OUR situation at the opening of the year can only be described as unexpectedly comfortable. In the budget adopted after the special session of the legislature, we provided adequate instruction for 7,000 students—substantially the number of those who have registered. We have not been forced, therefore, to appoint in great haste a large number of teachers, as we had to do last year. Nor has our work been broken up by the absence of important men in war service, as was the case in the fall of 1917 and of 1918. The educational prospect for the coming year is accordingly brighter than in any year since the opening of the war.

E. A. BIRGE

Our registration is proportionately about the same as that of most of the neighboring state universities. They either have a small increase, as we have, or a slight loss.

A much larger increase in students was expected or rather feared, by many, both here and in neighboring states. This led to numerous unauthorized "scare items" regarding the available rooms in Madison and elsewhere. We should doubtless have had more students except for them. In fact, our supply of rooms was quite adequate. I noted in a local paper recently twenty-eight advertisements of rooms to rent.

We can not pretend that the situation of the University is free from difficulties and problems. On the contrary, these are many and serious.

Adjustment to a student body of seven thousand or more can not be made in a year or two. We have not yet even proposed to the legislature the buildings needed to enable us to do our teaching satisfactorily. Many other questions, financial and educational, are before us and must be met; some of them during the current year, all of them in the near future.

But we begin the year under conditions, both financial and educational, far more favorable than we could have expected a year ago. In respect to attendance and the correlated opportunity for good teaching, they are better than we dared anticipate even during vacation. So we enter on the year's work with courage and confidence.

We ask the alumni to keep in touch with us and to aid us in settling the important matters which the future is sure to bring to us.

# The Wisconsin Alumni Magazine

"So that you may take the shortest route to education rather than to experience years of unfruitful half-productive labor; so that you may see far into the future toward opportunity rather than to look backward at needless mistakes; so that you may learn to appreciate the finer, truer things of life, you are enjoying the privileges of your state university. It is an institution endowed and supported by the people of Wisconsin so that there may go forth into the state and into the world, leaders and dreamers to promote better social and economic conditions among men."

## CALL OF MEETING OF ALUMNI COUNCIL FOR NOVEMBER 13, 1920, 10:30 A. M.

A meeting of the Alumni Council will be held in Madison on Saturday, November 13, 1920, at 10:30 A. M., in the Y. M. C.A. Building, 740 Langdon Street.

If any class secretary or regular representative of a local club is unable to attend another person should be designated as such representative, or a proxy sent to the General Secretary, Robert S. Crawford.

### SPECIAL FEATURES

Address by Professor Thorkelson. Moving pictures of University life.

Be sure that your club or class is represented.

F. H. CLAUSEN, *President.*

By Lillian Taylor, *Recording Secretary.*

The constitution provides:

Section 6: The Alumni Council shall consist of the Secretary or other duly chosen representative of each class and of each local alumni association or club, and ten members at large to be elected at the annual meeting.

Each local association and each class shall be entitled to one representative or vote for each hundred regular members of the general association, or fraction thereof. Each local association must file with the general secretary a copy of its constitution, by-laws, and annual membership list.

N. B.—The Alumni Board will meet at the Alumni Headquarters, 821 State Street, at 9:30 A. M., same date.

## NEWS AND COMMENT

A thoroughly representative legislative body for our large Alumni Association was wisely provided by the framers of the present constitution in the organization known as the Alumni Council. Every class and every local U. W. Club should have a representative present at the meetings of this body in June and November of each year. Reuning classes should be particularly attentive to have an authorized representative present. The local U. W. Clubs now flourishing in all parts of the country should also send representatives. Classes and local clubs are asked to seriously consider ways and means of having the secretary here for the meeting of the Alumni Council at 10:30 A. M., November 13. Payment of expenses should be met by the local club or the class. The Alumni Association will progress just as fast as you help it progress; it will help the University just as much as you give your assistance. The Alumni Council was planned for the most important work of the Association. Will each class and each local club see that the Alumni Council is a real live, active, energetic, dynamic, helpful, constructive source of influence and power?

The University, according to a report made by the business manager late in the summer, has ninety professors and deans who receive a total salary of \$473,100, with an average of \$5,257. Of these positions fifty-eight are in the College of Letters and Science with an average salary of \$5,156; fifteen are in the College of Engineering with an average salary of \$4,950; twelve are in the Medical School with an average salary of \$5,708, and five are in the Law School with an average of \$6,150.

There are also forty-four associate professors—thirty-seven in Letters and Science, six in Engineering, and one in the Medical School, receiving salaries averaging \$3,636, and totaling \$160,000.

Assistant professors number seventy-five—fifty-three in Letters and Science, thirteen in Engineering, eight in Medicine, and one in Law. Salaries in this division average \$2,855, and total \$214,150.

Instructors number 179, of whom 119 are in Letters and Science, forty-one in Engineering, and nineteen in Medicine. Salaries for instructors average \$1,812, and total \$324,360.

Comparison with the salary scale at the University of Michigan shows that Wisconsin salaries average thirteen per cent below Michigan salaries in the College of Engineering, 15.7 per cent below Michigan in the College of Medicine, and 15.7 per cent below Michigan in the College of Law. In the College of Letters and Science Wisconsin averages 2.3 per cent above Michigan. Comparison of the comparable departments in these two state universities shows that on the whole Wisconsin's salary schedule is about five per cent below Michigan.

Some specific salaries for last year and this year are given herewith. The 1918-1919 salaries are those in parentheses. With exception of deans of Letters and Science and Agriculture, business manager, and president the salaries are paid in ten monthly payments and therefore include no summer session earnings. **President's Office**—Pres. Despite the marked improvement made in University salaries during the past year there still remains much to be done when nearly fifty per cent of the instructional staff are on salaries of less than two thousand dollars per year. It will be a serious problem for institutions of higher learning to hold ambitious young men at such relatively low salaries when even public high schools are paying better salaries for special teachers in manual training, domestic science, and commercial branches. As friends of education it devolves upon alumni to use their best efforts in securing adequate salaries for all faithful and efficient public servants and particularly to see that a salary sufficient to guarantee a fair living is assured those who devote their lives to education.

There can be no question that one of the primary reasons that the alumni of American colleges supported by tuition and private endowment, rather than by public funds, take such active interest in the institutions after graduation is because the alumni have a real voice in the affairs of the institution. The principal voice alumni have had in the affairs of state institutions has been in its many instances merely the privilege of answering the call of university officials who, when they encounter a stone wall of opposition or a legislature that seems disposed to lock up all public funds and throw away the key, then cry aloud, "For the sake of Alma Mater, alumni come and help us."

