It happens before a tough exam as the blue books and number two lead pencils are being distributed. It happens at Badger football games with pouring rain, and at 3 a.m. on the floor with pizza, beer and buddies. It even happens at graduation. At some point every student asks, what are we doing here? What is college all about, and where will it take us?

The answer is funny, serious, mysterious and elusive. Every little thing has some type of impact. Somewhere down the road there exists a challenge which we can not even imagine exists. Yet everyone is expected to prepare for the best and the worst. As college students, special problems arise — class conflicts, career interviews, roommate troubles, tuition stress — campus is viewed as a pretend place by the outside world; college is a surrealistic haitus, a limbo between childhood innocence and adult success. So the question comes up every once in a while, when the pressure is on and the tension is high, **What are we doing here?**

What are we doing here?

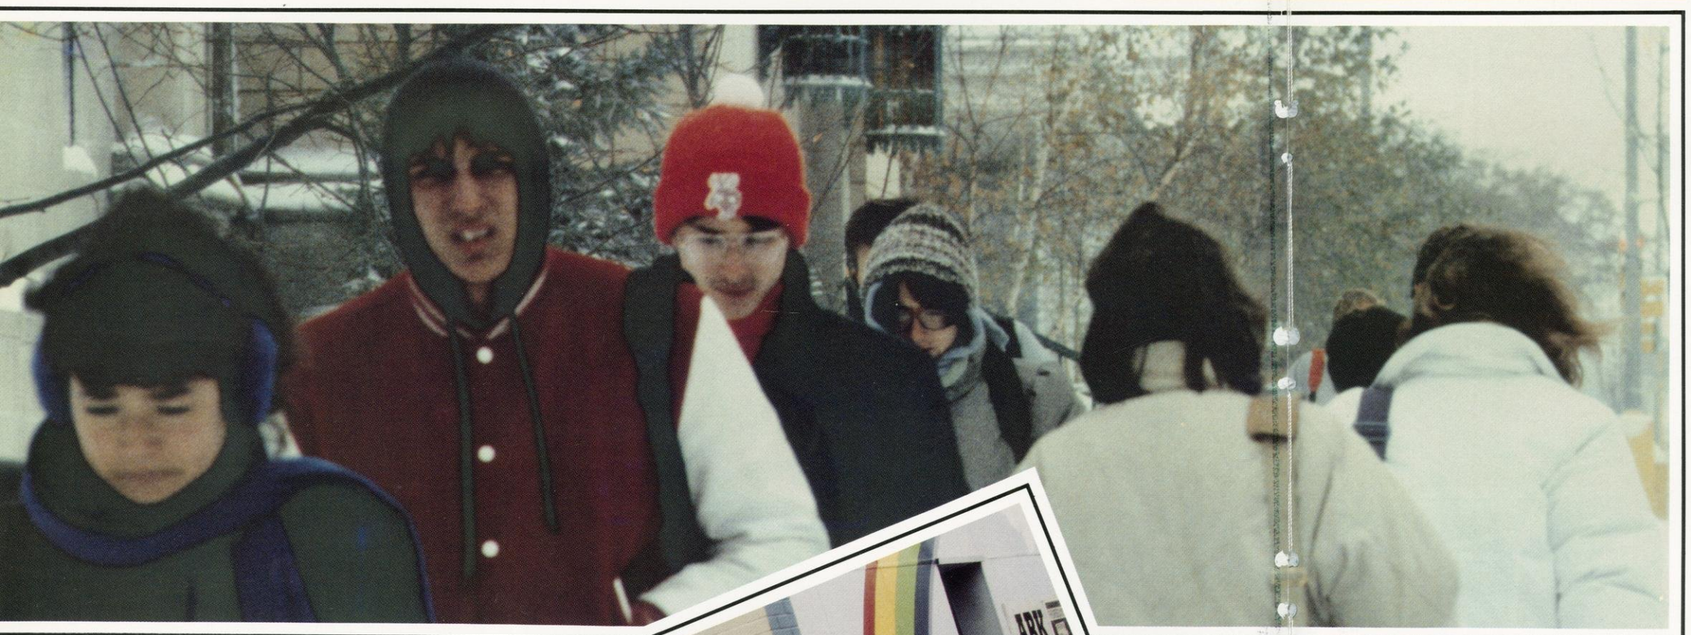
LIVING



The alarm goes off and another day begins, another paper down and another job begun. The dishes from last night's lasagna remain in the sink crying to be washed, while your roommate's letter, which you promised to mail two days ago, still sits on the front hall cabinet. How can anyone possibly pack everything into 24 hours?

Living in a college environment can be a challenge. Housing conditions mean cramped space and decor in early-attic. Plus, it's a two-mile hike to the library which closes early, not allowing time for a quick trip home for dinner. Furthermore, the town amazingly transforms every Aug. 15 in an end of the lease musical chairs game, and it's your toaster that gets left behind!

Everyone has heard it told that college years are the best years of life. It is sometimes hard to believe when stuck in crowded downtown, but everything adds up to a definite once-in-a-lifetime experience. The conditions are not prime, and certainly not yuppie, but maybe the rustic teaches us how to really live. Things are neat enough to be safe, but cluttered enough to be happy.

What are we doing here?

LEARNING

The raw material for learning is definitely on campus; libraries and books abound, classrooms are filled to capacity, and instructors drone on and on to alert audiences. But academics are just part of the learning experience. No one really remembers how long a Viking ship was. Instead, people remember it takes 13 flashes of "Don't Walk" before the light turns yellow and the cars start to race, or being without an umbrella in March is sure to bring rainstorms.

The actual learning experience occurs as the analytical skills are honed into a fine sharpness; questions and answers are the key. Students learn the right questions to ask, and the proper answers to give. The ability to play the game right pays off in the long run.

So, in addition to sitting in libraries, scanning tons of notes and books for facts, students watch other people for information, cry on roommate's shoulders for support and contemplate the lakes for inspiration. The learning never ends. The exams finish but the ideas keep coming and growing, and the person continues experiencing.

COMPETING

The competition begins day one at Stock Pavilion and goes on through the last final exam against the "curve breaker." Freshmen start out a little timid reg-week, but not for long. After three assignment committees have closed in front of the student, the freshman gets wise and joins the gang; it's an eye for an eye and an assignment committee stamp for an assignment committee stamp.

Soon the competition moves through the classroom and onto library mall for shouting contests with Sister Pat and Brother Jedd.

Sporting events offer further opportunity to vent competitive feelings. Michigan football games supply chants, Homecoming offers prize money for events, and friendly intramural games become battles over the next buyer of beer.

Competing puts a healthy red glow on everyone's cheeks, although at times the colors change to blue for long winded fighters or green for jealous participants. The competition is with lab partners, friends and even with the self, because somewhere out there is a reward that will make all of this worthwhile.

What are we doing here?

Rosenberg

Weber

ACHIEVING

In the middle of all the hassle and trouble, something will suddenly fall into place; an interview will go flawlessly, a job will come in, an award will be announced or simply a feeling of contentment will settle over the mind.

Keeping sane on campus is not always an easy feat, and even the smallest accomplishments need to be recognized; fixing the screen door deserves a hug and acing an exam deserves a drink.

Higher education has always been a hallmark of greater understanding, and as students we attempt to reach the status of educated and cultured.

The degree is the goal all students set, but in the meantime we achieve personal goals of confidence and success, and when "Pomp and Circumstances" begins playing we know it was worth it all!

What are we doing here?

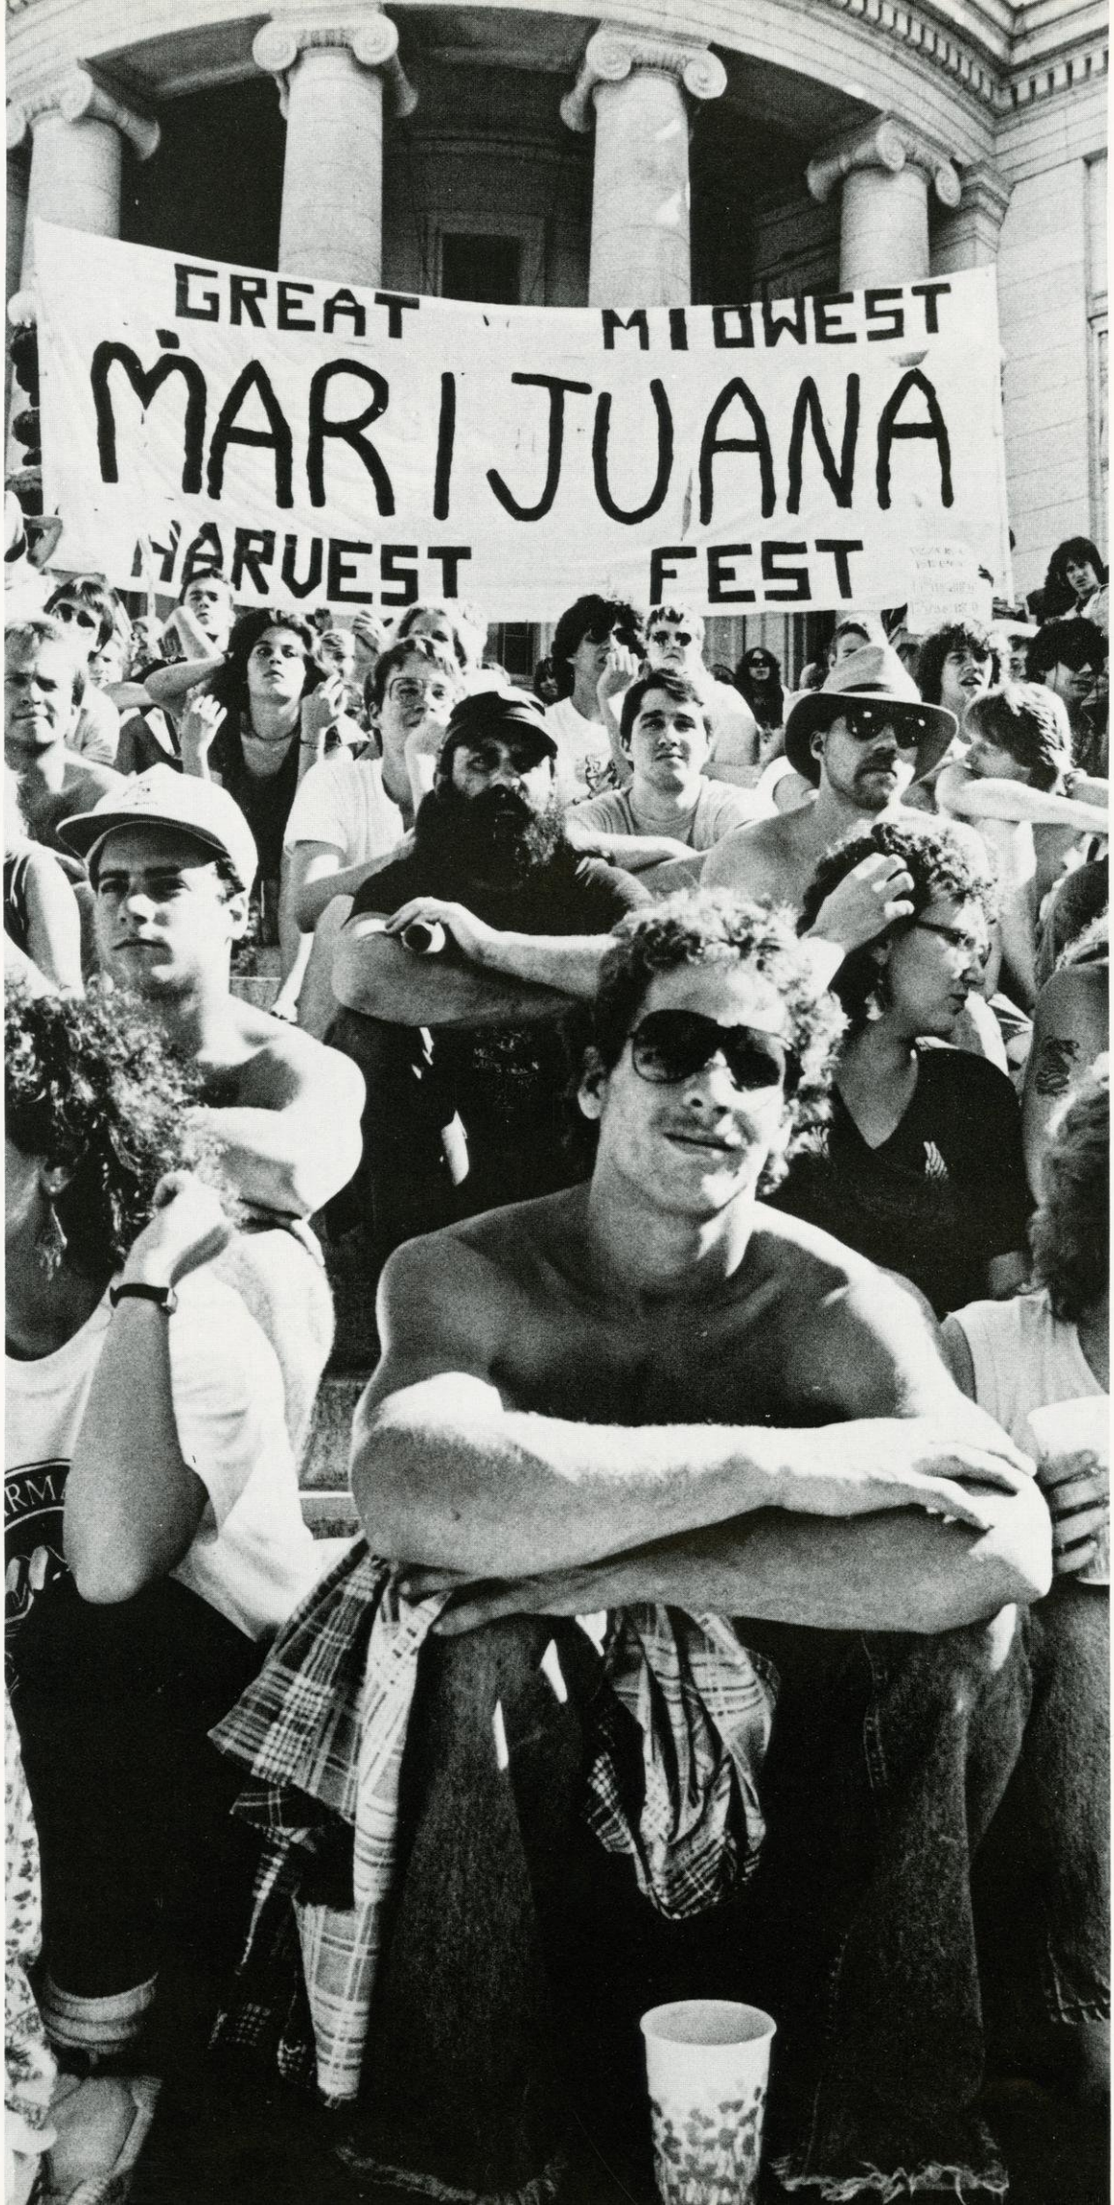
PARTYING

After all the work, need we say more? When it comes to Wisconsin and partying you know you've said it all! What could ever top a football Saturday, the annual Halloween bash or the Mifflin Street Block party? Some students even claim they are majoring in partying here. But who can begrudge students a little bit of fun?

Taking forms of house parties, wild dance fiascos, food and drink included, celebrating takes a spotlight position on campus. There is not a single type of party that stands out on the list as the best, and as long as friends are around, two can be a party.

Festive activities can provide a break from the old routine which helps keep the body and soul intact, especially when time is precious. There are people who do not understand the need for a good time, thinking every spare minute should be spent at the books. What such types don't realize, however, is only so much time can be used intensely before everything loses meaning. There is a time for study and a time for fun, and when we do either, it's to the fullest.



DeVries

Faulhaber

Faulhaber

Thus, as any college student can explain, not everything is stone sober and serious, nor fun and games alone. College is an experience which can be viewed sarcastically, philosophically, emotionally or jokingly.

So what are we really doing here? Are we chasing dreams, or attaining goals? Is everything "just pretend," do we make things real, or could this really be happening? Every person has a different insight to these questions, and perhaps our real purpose is to find out what others think.

Badger has tried to capture some of the things that happen on campus, but the essence of the book is for each reader to look and remember how college affected him. There is no answer to our question, only reflection, but ask yourself, **What are we doing here?**

What are we doing here?

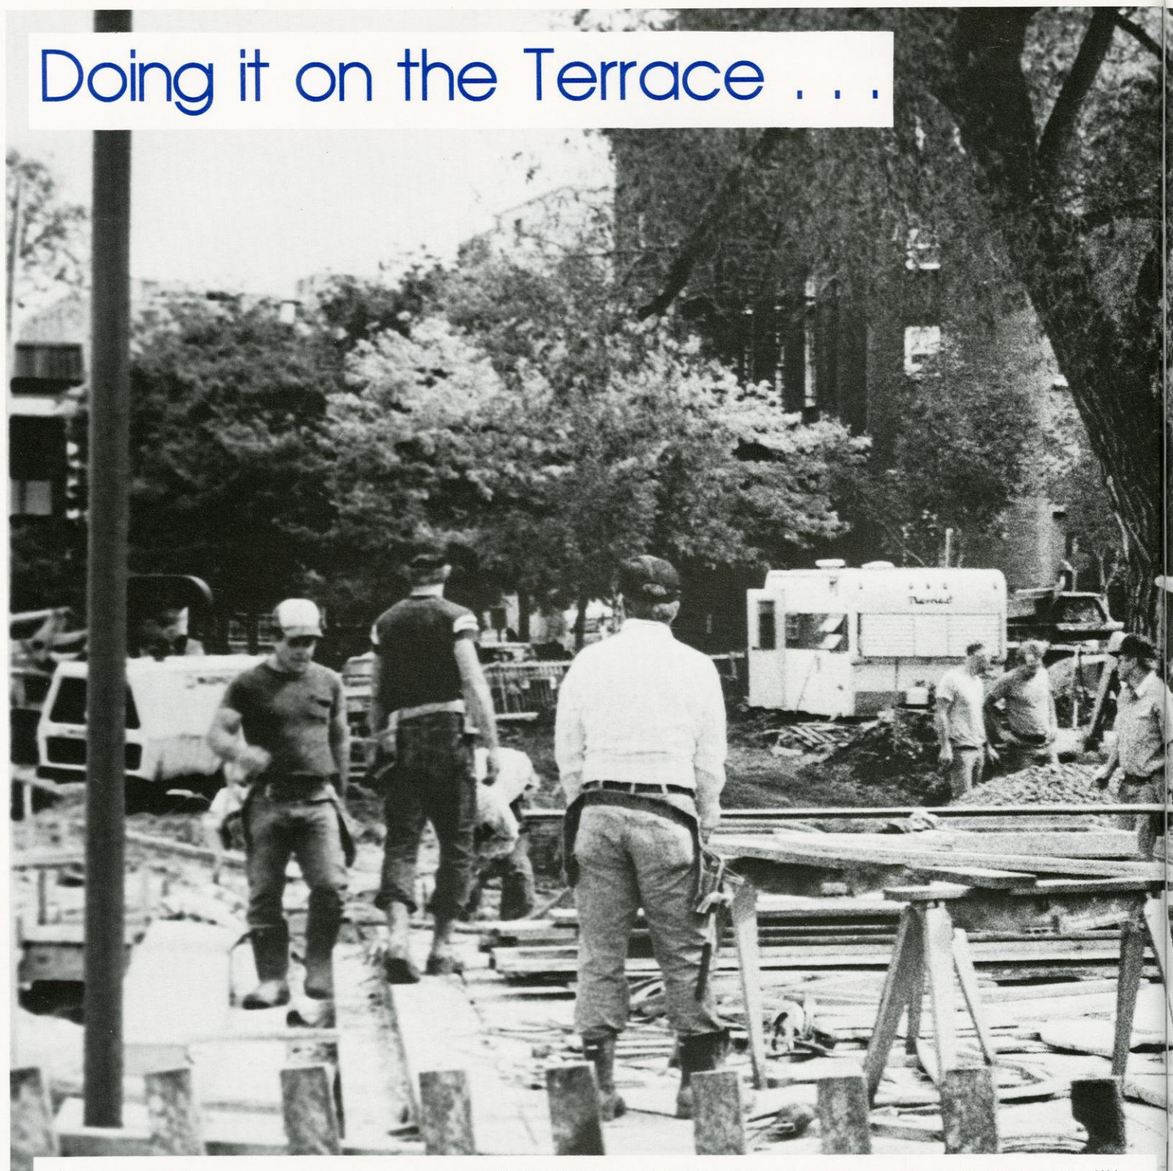
Doing it on the Terrace . . .



by Dawn Geise

The Union Terrace — it's the place to spend Friday afternoons with your friends or where you go to bask in spring's welcome warmth or fall's dwindling sun. Its atmosphere is so appealing and so inviting. People have been enjoying this atmosphere since 1928 but it wasn't until recently that the physical characteristics underwent change.

