had been in England since June. Lt. Koehn entered service in February 1943, when he was a student here.

Lt. Robert J. ROSE, '44, son of Mr. and Mrs. Jay F. Rose, 316 S. Henry St., Madison, has been reported missing in action near Aachen, Germany, since October 21. Lt. Rose was with the infantry and left for overseas late in August. His wife, the former Dorothy Glaetli, and his young son, John, are living at 2141 Fox Avenue. Mrs. Rose is a student nurse at Wisconsin General Hospital.

2nd Lt. Herbert G. FABER, '45, son of Mr. and Mrs. G. F. Faber, 1216 Jenifer St., Madison, Wis., has been reported missing in action since September 28. He served as a bombardier on a B-17 Flying Fortress and had been stationed with the Eighth air force in England since August. He had recently received the Air medal. His wife, the former Virginia Moore, lives at 404 State St., Madison.

NO LONGER MISSING

1st Lt. William D. Zahrte, '40, formerly reported missing in action after a bombing raid on France July 8, has now returned to Allied hands and is in an army hospital somewhere in England. His plane had been shot down by anti-aircraft fire. Lt. Zahrte is the son of Mr. and Mrs. William D. Zahrte, Millston, Wis.

FIGHTING BADGERS

1913

Lt. C. Abner HENDEE recently notified us of his address change to U. S. Naval Reserve Armory, 7600 E. Jefferson Ave., Detroit 14, Mich. Lt. Col. A. G. PETER is at Aberdeen Proving Grounds, Maryland.

Rear Admiral Ingolf N. Kiland, '16
Has amphibious operational command in Pacific

1917

It's A.P.O. San Francisco, for Lt. Col. Arthur W. HOWSON stationed with the engineers in Hawaii.

1918

We are proud to announce that Major Gen. Russel B. REYNOLDS is the new commanding general of the Sixth Service Command which embraces Illinois, Wisconsin, and Michigan. Way back in 1917 Gen. Reynolds began his army service as a private in the Mich. National Guard. He recently was promoted from brigadier general.

1921

Leland HYZER is now back attending to his private law practice in Miami, Fla. after two year's service in the Army. Got a pat on the back from Maj. Joseph C. COLEMAN from Craig Field, Selma, Ark. who writes he enjoys the *Alumnus*. Sgt. John T. ATWOOD is attached to the Base Weather Station at the 36th St. Airport, Miami.

1923

Maj. George P. STEINMETZ of the Engrs. Corps is attached to the Repairs and Utilities Branch in Washington, D. C. Fred R. YODER, head of the Sociology Dept. at Washington State College just wrote telling he had served as a 1st Lt. in the Air Corps for a year.

1924

It's an A.P.O. San Francisco for Lt. Col. Elmer W. BECKER with a tank unit. Note transfer of Maj. Frederick W. JOHNSTON to AAF, Central Procure-

FIGHTING BADGERS

ment Dist., Price Adjustment Section in Detroit. ■ T/Sgt. Ben G. LAVINE is with the 57th Serv. Gp. Finance, APO San Francisco. ■ Our publications have been tagging on the heels of Lt. Col. Otto LESSING, USMC, throughout many spots in the Pacific. Col. Lessing is with the Fleet Marine Force.

1925

In Washington as member of the Army Education Branch is Maj. Samuel E. BURR.

1926

Lt. Chester A. DAVIS reports he's now at Ground School Hdqtrs. in San Antonio, Tex. ■ It's prettv secret work for Lt. Comdr. William B. SARLES, former prof. in ag bacty, but we can write that he's in the office of Sec. of War and spends much time in the National Academy of Sciences in Wash. ■ It's England and APO N. Y. for Lt. Rudolph J. SCHLUETER. ■ Promotion to Tech. 5th Grade for Joseph H. TKADLEC of the Hosp. Train. Unit, Service Command at Presidio of San Francisco.

1927

Pvt. Olivia H. BRATRUD, WAC, recently reported at Ft. McDowell where her duties involve reports and correspondence through which the Army keeps track of its men and supplies. ■ Lt. Comdr. Joseph C. DEAN, former Madison surgeon, is stationed at San Bruno, Calif. preparing for overseas duty.

1928

More news of the critical China and Asia situation comes from Lt. Col. Franklin L. ORTH reporting "we are up to our necks here, the Nips are far from done on the continent of Asia". ■ At Camp Reynolds, Pa. is T/4 Robert L. SIEBER. ■ Col. Stewart YEO from the heart of the Netherlands East Indies takes time to congratulate the Univ. on the magnificent work done through its ASTP program, and sincerely hopes the ROTC will have a chance to continue its vital work.

1929

Lt. Mary C. BURNHAM has really moved around in this war and is now stationed at 142 General Hospital, APO, N. Y. ■ Naval Lt. James J. HANKS has as his job to keep the navy's electronics and radar procurement program running smoothly and says "It's a job that puts lines in one's forehead." ■ In the South Pacific on the U.S.S. Santee is Lt. Comdr. Arthur J. JENNETT. ■ Lt. John I. MacNICHOL, asst. damage control officer on the U.S.S. Hancock saw some of the war close up at Tarawa and Kwajalein. ■ Capt. Phillip O. OWENS sends greetings from APO, N. Y. and writes of meeting Maj. Jock CRICHTON (kilts and all). ■ At the Coast Guard Base in Buffalo, N. Y. is Lt. (j.g.) Conrad L. STEPHENSON.

1930

Another (j.g.) Lt. James B. CASTLE, is taking a military gov't. course at Princeton univ. ■ Capt. Edwin C. KESTING, an engineering officer in North Africa for 18

months is now at the AAF Redistribution Station at Miami Beach. ■ Lt. Donald H. PATTISON, USNR, med. corps is stationed at a fleet hospital in the South Pacific. ■ With the 5th Air Force in the Information and Education section somewhere in the Dutch East Indies is Lt. Eric SCHEE.

