1870.

THE HISTORICAL JOURNAL

RE-ORGANIZATION.

Chapter 114—General Laws of 1866.

SECTION 1. The object of the University of Wisconsin shall be to provide the means of acquiring a thorough knowledge of the various branches of learning connected with the scientific, industrial and professional pursuits: and to this end it shall consist of the following colleges, to wit: 1st. The College of Arts; 2d. The College of Letters; 3d. Such professional and other colleges as from time to time may be added thereto or connected therewith.

SECTION 2. The College of Arts shall embrace courses of instruction in the mathematical, physical and natural sciences, with their applications to the industrial arts, such as agriculture, mechanics and engineering, mining and metallurgy, manufactures, architecture and commerce, in such branches included in the College of Letters as shall be necessary to a proper fitness of the pupils in the scientific and practical courses for their chosen pursuits, and in military tactics; and as soon as the income of the University will allow, in such order as the wants of the public shall seem to require, the said courses in the sciences and their application to the practical arts, shall be expanded into distinct colleges of the University, each with its own faculty and appropriate title.

SECTION 3. The College of Letters shall be coexistent with the College of Arts, and shall embrace a liberal course of instruction in languages, literature and philosophy, together with such courses or parts of courses in the College of Arts as the authorities of the University shall prescribe.

Amendment of 1867.

SECTION 4. The University shall be open to female as well as male students, under such regulations and restrictions as the Board of Regents may deem proper; and all able-bodied male students of the University, in whatever college, shall receive instruction and discipline in military tactics, the requisite arms for which shall be furnished by the State.

NOTE—Students not in full connection with either of these Colleges, or with the Preparatory Department, are classed as *University Students*.

BOARD OF REGENTS.

STATE SUPERINTENDENT OF PUBLIC INSTRUCTION.

Ex-officio Regent.

UNIVERSITY OF WISCONSIN.

COLLEGE OF ARTS.

ORGANIZATION.

The College of Arts is organized under the following section of the General Law of 1866, Chap. CXIV :

SECTION 2. The College of Arts shall embrace courses of instruction in the mathematical, physical and natural sciences, with their applications to the industrial arts, such as agriculture, mechanics and engineering, mining and metallurgy, manufactures, architecture and commerce, in such branches included in the College of Letters as shall be necessary to a proper fitness of the pupils in the scientific and practical courses for their chosen pursuits, and in military tactics; and as soon as the income of the University will allow, in such order as the wants of the public shall seem to require, the said courses in the sciences and their application to the practical arts, shall be expanded into distinct colleges of the University, each with its own faculty and appropriate title.

The plain object of this section is to provide, not only for a general scientific education, but also for such a range of studies in the *applications of science* as to meet the wants of those who desire to fit themselves for agricultural, mechanical, commercial, or strictly scientific pursuits. The course of study is such as to provide a sound education in the elements of science, and at the same time to give great freedom in the selection of studies according to the choice of the individual student. As higher demands are made they will be met by adding to the list of elective studies, and by the enlargement of the Faculty of Arts, so as to form distinct colleges, as provided for in the act of reorganization.

The Departments of Agriculture and Engineering are both branches of this college.

Those who wish to make Agriculture or Engineering specialties pursue the courses of study prescribed in these two Departments, but all the scientific instruction in this College is given with special reference to Agriculture and other useful arts.

FACULTY.

HON. P. A. CHADBOURNE, M. D., LL. D.,
President and Professor of Mental and Moral Philosophy.

JOHN W. STERLING, LL. D.,
Vice President and Professor of Natural Philosophy and Astronomy.

STEPHEN H. CARPENTER, A. M.,
Professor of Logic, Rhetoric and English Literature.

JOHN. B. PARKINSON, A. M.,
Professor of Mathematics.

JOHN B. FEULING, PH. D.,
Professor of Modern Languages and Comparative Philology.

JOHN E. DAVIES, M. D.,
Professor of Chemistry and Natural History.

W. W. DANIELLS, M. S.,
Professor of Agriculture and Analytical Chemistry.

R. D. IRVING, A. M.,
Professor of Geology, Mining and Metallurgy.

R. B. ANDERSON, A. M.,
Instructor in Languages.

D. B. FRANKENBURGER, PH. B.,
Instructor.

TERMS OF ADMISSION.

Candidates for admission to the College of Arts are examined in English Grammar, Geography, in Mental and Written Arithmetic, and in Algebra to Quadratic Equations.

Candidates for advanced standing must, in addition to the studies named above, pass examination in those previously pursued by the class which they propose to enter, or in studies equivalent to them.

Applicants for admission from other colleges must present certificates of honorable dismission.

No one can be admitted to this College under the age of fifteen years, nor to an advanced standing without a proportional increase of age.

The stated time for examination of candidates is the first day of each term.

The University is open to students from other states.

COURSE OF INSTRUCTION.

FRESHMAN YEAR.

FIRST TERM.

<i>Mathematics</i>	Elementary Algebra completed.
	Plane Geometry.
<i>Language</i>	Sentential Analysis.
<i>History</i>	United States.
<i>Lectures</i>	Health and Methods of Study.
 <i>Elective</i>	French, Latin, Greek and Scandinavian Languages.

SECOND TERM.

<i>Mathematics</i>	Higher Algebra begun. Loomis.
<i>Language</i>	Mulligan's Structure of the English Language.
<i>Geography</i>	Physical.
<i>Natural History</i> ..	Lectures.
 <i>Elective</i>	French, Latin, Greek and Scandinavian Languages. Book Keeping.

THIRD TERM.

<i>Mathematics</i>	Solid Geometry.
<i>Language</i>	Craik's English of Shakespeare.

Science Elements of Natural Philosophy.
Physiology.

Elective French, Latin, Greek and Scandinavian
Languages.

Themes and Declamations weekly during the year.

SOPHOMORE YEAR.

FIRST TERM.

Mathematics Higher Algebra completed—Loomis.
German Comfort's German Course.
Natural History .. Botany.
History Roman Empire.

Elective Studies .. Practical Botany and Agriculture, French
and Latin.

SECOND TERM.

Mathematics Conic Sections, Plane Trigonometry and
Mensuration—Loomis.
German Comfort's Course.
Science Agriculture and Meteorology.
History Mediæval—Student's France.

Elective Studies .. History of Useful Plants, Physical Geogra-
phy, Climatology, French and Latin.

THIRD TERM.

Mathematics Spherical Trigonometry Surveying and
Navigation—Loomis.

**Page Images
not Available**

**Missing Pages
33 - 48**

Students in this, as in all other Departments of the University, can enter at any time on examination, can pursue such studies as they choose, and receive a certificate of attendance.

Special attention is called to the following characteristics of the course:

BOTANY.—Besides a thorough course in Structural, Physiological, and Systematic Botany, that will familiarize the student with the characteristics of the Natural orders, and their relations to each other, the course in Practical Botany will teach him the habits, extent, and relative importance of those species that are of practical interest.

