LOSE IN 10 INNINGS

ALL-STARS DEFEAT VARSITY IN HOT CONTEST.

Coach Well Satisfied and Believes Prospects for Strong Team are Better Than Last Year.

All-stars, 4; Varsity, 3. This was the result of the first game on the diamond for 1901. For ten fast innings Wisconsin's aggregation of promising colts pranced about on the sawdust field, putting up an article of ball which required an extra inning for the professionals to beat. Of course their work was crude but then that was to be expected for their second day out of doors. Captain Bandeline had got together a bunch of leaguers and ex-college men who with a fresh relay of pitchers every three innings, did their best to wallop the Badgers to a finish. But they forgot to reckon with their host and it was only by a timely bunching of hits in the tenth innings that they were able to break the tie and bring in the deciding run.

There was nothing spectacular at any stage of the game. Few of the men on either team had yet got their batting optics into working order and the result was a pitchers' battle. At this the veterans were the best and aided by long hits they managed to circle the bases four times.

Mathews started the game in the box for the Varsity and for two innings held the stars down to a single hit. The third inning was the slugging round for both teams, each pitcher being touched up for several safe ones which caused two tallies to be placed on either side of the score board. Check took Bandeline's place in the box for the stars in the fourth, and the next two innings the Varsity went out in one, two, three order.

"Pete" Reedal threw for the regulars in the fifth and dished up an assortment of slow curves that made the professionals look like car fare.

No more scores were recorded until the seventh when Haskin scored. The stars, however, retaliated in the next inning and tied the score. Neither side made anything in the ninth and the Varsity side of the board was a blank in the first of the tenth. The stars bunched hits in their half and managed to get Check around the circuit.

The coach expresses himself as quite well satisfied with the work of the men. The work of the players was, of course, crude, he said, but this was accounted for by the fact that they had been out but twice this year. Although non-committal as usual, the coach admitted that "he thought the prospects were perhaps a little better than last year." This, coming from a man as taciturn as he, means considerable. The same teams play again to-day and tomorrow while on Saturday the Varsity will go against the tossers from Lawrence University.

The Varsity line-up yesterday was as follows: Schreiber, 3rd base; Haskin, 2nd; Brobst, s. s.; Leighton, l. f.; Ware, 1st; Erickson, Smith, r. f.; Love, c. f.; Pierce, c.; Mathews, Reedal, Erickson, p.

Score by innings:

	1	2	3	4	5	6	7	8	9	10
All-Stars	0	0	2	0	0	0	0	1	0	1-4
Varsity	0	0	2	0	0	1	0	0	0	0-3

—E. L. Williamson, C. E. '00, is attending the Phi Psi convention.

PRIMARY ELECTION DEBATE.

Final Clash of Arguments in Senate Chamber Tonight.

The final clash in the primary election bill debate will take place in the Senate chamber tonight. The battle of words began last night and will be resumed this evening at 7:30.

According to the agreement entered into by the leaders of the two sides, a final vote on the measure will be taken at about ten o'clock. Senator John M. Whitehead will close the debate for the opposition and he will be followed by Senator McGillivray who will close the speaking for those in favor of the measure.

Indications at present seem to point to the defeat of the bill by a margin of two or three votes.

A GREAT HISTORIAN

DR. HART AN AUTHORITY ON AMERICAN SUBJECTS.

Will Lecture on Monroe Doctrine as Applied by Monroe, Polk, Blaine and Olney.

Professor Albert Bushnell Hart of Harvard University will give the first of his series of lectures on the Monroe Doctrine next Tuesday afternoon. Dr. Hart's lectures are especially designed to supplement the general history courses but they will be open to the public. Commencing Tuesday the lectures will occur every day during the week at 5 o'clock, in the large lecture room of Main Hall.

