The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

"The average dose of acetylsalicylic acid is stated at 0.3 Gm.; but three times that dose may safely be given to any excepting an allergic adult . . . Of all the analgesics, acetylsalicylic acid is probably the safest and most efficient, provided there is no idiosyncrasy."

Journ. A. M. A. Queries and
Minor Notes, Feb. 5, 1938.
