Budget  
Upon motion of Regent Gelatt, seconded by Regent Campbell, it was VOTED, That the balance of \$3,107.56 remaining from the dismantling of the Truax Hospital area be transferred to the 20.41 IL Stores Account.

-  
Upon motion of Regent Gelatt, seconded by Regent Grady, it was VOTED, That the Vice President of Business and Finance be authorized to sign a supplementary agreement with the U.S. Geological Survey for a topographic survey of the State of Wisconsin, each party to expend not to exceed \$1500 for the remainder of the fiscal year, 1949-50, in addition to the original allotment of \$15,000 by each party.

-  
Upon motion of Regent Gelatt, seconded by Regent Campbell, it was VOTED, That the President of the University and the Vice President of Business and Finance be authorized to make budget transfers and adjustments within the totals of the approved 1949-50 budget necessary to complete the business of the University for the fiscal year ending June 30, 1950.

--  
Regent Campbell presented the report of the Educational Committee. Upon motion of Regent Campbell, seconded by Regent Arveson, it was VOTED, That the "Statement of Policy on Radio and Television Broadcasting", together with the Appendix "Special Regulations for Broadcasting of Athletic Events", as presented to the Regents on April 15, 1950, by the University Administration, be amended by the addition of the following sentences to Item III-C:

"WHEREVER PRACTICABLE, DIVERGENT VIEWS OF CONTROVERSIAL ISSUES WILL BE PRESENTED ON A SINGLE PROGRAM. ANY EXCEPTIONS TO THIS PROCEDURE MUST BE APPROVED BY THE RADIO COMMITTEE OF THE FACULTY."

and that the statement, so amended, be adopted by the Board of Regents. (Statement of Policy on Radio and Television Broadcasting - as amended and adopted by Regents, attached as EXHIBIT F.)

-  
Regent Campbell presented the report of the Educational Committee on the Report of the Faculty Committee on Outside Activities of Faculty Members (Faculty Document 942). After considerable discussion, it was agreed that the subject of this report should be studied further by the Regents. The report (Faculty Document 942) was re-referred to the Educational Committee.

Regent Gelatt presented the report of the Welfare and Student Life Committee. He stated "The Welfare and Student Life Committee met on May 12 and had considerable discussion and also uncovered several differences of opinion (in regard to the faculty report on discrimination). I would like to have Regent Jones continue with the report of the Committee."

Regent Jones explained that he had volunteered to offer a motion that might be considered a substitute action at this time, in view of the fact that it did not appear feasible to obtain final action on the University Committee's Report on Human Rights for Students until several differences of opinion as to the form of the report were resolved. Upon motion of Regent Jones, seconded by Regent Grady, it was

VOTED, That the Secretary of the Board of Regents inform the Secretary of the Faculty, in writing, that this Board cannot approve Faculty Document 933 (University Committee Report on Human Rights for Students) in its present form. Recognizing the fundamental issues involved in this report, with many portions of which the Board is in complete accord, the Board requests that the Faculty authorize its University Committee, or any other committee that it may select, to meet with the Regents for further study and consideration of the subject matter contained in Faculty Document 933.

Regent Gelatt voted "No" and explained that he believed that Document 933 was a good report and that although a few items might have been better worded, he believed the report should be adopted as presented.

--

Regent Jones presented the Report of the Constructional Development Committee. Upon motion of Regent Jones, seconded by Regent Watson, it was

VOTED, That the University administrative officers be authorized to negotiate with qualified engineering consultants for a survey of campus utility services.

-

Upon motion of Regent Jones, seconded by Regent Gelatt, it was

VOTED, That \$26,000 be allotted from unbudgeted I-E receipts for additional maintenance of buildings.

--

Vice President Werner reported that the Sub-Committee of the Regent-Faculty Conference Committee on Retirement had met preceding the Regent meeting. Regent Watson, Chairman of the Sub-Committee, explained the purpose of the sub-committee and reported that the Sub-Committee had approved, for submission to the Regent-Faculty Conference Committee, a statement of policy to be followed by the Sub-Committee in carrying out its assignment.

Regent Arveson reported that the Regents met with the Board of Visitors on May 12, 1950, and commented on the increased activities of the Board of Visitors during the past year in studying problems relating to the University and in assisting the Regents.