1931

Capt. Oliver D. BURDEN, Jr. at Wright Field, Ohio aids in administrative direction of the AAF organization which buys airplanes and supervises their production. ■ Newly promoted Lt. Co. Donald W. HASTINGS, has been made chief of the neuro-psychiatric division of the AAF in the surgeon-general's office in Wash., D. C. ■ Special thanks to Lt. Carl A. KNOLL of U. S. Naval Construction Bn. Det., Los Angeles, for his life membership subscription in the Alum Assoc. ■ Promoted to Maj. Rolland A. KUCKUK is serving as judge advocate of the Central African Div. ATC which maintains air routes across continents of Africa, Arabia, and India, with outposts scattered throughout the jungle and desert areas. ■ Just received a copy of the South Pacific Daily News with 2 in. headlines and salutes from the allied commanders announcing the birth of Virginia Strub, first strublet born to Lt. Ernest P. STRUB and his wife Helen. We of the *Alumnus* send our belated good wishes.

WAR HISTORY

President Dykstra recently appointed a war history committee of the university which will aim to compile all the material about UW people in service.

To aid this committee (as well as to aid the Alumni Records office and to give yourself some more mail) would you please send us your change of address as soon as you know it?

1932

Capt. Fred J. ANSFIELD, Med. Corps, has an APO, San Francisco. ■ Maj. Frank P. ERICHSEN, U. S. Army Engineers, has been transferred to Richland, Wash. ■ Lt. William C. ERLER, FPO, San Francisco, from the So. Pacific is another strong roofer for a naval ROTC on the campus after the war. ■ We've finally caught up with Capt. David A. FOSTER, of a tank dest. batt. APO, N. Y. who's had a quite a trip from Casablanca, Sardinia, and Corsica, to France. ■ Maj. Mary F. FRIEDEN contemplates a snowless Christmas for she's chief nurse at a general hospital on New Caledonia. ■ Lt. Robert M. HORNE at a naval operating base, has an FPO, San Francisco. ■ Sgt. Claude W. HUTH is at Camp Wolters, Tex. ■ A letter from 1st Lt. Lawrence B. LAVOLD, financial analyst for the Price Adjustment Board with the Rochester Ordinance Dist. tells of the birth of his son. Mrs. Lavold is the former Jessie MacFarlane, '33. ■ After 22 months overseas, Capt. Philip F. LUST-BADER is instructing at Letterman Gen-

eral Hospital, San Francisco, Calif. ■ Letters from Sgt. Jean F. ROSE are always a treat. In his latest he tells of his super PX, just like a Walgreen drug store, and meeting Mickey BACH and Milt GANTENBEIN in the So. Pacific. ■ Address change for Tec. 5 Lawrence F. STEIN to APO, San Francisco.

1933

And another FPO, Frisco is Lt. (j.g.) Wayne G. BRYAN. ■ It's a blue ribbon citation for Capt. Lucien S. HANKS indicating his bombardment unit has been cited for heroic performance of duty against the enemy. ■ 1st Lt. Robert O. HOMBERGER is at the General Staff School, Ft. Leavenworth, Kans. ■ Capt. Ormal E. KIESLING of the 47th Fighter Squad. AAF has APO San Francisco. ■ And Pfc. Sumner SOMMERFIELD is another APO man at Frisco. ■ At the Coast Guard training station in Groton, Conn. is Hardin C. WATERS, Y 1/c. ■ Former comdr. of the navy gun crew aboard a merchant vessel, Ens. Milo WILLARD just assumed duties at the armed guard center in New Orleans.

1934

Lt. Edward G. BAHR is at Wright Field, Ohio with the Air Technical Service Command. Lt. James J. CATLIN is for the present stationed at Camp Pendleton, Oceanside, Calif. ■ Wish we had more news on Lt. Joseph S. ELFNER, ships detachment, Newport News, Va. ■ A very happy and successful birthday to Ens. Helen FLEMING, Lt. Virginia Porter HERRING, '29, and Lt. Comdr. Ineva Reilly MEYER, '28, all celebrating the Spars second anniversary. ■ APO, New York for Maj. Lester W. LINDOW. ■ Friends of Maj. Melvin W. STEHR take notice of his address Hq. Carriibbean Div. ATC, West Palm, Fla. ■ S/Sgt. John O. VAN KOERT is another Information and Education man whose duty is to equip the individual soldier mentally as well as physically, to be a more efficient fighting man and citizen. ■ Getting ready for his primary mission, Lt. Col. Donald S. WENGER, Medical corps is now com. officer of the 124th Evac. Hosp. in Ala.

1935

Transfer change for Pfc. Sidney O. FOGELBERG to Camp Crowder, Mo. ■ Good luck to Lt. Phyllis M. FOSS recently appointed supply officer of the WAC Detachment for U. S. Strategic Air Forces in Europe. ■ Lt. Donald K. GEHRZ is at the Portland Port of Embarkation in Oregon. ■ And Lt. Col. John E. GORMAN notifies us of his new address 5th Medical Batt. FPO, Frisco. ■ Navy man Lt. Richard N. KERST has a station on the USS Phoenix. ■ Promoted to Lt. Col. Robert R. MALLORY, overseas 26 months, took part in the original invasion of No. Africa and followed allied troops into Italy and France. ■ From Marvin H. MILLER, APO, San Francisco comes word of the election to Congress of Mickey McGUIRE, '32, the sensational football player who beat Minnesota single-handed in 1932. ■ For the following three months Lt. Comdr.

Edward K. NERODA will be at Princeton Univ. school of military gov't. From somewhere in France we received a brief note sent by T/3 Peter P. PRISEGEM. Back on old home territory is T/Sgt. Arvin H. QUAM with the U. S. Engineers Office in Milwaukee. Cpl. Howard T. RICHARDS writes that football scores are pretty important to him over there somewhere in Britain. Lt. (j.g.) M. Charles ROSS of the Coast Guard has an FPO, Frisco. And Lt. Nicholas W. SMITH sends address change to APO 958, San Francisco. Also Lt. Lester O. WIEGERT from station hospital Myrtle Beach, So. Carolina.

1936

Maj. LeRoy H. BENZEL is with a bomber group APO, N. Y. 1st Lt. David S. BLEEK is stationed at George Field, Ill. in capacity of civilian personnel officer. Sp T 2/c Raymond E. GOTHAM is with the Tests and Research Unit at Washington, D. C. in the Bureau of Naval Personnel. Lt. Harvey E. Leiser, USNR, received a promotion and change of station recently. He's now in Rockville, Maryland.