PRACTICAL AGRICULTURE.—In this branch of instruction it is the design to give a thorough discussion of the most approved methods of conducting the practical operations of the farm, to give the results of well tried experiments, and the principles to be deduced from them, and to show how experiments must be conducted to make them of practical value.

To aid this department, the University farm will be used, as rapidly as it can be brought into suitable condition, for the conducting of experiments in Agriculture and Horticulture.

METEOROLOGY.—Besides the general principles of Physical Geography, and the laws of the formation and deposition of dews, frosts, &c., instruction will be given in the changes of climate produced by man, in building levees, in draining wet districts, and in the removal or planting of forests.

IN HORTICULTURE, instruction will be given in forcing plants by artificial heat, in the various methods of artificial propagation, in the economic value of small fruits and the

most approved methods of producing them, and in the general principles of laying out and beautifying ornamental grounds.

CHEMISTRY.—By reference to the course, it will be seen that as soon as the student has been made thoroughly acquainted with the elements, and the general principles of chemical affinity and combination, instruction will be given him in the laboratory, where he will with his own hands, apply the tests required to determine the composition and properties of bodies, and thus become practically familiar with the methods used in chemical investigations. It is intended to make this course sufficiently thorough to fit him to enter upon a higher course of quantitative chemical analysis, should he desire it.

It will also be noticed that Organic Chemistry is taught with particular reference to its economic applications.

In Agricultural Chemistry proper, the course is sufficiently extended to give the student a thorough knowledge of the relations of Chemistry to Agriculture, and its applications to the various operations of the farm.

ZOOLOGY.—The entire course in this science is given with particular reference to the demands of the farmer. And in addition to the principles of classification and history of domestic animals, it is believed that the course in Entomology will prove of great value—teaching, as it does, the habits of injurious species, and the means of destroying them or of preventing their depredations.

FORESTRY.—The instruction in Forestry will include the best methods of cultivating forest trees and the relative value of different varieties of trees for timber, for fuel, or for screens to modify the effect of severe winter winds.

INDUSTRIAL STATISTICS.—Under this head it is proposed to give an account of the industrial productions of the country and their relative commercial value.

HISTORY OF AGRICULTURAL EDUCATION will consist of a brief account of the efforts that have been made in this and other countries, to advance the interests of agriculture, by the direct application of science.

In addition to the studies on agriculture, courses of lectures will yearly be given by the President, the resident Scientific Professors, and by Professors and Lecturers from abroad, who have made a special study of the various subjects relating to agriculture. By the employment of non-resident lecturers, the University will have the benefit of the scientific knowledge and practical skill of gentlemen in this and other States whose services as permanent professors could not be secured.

In the present state of agricultural education, any course of study may be regarded as an experiment. An institution, or any department of instruction in it, must be modified until it meets the wants of the people. Their wants will be learned by the demands the students make for instruction, when different courses of study are presented for their acceptance.

The foregoing course of study is believed to be one that will, in the main, meet the requirements of the agriculturalists of the state, embracing as it does, either as a distinct agricultural course, or in connection with the department of Philosophy, a full educational course, such as those Agricultural Colleges that have been most successful have adopted after years of experience.

The land given by congress has been located, and when sold will afford abundant means for carrying on this department in the most liberal manner. In the mean time every effort will

be made with the means now at the command of the University, to meet the wants of all students who present themselves, as well as the reasonable demands of the people.

UNIVERSITY OF WISCONSIN.

COLLEGE OF LETTERS.

FACULTY.

HON. P. A. CHADBOURNE, M. D. LL, D.,
President, and Professor of Mental and Moral Philosophy.

JOHN W. STERLING, LL, D.,
Vice President, and Professor of Natural Philosophy and Astronomy.

JOHN E. DAVIES, M. D.,
Professor of Natural History and Chemistry.

STEPHEN H. CARPENTER, A. M.,
Professor of Logic, Rhetoric and English Literature.

WILLIAM F. ALLEN, A. M.,
Professor of Ancient Languages and History.

JOHN B. FEULING, PH. D.,
Professor of Modern Languages and Comparative Philology.

JOHN B. PARKINSON, A. M.,
Professor of Mathematics.

R. D. IRVING, A. M.,
Professor of Geology, Mining and Metallurgy.

R. B. ANDERSON, A. M.,
Instructor in Languages.

D. B. FRANKENBURGER, PH. B.,
Instructor.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class are examined in the studies of the Preparatory Course, or their equivalents. It is desired that Latin and Greek be pronounced with the continental sound of the vowels, and that Greek be pronounced according to accent. Students must show sufficient thoroughness in these studies to make it apparent that they can successfully pursue all the studies of the Freshman year.

Candidates for advanced standing must, in addition to the studies named above, pass examination in those previously pursued by the class which they propose to enter, or in those equivalent to them.

Applicants for admission from other colleges must present certificates of honorable dismission.

No one can be admitted to the Freshman Class under the age of fifteen years, nor to an advanced standing without a proportional increase of age.

The stated time for the examination of candidates is the first day of each term.

The University is open to students from other States.

COURSE OF INSTRUCTION.

FRESHMAN CLASS.

FIRST TERM.

<i>Latin</i>	Livy—Lincoln.
<i>Greek</i>	Xenophon or some other Greek historian.
<i>History</i>	United States—Eliot.
<i>Lectures</i>	Laws of Health and Methods of Study.
<i>Mathematics</i>	Plane Geometry.
 <i>Elective</i>	French.

SECOND TERM.

<i>Mathematics</i>	Higher Algebra begun—Loomis.
<i>Latin</i>	Cicero de Senectute and de Amicitia.
<i>Greek</i>	Xenophon's Memorabilia—Robbins.
<i>History</i>	Greece.
 <i>Elective</i>	French.

THIRD TERM.

<i>Mathematics</i>	Solid Geometry.
<i>Latin</i>	Horace—Odes and Satires.
<i>Greek</i>	Memorabilia, continued.
<i>History</i>	Rome.
 <i>Elective</i>	French.

Themes and Declamations during the year. Latin and Greek Composition through the year.

SOPHOMORE YEAR.

FIRST TERM.

Mathematics..... Higher Algebra, completed—Loomis.
Latin..... Horace.
Greek..... Homer—Iliad.
German..... Comfort's Course.
Natural History.. Botany.
History..... Roman Empire—Lectures.

SECOND TERM.

Mathematics..... Conic Sections, Plane Trigonometry and Mensuration—Loomis.
Latin..... Histories of Tacitus—Tyler.
Greek..... Æschylus Prometheus—Woolsey.
German..... Comfort's Course.
History..... Mediæval—Student's France.

THIRD TERM.

Mathematics..... Spherical Trigonometry, Surveying and Navigation—Loomis.
Latin..... Trinummus of Plautus—Harrington.
Greek..... Demosthenes—Olynthiacs and Philippics—Champlin.
German..... Select Prose and Poetry.
Natural History.. Botanical Analysis—Gray's Manual.
History..... Modern—Student's France.

