IN NEW QUARTERS

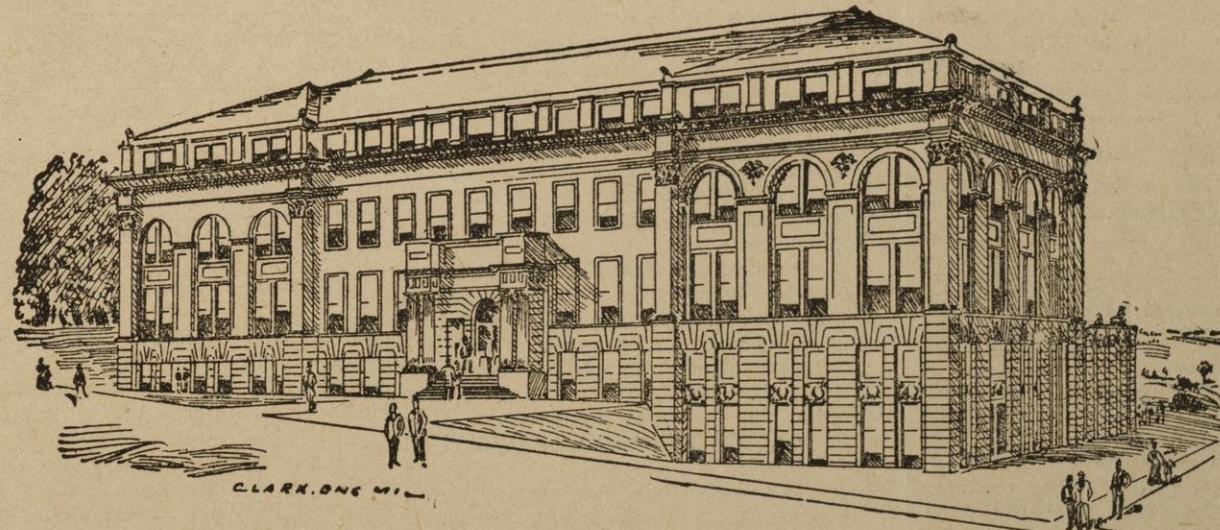

NEW ENGINEERING BUILDING
COMPLETE AND OCCUPIED.

Regular Work Will Begin in it Monday—Phenomenal Time Made in Building.

When the students of the college of engineering arrived yesterday morning to report for duty they found the several professors of the engineering faculty at home in their offices in the superb new engineering building, waiting to receive them. They took possession Saturday. When the regular work begins today the structure was open and ready for use, with the exception of the basement, which, however, will soon be rushed to completion.

The erection of this building marks a new epoch in constructional work in Madison, in as much as it is perhaps the first edifice of large dimensions that has been completed at the time specified in the contract, or, in fact, any where near the time. Some of the buildings that adorn the campus were from one to two years longer in progress of erection than was originally called for, and when the conditions attending the development of the present building are considered its rapidity of construction is truly remarkable and a notable example of the push and energy of the architect and contractors who have brought every effort to bear toward its completion within the specified time.

Three architects from Milwaukee and one from Chicago submitted plans

NEW ENGINEERING BUILDING.

in June. None of these was found to be satisfactory, for all exceeded the amount appropriated by the legislature. At the same time they failed to produce a satisfactory elevation of the building with its prospective extension on the west added. In all cases this requirement was either ignored or an elevation was presented which gave the appearance of two adjoining buildings on a hillside, the basement of one on a level with the second story of the other. In making the plans certain features had to be considered.

1st—The available room on the campus.

2d—The slope and character of the ground.

3d—Conformity as far as possible with style shown by surrounding buildings.

tim will be complete in every detail for the \$100,000 allowed by the state and within practically at the expiration of the contract period, for everything but the basement will be finished by Oct. 1. In fact the steam laboratory is considered the finest in the world. The building itself, as far as economy, beauty, construction, is concerned, ranks second to none in America.

COLTON IS COMING.