Last year attention was called to the fact that California had so changed the Organic Act as to grant *official* alumni representation on its board of regents. This "most undoubtedly stimulated the interest of alumni."

Kentucky has a law giving the alumni the right to elect certain members of the board of trustees, requiring the governor to appoint a certain number of alumni to the board, and allowing the alumni organization privilege of naming some member of the executive committee of the board.

It will be a very simple thing to allow the alumni organization of our University to nominate to the governor candidates from whom he might select the two regents for the State at large. The governor-elect could extend such a privilege to the alumni organization without any change in the statutory requirements. While alumni will always come when the cry "For the sake of Alma Mater, alumni, come and help us," reaches them, the alumni will probably never need to be so called if University and State officials will co-operate in holding the interest of graduates in the affairs of Alma Mater, by inviting the alumni organization to participate actively in all affairs of the University through *official* representation on the governing board.

Plans for class reunions to be held in June, 1921, should be started without delay. Three of the classes that are to reunite had the good judgment to begin as early as last June. We predict that those **Do It Now** classes that start reunion publicity through announcements in December and January issues of the ALUMNI MAGAZINE will secure better attendance than those that wait until the May and June issues. June, 1921, will be the month for the reunions of all classes of the University ending in the numerals one and six. The classes that should answer the roll call this year are: '61, '66, '71, '76, '81, '86, '91, '96, '01, '06, '11, '16, and '21. Will class officers kindly keep us supplied with notices for publication?

The registration statistics show that about 7,000 students, practically the same number as last year, are at the University this year. For purpose of comparison figures of last year have been inserted in parentheses. **Attendance** There are 4,599 (4,581) men and 2,387 (2,368) women registered—a total of 6,986 (6,949). There are 473 (420) graduates, 1,025 (995) seniors, 1,320 (1,382) juniors, 1,664 (1,580) sophomores, 2,361 (2,408) freshmen, 129 (151) adult specials, and 14 (13) unclassified. The College of Letters and Science has an enrollment of 4,448 (4,579). Of this number 1,328 (1,319) are in the course in commerce, and 86 (83) in pharmacy. The College of Engineering has an enrollment of 1,107. The College of Agriculture has an enrollment of 753 (877) which includes 252 (259) women in the Department of Home Economics. The College of Law has an enrollment of 148 (150). The College of Medicine has 147 (131), and the School of Music has 122 (105).

## THE EARLY YEARS OF CO-EDUCATION AT WISCONSIN

BY MRS. ELLEN CHYNOWETH LYON, '70

**I**T was the state universities of the middle west that first opened their doors to women, recognizing that they owed a duty to their daughters as well as to their sons to see that they were as well equipped to bear an efficient part in the great world's work. In this movement the University of Wisconsin was but little behind her neighbor, Michigan. Co-education gained a foothold more easily in Michigan apparently than in Wisconsin. The lack of competent teachers in the public schools of the State influenced the Regents to establish as early as the year 1863 a Normal Department in the University but it was of questionable value during the first two years of its unhealthy existence.

MRS. ELLEN CHYNOWETH LYON

The most successful period of the Normal Department was in 1865 under the very efficient leadership of Professor Charles H. Allen, and in 1866 under Professor Joseph C. Pickard, who succeeded to the position after the resignation of Professor Allen. The department occupied the lower floor of Bascom (University) Hall north of the rotunda as chapel, study room and class rooms. It resembled a graded school in its conduct. The professor had charge of the students in the study room and held his

own classes in seats just below the platform, while the women were allowed to attend recitations with the men in any of the class rooms of the regular faculty members. It is regrettable to admit that in the early years the presence of women was rather a matter of necessity than of choice and justice, for the Civil War had so depleted the student ranks that the University was in danger of having "finis" prematurely written in its career on account of the small registration.

Thus many reasons combined to induce the Regents in 1866 to reorganize the University, granting the same privileges to women as to men, thus making Wisconsin one of the first co-educational institutions of the world. Our Alma Mater received her daughters grudgingly. They were accorded no hearty welcome nor maternal blessing. The cradle was rocked by the rough waves of adverse public opinion, and surrounding conditions made growth, yea, even existence, precarious. Objections to the new order crowded in from all sides and moreover it was impossible to find a chancellor willing to assume the responsibility of so doubtful a venture. It is quite possible that the many sectarian colleges of the State, jealous of the influence of what they designated an unchristian State University, seized this opportunity to try to endanger the life of the University by arousing animosity against it among the legislators and the people of the entire State on every ground conceivable and inconceivable. This antagonistic sentiment became so strong the next year that the Regents were obliged tacitly to admit that they had been in advance of the majority sentiment of the people by modifying their enactment of the previous year with regard to the privileges granted to women by allowing them only a part of the opportunities enjoyed by men.

(Continued in December issue)

## THE MEMORIAL UNION

By H. L. ASHWORTH

**A**NNOUNCING its determination to push the University of Wisconsin Memorial Union Building campaign to a successful conclusion, the executive committee promoting the project has transferred its headquarters from Milwaukee to Madison. The committee's quarters, in charge of H. L. Ashworth, secretary, are now located in the Cornelius house, 821 State Street.

The committee reports a total of \$254,000 pledged to date. Feeling confident that success is in sight, we have asked all subscribers to waive the condition of their pledges which required a total of \$500,000 pledged to make them binding. The ob-

ject is to make prompt collection of pledges and permit use of the interest on funds collected to help meet the cost of continuing the campaign.

"The only problem to solve is how to carry to the alumni and friends of Wisconsin the real value of our University as an economic and a moral force," said Fred H. Clausen, chairman of the Memorial Committee and president of the Alumni Board. "The obligation to maintain and support is made manifest as dormant loyalty is aroused.

"There is no doubt but that the full million dollar fund, and more if necessary, can be raised among the alumni, students and friends of our great University. We have only scratched the surface so far and we have a quarter of a million. The students and members of the faculty at the University raised nearly \$100,000 of this and they are going to raise more.

"Our committee has in its card index the names of more than 14,000 alumni and former students. So far only about 1,861 of this number have pledged subscriptions. Subscriptions have also been made by over 200 industrial concerns and individuals having no connection with the University other than a friendly interest.

"As head of the Alumni Board I therefore urge our members everywhere to get back of this project in a whole-hearted way. Let's back it with our influence and help as well as with our dollars. It is our big chance to do something fine and worth while for the institution which has done so much for us. We are not through when we have made our individual subscriptions. We must keep plugging and boosting and talking to our fellow members until all who are able have signed up.

"It took another state university nearly ten years to put over a similar project—without the memorial feature, which alone ought to insure the success of our campaign. Let's beat that record and beat it a plenty.

"Come on! Let's go!"

