Your Last Chance to Win a Prize of Five or Ten Dollar Values

This is the third and last week of the "misspelled word" contest in the Appleton Review. In this issue you will find a number of intentional mistakes in advertisements of various merchants. Read each advertisement carefully and list the words as you did in the last two issues, the misspelled word and opposite to it the correct word.

All three lists should be mailed to or deposited at the Appleton Review office, 300 E. College Ave., not later than 5 o'clock Monday afternoon, Feb. 17. The winners will be announced in our issue of Friday, Feb. 21. Some have already submitted their lists for the last two weeks and should send in the third one immediately.

If more than one person has all of the answers correct, the names will be placed in a box and Morris Spector, jeweler, who is the donor of the prizes, will be asked to draw one, who will be declared the winner. The second name drawn will be given second prize.

First prize, as announced before, is any ten dollar article of jewelry selected from the stock in Spector's Jewelry Store, 201 W. College Ave. Second prize is any five dollar article in the store. Mr. Spector decided to let the winners choose their own prizes up to those values.

No employees of the Midwest Publishing Company, publishers of the Appleton Review, or of the Badger Printing Company, printers of the Review, are eligible to enter this contest.

This contest is not difficult. Merely find the misspelled words in the advertisements and write the wrong and right ones opposite each other. You can obtain the back issues and complete them all at this time if you wish. Be sure your name and address are written plainly on your answer sheet.

A sleigh ride party is great sport.

The county board which was in session at the court house this week decided to appropriate \$1,500 towards the cost of equipping vigilantes, but stipulated that the appropriation was not to be effective until November, because of lack of funds. Highway Commissioner Appleton reported that snow removal to date had cost \$12,697.77. This is less than one-third of the amount that had been spent last year at this time, but there has also been an even greater difference in the amount of snow to be removed. The question of establishing a county poor farm was turned down. It was voted to give the present tenants of the old workhouse a two year lease, with the privilege of buying for \$5,000 at expiration of that time.

STATE

Walter H. Alford, 53, one of the most widely known philanthropists in the state, died last week at his home in Kenosha. His gifts to various charitable and public organizations are believed to have totalled more than a million dollars.

Congressional wets and dries have this week turned their attention to public hearings before the house judiciary committee which on Wednesday

opened the "most thorough-going airing yet given to the prohibition question by a congressional committee."

Wet measures including repeal, modifications, and referendum proposals will be a subject of the public hearing. One of the outstanding resolutions incorporates a government control plan giving the United States a liquor regulation system similar to those of Canada and Sweden.

WORLD

A Paris mob of many thousands burned the race track stands and betting booths at the Vincennes course in a two-hour riot, repulsing and injuring many police and cavalry officers. The crowd was incensed because officials refused to correct what appeared to be a false start in one of the races, suspecting that certain irregularities had been going on all season.

PACIFIST GROUPS DENOUNCED BY SPEAKER AT A. A. U. W.

Peace organizations and communistic movements which oppose preparedness in the United States were denounced by Mrs. W. Z. Stuart, Neenah, in a talk on international relations at the meeting of the American Association of University Women Saturday afternoon

at the home of Mrs. E. H. Jennings, E. North St. Although Mrs. Stuart was at one time an advocate of this country's entrance into the League of Nations, she is now utterly opposed to such a move, she stated. Among peace groups which she declared against were the Conference for the Cause and Cure of War and all other pacifist organizations which fight against adequate preparedness for war.

Mrs. Stuart spoke of the communist camps at Kenosha and on the Brule river which have carried on their activities for the Soviet unmolested by authorities, she claimed.

The speaker is sponsoring the attendance of three Roumanian students in American universities to further the cause of international relations and understanding between peoples. She described the differences in outlook of these students with their American classmates.

About 40 women attended the meeting. Assistant hostesses were Mrs. John Goodrick, Miss Elsie Mueller, Miss Ruth Becker, Miss Florence Bounds, and Miss Frieda Glaser.

The Thursday Afternoon Bridge club will be entertained next week at the home of Mrs. Walter Fox, S. Pierce Ave.

HOME MERCHANTS PLAN EDUCATIONAL CAMPAIGN

An educational campaign as a means of helping to develop the locally owned stores was given a preliminary discussion at a meeting of the board of directors of Appleton Home Merchants association at Hotel Northern Tuesday evening. As a result, much will be heard by the people of Appleton and surrounding territory within the next few weeks as to why preference should be given to institutions that keep their money at home instead of sending it to the financial centers of the east where it does not benefit the local community.

Stephen D. Balliet, president of the association, was instructed to appoint a publicity committee to handle the educational campaign. At least one representative from each line of merchandising is to be on this committee, including dry goods, clothing, shoes, ready-to-wear, groceries, furniture, drugs, jewelry and others. In this way the interests of the entire group of home merchants will be given consideration. This committee held a dinner at Hotel Northern Thursday evening to outline its program.

Encouraging reports were given at the board meeting concerning the movement in Appleton to support the home owned store. Now that the issue of the local store versus the foreign corporation has been brought squarely up to the people, many have realized the extent to which the stability of business here may be affected by draining the city of commercial resources. The trend is definitely in favor of the home merchant, and the association intends that there shall be a complete swing to loyalty for the home city.

To Terrify Terrorists
Another Attempt to Kill
For Gold Star Mothers
Women Spend 53 Billions

Los Angeles, Calif.—The shooting of the Mexican president, his wife and another, none killed, fortunately, will mean drastic action in Mexico. No nation will tolerate, even in civilized times, a campaign for the control of government by murder. Back of the young hand that fired the shots there stands in the shadow some murderous organization, relying on terror and using servile tools for its purpose.