1937

Lt. Joseph W. BROOKS has reported to Keesler Field, Miss. Hope Lt. Kenneth D. BROWN, USMC FPO, Frisco forgives us and is now getting all the publications due him. Hear tell Lt. (j.g.) Charles M. DORRANS is at the Univ. of Arizona at Tucson. And Lt. W. Morris FLEMING, USNR is with the Bureau of Ships in New York. Lt. (j.g.) John R. FRAMPTON is in the Admiralties. Lt. Saul GINSBURG is flight engineer on one of the new B-29's. It's called "The Bad Brew" and here's hoping it really is bad brew for the Japs. Cpl. Charles B. GRUNOW writes he really appreciates our publications up in Galena, Alaska, and we are mighty appreciative about that. Lt. (j.g.) Allen D. GUENTZEL has an APO, San Francisco. And it's APO, Seattle, Wash. for Maj. Lester O. HOGANSON. Another Badger, Capt. James P. JOLIVETTE is in New Guinea. Pfc. Eldred F. HARDTKE is a UW med. student now. Also a naval representative out that way is Lt. (j.g.) Albert B. KURITZ of the medical corps. A serious post-war problem is being dealt with by John J. SCHNEIDER, naval officer and former divorce counsel who has asked the legislature to set up incurable unsoundness of mind as a ground for divorce. Capt. Miles W. THOMLEY is with a medical detachment has an APO, New York. Here's another Wisconsinite with the B-29 bunch in India, Capt. E. J. WITT, a flight surgeon formerly at a Chinese Univ. which, he writes, had goats and cows grazing on the lawns. Lt. Comdr. (James) Homer GOODLAD, who had seen action and received the Purple Heart for wounds received on Tarawa, was the Navy Day speaker at Kaukauna, Wis. recently.

1938

Sp. 1/c Fred B. BAKER, USCGR, has FPO, New York. Capt. Paul P. BASSEWITZ from somewhere in France writes he's been traveling fast with little time for sight-seeing, yet marvels at the peasants who are not the least perturbed by the devastations and poverty. Here's another APO, Frisco, Capt. Robert F. BOOCK of the medical corps. And Lt. Col. George W. CARNACHAN is attached to

S/Sgt. Bernard P. Dussling, '38
"Static chaser" with fighter plane unit
in England

the AAF transport command hdqs. in Washington D. C. 'Nother is Maj. Edward P. FAUST, Jr. of the AAF at APO, Frisco. Harold FENNEMA is a staff sergeant at Camp Chaffee, Ark. Just received the name of Sgt. Charles D. GOFF another Badger New Guinea. Sgt. Wesley L. HILLERY is home from New Guinea with a three-year service stripe and ribbons and stars for the Netherland East Indies, Burma, and the New Guinea campaigns. Sgt. James GWALTNEY is with a Pacific fighter outfit. Marine corps man, Corp. Frank E. KELLER is stationed at San Pedro, Calif. For Maj. Daniel M. LEWIS, group intelligence officer operating from the 8th AAF Mustang Field in England, the triangular trip over 11 countries and three seas was his most unforgettable experience of the war. Sgt. Paul W. NASS of the Finance Sec., 94th Inf. Div. has new APO New York. Also Maj. William I. NORTON, Medical corps at San Francisco. Ens. W. H. OTTERY is still FPO, San Francisco. A cherry hello from Sgt. Howard F. RUFF at Percy Jones Gen'l and Conv. Hosp. in Battle Creek. Lt. Charles F. SCHULLER, USNR, after nine months in England is stationed at the training school in Hollywood, Calif. to continue his training aids work. He writes that his brother Louis, now in Germany, has been in the thick of things since D-Day. Don't know much to tell about Tec. 4 Robert C. SWANSEN except that he's with the Island Command at APO, Frisco. The law firm of Varda & Varda has become inactive since Lt. John P. VARDA is serving with American troops after experiencing duty with the British forces, and his wife Margaret, '29 has just reported for her basic training in the WAC. More power to them both. Stationed aboard a sea-plane tender in the Pacific is medic Lt. (j.g.) John H. WISHART, FPO, San Francisco.

1939

And on the USS Suwanee is Lt. William L. ALBRECHT. Making the best of the tropics is Lt. Rudolph P. ARNDT APO, San Francisco. With the naval Hollywood Beach crowd in Fla. are Ens.

G. Helmer BAKKE and Ens. Wilson L. WRIGHT. Capt. Walter E. BOND optimistically writes, "We shoot plenty at the Jerry Boys and get our bag once in a while. They're not as good shots as ourselves which makes it more fun than duck hunting back in the states." Two former classmates Lt. Carlos L. BOWAR and Lt. Harold F. GRINDE, '41, were decorated with the Air medal at review ceremonies held at Clovis air field in New Mexico. Newly appointed WOJG Delbert J. CLAVETTE is finance officer in the 32nd infantry division in New Guinea and has been in the Southwest Pacific for over 2 1/2 years. After completing OCS at Fort Benning, Lt. Howard J. FERRIS is now receiving his mail at Camp Butner, N. C. Lt. (j.g.) Frederick M. GRAMBERG is stationed at Quonset Air Station where he is aircraft production planning officer. It's an India base for Lt. Lawrence L. HALPERIN APO, New York. From Eugene A. HOLLISTER Sp (A) 1/c in Australia comes a pretty fine description of the softball, basketball, tennis courts and other athletic facilities for the men who come in from sea. Lt. Norris T. KIVLIN, APO 228, keeps his Badger loyalty. And another Air medal for meritorious achievement in combat was awarded to 2nd Lt. Alex M. KOSZAREK, pilot of a B-17 Fortress. Pfc. James LINDHOLM is at Camp Atterbury, Indiana doing educational work with returned soldiers. Lt. Henry H. PETERS is on the move, but at this very moment he's at Colorado Springs. For Lt. Patrick F. QUINN it's Signal Service APO Frisco. And for Lt. Marvin E. RACE of the Med. Coll., it's APO, New York. On submarine duty with the USS Albacore is Lt. F. A. RILEY. Lt. T. J. REIFF (Ted, himself) is out on New Britain island. Spending a short leave home is Lt. Gordon A. SABINE after over 1 1/2 years duty in Iceland. Lt. Robert W. SHACKTON is rushing right through France, Belgium, and Germany so he and the rest of the 39'ers can sit down for a bottle of Schlitz. Capt. Dale J. SCHWEINLER will be reading our magazine for four years, says his \$10 check. Joyce L. TEMPLIN is now teaching at the Univ. of Colorado after receiving a medical discharge from the WAVES. It's Maj. William L. THORKELSON now at Fort Bliss, Tex. Lt. Robert O. UEHLING from somewhere in France is getting along swell with the French peasants and writes of bartering a chicken off them. Lt. Frederick E. VIKEN, USNR, is gradually getting squared away in the nation's capital and enjoying it. Here's 1st Lt. Gene WELCH back in the states, but he writes, "Every now and then I have a nightmare and relive a Leipzig raid". Capt. Forest ZANTOW is back from France with a DSC earned for his first wave action in the D-Dav invasion. A doctor and wounded, himself, Capt. Zantow says there is nothing like blood plasma.