This past summer the Union Terrace began its facelift. According to Terry Venker, Director of Marketing and Promotion, "the idea of having a facelift has been around since the late fifties, but it wasn't until we received a sizeable sum of money from an elderly gentleman that the project got off the ground." Approximately half of the $250,000 project was provided by this gentleman, who wishes to remain anonymous. "He used to fish off the piers and participate in the Travel Adventure series," stated Dick Pierce, operation's manager. "He gave the money to the Union so they could spend it on building supplies to fix up the Terrace."

The remainder of the facelift's cost came from varying sources. The Class of 1936 adopted it as their fiftieth anniversary project. Money allocated from operating funds and profits from the Union made up the balance. There were no tax dollars or student dollars involved.

The original architectural design developed through the Union's own planning and construction committee. Bob Stein, an area landscape architect, did the final design and working version of the Terrace's renovation.

Bachman Construction was the general contractor which worked on the project. They were previously hired to remodel the Rathskeller. Also, a significant amount of the work was done by the Union's own maintenance personnel.

The first deadline for completion was September 1st. The second deadline set was October 25, homecoming weekend. It took much longer, due, in part, to the fact that the company which produced the special bricks got the color wrong, not once mind you, but twice. Also the lovely, rainy weather we enjoyed in September was detrimental in making these deadlines. In reality, the terrace was estimated to be completed in the Spring of '87.

Throughout construction however, there was loyal patronage. "At least it didn't inhibit some people to dance in the construction site mud," stated Venker. Dancing on the terrace did definitely continue this spring but instead of being done in construction site mud it was done on the new terrace.

Relax, study, play at Memorial Union

by Steven Lehr

Millions of students come and go at the UW. These students vary in ethnicity, creed, values and beliefs, turning Madison into an educational melting pot. With such a diversity in the geographic, demographic and psychographic make-up of Wisconsin's student body, it is hard to imagine that there could be a thread that unites us all into a cohesive, Bucky-backing band of knowledge-seeking, mirth-making students. But there is one thing we all have in common (aside from Reg-Week anxiety, the Wisconsin weather and a case of Rhinelander). That common ground is Memorial Union.

Opening at dawn each day, the union provides a gamut of uses, services and entertainment for the thousands of students who travel through its doors. As the crew teams glide across glassy Lake Mendota during the color-filled autumn months, a cup of coffee helps to complete this view from the union's terrace.

As the days take on a brisk chill, a sure way to warm your insides is a good, hot Lakefront Cafeteria meal eaten to the strains of a group of string musicians gracing the likes of Mozart.

Another alternative is to park yourself due west of the cafeteria and settle in for a day of adventure in the heart of the union at **der Ratskellar** (or "the Rat"). The Rat offers a good view of the "average" Wisconsin student at work, at lunch, at play. People come to this nerve center before classes to grab a Cardinal or Herald with their cups of java sludge; in between classes to meet friends, cash checks, buy stamps or stop at the TYME machines ("Please Wait! Your Transaction is Being Processed"); after a week of classes for the much sought-after and deserved golden nectar of the gods (beer); and after nightfall to meet with study groups to prep for exams, to see a flick, to kick up feet and **relax.** The Rat is a comfortable old pal where you can be yourself and where, if someone asks if you give your furniture in your own home such respect as to put a foot on the table, or carve a name in a bench, you can answer, "This is my home."

Aside from the Rat and Lakefront Cafeteria, there is the Barber Shop, the travel agency, the billiard room, Pack, Pole and Parka, and of course, Hoofers, where you can begin any outdoor adventure with high expectations and fulfill them all with their help. There are also huge study areas where people are found sprawled out, unconscious across couches after devoting their day to the problem-solving of international policy, money and banking, or mass-media and the consumer.

And let's not forget the side of the union that focuses on the arts — The Frederic March Play Circle and the Union Theater. The play circle shows a wide variety of films including Chaplin's "Modern Times", and "Out of Africa." The theater has housed some great performances too: Odetta, Pinchus Zuchermann, Dr. Ruth and Larry "Bud" Melman.

It just goes to show, for play, for work, for something we all have in common and will continue to hold dear even after we leave college, the Memorial Union is not simply a uniting, bonding link we all have, but also a memory that has given us its best, and will continue to do so as long as the university stands.

Registration Week HORROR

by Nici Uren

It's Monday, August 25th, just the beginning of the rest of the semester. If this is anything like what the next 15 weeks is going to be like, most of us would rather quit while we're ahead. We all know what I'm talking about — the biannual process of registering for the educational instruction necessary for our college career. The arachaic "reg week", which we are forced to suffer through, hasn't been substantially changed for years. While other campuses have converted to the speedy, efficient, less nerve-racking use of the computer, the Badgers are considered hearty enough to migrate from one side of the campus to the other in search of open classes, despite thunderstorms and snowdrifts. And that's just the beginning.

"It was Monday and all the classes I needed were already closed, in that moment of reckless abandon I signed up for a scenery painting class, African Storytelling, and a Phy. Ed. class, so what if I graduate one year later than I had planned!" cried one student.

We've all heard the horror stories or have experienced the misery of a particularly tense reg. week. With the current system, the possibilities for errors are endless. For example, let us assume for a moment that we have made the journey to the Stock Pavilion and upon arrival we are made aware that there is a hold on your registration form. Since the persons in charge are lacking any pertinent information, we must trek to the Financial Aids Office and stand in the typically long line with other moaning and groaning students. Though the computers are down that day, we obtain an appointment with an informed employee and are told that the hold was a mistake. Of course. We must now trek back to the barn. We're run over by a scooter on the way to sign up for our first class, but who cares?!? The problem is we can't find any open classes to sign up for — now we're upset. "After that scooter ran me over I thought, why did it have to just knock me over when it could have killed me and put me out of my misery," yearned the hapless mind of a student.

One week later we find out there are more problems. We trusted the person who wrote our name down on the worn out piece of paper with hundreds of other names on it. But we find out we're not formally registered for three of the four classes we thought we signed up for. Now we don't have to get up for that 7:45 anymore. "I go to all of my classes the first week, and no one knows who I am or what I'm doing there," complained another victim.

Students complain, "Well, it becomes apparent our system of registration has many, many negative points to it." But we must look toward the bright side, the silver lining in that big, black cloud. Let's think of the entire week as a challenge. Each class which we are able to sign up for is a conquest. Let us use the tension caused by the uncertainty of our fate as energy to argue with the registration people. Best of all, after the incredible workout of body and soul, we have the perfect excuse to drink, or sleep, romp, or relax. "I go home, lay on my bed, and contemplate the ordeal which I have have just gone through," said a successfully registered student.

Though the week may be taxing on the mind and though we may not get the classes we need, where would we really be without the infamous "Reg Week", One or two days of work and five more days of celebrating our return to the campus which we've grown to love and hate. The week is a prelude to studying, a time to readjust ourselves to campus life and to toughen ourselves up for the semester ahead. Hey — it's got to get better . . . doesn't it?!?

Campus transportation moving people not only from place to place but from standing to sitting

by Karen Armaganian

"My feet hurt!" "Everywhere I go there is a hill or 10,000 steps!" "It takes me half an hour to get to class!" These are just a few of the complaints weary walkers have when facing the rough terrain on campus. Laurie Freedonfeltz commented, "After the first week of classes my legs hurt all over, I felt like I had just run the Marathon." Distance, hills, aching feet and time were just a few of the reasons that caused some students to turn to a different means of transportation.

Bikes, mopeds, Honda Sprees and even skateboards, all seemed to be ways of getting around campus. However, these modes created some unforseen problems.

Katie Hussey was one student who used a bike to get to some far off classes and other places that seemed just too far off to walk. However, she ran into a few problems. "I used this lock and now I forgot the combination. I haven't quite figured out what I'm going to do with my bike — all locked up!" Her solemn advice to all bike riders is — "Never throw away the combination of a new lock!"

Bike riding also caused some problems for pedestrians. Jane Southworth was crossing University Avenue when a bike rider swung around the corner of North Mills Street, and ran into her. "He was pretty well stopped by the time we hit — so it wasn't a big deal. He was more scared than I was," Southworth said. She added, "Books and papers ended up all over University Avenue."

But problems aren't only limited to bicycle drivers. Laurie Bibble, Honda Spree owner, said "Sprees are really a pain in the rain and snow — people who get really dependent on them are in trouble." Kristi Zimmerman added, "Mopeds are great transportation, but not terribly safe." A student verified the danger with one incident on West Washington. "In the middle of rush hour — I wiped out — luckily the traffic light turned red."

Skateboards were also a means for getting to classes a little quicker. But contrary to a non-riders idea — it is not an inexpensive form of transportation. One skateboarder reported spending $160 on his board. But he felt it was a great way of getting around campus, "You don't have to lock them up — just pick them up and carry them into class."

Thefts were a major problem around campus. In 1985, 148 bicycles were reported stolen. They were worth a total of $31,363. Despite the effort of the campus police, only 14 of the bikes were recovered for a value of $2,927.

If your feet hurt from walking from one end of campus to the other, think about investing in some other form of transportation. But after you weigh some of the difficulties — maybe a good pair of tennis shoes might not be such a bad investment.

Froelich

Campus aerobicizers burning off the fat

by Nici Uren

After four nights of eating Uncle Jim's pizza, Wong's Wok Fried Chicken, BIG MACS, cookies from the Croissant Shoppe, and drinking cases of beer, how can one purge the body of those dreadful extra pounds?

After weeks and weeks of running around in circles on an indoor track, how can one bring some excitement back into getting in shape? Why aerobics of course!

Aerobics is the hottest exercise craze on campus. To college students it's designed not for the serious athlete, but for the casual exerciser. It's aimed at the majority of people who find enormous enjoyment from eating fattening foods, and use aerobics as a way to ease their guilt.

This, of course, is an overgeneralization. There are many dedicated aerobicizers who attend daily, eat healthy foods and lift weights on the side. These are the people really worried about the inner-workings of their bodies, worried about the dangers of an unhealthy lifestyle. They aren't the people who are there to socialize while ridding themselves of "ugly cellulite."

Aerobics not only has had an effect on people's waistlines, but also on their pocketbooks. Clothing stores are reaping great profits from the exercise-wear boom. One has only to put on a new pair of aerobic shoes and a tight pair of nylon stretch pants, to feel the surge of new found energy pulsing through the veins.

Stores are not the only ones who are making money off the craze, but the health clubs as well. Many clubs cost $100 a semester to join. Students, though, get a break from that expense. The SERF and the Natatorium have two to three **free** classes daily. So many people take advantage of these classes, that enrollment is limited to 300 people per session. Students who would like credit for aerobicizing can take one of the classes taught by the physical education department. "I took the Phy. Ed. class at 7:45 in the morning because it was the only one open!!!" one student exclaimed.

The classes themselves are predominantly female, but a few dedicated males show up also. Some of them come in groups, most often attempting to gaze at the very "in shape" females of the crowd. Others are there for the same reason as everybody else, to work off those extra pounds which have slowly crept to the waistline.

Why do so many people attend these classes? Aerobics is not a repetitious sport, such as jogging or swimming laps. Aerobics is filled with visual excitement. Generally, there are nearly 200 other people to watch, make fun of, and compete with. Though the oxygen level thins out after a while, it's a must not to slow down but keep up with everyone else.

The legs have been known to be sore for two days after a rigorous routine, so beginners must beware. The workouts are not just jumping, jogging, bouncing and kicking, there are also hundreds of sit-ups and leg lifts to contend with. It's really not surprising to find out that 5 of all aerobicizers suffer an injury at one time or another.

Lately, people have demanded a change in the ordinary aerobics workout. Many alternatives have developed as a result of their cries. Exercisers now have a choice of not only low impact and high impact workouts, but even a routine performed while in the swimming pool (where one person stated, "you don't get as tired and you don't feel your sweat.") What could be next? There's one thing for certain, aerobics has become ingrained in our current culture, and it's definitely here to stay. As one student put it, "I am a fanatic, without aerobics I could not live."

Wisconsin home for out-of-state students

by Karen Armaganian

"Watch out because no one is looking out for you." That was the comment that came from one new freshman while paging through stacks of information he had obtained in the past summer and his first semester at UW Madison. Basically nerves, excitement and overwhelming confusion were emotions that every new student has to overcome.

However, students who are Wisconsin residents seem to have a distinct advantage over out-of-state residents for overcoming their fears. They have a greater chance of being accepted into university housing. Stephen Lo, a Wisconsin resident, said, "At least I have the convenience and security of a dorm near my classes."

Out of just new residents in university housing, only 310 out-of-state students of approximately 6,850 total students received dormitory rooms. The registrar's office determined about 25% of all freshmen were from outside Wisconsin. The estimated enrollment of freshmen was 6,400 (1,600 out-of-staters.) Obviously, students from outside of Wisconsin had to turn elsewhere for housing.

I just could not get into the dorm," stated Madelin Kohen, Michigan resident. Kohen ended up living in the Roundhouse. The Roundhouse, Statesider, Highlander, The Towers, and many other apartments are all places that students can live and meet other students. Some apartments and private dormitories plan various activities and even offer a meal plan to their residents.

But housing is just one of a number of problems that out-of-state students must contend with. "I just can't go home whenever I feel like it — it is just too far and it is too expensive," said Heidi Groeree. Lisa Robels agreed with the majority of out of state students who know they just couldn't go home when they wanted to get away. However, she felt being away from home has its advantages.

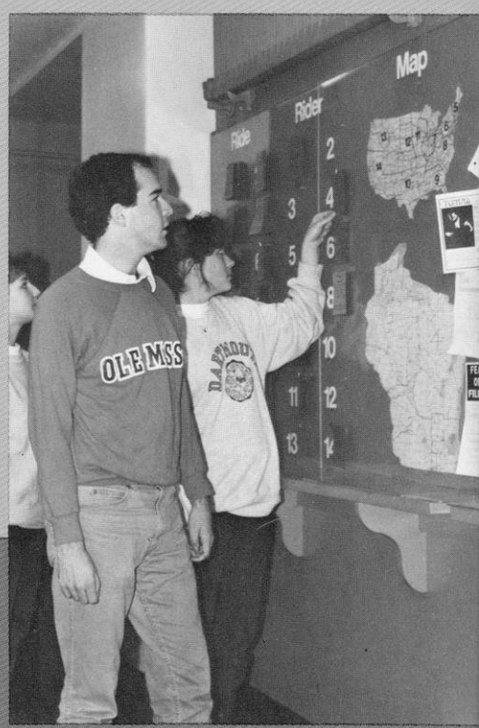
"I did not know anybody — I could be what I wanted." She went on to explain that people got to know her by her New York accent, "People would call me up and say — hey — talk."

Help was on its way for out-of-state students when Roger Howard, assistant dean of students, met and talked with the Wisconsin Alumni Student Board. The result of the meeting was the concept of "Wisconsin Welcome."

On September 14, 1986, new out-of-state students braved the rainy weather and fog to meet at the Alumni House Lounge. These students met with representatives from various committees and organizations, and services in an attempt to get acquainted with the campus. The Wisconsin Alumni Student Board also offered a handout called "Badger Buddies." This gave names and phone numbers of board members; people a new student could call for help.

Programs like these eventually help to personalize the campus. With help from different associations and individuals, new students can find answers. In time that big, bustling busy campus can seem more like home.

all photos Romano



"Obviously, students from outside Wisconsin had to turn elsewhere for housing."

Upper classman housing at Merit Hall

by Paula Martin

MERIT HALL, the new three story red brick residence hall, is designed to accomodate 64 single, upperclass and graduate students who have an accumulative grade point average of 3.0 and demonstrate the need for financial aid.

Plans began in the spring of 1984 when the university was contacted by Mark Stone, owner of a metal company in Illinois, whose family wanted to donate funds for a residence hall.

The Stones donated $1,250,000 for the hall and in return the university supplied the land and furnishings, which cost an estimated $250,000. The university purchased the southwest corner of Dayton and Park streets for the site.

The family wanted students and faculty to design the building, but since Madison does not have an architectural school, Stone himself obtained teams of students and faculty from the UW-Milwaukee campus. Competition was held among five teams with the winning team receiving a cash prize of $5,000 and the right to choose the contractor. The winning team consisted of UW-Milwaukee faculty members Rick Jewels, Jim Shields, Harry Zan Oudenallen, Jerry Weisman, and students Robert Ruggles, David Pickert.

"We were quite pleased to win," Jewels said, "it's an honor to build a dormitory."

The final product is a close approximation to the original design plan, according to Norm Sunstad, director of university housing, and part of the selection committee.

Jewels and his team equally divided the cash prize and chose Newcomb Contractors of Madison. Construction began in summer, 1985, and was completed and dedicated May 30, 1986. University Chancellor Irving Shain and Stone dedicated a plaque that hangs in the den.

Naming the hall was a family decision. They did not want their name on the building and came up with Merit Hall to represent the "meritorious students living there."

"It would look funny having the name 'Stone' on a brick building," commented Sunstad with a chuckle.

The hall first opened to residents in June, housing summer school students. Only one major problem occured — the sewers backed up. After the summer trial period the real task came in the fall when the building was occupied at full capacity.

"We have a variety of students living here," said James Rychner, resident assistant. He noted one-third of the residents are from Wisconsin, one-third from out of state, and the rest are foreign students.

Cindy Banchy, a first year graduate student from Des Moines, Iowa, is the only married student in the building (her husband lives in Des Moines). "I feel quite unique because of this," she said.

She also said her first reason for choosing Merit Hall was the quiet atmosphere. "Graduate housing had a better study atmosphere and the number of people was appealing, and would be easy to get to know people," Bancy said. She now feels the atmosphere with international students and different majors is a "stimulating experience."

The Stones wanted inexpensive housing for students. Double rooms are available for $110 a month and a single room in a suite, for $115 a month. There are 19 double rooms, each with one bathroom and kitchen, and five suites consisting of five single rooms, one bathroom, living room and kitchen. Residents share a den and laundry room. Entrance is only gained with the use of hall keys.

"The reason I chose to live here was for the cheap rent," said Subra Nagarajan, a native of India and gradute student working towards his Ph.D. in mechanical engineering. His attitude now is: "because it's fun."

Merit Hall set up its own government consisting of five committees: the communication and promotional committee informs the public about the hall, the social committee organizes parties and picnics, the educational committee invites speakers to speak to the residents, the sports committee deals with intramurals and the improvements committee concern themselves with improvements around the building.

Banchy said it is a nice opportunity to work on government. "Not to follow in someone elses footsteps but to set up our own ways. You don't feel like someone is standing over you," she said.

She hopes in the future that as students change the committees change.

The Stones are notorious for donating money to achieve a large goal, which according to Sunstad, is to better the state of mankind, leadership, to provide accommodations for students and to contribute to the education of tomorrow's leaders by providing an environment which promotes learning from one another.

And that is exactly what Merit Hall is doing, — providing inexpensive, fun, comfortable housing.

"It feels like a room in a house," concluded Banchy.

Singers represent state, too!!

by Paula Martin

Finishing their 19th year, the Wisconsin Singers have entertained more than 50 audiences throughout the state and across the nation.

"We are seen more as the state than the campus," said Dennis Haefer, a senior mathematics major from Reedsberg, WI., in his second year as a singer. "We don't cater to university students; 90% of the students don't know who The Singers are."

The Singers are an energetic group of full-time students, who must maintain a C average, composed of 18 singers/dancers, three "combo" members (instrumental backup), two technical crew members, a technical director and a group director serving as "ambassadors of good will" for the university.

Scott Foss, director for ten years, and choral and vocal music manager for Wardt Bordt Music, said, "The group started in 1967-68 in the midst of negative war protests off-campus."

They have been going strong since then.

Auditions are held each May but the process is not an easy one.

The auditions were "hard and scary," according to Cora Harn, a freshman majoring in physics and music from Berlin, WI. "I didn't think I had a chance at all."

The auditionee must sing a prepared solo, demonstrate their range by running through scales, and sight read music.

"We take five people per hour," said Foss, "then we bring the same five back for a dance audition."