Themes and Declamations weekly during the year. Latin composition through the year.

JUNIOR YEAR.

FIRST TERM.

Rhetoric Day's Art of Discourse.
Mathematics Analytical Geometry.
Chemistry Youman's and Lectures.
Natural History.. Mineralogy—Dana.
Human Anatomy Lectures.

SECOND TERM.

Physics Mechanics—Peck and Lectures.
Civil Polity..... Political Economy.
Chemistry Organic and applied.
Natural History.. Zoology begun—Agassiz.
History England—Students' Hume.

Elective Calculus.

THIRD TERM.

Physics..... General Physics, with Lectures.
Civil Polity..... International Law, Constitution of the
United States.
Natural History.. Zoology completed.
General Physiology.

Themes and Declamations weekly during the year.

SENIOR YEAR.

FIRST TERM.

Astronomy White, and Lectures.
Mental Philosophy Haven, and Lectures.
Eng. Literature.. Shaw's Complete Manual.
Aesthetics Bascom

SECOND TERM.

Logic Whateley.
Rhetoric Bascom.
Moral Philosophy Hopkins, and Lectures.
Eng. Literature.. Lectures.
Nat. History.... Geology and Mining.

THIRD TERM.

Natural Theology. Chadbourne.
Evidences Lectures.
History..... Guizot's History of Civilization.
General Review.

Critical Essays, Declamations, and Disputations weekly
during the year.

STANLEY COLLEGE

PREPARATORY DEPARTMENT.

INSTRUCTORS.

HON. P. A. CHADBOURNE, M. D., LL. D.

President.

JOHN W. STERLING, LL. D.

Vice President, and Professor of Natural Philosophy and Astronomy.

JOHN B. PARKINSON, A. M.

Principal and Professor of Mathematics.

WM. F. ALLEN, A. M.

Professor of Ancient Languages and Literature.

R. B. ANDERSON, A. M.

Instructor in Languages.

D. B. FRANKENBURGER, PH. B.

Instructor.

A. C. PARKINSON, A. B.

Instructor in English Branches.

R. M. BASHFORD, A. B.

Instructor in English Branches.

TERMS OF ADMISSION.

The object of this Department is to fit young men for entering either the College of Arts or the College of Letters. It is not designed to do the work of Common Schools. Each member of the Faculty has a general direction of the studies pertaining to his department, and renders such assistance as may be required. Those who enter this Department are subject to the same rules, and allowed the same privileges as College Students. Many apply who are not fitted to enter. To prevent disappointment, application should be made by letter, stating the age and acquirements of the applicant.

Candidates must not be under twelve years of age, and must also be well prepared, to enter upon the following course of study.

COURSE OF STUDY.

English Grammar.

Arithmetic.

Geography.

Algebra to Quadratic Equations.

Allen's Latin Lessons and Grammar.

Allen's Latin Reader and Composition.

Four Orations of Cicero.

Morris' Grammar of Attic Greek.

Arnold's Greek Reader and Composition.

Ancient History, Geography and Antiquities.

Exercises in Reading, Declamations, Written Translations
and Compositions through the year.

LAW DEPARTMENT.

FACULTY.

HON. P. A. CHADBOURNE, M. D. LL. D.,
President.

HON. L. S. DIXON, LL. D.,
Chief Justice of the Supreme Court of Wisconsin, Professor.

HON. ORSAMUS COLE, LL. D.,
Associate Justice of the Supreme Court of Wisconsin, Professor and
Lecturer on Domestic Relations.

HON. BYRON PAINE, LL. D.,
Associate Justice of the Supreme Court of Wisconsin, Professor and
Lecturer on Practice.

HON. H. S. ORTON, LL. D.,
Dean of the Faculty, Professor and Instructor in the Law of Personal
and Real Property, Commercial Law and Wills.

J. H. CARPENTER, ESQ.,
Professor and Instructor on Contracts, Criminal Law,
Agency and Bailments.

WM. F. VILAS, LL. B.,
Professor and Instructor in Evidences and Pleadings.

TERMS OF ADMISSION.

Students will be admitted at any time; but those who are not Collegiate graduates must be 20 years of age to enter this Department.

No examination for admission is required.

Credentials of good moral character must be furnished.

Matriculation fee \$25.

Tuition, per term, \$10.

COURSE OF STUDY.

FIRST TERM.

JUDGE ORTON Personal Property, Partnership, Corporations. Contracts of Sale.
PROF. CARPENTER ... Criminal Law.
JUDGE COLE..... Domestic Relations.
PROF. VILAS The Constitution and Jurisdiction of Courts. Common Law Pleadings.

SECOND TERM.

JUDGE ORTON The Law Merchant, covering negotiable paper, suretyship and guaranty. Insurance. Fixtures.
PROF. CARPENTER.... Contracts.
JUDGE PAINE Practice.
PROF. VILAS Equity Pleading. Pleading under the Code.

THIRD TERM.

JUDGE ORTON The Law of Real Estate, Uses, Trusts, Powers and Wills.

Assisted by a Member of the Dane County Bar on the Law of Taxes and Tax Titles.

PROF. CARPENTER ... Bailment and Agency.
JUDGE DIXON Equity Jurisprudence.
PROF. VILAS..... Law of Evidence.

During this term, S. U. Pinney, Esq. will lecture on Corporations; and His Honor, Judge J. C. Hopkins, will lecture on the Laws of the United States, and the Practice of the Federal Courts.

SPECIAL INFORMATION.

THE LAW DEPARTMENT

Of the State University was organized and put in practical operation in the year 1868, and its success has been gratifying in the highest degree. The great advantage of professional schools for the rapid and thorough elementary training of professional men has been long since completely demonstrated, and no profession has more entirely accepted and heartily acknowledged the benefits of such schools than the legal profession.

The learning of this profession embraces almost all the relations of life, and as it is the result of the experience of many ages, is scattered through very numerous volumes of treatises, reports, statutes and digests. To obtain the mastery of the numerous topics embraced within the limits of the body of the law in such degree of perfection as marks the learned lawyer, requires many years of diligent study and practical experience.

This result is not to be attained by any mere student. What the beginner wants is to obtain a comprehensive general view and analysis of the whole system, then to learn, without the careful reading which would occupy a lifetime, what the books contain and where to search for more particular and detailed information; and to acquire the habits and modes of legal study and thought.

Superadd to this, an acquaintance with the rules and principles of practice in the Courts, and the Student is prepared to begin the work of life.

This degree of attainment can be reached in the professional school in at least half the time that the student can otherwise acquire it, and with the additional advantage that there is no incumbrance of obsolete ideas or mistaken impressions, which are so difficult for any but a lawyer to distinguish from living doctrine among the great mass of legal writings.

To afford to the young men of Wisconsin and the Northwest ready facilities for such acquirements, this Department has been established by the State University.