1940

Lt. Robert A. ANDERSON is a maj. general's aide in Italy after having been in N. Africa about twenty months. Lt. (j.g.) Roger A. BAIRD is at an FPO, Frisco. And in Hawaii is Lt. David K. BENNETT also FPO, San Francisco. Cpl. Valentine J. BROWN has been with a service and ammunition btry. in Southwest Pacific for 2 1/2 years. And at Ft. Wood, Mo. is Pvt. George S. BUETTNER. At Wis.'s own Camp McCoy is Capt.

Jack DENGEL, adjutant and personnel officer of special troops. Ensign John N. FEDENIA has an apartment in Washington. Signaling at Fort Monmouth is Lt. Raymond P. DREWS. At Wright Field in Dayton is Pvt. Wayne J. FAUST. Cpl. Fred J. Gruenberger of the Signal Corps while in London has been lucky to be entertained by a very hospitable resident. "We continue to train Chinese troops which I started a year ago. They make fine soldiers and it's really a pleasure to work with them," writes Maj. William M. HEMMINGS. We've almost got a bone to pick with Pfc. R. Wayne HUGO-BOOM who thinks Paris even gives Madison a run, and that's something. All S/Sgt. Merle D. JOHNSON correspondents note new address, APO 887, N. Y.

WAC Cpl. Lenore M. Krusell, '40
Company clerk and physical training instructor
at AAF Merced field, Calif.

Hear tell that Ens. John W. KACHEL is with the Mine Warfare Office on Staten Is. New York. It's APO, New York and the Infantry for Lt. Charles J. KANISS. Waiting at Miami Beach for reassignment is Capt. Martin A. KWITEK, former commanding officer of a Signal detachment in the European theatre. This goes ditto for Cpl. Harold J. MARKSTROM, Field Artillery. And with the Army Rescue Boats in Fla. is S/Sgt. William D. McNEIL. At Carlisle Barracks, Pa. is Lt. Walter E. NIEBAUER of the medical corps. Another APO, San Francisco for Capt. Arthur H. PETERSEN of a casual officer's detach. 1st Lt. Douglas J. PURDY is in chemical warfare at Lowry Field, Colorado. Since Lt. Russel W. RAMSEY would rather read the *Alumnus* than fly over the tree tops in his B-17 at Hendrick's Field, Fla. we're rushing them to him post haste. Congratulations to S/Sgt. John F. REYNOLDS aerial engineer on a B-24 now in a Nazi prison camp, who has recently been awarded the Air medal. Sgt. David G. ROWE is in Salt Lake City. Sgt. Ricardo RUIZ, APO, Seattle, says the Badger spirit, like his best girl, is something to be sentimental about. A hearty hello to all Lt. (j.g.) L. Page SCHULTZ's friends in the service from the Naval Training School at Noroton Hts., Conn., where he's stationed. Stationed at Harvard School of Bus. Admin. is Ens. Carstens SLACK. As communications officer on a navy-cargo ship is Lt. (j.g.) Stanley D. SMITH

somewhere in the Pacific southwest. "Wingspread", Peterson Field, Colo. weekly publication is edited by our Sgt. Arthur L. STEPHAN. And it's an Oak Leaf Cluster to his Air Medal for Maj. Darwin E. SWANSON, squadron cmdr. with a 15th AAF Liberator bombardment group in Italy. Just a little bit of dope on Lt. (j.g.) Edmond F. ZEISIG who's in a disbursing office with an FPO, Frisco.

1941

Waiting for a further assignment Ens. Erwin T. BITTNER is at the Naval Training Sta. in Hollywood, Fla. Have word of Cpl. Jose J. BENKERT at Prisoner of War Camp, McAlester, Okla. And Pvt. Donald A. CHRISTL reports a new APO at New York. New on our list is Lt. (j.g.) Robert A. COHEN of the USS Woolsey. Idea man Sgt. Carrel CRAMER has come up with a novel one, that a man can earn enough in Alaska in a summer working in the gold mines to pay all of his expenses at the univ. for a year. We don't want to call Carrel a traitor but— 1st Lt. Robert G. DAVIES finished 52 missions as a B-25 pilot. Although Cpl. Philip K. DRESSLER is wallowing in fresh fried American eggs and Italian mud he'll take it over anything because there's a sense of accomplishment in Italy. Note address change of Lt. (j.g.) Noland A. EIDSMOE now at Yard Dispensary, Puget Sound, Wash. Also for Pvt. M. Herbert FRIEDLEN APO 957, Frisco. The Air medal was awarded to 1st Lt. Nolan A. GROSHONG flying in a B-17 on a week shuttle trip to Russia and Italy for assisting in intelligence and operations of the Mustang flyers escorting the bombers. We're expectin' Sgt. George A. HACKETT home soon 'cause he's been in 4 campaigns and had 27 months overseas. Certainly appreciate the nice things Pfc. Gordon J. HEIDEMAN, APO, Seattle has written about our publications. M/Sgt. Gunther W. HELLER has spent the last 27 months in England and even though his wife is there with him the U. S. sounds pretty inviting. We find Capt. Harry J. HINCHLIFFE way down south in Camp Rucker, Ala. And way west in the Pacific is Ens. Robert C. HOGENSON, engineering officer of a naval patrol air-base unit. Lt. Kenneth A. KERST's destroyer, McCook, played an active part during D-Day and remained in the channel battle area several days knocking out pillboxes in the French cliffs and conveying supplies. 1st Lt. Harold R. KRESIN is at Ft. Riley, Kansas now. Lt. C. D. (Icy) LAKE is with a scouting squadron FPO, Frisco. Lt. Glenn W. LAMPIER got his transfer at last and is with a Gun Bn. APO, San Francisco. Home after 21½ years in the Southwest Pacific Capt. William F. LORENZ praised his 32nd division which has done the 'pick and shovel' work and is now in for the kill. Best wishes to Mrs. Lewis J. McNurlen, the former Anne Celeste HANLON, 2nd Lt. in the Marine Corps. who is a civilian again. Nowhere do American troops receive such friendly salutes as the Road Engineers on the Burma Road in China. Lt. Herbert S. NELSON tells the story that along every mile, market-bound farmers throw up the thumb of their right hand and shout "Mey Gou ding hao", "Americans are tops". It's the Arizona climate for Ens. Abner B. PRESCOTT stationed at the univ. down there. Lt. Howard R. PRICE is now at an army air base in England. Waiting for more