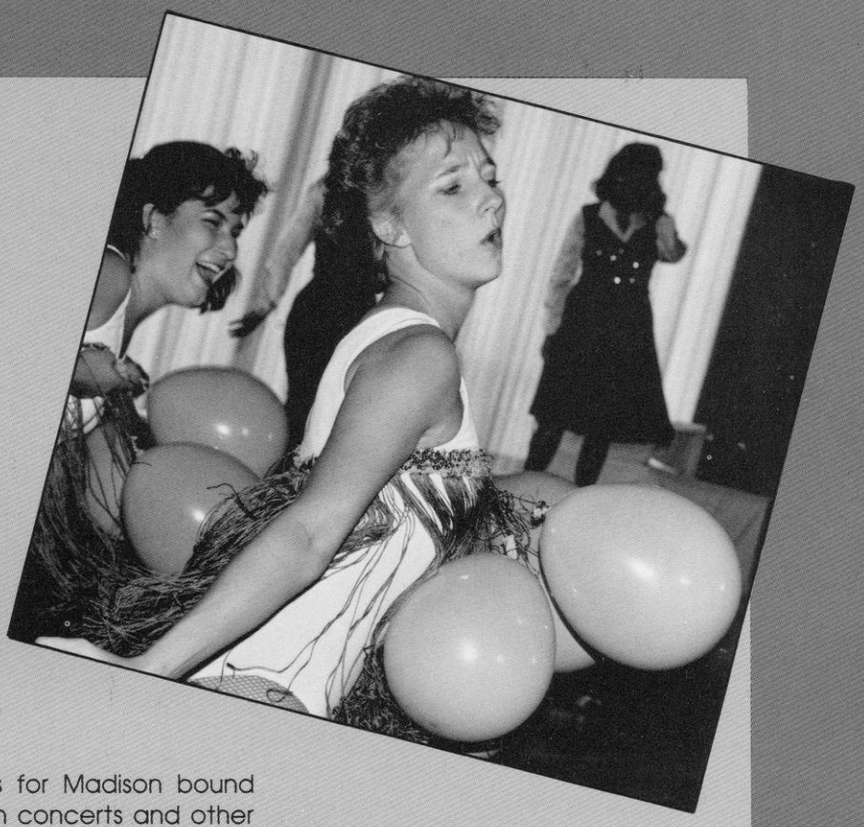
The auditions are held for four days. An average of 150 students participate. On Sunday evening call backs are held. Here approximately 40 finalists undergo 1½ hours of vocal work and 1½ hours of dance work which is more strenuous than the first, according to Foss.

According to Haefer, the real test of singing ability comes in the call backs. "You go in with a group of people, and a tenor, bass, soprano and alto are pulled to sing," he said.

Foss, who serves as vocal judge, said the main emphasis is on vocal ability not dance. "If a person is good I take a look at the dancing ability."

"They look for the best of both worlds," said Haefer, "You're not going to find the perfect person who is exceptional in both singing and dancing."

In the choreography department Foss receives help from nationally renowned Hollywood choreographer Jim Bates. Bates and his wife travel to Madison every August to work with the group. Bates has directed state shows for President Reagan's Gala of Performers, Marriots Great America in California and Illinois, television shows such



as "The Lucy Show" and "The New Mickey Mouse Club" and various theater productions.

Once the 18 singers/dancers and three combo members are chosen, they all attend a two week camp at the end of August which runs into registration week. The Singers begin their day at 9:30 a.m. and run until midnight, amounting to a 14½ hour day.

"The last night of practice we went until 4:30 a.m.," said Foss.

In the two week period the complete show for the new season is prepared. Solo tryouts are held, work is done with the microphones, lighting and props, costumes are fitted and work is done with the combo.

"Foss wants us to be as professional as possible, but there are limitations," said Haefer, adding that they are going to get cordless microphones.

Music for the year is chosen by Foss. He calls it "American Popular Song" which tries to cover all periods: gospel, country, pop, Broadway, 20s.

"I choose something for the audience to reach on to," said Foss.

Among The Singers' audiences are 12 Wisconsin Alumni Groups which help raise scholarships for Madison bound students. Through concerts and other fund raising events they have provided nearly $1,500,000 for scholarships. Currently 180 students are attending the university with this help.

Spring Break of 1987 took The Singers on an all expense paid trip to Zero Beach just north of Miami. "An enthusiastic alumni group there wanted us to come down to perform a couple of shows and the rest of the time was for relaxation," said Haefer, "It's a big reward for the year and one of the fringe benefits."

Some of the students go on to audition for Opryland, Disney World, and Six Flags. Some recognizable former Wisconsin Singers are Tom Wopat and Cathy Sullivan, a Christian recording artist who used to be on The Lawrence Welk Show.

Harn thinks she and others may try out for some of these places, and Haefer added that he had "an itch to perform next summer."

"The group is a family and everyone is real close. I made very, very good friends here," said Harn.

Returning adult students find challenge

By Karen Armaganian

Trudging up hills searching for classes, entering unknown territory and studying new and unfamiliar material all would seem to be a part of the average freshman's first semester at a university with an enrollment reaching more than 44,000 students. But not only freshmen and transfer students are plagued with confusion — so are many adult students returning to school after short or extended periods of time.

However, many problems, interests and needs of adult students are attended to at the Office of Continuing Education Services. They provide counseling, orientation sessions and support services. They even supply information on where to find housing, transportation and child care. After all the preliminary problems are overcome, adult students eventually get to the classroom.

John Seefeldt returned to school seven years after studying two years in Platteville. Seefeldt stated that classes seemed "harder ... and lots of feelings of possibly ... inferiority go through your mind because you are supposed to go through this years ago." But he enjoys actually being in classes with younger students. "It's really great — they have a lot to teach me and vice versa," he said.

Pam Hill came back to school for post-graduate studies on a full time basis. She said, "It's harder to juggle home, family and children. It is easier to concentrate in the classroom."

Lu Zradicka returned to school as a full time student, after a twenty-year leave. "I'm doing much better in school then I was before," she said. "My children are very supportive of me, in fact my daughter is going to school with me!" Zradicka is a mother and grandma.

The reaction of younger students to older returning students is either apathy or admiration. Lisa Hendricks felt that returning adult students were inspirational. "It must be tough returning to school after so many years, but I really think it's great," she said.

Not all adult students are working for a degree. In Wisconsin, people 62 or older are able to audit classes. Therefore, quite a few adults are taking classes, writing papers and taking exams just to learn and have fun. One student claimed, "There are two old grandmothers in my chemistry class and they are taking the class just for the heck of it — I think it's great."

The number of returning students appears to be growing steadily over the past years. In 1975 there was only one medical student over the age of 42 at U.W. Madison; in fall of 1985 there were ten. Also in 1975, there were 80 law students over the age thirty; in 1985 there were 225. In 1975, there were a total of 194 undergraduate, graduate, professional and special students over the age of 50. In 1985 there were 371 students from the above categories over the age of 52. In the fall of 1986 there were 208 students total over the age of 62.

For some adult students with families, child care can be a major problem. Madison offers a variety of child care centers: part day centers (nursery schools), full day centers and after day care centers (for children K-5 after school until 5:30). However, with increasing college costs, many adult students can not afford the expense. The average full day fees range from $50 to $85 per week. U.W. Madison offers Child Care Tuition Assistance Program as part of financial aid packages. This program was implemented in fall of 1985 to assist U.W. Madison student families attain quality child care.

Several other scholarships are available for returning adult students through CES and Financial Aids Office.

Religion provides emotional outlet

by Shanna Moore

Madison's campus offers college students a wide variety of religious organizations and groups in which he or she may choose to participate in. One can choose to be a part of many functions — educational and spiritual, social and community.

Most organizations provide opportunities for students to participate in, developing a more educated view of their belief. For example, Inter-Varsity Christian Fellowship offers a weekly Bible study to anyone wishing to participate. Groups like Campus Crusade For Christ, Navigators, and Fellowship of Christian Athletes have similar studies, too. Other organizations such as Hillel, the Jewish community center on campus, offer religion courses. Hillel's course topics range from Jewish-American literature to demystifying kashrut — a crash course in practicing the art and science of keeping kosher.

Many students choose to participate in such groups and the activities they offer for various reasons. Some are interested in issues of personal identity and the meaning of life, or perhaps simply seeking the sense of structure and direction. Phil McQuade, a fourth year student, realized this in observing his peers. "Organized religion on campus is down-played a lot. As an underclassman the predominant feeling is to be an individual. You are breaking away from your parents and their moral views on issues and developing your own perspective. As you mature and grow, you look more for a structured lifestyle, and religion once again could become a focal point in your life," he said. Others desire to feel part of a community on campus and join the world. Uniting with others in common worship and belief is yet another reason.

For whatever reason the college student may choose to become involved in a religious group or spiritual organization, one thing is certain — he has many options awaiting him. All of these organizations offer religious, social and educational experiences for the student who chooses to take advantage of them.

Sarah Meers, a sophomore transfer student, explained her experience. "Transfering from Colorado, I have found this campus offers a lot in terms of religion, but it is up to the individual to find what is right for them," she said.

In order to promote a greater feeling of unity, relaxation and enjoyment among members, many organizations have designed social functions. These include retreats, dances, hayrides or potluck meals. Some also provide housing such as the Mansion, or the Wayland International Community.

The majority of religious groups on campus provide services to the community such as counseling and aiding the needy. Most religious organizations provide a trained staff for counseling according to its particular belief in areas such as spiritual well-being and growth, further plans and areas of personal crisis. Some offer other services geared more towards the needy in the community. For example, Saint Paul's Catholic Center is just one of many organizations which participates in the local soup kitchen program to help feed the hungry. Madison Campus Ministry provides students with the opportunity to participate in supervised programs which create and strengthen friendships with developmentally disabled children and adults.

Spiritual experiences are yet another aspect of campus religious groups. They may include times for worship and praise through readings, songs and testimonies. Others hold prayer meetings, in which individuals can unite in prayer and receive support and encouragement. Some provide times for meditations, celebrations for religious holidays and communion services.

Work Study: eat & study, too

by Sarah Meers

As students all over the nation face tuition hikes that seem to come nearly every semester, it becomes increasingly difficult to fund college education without sacrificing food, shelter, or both. The Office of Student Financial Aids here on the UW-Madison campus wants to make sure we can eat **and** attend classes. The office assists students whose personal and/or family resources are not adequate to cover the expenses of going to the University. Financial aid awarded through OSFA consists of loans, grants and work-study positions.

If awarded work-study money, a student may begin a campus job as part of the financial aid package. An attempt is made to match students with jobs related to their interests and/or abilities. However, students are strongly encouraged to find a job on their own through the Job Bulletin, personal contacts or advertisements.

Mary Ritzenthaler was one of many students who found a university job on her own. "All I did was go into Chadbourne Hall cafeteria and apply — they called me later. I think the pay is really good, but believe me — I could do without the hairnet," she said.

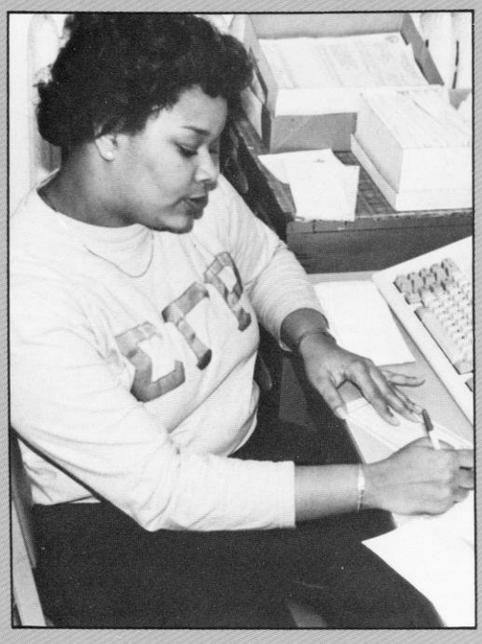
Todd Young was another student who found a university job. Young said that the work was, "easy, the only problem was that I had to get up early on Saturday and Sunday and go clean and fix things at the Tripp Hall — fun."

Some students are even able to find jobs that somehow relate to their major and future occupation. Meg Cortright, a freshman from St. Paul, said, "The Job's Bulletin was amazing. I got a job working at a museum, which is ideal because my majors are art and archeology. If I had wanted, I could have gotten a job feeding chickens, or modeling nude for art classes."

Cara Himrich found a job at the University Hospital. "I plan on going into veterinary work, but I think this job is good experience, and the pay is very good. I think working for the University is a good deal," she said.

If anyone encounters difficulty in obtaining a position, the office will provide referrals by mail to aid in the process. However, a person must fill certain requirements to qualify for the program.

In order to be eligible for a work-study position, a undergraduate must be a citizen or permanent resident of the U.S., be admitted to UW-Madison, in a degree program, and demonstrate financial need. In addition, the student must carry a minimum of twelve credits per semester and maintain satisfactory academic progress. To apply, a student must complete the Financial Aid Form (FAF) and the Financial Aid Application (FAA). These forms are available at the OSFA. It is also necessary for one to submit a copy of their own personal, as well as their parents', federal income tax return. Priority consideration is given to applications received before March 1 of the spring prior to the academic year in which the student wishes to have a work-study job. All forms of financial aid, including work-study jobs, are awarded on an annual basis. One must reapply each year.



Romano

Once the forms have been submitted, they are analyzed by the College Scholarship Service and reviewed by the OSFA to determine the amount of money the family can contribute toward educational expenses. Analysis includes consideration of income, assets and debts, family size, medical/dental expenses and number of children in post-secondary education. Students resources include expected summer earning, awards from agencies outside the University and student assets and earnings. If the combination of all these resources is less than the normal cost of attending the University, the University will attempt to meet the difference.

Drinking age boosted to 21

by Kevin Yellick

It is a rainy night in late August. Jan, the owner of the Stone Hearth, glances across his bar contemplating the impact of the new drinking age. In the morning it will be September 1st and his 19- and 20-year-old drinkers who fill his bar will become the last of their kind.

With the slash of a law-making pen, Governor Anthony Earl, with the help of the state legislature, decided Jan's future clientel would no longer consist of a majority of students living in Ogg and Witte Hall — those under 21 years of age.

The issue was hotly debated for months on the State Assembly floor, the campaign trail and in smokey barrooms. On one side of the issue was the legislature with what amounted to federal blackmail — if the age did not turn to 21, millions of highway construction funds would vanish. On the other side was the Wisconsin Tavern League — if the age did turn to 21, fewer drinkers would belly up to their bars resulting in untold amounts of lost revenue. According to local bar owners, when 19- and 20-year-olds drink, they drink a lot.

Throughout the debate, both sides gave statistics which seemed to contradict each other on every point: the pro-21 group would claim that states that have a "21 Law" have fewer highway deaths, while the anti-21 group claimed those states do have more deaths.

Will the new 21 drinking age change Madison's party town reputation?

"The town has always been and will forever be a true party town," said Deanna, a 21-year-old pre-med student. "I think everyone should cheer-up . . . they are not going to roll up the sidewalks on State Street because a few people can't drink."

But if you were unfortunate enough to be born after Sept. 1, 1967, you may have a different attitude about the change.

"The campus is divided and those that are not legal are somewhat disenfranchised," said Lisa, a 19-year-old pre-law student. "I have many friends who are not of age and if I want to buy them a birthday drink, the only thing I can do is give him or her a cold Miller from my dorm fridge — big night, huh?"

Many under-age students look for ways around the law. Some obtain fake I.D.s while some find fraternity and sorority houses hospitable to their under-age drinking habits. Some students simply turned to various non-alcoholic past times.

Meanwhile, bars scurried to attract what drinkers remained. The Nitty Gritty and other bars remodeled, many more began to offer extensive lunch menus and lavish drink specials.

"It is a matter of survival," one bar owner said, "I have to bring in on the average $850 a day to meet my expenses. I don't care if I sell burgers, booze or bananas."

Ginsberg leaves post of 16 years

by Paula Martin

Paul Ginsberg's Dean of Students' office is located in Room 109 of Bascom Hall where the administrative duties of his job are handled; an office that is empty during the majority of the day only to be occupied late in the evening when he finishes any paper work that was pushed aside to face crises of the day.

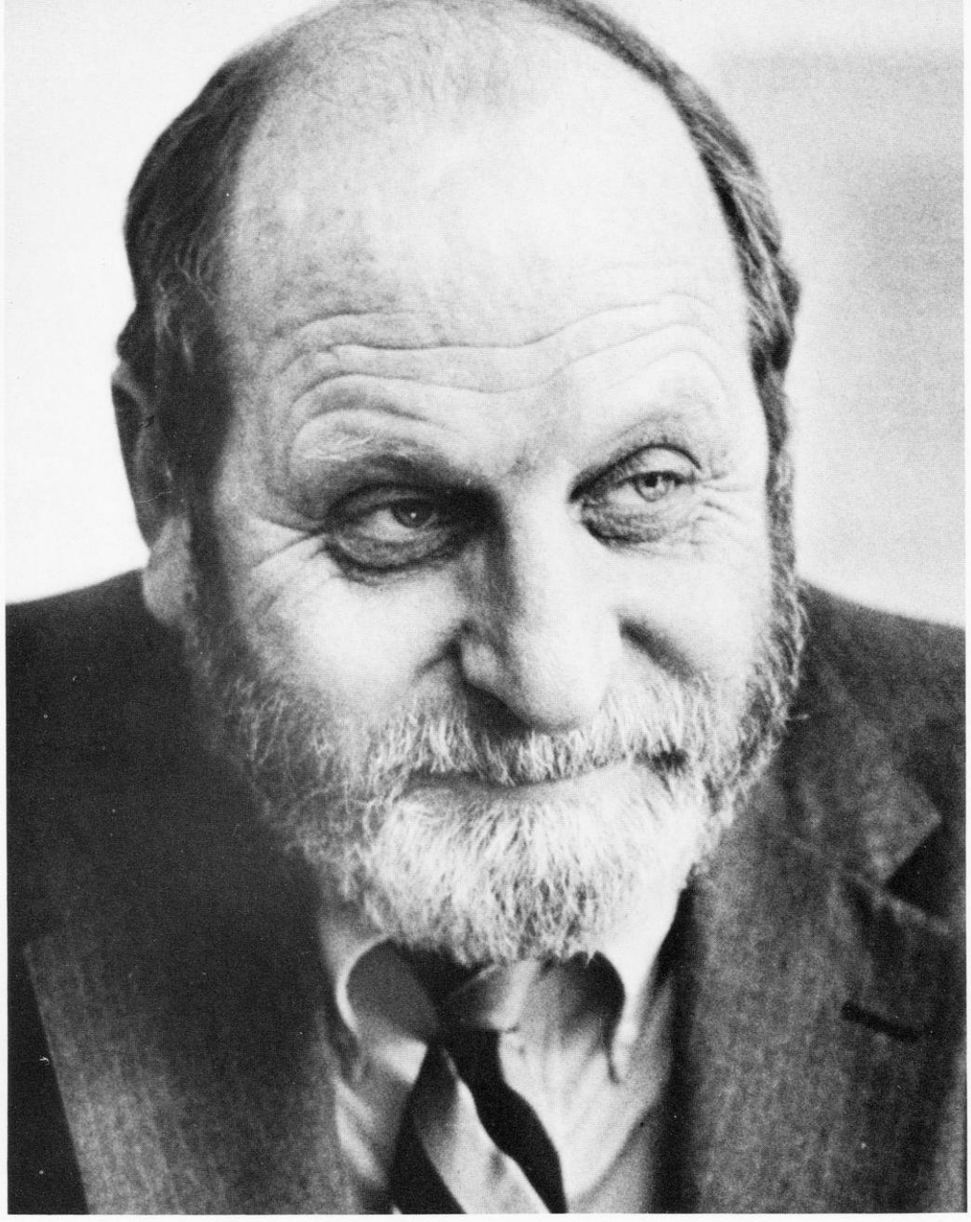
When he is not in his office he can be found putting in his 15 hour day elsewhere on campus. For most students, his face is a familiar one in the student body of football games, where he must decide whether or not the "rhinos" pryamid possesses students to pull unruly tactics in the stands. He can also be found addressing students on the hazards of alcohol consumption or counseling a student with health or scholastic problems. Taking a great concern in all matters that affect the lives of the students.

Having served as the Dean of Students for 16 years, Ginsberg will resign from his position on June 30, 1987.

"I felt it was the right time to do what I wanted to do, and that is to spend more time on the type of one-to-one contact that I need and feel more comfortable with," he said in an interview with Sentinel Madison Bureau.

Ginsberg will remain with the University as a resident counselor maintaining counseling on a one-to-one basis with faculty, staff and students, and eliminating the administrative duties.

Chancellor Irving Shain lauded Ginsberg's "extraordinary dedication to this university. Generations of our students have benefitted from his openness, his warmth, his sympathetic counsel and his integrity. We are grateful for the many ways in which he has made our university more human and more responsive."



Paul Ginsberg

Ginsberg came to Madison in 1951 as an undergraduate student, and became a residence hall housefellow. He also served as a teaching assistant in Sociology, coordinator of housefellow and educational programs in student housing, director of training and staff development for housing and vice chancellor for student affairs.

He feels there comes a time to move on. "I think as a university, we do pretty well administratively, but for me it's becoming overwhelming. It deserves a higher priority than I've been giving it. In that sense, I've done the administrative effort a disservice," said Ginsberg in an interview with Capital Times.

During his tenure here he pointed out the "university's willingness to openly and publicly acknowledge its commitment to the mental health of the students."

He noted as the most disappointing situation in his career, was the decision the UW Board of Regents made in 1970 to close the campus Afro Center.