THE METHOD OF INSTRUCTION

Is for the most part by lectures, and by reading under the direction of the professors, with moot court practice. The lecture system is peculiarly adapted to the study of law. Few text books are written for students. The most elementary works are designed as exhaustive treatises for the use of lawyers and embrace not only the history of the growth of the doctrines, but also a discussion of the subject in far more detail than the student can advisably pursue so early. The lectures give a clear analysis of the subject under discussion, not involved with that which is obsolete or too minute.

The practising lawyer, acting as instructor, can refer the student to just such parts of the text books and to such adjudications in the reports, as present in the best manner the principles which it is important to know. This system of reading cases in connection with text books is of the first usefulness.

The Moot Court will be held weekly; and here the students are taught to perform, as students, just what they will be required to do as lawyers. The preparation of pleadings and the argument of questions—all selected from actual cases occurring in practice and designed to illustrate the subjects discussed in the lectures—under the direction of the Dean of the Faculty,

formerly one of the Circuit Judges of the State, will afford to the student unsurpassed facilities for acquiring a practical familiarity with the modes of administering the law. To those who know the difficulty with which the young lawyer acquires the easy confidence necessary to successful practice, this part of the school will especially commend itself.

An additional means to the same end consists in the forming of Clubs by the Students themselves, for which the Instructors will afford every assistance and the use of the lecture room is granted.

A certificate of graduation from this Department, will entitle the student to admission to practice, in all the courts of the state.

THE PECULIAR ADVANTAGES

Which the City of Madison, as the Capital of the State, affords to the student of law deserve mention.

All sessions of the Supreme Court are held here, and also one term of the U. S. Circuit and District Courts annually. The Circuit Court for the county of Dane holds three terms annually; so that there is almost constantly some court in session.

The Law Library of the State, which is probably the largest collection of the kind in the Northwest, is at all times accessible to the Students. The advantage of this library to the Student can hardly be overestimated. He can here become familiarized with series of reports and with many treatises which are rarely found in private libraries.

The Miscellaneous Library of the State Historical Society, numbering over 30,000 volumes, is also open to the Students of this school.

Another attraction to the Student is presented in the fact, that by the terms of the foundation of the Department, the law students have gratuitous admission to all lectures and all privileges of the other Departments of the State University.

POST GRADUATE COURSE.

Bachelors of Art, Science and Philosophy, will be admitted to the University as candidates for the degree of Doctor of Philosophy. They must devote two years to study under the direction of the President and Faculty, and pass a satisfactory examination before the Board of Examiners appointed by the Regents.

The studies are optional; but they must be selected from at least two sections, and the studies in some one section must be continued during the whole course.

Students who have pursued this course for one year, on satisfactory examination, are entitled to the Master's Degree.

COURSE OF INSTRUCTION.

SECTION I. NATURAL HISTORY.

Botany.
Mineralogy.
Geology.
Mining.

II. CHEMISTRY.

Chemical Philosophy and Physics.
Qualitative and Quantitative Analysis.
Applied Chemistry.

III. MATHEMATICS AND PHYSICS.

Pure Mathematics.
Mechanics and Physics.
Astronomy.
Engineering.

IV. PHILOSOPHY AND HISTORY.

History and International Law.
Psychology and History of Philosophy.
History and Criticism of Eng. Literature.

V. PHILOLOGY.

Latin and Greek Languages and Literatures.
Comparative Philology.
Modern European Languages.

The object of this course is to secure a higher grade of scholarship in Literature and Science than it seems possible to attain in the present state of our colleges, under the ordinary class system.

Those who enter upon it will receive all needed counsel and instruction; but they will be encouraged to pursue their studies as specialties, not limited as to time or interfered with by other duties as in the College course.

UNIVERSITY OF WISCONSIN.

FEMALE COLLEGE.

FACULTY.

HON. P. A. CHADBOURNE, M. D., LL. D.,

President.

STEPHEN H. CARPENTER, A. M.,

Professor of Logic, Rhetoric and English Literature.

JOHN B. FEULING, PH. D.,

Professor of Modern Languages and Comparative Philology.

MISS CLARISSA L. WARE,

Preceptress.

MISS CLARA D. BEWICK, PH. B.

Assistant.

MISS LIZZIE S. SPENCER, PH. B.

MISS FRANCES BROWN,

Teacher of Music.

MISS ELIZA BREWSTER,

Teacher of Drawing and Painting.

TERMS OF ADMISSION.

Young Ladies desiring to enter upon the first year of the following course of instruction must pass a satisfactory examination in the Outlines of Geography, Elements of English Grammar, and in Arithmetic to Proportion.

Those applying for advanced standing must pass examination in all the studies to which the class which they propose to enter have attended, or others equivalent to them.

Ladies may be admitted to this department and allowed to select any three studies of the term which they are qualified to pursue; but no extra classes will be formed except in elective studies.

COURSE OF STUDY.

FIRST YEAR.

FIRST TERM.

Mathematics..... Higher Arithmetic.
English Language. Verbal and Sentential Analysis.
Geography..... Descriptive Map Drawing.
General Exercises.

SECOND TERM.

Mathematics..... Arithmetic, completed.
English Language. Analysis and Composition.
Geography..... Descriptive, Map Drawing.
General Exercises.

THIRD TERM.

Mathematics..... Elementary Algebra.
Geography..... Physical.
History..... United States.
General Exercises.
Reviews..... Studies of the year.

SECOND YEAR.

FIRST TERM.

Mathematics Elementary Algebra, completed.
Language Craik's English of Shakspeare.
Science Botany.
History Ancient.

Elective French, Latin.

SECOND TERM.

Mathematics Plane Geometry.
Science Physiology.
History Mediæval.
General Exercises.

Elective French, Latin.

THIRD TERM.

Mathematics Solid Geometry.
Eng. Language Literature—Shaw's Complete Manual.
Nat. Science Botanical Analysis.
History Modern.
Reviews Studies of the year.

Elective French, Latin.

THIRD YEAR.

FIRST TERM.

Mathematics..... Higher Algebra.
Eng. Literature .. Criticism and Literature, Shaw's Complete Manual, completed.
Natural Science.. Zoology.
General Exercises.

Elective..... Latin, German.

SECOND TERM.

Mathematics..... Higher Algebra completed.
English Language. Rhetoric, Day's Art of Discourse.
History of English Language—Lectures.
Polity..... Constitution and Science of Government.
Political Economy.

Elective..... Latin, German.

THIRD TERM.

Philosophy..... Natural.
Philosophy..... Mental.
Polity..... Constitution of United States.
Mathematics..... Plane Trigonometry.
Reviews Studies of the year.

Elective..... Latin, German.

FOURTH YEAR.

FIRST TERM.

Mathematics..... Spherical Trigonometry.
Natural Science... Chemistry.
Logic..... Whately.

SECOND TERM.

Natural Science.... Astronomy.
Geology.
History..... Civilization—Guizot.

THIRD TERM.

