OPEN FORMULA FEED

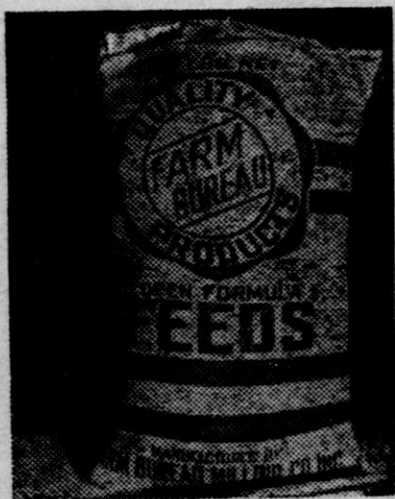

If It's on the Tag—It's in the Bag

Wisconsin Dairymen's Association members are Dairy Feed Experts. They want to know exactly what they are getting for their feed dollar. They are shrewd businessmen. They know what their feed costs are per 100 pounds of milk produced.

That is why member after member this past year has switched to Farm Bureau 48% Dairy Cattle Supplement. Mixed with home-grown grains or hand-fed with home-grown grains, it has saved Wisconsin Dairymen thousands of dollars this past year.

There is a Farm Bureau Open Formula Feed for every need.

If you are not feeding it—you haven't tried it.

Dependable De Laval Products Provide
Better Farm Incomes—Better Farm Living

Flexibility IN MECHANIZED MILKING

"BARN TYPE"

Installed in the dairy barn, along the stanchions, for any number of cows. Units are moved from cow to cow; milk is conveyed to milk house through sanitary pipeline. No milk to carry, strain, pour or weigh. Mechanized cleaning.

"MILKING ROOM TYPE"

Installed in a separate milking room into which cows are brought for milking only. Cows come to operator to save time and steps. Elevated stalls eliminate stooping and squatting. Milks, weighs, conveys and automatically discharges milk. Mechanized cleaning.

Handle your milk
in any of 3 ways!

Automatically discharges milk into standard 40-qt. cans.

... or into the refrigerated farm tank for bulk pickup.

... or elevates for discharge over surface cooler or aerator.

Completely mechanized milking . . . as provided by the De Laval Combine Milker . . . is adaptable to any type of dairy and offers wide flexibility in planning and operation.

The "Barn Type" Combine meets every requirement of the dairyman who prefers to milk his cows in the stanchions . . . and does not want to build or use a separate milking room.

The "Milking Room Type" Combine is the choice of the dairy farmer who feels that a separate milking room best meets his needs.

Both types fully mechanize the milking operation—milk . . . convey the milk . . . filter it . . . weigh individual cow production, if desired . . . and automatically discharge the milk into cans, farm tank or over the aerator. And . . . both types provide mechanized "In-Place" cleaning by means of the De Laval Vacuum Cleaning Method. De Laval Combine Milkers offer the dairyman a mechanized milking system virtually custom-made to his needs.

Secretary's Report

Your Wisconsin Dairymen's Association has had a busy year. The past year being a legislative one the Dairymen's Association was responsible, with the help of the Wisconsin Council of Agriculture Cooperative and the Dairy Husbandry Department of the College of Agriculture, in introducing a Milk and Cream Testers Licensing bill. We were successful in having this bill passed by the legislature and signed into law by the Governor.

An exhaustive survey of other states by your executive secretary formed the ground work for the introduction and passage of this bill which requires all D.H.I.A. fieldmen and plant testers to pass a written examination and be checked on his testing procedure in the laboratory. As proof that this law was much needed a report from the Wisconsin Department of Agriculture shows that the grades on the written examination of those who have applied for the license ranged from 16 up to 98. This law should be of great benefit to all dairymen in Wisconsin. It should eliminate the controversy over tests between plants and D.H.I.A. members butterfat tests.

Your secretary also served you on a committee that called on the Governor asking him to restore the state indemnities for Brucellasis in B plan herds which he later reinstated in his budget. Thus through the legislative program of the Wisconsin Dairymen's Association many dollars have been saved for all dairymen in the state.

The Wisconsin Junior Dairymen's Association

The Dairymen's Association has continued to build future leadership through sponsoring the program of the Wisconsin Junior Dairymen's Association. To date there are 2,123 Junior Dairymen members keeping and using herd records on their home herds with over 35,000 cows enrolled. This is providing future membership in the D.H.I.A. program in the state. Five district meetings and a state convention were held with the Junior organization.