--

The Regents arose and remained standing while President Fred read the following resolution in memory of Clarence Addison Dykstra which was unanimously adopted by the Regents by a standing vote, upon motion of Regent Watson, seconded by Regent Gelatt:

"WHEREAS Clarence Addison Dykstra served as president of the University of Wisconsin from July, 1937, to February, 1945, and

"WHEREAS during his tenure he made significant contributions to the concept that a University is a community of scholars made as useful as possible, building in peace and mobilizing in war, and

"WHEREAS, he was a living example of the student of public affairs turned man of action in the service of the people,

"THEREFORE BE IT HEREBY RESOLVED, that the Board of Regents express its sincere gratitude for his eight years of versatile service to Wisconsin and its deep regret over his death, that this resolution be made a part of the public records of the University, and that it be suitably communicated to the bereaved family."

--

Upon motion of Regent Arveson, seconded by Regent Grady, it was VOTED, That the following action be adopted:

The Regents deeply regret the discourteous actions of a small number of student spectators at the formal military review and official inspection on Thursday, May 11, 1950, and request the Administration to make a thorough and complete investigation.

--

Upon motion of Regent Arveson, seconded by Regent Grady, it was VOTED, That the meeting adjourn.

The meeting adjourned at 11:10 A.M.

RECOMMENDATIONS OF THE COLLEGE OF LETTERS AND SCIENCE  
AND THE SCHOOL OF EDUCATION CONCERNING THE ADMINISTRATION OF THE  
CURRICULUM FOR COMMUNITY LEADERSHIP IN RECREATION

1. That the administration of the Curriculum for Community Leadership in Recreation be placed in the School of Education.
2. That an advisory committee consisting of faculty members representing the colleges, departments, and interests concerned with this Recreation Curriculum be appointed annually by the Dean of the School of Education in consultation with the deans of the other colleges concerned with the preparation of students for Community Leadership in Recreation and in consultation with the Director of the University Extension Division.
3. That students in the College of Letters and Science now taking the major in Community Leadership in Recreation have the option of continuing for their degrees with the above major in the College of Letters and Science, or of transferring to the School of Education.
4. That all students entering the major in Community Leadership in Recreation, beginning with the first semester of the academic year 1950-51, be required to register in the School of Education.

Action has been taken by the schools and colleges concerned with respect to the following:

1. That students in the College of Letters and Science be permitted under the 20 Credits Rule to carry the following professional courses in the Recreation Curriculum: Education 14, 155, and 169.
2. That the present agreement with the College of Agriculture providing for sequences of courses leading to majors in Recreation-Agriculture and in Recreation-Home Economics be continued.

PROPOSED REVISED CURRICULUM FOR THE SCHOOL OF JOURNALISM  
(Underlined Portions Require Faculty Action)

REQUIREMENTS FOR GRADUATION: (1) A total of 124 credits. (2) Completion of either the B.A. or B.S. General Course requirements, including a minimum of 30 credits in Journalism subjects, as specified by the department, to satisfy the requirement for the major. (3) Economics 1a and 1b, Political Science 7, Psychology 1 and 15 credits in advanced social studies. At least 6 of these must be in the field of recent American History.

The required Journalism subjects, except in the advertising-management sequence, are: Journalism 2 (6 cr.); Journalism 3 (4 cr.); Journalism 4 (2 cr.); Journalism 109 (2 cr.); Journalism 110 (3 cr.); Journalism 111 (3 cr.); and at least one among the following courses: Journalism 105a (3 cr.); Journalism 112 (2 cr.); Journalism 113 (3 cr.); Journalism 1 does not count toward the 30 credits required in the major, but does count toward the 124 university credits. Students in the journalism-advertising group may include Commerce 112 and Commerce 116 in the required 30 credits in journalism.

Required subjects in the advertising-management sequence are: Journalism 2a (3 cr.); Journalism 3 (4 cr.); Journalism 4 (2 cr.); Journalism 5 (2 cr.) Journalism 109 (2 cr.); Journalism 111 (3 cr.); Journalism 141a (3 cr.); and at least two chosen from the following courses: Journalism 108 (2 cr.); Commerce 116 (3 cr.); Journalism 117 (2 cr.); Journalism 141b (3 cr.); Journalism 142 (3 cr.).

The above requirements become effective for juniors entering the School of Journalism in the fall of 1950. Students who are now juniors or seniors in journalism may elect the new or the former requirements for graduation.

The student's point-credit ratio in courses in journalism and advertising must not be less than 1.5, and in other courses not less than 1.0.

Candidates for the B.A. degree must meet the foreign language requirement of the B.A. General Course. For journalism students the languages which may be offered include Latin, Greek, French, Italian, Norse, Spanish, Russian, and German (other foreign languages only by permission of the Director).