Aesthetics..... Baseom.
Natural Theology.. Chadbourne.
Evidences..... Lectures,
 Essays and Reviews.

Elective.—Ancient and Modern Languages throughout the year.

SPECIAL INFORMATION.

In addition to the prescribed course in this College, young ladies will be instructed in any study taught in the College of Letters or Arts, for which they are prepared. They may also attend all University lectures. Instruction in this department will be given by the President and Professors of the University as their services are required.

Students who do not desire to graduate may enter at any time, and pursue any study of the term for which they may be prepared.

ACCOMMODATIONS.

For the present the South College Building will be occupied by the members of this College, and will be under the immediate charge of the Preceptress, who, with her associate teachers, will reside in the building.

This edifice has rooms for the accommodation of about eighty ladies. Besides these private rooms, there are others for the use of pupils in Music, Painting and Drawing; also a commodious and well furnished Hall for the use of the Castalian Society, organized by the ladies of the college.

The legislature, at its last session, appropriated fifty thousand dollars for the erection of a building specially designed for this College. It will be fully completed and ready for occupancy in the fall of 1871.

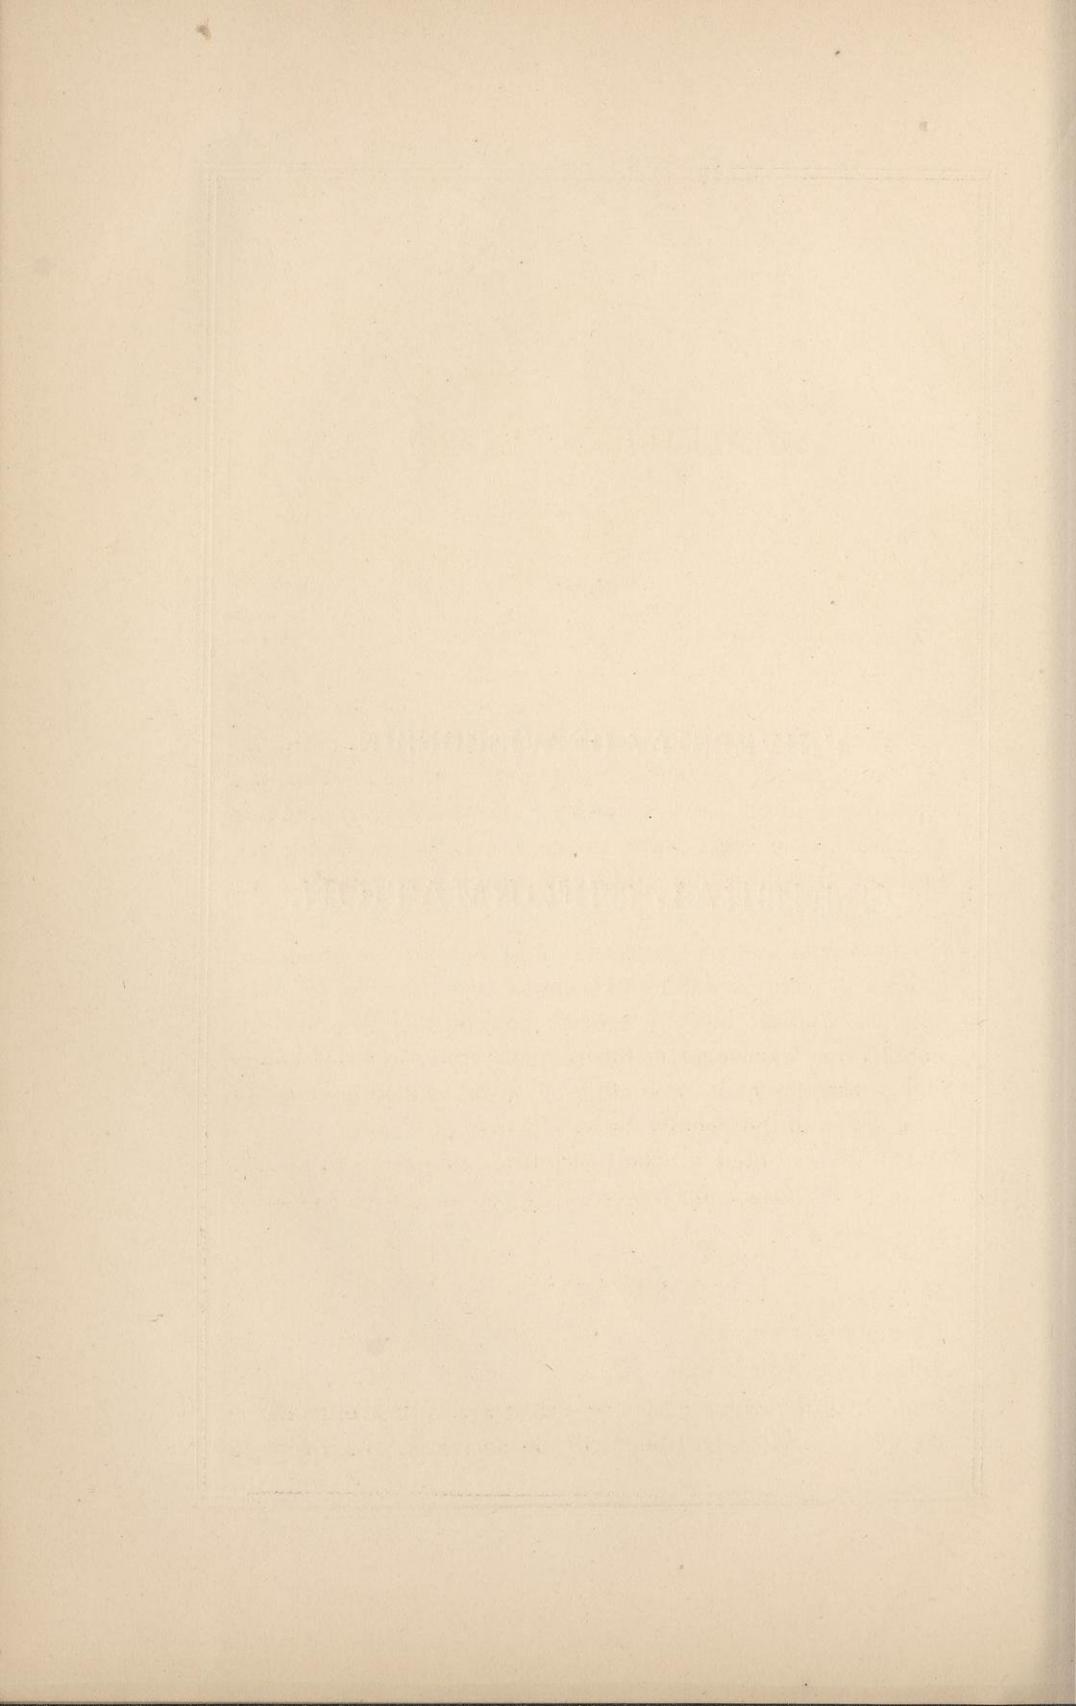

BOARDING.