word of S/Sgt. Gerald G. QUACKENBUSH reported a prisoner of war in Germany. T/5 James R. SCHAEFER in a Sig. Sec. has an APO, San Francisco. 2nd Lt. Lahron H. SCHENKE is at Hampton, Va. Lt. Willard H. SCHOLZ has been fraternizing in the Marianas with Capt. Bob YEOMANS and Buddy GESTLAND. New name for our list, Ens. George SIROTKIN on an 1ST FPO, San Francisco. Promoted while overseas in the field artillery, Capt. Robert L. VAN DRESER is near the German border at present. 1st Lt. Wendell R. WILKIN is finally settled down in Georgia at Ft. Benning and writes of meeting a few of the old campus gang.

Cpl. Bernard Seltzer, '42
J School grad does public relations
in England

1942

M/Sgt. Kenneth E. BIXBY is another faithful alum who listened short-wave to the Ohio State-Wis. game in France. 2nd Lt. Lyle E. BULL is back in action after a slight wound he received in France. T/Sgt. Harold R. BRUNSELL is an infantry man, APO, New York. From aboard ship Lt. J. T. (Tom) BURNS writes Wis. beer outsells all others, with plenty of Schlitz, Pabst, available. Lt. (j.g.) Russell R. COGSWELL is shure an be gorra on the USS O'Flaherty. Lt. Clifford W. DORMAN served 25 months as an Engr. Co. exec. officer in the European theatre of operations and while there was awarded the Purple Heart for wounds received in action. From somewhere in the So. Pacific, Lt. Lincoln E. ENGELBERT of the Marines sends word of meeting Dave SCHREINER. Capt. Jean W. GAMBRILL is down in Galveston, Tex. flying student bombardiers for their practice missions in B-24s. Capt. F. A. "Fritz" HENDRICKSON owes his life to his army binoculars. He's in a hospital in England. Lt. Bernard J. GIGOT, skipper of an LCI in the Mediterranean area, took part in 4 major invasions and returned from overseas to establish a solid beachhead and take Miss Joan Mahon as bride. Lt. (j.g.) Harrison D. GOODMAN is on the move again. Former Milwaukee attorney, Sgt. Fredrick J. HERTZ at Camp Wolters, Tex. is asst. to the judge advocate whose job involves military justice, interpretation of the law,

and free legal assistance to soldiers. ■ A Coast Guard alum, Vermont N. JOHN-SON is aboard the USS Balsam. ■ A bombardier in the Jolly Rogers group with 60 missions and 400 bombing hours, Lt. Edsel F. KINGSLEY was awarded the Air medal and three oak clusters. ■ Sgt. Stuart KOCH is busily counting his guilders in Holland. ■ Promotion went to Maj. George V. LEFFLER, a bombardier with a B-24 Liberator group based in Italy with 34 combat missions on his record. ■ It's the Marine Aux. Air Field at Kinston, N. C. for 1st Lt. Harold A. LIBAN. ■ Sure proud of Lt. (j.g.) Dorothy M. MANN of the Waves stationed in Wash-ington, D. C. ■ And especially proud of 1st Lt. JoAnn G. MANN, APO 396, New York. ■ Holding down the home ties is Sgt. Miles D. MARKUSCH at Camp Mc-Coy, Wis. ■ Sgt. Fred W. MAROLD writes that London is still the G.I.'s favorite good time city. ■ Bombardier Lt. Albert G. MARTELL was recently assigned to an AAF Flying Fortress unit of the 15th Air Force. ■ Short note from Pfc. John A. McCOMB in Belgium came our way. ■ Delayed news from Guam tells of Lt. Donald E. MILLER, USMCR, as a member of the 1st provisional brigade which made the landing on the island. ■ And another MILLER, Lt. (j.g.) George F. is attending gunnery school in Washington, D. C. ■ Lt. Gertrude I. MILLER of the army nurses corps has an APO, Fla. ■ Friends of Lt. Hyman MISHLOVE note his APO 958, Frisco. ■ Likewise for Cpl. Melvin S. MOSKOWITZ, APO 953, San Francisco. ■ 1st Lt. Allen S. PORTER, USMCR, is staff commander of the forward area in the central Pacific. ■ Another Badger in Italy is 1st Lt. Robert A. SCHENSKY. ■ Pfc. M. John SCHUMACHER is in the ASTP at Marquette Univ. ■ We'd like more info on Lt. Lynwood C. SMITH, APO, San Francisco. ■ Cpl. Lawrence N. SOM-MERS is cashing in on the sight-seeing in Italy "even plodded to the crater edge of Vesuvius which is an exhausting trip but well worth it." ■ Lt. K. Stanley THOMP-SON arrived back after nearly two years continuous service in the Pacific theater on a battleship. ■ A/C Wayne C. TRUAX is getting his training at San Marcos, Tex. ■ 1st Lt. Charles S. VAN SICKLE is assigned to the Office of the Port Surgeon at a Port of Embarkation in Va. ■ Another of our Wac's overseas is Cpl. Carol WAISBREN. ■ Arno ZIM-MER, PhM 1/c V-7, after overseas duty is now attending Univ. of Pa. preparatory to Reserve Midshipman's School. ■ Ens. Justin H. WINNIG is at Corpus Christi, Texas.

