ZABEL'S

RURAL ROUTE DIRECTORY

OF

WINNEBAGO COUNTY

1928

Contrary to the customary form in such cases we admit that we did not call on all of the farmers in all of the county. However, the latest and best information was secured from what we considered the most reliable sources.

It is hoped that the information in the form in which we give it will be worth many times the price of the book to the vigilant users.

PRICE \$2.00

E G ZABEL, PUBLISHER

NEENAH, WISCONSIN

FOREWORD

This directory tells you three things. If you know who you are looking for and how to spell the name the aim is to tell you where such person resides, how to reach him by mail and how to go directly to his home. Incidentally some other information is provided. The route list following the sketch of each rural route affords a big saving in materials and postage for merchants circularizing all box holders on rural routes when they wish to cover the farm trade only. Most rural routes serve a number of people who live within the city limits or just beyond. The Dennhardt and Gurenwald avenue section of Neenah, Nordheim out of Oshkosh and the village of Winchester are all served by rural routes.

BOX NUMBERS

The key numbers (The numbers just before the "r" in the County Alphabetical list, and numbers within the circles on the route sketches;) are not to be confused with box numbers. These numbers are merely our key numbers and not box numbers. The postal department is backward about giving out box numbers. Besides, not long ago the department requested that box numbers be discontinued and many carriers ignore them entirely.

KEY TO ROUTE SKETCHES

Roads are shown thus: Concrete ; Gravel ; All other roads .

Federal Highways ; State Highways ; County Trunks β ; Patron's Key Nos. ; Rural Routes or -----; Railroads+++++. Figures in center of squares are section numbers. The numbers following names are key numbers and refer to locations on sketches. See corresponding numbers within the circles on the sketch.