The progress and needs of the Memorial Campaign will be reported regularly in the ALUMNI MAGAZINE.

## THE 1920 HOMECOMING, NOVEMBER 12, 13, 14.

By CHARLES P. MACINNES, '22

**T**HERE'S your invitation, old grad. Every one of the 7000 students enrolled this year sends it forth with enthusiasm. They say it's to be the greatest Homecoming season that Wisconsin has ever had. Never before have plans been laid that can compare with those now in process of realization.

But to make them perfect depends on you. It's your party, Badger grad.

The game, the dance, the parade, the bonfire, and all the other events that make

a Wisconsin Homecoming so dear to the hearts of those who hold in store memories of their days on the hill—we may have them all, but without the presence of those who preceded us the greatest display is lost.

It's those who return that make a Homecoming. You'll be back, old grad?

The fall air is keen and crisp these days. It's the snappy weather that puts life into a football team. Up and down the grid the squad is pounding every day getting into trim that will make Illinois fight to the last to score. "Big John" Richards has got a team! Come on and watch 'em.

Do you remember how the lake looks just about this time? Sky and water are blended into a turquoise blue. The trees along the drive are one mass of colors. You'll want to come back to see it all.

But besides admiring the scenery, there will be something else for you to do. There are to be three big days of festivities. Everything will start off with a bang on Friday, and until Sunday night every member of the committee guarantees that there won't be a dull moment.

An added feature this year is to be the Engineer's Minstrels. Once every two years the loyal sons of Saint Patrick don the garb of coon town and put across a real show. There will be only two performances, but everyone is sure to get in.

Pep meeting and bonfire! Enthusiasm for the former and wood for the latter are already being stirred up and gathered for the occasion. We need more of both.

Get your ticket now, old grad. Don't disappoint your hosts. You are coming.

### CHICAGO

By C. L. Byron, '08

**A**LTHOUGH during the summer months no regular meetings of the University of Wisconsin Club of Chicago were held, a goodly number of Wisconsin men gathered around the festive board every Friday noon at the City Club. We have started the regular meetings in our private room in the Chicago City Club in anticipation of a very active and enjoyable year.

Captain Edward Evers, Commander of the battleship "Wilmette," Training ship Commodore and the German Submarine, favored us with a very interesting talk on the work of training the Naval Reserves and the value of our cost defense, etc. On October 8, we heard General Agzapetian of the Persian Army, who spoke to us very interestingly on "The Near East as It is Today."

On Friday, October 15, there was a joint meeting of the ladies and men, which always is a banner occasion. On that day Major Dalrymple, the Federal dry law leader, addressed us.

### KNOXVILLE

By Mrs. W. R. Woolrich, '14, Sec'y

The second meeting of the Wisconsin Alumni Club of Knoxville took place on the evening of Sept. 6, at the home of Mr. and Mrs. J. D. Jarvis. The event was in the nature of a farewell to our Club president and his wife, Professor and Mrs. W. A. Schoenfeld (Mabel Wagner) '14 and ex'16, who departed on September 10 for Boston, at which place they will reside while Professor Schoenfeld takes advanced work at Harvard. The evening was a most enjoyable one, with sixteen members present, all loyal to their Alma Mater and interested in her welfare. After the serving of refreshments, which were most artistically and appetizingly tinted in the Wisconsin colors, cardinal and white, the club presented Professor and Mrs. Schoenfeld with a silver celery tray which was but a small expression of the big feeling of appreciation and good will that each member has for them. We regret their departure from our midst exceedingly, but since their motive in leaving is such a high one we cannot wish that they had not decided to take this step. May the very best of fortune follow them to their new home!

J. D. Jarvis, '05, was appointed president of the club to take the place of Mr. Schoenfeld. As a club we plan to meet at the various alumni homes once in every two months for the purpose of becoming acquainted and having a social time. Our reason for meeting less frequently than each

month is chiefly that one half of our membership is made up of bachelors who would naturally be at a loss to know where to entertain the married members. When all these single members have entered the bonds of matrimony, as we believe and hope they some day will, you may expect a report from the Wisconsin Alumni Club of Knoxville each month of the year.

### SHEBOYGAN COUNTY

By Jennie T. Schrage, '06, Sec'y

Following is a report of the results of the campaign for subscriptions to the fund for the Wisconsin Memorial Union Building in Sheboygan County. This campaign was in the hands of Marie Kohler, '01, who, with her assistants, made so thorough a canvass of the county that our quota was exceeded on May 10. I have delayed sending in the report because one member of the committee has not yet handed in his figures, but will delay no longer.

Report of Sheboygan County, May 10, 1920

Sheboygan.....	\$12,600.00
Plymouth.....	495.00
Sheboygan Falls....	660.00
Adell.....	50.00
Haven.....	20.00
Waldo.....	25.00
Elkhart Lake.....	50.00
Cedar Grove.....	15.00
Oostburg.....	1.00
Outside of county---	145.00

---

\$14,061.00

Of these totals, there were contributed by manufacturing concerns in Sheboygan, \$4,105, in Plymouth, \$150, and in Sheboygan Falls, \$425, a total of \$4,680, showing the interest in the welfare of the University expressed by men who are not alumni nor directly connected with that institution.

Several former soldiers or their families have agreed to contribute the bonus due them from the state or government. This does not complete Sheboygan's report, but covers nearly everything. If the other counties do as well, the building is assured in the very near future.—9-2-20

### TEACHERS' CLUB

By B. M. McCormick, '14

The Wisconsin Alumni Teachers' Association will hold its annual meeting at twelve o'clock in the Badger Room of the Hotel Wisconsin, Milwaukee, on Friday, November 5th (during the State Association meeting). We are going to have a genuine old time song fest. Asa Royce, '04, has been ordered to assume and has accepted

ALL Alumni and friends are invited by the U. W. Club of Chicago to attend the annual Football Dinner at the Great Northern Hotel at 6:30 Friday evening, November 19. Price \$3.00. Mail reservations to Ira Reynolds, 2004 Harris Trust Building.

the responsibility of choir master. He's not going to permit mumbling. Everybody's got to sing, squak or whistle. Phil Kolb, '01, Willis Colburn, '05, Tom "West Allis" Jones, '96, Henry Kircher, '03, George Landgraf, '92, and other old timers have been ordered to tune up for the occasion. Charley Bishop, '06, of Portage, has been given a month's notice in which to perfect

his physical condition so that he may do justice as official yell leader. Cussing is prohibited. The speakers have been notified to stand up, speak up, and shut up, and to season well with pep what they have to offer. Tom Berto, '05, has been named as official "wielder of the hook". **Come on down. You can't afford to miss this meeting.**

## ATHLETICS

By T. E. JONES

**B**ETWEEN optimists and pessimists, it is hard to make any prediction on the outcome of the 1920 football season. Like the presidential campaign, one is led to waver according to the eloquence and force of the last orator.

