**Economy the Basis of Prosperity**

Economy has been preached as a cardinal virtue to every succeeding generation. Back in the Stone Age a hoary ancestor walked miles to a cave dweller who bartered some coveted article for one skin instead of the two demanded by the neighbor tradesman.

Economy is a principle held in common by the people of all nations.

Economy is the paramount principle of our merchandising throughout our chain of hundreds of stores and has been during the many years of our service to the public. Every purchase in our stores involves a saving for the purchaser.