* * *

Ortiz Rubio and the powerful Portes Gil, former president, now Rubio's secretary of the interior, will find a way to terrify the terrorists.

* * *

Before the would-be murderer shot him, Ortiz Rubio, in his brief inauguration address, had promised that all classes of Mexicans "should enjoy the privilege of being classed as men." Those familiar with conditions under which Mexico's lower classes have lived, and with the attitude toward them of the upper classes, will know what that means to the Mexican under dog.

* * *

Congress votes more than \$5,000,000 that "gold star" mothers may visit their sons' graves in France. Of 11,000 mothers entitled to go, 6,000 have expressed a desire to go. Many cannot go, because of duties at home. Others, perhaps, dread the sorrowful shock. To those that do not go, congress should pay in cash the pro rata amount that it would cost to send them, about \$1,000. No other course would be fair.

* * *

Texas has an "anti-chain store association" to drive and keep out chain stores owned outside the state. The governor and other high officials are said to indorse the association, which seeks to protect thousands of small merchants, driven to the wall by chain-store efficiency and economy.

* * *

Another attempted murder among our Latin-American friends. An attempt, fortunately a failure, is made on the life of Mello Vianna, vice president of Brazil. As in the recent Mexican outrage, the man attacked was making a political address and the would-be murderer was moved by political hatreds. Only harsh severity can meet such an assassination epidemic.

* * *

Richard Stewart, rug merchant of Warren, Ohio, is in jail. Judge Perry found him guilty of molesting a woman. Stewart offers an excuse as old as Adam: "The woman led me on." In jail Stewart refuses to eat. It would have been fortunate for Adam, and for us, but bad for the clothing business, had Adam likewise refused to eat.

Charles Evans Hughes returns to the Supreme court as chief justice, at President Hoover's request. In him the people have a brilliantly able man, worthy to take Mr. Taft's place.

And from Mr. Hughes' acceptance of the position you learn that honor and opportunity to be useful are more important than financial profit.

Mr. Hughes gives up a private law practice worth more than \$500,000 a year for the small salary and great opportunity of the Supreme bench.

* * *

Chicago's Retail Advertising institute is told that American women spend every year fifty-three billion dollars.

A million is a great deal. A thousand millions is a very great deal. Fifty-three thousand millions spent by the women in this country is an extraordinary amount of money.

* * *

The rich, in this happy land, very happy for some, are richer than they ever were. The Treasury department tells you there were 496 Americans in 1928 with annual incomes above \$1,000,000. The total on which they paid income tax was one thousand and seventy-three millions.

* * *

And, as you know, this represents only a fraction of the really big incomes. There are men with incomes above one hundred millions each. Their money is in great corporations. The latter re-invest their earnings and hand stock dividends instead of cash to the big controlling stockholders. On such dividends, in accordance with Supreme court decision, the really rich men pay no income tax.

* * *

One man, with much more than a hundred millions income, paid, as shown in reports once published, only six millions income tax. Without the stock dividend device he would have paid forty millions at least. A lot of salary earners and professional men made up the difference.

* * *

Of the supermillionaires, twenty-four have more than five millions a year each. With all that money you would expect to hear of some remarkable and interesting things done, but money and imagination do not often go together. Imagination prevents accumulation.

* * *

For brains and ingenuity there are always openings and success. What is wanted is something that will give a decent living to any man or woman willing to do honest work. Even the average man has a right to live, or should have.

WILLIAM KENNON HENDERSON OF STATION KWKH

The Appleton Home Merchants Association which was organized to fight the chain stores was primarily a result of the campaign conducted for some time through radio channels by William Kennon Henderson of Shreveport, Louisiana, and a few words about him will undoubtedly be of interest to citizens of Appleton and the surrounding country.

William Kennon Henderson is only 49 years of age, is married and has one son and one daughter. He is very comfortably provided for as far as this world's worldly goods are concerned, but that does not prevent his being a hard worker. As president of a successful iron works in his home town he might be pardoned for getting down to work late in the morning, but he is often on the job before 6. He works late, but does not have to leave his office to address his followers over the radio. A microphone on his desk is connected by remote control with his home studio at Kennonwood. He is just as eccentric in his daily activities as he is over the air. He keeps no regular hours, nor does he demand them of his staff. Four times a day he treats his employees to a cup of coffee. He wears a red rose in his lapel and is fond of expensive perfumes and does not care what other men think of this little idiosyncrasy.

He is stockily built, a good dresser and willing to look the world in the face and tell it where to go. His cleft chin and stub nose strengthen the impression of aggressiveness one gets at first glimpse of him. Yet he's all

goodness and thoughtfulness to those he cares for—relatives and friends. He is always ready to aid the fellow in hard luck and he does not stop at half measures either when he likes the party concerned. But first of all comes his family, even to serving them first at table when he has guests. And if the guests don't like it they can stay away.

And that is William Kennon Henderson of KWKH.

YOUR HOME TOWN

Edson Waite, Shawnee, Okla. newspaperman, had some thoughts about the home town, as so many of us do have. His thoughts for Shawnee are pretty good for Appleton, or any other city, for that matter. They might be crystallized into this list of commandments for the patriotic citizen:

"Your city's business is your business. Don't lay down on the job!

"You should not expect your live businessmen to spend all the time and money building your city while you ride along on a free pass. Do your share!

"You should do everything in your power to stimulate and strengthen the industries of your city. Their success means your success.

"Your city should aim to please in appearance and business.

