The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Symbols of excellence

Many nurses today use their stethoscopes as proudly as they wear their caps or pins! That's because they own their own stethoscopes—and they're LITTMANN® Stethoscopes.... We offer a variety of LITTMANN Stethoscopes made especially for nurses, all color-coded for individual identification.

The LITTMANN Medallion Nursescope, featured here, comes with diaphragm chestpiece and binaurals in five jewel colors and matching-color tubing...a beautiful statement of your preference for excellence. Weighs only two ounces, so it will fit neatly in your uniform pocket.

LITTMANN Nurses Medallion Combination Stethoscopes (see photo below) are recommended if you work in critical care

areas. Chrome-plated combination bell and diaphragm chest-piece, with the color in the tubing—choose from the five LITTMANN pastel colors.

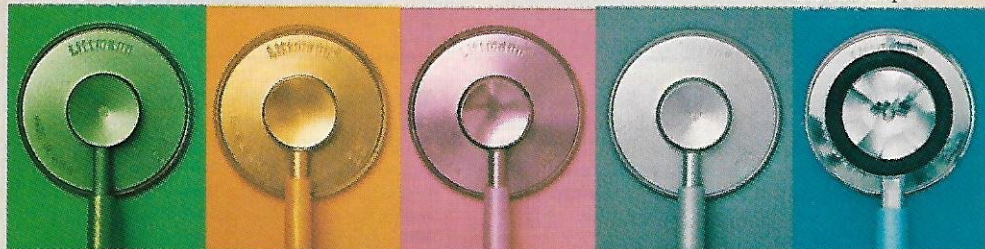

Also available are LITTMANN Nursescopes (not shown) with gray tubing and your choice of color in the diaphragm chest-piece and binaurals. All LITTMANN Stethoscopes come with Delrin® eartips, available in four sizes.

Nurses know that in stethoscopes the LITTMANN name stands for exceptional durability, the utmost in well-crafted comfort, acoustic excellence, and peerless repair and servicing policy. *Are you listening?* Why not use the coupon below and send for more information today?