Board will be furnished in the building for \$3 per week, and furniture can be rented for one dollar per term.

Rooms will be rented in the building to ladies desiring to board themselves. They will be under the same regulations as those who board with the teachers.

UNIVERSITY OF WISCONSIN.

GENERAL INFORMATION.

GENERAL INFORMATION.

POLICY.

It is the aim of the University to meet the educational wants of every Student in the State. The courses of study as laid down are intended to be the mere outlines of work. In the optional studies and post-graduate course there is provision for all the demands of higher scholarship which are now made upon the Institution. And it is confidently expected that by the sale of lands and in other ways, provision will be made for the constant growth of the University as greater demands are made upon it.

It is advisable that students should pursue the prescribed courses if possible, adding to them as they are able, from the optional studies; but, by special vote of the Regents, the Faculty may excuse a student from any study in either course and substitute for it any other of equal educational value, such action of the Faculty being a matter of record.

The whole policy of the Institution is determined by the Regents who as a body represent the people and no particular sect or party.

GOVERNMENT.

Students are held responsible only for good order and the diligent use of their time. Those who fail to conform to this simple requirement are at once dismissed. The University is no place for idlers, for disorderly persons or for those who do

not propose to give their *whole time* to the work prescribed for them by the Faculty. The loss of a single recitation not only injures the student, but those connected with him.

Leave of absence will not be granted except in cases of absolute necessity.

Each Faculty has special care of its own College or Department, but all the instructors teach wherever their services are required. Weekly reports are made by each Professor to the Faculty of the work in his own department and of all cases of delinquency.

The students and Faculty are assembled for prayers daily fifteen minutes before the morning hour for commencing recitations. At this time all public announcements are made and the President also gives directions and instruction to the students in regard to all their general duties as members of the University.

No student is required to attend any religious exercises of any kind, but all directions in regard to this matter, given by parents or guardians, will be cheerfully followed.

LECTURES.

In addition to the lectures given in connection with the recitations, some subjects are taught entirely by lectures, the students being required to take notes, and to recite upon the lectures, the same as when a text-book is used.

The following are the regular courses of Lectures :

To the SENIOR CLASS on Mental and Moral Philosophy, by the President; on Geology and Mining, by Prof. Irving; on Evidences, by Prof. Carpenter, and on Astronomy, by Prof. Sterling.

To the JUNIOR CLASS, on Chemistry and Physiology, by Prof. Davies; on Comparative Zoology by Prof.

Verrill; on History, by Prof. Allen; on Civil Polity and International Law, by Prof. Parkinson; on Mechanics and Physics, by Prof. Sterling, and on Rhetoric and English Literature, by Prof. Carpenter.

To the SOPHOMORE CLASS, on Structural and Systematic Botany, by Prof. Davies; on Practical Botany and Agriculture, by Prof. Daniells, and on History by Prof. Allen.

To the FRESHMAN CLASS, on the Laws of Health and Methods of Study, by the President; on History, by Prof. Allen; and on Natural History in its relations to the Arts, by Prof. Davies.

To ALL THE CLASSES, on Philology by Prof. Feuling.

To SPECIAL STUDENTS on Analytical Chemistry, by Prof. Daniells.

In addition to these courses, other Lectures are delivered on Special Subjects, by members of the Faculty and other Scientific Gentlemen.

LITERARY.

The University Library comprises nearly four thousand volumes.

All the students have access to it free of charge. Valuable additions have been made during the past year.

Students also have opportunity, free of expense, to consult the State Historical and State Libraries, the former numbering thirty-five thousand volumes, and the latter comprising a choice collection of miscellaneous works and a very complete Law Library. Each is furnished with commodious rooms kept comfortable at all hours of the day. These are Library privileges unsurpassed in the West and equaled in very few institutions in the country.

EXAMINATIONS.

At the close of the first and second terms there is a public examination of all the classes of the University in the studies of the term.

During the week preceding Commencement, the several classes are examined, in presence of a Board of Visitors, in the studies of the year.

Promotion from class to class is made to depend on these examinations.

DEGREES.

Students who complete the course of study prescribed in the College of Letters are entitled to the degree of Bachelor of Arts, and, after the expiration of three years from the time of graduation, on recommendation of the Faculty to the Regents, receive the degree of Master of Arts.

Students who complete the course of study in the College of Arts, are entitled to the degree of Bachelor of Philosophy, and, after the expiration of three years from the time of graduation, on recommendation of the Faculty to the Regents, receive the degree of Master of Science.

Students who complete the prescribed course of study in the Law Department, upon examination and recommendation of the Law Faculty, are entitled to the degree of Bachelor of Laws.

Students who remain one year in the University after graduation, devoting their time to study under the direction of the Faculty, are, on their recommendation to the Regents, entitled to the Master's degree. Those who remain two years, devoting themselves to Literature or Science, on recommendation of the Faculty, are entitled to the degree of Doctor of Philosophy.

Students who hold a first grade certificate, approved by the State Superintendent of Common Schools for the State of Wisconsin, and also all graduates of Normal Schools of the State, are, after one year's study under the direction of the Faculty, entitled to appropriate University degrees.

Graduates of the Female College receive the same degrees as graduates of the other colleges for the same course of study.

APPARATUS AND CABINETS.

The University is provided with extensive and valuable Geological and Mineralogical Cabinets and collections in Natural History; also with well selected Philosophical and Chemical Apparatus.

Important additions have been made, the past year, to the means for teaching Chemistry and other Natural Sciences. As funds increase from the sale of lands, constant additions will be made to the Board of Instruction and to the means for teaching the sciences in all their applications to the Arts.

COMMERCIAL EDUCATION.

Arrangements have been made so that students in the University who desire to study any branch taught in the MADISON BUSINESS COLLEGE can do so for two-thirds the usual fees.

LITERARY SOCIETIES.

The two Literary Societies—Athenæan and Hesperian—are sustained with great interest, and furnish valuable aid in the intellectual training of the student. Each has a library of several hundred volumes. Spacious and commodious rooms in University Hall have been provided and furnished at the expense of the institution for the use of these societies.

These societies admit to membership only students connected with the regular classes. Another, called the *Philomathean Society*, has been organized for Preparatory and University students.

ROOMS.

Private rooms in the North Dormitory Building, under certain restrictions, can be secured by gentlemen on application to the locating officer at the opening of each term.

No student will be allowed to occupy a room until his bills for the term are settled.

Students from abroad have the preference in the assignment of rooms.

Those in the regular classes are allowed the choice of rooms, and in the order of the classes.

Regular Students, in previous occupancy, if on the ground at the opening of the term, are permitted to retain their rooms, unless needed for those in higher classes.

Rooms are furnished, except stoves, at the expense of the students, who should bring their own bedding, towels, etc. Other furniture can be obtained here second-hand, or new, at moderate prices.

Occupants of rooms are held responsible for all damages to the same.