KEY TO ALPHABETICAL DIRECTORY

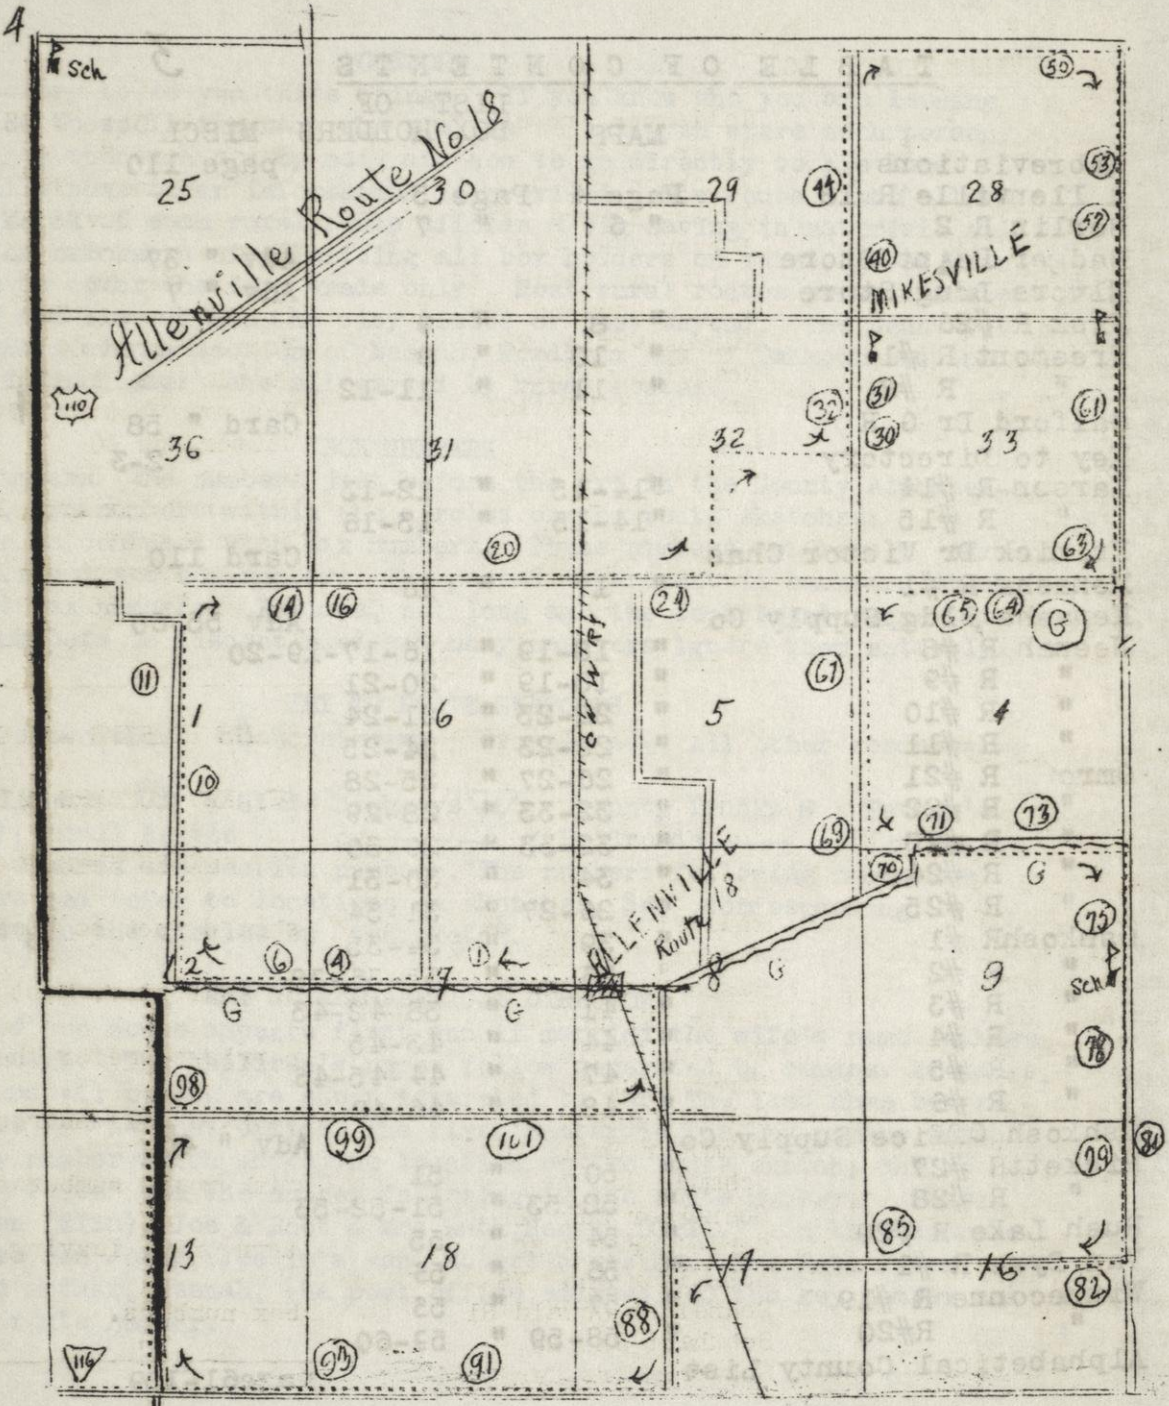

The head of the house appears first and if married the wife's name follows in parenthesis. The children's names follow separated by commas. Brothers, sisters, and all others are shown separated by "&". The last name before the numbers is the post office. The first number is the key number which is the key number which shows the location on the route sketch; the "r" refers to "route" and the number following is the route number. Thus: "Jones, Ben (Ella), Joe & Robt & Mrs Ruth, Neenah, 50r11." In this example Ella is Mrs Ben Jones, Joe is a son, Robert a brother, Mrs Ruth Jones, likely his mother, Neenah, the post office address, 50 the key number and 11 is the route number.

April 9-59. Gift

THESE NUMBERS ARE OUR
OWN KEY NUMBERS AND
NOT BOX NUMBERS. They
should not be used
in addresses. Most
carriers prefer the
to have mail addressed
with route number and
town only, leaving off
box numbers.

Many spend much valuable
 time in search for inform-
 ation that could be had in a
 moment by the proper use of
 a directory. In other words
 the time spent in getting
 acquainted with a new directory
 to know just what it tells is
 very well spent.

To save space the use of keys
 is necessary. Without some
 knowledge of these keys you
 miss half the information
 compiled. You will find our
 keys of pages 2 and 3.