State Fair Exhibit

At the 1953 Wisconsin State Fair the Wisconsin Dairymen's Association sponsored an exhibit of daughters of an outstanding Guernsey Sire. The daughters of this sire from the herd of Registered Guernseys from the Luxerin Farms of Clarence and Barney Sheridan at Fond du Lac made an impressive exhibit of what a sire can do to improve type and production of his daughters. Sterlingold Matchless will be a sire to watch as he is demonstrating his ability already.

Part-Time Fieldmen

The board of directors engaged the services of five outstanding instructors in Agriculture to help promote the program of work. They are: District I, Merrill Pinch, East Troy; District II, R. L. Hoeft, Omro; District III, Ralph Cooper, Westby; District IV, Ben Hylkema, Wausau; and District V, Raymond Wall, Glenwood City.

Dairy Expositions

The Junior and Senior Dairymen's Associations are planning five district dairy expositions in June of 1954. The program will include judging of cows with production records, classification demonstrations, judging contests, educational exhibits and other features.

SECRETARY'S REPORT (Continued)

Life-Time Cows

The Wisconsin Dairymen's Association again awarded plaques to the owners of the highest record living life-time cows of each breed in Wisconsin for 1952. They were as follows:

Ayrshire, Hacker Bros., Brillion; Brown Swiss, Jake Voegeli, Monticello; Guernsey, Wm. Basse and Son, Waukesha; Holstein, Harold T. Burdick and Son, Hillsdale; Jersey, University of Wisconsin; and Milking Shorthorn, Borg Farms, Delavan.

B. R. Dugdale

Secretary and Treasurer

President's Message

Dairymen, faced with reduction of dairy supports by the overnment from 90 to 75% of parity, along with continued high operating costs, have ample reason to make sareful analysis of their costs of production. During the adjustment period ahead it will take efficient management to maintain a reasonable margin of profit in our dairy operations. The inefficient operator faces rought going in times of declining prices. It is up to each of us to carefully study ways and means of reducing our operating costs.

Testing for production and using the records for more efficient feeding, culling, and selection of calves to raise for replacements can help many dairymen reduce cost of production in addition to the satisfaction of owning better cattle. Many dairymen can improve their pasture management and further reduce costs with improved roughage for farm feeding. We must be constantly alert to guard against disease and hold any outbreak to a minimum.

Many dairy leaders rightly feel that with an aggressive and efficient advertising campaign much of our lost butter market can be recovered while increasing the demand for other dairy products. Let us all do our utmost to aid in advertising dairy products and strive for improved consumer-producer understanding.

During the past year much thought and inquiry as to how the Wisconsin Dairymen's Association can better serve all Wisconsin dairymen has taken place. Your cooperation, membership and active participation is necessary for a successful association. Let us all pull together in this organization for the good of the entire dairy industry of our state.

Sincerely,
WILLIAM M. CURTIS
President,
Wisconsin Dairymen's Ass'n.

*Junior
President's
Message*

TO THE DAIRYMEN'S ASS'N.

I know that each and everyone of the members of the Wis. Jr. Dairymen's Ass'n will join with me in giving our sincere thanks to the State Ass'n for sponsoring and promoting our organization.

We feel that in the seven years our organization has been operating, under the guidance of the Sr. Board of Directors, we have done much in helping the Wisconsin youth to become more open minded to the fact that dairying is a skilled occupation. We know that we must have good, complete records just as any business in the city. Hence the Certificates and Seals for Continuous Testing to honor those who keep complete records.

To promote a well rounded dairying program, the Jr. Dairyman of the Year Trophies were inaugurated a number of years ago. Three years ago an Extemporaneous Speaking Contest was added to give training and practice in standing before an audience and presenting their views. For the entire local group to work on is the Efficient Milk Production Award. We all know that it is becoming more important to produce our milk efficiently, therefore we feel that this award renders a great help.

To our Exec. Sec. Mr. Dugdale and to Mrs. Dugdale goes the Jr. Association's sincerest thanks for all the time, thought, effort, preparation, and, yes, worry which they have encountered serving us. It is indeed a difficult task to develop a growing youth organization from a plan on a piece of paper but I know that they are deeply honored to be able to help share our destiny.

You may call our organization an introduction to your Sr. Ass'n. As each of our Jr. members graduate, a great many join the County Testing Ass'n. Of course, many enter other vocations. Still much of their training is adaptable to their new professions.

