PRACTICAL COURSES

IN SCHOOL OF ECONOMICS AND POLITICAL SCIENCE.

Complete Program of New Work—
—Special Course for Preparation
for Government Services.

The final program in junior, senior, graduate, and elective work in the School of Economics and Political Science for next year was decided upon at the last meeting of the University Faculty. The work embraces courses in statistics, practical sociology, public service, and preparation for journalism. Director Ely feels that these courses to be given next year are sure to produce very good results.

Special attention is called to the courses for preparation for government service.

Preparation for Government Service.

It is believed that these newly established courses is the first attempt in this country to furnish systematic training of a high grade for the government service. This movement is one which brings the University of Wisconsin into harmony with the best universities of Europe. The German university, for example, is very largely a training school for the civil service, and the existence of this training school is largely responsible for the high character of the German civil service, and the efficiency of Germany along so many modern lines of work. It is very frequently supposed that the work in German universities is entirely elective, but this is only partially true. While the work is not prescribed by the universities, it is prescribed to a very considerable extent by the examining boards, conducting examinations for entrance to the civil service.

The experience of Germany should show that training courses, rightly devised, are not incompatible with development of culture aims.

American governments, like American railways, are increasingly demanding trained men, and this growing demand will be accelerated by such action as that which has just been taken by the University of Wisconsin. It is for the university to go at least a little distance in advance of public opinion and to educate public opinion.

In this connection, the reader will find interesting an extract from a letter written by a professor in one of the leading Eastern universities, who now occupies a very prominent position in the civil service at Washington. Speaking of the demand for trained men in the government service, this authority says: "I believe that there is a serious and growing demand and that the great lack is the absence of any system of bringing the supply and the demand together. This is partly due as you suggest to the inflexibility of the civil service examinations, and partly also to the ignorance of university work and men on the part of the officers in Washington who possess the power of appointment. There is, I believe, a serious and growing desire to make appointments rest upon fitness rather than upon favoritism or political influence, and a growing belief that such fitness is better measured by recommendations from persons under whom the training has been obtained than in any other way. But officials, having the power of appointment, are seldom both able and

willing to make the first move, and the duty I think rests upon university teachers of studying their market, that is, of finding what lines of work, national, state or municipal, are being carried on for which students under them may properly be trained. Very few university teachers in the lines of work in which I am especially interested are doing this with the same attention and thoroughness with which they strive to place their students in positions as teachers. This, I believe, is largely due to the fact that a university teacher naturally takes greater interest in training teachers than in training men for other walks of life, and usually can do it somewhat better.

Another reason for the lack of connection between government service and college or university work is that the scientific work of the government has grown up so very recently in most branches that the demand is one of recent origin."

The program of the courses is as follows:

Roman numeral indicates semester.

The Course in Statistics.

Junior.

Economic Statistics 3—I. M. W. F. 10.

Social Statistics 3—II. M. W. F. 10.

Abnormal Psychology alternating with Comparative Psych 2—II. T. Th. 9.

Distribution of Wealth 3.

Hist. of Polit. Thought 3 M. W. F. at 11.

Continued on third page.

KILPATRICK ELECTED

WILL FILL POSITION OF GRADUATE MANAGER.

Selection a Popular one—Eminently Qualified for the Place—Vogel Student Manager.

Charles H. Kilpatrick, coach of the track team, was elected to the position of graduate manager at the meeting of the Board of Directors of the Athletic Association last evening. F. A. Vogel, '02, of Milwaukee, was chosen student football manager in place of A. K. Wheeler whose time had expired. This comprised the business of the meeting.

The selection of Mr. Kilpatrick comes as a pleasing surprise to the students. No active canvass had been conducted in his behalf and but few had even imagined him as a candidate. Indeed, the general opinion previous to the meeting was that the office of the graduate manager would be abolished entirely and that athletics would be brought more under the supervision of the faculty, the department manager being in turn allowed greater prerogatives with the former salary of the graduate manager divided among them as compensation for their increased duties. The turn affairs have taken however, is entirely satisfactory to all. The new incumbent comes fully qualified for his duties. Although connected with Wisconsin athletics but for a single year, he has, during that period, placed the track department upon a comparatively self-supporting basis through a series of indoor meets which have proven popular as social functions as well as athletic events. For the first time in years track men are not required to look to student subscriptions or the football management for their support.

His work as coach of the track team is too well known to require mention. From a squad of new men he has developed a team which bids fair to equal any in the west.

Besides these Mr. Kilpatrick has other qualifications for the position. He is popular among the students and may depend upon their support. His reputation as the world's champion at the half mile run gives him a prestige which will be invaluable; while his intimate acquaintance with the prominent men in western athletic circles, and the in's and out's of their managerial diplomacy, furnishes him with a knowledge of the "ropes" which is necessary for a successful manager to have.

To-morrow's Convocation.