Say the optimists, "Look at our back field! There's nothing like it in the Conference." "There's not an end in the Big Ten that can come up to Captain Weston." "Look at our line, Bunge, Scott and Stark." But before our spirits have a chance to soar upward, we are brought

have a team that will fight in true Wisconsin style until the whistle blows, and whether they win the Conference championship or not (we, being of the optimists, have our hopes), they will not be listed with the "Also Ran's".

The preliminary season is over with a 60 to 0 win over Lawrence on October 2 and a 27 to 0 victory over the Michigan Aggies on October 9. By the time this article is in the hands of its readers, the Northwestern game of October 16 will be a matter of history and if, as we confidently expect, (the optimist speaking) we win, rejoice with us and if—(enter the pessimist)—we should lose, remember that they won from Minnesota on October 9 with a score of 17 to 0 and that they are no mean foe.

On October 23 we are traveling down to Columbus, Ohio, to meet Ohio State in football. We'll be too far from home for our students to be in the cheering section, but we hope that some of you will be there.

On November 6 we are on the old battle field at Minneapolis and we are looking to see a lot of friendly faces up in the North Stand which is to be the Wisconsin section. If we are going good—(enter the optimist)—we will go still better, knowing that you are cheering us on; and—(exit optimist and enter pessimist)—if we are going poorly, we will need you back of us for we may surprise everybody if the push from behind is hard enough.

We are looking for all of the old grads back on November 13 and optimists any pessimists alike agree that this one day is to be our own. There is nothing but the brightest of outlooks for the one big day in the old school's calendar.

November 20, we finish our football history for the 1920 season and personally—being as before mentioned in the foremost ranks of the optimists—we believe it is going to be a deciding day in Conference football. We want the alumni to remember that there is plenty of room at Staggs' Field.

The one thing that worries even the optimists is the size and caliber of the freshman football team. Ordinarily there are a large number of big boys out with considerable prep school experience, but this year

COACH JOHN RICHARDS

back to earth by the pessimists who greet us with, "We haven't more than 30 men out there." "Barring accidents, we *might* win three out of six." "Yes, the boys are all right, but they are inexperienced." "The rest of the schools have good teams, too."

Granting that the optimists may be over confident and the pessimists too doubtful, we do know one thing, and that is that we

**N. B.—Wisconsin won from Northwestern 27 to 7.**

**N. B.—Ohio State won from Wisconsin 13 to 7.**

the men are small, few of them weighing over 160 pounds, and with very little preliminary training.

### Cross Country

In Cross Country we are depending upon Captain Wellington Brothers with his squad of Dayton, Dennis, Wall, Noble, Wille, Powell, Wade, Blodgett, and Daniels, with perhaps some new lights which have

not as yet shone brightly enough to be seen, to keep up the Wisconsin record in that sport. Dayton and Dennis are both runners of ability. The first chance for the squad to show their metal will be against Chicago at Madison on October 30. A meet with Minnesota at Minneapolis on November 6 and the Conference Meet at Urbana, Ill., on November 20 will tell the story.

## ANNUAL REPORT OF BOARD OF VISITORS

By J. E. McConnell, '87, *Chairman* and Imogene H. Carpenter, '87, *Secretary*

THE Board of Visitors appreciates the financial difficulties under which Regents and faculty alike have labored during the past year of expanding demands and inelastic income and resources. We feel that the untiring efforts of the Board of Regents and the spirit of loyalty and sacrifice which has characterized the faculty are deserving of commendation.

1. Because of the unusual financial conditions we do not attempt to make recommendations which would involve large expense. Money is urgently needed for additional buildings and equipment and additional teachers in practically every department but there is nothing to be gained at the present time by restating needs with which your Board is familiar.

Various matters, chiefly of minor character, discussed and recommended at our joint meeting have been acted upon and need not be reviewed here.

2. The housing problem, so often discussed, is still unsolved and seems to grow increasingly difficult. Further consideration has confirmed us in the opinion expressed at our joint meeting, namely, that the only present practicable solution lies in inducing private capital to invest in dormitories. The present time is not opportune to procure capital for any purpose but we believe steps should be taken, including legislative authorization if needed, so that something may be attempted when the financial situation improves.

3. In comparison with other communities our University makes little use of the wonderful opportunities which the lake offers for outdoor sports, both in winter and in summer. We feel that the women of the University in particular would be greatly benefited if encouragement were given to winter sports, especially to skating. A suitable building should be erected on the lakeshore, in which could be provided a heated shelter for winter and dressing rooms and showers for the swimming season. Such a structure should be of artistic design and harmonize with the other buildings of the University, and might appropriately be provided with porches affording a view of the lake. There is at present no building or structure on the

University grounds from which the beauty of the lake may be enjoyed.

4. In the field of university extension we believe considerable development may be gained at little additional expense. We especially recommend that an attempt be made to organize and develop folk handicraft among the foreign groups in the State. Recent folk handicraft exhibits in Milwaukee of which the Extension Department has been informed, show great apparent possibilities both artistically and industrially.

5. The teaching of applied art at the University is already in effective progress under Mr. Varnum and Miss Hillstrom and their assistants. The present and future development of textile and metal industries in the west prompts us to favor the placing of increasing emphasis upon the training of workers and teachers in this field.

6. There was at our joint meeting some discussion with reference to closer relations between the Law School and other departments of the University, particularly the School of Commerce. We are of opinion that more instruction in the theories and methods of modern business in the Law School would be profitable to the student.

7. We continue to take a deep interest in the *Cardinal*. We feel that it has improved greatly during the past year and that its contents are creditable to the University. Its general appearance is far from attractive, however, and much inferior to that of dailies issued at our neighboring institutions. Perhaps no improvement can be attained until after the erection of the proposed Memorial Union Building but we hope something may be done before that date.

8. The recent tragic conflict between the police of the city and the students has given emphasis to a condition which has long existed. There should be a better mutual appreciation of duties and responsibilities on the part of both elements of the community. It seems to us that a decided improvement of conditions might result if greater responsibility for order were placed upon the student body and a student police corps organized, with a senior who commands the respect and good will of the student body as chief.

9. The problem of social activities at the University is a difficult one. Perhaps we are unduly critical but it seems to us that there is too much time, energy and money spent in dancing and other diversions. We feel that something should be done to eliminate or at least discourage afternoon dancing and generally reduce the number of parties.