Mr. E. T. Colton, International Secretary of the College Y. M. C. A. will be the guest of the Y. M. C. A. the last of this week and will address the men of the University in the Law Building next Saturday afternoon at 3:30 o'clock. Mr. Colton is a rare speaker and will be one of the strong attractions that the Association will bring this year.

was considerable fumbling, the first eleven was never held for downs and only failed to make their gain once. Left tackle, which position is one of the hardest that have to be filled this year, gave an opportunity for several new men to show their mettle. Grass and Kellogg, perhaps showed up best. Daum filled left end during most of the practice, while Juneau and Abbott were at right. In the back field Senn, Kinney, Abercrombie and Schreiber did good work, showing plenty of spirit although the team work was necessarily ragged. Lindsay and Andrews on the scrubs played a consistent game throughout the practice.

Revolution in Athletic Affairs.
When the statement was printed in the papers last June that the University regents had created the office of faculty superintendent of athletics, it

CREW WORK BEGINS

COACH O'DEA SUMMONS CANDIDATES FOR FALL PRACTICE.

No Active Training at Present—Fifteen Varsity and Ten Freshmen Candidates Report.

Fifteen men answered the call of Coach O'Dea for Varsity crew candidates yesterday afternoon. Most of the men were 1903 crew material but the older men are expected soon. The Varsity candidates will row every afternoon at 4:30 in the shells, if the weather is favorable.

Coach O'Dea does not intend to have the men go into training, but desires that they take light fall work in the shells to maintain their form. The same stroke will be rowed this year as last.

The advantage of fall work can not be over estimated for the new men. Seven out of last year's famous freshmen crew learned the rudiments of rowing in the fall, so that all who intend to try for the 1904 crew should hand their names to Mr. O'Dea at once.

The following men reported for Varsity work: Williams, Quigley, Dean, Stevenson, Levison, Stillman, Trevarthan, Gaffin, W. Murphy, Gibson, Carpenter, Anderson, H. Murphy, Armstrong and Moffatt. Parks and Sawyer for coxswains.

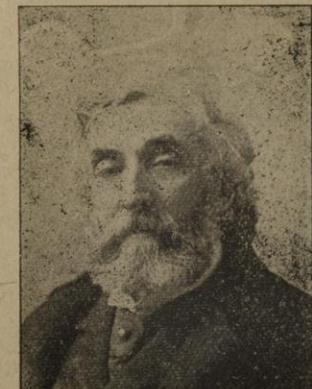

RECEPTION FOR MEN.

The Y. M. C. A. will give a reception to men in the rooms of the association, 708 Langdon Street, this coming Saturday evening. There is no better place to get acquainted than at such a reception. Entertainment and refreshments will be the order of the evening. Hours from 7:30 to 10:00.

The annual joint reception of the two Associations will be given in Library Hall a week from Saturday evening. Elaborate preparations are being made. This is the great social event of the year and all should keep the date open.

PRESIDENT ADAMS RETURNS.

President and Mrs. Adams returned last evening from Battle Creek, Michigan, where the president has been since last April for the benefit of his health. Although not entirely well as

President C. K. Adams.

yet, he is very much improved and will enter at once upon his duties.

The president expressed himself as very glad to be back and see the students again. He is very well pleased with the new engineering and library buildings, especially with the library.

WISCONSIN will WIN

In the western championship race for supremacy in football this fall; and we are confident that in the race for supremacy in the tailoring line we shall also lead the van.

A steady increase in trade demonstrates that our efforts in the past to furnish stylish and dressy goods made up in the most approved workmanlike manner have been appreciated.

It has been our particular aim to please and satisfy our university friends, and to those who enter the university for the first time this year we extend a cordial invitation to come and get acquainted, and to our old friends to renew acquaintances.

Our Fall and Winter line of Ready-to-wear Suits and Overcoats is larger than ever before. Large variety of Underwear and Furnishing Goods of all kinds. Sole agents for Dunlap hats.

EXCELLENT PRACTICE.