"You should not criticize nor condemn the business organizations of your city unless you have given time, money, thought and effort in getting these results.

"You should do your share to make your city known the world over as a wide-awake and growing city.

"You should patiently, earnestly, purposefully, and with pluck, energy and perseverance, keep doing your bit to make your city a better city in which to live and make a living.

"Your property will increase in value when the outside world knows your city is wide awake.

"When you feel like finding fault, begin with yourself; you may never have to go any farther."

BETTER THINK IT OVER

At the last meeting of the city council a resolution was adopted instructing the mayor to appoint a committee to investigate the feasibility of purchasing a stone quarry for the purpose of furnishing work for unemployed men of the City of Appleton.

The purpose back of that resolution is an excellent and praiseworthy one. But the vehicle chosen is unfortunate. The purchase of a quarry, with the machinery necessary for its practical operation, would require a very considerable outlay which the city, at present, is not in position to make. A quarry equipped with modern machinery would require expert quarrymen to operate it and there are few

such, if any, in Appleton. To operate a quarry on the antiquated hand labor basis merely for the sake of furnishing employment for a few men would be an economic waste which could not be justified by the small benefits gained. In addition to that must be taken into consideration the fact that working in a municipally owned quarry would be more than likely considered in the same light as a prison sentence at hard labor. The average self respecting workmen would have to be extremely hardup before he would want his neighbors to say that he was "working on the stone pile".

There are many other ways in which the city funds can be used to good advantage in furnishing work for the unemployed of the city, and we are sure the committee will reach the same conclusion before it has gone into the matter very far.

RURAL SCHOOLS AND TAX PROBLEMS

In the cities school and tax problems are usually threshed out in the press, as a result of which the public is given every opportunity to inform itself. Of course that is no guarantee that the vote on election day will be representative of the real opinion of the public, because too large a percentage of the voters fail to make use of their electoral privilege, remain at home, and afterwards wail to high heaven because matters were not decided as they think should have been the case.

The same condition exists in the rural communities, except that there the facilities for spreading a knowledge of the subject up for discussion are not so good, which fact, coupled to the same indifference existing in the cities, leads to waste and extravagance in rural government the same as in city management.

In our neighboring town of Grand Chute three school districts are at present confronted with such a state of affairs. The school districts known as the Triangle, Twin Willow and Underhill face the necessity of erecting new school buildings this coming year. These three schools lie within a territory which is about four and one half miles long and two and one half miles wide. A joint school district, combining the three, would be the logical solution and the matter has repeatedly been brought before meetings called for the purpose of discussing the situation. But the attendance at those meetings was light and nothing was accomplished so that at present there is a possibility that three schools will be built next summer where one would be sufficient.

The purpose of this editorial is to bring this matter to the attention of all the voters in that territory and to urge them to take action in their own interests. If each district builds its own school it will mean an expenditure of at least \$6,000 to \$7,000 and perhaps considerable more for each, for the building alone. Then there will be the expense of maintaining three schools instead of one. If a joint school house is erected the cost will be little more than the cost of any one of the single district schools. This would mean an immediate

saving to each school district of at least \$3,000 and probably considerably more. The heating of the joint school would not cost much more than the heating of any one of the proposed three, thus effecting another considerable saving. Teachers in scattered small schools must spread their energies over several grades, with only a very small number of pupils in each grade. Because each teacher would have such a large range of subjects to handle, she could not possibly devote the same amount of time to any one or to any single pupil as the teacher in a grade school. In the latter, with the work divided between several teachers, each one would be able to concentrate on one or two grades instead of a number. There might even be fewer teachers and still they would be able to give each pupil more individual attention, because they would not be trying to teach several grades at the same time. Children in the primary grades would not be interfering with the work of the older pupils and as a result much better progress would be made.

In other words, in a joint district comprising the same territory now served by three schools, the taxpayers would not only effect very material savings in the costs to themselves, but at the same time would be giving their children greatly increased educational facilities. It is not often in these days that we can actually save money while at the same time getting more for what we are spending than we were getting before we began saving.

This matter is important for these three districts. It must be definitely settled in the immediate future, because all three must build new schools this summer or lose their state and county aid. Once the three separate schools have been built it will be too late to talk of consolidation. The time to act is now, and we hope the taxpayers of the district will lose no time in impressing upon the members of their respective school boards that their desire is for economy and efficiency, both of which are easily obtained through consolidation.

NOTE:—This is the first of a series of editorials dealing with conditions in the county, in the course of which we hope to be able to show how material savings can be made in the conduct of county and city affairs. A reduction of taxes in the county will also mean a reduction of taxes in the city and the Review is convinced that such efforts will be appreciated by the tax payers and the public at large. The Editor.

Our idea of a slow movie is a committee of fifteen getting down to business.

Remains of six men without heads said to be the original ancestors of the human race were found in Asia. So it seems that the human being inherits this trait.

Long skirts, a friend fears, will increase accidents on crowded highways, because the women will not be able to dodge oncoming cars with such agility. But on the other hand it is certain that men drivers will have their minds on their business, so the situation is not changed in the least.

The Home Folks Rejoice

Judging from comments and letters received each day, the people of Appleton are enjoying the Appleton Review to the utmost. These expressions are encouraging indeed.

It seems that our citizens who have spent many years in Appleton are getting a thrill out of having a strictly home publication once more. They were accustomed, until ten years ago, to newspapers owned by some of our leading citizens and edited by them. Absentee ownership and editorship have taken from them a sense of contact and service which they prized highly.