Professor J. F. A. Pyre will speak to the students at Convocation to-morrow on the "Wander Instinct in Recent Poetry." Professor Pyre is a most interesting and entertaining speaker, and the subject is one in which all students should be more or less interested. This will be the first time Professor Pyre has spoken at Convocation this year.

The Babcock Medal.

The medal which the state of Wisconsin will present to Dr. Babcock on the twenty-seventh of this month is the largest medal cast in a single die during modern times. The workmanship is of the best possible and the design is very beautiful. The celebrated firm of Spirk and Sons of London were the makers.

BUCKLIN TAKES JUNIOR OPEN.

Seven Orators Now Qualified for Final Contest.

Yesterday's Junior Open, the last of the preliminary contests, resulted in a victory for Bucklin of Hesperia. After him came Parker and Miller as the next two of highest rank among the eight contestants.

Bucklin and Miller were both in the Junior Ex. of last Friday evening and both were strong orators. The others also did well but the contest did not prove to be as close as was previously thought.

Those now qualified for the Final Contest which takes place on March 29, are seven in number.

Mr. Frank W. Bucklin of Hesperia will speak upon "Civic Patriotism." Miss Louise Loeb of Castalia will have as her subject, "The Triumph of Altruism." William F. Schmidt, of Philomathia, who won out in the Sophomore Open will deliver a "Eulogy on Gladstone." The four who qualified in the Senior Open are the following: Edward J. B. Schubring of Hesperia, Arthur F. Beule of Athenae, Martin S. Hines, Charles R. Rounds of Athenae.

Mrs. Woodward's Lecture.

The lecture to be given by Mrs. Woodward for the benefit of the Athletic Association Saturday evening promises to be one of the best entertainments of its kind ever given in Madison. The scenes Mrs. Woodward describes are some of the most exciting ever seen in recent years.

For eight weeks the Diplomatic Corps of eleven nations, the missionaries and other foreigners in Pekin, together with their families were barricaded in the British Legation and besieged by the Boxers and Chinese troops.

The whole number of foreigners, including their armed guards of four hundred and fifty men, was less than one thousand and they had under their protection about two thousand native Christians.

The successful defense of the British Legation at Pekin by its small garrison, opposed by the thousands of Boxers and Chinese troops, will ever remain a brilliant page in the annals of military achievements.

The lecture will be illustrated by about one hundred lantern slide views, made from photographs taken by Mrs. Woodward during the siege. Mrs. Woodward will also show curios and relics of the siege in connection with her lecture.

Hesperia's Semi-Public.

Hesperian sophomores hold their semi-public in Library Hall to-morrow evening at eight o'clock. The program will be as follows:

President's address—L. P. Horsfall.

Oration—L. M. Beers.

Debate—Is the present system of electing United States senators preferable to a system of popular election? Conceded that the latter system is constitutional.

Affirmative—H. D. Laube, R. E. Pinkerton, and C. Lloyd-Jones (closer).

Negative—L. A. Libby, W. H. Haight, and W. J. Hagenah (closer).

Music will be provided while waiting for the decision of the judges.

There has been some trouble in getting a jury that can serve, so that as yet only Mr. William S. Robertson has been selected.

—Professor Henry and Mr. Moore conducted a large number of visitors about their departments and over the farm this morning.

A TELEPHONE IN YOUR HOME

WISCONSIN TELEPHONE COMPANY.

|| Is no longer a luxury, but a necessity which you cannot afford to be without.

The New Manager.

The election of "Charley" Kilpatrick as Athletic manager will give general satisfaction. As coach of the track team he has become popular with all who have had to deal with him. He is principally responsible for the inception and carrying out of the scheme of indoor meets this winter, the popularity and success of which has been a matter of general comment. The business ability of the man who has made the track department self-supporting for the first time cannot be questioned. The athletic prestige attaching to his name as well as his large acquaintance with the people who have control of college athletics all over the country, will go far towards making his administration a success.

Law Library.

A stranger coming into the law library towards the end of the day would be surprised to notice the great piles of books scattered in picturesque confusion over the tables. The librarian in charge does what he can to infuse a semblance of order into the chaos but he has a hard time, for not only are more books being brought out continually and left in the heap on the tables, but those already there are, as he finds, subject to all kinds of liens and reversions and remainders.

It is a great inconvenience to one who has to use the library to be compelled to hunt all over five or six tables for his book, and his doing so interrupts those studying at the tables. It is not the fault of the librarian but of the system. In the University and Historical libraries the rule is that where the books are arranged in series, as magazines, they are to be replaced in the shelves by those who take them out. Thus if a book is not actually in use it may always be found without trouble and without disturbing anyone. This would seem to be the better and more convenient rule, if the library management cares to give the students credit for ordinary intelligence.

The Weather.

Threatening tonight and Friday. Warmer Saturday.

Local and Personal.

—Miss Maude Taller, '04, has been unable to attend classes this week because of illness.

—Caucuses will be held to-night in the various City wards for the nomination of candidates for alderman.