Students not accommodated in the University, and not residing with their parents in Madison, will lodge and board in town, under such regulations as the Faculty may prescribe.

TERMS AND VACATIONS.

The Commencement Anniversary is on the Wednesday preceding the last Tuesday of June, and is followed by a vacation of nine weeks.

There are three terms in each year, and three vacations.

The first term opens on Wednesday, nine weeks from commencement, and continues until the Friday preceding the last Thursday in November. The second term commences on the third Wednesday after the close of the preceding term, and continues till the Friday preceding the third Wednesday of March. The third term commences on the second Wednesday after the close of the second term and continues till the Wednesday preceding the last Tuesday in June.

EXPENSES.

Tuition, per term	\$6 00
Room rent, per term	2 00
Heating of public rooms, 1st and 3d terms.....	1 00
Heating of public rooms, 2d term	2 00

For Music, Painting and Drawing, the usual extra charge.

Payment of the above charges is required strictly *in advance*.

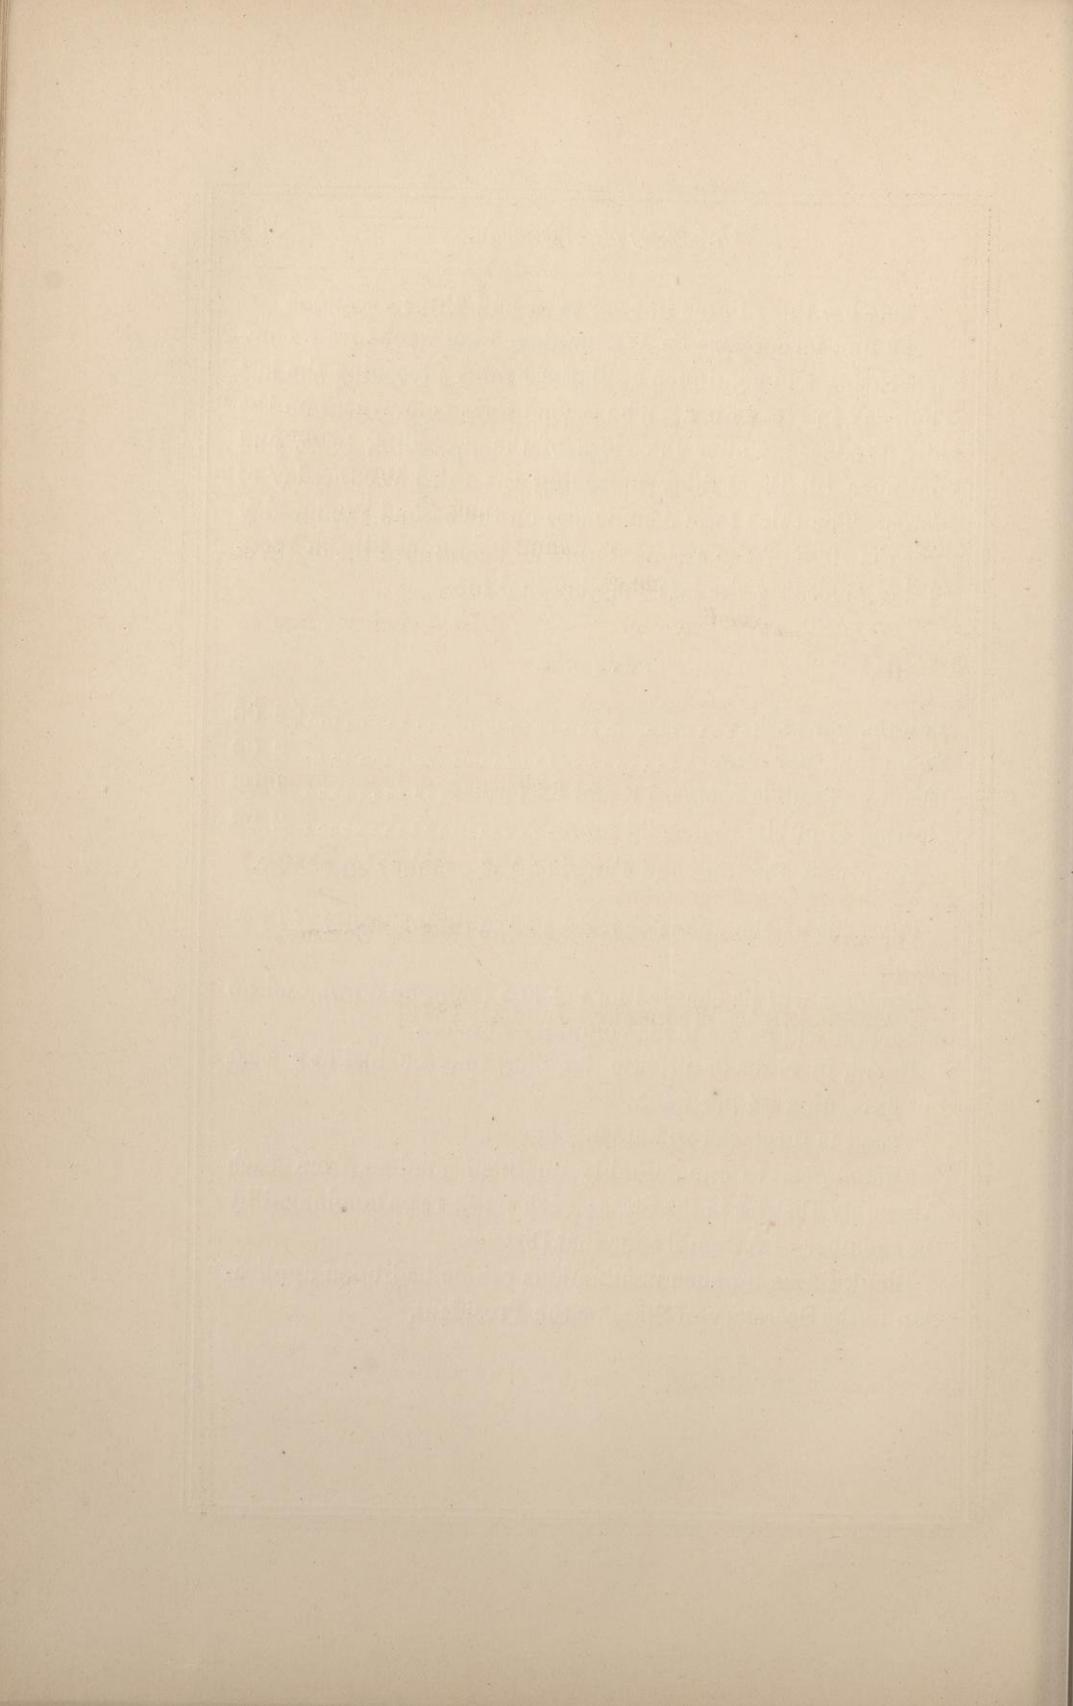

Students will be charged for not less than one term, and no deduction will be made for voluntary absence.