To bring back to Appleton a news publication that is owned by Appleton men and edited by them is restoring one of the factors which previously formed such an integral part of our community life. The people recognize that a publication based on service is more cherished than one which stresses large profits sent to another city. Even the paper on which the Appleton Review is printed is purchased locally, instead of being shipped here from out-

side the state. The Review therefore is making itself an economic asset as well as a community servant.

It is our desire to serve you with one of the finest community publications in the country. What we are doing now is only the beginning of a publication which will serve every avenue of local progress. It will keep on getting better and better.

You can help these initial efforts by subscribing early even though you are temporarily receiving your paper gratis. Help us meet the need for a home publication and we will give you back much more than your money's worth in news service and community service. Do not wait until one of our solicitors reaches you, as it will take time to reach all. Mail your check for \$2.00 for one year today or pay this amount at our office, the Midwest Publishing Co., 300 E. College Ave. You can place your order by telephone and a solicitor will call.

PIONEERS TO MEET ON WASHINGTON'S BIRTHDAY

The fifty-eighth annual convention of the Outagamie County Pioneers association will be held at Odd Fellows hall in this city on Washington's birthday, Saturday, February 22. The hall will be open at 8 o'clock in the morning and it is expected that members from all parts of the county will be on hand early to renew acquaintances and to pass the day swapping yarns about the good old times.

Business meeting will be held at 10:30 and the usual basket dinner at noon. Aunt Mary West Johnston, 89 years old, who has served the pioneers at these meetings for the past 45 years, will again have charge of the serving arrangements.

An interesting program has been arranged for the afternoon session, which will begin promptly at 1 o'clock and at which W. E. Smith will be the principal speaker. Everybody is cordially invited to come early, bring a basket and enjoy a real old fashioned "get-together."

Industrial plants at Niagara Falls are faced with the need of obtaining additional electric power or removing to other locations. One of the power companies is planning to build additional steam plants to supplement hydroelectric power. The power shortage is laid to the lack of action by the U. S. Senate upon a treaty with Great Britain permitting additional water diversion at Niagara Falls, according to the New York public service commission.

Mexican airplane service has been extended to daily trips between El Paso and Mexico City, continuing two trips weekly between Chihuahua and Nogales, Ariz.

What They Say

Review Editors:

Let's keep both sides of this City Manager question before the voters between now and the April election.

No doubt we shall have some troubles, even if the proposed new system is adopted, but I'm for more efficiency any way we can get it. I believe a good many of us agree with Dr. Hutton, of Northwestern university, who, in commenting on Chicago's present financial troubles, makes the prediction that within a quarter of a century all city governments will be administered by trained executives directing trained heads of departments and trained employes.

Every private business that hopes to remain solvent in the stress of competition that it must meet in the next quarter century will have to be managed with the utmost efficiency. Every city that hopes to remain solvent and keep pace with rapidly changing business and social conditions must be managed with equal efficiency.

"Government is the biggest business in the country, and yet it is the most inefficiently managed." Methods and practices that business threw into the discard years ago are still held sacred by peoples and governing bodies. Wasteful methods that wouldn't be tolerated by a live board of directors are endured year in and year out by the voters who pay for them by constantly mounting taxes.

We don't want "penny pinching" in our governments, local, state or national. We are living on a better scale in our communities as well as in our homes, and we must pay for it willingly. But these expenditures should be carefully budgeted and under trained direction in our governments as well as in our other public enterprises, private businesses and homes, if the best results are to be had.

An Observer in Our City.

Our Friendly Neighbors

Cardinals are with us again! A number have wintered in Madison where the bird lovers have fed them for several winters. I think it was in 1914 that the last pair was seen here, but the male flew against some wires and was killed; the female, it was believed, starved to death although many of us had food placed for her.

The male of the present visiting pair was seen Thursday in the top of an oak on Alton St., singing merrily. Cardinals have also been seen at New London this winter.

There are many charming bird books at the public library. Do get some and read them. You cannot help but become enthusiastic. Here are a few: The Kentucky Cardinal, by James Lane Allen; The Song of the Cardinal, by Gene Stratton Porter; Bird Homes, by A. R. Dumore; Wild Bird Guests, Edgar Harold Baynes, which I like best of all. In the Juvenile department are many more, among them Bird Companions by Angelia Kumlein Main.

An ever present help is a subscrip-

tion to Bird Lore, a bi-monthly magazine.

A splendid thing to do is to keep a bird census, begin it today and keep a list of birds you see, where, when, descriptions, and anything else about them that is interesting and that you want to remember; you'll be surprised to see how fast it grows!

* * *

I had a friend, a farmer, who, when he started to go afield, filled the pockets of his blouse with the hay and grass seeds from the bottom of the mangers; then, when he came to the brush (in the city we call it shrubbery!) along the river and the fences, he scattered the seed, "for the birds," he said. He kept a flock of quail on the farm for two winters this way.

It was on this farm that a wren built her nest in the ball of twine in the binder—and the farmer did not use the binder until the young wrens had flown!

One day going through his woodlot I almost stepped on a partridge sitting on eleven eggs. She limped away, apparently with broken wings and legs, but we did not molest her nest, nor did we pause, pretending that we had never seen her.

About the eighteenth of this month look sharp and listen well, for then we may expect our own Wisconsin birds, the ROBINS, and they will be hungry and thirsty.

Next week we shall plan our bird bath. I wish there might be a bird bath in every yard. E. L. E.

This Week At Our Local Theatres

ARLISS' GREAT SUCCESS, "DISRAELI," HERE IN VITAPHONE VERSION

Intrigue, melodrama, and high finance are intermingled in a brilliant story in "Disraeli," the Warner Bros. Vitaphone Production coming for three days at the Appleton Theatre, starting Monday.