The snappy, gingery work of the team last night could scarcely fail to evoke enthusiasm. It seems that the wisdom of the present system of beginning practice later is being demonstrated. The present method seems to be a reaction against the unbalanced training necessitated by last year's Yale game and should result in having the team in the best of shape for its end of the season games.

CARDINAL WORK.

It is earnestly hoped by the staff that new men will take an interest in the notice for reporters published in this issue. The Cardinal's staff of reporters is always made up largely of freshmen and members of the entering class who are interested in literary work should not fail to respond at once to this call. The work done on the Cardinal is designed to be as thoroughly painstaking and professional as it is possible to make it, an object which cannot fail to redound to the benefit of both the paper and the men who devote their time to it. The writing that falls to the reporter's lot is such as to supplement in an invaluable manner the more theoretical work which he has upon the "hill" and to give him practical experience of a kind which cannot be elsewhere obtained. Besides this literary value, the pursuit of items gives an acquaintance among the students and various

lines of activity in Varsity affairs scarcely to be obtained in any other way. The prizes offered for reportorial work are large enough to make a sufficient inducement in themselves. From the position of reporter the line of advancement is open to positions upon the staff of greater value and responsibility, and these will fall to the lot of those who prove most efficient in the earlier work. It is desirable that applicants should commence work immediately inasmuch as this is one of the busiest times of the year.

PROFESSOR OWEN HONORED.

Hartford (Conn.) Courant: At the Yale commencement Prof. Edward T. Owen, of Wisconsin State University, was given a degree of Ph. D. Wednesday in recognition of his book, "A Revision of the Pronouns." The degree was especially complimentary since it was given without the requirement of special study for three years, thesis or examination. Prof. Owen is a graduate of the Hartford public high school (class of '67) and of Yale in 1871. He is a son of the late E. H. Owen of this city and a brother of Major Charles H. Owen. He has been professor of the French language and literature at Madison for the past twenty-five years.

NEW LIBRARY OPEN.

During the past summer the Historical library and the University library have been moved to the new library building. The work of arranging these great collections of books in the new quarters has been rushed during the month of September and the new building will be open to readers at 8 a. m. today, Wednesday. During the present week, it will be impossible to open the library to readers evenings. Hence on Wednesday, Thursday, and Friday of this week, the general reading and delivery rooms of the new library will be open from 8 a. m. to 6 p. m.; on Saturday, September 29, they will be open from 8 a. m. to 4 p. m. Commencing next Monday, October 1, the general reading and delivery rooms will be open daily during term time from 8 a. m. to 6 p. m. and from 6:30 to 10 p. m., except on Saturdays, Sundays, and legal holidays. On Saturdays the libraries will be open from 8 a. m. to 4 p. m. It will be noticed that these hours are the same as those of the University library during last year, except the closing on Saturdays at 4 p. m., instead of at 5 p. m. This earlier closing on Saturdays is rendered necessary by the weekly cleaning of the great reading room.

The departmental libraries of the Historical Society on the first floor will be open from 9 a. m. to 1 p. m. and from 2 to 5 p. m. daily, except on Saturdays, Sundays, and legal holidays. On Saturdays these special libraries will also close at 4 p. m., when the entire building will be closed to the public for purposes of cleaning.

In a future issue the Daily Cardinal will give a description of the new building and publish the regulations governing the use of the Historical and University libraries by students.

FRESHMEN BEWARE.

The Sophs are out. Do not wander too far, get your medicine, candies, photographic goods, etc., at Sumner's Drug Store on State street, then you are near home and will get good goods.

FOOTBALL PRACTICE.

Continued from first page.

was not suspected, even among the students and managers of the various teams that a revolution had taken place in the athletic affairs of the University of Wisconsin. A long step had been taken toward faculty control of athletics, and this is what many prominent athletes think it will ultimately lead to. At the June meeting the Board of Regents adopted a resolution creating the position of superintendent of athletics and gave this official supervisory authority over all the athletic managers. Prof. Charles S. Slichter of the Department of Mathematics was appointed to fill the position.