1943

Lt. Joseph G. BALDINUS recently com-pleted a ten weeks course in the Chemical Warfare course First Combat and Service at Edgewood Arsenal, Md. ■ Ens. D. O. BENDER wrote to us on an LST train-ing cruise but is actually stationed at Camp Bradford, Norfolk, Va. ■ A Bad-gerette in navy blue is Frances Jean BLISS, HA 1/c, assigned to the U. S. Naval Hosp. at Newport, R. I. ■ Sgt. Rodney W. BLOCHWITZ finished 25 missions as a B-24 gunner. ■ Pfc. Julian P. BRAD-BURY is stationed at an advanced base in the Med. Theatre of Oper. and is assigned to a signal co. encoding and decoding messages. ■ A new APO for Lt. Charles D. BUGHER, 244, Frisco. ■ A/C Har-old J. BUYENS, USNR, is flying at Whit-ting Field, Milton, Fla. ■ We can just hear le Francais roll off the tongue of

Persis A. CRAIG, S 1/c (RM) teaching radio communications to French Air Cad-ets from France and North Africa. ■ Lt. Thomas D. CRIST in the Marianas doing a lot of flying in B-24s is waiting for the dry season, when it only rains 18 days a month. ■ Heard from Lt. Norris G. DAVIS of the QM school at Camp Lee, Va. ■ New address of S/Sgt. Milton C. DETERT, Ft. Benjamin Harrison, Ind. ■ And Ens. Edward H. DICKINSON is on duty at the Sub Base, New London, Conn. ■ No news other than APO, New York from Lt. Michael J. DUNFORD. ■ Sgt. Ernest C. ELLIOTT is now in La Junta, Colorado. ■ Holder of the Air medal with three oak leaf clus-ters, Lt. James E. GEURTZ was a Liber-ator navigator in No. Africa for 7 months and flew on 51 missions. ■ With an arm'd Inf. Bn. APO, New York is Lt. Howard C. GREENE. ■ Edward J. HERBST was graduated from recruit train-ing at Great Lakes an honor man of his co., having been selected on the basis of military aptitude and progress. ■ Cpl. Benjamin S. HOAR is receiving additional training with a bombardment group at Walker Field, Victoria, Kans. ■ Ens. John W. HOFELDT is FPO, Frisco. ■ Abe N. HOLDEN is at present on the S/S Esso Scranton in the Merchant Marine. ■ New B-24 pilot is Lt. Howard N. HOVLAND, graduate at Fort Worth Air Field. ■ Maj. Robert L. HUGHES, home after 30 mos. service on So. Pacific islands, claims success in jungle warfare depends on the exploits of the individual soldier rather than on those of entire divisions or regiments. ■ 'Nother Badger in Italy is Sgt. Hollis V. JOHNSON with a weather squad. ■ Now in Miami Beach for re-assignment, 1st Lt. Edward D. JONES is the winner of the DFC, Air Medal with 3 oak leaf clusters earned in 224 combat hours of B-17 flying in the European theatre. ■ Showman Morris H. KATZ, Pvt. in the 8th AF service command sta-tion in England, played with a GI dance band and toured bomber bases with a variety show called "Just for Fun". ■

Croix de Guerre

A veteran of campaigns in Africa, Italy, Sicily, Corsica, and now France, PFC. ROGER P. EVANS, '45, has now received a citation from the French army which entitles him to wear the Croix de Guerre with gold star.

The citation expressed grati-tude for the aid which Ameri-cans had given the French dur-ing the Italian campaign, more particularly when Evan's outfit, a field artillery observation bat-talion, had helped the French lo-cate enemy material and move-ments.

Evans entered service in February 1942 and is the son of Mr. and Mrs. E. R. Evans, 2636 N. 72nd St., Milwaukee.

To Lt. (j.g.) Edward A. KOPADY we promise to keep our literature comin' your way. ■ Lt. Robert J. KRIWANEK writes "it's a h — of a busy life keeping up with this 3rd Army but I love it." ■ Pvt. Omar N. KUSSOW was wounded in Hol-land. ■ Ens. Reba M. LAMI is a navy nurse stationed at Corpus Christi. ■ Lt. K. R. LARSON is now at Shelby, Miss. ■

Pfc. Joseph J. LASTOVIC is at present as-signed to duty at Sioux Falls, S. D. ■ Lt. Wallace Z. MACKIE is assistant photo-laboratory commander in the famous "Hawkeye" photo reconnaissance unit of the 5th Air Force in the southwest Pacific. ■ Cpl. Patricia Ann MEYER is wearing the Marine Greens down in Quantico. ■ Back home after flying 51 missions as a P-38 pilot in the Med. theatre is Capt. Porter M. McCLAIN. ■ Here's another la France booster, Pvt. Anthony MEGNA. ■ "The hospitality here is grand. For the past two days I have not touched a morsel of army food. I must add that the French women can really assemble a pleasant mess. of calories." ■ Lt. Walter S. MEIVES notified us of a new address out of New York. ■ And at a general hospital is Cpl. Jack W. MURPHY, APO, New York. ■ Also a change mentioned is that of Cpl. J. R. OVERFIELD to an air depot APO 528, New York. ■ Arthur W. PETSCHER, QM 3/c, is aboard the USS Baltimore, FPO, San Francisco. ■ And ace basketballer Ens. Fred R. REHM is as-signed to Submarine Base in New London, Conn. ■ Right on old home territory, Pfc. Thomas J. RICE is a medic with the ASTP on our own campus. ■ Sgt. John D. ROSSITER in New Guinea discovered a jeep named "On Wisconsin", but he's still looking for the driver. ■ Another seafaring Badger, Donald A. SCHULZ, F 1/c is aboard the USS Duluth. ■ Three cheers for the SILGEN sisters, Lt. Kath-leen with the army nurse corps in India and Ens. Betty of the navy nurse corps at Great Lakes. They're both doing a fine job. ■ Pfc. George W. STAHL member of a medical composit unit has APO, Frisco. ■ Now sporting Navigator's wings is Lt. Norman G. STEIN of Tono-pah, Nev. ■ Harry STOLL is recovering from a shoulder wound suffered in France. ■ Recent graduate of the New Orleans army air base transportation corps school is Lt. Donald A. TRACHTE. ■ New ad-dress for Lt. Edwin A. VAUGHAN is Camp Swift, Tex. ■ From the South Pa-cific former football big man Cpl. Lloyd G. WASSERBACH is closely keeping tabs on this year's team. ■ S/Sgt. Harry L. WINN is receiving his mail these days at APO 94, New York.