Dr. Hart is a very forceful and interesting speaker and is well known as a public lecturer. He has written a great deal on public questions, political science and American diplomacy as well as his numerous works on American History. He was born in 1854, a descendant of Stephen Hart, one of the founders of Connecticut. He was graduated from Harvard in 1880, one of the classmates and friends of Vice President Theodore Roosevelt. After studying three years in Europe he was appointed instructor in American History at Harvard. From 1887 to 1897 he was assistant professor of history and since 1897 he has been at the head of the American History department.

Dr. Hart is one of the editors of the Historical Review and is editor of the Harvard Graduates' Magazine. This is the only institution of learning in the west at which Dr. Hart will lecture while absent from Harvard. He has accepted the invitation to give an address at the commencement exercises at Ann Arbor next June. Dr. Hart is a member of the American Historical Association and has published the following works besides numerous articles contributed to periodicals: "Coercive Powers of the U. S. Government," 1885; "Introduction to the Study of Federal Government," 1890; "Formation of the Union," 1892; "Practical Essays on American Government," 1894; "Studies in American Education," 1895; "Guide to the Study of American History," 1897; "American History told by Contemporaries," 1897-98; "A Source Book of American History," 1898; and "Salmon Portland Chase," 1899.

—Mr. Warren Persons U. W. '99 who is teaching mathematics in the Sheboygan high school, is spending his vacation with his mother at 1119 West Johnson street.

CIRCUS IS COMING

GREATEST SHOW ON EARTH NEARING MADISON.

Performers and Animals in Training —Dr. Elsom Secures Circus Paraphernalia—Special Features.

Arrangements are progressing favorably for the great indoor circus to be given in the gym and the event promises to be one of the biggest things ever produced at the University. The performers are working hard at their various acts and will practice evenings from now on until the time of the exhibition.

Dr. Elsom and others are bending every effort to make the affair a credit to themselves and the University and the success of the undertaking seems assured.

The "big show" will be on the main floor with a menagerie in the gun-room and side shows in the base ball cage.

The main entertainment will be much like an ordinary circus—replete with trapeze performers, tumblers and clowns and slack wire artists.

The spectators will be seated on circus seats about the hall and vendors of peanuts and red lemonade will circulate among them.

One of the attractions will be a trick bicycle rider, who will perform a series of stunts equal to any ever seen. The rider has had a great deal of experience before the public and his entertainment will be bona fide and up to date in every way.

There will also be two slack wire walkers who will give a series of exhibitions. The University Band will be present throughout the performance and will render selections from time to time. A part of the band are getting up a novel feature. They will form a hayseed aggregation, and their performance promises to be most laughable.

There will also be the customary number of exhibits on the regular gymnastic apparatus and the best all around athlete will receive a gold medal. A silver and bronze medal will be awarded the two next best. The rivalry for these medals is intense and will make the contest close and interesting. The medals will be awarded by three judges, Professor Fischer, Mr. Frankenfield and a third to be chosen later. Both Mr. Fischer and Mr. Frankenfield are gymnasts of ability and their decision will doubtless meet with favor.

In the gun room will be the menagerie. Lon Chamberlain has charge of this department. It is planned to give coupon ballots with the admission tickets and the spectators will decide which is the best trained animal as they are exhibited in the ring.

The side shows in the ball cage will be in charge of Victor Minnahan.

There will be of course the customary fat lady and slim man, troupe of Zulus from the Indian ocean, snake charmer Circassian beauty, and all the other features of a regular side show.

Dr. Elsom returned last night from Evansville, where he saw a retired circus man and secured a lot of circus paraphernalia which will be used at the performance. Among other things he procured a number of real side show canvasses which will be used in the ball cage and will doubtless add much to the realistic appear-

ance of the scene.

The concert after the main performance is in charge of Edward Jenner who has arranged a number of minstrel acts, which are thoroughly up to date and first class in every respect. There will be a number of coon stunts, song and dance performances, and fake ballet and other comic performances.

The attendance will undoubtedly be very large. The prices will be general admission twenty-five cents; admission to all the side shows, twenty-five cents, concert, ten cents.

Chemical Club.