A positive change which Ginsberg noticed in his tenure here is the change in students. "I think students are more traditional now, students tend to be more concerned about their studies, they tend to be more concerned about survival, and they're more likely to bring the values of their parents to campus than before."

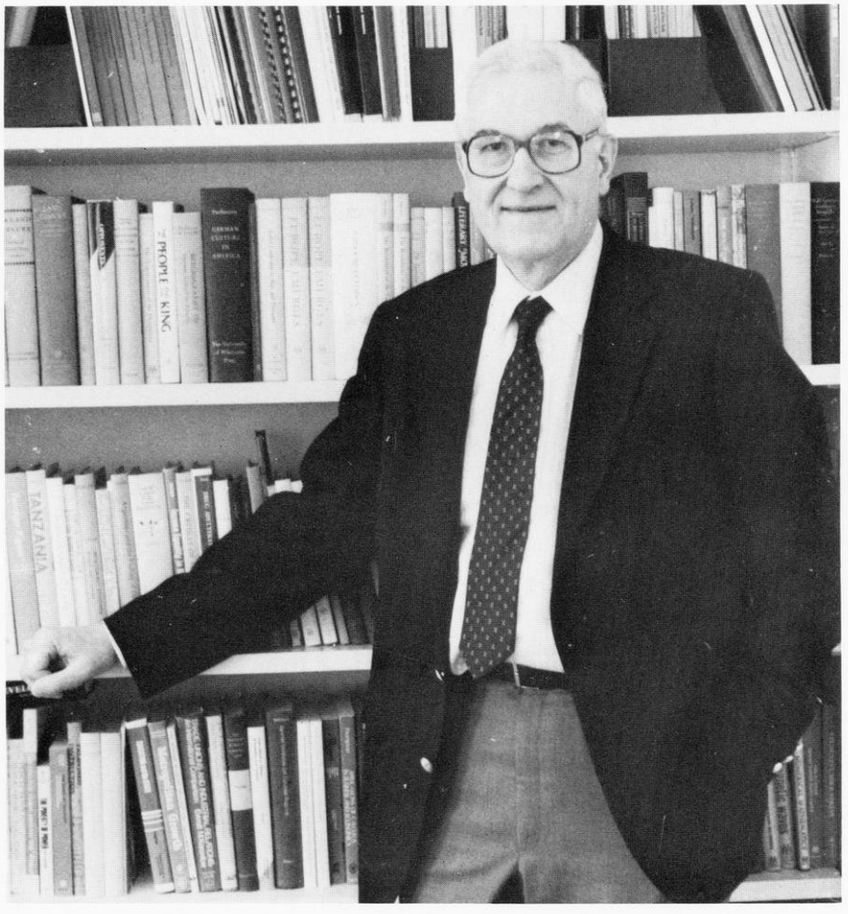
Shain says goodbye administration

by Paula Martin

When the clock struck midnight on December 31, ringing in the new year, people toasted the memories of 1986 and made new resolutions for 1987. For Chancellor Irving Shain the new year meant a toast of good-byes to the university and a look ahead to his new career.

For 9½ years Shain has been Chancellor of Wisconsin and upon his sudden retirement he is now beginning a new career with the Olin Corporation in Connecticut.

Shain's decision to retire at the age of 61 is due to a state law that makes it mandatory for a chancellor to retire at age 62, when the state will cease to contribute to the retirement fund of the chancellor and freeze all benefits. However, faculty do not have to retire until they desire. In order for Shain to retain his retirement benefits his only choice would be to return to the faculty.



Irving Shain

He began making arrangements months ago to obtain a faculty office.

"You know it is sometimes hard to get an office around here. You have to give some notice about it.

"I was complaining to some of my friends in industry that I would have to go back and learn once again how to teach freshmen chemistry," said Shain. "They said it was silly and I should come and work for them."

An opportunity from a friend to begin working immediately on a four year assignment and receive complete retirement benefits at age 65, was a sudden opportunity to "start a new career' said Shain.

The Olin Corporation is the producer of Olin Ski's along with many other goods. Shain will be stationed out of the main headquarters in Stanford, Connecticut and will travel to each of the companies of Olin which are located in New Jersey, Connecticut, Rhode Island, Seattle, and St. Louis to observe individual research programs. He said his job is to "try to make sure all work toward the same goals, have high quality research programs, and evaluate research projects and personals."

Shain has been part of the University of Wisconsin System since 1952 when he was an instructor in Chemistry. He moved through the ranks of the Chemistry department to become chairman of the department from 1967-70. Then in 1970 he was appointed Vice-Chancellor until 1975. He went on leave for two years to the University of Washington in Seattle where he was prohost to the University. Then returned to Wisconsin in 1977 as Chancellor.

"I spent my entire career at two UWs," he said. "The University of Wisconsin and the University of Washington."

Arthur O. Hove, assistant to the Chancellor, has worked with Shain for 17 years described Shain as a "demanding and precise individual but at the same time easy to work and communicate with."

"He has a great sense of humor and makes things loose around here," Hove said.

There are many future changes Shain see's, and that is why he left with the new chancellor a list of items entitled "Tasks Left Undone."

Shain has a great love for the institution and understands it more than most, said Hove. "He is committed to its excellence. His knowledge and commitment will be hard to replace."

Shain feels this is just a situation where he is going to leave and plans to return after four years to be a freshmen chemistry instructor.

Shaw named president

by Paula Martin

There is a new face on the Madison campus, and every other university campus in Wisconsin, — a face belonging to Dr. Kenneth A. Shaw, the new president of the University of Wisconsin System.

Shaw, 47, former Chancellor of Southern Illinois University from 1979-86, stepped into the rank as president of the Wisconsin System in January, 1986. He replaced Robert O'Neil, who served the Wisconsin System for five years, and now resides as President of the University of Virginia.

"I am proud to join one of this country's outstanding systems of higher education," said Shaw at his press conference announcing his appointment.

When the position opened, Shaw was asked to apply. What attracted him most to Wisconsin was "the state's strong support for education at all levels and the opportunity to make a difference."

The chance for better communication with the university mission and the state and a challenge to preserve the strong reputation of the education as an outstanding university in the country are opportunities Shaw will deal with during his tenure in Wisconsin.

In 1961, he launched his professional career as a history teacher, counselor and coach at Rich Township High School in Park Forest, Ill. Finishing his Ph.D. at Purdue in 1966, Shaw was named Assistant to the President and also lectured for the sociology department of Illinois State University.

From 1969-77 he was Vice-President and Dean of the University, Associate Professor of Sociology for Towson State University in Baltimore, Md. After his position at Towson University, he was appointed President to Southern Illinois University at Edwardsville, Ill., the largest university in the St. Louis metropolitan area, from 1977-79.

An achiever in community activities, Shaw likes to volunteer in activities. He has worked on United Fund Drives, Vice Chairperson of the Governors' Build Illinois Task Force and received Citizen-of-the-Year in 1985 by Southern Illinois, Inc.

Shaw has received various awards in past years. The most recent was the NCAA's Silver Anniversary Award in 1986. This award is given to people who are celebrating their 25th year of college graduation and were involved in varsity athletics and have achieved prominance in fulfilling their career. He was up against a surgeon; Jack Nickolas, professional golfer; Fran Tarkenton, media personnel and former Minnesota Viking quarterback; and a financier. As a guard for Illinois State University basketball team he said he broke no records but "played a lot of games in four years." He alloted this to the award and being admitted to the Illinois Basketball Hall of Fame in 1983.

Shaw's wife, Mary Ann, "is a full-time employee without pay, she helps me with my work," said Shaw. The Shaw's have three children: Kenneth 22, an accountant in St. Louis; Susan 20, 3rd year student in Madison; and Sara 17, Illinois High School graduate.

Shaw and his wife have visited the campuses of every university in the Wisconsin System and were impressed with the diversity of emphasis, interest and physical layout from institution to institution, but sensed a similarity among the wit and enthusiasm of faculty and staff.

With a look into the future of Wisconsin campuses Shaw forgoes that the state must continue to give quality education, and must continue to be outstanding.

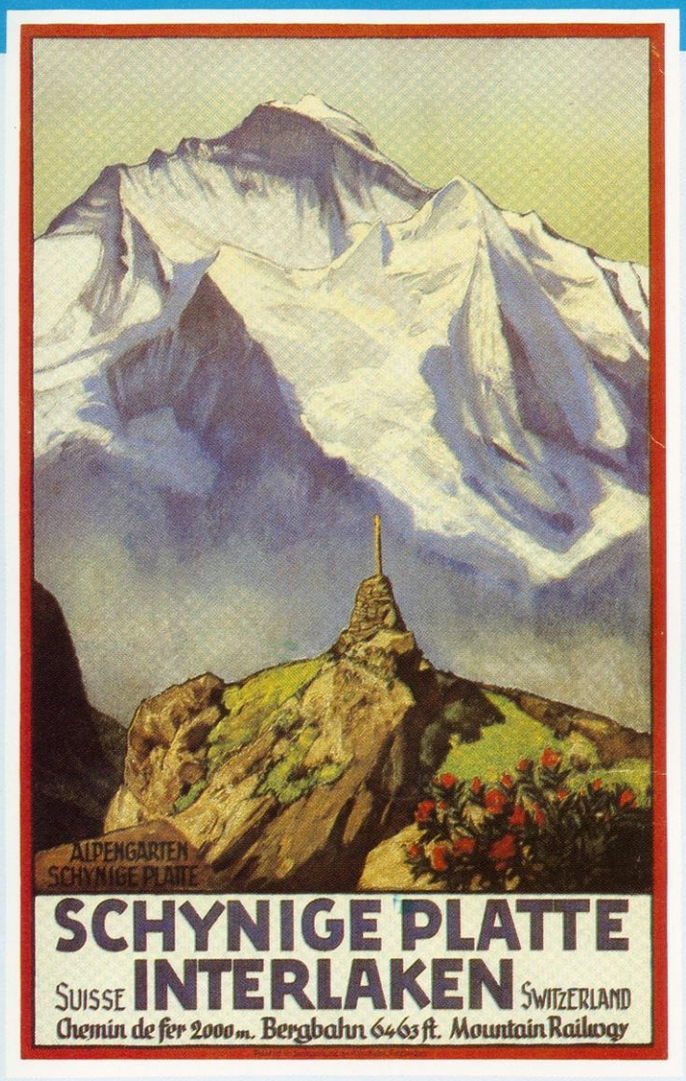
"The university is important to the future," Shaw said.

Shaw will emphasize diversity, quality and responsiveness. These three attributes meet the special needs of the state and nation and make it (the university) a unique contributor to public welfare.

Foreign Correspondents

"Hi Badgers! How's everything in Madtown? Things are going great here in Freiburg. We Americans fit right into German culture since all we want to do is drink beer — there's **lots** of it here. It's been hard to get used to not finding any Skippy Super Chunk or orange cheese, but I guess we'll get over it. Wish you could all be here, but I don't think Germany could handle 45,000 students out of control. I miss hearing that great band play "Varsity." Somehow it's not the same when I sing it to myself."

— Dan Vigg, Germany

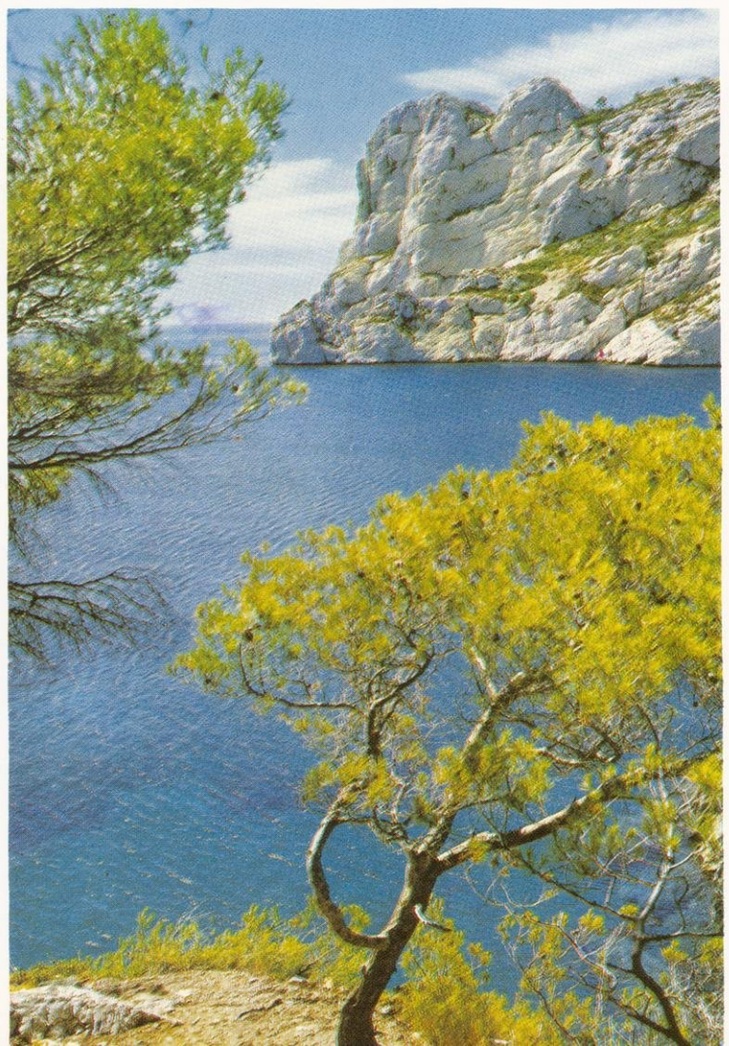


"Greetings from your photographer abroad. I hope you're taking lots of pics . . . **I am!** I was told before that "traveling is a lot like schooling." Now I agree, but with one exception — the homework is a lot easier!"

— Mike Sanders, Sweden

"This year that I'm spending here in Aiven-Province is one of the most fun, exciting and challenging things I've ever done and I wouldn't change it for anything except maybe a Diet Coke. The things I have ahead of me and even behind me are mind boggling. I strongly encourage a junior year abroad to anyone with even a small inclination to do it."

— Cathy Klann, France



It's a Long Way to go But Worth the Effort

by Karen Armaganian

Remember the emotions encountered when going to see a foreign film for the first time? Initially there is anticipation, but then the viewing may become confusing or discouraging. These are the same kinds of feelings a foreign student must feel when first entering the U.W. However, the viewer of a film knows that in just two or three hours he can return to familiar surroundings. A foreign student has to face different customs, ideas, classes, buildings and people for a year or more.

Wembo Li from the People's Republic of China plans on returning home for good in five or six years, but he may return for a visit in two. He started his trip on August 22, 1986 in Peking at 10 a.m. and arrived in San Francisco at the exact same date and time. "At least I didn't lose any time," he commented.

This trip was the first time Li had been on a plane. He explained that after he settled in and started school, classes seemed hard; but he likes the social life. "I like to join the party on the weekends, in China there is no party like in Madison!" Li exclaimed. "In China a party meant dancing, but now I know what an American party means."

Mamphono Khaketlo from South Africa said that life in America is . . . "so far so good." But one big difference she has found is in the traffic around Madison. "In South Africa we drive on the left, here they drive on the right, I'm always looking the wrong way when I cross the street!" Khaketlo noticed, "Here everybody carries their bags on their right shoulder, so when they pass people on the left, they do not run into each other — it is so different."

Hung Tran from Vietnam remembers when he first arrived in the U.S., he played a game of softball. "I just couldn't hit the ball, finally on the last try, I hit it and it went so far. I was so happy, I was jumping around, but I never figured out that I had to run the bases. It was all an experience — I learned a lot, I did not know English." Tran studied and worked hard to make it to U.W. Madison.

Ming Wan from the People's Republic of China felt he was overprepared and wondered why he didn't feel any culture shock. "The U.S. is just not as crazy as I thought it would be. I got impressions from American pop and rock music, and that's just not the way it was." However, he finds the States "a world in its own — it's wonderful." He claims in China, Americans are stereotyped, but he has found "people are people — everybody is so different, you can't generalize or draw any conclusions about America."

These people, among many others, have faced the foreign and unknown by venturing to live and study in a distant country. Adjustments are undoubtedly difficult, but the end results are rewarding. In the words of Ming Wan, "Madison is cool — it is a nice place for people to study."

Bells Ring 50 Years Birthday Celebration

by Jennifer Agasie

The carillon tower on campus celebrated its 50th anniversary this past summer with a weekend of concerts and celebrations. John Harvey, retired music professor, arranged to have tours, bus service to Bascom Hill and concerts so all might enjoy the festive sounds of the bells.

Sometimes pronounced carillion, the bell tower is an old Dutch tradition, however, only 475 exist in the world today. The United States has 150 carillons, three of which are in Wisconsin.

This year, the anniversary dates fell on the same weekend as the first dedication — June 20, 21, 22. Five concerts were given during the weekend, each featuring past players from the tower's history.

Saturday evening featured a concert entitled "Under The Strawberry Moon." Although the moon was hidden behind sporadic rain clouds, "Varsity," "The Stars and Stripes Forever," and "The Bells of St. Mary's" could be heard all around Bascom, Memorial Union and lakeshore dorms.

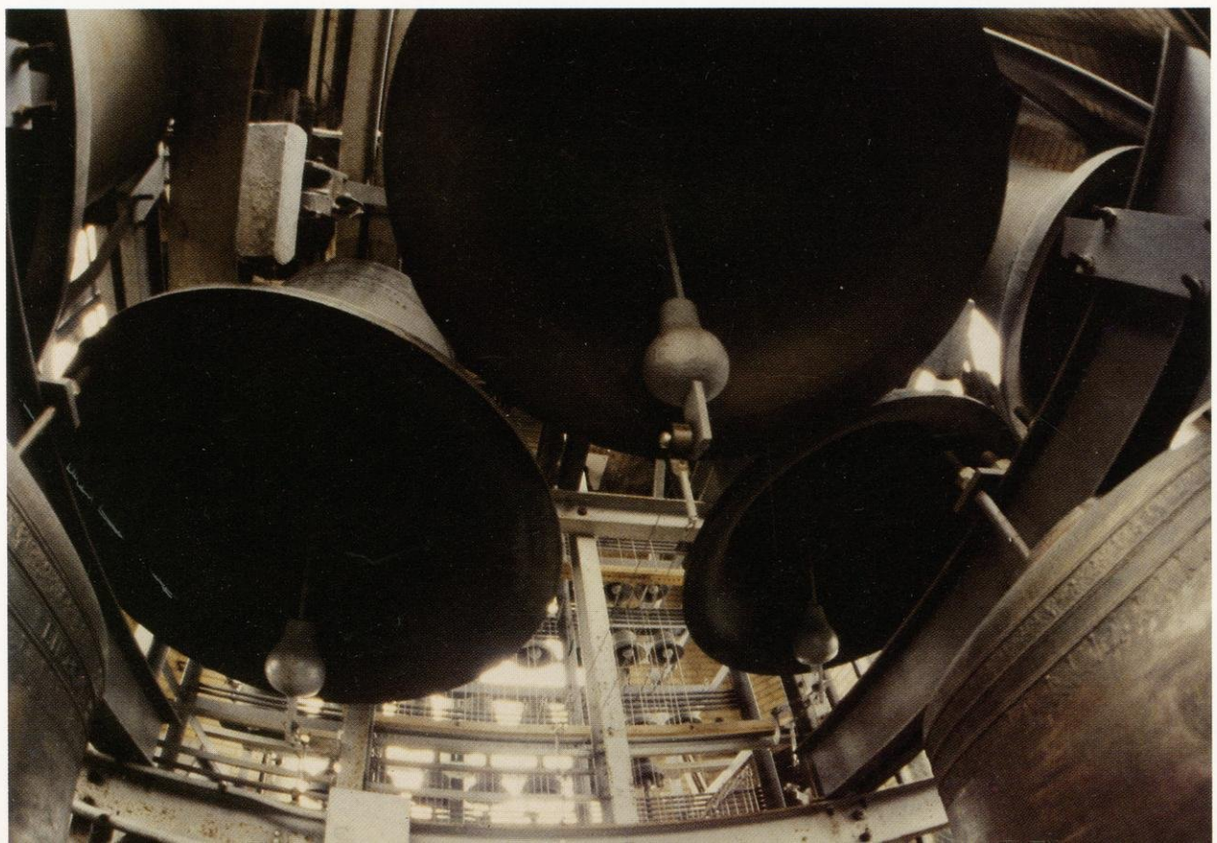
During the day, the tower was open for tours of the practice room, playing room and belfry.