1944

Ens. Nicholas ARENELLA is aboard an attack transport, USS Oconto, named after the Wisconsin county. ■ And out in the Pacific, Pfc. James G. BARR is looking for some South Sea Belles, Hollywood version. ■ It's been a 2½ years residence for S/Sgt. Theodore J. BAST in British Guiana. He's met one other Badger, Capt. Clar-ence W. TOURVILLE, '32. ■ 1st Lt. Donald W. BENTZEN back from pilot-ing in Europe is at the Miami redistrib-ution station. ■ Wish we had more on T/Sgt. Roger S. BESSEY, APO, New York. ■ Pfc. Virgil C. BILDERBACK from the tone of his letter is actually absorbing some British slang if we can possibly call it that. ■ It's Hunter Field, Ga. for Lt. James R. BOERGER. ■ And at another southern station, N. C. State College is Ens. John A. BRADY. ■ Ens. James P. BRODY is assigned to the naval training station at Ohio State Univ. ■ In the In-fantry at Fort Meade, Md. is Lt. Timothy BROWN, Jr. ■ S/Sgt. Howard BUCH-ENBERGER is with a fighter group, APO, New York. ■ A gunner in the ETO, S/Sgt. Raymond J. CRANDALL is down in Miami Beach awaitin' reassignment. ■ Signal Corps man Lt. B. Thomas FRANK-

LIN is stationed at Crowder in Mo. Congrats to Sgt. Vernon E. FRECK, musician, APO, New York (in France) and to his new bride. Another Miami Beach reassignment man is 1st Lt. Earl T. FRYE, pilot in the ETO. Cpl. Robert J. HENRICH of the engineers wrote from a beautiful French chateau with paintings on the wall and brass chandelier. Hope Pfc. Earl H. JOHNSON likes his new organization at Avon Park Army Air Field, Fla. Lt. Owen A. KAMPEN now wears an Air Medal ribbon. Nurse Lt. Inez M. KRENZ has just reported to Camp McCoy, Wis. New arrival for our New Guinea colony is Pvt. Walter M. LAMBERT. Pvt. George E. MARKWARDT is struggling along with his Dutch conversation but as long as he can get what he wants, guess he's coming along fine. 2nd Lt. Duane C. MAYBAY has a second cluster to his Air Medal. Owner of the "Wings of Gold" is Ens. William J. MULLEN commissioned from Corpus Christi. An LCT man with an FPO, Frisco is Ens. Paul E. MYERSON. It's APO 217, New York now for Lt. Edward D. PALMER, navigator in a heavy bomber squadron in India. 1st Lt. George M. PIAS now has both pilot and navigator's wings. Ens. Donald A. PORATH is with the South Pacific Forces now. Recent graduate of Smith College Midshipmen's School, Ens. M. Marjorie PRINE is stationed at present in Philly. Here's a new arrival at the naval station contingent in Hollywood Beach, Fla. Ens. Leslie W. RANTALA. Ens. Henry W. REHR is assigned to the Diesel engineering school at N. C. State College. Ens. Leonore P. RHODES is still working out of Fifth Ave. N. Y. T/Sgt. Kenneth J. SCHUCK, B-17 aerial engineer, has been awarded the Air medal from a 15th AAF base in Italy. Karl SONNEMANN, senior class pres. is a soon-to-be ensign as soon as his indoctrination training is completed. One more nursing school graduate to join the army corps is Lt. Marjorie M. WOLFENDEN, recently reported at Camp McCoy, Wis. Just a brief bit of news on Pvt. James R. TOMLINSON. He's a veteran of Anzio now in France. Warren L. VODAK, EM 3/c, is aboard the USS Blessman. Lt. Percy WERNER is a member of the Hawkeye Group photo recon. APO, Frisco. Pvt. Robert A. WORMET has APO 79, N. Y.

1945

They were born ACES and are doing right well in the air corps, Lt. Keith, navigator on a B-24 in Italy, and Cpl. Robert, in Tampa, Fla. for operational flying. In an Engr. Com. Bn. at Camp Bowie, Tex. is Pvt. Arthur F. ANDERSON. B. Robert BERG, S 2/c at present is located at the U. S. naval hospital in San Diego. Lt. Arden D. DAOUST, wish we had more info about him, is at Hondo, Tex. 2nd Lt. Rolland C. CURTISS was injured in a Mass. plane crash. Cpl. Donald E. EASUM, APO, San Francisco, writes he's still involved in Air Corps Communications but manages to squeeze in a little mountain climbing and swimming. Lt. Frank B. DAVY is APO, N. Y. Lt. Robert J. FARRELL is awaitin' an overseas post. Two more Badgers met on the Island of Oahu, Lt. Allan B. FEFER and Capt. Carl D. STOLPER, '42. An Air medal went to Lt. Robert L. GRIFFITH, pilot of a B-17 Fortress, at an Italian base. Heard from Lt. James O. HEFFERNAN of

Sgt. Michael Litvinoff, '45
Ball turret gunner finished 50 missions

Training and teamwork among bombing crew members really pay off, SGT. MICHAEL LITVINOFF, '45, can readily testify.

Now awaiting reassignment after having completed 50 missions over enemy occupied territory in France, Italy, Germany, and the Balkans, Litvinoff can again breathe easily after his share of close calls.

One day over Perugia, Italy, the crew of a bomber for which he was ball-turret gunner, had a double dose of difficulties.

First, as they arrived at their target and the bombardier got busy, a defective cotter-pin broke and a cluster of frag bombs fell to the bomb-bay. With five bombs on the loose, only one thing could be done. Each time the "bombs away" signal came through, two of the crew members calmly heaved the bombs out the window.

But, down in the ball-turret, Sgt. Litvinoff was busy firing his guns when the turret jammed and his oxygen supply was suddenly cut off.

The second dose of trouble was upon them. While one gunner fed Litvinoff oxygen, the rest of the boys scrambled to free the jammed turret. Luckily they got it cleared and retracted into the plane's belly just in time for the plane to land back at its base.