Again I want to, on behalf of the entire Jr. Ass'n thank you, the Sr. Ass'n, for your support and co-operation. Without them we would have a difficult task ahead of us.

Sincerely,
JAMES CALL, Jr.
President,
Wisconsin Junior Dairymen's
Association

CASE

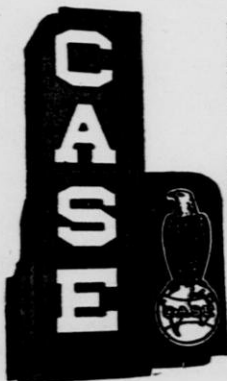

ONLY SPREADERS WITH SELF-RAISING HITCH

No Lifting—No Jack to Crank

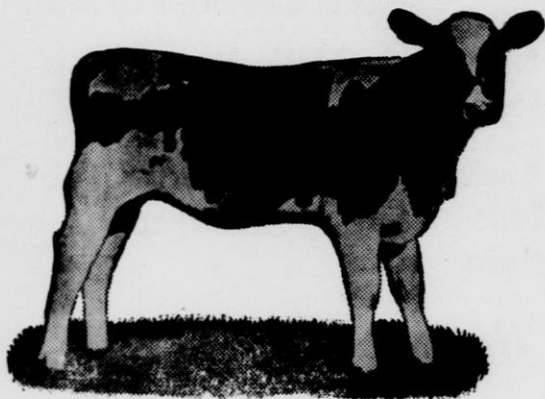

Whether box is fully loaded or empty, hitching or unhitching takes only a few seconds. A long clevis moves on an inclined track to proper drawbar height. Then, all you do is back tractor into position, drop a coupling pin through clevis and drawbar, and start for the field. While tractor is moving forward first 18 inches, hitch is raising fully-loaded box and locking itself. This weight gives tractor wheels added traction in soft, slippery, or frozen ground . . . momentum to start dead weight of spreader. Hand lever lowers front of box to ground for easy loading.

Stands Up Under Power Loading

Frame is rigidly built with heavy-steel side rails held together by seven sturdy cross braces. Strong "X" braces at front end of bottom keep shafts turning easily. Five-bearing main axle with centered roller bearing prevents springing and wheels from flaring under heavy load. Box is heavy sheet steel with double coated wood bottom. Send for free booklet on "Handling Manure for Extra Benefits" and pictorial catalog about Case Spreaders. J. I. CASE CO., Racine, Wisconsin.

Grow Your Heifers To Be Heavy Milkers

The Low-Cost Purina Way

Purina Research Farm records show calves raised on **Purina Nursing Chow** and **Calf Startena** are bigger at 4 months than calves fed milk. And the cost of Nursing Chow and Calf Startena together usually runs **less than half the cost** of the milk they replace!

Naturally, you're interested in doing an economical job of calf raising—in raising a better calf than you can on milk and grain.

Drop in at the Store with the Checkerboard Sign—and let them show you the facts from other dairy farms in your neighborhood.

Highlights for 1954

STATE SALE:

The Seventh annual State Sale will be held Saturday, June 5, at the Baraboo Fairgrounds. Approximately 60 head will be offered by the breeders of Wisconsin.

CANTON SHOWS:

A one-day Brown Swiss Show will be held in each of the ten organized Cantons in the State.

CANTON MEETING:

A business meeting will be held in each of the ten Cantons this spring.

STATE PICNIC:

July 10 a picnic will be held for all breeders, their family, and friends.

Jamesway

POWER CHORING

Takes Over
Your
TOUGH
Jobs

In minutes, instead of an hour or more, you can clean your barn with the Jamesway Shuttle Stroke Cleaner—do a better job than the best hand cleaning. No chains or sprockets in the gutter. All you do is flick a switch and the manure moves directly from gutter to spreader. Jamesway POWER CHORING also unloads your silo, feeds your cattle and poultry, ventilates your livestock buildings—mechanically! Your local Jamesway dealer is the man to see TODAY.

Dairy Improvements Aid Milk Production

A concrete milk house, cooling tank, or dairy barn will help you step up milk production. Concrete's sanitary features meet health board requirements; keep your cows healthier; make your work easier.

The Portland Cement Association has prepared suggested designs for these and other farm structures which will give many years of economical service. It's easy to build. Materials usually available locally.

Write for the Helpful Free Booklet . . .

LUXERIN FARM

Registered Guernseys

Production Tested

CLARENCE E. SHERIDAN

Fond du Lac, Wis.