We dislike to criticize so popular an institution as the Junior Prom, but we feel that we ought to say that in our judgment it is a far more elaborate and expensive function than it should be. It costs too much money and it absorbs too much time and attention. When the *Cardinal* declares in sober earnest in a leading editorial that the Prom is "the crowning achievement of the class of 1921" there is disclosed a lack of appreciation of scholastic value which is to say the least, disconcerting.

10. Closely related is our old problem of the lack of intellectual enthusiasm which characterizes a prominent, if not a large proportion of the students; a problem not confined to our University but apparently

wide-spread, for President Hadley of Yale in his recent letter of resignation points out the fact that the greatest problem American universities face is the lack of intellectual stimulus and hunger for knowledge among the undergraduates.

It is too much to expect that all the students attending a state university will be enthusiastically devoted to the intellectual life. There is certain to be a considerable element, and an active and energetic one, whose interests apparently lie in other directions. The problem is to increase the number and influence of the real students and to decrease the number and influence of those whose purposes and ambitions seem misdirected.

Restriction of social and other outside activities should be helpful; but the real remedy must reach and appeal to the student sentiment. The classification of the students into pass and honor students seems to work well in English and Canadian universities. That system seems to us sufficiently promising to deserve careful investigation.

## COLLEGE OF LETTERS AND SCIENCE—THE DEAN'S PAGE

By DEAN G. C. SELLERY

G. C. SELLERY

A MESSAGE from me to the alumni who were back for commencement would be largely a work of supererogation. They saw again the beauty of the campus with its charm of ivied wall and its glint of leaf and water. They noticed, with approval, the increased tempo and the enhanced impressiveness of the commencement exercises, which were due in such large measure to the dramatic genius of Professor Olson. When Doctor Mills creates the special music required for the ritual of salutation and graduation, and when we complete arrangements for an adequate commencement orchestra—and both these *desiderata* are within measureable distance of realization—we shall have commencement exercises which will usher our graduates into the world with a dignity and charm unequalled on this continent.

The old and even the young grads who come back find a goodly number of the teaching staff they knew in their undergraduate days. One can read in their eyes their surprise at finding this or that former teacher still on the ground. One who goes back to his old home town after many years knows the feeling. "Great guns! if there isn't old Bill Smith! Is he still around here?" We have had our losses in the staff. Some of them have been irreparable, but our University tree bears new leaves and branches and the average of the staff becomes better, I am certain, from decade to decade. The business manager, Professor Thorkelson, who grew up on the campus, is one of our recent "finds," and he is the right bower—if I may allude to an old game—of our wise and virile president, Dr. Birge.

The University of Wisconsin attained its "young manhood" only a few years ago, and this is one reason why we have so many experienced teachers still in the prime of life, who, together with the youth of the staff and of the classroom and the laboratory, keep us all young, with our hopes confidently directed to the greater future of our beloved University. We are still in the making: comers, not goers. We need support from the alumni and we need that invaluable form of support, searching criticism. Their criticism will usually be constructive, but we are sure enough of our usefulness to the commonwealth to be able to welcome destructive criticism, if it is based on knowledge.

## DEATHS

GEORGE CROSS, '67, of Fairbury, Nebr., died on Sept. 2, in Berkeley, Calif., where he had gone for the benefit of his health. Mr. Cross was born in Racine County, Oct. 9, 1841. He served in the First Wisconsin Heavy Artillery during the Civil War. After graduating from the University he taught school in Wisconsin for three years and then went to Nebraska where he started the *Fairbury Gazette*. He served as editor of the paper for 37 years when he retired from business life. He was postmaster of Fairbury for many years, served one term in the Nebraska House of Representatives, and one term in the State Senate.

Word has been received of the death of WILLIAM E. ODELL, '72, Des Moines, Ia., lawyer, on May 7.

The Alumni Headquarters has been informed of the death of EDWIN D. WOOD, '74, of Springfield, S. D., and of C. H. THOMPSON, ex'75, of Spring Valley, Minn.

JAMES PERCY PAINE, '77, of Milwaukee, died on June 14, 1919.

Word has been received of the death of F. C. BROOKS, '78, of Minneapolis, Minn.

T. C. RICHMOND, '82, pioneer Madison attorney and prohibition worker, died suddenly, Sept. 4, of heart failure. He had been confined to the hospital for about ten days and was believed to be recovering. He was a member of the law firm of Richmond, Jackman, Wilkie and Toebeas.

Mr. Richmond was born in Ireland in 1846 and came to this country with his parents when about eight years of age, settling in Green County. At the age of sixteen he ran away from home and enlisted in the Army to serve in the Civil war. After graduating from the University he attended the Boston law school, and started the practice of law in Madison. At one time Mr. Richmond was prohibition candidate for gover-

nor of Wisconsin. He is survived by his wife formerly Miss Alice Hawkins of Madison, and by two sisters.

HUBERT CLINTON HERRING, ex '82, died Aug. 6. After leaving Wisconsin, Dr. Herring studied at the University of Chicago, McCormick Theological Seminary, and Princeton Seminary. In 1887 he was ordained to the Presbyterian ministry. He served as minister of Presbyterian and Congregational churches in Sioux City and Winterset, Ia., Chicago, and Omaha, Nebr. In 1907 he became general secretary of the National Home Missionary Society, and in 1913 he became the first general secretary of the Home Missions Council and the Federal Council of Churches.

DR. FRED W. ROGERS, 'ex'85, died at Hartford his home, on July 15, from apoplexy which befell him on Jan. 16. The stroke affected his left arm and throat, and he was confined to his bed for only two weeks. Doctor Rogers was born in the town of Scott, Sheboygan County, March 28, 1863. His father was Dr. Ezra Rogers, a surgeon in the Civil War. After his University days, he went to the College of Physicians and Surgeons, Chicago, and then became an interne in the Milwaukee City Hospital. In 1890 he began practicing at Hartford. In the same year he was married to Miss Margaret Jane Gregory. She survives, together with three children—Harold, at home, Margaret, in Milwaukee, and Ezra, a student at Rush Medical College. Mrs. J. F. Berry, a sister, resides in Cleveland.

The old home paper, in a eulogy, says Dr. Rogers possessed "complete knowledge of his profession," was a public benefactor, studious yet practical, resourceful, industrious, to "suffering mankind a saint," with a heart big and strong; that "distance never was too great or night too dark or cold or stormy" for him to hesitate in time of distress. Dr. Rogers was a Mason, Pythian and Woodman, and the Masons officiated at his funeral. In the University Doctor Rogers was a particular chum of C. M. Wales, now of New York. He entered sub-freshman in the last class of that class at the University. This was in 1879 and his tutelage was during the prized regime of President John Bascom. President Birge is the only member of the faculty of today who was in it then.—O. D. Brandenburg, *Historian*.