Board, in clubs or private families, may be had at a cost not exceeding \$3 per week.

Wood is furnished to students at cost.

Tuition free to one suitably qualified student from each Assembly District in the State; such pupil to be nominated by the member of Assembly for that District.

Blank forms for such nominations can be had upon application to the Secretary of State or the President.

CALENDAR FOR 1870-71.

FALL TERM begins August 24, 1870, and closes November 18, 1870.

WINTER TERM begins December 7, 1870, and closes March 10, 1871.

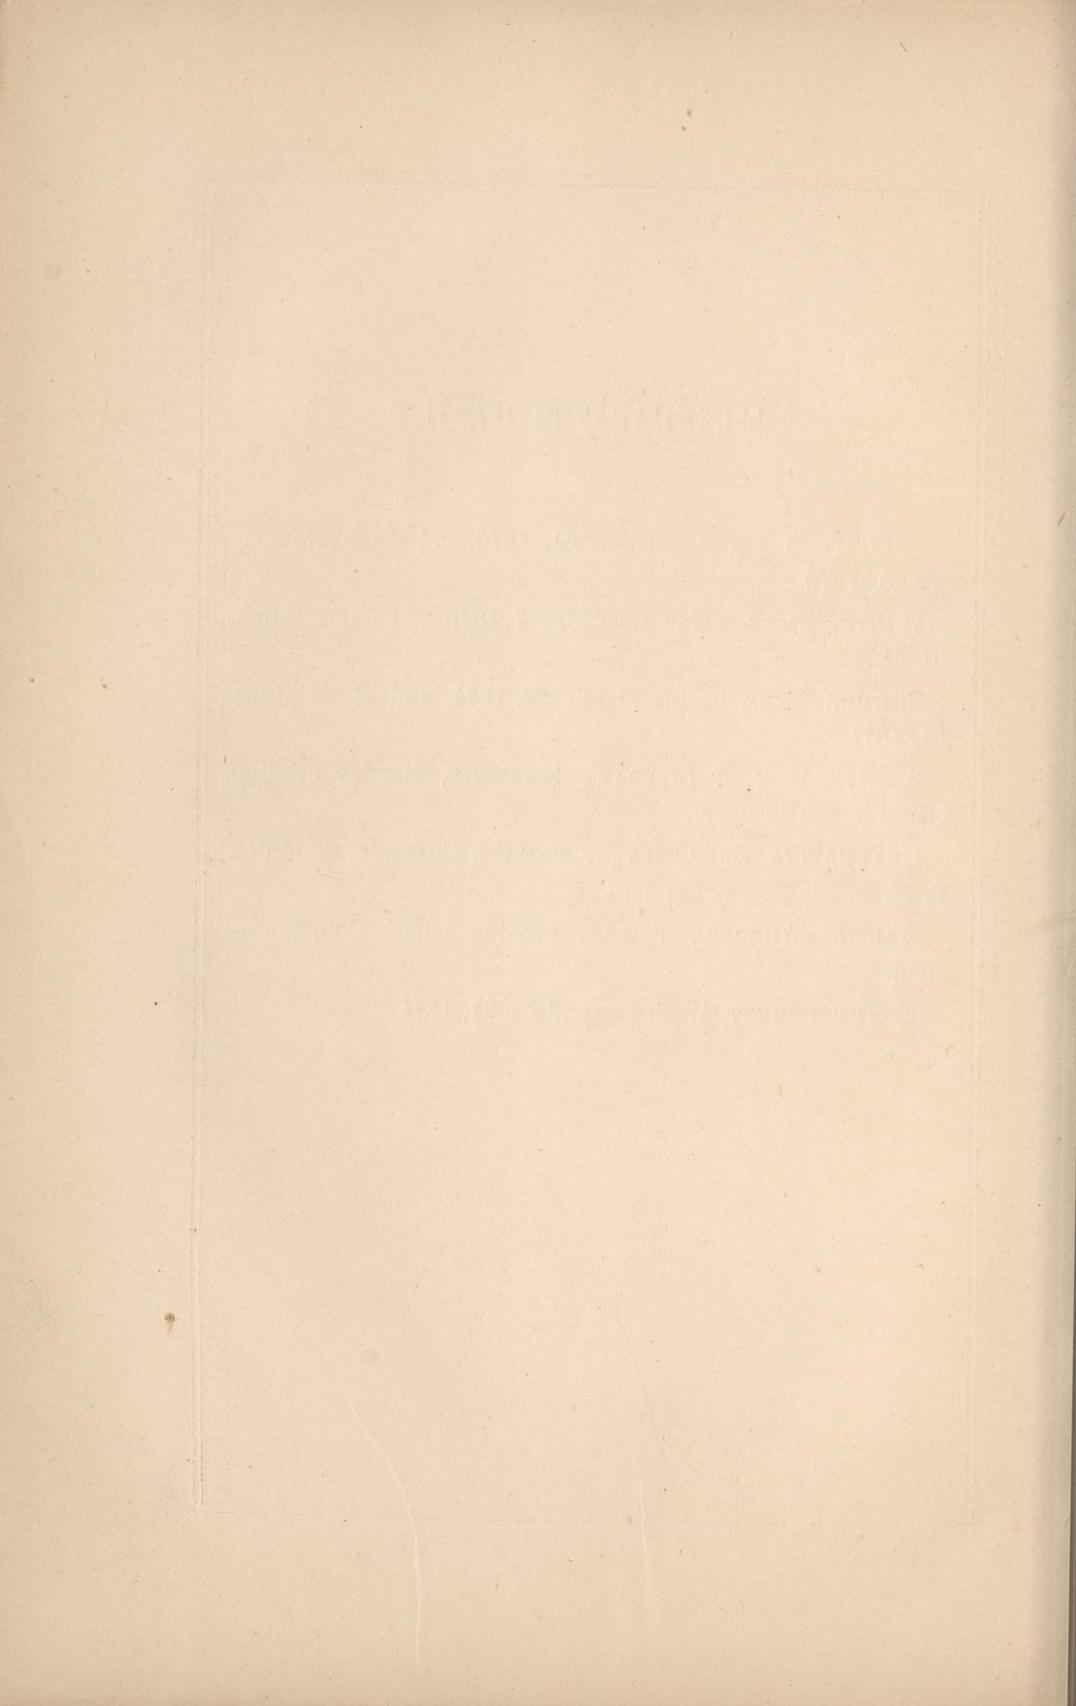

SUMMER TERM begins March 22, 1871, and closes June 21, 1871.

ANNIVERSARY OF LITERARY SOCIETIES, Monday evening before Commencement.

GRADUATING EXERCISES OF FEMALE COLLEGE, Tuesday P. M. before Commencement.

ALUMNI ADDRESS, Tuesday evening before Commencement.

COMMENCEMENT, Wednesday, June 21, 1871]

FEMALE COLLEGE BUILDING, (IN PROCESS OF ERECTION).

BOND-CHANDLER, CR.