Farmer
Owned

Farmer
Controlled

Over 20,000 Farmer-Members
in Western and Southwestern
Wisconsin, Southeastern Min-
nesota and Northeastern Iowa

These Members provide themselves with
the following 16 bulls to choose from every
day:

4 Holsteins 4 Guernseys
2 Brown Swiss 2 Jerseys
2 Milking Shorthorns
1 Hereford 1 Angus

The Stud Consists of Over
74 Sires

In addition to using Proved Sires every day
in all dairy breeds, Members can breed ex-
clusively to the line of breeding they prefer.

Special Mating Services are avail-
able to Non-Members. For further in-
formation contact the Tri-State Tech-
nician in your community or write to:

"Visitors Welcome Always"

Guernsey Bull Testing Asociations

Door County No. 1— Organized 1945

Members:

1. Lawrence Johnson, Algoma
2. Ottmar Schmidt, Sturgeon Bay
3. Clarence Larson, Algoma

Monroe County-Wilson— Organized 1936

Members:

1. Dwyer Bros., Kendall
2. John Ford, Wilton
3. Alfred Johnson, Sparta
4. George Steinhoff, Wilton
5. Mrs. Henry Steinhoff & Sons, Wilton

Ozaukee County-Mequon— Organized 1941

Members:

1. Henry W. Reimer, Thinesville
2. Theo. Wilde, Thinesville
3. Edgar Wille, Thinesville
4. Erwin J. Reimer, Cedarburg

Ozaukee County-Pleasant Organized 1938

Members:

1. Herbert Clausing, Grafton
2. Mrs. Julius Clausing, Grafton
3. Armin Clausing, Grafton
4. Bernard Behrens, Grafton

St. Croix County No. 1— Organized 1939

Members:

1. Emmett Jensen, River Falls
2. Newton Pearson, River Falls
3. Bernard Casaw, Hudson
4. Ralph Katner, Hudson

St. Croix County No. 2— Organized 1943

Members:

1. Alfred Kusilek, River Falls
2. Mauris Simon, Hudson
3. Ed Day, River Falls

Trempealeau County-Galesville No. 2— Organized 1939

Members:

1. M. E. Oynes, Galesville
2. Leonard Oynes, Galesville
3. Blaine G. Paulson, Rt. 3, Melrose
4. Bert C. Congdon, Galesville

Holstein Bull Testing Association

Polk County No. 1—

Members:

1. Howard F. Benson, Clear Lake
2. J. B. Hermstad, Frederic
3. Rolf Setter, Deer Park
4. Victor H. Setter, Deer Park

St. Croix County No. 1— Organized 1941

Members:

1. Clark Hunter, Hudson
2. Dusek Bros., River Falls
3. Bennett Bros., River Falls

Trempealeau County No. 1— Organized 1938

Members:

1. Ralph Schansberg, Whitehall
2. C. A. Scharlau, Arcadia
3. Geo. Lund, Arcadia
4. R. A. Lamberson, Whitehall
5. Julius Nilsestuen, Arcadia.

WISCONSIN HOLSTEINS

Over 2,300 Breeders Are Members

Membership entitles them to subscriptions to the national breed publication, The Holstein-Friesian World, and to the state paper, the Wisconsin Holstein News. As a member of the state, as well as the national association, they receive a special 50c reduction in transfer fees.

The state Holstein association sponsors the County Contest, a breed improvement recognition program, youth activities and awards, and handles cattle inquiries for grade or purebred cattle. Many other projects and activities are part of the association's program.

We invite you to join the state Holstein association, if you are not a member.

Select Your Next Herd Sire
from the
SCHROEDER DAIRY FARM

Our high record Purebred Holstein Friesian herd has been developed for the past four generations. Our last year's herd average on fifty-six head in 12,333 pounds milk, 454.8 pounds fat. Our high cow having 731 pounds fat. All on 2X milking.

COLDSRING BELLE KING VAR is our Senior herd sire. He placed 3rd at Waterloo in 1952. His dam has 618 pounds fat on two times milking.

CHRISTY HIGHBOY BILL our junior herd sire is the son of Christoph's highest record Highboy daughter and sired by Christy Fortune Hunter.

We also have Burke Breeding in our herd. We have five daughters by Christy Homestead Foreteller. He was first prize junior yearling at the International Dairy Show Chicago 1953.

