The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

A body-builder with the essential
proteid elements of barley,
wheat and oats

Maltine

P L A I N

MALTINE PLAIN — a pure and dependable preparation — is the only malt extract to combine in concentrated form the essential proteid elements of barley, wheat and oats. It mixes readily with milk, gruel and similar foods. Always it makes them more palatable and digestible. Tests show that Maltine Plain is rich in diastase — the active digestive agent which turns starch into sugar. It contains, also, generous quantities of vitamins, mineral salts, and soluble vegetable albuminoids — valuable body-builders.

MALTINE AND ITS ALLIED PREPARATIONS ARE:

Maltine with Phos. Iron, Quinia and Strychnia
Maltine with Cod Liver Oil and Iron Iodide
Maltine with Olive Oil and Hypophosphites
Maltine Plain
Maltine Ferrated
Maltine Malt Soup Extract

Maltine with Creosote
Neoferrum, the New Iron
Maltine with Cod Liver Oil
Maltine with Cascara Sagrada
Maltine with Pepsin and Pancreatin
Maltine with Hypophosphites
Maltine with Iron Iodide