George Arliss portrays with fidelity the character of the powerful conservative British premier who, in the face of scoffing and ridicule by his opponents and powerful banking interests, acquired the Suez Canal for England, outwitting Imperial Russia, solidifying the position of England in the Far East, and making Queen Victoria "Empress of India" through his action.

Woven through this plot of diplomacy is a charming love story, carried by Anthony Bushell and Joan Bennett. Florence Arliss, the star's wife, plays the lead opposite him as "Lady Beaconsfield."

Al Green directed this Vitaphone version of the highly successful stage play, "Disraeli," which was written especially for Arliss by Louis N. Parker.

The cast supporting Arliss is an excellent one, including, in addition to the players mentioned above, such popular names as David Torrence, Ivan Simpson and Doris Lloyd. The story of

the play was adapted for the screen by Julian Josephson. Mr. Josephson has many fine scenarios to his credit and in "Disraeli," his latest, he has skillfully transferred every ounce of dramatic value contained in the original script.

ROGERS PLAYS TWO ROLES IN PICTURE OF SOUTHLAND

Charles (Buddy) Rogers plays dual characterizations in his latest all-talking Paramount picture, "River of Romance," which comes to the Appleton Theatre for Sunday only.

He is seen first as the soft-spoken youth who returns to his homeland in the South after having spent most of his life in the East. Later in the picture he becomes the "notorious Col. Blake," blustering gambler and river-front badman of the Mississippi.

Subsequent events show that his "badness" is, in reality, feigned and that he is not the terror that all his acquaintances had supposed him to be.

Richard Wallace, genius who directed "Innocents of Paris," famous picture starring Maurice Chevalier, was also the director of "River of Romance."

Lodge Lore

The last social function of the Knights of Columbus order prior to Lent will be a costume party and dance February 28 at Columbia hall. A. J. Hall will be chairman. Guests at the affair will wear costumes and masks. A "Country School" will be the attraction of the February 20 meeting of the lodge. Wives and friends of members were guests of the chapter at a mock trial ceremony held at last week's meeting at St. Joseph hall. A breach of promise suit was staged.

A card party for members of Loyal Order of Moose will be held Friday evening. Arthur Collins, chairman of the February card committee is in charge and will be assisted by Carl Maylahn, John Carter, and Alvin Villwock.

The charity ball of the lodge will be given Tuesday evening, at Moose hall as a project to raise money for the erection of a boy's village at Mooseheart, Ill., national philanthropic project of the Moose. Anton Ullrich is general chairman of the event. Other committee members are: Phil Kreutzer, Lawrence McGillan, Peter Larson, Tony Natrop, Fred Zuehlke, Ernest Mueller, Gordon Kitzmiller, Everett Johnson, Edward Ward.

Boldt, Elmer Destin, Richard Groth, and Richard Gregorius.

Approximately 140 candidates will be initiated by the Appleton Apostolate, formerly the Ladies Auxiliary of the Catholic Order of Foresters, at services to be held Sunday afternoon at Catholic home. A banquet at Hotel Northern will follow the initiation.

The organization has been conducting an intensive membership drive the past few weeks under the direction of Mrs. George Nemacheck.

Elaborate arrangements for the booster celebration of the United Commercial Travelers March 1 have been made by the organization. Max Schwab is general chairman of the events and will be assisted by W. H. Babb, chairman of the entertainment committee, C. E. Murdock, T. S. Davis, E. M. Laitlaw, L. H. Everlein, and W. E. Lohr.

Business sessions, election of officers, and installation of new members for the council and auxiliary will be the afternoon's program. Following a banquet, cards and dancing will be enjoyed.

Guests were entertained at the weekly card party of Lady Eagles at the Appleton Womans club last week. Arrangements were made by Mrs. Anna Chase, Mrs. Olga Polzen, Mrs. Meta Hancock, Mrs. Eleanor Sohr, Mrs. Mary Ertl, and Mrs. Hortense Poppe.

Members of Konemic lodge, Order of Odd Fellows will hold a card party at Odd Fellow hall soon with Axel Fahlstrom, Arthur Malchow, and George Gauslin in charge.

Golden Anniversary of Presbyterian Church To Be Observed Next Sunday

On Sunday morning, February 16, the congregation of Memorial Presbyterian church will celebrate the fiftieth anniversary of the dedication of the church edifice. The building at the corner of Durkee St. and E. College Ave. was erected in 1879 and was dedicated Sunday afternoon, February 15, 1880. An interesting program had been arranged for and a large audience was attracted to the new edifice for the notable occasion.

Among the prominent persons present for the dedication ceremonies were Rev. Thomas G. Smith, D.D., of Canada, who offered the dedicatory prayer, and Dr. Gregory, president of Lake Forest College, Lake Forest, Illinois, who delivered the dedicatory sermon. There

It is greatly to the credit of the congregation that during the fifty years since the church was built no mission money has ever been received by them.

The church was self-supporting from the beginning. At times it required courage and sacrifice for the members to adhere to this policy, but it has never been deviated from. Here again the influence of the young minister, Mr. Andrews, has been felt. When he assumed the task of leading the congregation in building the church he scorned the idea of applying to the Board of Home Missions for money, and he indicated his willingness to suffer want rather than have the congregation ask for mission money. For a number of years the congregation has paid a considerable amount annually and regularly for missions and benevolences.

The church at present is growing and is in very good financial condition. During the anniversary year which is now being celebrated the purpose of the congregation is to pay off all financial obligations as well as to make many improvements upon the building and its equipment. At present the women of the aid society are enlarging the kitchen and improving its facilities.