NEW ALL-OVER MODEL "51"

ELECTRIC ANIMAL CLIPPER

The ALLOVER Model "51" Animal Clipper is entirely new in design, shape, size, and weight. Without sacrificing any power or cutting speed, the MODEL "51" is considerably smaller and lighter than other animal clippers now on the market and besides that, it costs considerably less than others.

The ALLOVER MODEL "51" is especially adaptable for small animals like dogs and goats. It is the kind of clipper that kennel owners have been waiting for. It is equally as good and efficient for clipping cows & horses.

Crown Weaning Ring

● A new-type Calf Weaner—easy to install—stays put—will not irritate—does not interfere with feeding—may be used indefinitely.

No. 53 Standard Easy Piercing Type 3/8x3" Plain Bull Ring

Made of solid copper, nicely machined and highly polished. Ring packed with screw driver in individual envelopes. Twelve rings to a box. Shipping weight per box of 12 rings, 4 pounds.

No. 72 Standard Easy Piercing Type 5/16x2-3/4" Plain Bull Ring

This ring is in every respect the same as our No. 53 ring except for the size and weight. Packed with screw driver in individual envelopes. 12 rings to a box. Shipping weight per box of one dozen, 2½ pounds.

ALLOVER MFG. CO.

Racine, Wisconsin

KINGS VIEW HOLSTEINS

JAMES CALL, JR.

Osseo, R. R. 2, Wis. Trempealeau County

Our Herd Sire is Christy Homestad Duncan, sired by Carnation Homestad Highboy, whose dam produced 970 lbs. fat and is a son of Carnation Revelation. The dam, Paul Christoph's Martyholm Inka Fobes, with 802 lbs. Fat 2X at 10½ years and 4 other records over 600 lbs. Fat is still producing at 13 years of age.

The herd has been tested for 5 years under Jr. D.H.I.A. and is now on Standard D.H.I.A. Test.

Good grade females usually for sale. First calves from the above sire arriving this fall.

VISITORS WELCOME

Calves Go for NEW Milk Replacer

*Like Cats Go for
Catnip!*

Save up to 1200 pounds of milk per calf by feeding nourishing Wayne Calfnip milk replacer. Calfnip out-performs whole milk by producing more growthy, thrifty calves at lower cost.

Looks like milk, tastes like milk, easily mixed and stays well in solution. Proved by 20 million calves. And calves relish the tantalizing flavor of this outstanding milk replacer.

JERSEYS

**Pay Top
Profits!**

Figure it this way

Jerseys begin milking 2 to 10 months earlier than other breeds. So it costs you less to buy or raise them.

Jerseys require less feed than other breeds. So you can keep more cows on your farm.

Jerseys convert more of their feed into milk solids. So you get greater returns per dollar of feeding cost.

Jersey milk contains more butterfat than milk from other breeds. So you get a higher price for every hundredweight you sell.

It's Simple Arithmetic

**Jerseys cost you less, pay you more.
So you make more money with Jerseys.**

Wisconsin Jersey Breeders Association

**David Kelley, Pres.
Hudson,
Wis.**

**George Price, Sec'y.
Route 3, Box 372
Kenosha, Wis.**

MILKING SHORTHORNS

"The Breed That Fills Every Need"

World's Record Milking Shorthorn Cattle offer you most in economical production and salvage value. It will pay you to investigate Wisconsin herds and to plan for two-way profit with this dual-purpose breed.

Complete breed literature with list of Wisconsin herds will be sent promptly on request to,

American Milking Shorthorn Society

313 So. Glenstone

Springfield, Mo.

**Wood is used where wood is best
Steel is used where steel is best**

in this

**JOHN DEERE
Model "L" SPREADER**

Heavy Mechanical loading . . . high-speed operation over rough fields . . . manure or phosphate acids—these spreader killers don't stand a chance against the rugged John Deere Model "L" Tractor-drawn Spreader. The jar- and jolt-resisting heavy steel frame and armor-plated box-guards and the arch pipe over the beaters absorb the toughest operational punishment. And the specially-treated wood box won't rust—lasts longer.

Wider range, five-speed, ball-bearing feed conveyor drive . . . stronger, longer-wearing steel roller chain drives . . . improved widespread . . . proper weight distribution for best traction on tractor and spreader wheels . . . and bigger-capacity box are other top value features of this two-wheeled tractor-drawn spreader.

Your John Deere dealer welcomes the opportunity to show you this spreader. Make a point of seeing him soon.