MARK L. PATEK, ex'85, died at his home in Milwaukee on Oct. 6. Mr. Patek was head of the firm of Patek Bros., manufacturers of points and oils.

WILLIAM E. PLUMMER, '89, lawyer of Durand, passed away on July 10, 1918.

WILLIAM F. DOCKERY, '91, L. '93, died recently in Whitewater. For some years past Mr. Dockery was assessor of incomes for Walworth County.

EDWARD MCB. DEXTER, ex'92, vice-president and director of the firm of Roundy, Peckham & Dexter, Milwaukee, died on Oct. 6, following an operation. Mr. Dexter was born in Shelbyville, Ill., in 1870, but has lived in Milwaukee since childhood. He attended the University for three years and was graduated in 1892 from the Massachusetts Institute of Technology.

ALSON I. SMITH, '93, died in Milwaukee on March 9, 1918.

BERTHA CASSODAY JOHNSON, ex'94, wife of Carl A. Johnson, '91, president of the Gisholt Machine Co., Madison, died on Oct. 2. Mrs. Johnson was the youngest of the daughters of the late Chief Justice and Mrs. J. B. Cassoday, and was born in Janesville. She is survived by her husband, a daughter, Ruth E. Johnson, '20, and three sisters.

A. B. SCHUTTE, '95, of Manitowoc, has been reported dead.

We have been informed of the death of Mrs. A. B. CAREY (Frances Main) ex'03, of British Columbia, Canada.

E. M. SHEALY, '04, associate professor of steam engineering at Wisconsin, died on Oct. 7.

Word has been received of the death of Mrs. C. E. PERRY (Winifred Macomber) '08, of Milton.

W. L. KELM, '08, died in Chippewa Falls, Oct. 1, following a surgical operation to which he submitted on Sept. 28. Mr. Kelm was born in Portage, June 26, 1877. His primary education was obtained in the Portage schools. After graduating from the University he practiced law in Portage until less than a year ago when he went to Chippewa Falls. He is survived by his wife, two sons, and two sisters.

PASTOR GOMEZ, '09, died June 22, 1919, leaving a wife and three children. He was district engineer in the Bureau of Public Works, Manila, P. I.

S. NELSON PACE, ex'09, died at his home in Lewisburg, W. Va., on Sept. 19, as a result of an auto accident which occurred the day before. He is survived by his mother, wife and one child.

ELIZABETH BROWN, '10, M. A. '16, died in Ashville, N. C.

LOUISE TODD BURGESS, '12, wife of Kenneth F. Burgess, '10, L'12, of Evanston, Ill., died at the Bradley Memorial Hospital, Madison, Oct. 11, after a long illness following an attack of influenza last spring. Mr. Burgess is general attorney of the Chicago, Burlington & Quincy Railroad, Chicago. They have two children.

Word has been received of the death of P. A. JAMESON, '16, of Ogdensburg, N. Y.

Word has been received of the death of ESBON Y. TITUS, '17, on Aug. 7, in Newark, N. J. On July 6, Mr. Titus was struck by and automobile and was badly bruised. Death was caused from blood poisoning resulting from infection which developed in one of the cuts he received in the accident.

Mr. Titus received the degree of Master of Science from the U. of Colorado in 1914 and Doctor of Philosophy from Wisconsin in 1917. During the war he served overseas in the Chemical Warfare Service with the Sixth Division. In 1919 he was in charge of the research department of the government nitrate plant at Shef-

field, Ala. In Jan., 1920, he received appointment as assistant professor in the physical chemistry department of the University of Wisconsin, and in July went to Newark, N. J., as research chemist with the International Coal Products Co. He was married on June 23 to Miss Lillian R. Miller of Pittsburgh, Pa.

HAROLD THOMPSON MURRAY, ex'21, Chicago, was crushed to death under the wheels of a speeding auto in Chicago on Sept. 1, while saving the life of a young woman whom he was escorting at the time. He was struck after he had pushed aside his companion who was slightly injured. Mr. Murray had intended to enter the University again this fall and complete his work in the College of Agriculture. He was a member of Delta Kappa Epsilon.

MISS MARY A. COLPITTS, instructor for the past year in the department of mathematics at Wisconsin, died July 12, after an illness of five weeks. Miss Colpitts' home was in Point de Butte, New Brunswick.

#### FACULTY

PROF. H. D. FRARY, of the faculty of the University, and his wife were drowned in the Wisconsin river near Kilbourn while swimming, Aug. 15. They leave a baby daughter, Ellen Louise. Professor Frary had been on the University faculty during the past academic year and during the previous two years had been connected with the Forest Products Laboratory. He was a graduate of the U. of Minnesota and obtained the degree of Doctor of Philosophy at the U. of Illinois in 1918, where he had been teaching. During the war he was sent to the Forest Products Laboratory where he conducted experiments on airplane wood.

MRS. SAMUEL L. MCKEE, dean of Presbyterian women at the University, died of pneumonia at her home in West Salem. Mrs. McKee was born and educated in La Crosse, later studying music and teaching in Oxford College, Ohio.

## CLASS NEWS

1870

BURR W. JONES

B. W. JONES, Madison, has been appointed by Governor Philipp to succeed the late Chief Justice J. B. Winslow on the supreme bench. Judge Jones is one of the best known lawyers in Wisconsin, and was for twenty years a professor in the Law School of the University. He has been active in democratic politics in the State. In 1872 he was elected district attorney on the democratic ticket and was re-elected in 1874. He was elected to Congress from Dane county district in 1882. In 1891 he was elected city attorney of Madison and held the office for some time, and was also chairman of the state tax commission for 1897-98. Judge Jones has served his own party as chairman of the democratic convention in 1892 and as delegate to the national convention in 1896. He is the author of a three-volume work on *Evidence* which is a standard authority. In 1908 he was elected president of the State Bar Association and has held the position as president of the Dane County Bar Association for several years.—Mrs. W. P. Lyon (Ellen Chynoweth) has kindly written, at our request, a most interesting article on "The First Decade of Co-education at Wisconsin."

tice for seventeen years, and is the ninth chief justice since creation of the Wisconsin court in 1853. After graduating from the University, Judge Siebecker practiced law in Madison and served as city attorney from 1885 to 1890. In January, 1890, he was appointed judge of the ninth judicial circuit to fill an unexpired term and was elected in April, 1890, for the ensuing term. He was re-elected twice without opposition. He has been an associate justice since 1903.

