I feel better already"**

When
your patient
can't shampoo
the answer is
MINIPOO®

As a nurse, you know hair presents a special problem. In addition to the need for cleansing, it is often dull, limp, "lifeless." For these patients — and whenever wetting the hair is contraindicated — MINIPOO is the hair-cleanser of choice.

MINIPOO can be used comfortably in bed in just a few minutes. No risk of chilling or tiring the patient.

Simply apply MINIPOO, then whisk out dirt and excess oil. Your patient's hair is clean, fresh, fluffy again! Recommend MINIPOO for use during convalescence or colds.