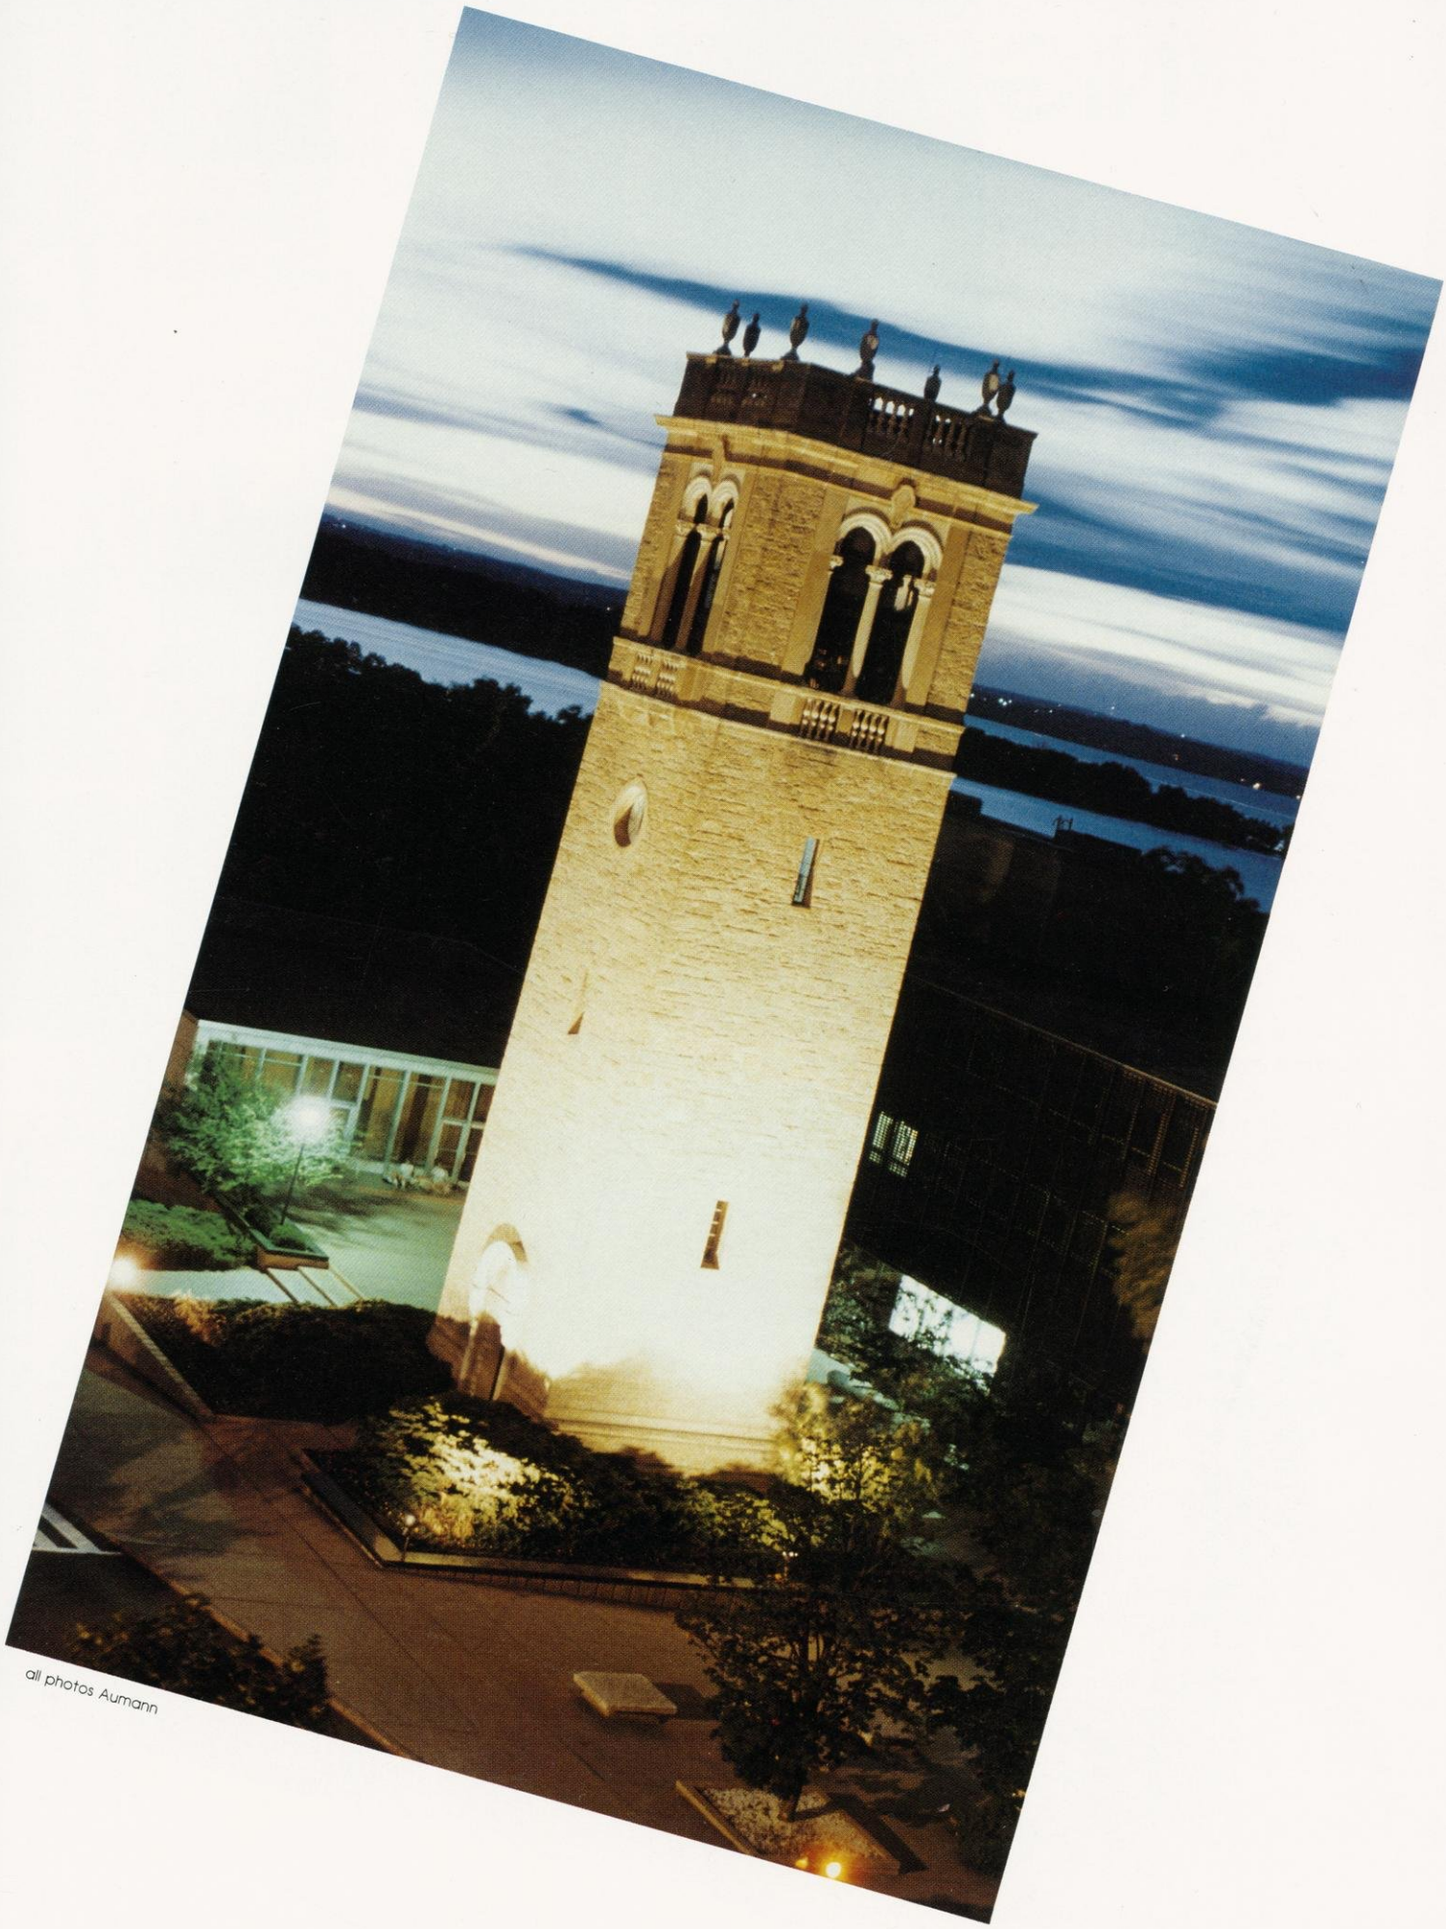
The carillon here has 56 bells with four-and-one-half octaves, and is the 13th largest; the average number is 47 bells. The carillon is all mechanical and can be played with hands and feet, or set with a clock-timer. The bells do not swing; instead clappers are attached to each bell. The playing key moves approximately four inches and the clapper moves one inch to play. The heaviest bell is 6,823 pounds and plays B-flat.

Plans for a carillon on campus initially began in 1916 when Bascom tower burned down. Class gifts from 1917 through 1926 donated money to rebuild the tower with bells. However, in 1932 the plans changed; the tower was never rebuilt, but a carillon was designed instead by Arthur Peabody, state architect.

Initially in a wooded setting, university growth soon crowded the tower. In 1961 Social Science Building was constructed with a patio to provide listening area for the carillon.

Although the tower is no longer the tallest building in the area, its music wafts about campus. Concerts are given every Sunday at 3 p.m.





all photos Aumann

NIGHT LIFE!

You name it, we've got it

by Kevin Yellick

Madison, an eclectic gathering of culture, and every conceivable way to counter it. Its night life reflects the anything-goes attitude that seems to be the hallmark of Mad-town.

And so it is only Madison that can offer its night-time thrill seekers a lecture on the history of socialism in America as it relates to the urban setting of modern Detroit, while just down the street the Church Key's rafters bend with the music; 400 people sweating, swaying and bumping to the latest.

"If I feel like soaking in some cultural artsy-fartsy entertainment, Madison has it. Of course, if I feel like getting silly-drunk, Madison offers that as well," Judy Lemke, junior, said.

When Badgers are all dressed up there is always a place to go. Madison has more than 150 bars. Thirty-five are located near campus. Along with the liquid entertainment, there are seven theaters, eight theater groups and more than 25 movie houses.

"What medium size town can offer the diversity Madison does? Sure, sometimes I think that this town needs something more, but on the whole, it's one-hell-of-a town to have a good time in," Jack Trebnio, sophomore from a large city southeast which will remain nameless, said.

While the campus bars which dot State Street carry much of Madison's party reputation there are many students that find the non-campus night life more in line with their party attitude. Whatever your bag, Madison will try to fill it.

"Some of the bars on the fringes of campus still enjoy much of the diversity, color and excitement that made Madison famous while the elbow shoving, 'hi-what's-your-major' bars near campus remain mundane and predictable," Chris Kummerow, graduate student from California, said.

What do Badgers do in Madison when going to the bars becomes old stuff? They make a variation on a theme, turn it into a game and call it fun. One such event is called the horse-shoe. It involves traveling from the top of State Street down to Lake Street and returning on the other side of State — sampling a pitcher of beer at each stop. The more friends that accompany you the better chance you have of completing the task. Another event, find-your-housefellow, works like this: your housefellow hides out in a campus bar and you and friends make the rounds looking for him or her until the wayward guardian is located. When found, the housefellow buys the drinks.

The Union Terrace is a favorite place to be when it comes to low cost nighttime entertainment. It becomes even more so when the dollars are short. More than a few people at the Union on a Friday night can show you how to nurse one bottle of Augsburger for four hours.

"The important thing to remember is not to hold the bottle for long periods or the label becomes soggy," said a veteran slow beer-drinker. (This man is known to take a half bottle home to save for the next night.) He does not often talk of taste, the last swallow is said to be the worst, but he will tell you of fun without money.

From bonfires on Picnic Point, to ethnic dancing on Library Mall, quiet walks down lakeshore path, to live carp in the fountain, Madison will rarely disappoint.

*BOO*s sound without booze on State St.

It's been called an omen, a pain, a blast, but the rain continues to fall on Halloween festivities on State Street. Yet this year started off drier than last year in two respects. The rain began only as a slight drizzle instead of the torrential downpour of 1985, and WSA, the official sponsor of the party, did not sell alcohol. Party-goers could bring their own alcoholic beverages to State Street, but no booths were set up for beer sales.

The fun and craziness still persisted, despite such slight dampers. Some of the costumes people remember seeing on State Street were Christmas trees, 4-packs of Bartels and James wine-coolers, spiders and gorillas. Several party-goers witnessed "saloon girls" performing suggestive dances from a second story window of the Madison Inn.

Officials estimated nearly 75,000 people were on State Street for Halloween. The holiday fell on a Friday night, adding to the numbers and party atmosphere. Prior to the event, officials, police and security staff stressed their willingness to be flexible, allowing open intoxicants on the street. They strongly urged people to bring canned beverages and avoid glass for safety's sake.

This seemed to work out well. No major injuries were reported Monday, but students speculated that aluminum can collectors had a record day; the area was basically void of left-over litter.

Badger Football Sparks Gala Activity in Town

by Laura Madsen

Warm-up parties, Bucky Badger, the fifth quarter — they are all a part of the fun on Badger football Saturdays. Pre-game activities vary greatly, and what you do all depends on who you are.

Of course, if you are a football player, your day begins with a good breakfast and some last-minute coaching instruction before going out on the field to crush the opponent.

On the sidelines are the cheerleaders who started the morning with a Bucky run through town, drumming up spirit among Badger fans on the streets.

The UW Marching Band and pom-pon squad begin their day on the football field at 7:00 a.m. After one last practice, it's over to Union South for the Badger Bash, playing and performing for all the fans who have gathered for the gala.

For many, football Saturdays are an excuse to get a little crazy and have a good time. Breese Terrace and Langdon Street host most of the pre-game parties for these rowdier fans. Their mornings generally include large quantities of screw drivers, Bloody Mary's and beer to help get them ready for the day that lies ahead.

Other fans find private tailgate parties more to their liking. These folks arrive in Madison early to try and get the limited parking places near Camp Randall, then feast from huge spreads of delectable food before the game.

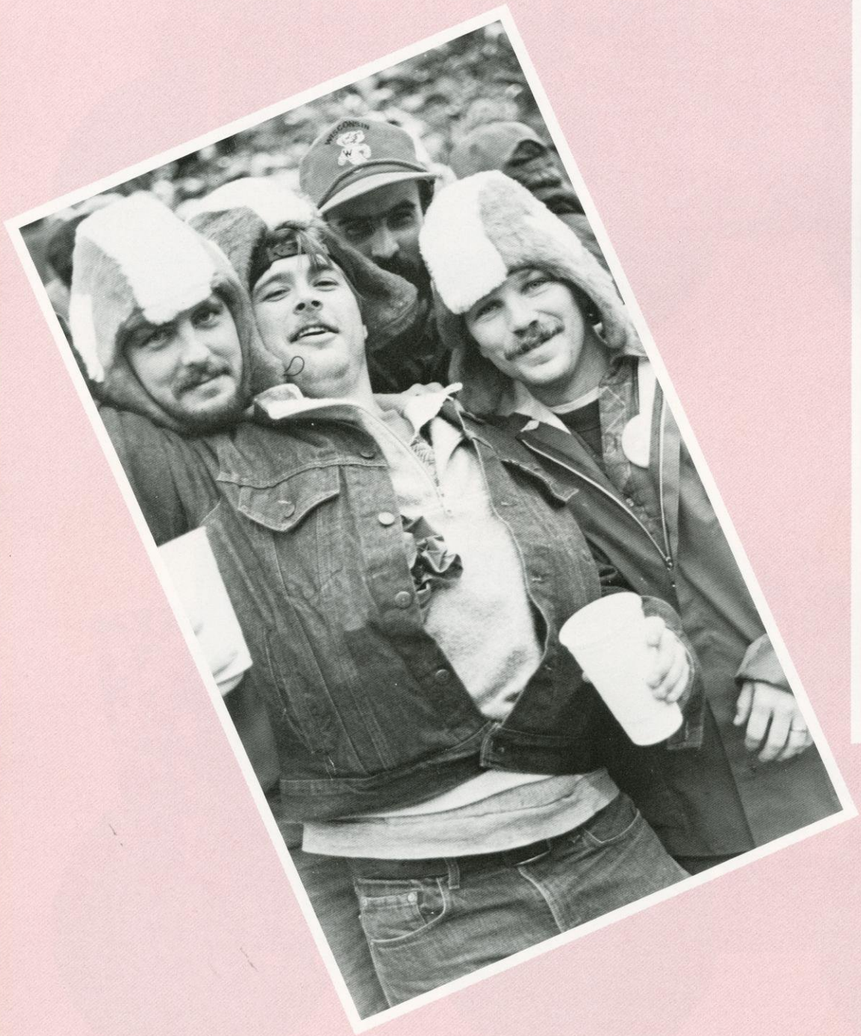
As widely as pre-game activities vary, so do experiences at the game. The student sections have built up quite a reputation over the years and those who sit here are usually prepared for combat. In between trying over and over again to start the wave and the stroke, cup fights and chants about sections O and P, you might be able to see one or two plays of the game.

Across the stadium is a much more controlled crowd, as they have paid more money to be able to watch the game.

Regardless of what you do beforehand, or where you sit inside, one thing everyone who comes out for a Badger football game can expect is a great time and fantastic entertainment. There's no place like Wisconsin for a football game — complete with five quarters.

Let's Get

Twisted!



Badgers Catch the Wave Beating Illinois 15-9

by Laura Madsen

Fun mixed with friendly competition was the environment on campus Oct. 19-25 as Homecoming activities took place to the tune of Red, White & UW — Catch the Wave. The highlight of the week was the Badgers' 15-9 win against Illinois. Rain and cold weather did not put a damper on the festivities.

Things were off and running with the second annual Charity Run. This year, more than 300 participants took part and raced in the course around campus.

There was plenty of action Sunday afternoon as students met on the intramural fields in an attempt to break the record for the world's largest Twister game. People twisted and tangled on the 3,000 mats as Ralph Cohen, official announcer from **Z104** Radio, called the moves. While the numbers were short of the record, everyone who came had a great time.

The real colors came out Tuesday on the mall in the banner judging competition. Greek houses, residence halls and campus organizations displayed the banners they created to match the Homecoming theme. A walk down the mall showed Bucky catching the wave, doing the wave or just plain waving to all the passersby. This year more than ever, the ingenuity showed through as many of the banners were complete with moving parts.

Bascom Hill was the place to be Wednesday evening to see the Dizzy Izzy competition. Residence hall teams spun in circles around baseball bats and then stumbled down the hill in this relay race.

Yelling was encouraged Thursday at the Yell-Like-Hell contest. Again, the Greek pairs, residence halls and campus organizations got together for more fun as they performed their chants before a group of judges and onlookers. Shouts and music from the UW Marching Band rang from the steps of Memorial Union inviting all to come out and watch.

Friday began with the traditional parade around the Capitol Square. The band and pompon squad led the way, followed by Greek floats, the Homecoming court and various entries. Other highlights included Arlie Mucks, executive director of Wisconsin Alumni Association, riding a camel and the cheerleaders performing their stunts and acrobatics.

Following the parade was a pep rally on the mall. Several speakers offered encouraging words about the team and the fans, including Badger football coach Jim Hilles, the team captains and Mucks.

The Homecoming Committee presented Dean Paul Ginsburg with a check for $1500 for the Student Crisis Fund. The money represents the proceeds from the Homecoming activities. Afterward, the winners were announced for the week's competition and the band kept up the enthusiasm playing favorites, such as the 'Bud Song' and 'Varsity.'

His Spirit Remains with Badgers

by Paula Martin

"Execution with enthusiasm." That was the theme of the 1986 Badger football season. A theme to be emphasized throughout the year by head coach Dave McClain, but on Monday, April 28, 1986 his spirit of execution was shattered.

McClain, 48, suffered a heart attack in a sauna at Camp Randall Stadium following a workout on a stationary bicycly. He passed away at 3:12 p.m. at St. Mary's Hospital.

"He left a good program," said University Athletic Director Elroy Hirsch. "It was a shock to lose him and we are still recovering in a lot of ways."

McClain came to Wisconsin in 1978 from a head coaching position at Ball State in the Mid-American Conference, which is not as large as the Big-10, and was looking for a step up to the college ranks.

Hirsch recalled that when searching for a new head coach, "you call a lot of people, and the same names keep cropping up, saying 'this would be a good coach for your situation.' The more we called around the more his (McClain) name was mentioned."

After an interview was conducted, his tapes were reviewed, and he explained his theory of football, "we (football experts) liked him even more," said Hirsch.

In his eight years coaching the Badgers, McClain compiled an overall record of 46 wins, 42 losses, and 3 ties, and led the Badgers to three post-season bowls: the Garden State Bowl in 1981, the Independence Bowl in 1982, and the Hall of Fame Bowl in 1984.

Both Hirsch and Jim Hilles, 1986 "interim" head coach, former assistant head coach and defensive coordinator under McClain for a combined total of 14 years at Ball State and Wisconsin, noted McClain was a "very goal oriented person and a good family man."