At our last count Litvinoff, who comes from Kennan, Wis., had six clusters to his Air medal.

Camp Luna, New Mexico. C. Weir HORSWELL, Phm 2/c, is located in Seattle, Wash. at a naval base. Lt. John R. JAMIESON is a pilot of a B-24 Lib. group which has over 300 combat missions. Plenty sharp there. Mail for Charles KIDD, QM 3/c, goes to FPO, San Francisco. Mighty proud of 1st Lt. Clarence R. KNUTSEN, winner of the Air medal and B-24 Lib. pilot with the 15th in Italy. A/C Norton KOTCHER is flying 'em at San Antonio, Tex. T/Sgt. Maurice E. LACEY, veteran of the Nor-

mandy invasion, is in England for a rest period. Pfc. Keith R. MOEN is a member of an Engr. Co. at Camp Pickett, Va. The O'DONNELL brothers are Pfc. Robert D., APO, San Francisco, and Pvt. William M. of Craig Field, Ala. There's no chance of reclining on the lawns in Burma writes Pvt. Russell RILL, since the elephant grass grows to 5 or 6 ft. in height. A/C Louis F. SCHILLINGER has reported at Napier Field, Ala. Mail for Robert H. SCHLEIF, S 2/c goes to Hosp. Corps School in Faragut, Idaho. Pfc. Philip SCHNEIDER from Ft. Jackson, S. C. tells of meeting Pat HARDER at the Georgia Preflight Univ. of South Carolina football game. PhM 3/c Warren A. SEYBOLD at Great Lakes enjoys his work putting up all sterile equipment and dispensing penicillin. Lt. Daniel W. SHEA, bombardier in Italy, won the Air medal. Pfc. John I. WILLIAMS is an ASTU at Univ. of Minn. Mail change for Pfc. Warren E. WUTKE to APO 447, New York. Happy to hear Badger booster Ralph A. ZORN, HA 1/c, of Great Lakes is aiming right back for this campus at war's end.

1946

Lt. John F. ALBRECHT B-25 pilot has APO, San Francisco. The ALLENS are really up and coming, Lt. James is assigned to an engr. aviation batt. APO, Frisco, and Mary is awaiting orders to report for duty in the WAC. Ens. Donald W. ANDERSON wears those coveted "wings of gold" right now at the naval air station in Jacksonville, Fla. Navigator Lt. Jule F. BERNDT is in pre-combat training preparing to take part in bombing attacks over Naziland as a member of the 8th AF B-17 group. V-12 Kensal (Bud) CHANDLER is one of four who attained high honors this year in engineering at the Univ. T/5 Alexander T. FEDOR has APO, New York. Pvt. Robert L. FITZE is now stationed at Normoyle, San Antonio, Tex. On the USS Seivering is Martin GELLMAN, RM 3/c. And at APO 447, New York is Pfc. Kenneth C. HARTHUN. Note address also of Marine Cpl. Harley R. HENKE, FPO, San Francisco. Wounded in action in southern France, Pvt. Leonard B. HERTZ, is now in a hospital in Italy. Pfc. Morton I. HORVITZ is at APO 339, N. Y. Pfc. Dean M. HINKLE has been transferred to Lubbock, Tex. At Texas A. & M. is Glenn H. JACOBSON, S 1/c. In answer to Pvt. Richard M. JANECKY in France, this Alum mag. does go overseas, if you are a paid subscriber. At Tower Hall, Northwestern Univ., is midshipman Anthony J. KOSTA. And another midshipman, Joseph F. NEIL is in supply officers school at Harvard. Cpl. Harry PHILLIPS is stationed at Camp Polk, La. Ruth R. RUDOLPH is now at the U. S. Naval Training School in the Bronx, New York. The first Wisconsin athlete reported to be with the Philippine invasion forces is Hubert (Hube) A. SCHNEIDER, outstanding tennis player. Located at the regional hosp. in Ft. Monmouth, N. J. is Pfc. Ronald N. SIGAL. From Lido Beach, Long Island, N. Y. comes word of A/S James A. WIESE. Pvt. Norman ZIMMERMAN now at Camp Sibert, Ala. left Camp Crowder as the undefeated amateur middleweight champ. Lt. Warren E. LOEHDORF is now out of the country at APO 557. And Lt. Roman A. SCHMIDT is training with a combat crew in Almagordo, New Mexico.

TRAILING THE BADGERS

GEN. C. R. BOARDMAN, '84, Oshkosh, president of the Wisconsin National Life Insurance company, has celebrated his 84th birthday recently.

He was adjutant general of Wisconsin for many years and served in World War I as brigadier general in charge of the 64th Infantry of the 32nd Division.

General Boardman's son and daughter-in-law are both Wisconsin graduates, **ROBERT** with the class of '12, and his wife, the former **LUCILE WORKS, '19.**

1888 W

Dr. Ernest E. COUCH, pioneer West Allis physician, died Nov. 15, at his home.

Wisconsin Chemists

Since the annual \$1,000 American Chemical Society award was first established thirteen years ago, the winner has been a Wisconsin man four different times.

This year Prof. A. C. COPE of Columbia University, Wisconsin Ph.D. recipient in '32, received the award.

Previous recipients were Dr. C. F. KOELSCH, Ph.D. '28, in 1934, Dr. K. A. FOLKERS, Ph.D. '31, in 1941, and Dr. J. L. ONCLEY, Ph.D. '33, in 1942.

Wisconsin leads other schools with having recipients of four of the thirteen awards, California Institute of Technology coming second with three recipients, and California and Harvard each having two recipients. Brown and MIT each claim one winner.

CLASSES

This department is read each month by more than 10,000 men and women who have attended the University of Wisconsin. Our readers now include alumni in uniform who are stationed in all parts of the world. Contributions of news items or clippings from newspapers regarding the activities of Wisconsin alumni are greatly appreciated. It is important that changes of address be sent to us promptly in order to prevent delay in the delivery of your copies.

... in back of this seal

In its 20 years, the Wisconsin Alumni Research Foundation has conducted thousands and thousands of tests. Tests to assure the uniform potency of food and pharmaceutical products bearing the Foundation Seal. Tests to assure the therapeutic and prophylactic values of these products. Today the results of these tests stand in the Foundation Library as your guarantee of the value of any product bearing the Foundation Seal.