In creating the office the regents provided that the superintendent was appointed "to carry out the rules made by the Athletic council, faculty, or regents of the university regarding athletics; that the managers, assistant managers, and all officers of the Athletic association, or of any athletic teams, shall be immediately responsible to him, provided that no financial responsibility shall be assumed by the regents, that this position shall be without expense to the university except the salary of the superintendent."

It is believed that the creation of the office of superintendent will cause some changes in the way men are selected for the teams. The class work of the candidates will be more carefully scrutinized than in the past, and there is reason to believe that only good students will be allowed to take places on the teams. Coach King will be allowed to select his men on the basis of fitness for the game as before, but the faculty through the superintendent may limit his field of selection somewhat by forbidding some candidates whose standings are not satisfactory, to compete for the team.

FACULTY MARRIAGES.

Doctor O. G. Libby and Miss Eva Gertrude Cory were married at Harriman, Tenn., at 8 o'clock Wednesday, Sept. 12, at the home of Doctor and Mrs. C. T. Cory, the bride's parents. Doctor and Mrs. Libby will be at home after October 15, at 426 Bruen street, this city.

Miss Harriet Remington, instructor in German and Mr. Arthur Gordon Laird, assistant professor of ancient languages were married Wednesday, Aug. 22, at the residence of Prof. and Mrs. John M. Olin. Rev. E. G. Updike of the First Congregational church officiated.

Assistant-Professor Paul S. Reinsch and Miss Alma Moser, '00, were married August 1, at the Pi Phi house. Miss Marie Hinckley served as maid of honor, and Mr. Joe Davies was best man. Mr. and Mrs. Reinsch went to South Carolina for their wedding trip.

THE Y. M. AND Y. W. C. A. HANDBOOK.

The Handbook issued by the Y. W. C. A. and the Y. M. C. A. has appeared this year in a new form. It is neatly bound in cardinal cloth and opens at the end. The reading matter, which is entirely new, offers valuable pointers on University life and general information for new students and old. The books have the best map of the city yet published as well as a diary good for the entire college year. They may be had free of charge at the Y. M. C. A. house and at the headquarters of the Y. W. C. A. in Ladies' Hall.

—George H. Scheer, '00, left this morning for Chicago where he will enter Rush Medical College.

REGISTRATION OF STUDENTS.

The number of students registered up to last night has been unusually large. Registrar Hiestand states that many more were enrolled on Tuesday and Wednesday than on the corresponding days last year.

The increase in dues, which it was feared would decrease the attendance seems to have had no effect. Mr. Hiestand could give no estimate as to what the attendance will be, but it seems probable that the number will exceed twenty-four hundred.

Two Japanese students have enrolled to take post-graduate work. There are also six men in attendance from Argentine Republic who will take the long course in agriculture. Twenty-two men were sent out from the University at Buenos Ayres by the government and of these six have come to Wisconsin.

LITERARY SOCIETIES.

The three hill societies, Philomathian, Hesperia, and Athenae, will begin their regular debates tomorrow evening. A strong effort will be made to secure the best freshmen. All visitors and freshmen are cordially invited to be present at the initial meeting.

Philomathia meets in the tower room on the fourth floor of Science Hall. Hesperia and Athenae hold their debates in their respective halls on the fourth floor of University Hall. Castalia meets in Ladies' Hall.

Y. M. C. A. MEETING.

First mid-week prayer meeting will be held Thursday evening from 6:45 to 7:30 in the Y. M. C. A. house. All men invited.

NEW BUSINESS COLLEGE.

The University Business College is the name of the new Business College opened on State Street, Sept. 3. That this new school is doing high grade work is evident from the number of students who have already entered. Complete courses are given in Book-keeping and Short Hand. Students of the University will find in this new institution a satisfactory place to acquire a writing knowledge of short hand in order to take their lectures. Professor Williams took his masters' degree last June. The Cardinal extends its best wishes to Prof. Williams in his new enterprise.