The pastors who have served the church during the fifty years are J. B. Andrews, D. S. Banks, Edward P. Gardner, and John McCoy, all deceased. Herbert M. Moore, who is now president of Lake Forest College, Lake Forest, Illinois; Leo Reid Burrows, pastor of Westminster Presbyterian church, Jamestown, N. Y.; Ernest W. Wright, pastor of the Presbyterian church, Menominee, Mich.; Virgil B. Scott, dean of Missouri Valley College; and the present pastor, Ralph A. Garrison.

Mrs. M. J. Sandborn presented the subject Remaking and Personalizing the City at a meeting of the Women's Home and Foreign Missionary society of First Methodist church Wednesday afternoon at the church. Mrs. O. R. Kloehn was chairman of the public supper which followed.

The Misses Marjorie and Marion Miller, 713 N. Superior St., entertained members of Sigma Alpha Iota musical sorority at dinner last week.

MUSICAL PROGRAM SUNDAY AT METHODIST VESPERS

Music by Appleton High School orchestra and two choirs from the public schools will be presented at the vesper services of the First Methodist church Sunday afternoon. Mr. E. C. Moore will direct the orchestra including about 35 pieces, and Dr. E. L. Baker will conduct the choral singing of the boys' choir and of the three junior high schools and a children's choir from the fifth and sixth grades of the public school. The forty boys will sing a group of negro spirituals, and the chil-

dren's choir, including about 45 voices, will sing a miscellaneous group of short folk songs. A wood wind quintet from the orchestra will present a few short numbers.

The orchestra program will include: "Barber of Seville" Overture by G. Rossini; "Wedding of the Winds," John T. Hall; Andante Cantabile, R. Berthelemy; Ballet Music from "Faust," Valse Lente and Adagio, Gounod.

The personnel of the orchestra includes: Alfred Ventur, Neil Given, Jack Hahnen, Carl Given, Conrad Frank, Stanley Zahrt, Caroline Boettcher, Esther Schneider, Dorothy Weidemann, Anita Cast, Maybelle Wood, Ruben Braemer, Robert Mortimer, Wilbert Hansen, Harvey Goos, Carlton Schneider, Jack Kimball, Lawrence Oosterhaus, Jerome Watts, Eugene Bleick, Ruth Cole, Dorothy Wallace, Lucille Wichman, Russel Wichman, Walter Wright, Robert Luebke, William Buxton, Leone Tesch, Paul Castle, Norbert Franz.

MARIE'S SMART SHOP OPENS DOOR SATURDAY

A new shop, of particular interest to women, will be opened in the New Fox Theatre building Saturday. It will be known as Marie's Smart Shop and will be operated by Mrs. Marie Fleischer Jones. While small, the shop will carry a line of smart apparel for women and will satisfy the popular demand for an individual dress shop. Mrs. Jones is well known in the city, having been identified with Fleischer's Specialty Shop for five years and one year with Grace's Apparel Shop. The shop will feature things which are "exclusive but not expensive."

The wheat flour output for 1929 exceeded all previously recorded totals.

J. B. Andrews, pastor of Memorial Presbyterian church at the time of its dedication fifty years ago.

were a number of ministers from the city and neighboring churches also present.

The minister of the congregation at the time of the dedication 50 years ago was the Rev. J. B. Andrews, a young man of great faith, courage, enthusiasm, and energy. During the time of the construction of the building the young minister was present constantly, supervising every detail of the work and he suffered many anxieties and personal sacrifices in this new venture. Many obstacles and difficulties arose but Mr. Andrews was ever undaunted. At the time of the dedication he dramatically drew from his pocket a bag of gold coins, \$127, in all, representing all his savings in the world, and gave it as his offering for the new temple of worship. In token of their respect for the young pastor the ladies of the church purchased a large stained glass window which they had built into the east side of the new edifice.

The initial gift of \$6000.00 for the construction of the church was a bequest in the will of the late David Smith. Using this sum as a nucleus the congregation set to work to raise an adequate amount to warrant the beginning of building operations.

FORMAL OPENING OF NEW FUNERAL HOME

Pioneers in Appleton's industrial and community life, Brettschneider's have given faithful service for the past forty-two years. Their confidence in the city's progressiveness is exemplified in no finer way than in the opening of their beautiful new funeral home—one of the most complete and attractive in the Fox River valley. This remodeled structure will be formally opened for public inspection Saturday and Sunday, February 15 and 16.

The funeral home, located at 112 S. Appleton St., contains a large chapel, a spacious family room, a modern preparatory room, slumber chamber, a large casket display room, and a room for the night attendant. A Reproduco pipe organ has been installed in the chapel.

The building is not strictly new, but has undergone complete remodeling and redecorating. Brettschneider's take great pride in placing this home at the disposal of the residents of Appleton and vicinity, and the personnel of the staff—David Brettschneider, August Trettin, George H. Buesing, Edward T. Cooney, Frank Hoh, and Harvey G. Kittner—extends a cordial invitation to the people of this locality to visit the

new funeral home on either of the days it will be open for inspection.

PEERLESS PAINT CO. ELECTS A. O. KUEHMSTED PRESIDENT

A. O. Kuehmsted was named president and a director of the Peerless Paint company at its annual meeting February 8, at the company offices, 118 N. Bennett street. Other officers are J. D. Watson, vice president; R. O. Schmidt, treasurer; and L. A. Carey, secretary.