Hirsch believed McClain did not accomplish all his goals. "I think he wanted to go to the Rose Bowl, or wanted to take us to a bowl game every year. He did accomplish that three times," Hirsch said.

Coaching a football team was a very time consuming job, and Hirsch pointed out two examples when he was away from home for long periods of time. First, the football season, when McClain put in tremendous hours each day, spending Sundays viewing tapes and viewing the trauma of winning and losing. The second was the recruiting period, when he was on the road for two weeks at a time.

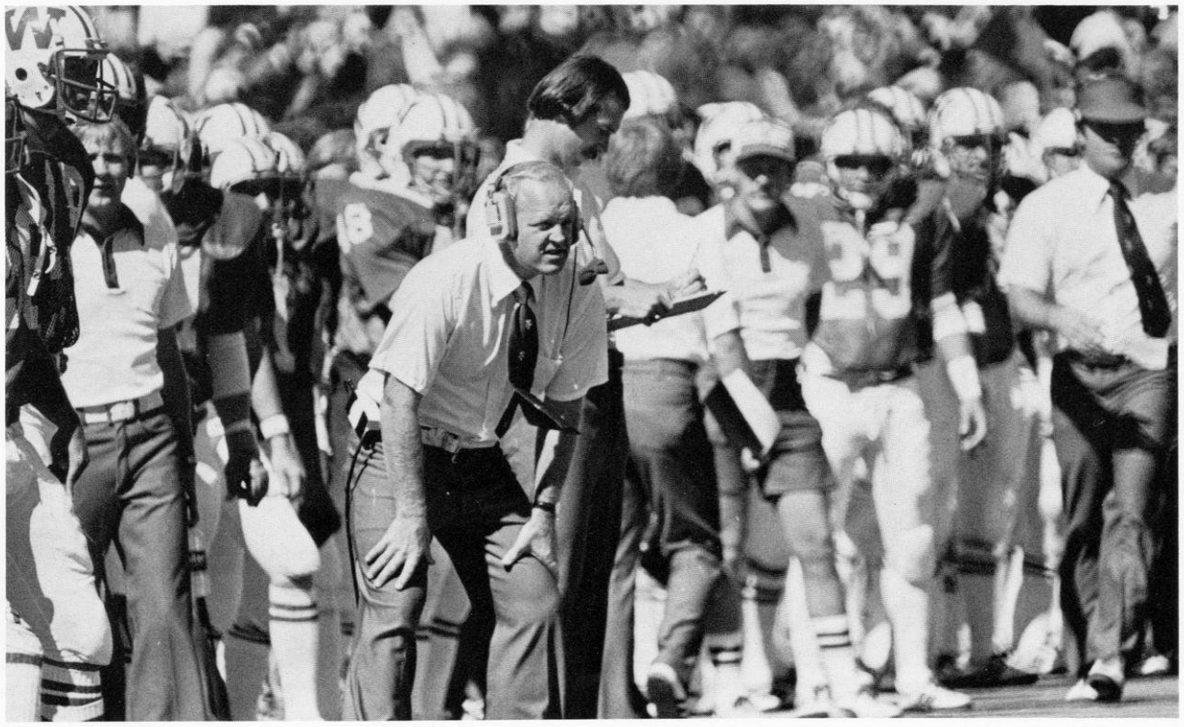
McClain's main concern was for his family (survivors, wife, Judy and three children, Tom, Marcy and Mindy) and then his love for football. "There was precious little time together and he made the most of it," said Hirsch. "He was happiest in his life when he was at their cottage on Lake Wisconsin and the family was together."

Time with his family was very important and he wanted his assistant coaches to spend time with their families also, never working his staff outrageous hours.

Rick Graf, senior outside linebacker, three year letter winner and graduate of Madison Memorial recalled the time McClain came to recruit him.

"Being from Madison he came to my house early in the summer and talked with me and my parents for an hour. At first my parents did not want me to play for Wisconsin, but once they met him they decided he was a nice man, he was himself, and a down to earth guy, and they wanted me to go to Wisconsin," Graf said.

When Joe Armentrout, senior fullback, co-captain, three year letter winner from Elgin, Illinois, was being recruited he recalled spending an hour in McClain's office talking of their families. "An hour that seemed like five minutes. He was a joy to be with. An honest man and he emitted a good feeling when he was around others," said Armentrout.



McClain recruited student athletes and those geared to play professional football, but the main emphasis was on academics and education. He realized that if professional football comes to an individual and the athlete has the talent to play on a professional basis, it is a nice living but a short one, and the player would soon have to fall back on his education.

"He seemed to know the classes we were taking," said Graf. "He would always ask how I was doing in this one particular class. He got to know us beyond the point of football, more on a personal basis."

As a coach and person he was a very optimistic individual, getting his staff and the people around him to thinking that no matter how bad a situation was there was something worse somewhere else and they did have a chance to win in what they were doing.

"He hated to get beat, but he never gave up and always felt you could get better and keep on coming back," said Graf. "This is something we can use in other ways of our life."

When McClain won a game he was the happiest coach ever seen and he let it be known publicly.

"We still have a picture of the players carrying him off the field on their shoulders when he beat Ohio State here for the first time," said Hirsch.

He beat Ohio State four out of five times when in the past they were clobbering the Badgers.

"He was a country boy and didn't hide it," said Graf.

One game day McClain got to a "fever pitch" according to Hilles. "We were all nervous. It became a regular thing to sit in the coaches' locker room and have our stomachs tied in knots. Dave would look at me and say 'why do we do this to ourselves', and the answer is obvious, it's a living and what we do every Saturday," said Hilles.

On the field he displayed all the symptoms of a nervous coach.

"He was never seen standing in one spot," Hirsch said, describing McClain's sideline actions.

"I remember him pacing up and down the field, clapping his hands, or his hands were in and out of his pockets, and he always seemed to be in the air," said Armentrout.

McClain's love and life was for football and in his memory the state legislature recommended building an indoor practice facility named 'The Dave McClain Memorial.' The athletic department dedicated its first program in his memory. Seniors decided at spring practice that in memory they would wear black footballs with the initials 'D.M.' on the back of their helmets.

Execution . . . McClain had it, enthusiasm . . . he demonstrated it. McClain was a great influence on many lives and left an abundance of memories.

A Wisconsin Welcome To ...

The 1986-87 women's basketball season saw a new face on the bench — Head Coach Mary Ellen Murphy.

Murphy is a 1980 graduate of Northwestern University with a degree in public administration and public policy. At Northwestern she was a four year starter for the Wildcats and led the team to two consecutive Big Ten Conference titles in 1979 and 1980. Along with their 1980 Conference title the Wildcats won the Midwest Association of Intercollegiate Sports for Women Regional Tournament.

Murphy, a Chicago native, was named the Chicago area "Player of the Decade," 1970-80. Her accomplishments include Kodak All-American Regional Winner and Wade Trophy finalist her senior year.

She completed her masters in business administration at Notre Dame in 1982. There she was assistant women's basketball coach for six years, and now completes her first year as Head Coach of Wisconsin.

"I am excited about the potential here," said Murphy. "I am also excited about the town and the university. I've heard they're a lot of fun."

Rebuilding the women's program is a task Murphy is handling. She would like to see "more support of the community and student body. I want to get people just as excited for basketball as they do on football Saturdays."

Wisconsin has the third highest attendance in the Big Ten and Murphy feels this shows that people here care.

"I have been doing more speaking engagements to let people know about women's basketball."

For the first time in Wisconsin Women's Basketball history a talk show was held with Coach Murphy and Paula Bonner, Assistant Athletic Director.

"It has been very successful and well received throughout the community. We've had interesting guests and large audiences," said Murphy.

Another step to rebuilding Murphy feels is "to get the team to enjoy playing basketball again, and keep positive thoughts rolling." Murphy also included a strong emphasis on academics.

Murphy's staff is one of good reputation. Mike Peckham, assistant coach, and former assistant coach at the University of North Carolina at Chapel Hill, brings with him head recruiting experience, basketball knowledge and NCAA Tournament experience (the Tar Hills appeared in four NCAA Tournaments).

Donna Freitag, assistant coach, is a graduate of Iowa where she was the team's MVP and captain of the 1982-83 season. And for two years she played with the professional women's basketball league in Ireland.

"With the staff, we have great credibility," said Murphy.

Coaches Murphy and Morton

On November 28, 1986, Chancellor Irving Shain announced the appointment of Don Morton as the head football coach for the Wisconsin Badgers on a five-year contract.

Prior to the Badgers, Morton was head coach at the University of Tulsa where he led the Hurricanes to the Missouri Valley Conference title in 1985. An impressive 5-0-0 conference record and 6-5-0 overall for the season.

In 1986 the Hurricanes withdrew from the Missouri Valley Conference and competed as an independent. For the year they acquired a 7-4-0 record, ranked third nationally in rushing offense and 14th nationally in total offense.

Morton, a native of Flint, Michigan, graduated in 1969 from Augustana College of Rock Island, Illinois where he played offensive center. He received his bachelors degree in Psychology and obtained his masters degree in Education and Administration from Western Illinois University in 1974.

His coaching career began as an assistant high school football coach and head wrestling coach in Moline, Illinois for two years. He spent the next six years in his first college coaching experience at Augustana College of South Dakota, as an offensive line coach and defensive coordinator.

He then accepted the position of offensive backfield coach at North Dakota State University and two years later he was named the team's head coach.

In his six years at North Dakota State he accumulated a record of 57-15-0 and won four straight conference titles. The Bison competed three times in NCAA Division II championship Playoffs; winning the title in 1983 and placing second in 1981 and 1984.

As head coach for eight seasons Morton acquired a winning record of 70-24-0.

A winning record that will continue into the 1987 Badger football season. Welcome Coach Morton to the University of Wisconsin. We're proud to have you as a Badger.

Highlights

January

2 Oklahoma is rated the nation's best college football team in polls.

7 Reagan cuts U.S. economic ties with Libya in response to Vienna and Rome airport attacks.

13 The UW plans a tuition hike. Residents will pay $188 more per year and out-of-state will pay $648.

22 A bill permitting the sale of non-prescription contraceptives through vending machines in public bathrooms is brought before the assembly.

23 An estimated 400 to 500 embarked in a snowball fight after bar time on Langdon Street incurring injuries and 2 car accidents.

26 The Chicago Bears win Super Bowl XX over the New England Patriots by a score of 46-10.

27 Three Minnesota men's basketball players are charged with first degree sexual assault of an 18-year old MATC woman student at the Concourse Hotel. Head Coach, Jim Dutcher, resigned his position in the middle of this scandal.

Weber

28 The American Space Shuttle "Challenger" explodes after takeoff. All seven crew members die including school teacher, Christa McAuliffe.

February

6 Student leaders protest tuition hikes. Students, led by WSA, delivered 1,000 mock checks to the governor's office to show opposition to the pending tuition increases.

6 President Reagan celebrates his 75th birthday.

6 About 75 people march down State Street to a State Investment Board meeting, and once again these Madison anti-apartheid protestors have been asked to be patient.

12 Cyanide was found in 2 bottles of Tylenol capsules, resulting in the death of a New York woman.

After Ogg Hall residents finished scheduling, they thought the hardest part of reg-week was over. Little did they know that the real test of their endurance was yet to come: the first annual Ogg Olympics.

For the five days of reg-week, Ogg sponsored olympic events for the 12 houses within Ogg Hall. Events included tug-of-war, egg relays, dizzy-izzy, and "telephone booth," which is fitting the most people on a small platform.

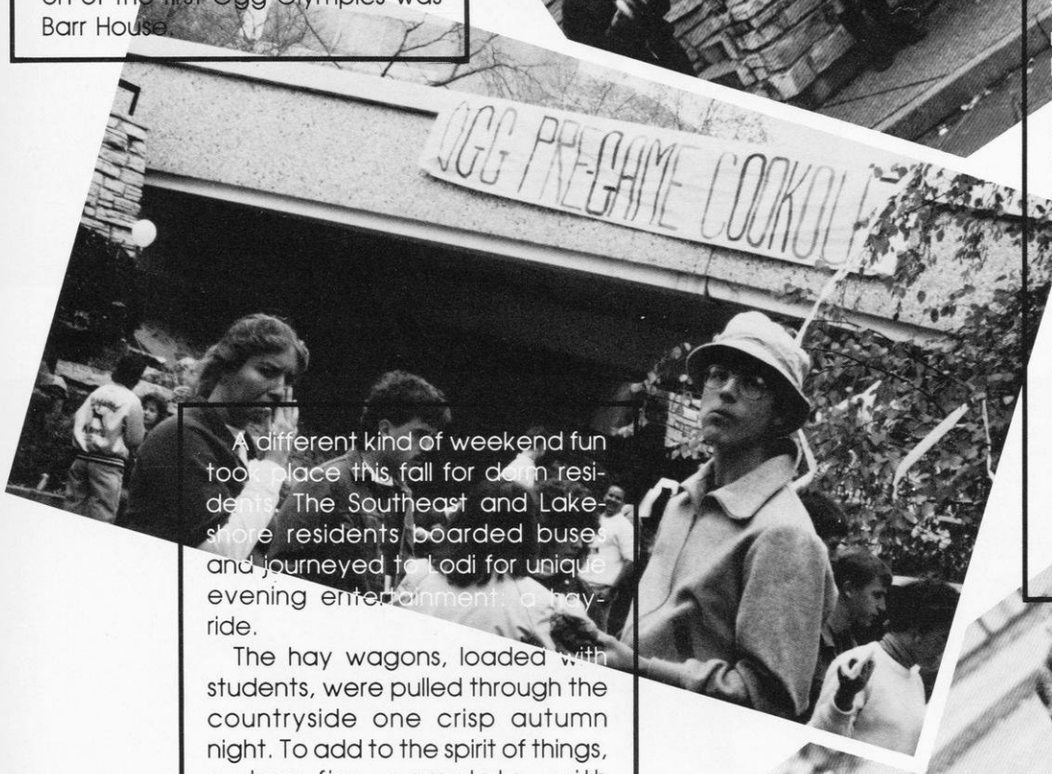
Two events were held each day and the winners accumulated points throughout the week. To wrap up the week's events, the two teams with the most accumulated points battled it off on the volleyball court to determine the winner. The crowned champion of the first Ogg Olympics was Barr House.

What would lead roommates to scheme against one another or seek revengeful ways to get even? The first hallwide Screw Your Roommate (SYR), that's what. But a lot more goes on than just thinking of ways to screw your roommate. A good deal of time may also be spent hinting to your roommate about that certain person you've had a crush on and have been wanting to go out with for weeks. But your roommate ignores you and you fear he or she has taken SYR seriously and plans to really "screw" you by setting you up with the man or woman of your nightmares.

The big day finally arrives and you know you've set your roommate up with the perfect date, but will you be just as lucky? All you know is that you are meeting someone at White Horse Inn at 8:00. You don't know if you should be nervous or excited. You begin to fear that SYR isn't that much fun after all.

You meet your date and all your anticipations go down the drain. With one look, you're sure the evening ahead will be pleasing.

The hours you spend together fly by and you end up having a very memorable evening. Thanks to your roommate, you'll be seeing your SYR date next weekend.



A different kind of weekend fun took place this fall for dorm residents. The Southeast and Lakeshore residents boarded buses and journeyed to Lodi for unique evening entertainment: a hayride.

The hay wagons, loaded with students, were pulled through the countryside one crisp autumn night. To add to the spirit of things, a bon-fire complete with "smores," good drinks and good tunes followed the hayride.

The drink specialty for the evening was a minnow shot. For $1, the adventurous drinker could purchase their favorite shot along with added ingredient: a minnow, a live minnow — yes, the kind that swim!

The festivities rolled on through the night. It was a real success and everyone seemed to have a great time — except those who swallowed a few too many minnows!

The hayride and other special activities for dorm residents will be continued next year.

Mohs.

Kappa chapter of Alpha Ci Omega kept busy with social and service activities during the past year. Actives welcomed 53 pledges during fall rush, celebrating Pledge Night with a cookout and party with Kappa Sigma. Alpha Chis teamed with Delta Upsilons to place second overall in Homecoming. Together, they raised a record amount of money in sales and placed first in the fun run and float competition.

The chapter "bowled for breath" to raise money for the Cystic Fibrosis Foundation in their philanthropy. A sampling of other activities includes: Senior BASH at the farm, pledge lock-ins, professors' dinner, Dad's Day and Mom's Day. Alpha Chis and their dates partied in Lodi during the hayride Date Party, and enjoyed formals at Olympia and the Abbey.

Along with numerous warm-ups, wake-ups and afterbars, A-Chi-O's bashed with fraternities. There was a 5th quarter party with Chi Phis, a wedding party with Theta Chis, a Mexican Party with Delta Tau Delta and Pikes, and a party with FIJI and Alpha Chi Alumni.

Brandwein, S. Brod, D. Cohen, J. Jacobson.

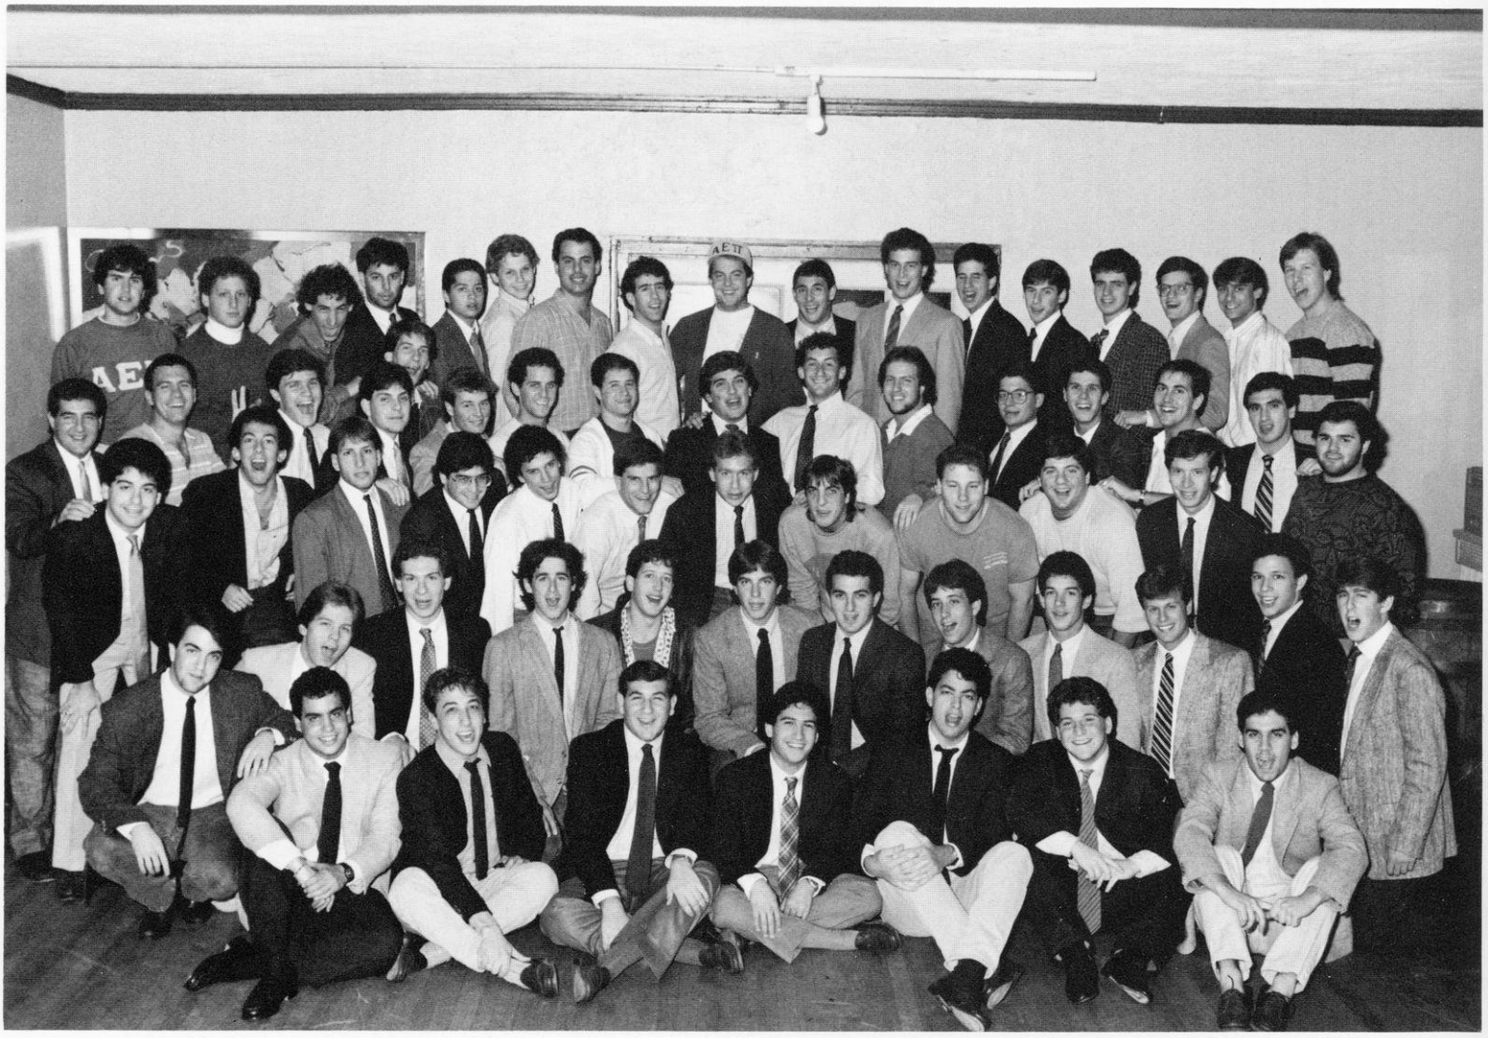
In just its third year, Sigma chapter of Alpha Epsilon Phi has become one of the largest and strongest sororities on the Madison campus. In this time, many significant accomplishments have taken place. Its grade point average is the highest of any of the sororities on campus. Even so, AEO has a lot more to offer than just its scholarship.