Upper-group seniors (who have a point-credit ratio over 1.5 in all studies) have the privilege of writing a thesis (4 credits).

To be admitted to the School of Journalism at the beginning of the junior year, a student must have earned a grade point average of 1.5 in the combined English 1 and Journalism 2 courses. A minimum of 1.0 is required on all work carried.

UNIVERSITY OF WISCONSIN

STATEMENT OF POLICY ON RADIO AND TELEVISION BROADCASTING

(As adopted by Regents on May 13, 1950)

FOREWORD

Since 1919 scheduled radio programs have emanated from the campus of the University of Wisconsin. The growth of radio broadcasting and its significant place in the University led in 1928 to the formation of a University Radio Committee charged with the responsibility of administering the radio facilities of the University and the recommendation and interpretation of policy in all matters in which the University was concerned with radio.

The University faculty at its December, 1937 meeting created a standing committee on Radio Broadcasting and authorized it to formulate and recommend to the proper authorities the broadcasting policies of the University, to consider proposals for participation by the University or University organizations in broadcasts, and to "develop a University broadcasting service consistent with the University's responsibility to the students and to the state."

By act of the 1941 Wisconsin Legislature, the operation of WHA was officially placed with the Board of Regents of the University of Wisconsin. On June 21, 1941, the Board of Regents created the Division of Radio Education, making it directly responsible to the President of the University, and placing the administration of education by radio, as well as the operation of Station WHA, with the Radio Committee of the University.

Over the years certain principles of policy have emerged from the decisions of the Radio Committee, and of the Board of Regents, to which all new situations have been referred. While recorded as policy in the minutes of the Univer-

sity Radio Committee, these principles have not been codified and adopted by the Board of Regents.

In recent times, a number of requests for the participation of faculty and students, and the use of the physical plant of the University for broadcasting purposes have been received. These requests pose increasingly difficult decisions. For this reason a policy embracing these principles clearly stated for application to current situations is needed. Such a policy statement follows:

## RADIO AND TELEVISION POLICY

### I MEANING OF TERMS

The terms radio, broadcast, and broadcasting as used herein shall include television and recording for use on the air, as well as direct sound broadcasting.

### II BASIC PRINCIPLES GOVERNING ALL BROADCASTS

- A. The broadcast facilities and resources of the University of Wisconsin shall be so utilized as to advance the educational purposes of the University and serve to the fullest extent the interests and needs of the people of the state.
- B. In all broadcasting from the University the highest standards of good taste shall prevail and the reputation of the University be upheld and defended from misuse or misrepresentation in any form.
- C. No broadcast shall place the University in the position of endorsing or opposing any candidate for public office, the platform or objectives of any political party, of any religious organization, or of any special-interest group.
- D. No exclusive broadcasting privileges shall be granted to any station, network, or other organization.

### III BROADCASTING BY UNIVERSITY STATION

- A. Responsibility for the operation of the University's own broadcasting station and the supervision of its program services is placed with the University Radio Committee.
- B. Since the University radio station is operated primarily for the dissemination of information and the promotion of free and critical inquiry into problems of general public concern, its facilities shall be available, so far as practicable, to any agency or individual having a contribution to make to the public interest and welfare.
- C. Divergent views on controversial issues shall have equal opportunity for representation. Wherever practicable, divergent views of controversial issues will be presented on a single program. Any exceptions to this procedure must be approved by the Radio Committee of the Faculty.
- D. Programs requiring or utilizing special knowledge shall be prepared under the auspices of appropriate individuals, committees, or departments of the University.

### IV REBROADCASTING OF UNIVERSITY STATION PROGRAMS

Programs originated by the University station may be broadcast or rebroadcast by other stations on the following conditions:

- A. All such programs must be presented on a non-commercial, sustaining basis, except as provided in Section VI.
- B. Written permission of the originating station must be obtained in advance as required by regulations of the Federal Communications Commission. (Address applications to the Director of Station WHA.)
- C. As a general rule, each program must be carried in its entirety in a continuous, uninterrupted performance. However, permission may be

obtained to broadcast a unit of a longer program, i.e., weather and market reports, part of the commencement exercises, or one of a series of speeches. (Short excerpts from speeches or discussions for inclusion on newscasts may be taken without the necessity of obtaining permission each time.)

- D. Proper identification of the source must immediately precede and follow the program. (A single acknowledgment of the source of excerpts on newscasts is adequate.)