The Chemical Club will meet as usual on Friday at 4 p. m. Professor Daniells will report on "Recent Work on Oxidation."

PROF. COFFIN COACH

WILL INSTRUCT TENNIS PLAYERS THIS SEASON.

Spaulding & Co. Give Prizes for Champions—Improvements in Courts —Promise of Good Season.

Professor Victor Coffin has been elected as tennis coach for the season. Already many men are out doing active practice work. This week the courts are being put in shape for use and many improvements are being made. The association is very anxious that all men who have ever had any experience with the racket will come out for practice at once. This applies particularly to the freshman class as a large number of freshmen certainly should have reported for the work before this. Many candidates are needed in order to get the best results for the tournaments to be held later in the season.

Manager Taylor called on Messrs. Spaulding & Co., of Chicago, last week and has received the promise of two high grade sweaters or two of the best rackets to be given as prizes to the season's champions in doubles. Old tennis players say that without a doubt prospects for something good in the tennis line are very favorable this year. Last year the players were delayed for a few weeks in their practice at the very outset of the season, owing to the delay in the shipment of the tennis goods. A delay of this kind at so important a time is bound to bring disastrous results. This year practice has begun on time.

Season tickets for the use of the courts may be purchased for \$1.25 at the Co-op or from F. D. Taylor or from Irving Seaman.

For the present season the officers of the tennis association are Professor Victor Coffin, coach; William Beye, captain; F. D. Taylor, manager; and Irving Seaman, assistant manager.

The tennis courts used by members of the faculty are being considerably repaired. The courts are being rolled and will then be covered with a layer of stone dust. They will also be tile drained. Many of the faculty are taking an active interest in tennis this year.

—Samuel B. Echlin ('00) and Edward Peterson, ('00), both of Janesville, attended the Phi Kappa Psi convention.

—Dr. Showerman lectured at Waukesha Thursday evening of last week under the auspices of Carroll College.

Landscape Improvements.

The work of clearing out the trees on the newer parts of the campus has been going merrily on for the last week or two. It has been very judiciously done in most cases, the most notable improvement being seen in the small clump of oak just at the bridge. This work is very necessary and is very important as regards the future appearance of the campus. As everything that is done in this matter is irrevocable the greatest care and discretion must be used. Many people were very sorry to see sacrificed the old and gnarled oak that stood on the slope south of the observatory. While not entirely sound, it had sufficient strength to withstand the storms of a good many winters yet to come, according to the men who were under orders to do the work. It is interesting to note that this tree was used as a target at the time Camp Randall was covered with the tents of Wisconsin regiments on their way south. An ancient landmark has been removed.

Student, Spare the Poster.

Those who have in charge the circus shortly to be given in the gymnasium are devoting a great deal of time and attention to the arrangement and it is correspondingly discouraging to them when their efforts are hindered by the "swiping" of posters. The style of poster that is being used is expensive and cannot be readily duplicated without an equal outlay. People who want them for souvenirs could readily obtain them from the management by applying in the ordinary manner. Amidst the prevalence of so much souvenir collecting and general laxity in regard to small things students are apt to carry the principles of communism too far and to forget that what they

appropriate so lightly may have been the occasion of much trouble and expense to others.

The Weather.

Fair tonight, showers Friday.

WORK IN SHELLS THIS WEEK.

Coaching Launch Repaired—Freshmen Showing Good Form.

The crews will in all probability be rowing in the eight-oared shells before the end of this week. The ice on lake Monona has gradually been breaking up and if the weather continues warm the shells will be launched on third lake soon. The pair-oared work has been very satisfactory and after a week or two of work in the shells the crews should regain much of the form they showed in the fall. The eastern crews have been on the open water for some time but Wisconsin has always been about three weeks behind the other rowing institutions in getting started at outdoor work.

The floor was put back in the boat house yesterday afternoon and the shells will be overhauled immediately. The John Day has been carefully repaired and the whole boat is receiving a fresh coat of paint. The launch will be used as soon as Mendota is free from floating ice so that there will be no danger to the shells.