We can boast achievements such as first place in Greek Week 1986, second place in Greek Week 1985, third place in Humorology 1986, second place in Homecoming 1984, and a first place float in Homecoming 1985. The sorority also keeps busy with philanthropic events.

Alpha Epsilon Phi offers its members friendship and maturity by furnishing the chance to practice tolerance and mutual respect, to share ideas and criticism, to learn cooperation and unification, and to know the love of different kinds of people. Its sisterhood unity is a feeling that can't be replaced. Yes, Alpha Epsilon Phi's friendship is indeed "everlasting."

ΑΕΦ

Alpha Epsilon Pi



First Row: C. Leva, J. Herman, R. Kravitz, J. Sutton, C. Segelbaum, B. Gross, J. Merken. **Row 2:** G. Seigal, G. Miller, E. Weinberg, J. Cohen, S. Wolfman, T. Bloom, K. Parelman, E. Kahan, S. Weinshank.

The Alpha Epsilon Pi fraternity, located at 142 Langdon Street, is one of the fastest growing fraternities on the University of Wisconsin campus. In the fall semester, our quality Rush program attracted our third consecutive fall pledge class of 25 or more fine men since being reinstalled in 1983. Currently, close to 100 brothers are part of AE, which has kept the fraternity strongly involved in Greek activities. In the spring of '86, AEΠ finished second of Greek Week, highlighted by a first place finish in the bed race. Homecoming '86 saw Alpha Epsilon Pi, paired with Alpha Xi Delta, take fourth place overall finish. On the football field, AEΠ claimed the Greek football championship and posted an undefeated season. For the spring of 1987, AEΠ is planning a major philanthropy which is a bike race to be held in May. Alpha Epsilon Pi — a strong and short past striving for a long and even stronger future.

ΑΓΡ

ALPHA GAMMA RHO is a social-professional fraternity with all members having a common agricultural interest.

The national fraternity of ALPHA GAMMA RHO was founded on April 4, 1908. The Iota chapter in Madison became a reality on April 29, 1916. This became the ninth chapter to join the national organization.

ALPHA GAMMA RHO has had several locations in its 70 year history: 1530 University Avenue, 1726 Hoyt Street, 1820 Summit Avenue. In 1969 ALPHA GAMMA RHO moved to its current location on the shores of Lake Mendota at 233 Lakelawn Place.

The house can currently house 50 people. The Iota chapter of ALPHA GAMMA RHO is active on greek campus placing first in Greek IM basketball. We also placed fourth in this year's Homecoming competition. Members of ALPHA GAMMA RHO are also leaders in many student agricultural organizations having officers in Ag. Student Council, Badger Dairy Club, National Agri-Marketing Association, Horticulture Club, Ag. Econ Club, and Alpha Zeta.

ALPHA GAMMA RHO has an active little sister program with 45 little sisters. We do have a variety of social activities with the little sisters.

Alpha Gamma Delta

Pringle, M. Risse, M. Nonkin, M. Zapalski, J. Ketterer, E. Busta, K. Caubault, J. Wirth, L. Kelley.

ΑΓΔ

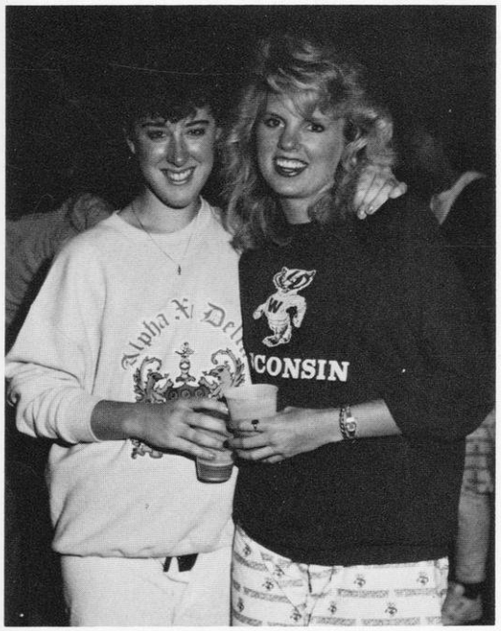
Another year has come and gone, and once more Alpha Gamma Delta has had a spectacular one! After winding down from the hectic pace of rush, we decided to introduce our pledges to the greek system in a big way! Our champagne fountain pledge party with the men of Sigma Phi Society and Alpha Delta Phi was quite grand . . . but we didn't stop there. Next we took Northwestern by storm with the men of Beta Theta Pi and returned to the home-front for a barage of parties, beer suppers, wake-ups, warm-ups, a successful Homecoming with the men of Alpha Gamma Rho, a date party, and volunteer work on behalf of our national philanthropy, the Juvenile Diabetes Foundation. We will wind down our busy fall with our annual holiday formal at the Madison Club.

We here at Alpha Gam have been riding on a string of firsts lately; first overall sorority at Sigma Phi Epsilon Winter Carnival, first place Greek Week assassins with Sigma Phi Society, Greek Week Queen Julie Ketterer, as well as our "Big Brother" program. Our Big Brother program is not only the first of its kind on the Madison campus, but also is a great success, with twenty fantastic guys!

As well, Alpha Gamma Delta has representatives on the Panhellenic Executive Board, Order of Omega Executive Board, and a myriad of other student organizations.

Alpha Xi Delta

Front Row: G. Byrne, B. Bell, K. Kazmierczak, M. Love, L. Forbes, T. Macht, J. Hartman, T. Gehrig. **2nd Row:** R. LaSalle, M. Gehrke, S. Lutz, L. Sylvan, A. Heath, C. Spector. **3rd Row:** S. Frink, S. Voskamp, K. Lambrecht, L. Dohr, L. Hollenbeck, J. Wisner, B. Ford, K. Gehrig, L. Heiser. **4th Row:** P. Kleinert, S. Lessiter, S. Stinger, K. Wolf, W. Brandt, A. Koebel, A. Kadonsky, D. Wyman. **5th Row:** W. Hunkeler, P. Franzen, K. Lindh, M. Wallace, A. Fenley, M. Fennig, M. Dohr, S. Oradei, M. Corrigan, P. Bonk. **6th Row:** M. Fabke, L. Miller, P. Rohde, J. Weinstock, J. Lueck, L. Rohs, P. Burbach, B. Hoffman, R. Hopen, J. Smith, P. Peterson, H. Beck. **7th Row:** K. Follett, N. Carreno, J. Purdy, J. Thompson, K. Martinsen, S. Halper, P. Hughes, A. George, A. Miller, D. Gould, K. Raftery, E. Krueger, L. Dettman, M. McDonnell.



Alpha Xi Delta Sorority, located at 120 West Gorham, has 86 members, all working together for fun, friendship and philanthropies.

Date party at Lodi and our semi-formal Christmas Date party were great ways of finding compatible dates for Formal! Alpha Xi Pink Rose Formal, held in November, combined a cocktail party at the house, limousine chauffeur to the Fess Hotel and dinner and dancing for a night of romance. Spring Formal is just as special, as it is the last formal for departing seniors.

To promote friendship and sisterhood, Alpha Xi bussed to Racine, WI for our annual pledge retreat to get to know our new sisters better. Our annual road trip went to Iowa this year with the fun men of AEPi — our homecoming pair! The Alpha Xi's and AEPi's caught the wave during Homecoming and placed fourth overall in the Greek competition. Also, the Badger Bowl Award for athletics is on the Alpha Xi mantle again — for the fourth year in a row!

Most important is the Alpha Xi Delta philanthropy in which we raise money for Camp Wikidas — a camp for children with asthma. This year we had a Mr. Lungs contest, in which we took pictures of various fraternity men's chests and asked people to vote on who had the best "lungs." Alpha Xis also participated in other Greek philanthropies, as well as in Greek Week.

Alpha Xi Delta promotes social, educational and leadership skills that are useful now and will be needed in the future. We will miss our graduating seniors and we wish them the best of luck. Alpha Xi Delta is growing stronger each year with the spirit and pride of each new pledge class.

Alpha Phis have had an exciting year! While striving for academic excellence, Phis have been involved in both campus and community activities. The Alpha Phis would like to congratulate the graduating senior women of Alpha Phi. CHEERS! Here's to:

- pledging 63 enthusiastic girls
- placing 3rd in Yell Like Hell with Sigma Chis; missing third place by one point during Homecoming with Sigma Chis.
- having another successful balloon rally to raise money for our National Philanthropy, The American Heart Association.
- winning Sigma Chi's Derby Days for 3 years in a row
- having Alpha Phis represent us on both the UW Pom Pon Squad and UW Cheerleading squad.
- doing up Humorology with Kappa Sigma
- showing Mom and Dad a wonderful time on Parent's Day
- participating in all the parties, warm-ups, beer suppers, cocktail parties, and formals
- studying hard both here and abroad
- and finally, here's to making lasting friendships!

Cheers and good luck in all your pursuits!

With Love,
Alpha Phi

Lopau, J. Oliver, D. Curtin, L. Popkewitz, N. Hoefs, G. McGlasson, S. Cebrowski, M. Solka, A. Balistreri, K. Graske, B. Brennan.

This year, the Nu chapter of Chi Omega celebrates its 85th birthday on the UW-Madison campus. After a successful Rush, Chi Omega and her 62 new and energetic pledges traveled to the University of Michigan for their annual "Walk Out" weekend.

Parents Weekend was equally enjoyable. The Chi O's treated their parents to a lovely brunch before the game against Wyoming and later, to dinner and dancing at the Concourse.

What's a football season without Homecoming? For the second year in a row, Chi Omega enjoyed another fun-filled week with the men of Beta Theta Pi.

Determination and hard work were the keys to this year's success in Humorology. After taking first place in the annual Greek philanthropy the past two years, this year's cast had awfully large shoes to fill. But who could go wrong with the talented men of Sigma Alpha Mu.

Chi Omega paired up again with Theta Delta Chi to help the children of Head Start. Chi Omega is proud to sponsor this worthy philanthropy every spring.

The members of Chi Omega pride themselves on their reputation of individuality and uniqueness. Its members are involved in a wide variety of campus activities, ranging from WSA Senators to Pom Pons and Cheerleading. Academically, Chi Omega is holding strong with the second highest sorority GPA on campus.

So whether it be social or scholastic, the women of Chi Omega strive to reach their highest potential and be the best they can be.

ΧΩ

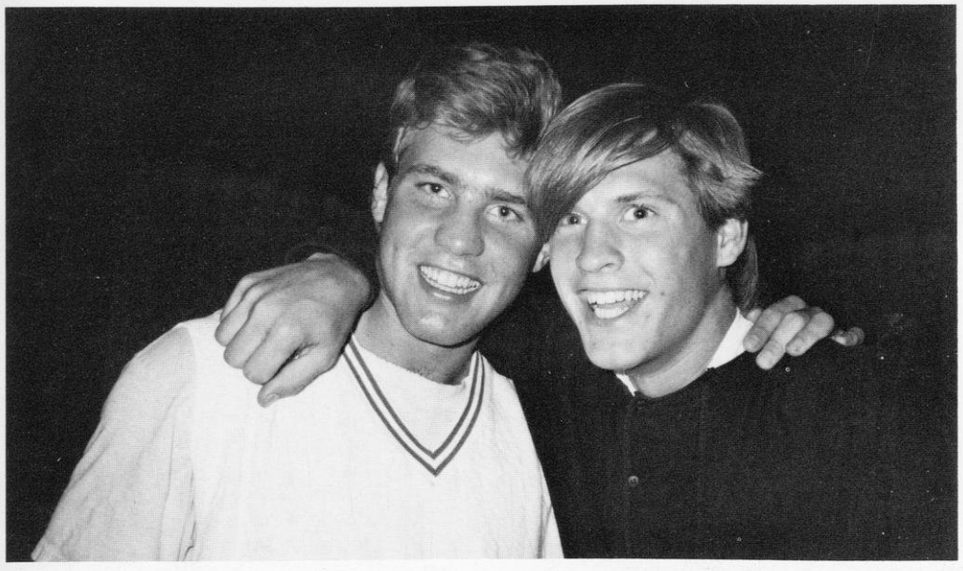
Chi Psi

Front Row: B. Grasse, P. Prange, P. Kies, B. Atkin, McGuiness, D. Ressinger, J. Shimanski, J. Hong, DJ Harder, W. Ecles, M. Dowdle, B. Bujonovich. **Row 2:** D. Gilliand, J. Birenbaum, C. Belconis, C. Hoffman, T. Duclos, D. Brash, J. Shrieber, P. Gottsacker, M. Bierl, D. Feldman.

"This fall has been an experience-laden one for Alpha Iota. The new Lodge looked forth at the returning brothers and with a vacant stare remarked, 'Go hunt a bed, boys, I won't be done for some time.' This was a cheerful remark, especially at the hour of 2 a.m. on a cool autumn night. By Thanksgiving, however, we will surely be installed and once more listen to the wind from old Mendota howl around our cornices."

— George Noyes Bright, Alpha editor (taken from the **Purple and Gold,** fall 1913 issue)

Today, Chi Psi is a social fraternity that, as always, stresses the quality not the quantity of its members. While everyone enjoys a good time, we also try to be good students and learn something about ourselves and others while attending a large university where one can't possibly know everyone. The Lodge continues, as it has since 1878, to be a home away from home for a diverse, well-rounded group of gentlemen.



Delta Delta Delta

Delta Delta Delta has had an exciting year! We were honored with 62 new pledges this fall, swelling our membership to 144. We have done well academically, earning the highest sorority GPA last fall and the third highest last spring. We have participated in many philanthropies and have organized some of our own. Our pledges held a Halloween party in our house for Headstart children — children from underprivileged homes. Our chapter also awarded two $500 scholarships to two deserving female UW-Madison students.

The TriDelts have also had time to have fun! We placed third overall in the Greek division of the Homecoming competition with Pi Lambda Phi, and had a blast doing it! On the social side, we have had many parties, beer suppers, wake-ups, football fire-ups, and study breaks with fraternities and sororities where a good time was had by all. For date party we went to Lodi and went on hay rides. Two formals were also held this year. We went to the Sheraton for our winter formal and to Milwaukee in the spring. Everyone had a great time at all of the TriDelt events this year.

Mueller, B. Bolles, A. Stegge, J. Orlando, L. Price, C. Peot, S. Stracka, J. Topetzes, M. Sullivan, L. Mathias, J. Munsell, N. Hill, K Krull, L. LaFrance, S. Couffer, C. Winston, D. Parker, A. Blanchard, B. Forbes, M. Wealton, W. Reuben.

Delta Gamma started the fall semester off with a bang. Thanks to the alumnae, the entire first floor of the house was redecorated and it looks beautiful. Omega chapter has also begun a newsletter that will be distributed four times annually to keep the alumnae informed of the goings-on at 103 Langdon. Aside from the excitement with the new look at the Dee-Gee house, we also pledged sixty-one wonderful women during Rush. Way to go, Delta Gamma!

Things have been quite busy at the Delta Gamma house this fall semester. Following Rush, the chapter had an excellent pledge party — but that was just the beginning of plenty more great times that were shared with many Greek houses on campus.

Homecoming was a time of hard work and lots of enthusiasm. It was special to have so many Omega alumnae return for festivities at their alma mater. This semester will also be a special time at Delta Gamma when we will celebrate Mom's Week. Our terrific housemother, Dorothy Raymond, deserves special attention for all she has done for us. We love you, Mom! Our philanthropy, that will take place in the spring, is Anchorsplash. All the proceeds are donated to sight conservation and aid to the blind. We are looking forward to making this event the best one ever.

The Dee-Gees will be sad to say good-bye to all the graduating seniors . . . they have done so much for Delta Gamma. We appreciate all the time and dedication they have given to Omega chapter. We hope the future brings much success and happiness to each of you. We will miss you! Just remember, Friends are like warm clothes in the night air, best when they're old and you miss them the most when they're gone . . .

In keeping with tradition, the Delts had an outstanding 1985-86 school year and returned in the fall with great expectations. Our progress has been marked by continued sports excellence, community service, and renewed house enthusiasm.

The Delt sports dynasty continued this fall with dominance in football; the third consecutive year we won the championship. The Delts also finished second in soccer and look to the remainder of the IFC sports schedule with unbridled confidence.

The Delt men have also aided the Madison community by repairing homes for the elderly and raising in excess of $7,500 for the annual United Cerebral Palsy phone-a-thon.

An outstanding social program, the largest pledge class since the spring of '85, and the members' commitment to improve the Shelter both inside and out reflect Delt enthusiasm and assure that Delta Tau Delta will continue to remain a recognized leader on our campus.

Zinda, J. Lannert, D. Waund.

ΔΥ

Delta Upsilon Fraternity has been in existence on the Madison campus since 1885. We have been at our present location on 644 North Frances Street since 1906 when our house was built. Despite a nationwide decrease in fraternity membership in the late '60's and '70's, which forced many houses to close, Delta Upsilon survived and today is a leading fraternity on this campus. At the present time we have nearly 95 members.

Delta Upsilon is unique in the fraternity movement because it was founded on the principles of non-secrecy and non-hazing. At this time we are the only fraternity on this campus that upholds these principles.

We have always had a tradition of campus involvement and high academic standards, boasting a higher overall GPA than any other fraternity on campus. In addition, we stress participation in intramural sports and other activities including Humorology, Homecoming and Greek Week. We feel we are a unique organization with a variety of activities and leadership opportunities to offer to a wide range of men on this campus.

Delta Theta Sigma

Front Row: T. Mehrs, P. Heneck, K. Seo, E. Lillesand. **2nd Row:** A. Ostrowski, J. Peterson, R. Peebles, D. Truttman, D. Nehm, R. Peebles, P. Cockrell. **3rd Row:** B. Keough, J. Berg, S. Ottelien, S. Bonke, P. Hansen, N. Witte, R. Bienaskavich, T. Koxh, R. Knurr, T. Scott. **4th Row:** S. McComb, V. Pope, K. Reuter, F. Nielsen, D. Fenner, T. Hermel, M. Crave, M. Gibbons, J. Faust, J. Lieber.

ΔθΣ

Delta Theta Sigma is a social and professional agricultural and life sciences fraternity, although membership is not limited to this area of study. Since 1928 the Gamma Chapter at Madison has enhanced the study of agricultural sciences at one of our nation's oldest and finest institutions.

Located on Langdon Street, at the beginning of fraternity row, Delta Theta Sigma plays a major role in ag-campus activities. Members are active in Saddle and Sirloin Club, Badger Dairy Club, Ag. Student Council, Pre-Vet Club, and many others. DTS also helps out with the world Dairy Expo, "Club 101 Show," and the Little International.

Together with sororities, fraternities, dorm floors and our "little sisters," DTS plans many activities throughout the school year. These activities include picnics, parties, philanthropy, intramural sports, sorority exchange dinners, parents' day, Las Vegas Night and Spring formal.

This past year our chapter won the National Outstanding Chapter Activities Award and the highly coveted "Bohunk" award for the most enthusiastic chapter at our National enclave.

DTS living can be an enriching experience by providing lifelong friendships, fun times, scholastic achievements, and the opportunity to meet people and be active on campus through social events with the spirit of brotherhood.

Evans Scholars

Front Row: J. Sanderfoot, B. Sabourin. **2nd Row:** M. Litersky, M. Inciong, P. Rakowski, R. Gajewski, R. Trentadue, J. DuChateau, V. Galande, D. Sidla, S. Odeja. **3rd Row:** J. Ferraro, D. Krzewinski, C. Newman, P. Condon, K. Beck, D. Rodney, J. Hermans, D. Frahm, G. Gravunder, J. Matuschka, T. Cole. **4th Row:** T. Johnson, S. Fish, D. Peters, R. Greiber, D. Patzer, P. Leibham, S. Schrimpf, P. Lemens, A. Slane, J. Wagnitz, B. Mongan, J. Reimer, R. Annis, P. Pigeon, J. Klauck. **5th Row:** M. Melum, T. Klauck, Joe, J. Kothe, D. Conrardy, L. Crain, M. Pierre, G. Johnson, J. Moser, C. Kerrigan, P. Cooney, L. Pelk, R. Hoggatt, S. Taagen, S. Larson.