For the past ten years Mr. Kuehmsted has been president and manager of the Elmendorf Paint and Varnish company, established in Chicago in 1867, and consequently one of that city's oldest paint and varnish concerns. He is by no means a stranger to Appleton, having graduated from the old Third ward high school and having won a large friendship through his regular business visits to the city.

Eating vegetables raw is one way to get all the vitamins present and the soluble minerals which might be lost in the cooking water.

A child who is worried, irritated, unhappy, or overly tired at meal time can not digest his food properly. It is much better to have him rested and in a happier frame of mind before eating.

For early and sound sleep, give the small child a light evening meal. Whole wheat or cereal bread, milk to drink, fruit, and a vegetable or an egg are sufficient.

When making a suit for your little son, sew the buttons around the bottom of the blouse on short pieces of elastic. When the trousers are buttoned and he bends over, the elastic gives and you don't have to replace the buttons so often.

Some stoned chopped dates are an agreeable addition to apple sauce. Add when the apples are almost cooked.

Tart apple jelly heaped in polished apple shells (halved apples, hollowed out) and sprinkled with chopped almonds makes a very attractive relish to accompany a dinner. Garnish with sprigs of crisp parsley and blanched almonds. Serve one to each person.

Poems We Like

Try Smiling

Poets have written poems for smiles,
For ever and ever so long,
But I have a poem I've written for
smiles,
Whenever my world goes wrong.

When "Old Man Trouble" comes my
way,
And it seems life isn't worth while,
That's the time I cheer up and grin,
And if grinning's too hard,
"I just smile."

—Esther Goehler,
525 N. Garfield St.

Then gently scan your brother man,
Still gentler, sister woman;
Though they may gang a-kennin'
wrag,
To step aside is human;
One point must still be greatly dark,
The moving "Why" they do it;
And just as lamely can ye mark
How far perhaps they rue it.

Who made the heart, 'tis He alone
Decidedly can try us;
He knows each cord—its various tone,
Each spring—its various bias;
Then at the balance let's be mute,
We never can adjust it;
What's done we partly may compute,
But know not what's resisted.

Home Lights

So often I have gone through these
rooms,
Lighting the seen and unseen candles
To make a house
A home.

You, who have visited me,
Have seen the cheer
Of many colored candles,
But I, who have watched here fre-
quently alone,
Have lighted many more
That you may never know;
Tall red candles of my pride,
White candles that were prayers,
Strange little blue ones for loneliness,
Some of strong yellow
When I needed courage,
But mostly
A rose-colored candle
That men call joy,
Whose soft flame
Has companioned me for countless
hours
While I worked;
That has haloed each chubby baby's
face,
And cast a flattering finish
On all the treasured handicraft
I made.

It has meant so much to me,
I should like to leave
This light
Burning in the little house
When I go away.

High School Notes

By W. MEYER

Captain Denis Rooke, famous air ace and member of the Royal Air force, talked to the students in assembly on Monday, February 10. He gave an interesting account of his seven thousand mile solo flight in a frail plane, illustrating this talk with slides. Captain Rooke was the eleventh number of the Assembly Lyceum course which is being sponsored by the Student council. The twelfth number will be Noah Beilharz who will appear before the students on Thursday, February 20.

The Sophomore class will hold their party Saturday night at the high school. The music will be furnished by the Broadway entertainers. A program will be held in the assembly before the dancing and it is probable that games of some sort will be planned for those who do not dance. Decorations will be in red and white, since it is near the Valentine season. Miss Gertrude Thuss is chairman of the sponsors.

Tickets for the Junior class play will go on sale next Monday. Posters will be put up over the week end. A stunt advertising the play will be given by the actors in assembly, Monday, February 24, before the student body. The play, which is called "The Charm School," is being presented under the direction of Miss Ruth McKennan. It will be given February 28, at 8:10, at the Lawrence Memorial chapel.

Hockey News

By J. REEVE

Appleton High pucksters again bowed to East Green Bay players when they lost to them Saturday, February 8, by a score of 3-1.

The local team has played six games and lost three, two of them to East Green Bay and one to Oshkosh. Saturday, if the weather permits the "Red Devils" will play here in a return game. The season will come to a close with the playing of Neenah and Manawa some time in the near future.

A. H. S. Basketball News

Appleton High school won its first conference basketball game last Friday when the Orange five upset Fond du Lac by a score of 13-9.

This was very unexpected because Fondy had been heretofore undefeated. If the "Redmen" have any alibi it will probably be that they had lost Mullen, their star center.

Neither team registered until the late second quarter when Tolsmen broke through Appleton defense men and scored a field goal. This started things moving, and the half ended in a 4-4 tie.

All through the second half, the Appleton "crowd," which consisted of 14 rooters, kept up the Appleton spirit with constant cheering. The score was kept at 9-9 until three minutes before

the final whistle, when Berg looped a nice shot from the center of the floor. The game was cinched when Lonsdorf scored again for the Orange. The game ended 13-9.

The night after their win over Fond du Lac, the Terrors lost to Neenah by a score of 22-17. At the half Neenah led 10-9 but the Orange took a 13-12 lead after the third quarter. The extra point advantage was smashed early in the fourth quarter and Neenah held the lead until the end. In the preliminary Appleton seconds again defeated Neenah, 13-5.

Roosevelt Junior High

The regular meeting of the Parent Teachers association was held Monday. The debate, by alumni of Roosevelt, on the question of substituting intramural athletics for the present system at the Appleton High school was won by Carl Ek and Norman Clapp, speaking for the retention of the present system. Charles Widstean and Lawrence Oosterhaus presented the arguments for the change.