C. F. NILES lives in Hopedale, Mass.—From a private letter to O. D. Brandenburg from C. M. WALES, 11 Broadway, New York City, the following extracts of interest to members of '85 are taken: "It has been such a severe trial for me to use a pen since the stroke last March that I have hesitated writing to you to thank you for the *Songs of Manhattan* which came a long time ago and has been read and enjoyed by the whole family.

*Songs of Manhattan! of these I sing  
And I thank you for them,  
You dear old thing!*

Was very sorry to forego the pleasure of being with you last June but it was simply out of the question. I am improving every day and will soon be nearly as good as ever, that is, I will be as good as I ever can be from now on. I am beginning to believe in the philosophy of Lucretius which I have read many times and from which I will try to quote one verse:

*Oh sightless eyes! Oh hands that toil in vain  
Not such your needs, your nature's needs are  
twain*

*And only twain, and those are to be free—  
Your mind from terror and your bones from  
pain.*

This, my dear friend, seems to fill the bill.

Fred Rogers, whom you remember as my roommate in 1880-81, died in July."

### To the Members of the Class of 1900:

When your ALUMNI MAGAZINE first comes to hand what items do you stop to read before you have looked up the notices regarding the Class of 1900? Do you not immediately thereafter scan the items for names of acquaintances in nearby classes?

The above describes a common practice which is recognized by national advertising agencies. The point is that you can strengthen the ALUMNI MAGAZINE materially and can give your classmates an immeasurable but considerable degree of pleasure if you will take a little trouble to send to the MAGAZINE items of general interest regarding class members. The editors of the MAGAZINE has given you this invitation frequently. Won't you please make a little extra effort for the general benefit?

In arranging for the class reunion this summer there was a very noticeable difference in the attitude of various members toward class affairs. Can we not work in harmony to hold the class together for the 25th reunion, the date of which will arrive before we realize it?

Very sincerely yours,  
C. D. TEARSE,  
President.

C. W. HUMPHREY is residing at 1034 Gramercy Drive, Los Angeles, Calif.—The Reunion Committee of the Class received the following letter from GRACE DILLINGHAM, who is missionary teacher in Pyeng Yang, Chosen, Korea: "To the Reunion Committee of Naughty-Naught:- S. O. S. greetings are filling the air between here and Madison today. Your Ringling-

like advance posters have my enthusiasm roused to the highest pitch, but alas, they arrive too late to permit of my reaching you, even in an airplane! But I am there in spirit, as I mightily wish I were in visible form! My consolation is that my next furlough will get me home in time for our twenty-fifth anniversary and so I am writing to start the committee right now at that reunion, which I hope will be the best U. W. ever saw. I sit here imagining how you all look after the lapse of twenty years—for I have not been privileged to gather with the old class once. But I cannot make myself believe that any '00er is lacking in pep yet, especially after the few glimpses of you that I had while in America two years ago. As I say, I mean to come and see in 1925 what ravages time has wrought, so please drum up a good crowd. The good ALUMNI MAGAZINE will reach me only a month late, and then I shall get a report of your doings, perhaps. I do not think many of us keep up a very lively correspondence with our honorable secretary, for 'Jos. Koffend' is about all I ever find under the 1900 space. I, for one, would be glad of a bit of news through that agency. Perhaps you will forward this letter to him though all the news I have to offer about myself is that after a delightful furlough in America in 1917-18, most of which I spent getting my M.A. at Columbia, I am back again trying to educate the Korean girls for the place they hope to occupy in the world some day! But I am just as loyal a Naughty-naughter as though I lived nearer. Sincerely yours, GRACE LOUISE DILLINGHAM."—The paper read by DR. C. A. BAER, Milwaukee, on "X-Rays in Dermatology" before the Milwaukee Medical Society last spring, is printed in full in the September number of the *Wisconsin Medical Journal*.—The *Wisconsin Agriculturist* of September 18 carries an article entitled "Out of the Crowded Town" regarding C. G. GOODSSELL, Y. M. C. A. secretary in charge of the Educational Department at Racine. B. RICHARDS, county advisor of Kane County. . . . The first year following his graduation was spent in instructing in animal husbandry at the University. From there he went to the North Dakota Agricultural College where he remained for nine years as assistant professor and professor of animal husbandry, being also connected with the experiment station staff at that institution. County agent work lured him away from the college and he spent the next five years as county agent of Dickey County, North Dakota. The next year was occupied with similar work in Cass County, North Dakota. From there he came to Kane County, where he has been on the job for the past year and a half. For ten years Richards was secretary of the North Dakota Live-

stock Association and for three years he acted as secretary of the North Dakota Stallion Registration Board. He has achieved considerable distinction as a judge of draft horses and has officiated at nearly all the leading state fairs in the United States as well as at some of the prominent expositions in Canada. For six out of seven consecutive years he was a judge of either Percherons or Clydesdales at the International Livestock Show at Chicago. While there is no country on earth like our own good old U. S. A., we have found living conditions quite agreeable and we are making the most of the opportunity to see and study European methods of doing things, often quite different from our own. Often wish I could be back in Madison just for a few days to see some of my old friends who are still there, and especially at football time. They play football here but it is nothing like our game. . . . I spent a few days in Paris recently and found so many Americans there that it seemed just like home. While Brussels receives its full share of the tourists coming from the States it doesn't get anywhere near the number that go to Paris. I am looking forward with much pleasure to the group of Wisconsin bankers who are to visit Europe soon. If you know of any old Wisconsin boys who are going to be in Brussels, I wish you would tell them to drop in to see me. I will be very happy to see them."

Forman & Co., Farm Mortgage Bankers, of Chicago, with offices in the First Wisconsin National Bank Bldg., Milwaukee.—The following letter was received at the Headquarters: “It is with much regret that I found it impossible for me to be in Madison for the reunion of the Alumni Association. It was my intention to present to the business meeting a proposition resulting from my experiences in Russia. In the capacity as Assistant Military Attache of the American Embassy in Russia I spent three years in that country. Arriving in October of 1916 I not only saw the last year of the Czar’s regime but witnessed the different revolutions under the Constitutional Government and the Bolshevik regimes. Needless to say the establishment of the democratic and constitutional government was heartily welcomed by every genuine American in Russia but the overthrow of this great constitutional government was a great blow to our de-

mocratic ideals. It is evident to me that the same men and forces who overthrew the constitutional government of Russia are the associates of the men and forces in our own midst which are attempting to overthrow the constitutional government of the United States.

“Upon my return to the United States I traveled about the country speaking on my experiences in Russia and I am amazed to find that one of the strongholds of radicalism in our nation are the colleges and universities. I found scores of university professors who prefer the Soviet government of Russia to that of the United States. I need, however, not be surprised over this discovery, for the training I received in the University had sent me out into the world a near radical. Fortunately I was given the opportunity to witness radicalism in practice in Russia but the lesson I learned is that there can be no compromise between American institutions of democracy and Bolshevism.”