The freshmen are showing good form for this time of the year and will give St. John's a good race on Monona, June 9. The academy crew have received their new shell, the "Bill Gibson," and Coach McConville seems pleased at the prospect of having a fast crew. The race will be held on Lake Monona over the course that was laid out last year.

The training table for the 'Varsity and freshman crews will be started about the first of May.

—Last evening a dancing party was given at Keeley's hall by the local chapter of the Phi Kappa Psi fraternity in honor of their guests. The hall was beautifully decorated in pink and lavender, the fraternity colors, and Prof. Nitschke's orchestra of ten pieces played a program of twenty dances. The programs were very elaborate, consisting of cases of heavy gros-grained ribbon, lavender on the outside and pink in the inside. A large monogram of the fraternity adorned the cover. A three-course supper was served in the banquet hall. The chaperones were Mrs. R. M. La Follette, Miss Jacobs, Mr. and Mrs. Harry B. Hobbins and Mr. and Mrs. A. D. Conover.

RUSH MEDICAL COLLEGE.
In Affiliation with the Univ. of Chicago.
Organized 1837.

The academic year of Rush Medical College is divided into four quarters, corresponding with those recognized with the University of Chicago, beginning respectively the first of July, first of October, first of January and first of April, each continuing for twelve weeks. A recess of one week occurs between the end of each Quarter and the beginning of the next following. The general course of instruction requires four years of study in residence with a minimum attendance upon three Quarters of each year. A student may begin his college work on the first day of any Quarter, and may continue in residence for as many successive Quarters as he desires. Credit will not be allowed, however, for more than three consecutive Quarters. At least 45 months must elapse between the date of a first matriculation and the date of graduation. For further information, address RUSH MEDICAL COLLEGE, Chicago, Illinois.

phies.

EXCELLENT CONCERT.

Marine Band Proves to be a Re-
markable Musical Organization.

The United States Marine Band ar-
rived on a special train this morning
from Chicago and gave an excellent
concert at the University gymnasium
this afternoon. The band was en-
thusiastically received and was
forced to respond to many encores.
Lieutenant Santlemann proved him-
self to be a conductor of an exceed-
ingly high order and too much cannot be
said of his work.

Mr. Jacques Vauponcke is unexcel-
led as a performer on the clarinet and
rendered Haseneier's Third Fantasia
with much spirit. Miss Amy Whaley
captured the hearts of the audience
at once. She is indeed a representa-
tive American soprano. Her voice is
powerful and very sympathetic, and is
somewhat on the dramatic order. Her
number was the most popular on the
program.

Taken altogether the concert was a
musical treat such as the Madison
public has not had for a long time.

The band spent two days in Chicago
and gave some very successful con-
certs. They go to Milwaukee tomor-
row where they will also stay two
days. Tomorrow afternoon they will
give a concert there especially for
school children and it is expected that
5,000 children will be present. All
the schools in the city will be closed.

Lieutenant Santlemann expressed
himself as deeply impressed with the
beauties of Madison and of our Uni-
versity. He remarked: "This would
not be a bad place for a retired band
leader to settle down and enjoy life."

Prof. C. I. King on Railroads.

The next lecture in the College of
Engineering course will be given on
Friday, April 12, at 3 p. m., in the
Auditorium of the Engineering build-
ing, by Professor C. I. King, on the
History of the Railroad and the De-
velopment of the Locomotive.

A brief sketch of the origin of
roads and road-ways will be given,
with notes on the work of Trevithick,
Murdoch, Headly, Hackworth, and
their contemporaries. A model of
Murdock's engine will be shown. The
story of the development of the
locomotive in the United States, by
Jervis, Allen, Rogers, Baldwin, and
Winans will be given. The lecture
will be fully illustrated with stereopti-
can views. All are invited.

J. B. Johnson,

Dean College of Engineering.

Reception to Women.

On Saturday, April 13th from three
to six o'clock the following ladies are
at home to the women of the Uni-
versity.