F. N. Belanger, scout executive, presented the charter to the recently organized Roosevelt Boy Scout troop. E. E. Sager, president of the association and chairman of the Boy Scout committee, made the speech of acceptance. A splendid musical program was rendered by Eleanor Voecks, Ramona Huesemann and Phoebe Nichol.

The final number of the Lyceum program will be given February 24 at 8 o'clock in the evening, when Mr. and Mrs. Arthur Wells will put on their clever musical sketches. Arthur Wells is described as "300 pounds of fine fun and music" and with his wife, Alta R. Wells, constitutes the Apollo Duo which for many years has enjoyed a nation-wide reputation for the splendid entertainment and music they furnish. They have travelled back and forth across the country, as well as to Panama, Canada, Australia and New Zealand. Nobody who has ever heard them before, will want to miss attending their appearance at the Roosevelt auditorium on Monday, February 24.

Vocational School

Our Vocational School, during the past five years, has become a center for certain types of training activities in the state. It is the headquarters for men who are engaged in educational work in the Fox River Valley and in the entire state.

The men who carry on work concerning the entire state are Mr. H. G. Noyes, Coordinator for Adult Education in Trade and Industry in Wisconsin, and Mr. M. W. Smith, Foreman Trainer.

Mr. Noyes is in charge of the promotion, organization, and supervision of education of employed people in industry in twenty-one cities in Wisconsin. Mr. Smith, is an itinerant teacher who carries on foremanship training in sixteen cities in Wisconsin.

The school is headquarters for two men who are itinerant teachers in the Fox River Valley. Mr. M. M. Hanson, in charge of Plumbing, and Mr. A. W. Bouffard, in charge of Pulp and Paper Industries. Mr. Hanson carries on his work in Appleton, Green Bay, Fond du Lac, and Oshkosh and Mr. Bouffard carries on his work in Appleton, Menasha and Green Bay.

The itinerant teacher idea was developed here five years ago. Through the cooperation of contiguous cities, expert teachers are employed who spend part of their time in each of these cities, reaching both the apprentices and journeymen workers in their particular fields. This idea in some centers in this state has been applied to electrical work, painting and decorating, and barbering as well as that which we carry on here.

There is a value to the community at large in having these men live in the city. They maintain their offices in the Vocational School building and a secretary is employed, through their offices, to handle office business. This

"Y" ACTIVITIES

P. M. Keeny, national personnel director from the New York office, has promised two days in Wisconsin. He will spend one day with the State Personnel committee in Milwaukee and will give one day to the associations of the northern part of the state. A personnel institute, with Keeny as leader, will be held in Green Bay all day Wednesday, February 19. E. F. Dennison and Ted Jensen will accompany Keeny and together they will cover thoroughly the problems of personnel.

They tell us Keeny is appropriately named, for he is a keen student of the association profession and his analytical mind especially fits him to be Urics successor in the national personnel job.

Many matters on personnel will be cleared up in this conference.

The meetings will begin at 10:30 Wednesday morning and end with a dinner for the secretaries and laymen at six o'clock Wednesday night.

Several Appleton employed officers and directors will attend.

Miss Sophie Schaefer, manager of the Y. M. C. A. cafeteria, is on a month's vacation. During her absence, Mr. Wm. Farnum, business secretary, will act as cafeteria manager.

The Y. M. C. A. is making elaborate preparations for an open house Valentine party to be held Tuesday, February 18. Tom Temple and his orchestra will furnish music for a free concert from 8:30 to 9:00 and for the dancing from 9:00 to 12:00. The Y. M. C. A. billiard room and bowling alleys will be open for the entertainment of guests. The cafeteria will serve a plate lunch. Special swimming exhibition will be held in the swimming pool. Members and friends are cordially invited.

Jack-knife wood carving—a carving class for boys, is to be started Wednesday, February 12, by the boys' department of the Y. M. C. A. The only requirements are a sharp jack-knife and lots of patience. The wood to be used, which is a donation of the Fraser Lumber company and the Standard Manufacturing company, will be furnished by the Y. M. C. A. Our first attempt will be a small ship model of the Santa Maria. This class will be conducted by Ed Gerharz of the "Y" staff.

The men's archery club, which meets at the Y. M. C. A. every Friday at 8 P. M., had another enjoyable evening last Friday and hopes to duplicate it tonight.

Archery target shooting is done in several different rounds, namely Columbia, National, American and York. The local group is shooting the single American round, modified to some extent because the indoor range is limited. The American round is 30 arrows each at 40, 50 and 60 yards distance. Since only one distance and one target, of a size that would compare to the 40 yard target, are available, the American round as shot indoors by the local fans is largely hypothetical. The best

score for the single American round is 602, made by Dr. Paul W. Crouch in 1925.

**100,000 ADULT TROUT FOR
1930 PLANTING IN STATE**

Appleton trout fishermen are glad to learn that at two of Wisconsin's hatcheries extra work is being carried on this winter to provide them with better sport. At the Westfield hatchery there are approximately 50,000 trout being held in rearing ponds, and at St. Croix more than that number will be fed throughout this year to be released late in the fall.

At that time they will be of an almost catchable size—between six and seven inches long—big enough to spawn the same year they are planted and big enough to catch the following season.

Wisconsin is the first middle western state to start planting adult trout on a large program. Last year 46,000 were placed in streams of the state in addition to the millions of fingerlings. Experts are agreed that planting adult fish will restore the streams to their original capacities much quicker and the streams of Wisconsin are well adapted to excellent trout fishing, most of them being consistent throughout the year.

In some eastern states this is not the case and fish have to be planted to be caught the same year.