## V BROADCASTS ORIGINATED BY OTHER STATIONS

Broadcasts involving the use of the physical plant of the University at Madison are governed by the provisions of Section II of this document plus the additional considerations listed below. Applications for permission to originate commercial broadcasts from University branch experiment stations, extension centers, and other University installations outside of Madison should be made to the University official in charge of the event.

### A. Non-commercial or Sustaining Programs

Permission for broadcasting must be obtained in advance, in writing unless specifically excepted, from the University Radio Committee. (Address applications to the University Radio Committee, Radio Hall.)

### B. Commercially Sponsored Programs

In general, such purely educational events as convocations, commencements, classroom lectures, laboratory experiments, or initial reports of research may not be used on commercially sponsored broadcasts.

Commercial sponsorship of other types of broadcasts from the University is permitted under the following conditions:

1. Applications for permission to use any part of the University physical plant for a commercially sponsored broadcast should be made to the University Radio Committee, which is responsible for determining the acceptability of proposed programs. (Address applications to the University Radio Committee, Radio Hall.)
2. Except in broadcasts of University athletic events, no commercial announcement or reference, direct or indirect, may be made from the buildings or grounds of the University. See Section VI, also "Special Regulations for Broadcasts of Athletic Events," appended to this policy statement.
3. Commercial announcements shall be limited to two on a single broadcast - one at the beginning and one at the end of the program. Special arrangements may be made for sports broadcasts.
4. Permission for the use of University buildings must be obtained from the Committee on Auditoriums. (Address applications to Chairman, Committee on Auditoriums, Bascom Hall.)
5. Faculty members and students invited to appear on commercially sponsored broadcasts, whether as university representatives or as individuals, shall undertake that their participation will not violate the principles set forth in this Statement of Policy.  
(See especially Sections II and V,B.)

#### VI SPECIAL PROVISIONS: ATHLETIC EVENTS

Since athletic events conducted by the Department of Intercollegiate Athletics are regular functions of the University, are controlled by the University, and would take place regardless of broadcasting, certain privileges of radio broadcasting have been permitted in the past and may be continued at the discretion of the University.

A. No exclusive broadcasting rights will be granted to any station or sponsor.

B. University-originated Sportscasts

Broadcasts of University athletic events, like other University programs, shall be available to all Wisconsin stations on the same, <sup>an</sup> or/equitable basis. However, only a limited number can make direct broadcasts. The Department of Intercollegiate Athletics may provide a broadcast to be carried by any Wisconsin station under the following regulations:

1. There will be no charge to stations broadcasting or rebroadcasting such programs on a sustaining or non-commercial basis except to reimburse expenses involved in broadcasting out-of-town contests.
2. Permission to broadcast these programs on either a sustaining or commercial basis must be obtained by written application to the Director of Intercollegiate Athletics.

C. Independent Sportscasts

Stations wishing to originate their own sportscasts should make application to the Director of Intercollegiate Athletics, under the provisions of Section V.

D. Commercial Sponsorship

Commercial sponsorship of sportscasts is permitted under the general conditions of Sections II and V-B of this policy statement and such additional regulations as may be approved by the University Radio Committee.

VII ADMINISTRATION OF POLICY

Authority to administer and interpret the Radio and Television Policy

of the University of Wisconsin is vested by the Board of Regents with the University Radio Committee.

## Appendix

### SPECIAL REGULATIONS FOR BROADCASTS OF ATHLETIC EVENTS

These regulations, with other information and a schedule of fees for stations broadcasting athletic contests on a commercial basis, are sent by the Department of Intercollegiate Athletics to each station seeking broadcasting privileges.

- (1) The University of Wisconsin reserves the right to accept or reject the sponsor and the product advertised. Such products as beer, liquor, drugs, etc. are not accepted.
- (2) Commercial announcements, 50 to 60 seconds in length, are allowed on football broadcasts, one each at the following times:
  - a. Before the start of the game
  - b. At the end of the first quarter
  - c. At the end of the first half
  - d. Before the start of the second half
  - e. At the end of the third quarter
  - f. At the end of the game

In addition, a 35-second commercial announcement is allowed once during each half at an appropriate time-out period.

The same schedule applies to broadcasts of basketball games except for the obvious elimination of commercial announcements at the end of the first and third quarters, since University games are played in halves, not quarters.

- (3) No commercial reference to product or sponsor may be made while play is in progress, or be linked to the game or the activities attendant thereto.
- (4) The Department of Intercollegiate Athletics may conduct its own broadcast of all athletic contests.
