<http://rightsstatements.org/vocab/InC/1.0/>

The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

High praise for these outstanding texts

Chapman and Almeida:

THE INTERPERSONAL BASIS OF PSYCHIATRIC NURSING

"All the major aspects and concepts of psychiatry and psychiatric nursing are offered in this comprehensive textbook that has been prepared for undergraduate and graduate nurses."—*Health Care Product News*. "Extremely well organized. . . . A good introduction to the field . . . recommended for the use of student nurses."—*Military Medicine*. Illustrated. Chapter Summaries and Bibliographies. Glossary. Index.

608 pages 1972 SBN 399-40047-8 Cloth \$12.50

Kernicki:

CARDIOVASCULAR NURSING:

Rationale for Therapy and Nursing Approach

"Almost every aspect of cardiovascular disease known today . . . is presented in this book. . . . A welcome, up-to-date addition to a very specialized area of nursing care."—*Nursing Outlook*. ". . . this book is designed for a wide range of audience from the beginning student to the expert clinician. . . . In its field . . . the most comprehensive offering to date. Recommended for all medical and nursing libraries"—*Choice*. Illustrated. Bibliographies. Appendix. Index.

431 pages 1971 SBN 399-40004-4 Cloth \$9.75

McGibony:

PRINCIPLES OF HOSPITAL ADMINISTRATION

2nd Edition

This authoritative manual brings together in a single volume all the essential information required for planning, organizing, implementing, and evaluating hospital and related health programs. Widely used by hospital administrators and students alike, the book has proven to be "the most valuable, practical, and immediately useful single publication in the hospital field."—Louis Block, Dr. P.H., in the *Foreword*. Tables. Charts. Index.

587 pages 1969 SBN 399-40033-8 Cloth \$12.95

Schor:

FUNDAMENTALS OF BIostatISTICS

"An exceptionally lucid presentation of basic statistical concepts—with numerous convincing medical examples, imaginative interpretations, and instructive problems at the end of each chapter. . . . Recommended to all medical students and physicians who desire a sound and lucid introduction to statistical reasoning with minimal mathematical prerequisites."—*Journal of Plastic and Reconstructive Surgery*. "An excellent text . . ."—*Industrial Hygiene Digest*. Tables. Figures. Index.

312 pages 1968 SBN 399-40012-5 Cloth \$8.95

Swansburg:

INSERVICE EDUCATION

Complete with a series of cumulative tests and illustrative case studies, this pioneering self-instruction textbook was especially designed to meet the needs of inservice directors and instructors as well as supervisors, head nurses, and team leaders in agency settings. "A wealth of information is provided for persons about to become inservice educators or about to assume any position of leadership in nursing."—*Canadian Nurse*. Appendix. Bibliography. Index.

339 pages 1968 SBN 399-40018-4 Paper \$7.00