—Men were set at work this morning removing a great number of decaying trees and thinning out those remaining in the dense patch just north of Main Hall. This part of the campus will be much beautified as a result.

—There will be a lecture by Burton Holmes on "Oberamergau and the Passion Play" in the Congregational Church, Tuesday, April 2nd. The lecture is to be illustrated by beautifully colored still pictures and also motion pictures which were taken by Mr. Holmes last summer at Ober-

Henry Schuster the California pole vaulter died recently at Berkley. While vaulting the pole he was using broke and in falling he struck his neck on the take-off, fracturing the spine. He was an all-around athlete.

University of Wisconsin.

Official Notices.

Chemical Club.

The club will meet at 4 p. m. on Friday. Professor Hillyer will report on Johannes Thiete's theory of unsaturated compounds. The subject is one which will naturally lead to discussion and it is hoped that there will be a full and prompt attendance.

Senior Theses.

Seniors in the College of Letters and Science, the College of Mechanics and Engineering, and in the four years' courses in the College of Agriculture and the School of Pharmacy, will please note the following regulations regarding graduating theses:

Theses are to be type-written with black, non-copying, record ink on Crane's Japanese Linen paper of quality 24 lbs. to the ream, folio size. This paper of right quality and correct size, viz., eight by ten inches, may be obtained at any bookstore in the city and of the University Co-operative Co. A margin of one and one-quarter inches should be left at the left edge of each sheet and a margin of three-quarters of an inch on the other edges. The title-page should follow, mutatis mutandis, the sample title-pages on the bulletin board in the library. The name of the author on the title-page should be written in full, as it appears in the University catalogue. No punctuation marks should be used on the title-page.

When a thesis is type-written and ready for binding, the student is to secure the written approval of the professor under whose direction the thesis has been prepared. This approval is to be written on a blank sheet accompanying the thesis and must be obtained before the thesis is delivered at the library.

All theses in all colleges above mentioned are due June 1, 1901, and should be delivered to the University librarian on or before that date. The cost of binding each thesis will be 75 cents which sum should accompany each thesis delivered at the library.

W. D. Hiestand,

'VARSITY TRAINING TABLE.

May be Established in University Boathouse.

Last fall the question of University training table was brought up, but no definite action was taken and the matter was not agitated until recently. The plan as proposed is as follows:

The University boat house is owned by a company of stockholders who have certain privileges and any revenues that may come in. However the enterprise has never been a profitable one, and the stockholders have never received any dividends. It is now proposed that the stockholders turn over their shares to the Athletic Association for the Association to use as it sees fit. The stockholders will not be deprived of any of the benefits of being members of the company, and will be permitted as before to keep their boats in the boathouse free of charge. Thus it will be seen that the stockholders will lose nothing by giving over their shares to the Athletic Association.

When all the shares have been turned in the Athletic Association proposes to remodel the second story of the boat house and use it as training quarters for the various athletic teams. The advantages of such a plan are evident. By running its own training table the Association will get the best possible service and will be able to give the men exactly what the head trainer desires. Any profits accruing will belong to the Association.

The nearness to the University will be another advantage, saving the long walk to the Park Hotel and troublesome waits for street cars.

There will be a meeting of the stockholders Saturday to decide definitely in regard to the project. If the stockholders are willing to donate their shares the Athletic Association will petition the Board of Regents for money to fit up the second floor of the boat house and make it suitable for training quarters. It is not probable that the quarters will be arranged and the table established this spring but the work may be done in time for the football season next fall.

Although nothing definite has as yet been done several members of the Board of Regents have been informally approached on the subject. Those interviewed were in favor of the plan but objected on the ground of danger from fire, so the plan may be frustrated on this account even if the stockholders give over their shares, though it is hoped that the danger from fire may in some way be avoided and the project allowed to go through.

EVERYTHING FOR SMOKERS.

The finest line of Meerschaumes and French briars in the city. French briars, amber mouthpieces from 75 cents upwards. Carl Boelsing, The State Street Tobacconist.

PROF. T. H. BRAND.

RUSH MEDICAL COLLEGE.

In Affiliation with the Univ. of Chicago.
Organized 1837.

The academic year of Rush Medical College is divided into four quarters, corresponding with those recognized with the University of Chicago, beginning respectively the first of July, first of October, first of January and first of April, each continuing for twelve weeks. A recess of one week occurs between the end of each quarter and the beginning of the next following.

The general course of instruction requires four years of study in residence with a minimum attendance upon three quarters of each year. A student may begin his college work on the first day of any quarter, and may continue in residence for as many successive quarters as he desires. Credit will not be allowed, however, for more than three consecutive quarters. At least 45 months must elapse between the date of a first matriculation and the date of graduation. For further information, address

RUSH MEDICAL COLLEGE,
Chicago, Illinois.

The Improved **BOSTON GARTER**

The Standard for Gentlemen
ALWAYS EASY
The Name "BOSTON GARTER" is stamped on every loop.