“I trust, therefore, that you will request the Alumni Association of the University of Wisconsin to take such steps as will tend to eliminate the sources of radicalism in the University whether it be members of the faculty, courses of study, or radical student organizations.

“I am compelled to urge this upon you for the love I bear to my country and to my Alma Mater, the University of Wisconsin.” (Signed) A. W. ## FRESHMEN WELCOME

Courtesy Wis. Engineer

**The Living Circle**, a pageant and song festival, was given on Aug. 2, at the Agricultural Pavilion by the summer session students, almost 1,000 persons taking part. It was presented as part of the work of a group of community leadership courses.

**Prof. W. H. Dudley**, chief of the bureau of visual instruction, was elected first president of the new National Academy of Visual Instruction, which held its first conference at the University, July 14-17.

**Courses in public health work** are offered at Wisconsin this fall. They meet the demand for public health workers which is now so great that throughout the country only one out of eight requests can be filled. There is a five year course and also a three year course. The University is affiliated with the Massachusetts General Hospital, the University Hospital of Michigan, and the Minnesota Hospital, and with others in the Middle West for training in surgery and obstetrics.

**The Freshmen Welcome** pageant on Lincoln Terrace on Sept. 24 proved to be one of the most impressive spectacles ever

held on the University campus. An interesting program of songs, cheers, and short speeches followed the pageant. The singing of the University hymn, "Light for All," was led by Dr. C. H. Mills, and was followed by an introductory address by Dean G. C. Sellery. Pres. E. A. Birge, in his address of welcome, emphasized the setting of the pageant. "We have chosen this spot to greet you not without intentions. Here, at the foot of this monument to the great Lincoln, we welcomed those brothers who came back. You will appreciate that Wisconsin spirit is American spirit and you will go out from the University not only citizens of Wisconsin but of America." Prof. A. B. Hall emphasized loyalty as the keynote of the Wisconsin spirit; while Clyde Emery, '21, talked of the relation of work to university life. Justice M. B. Rosenberry invited students to enter the life of the city. Prof. J. E. Olson, who planned the pageant, states that the ceremonies may be much more elaborate next year.

**O. A. Haugen**, formerly an instructor here, has returned to the University as assistant professor of chemical engineering.

**Prof. D. S. Bullock**, extension representative in animal husbandry at the University, has resigned to accept the position of government expert in the cattle industry, with headquarters in Buenos Aires, Argentina.

**Prof. James T. Rood** from the University of Illinois has been appointed professor of electrical engineering. Professor Rood was graduated from the Worcester Polytechnic Institute in 1898, and obtained the degree of doctor of philosophy at Clark Institute in 1906. He taught nine years at Lafayette College and two years at Illinois.

A delegation of 125 Louisiana boys visited the College of Agriculture in August on a tour of inspection.

**Frederic P. Nogueira**, native of Brazil, is organizing classes for the study of Portuguese at the University. Because of the increasing trade between Brazil and America the importance of the language is daily being more impressed on thoughtful students of business.

### BOOK NOTES

*Ocean Steamship Traffic Management* compiled by Grover C. Huebner, '05, assistant professor of transportation and commerce, University of Pennsylvania (D. Appleton and Company), represents in systematic order the particular facts, forms, practices, functions and principles which the men engaged in or contemplating employment in the shipping business should know with respect to steamship traffic management. The text is divided into three parts. Part I deals with the traffic organization of ocean shipping, and the organization and functions of the various types of ocean services and traffic agencies are classified and defined. In Part II, ocean shipping documents—their contents, forms, and uses—are described, and many are reproduced. Part III deals with ocean freight rates and regulations and contains chapters on ocean freight classification and rate tariffs, ocean rate-making, and the regulation of steamship services and rates by the Government.

*Miss Lulu Bett* by Zona Gale, '95 (D. Appleton and Company), depicts Middle Western life in the same striking manner in which Edith Wharton has written of New England, John Fox of the Kentucky Mountains, George W. Cable of the old South and Booth Tarkington of his section of the country. In a small Western town with her brother-in-law and her married sister lives Miss Lulu Bett, never "strong enough" to take a job, yet able to do all the housework and serve as the family drudge. Into her cheerless life comes marriage. Apparently an escape from these drab surroundings, it develops into her great tragedy until, finally, through patient, enduring heroism, comes her release. Written in an intensely American manner

by a thoroughly American author, a fine spirit marches through interesting, knowingly intimate pages to a triumphant close of freedom and vindication.

*Testing Soils for Acidity*, by Emil Truog, '09 (Bulletin 312 of the U. of W. Agricultural Experiment Station). Soil acidity is at present the most important soil problem in the state and Mr. Truog maintains that the first step in attacking this problem is the testing of the soil for acidity. A very simple test is given in the booklet.

*A Reconstruction Health Program*, by Prof. J. R. Commons of the University (Bulletin 1055 of the University Extension Division.)

### TREES

Wisconsin has many trees of historic interest, according to material gathered by the State Historical Society.

At Fort Howard, in Brown County, is an historic elm which marks the site of the first permanent fortification in Wisconsin and represents 200 years in the history of this region under the rule of France, Great Britain, and the United States. The old fort was probably erected prior to 1718, and around it were waged the battles of the Fox Indian wars. Zachary Taylor was one of the notable commandants of the historic fortress. The elm now stands in a railroad yard, but is protected from injury.

Portage has in its second ward three maple trees which mark the site of the old Agency house, the dwelling erected about 1828 to house the Indian agent, John Harris Kinzie, who had been stationed at the newly built Fort Winnebago. About half a mile east of these maples is an elm, marking the first tavern in that part of the country.

Madison's first house was built in the early spring of 1837 under a large burr oak near the bank of Lake Monona. This tree is still standing on South Butler street.

On the farm of Knute Juve in Pleasant Springs township near Madison stands an oak under which the congregation organized and later built the first Norwegian Lutheran Church consecrated in America.

The "Treaty Elm," which formerly stood in Riverside Park at Neenah, marked the meeting in 1819 of the Winnebago chiefs and Col. Henry Leavenworth, who was passing to the Mississippi with troops. This tree was used as a guide by steamer pilots on Lake Winnebago.

Cache trees—among whose roots stores of stone or copper implements were buried—are found in Jefferson, Dodge, Washington, Calumet and Sheboygan counties.

"Trail trees" are also found in the State. In the 10th ward of Madison, a hickory tree which marked the crossing of two trails has its branches twisted in four directions. At Green Lake on the Victor Lawson estate are also bent trees indicating an old trail.