The Delta Chapter of the Evans Scholars stands out among the various fraternities on campus. Unlike most fraternities, the Scholars are a group of men and women who are the direct beneficiaries of a unique scholarship. All members are former caddies who have met criteria based on academics and leadership qualities, as well as financial need. The scholarships provides a full tuition grant and allows the recipient to reside at the Evans Scholars House for four years.

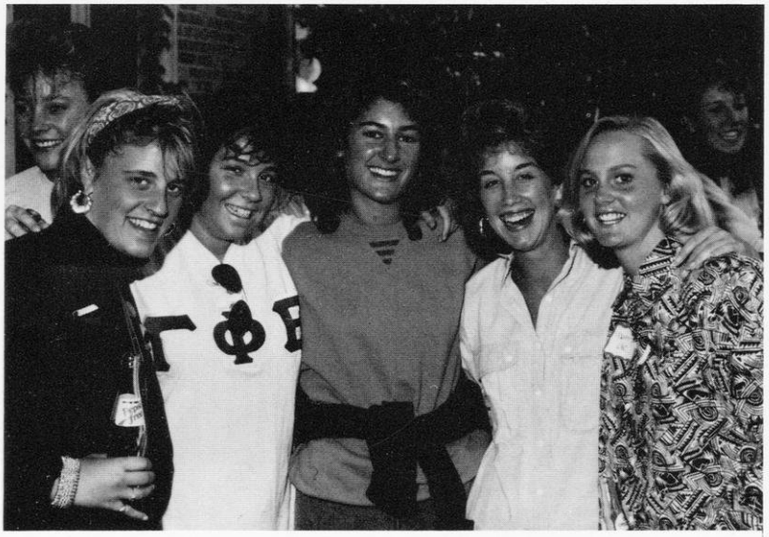
The scholarship provides a unique setting — one that combines academics, athletics and social atmospheres. The Scholars consistently rank near the top in combined grade point average among the members of the Inter Fraternity Council. Outside the classroom, the Scholars place high year after year in IFC intramural sports. The Scholars also enjoy the social atmosphere that surrounds Langdon Street. This is exemplified by the numerous parties they hold and the various social functions they participate in.

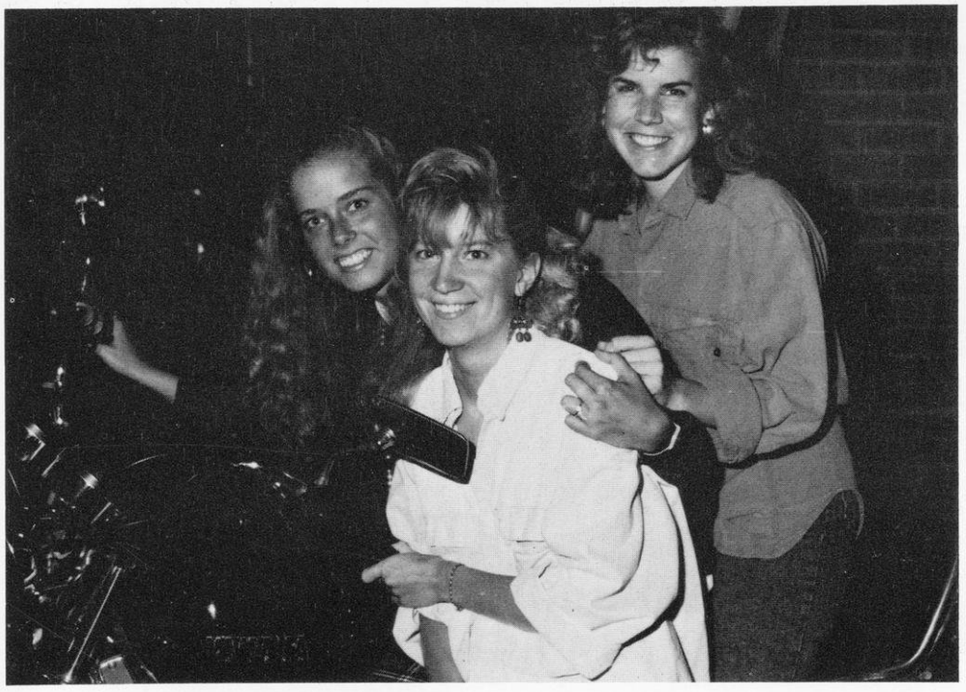
Aside from the rigors of college life, the Scholars stand out in their support of the community. The Evans Scholars Annual Basketball-A-Thon brings thousands of dollars to the Central Wisconsin Center Volunteer Project, a home for the physically and mentally handicapped. The Scholars also held an annual Christmas party for the Head Start Program, in which underprivileged children are welcomed into the Scholar House for a day of fun and games. Individually, Scholars are also active in other organizations such as the Knights of Columbus, YMCA youth basketball and the IFC.

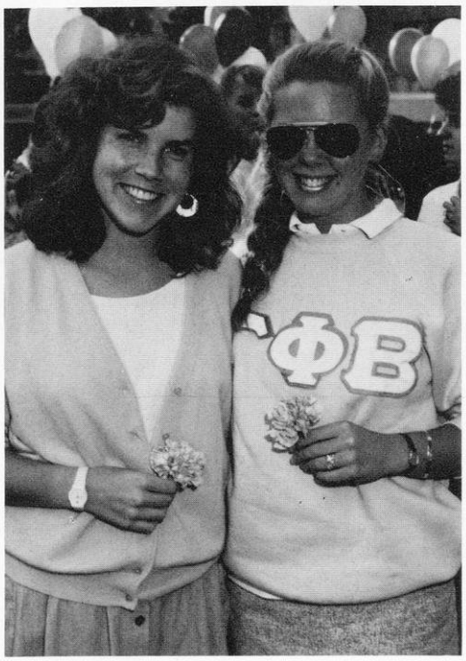
Evans Scholars are a unique group of men and women who are dedicated to excellence in all facets of college life. Unified together they strive for achievement in the house, in school and in the community.

Gamma Phi Beta

Front Row: K. Applegren, M. McRaith, A. Garlock, H. Fiedler, J. Goldman, A. Dauska, S. Dynner. **Row 2:** M. Murphy, J. Weisenberger, D. Owre, K. Foley, S. Barth, A. Cusick, N. See, L. Bertucci, J. Miller, K. Carlson, J. Groth, K. Sarsland, D. Hinkle, H. Craigmile. **Row 3:** T. Slayton, C. Baranoucky, D. Blankenship, T. Kiraly, J. Heilgenstein, S. Price, C. Cook, L. Janik, C. Kratochvil, M. DeGalley, S. Schroeder, K. Delfield, A. Walz, S. Smith, C. Failer, K. Effland, B. Farr. **Row 4:** L. Christon, L. Osborne, T. Maki, A. Kunze, J. Bonk, P. Bay, J. Gelin, L. Fulton, K. Jensen, C. Renk, K. Morris, W. Weisenberger, C. Parise, J. Postweiler, E. Hancock, K. Kabler, K. Knudsen, B. Portnow, H. Kozcian. **Row 5:** J. Anderson, T. Hansen, A. Ralfs, C. Thearle, C. Holtz, C. Rapson, L. Logarakis, K. Kurtz, L. Schultz, K. King, N. Johnson, J. Enright, J. Dauska, C. Adams, G. Urguhart, A. Fishman. **Row 6:** S. Mears, J. Leach, L. Doering, G. Ford, L. Schwacke, C. Hind, S. Klarchek, J. Nyquist, J. Aulik, S. Bolm, M. Juneau, A. Christenson, K. McCord, E. Schwartz, M. Ure, M. Polson, A. Kroncke. **Row 7:** K. Althoff, L. Baker, J. Kellet, L. Finnegan, A. Engstrom, K. Mynard, L. Pankratz, J. Repko, P. Cucanato, J. Plesko. **Row 8:** A. Brzezinski, S. Meyer, A. MacNabb, A. Merryweather, S. Hohn, C. McLeod, D. Doro, P. Dyke, J. Pagano, A. Happe.







Gamma chapter of Gamma Phi Beta was founded in 1885 by eight young women who left us a heritage of leadership we still follow. One of our chapter founders, Mary Clark Brittingham, donated a statue of Lincoln on Bascom Hill, and the UW president's mansion. She was the guiding force behind the construction of our present house at 270 Langdon, as well as our old house, which has the distinction of being the first house built by a Wisconsin sorority, and the first Gamma Phi house built specifically for a Gamma Phi chapter. Gamma Phi today still continues this tradition of excellence; besides winning many campus events, we were named one of the top twenty Gamma Phi chapters at our convention in Dallas.

Gamma Phi started out the 1986 school year with sixty-one of the best pledges on Langdon Street, bringing our total membership to more than one hundred sixty diverse women.

As usual, our social life was one to be envied. Some of the highlights of fall semester included our pledge party with Chi Phi, the fourth annual Yacht Club Party, Homecoming and a road trip with Phi Delta Theta, our annual Toga party with Sigma Alpha Epsilon. Chi Phi and Kappa Gamma, French Sewer with Kappa Sigma, Sigma Chi wedding party, and parties with FIJI and The Lodge. After a second place finish in Humorology '86 with Sigma Alpha Mu, we were paired with Sigma Alpha Epsilon for Humo '87.

As Gamma Phi Beta enters its second century on the Madison campus, the rest of the Greek system looks at us to continue to set the pace.

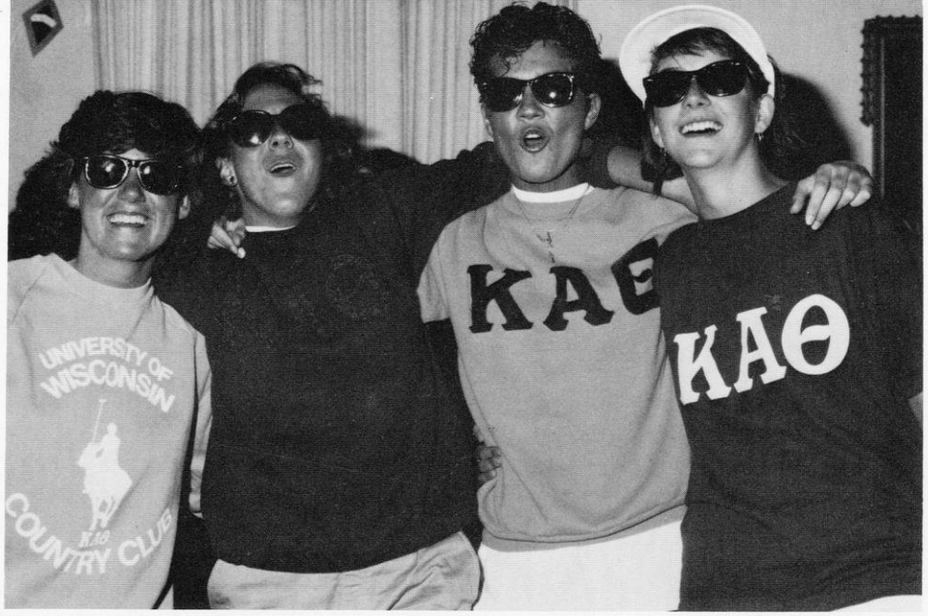
McCabe. **8th Row:** L. Barasko, M. Fay, L. Ebenhoch, A. diNatle, J. Smith, E. Noll, L. Murphy, A. Gelbman, T. Recker, J. Steffen, J. Vierbercher, K. Capps, C. Kiel, T. Wortman, S. Pekkanen, H. Purves, L. Ludwig.

ΚΑΘ

Kappa Alpha Theta is the first Greek letter fraternity known among women. Psi Chapter has been at UW-Madison since 1890. The combination of high scholastic goals, strong community involvement, as well as festive social activities keeps Kappa Alpha Theta strong here in Madison, nationally, and in Canada.

What a Rush! And, indeed it was, with Psi chapter gaining 53 enthusiastic and dedicated new members. The annual Theta-Beta pledge party opened the 1986-87 social calendar as we introduced our new members to the Theta's world of fun. Several theme parties with fraternities and sororities followed, as well as wake-ups, football games, pre-game warm-ups, a date party in



Lodi, and two formals. The most special parties were those we saved for mom and dad and the alumnae.

Hard work and long hours paid off during Homecoming Week with the Tekes, when we placed in many events. We partied and pomped 'til we dropped. Also, members of Kappa Alpha Theta and Theta Chi combined to write, direct and perform Humorology.

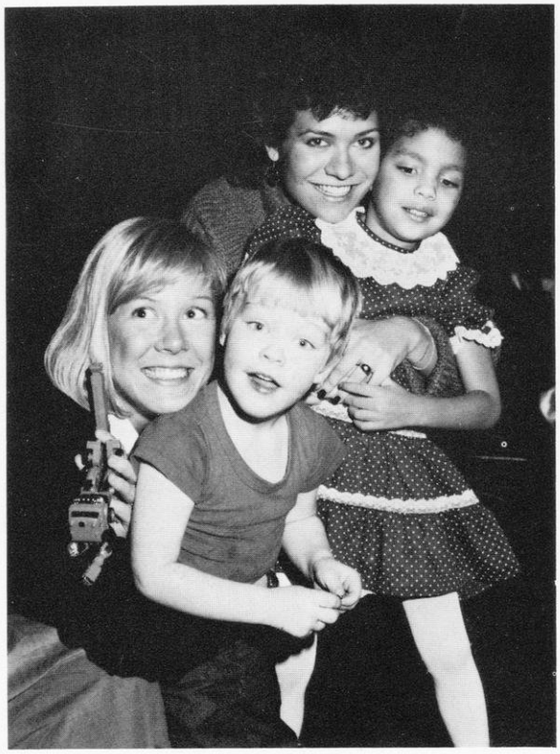
Kappa Alpha Theta is concerned with unifying to help those in need. Psi chapter sponsored two of its own philanthropies while still actively participating in many other Greek service projects. Active members joined with the men of Delta Upsilon to sponsor the first annual Cystic Fibrosis Walkathon in Madison. Pledges sponsored Kappa Alpha Theta's national philanthropy, Logopedics. Money provided from the pledge's Tuckin project helps children with speech impediments.

Besides Kappa Alpha Theta's involvement in community service and an active, joyous social life, members strive for high scholastic achievement. Thetas are inspired to be the best they can be and prove so by averaging better than a 3.0 grade point average.

Psi chapter members are proud to be Thetas. Kappa Alpha Theta is happy to welcome two new chapters, one in Canada and one in Illinois. In the fall, many of Psi's chapter were lucky to participate in the installation of the Epsilon Phi Chapter in Chicago.

Kappa Kappa Gamma

Front Row: M. Hite, T. Swanson, C. Schall, J. Boquet, L. Goldstein, L. Lappin, J. Humke, T. Clegg, P. Garguilo, D. Gianetti, J. Mortenson, K. Meyers, G. Hartman, J. Meyer, J. Motis, B. Kohl, C. Schaffer, S. Fieweger, K. Monroe. **Row 2:** K. Schellie, L. Balte, G. Lynch, R. Siegel, R. Leeb, J. Thorne, A. Ivanovic, S. Brinker, A. Miller, M. Mizak, J. Nanfield, D. Gerdon, L. Lauer, K. Purtell. **Row 3:** L. Webster, G. Zwakman, B. McGinley, K. Mader, A. Pellegrin, M. Linneweh, M. Calinog, T. O'Kelly, L. O'Byrne, K. Boeke, W. Birt, S. Zins, J. Bushler, R. Lehroff, R. Selting, L. Hykes, E. Leefblad, D. Dikens, C. Quigley. **Row 4:** D. Hurwitz, D. Taitle, M. McDonald, L. Warner, J. Lund, J. Didier, M. Walker, S. Krebs, S. Weir, L. Stoebe, T. Turner, A. Alber, B. Bolles, A. Amsdell, D. Carver, L. Means, B. Hingeton, M. Balistreri, C. Herbeck, C. Freeman, C. Epley, A. Johnson. **Row 5:** D. Stren, C. Sheehan, S. Derrick, M. Callahan, K. Speed, C. Butler, C. McEachron, P. Hammon, A. Anzia, B. Fischmann, R. Dale, D. Meyers, E. Mihajlor, A. Powers, J. Smith, W. Clark, C. Mallon, J. Herz, L. Stella, C. O'Leary, M. Rosenheimer, E. Crysdale, M. Gay, J. Rechlitz, T. Richter. **Top Row:** A. Krebs, E. Kemmerer, K. Gwidt, S. Spellman, L. Gote, A. Eggers, S. Olness, C. Linehan, M. Rheeling, N. Dinkin, K. Warren, J. Brown, A. Arnold, S. Messner, D. Osborn, J. Meinheit, S. Leach, C. Spears, A. Carson.



Since Kappa affiliated at the University of Wisconsin in 1875, the sorority has made its presence widely felt. As in years past the Eta chapter is currently involved in philanthropies, sports, women's issues and social functions, just to name a few of the activities. Kappas took first place in intramural football last fall, and support their sisters who play for the university soccer, volleyball, track and tennis teams. Likewise, Kappas tremendous turnout to help set the world record for the Twister game not only led to a first place finish there, but an overall championship in Homecoming — perhaps a reflection of the two Homecoming court representatives, one being the queen. Kappa, paired with Theta Chi, played a major role in Humorology, a team which danced and sang its way to the finals. Indeed, with 62 new pledges, Kappa Kappa Gamma is pleased with the most recent successes but continues to strive to maintain its high standards.

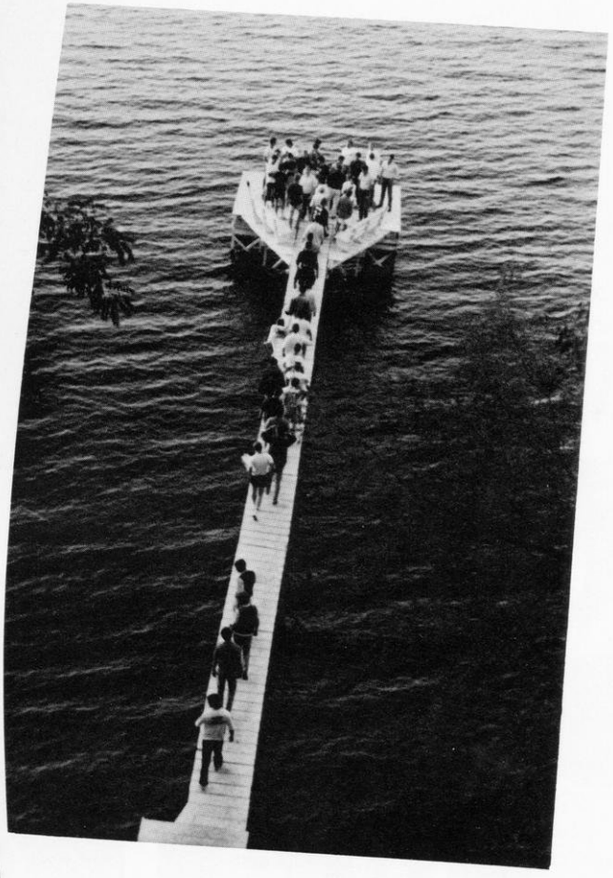
ΚΣ

The Beta-Epsilon chapter of the Kappa Sigma fraternity is enjoying its 89th year on the UW-Madison campus in a variety of ways. With a successful rush program comes top quality pledges and continued strength in our brotherhood.

This summer, at our bi-annual leadership conference, we were named a Top Ten Chapter out of 210 Kappa Sigma chapters throughout the U.S. and Canada. Included in that was our Top Ten Campus Involvement Award — an award symbolizing Beta-Epsilon's strive for a positive influence on the university campus.

This year marked Kappa Sigs return to victory with Homecoming with the Kappa Kappa Gamma sorority. The triumph put us back on top after the first win in five years.

Other social activities included our annual Parent's Day and Homecoming/Alumni Bash which proves that the experiences here at 124 Langdon is a tradition of pride and enjoyment for life.



KE KKI

Phi Delta Theta

The brothers of Phi Delta Theta look forward to another year of fine accomplishments and look back on our past achievements with pride. We thank Chi Omega sorority for their help in our Humorology victory last year and look forward to another fine show with Delta Gamma. We have always taken pride in our athletics and we were pleased to win the IFC White Division championship last year. We offer thanks to the women of Gamma Phi Beta for a fun and successful Homecoming, too. The future of Phi Delta Theta looks prosperous and we look forward to our move to 233 Langdon and the growth it will bring.

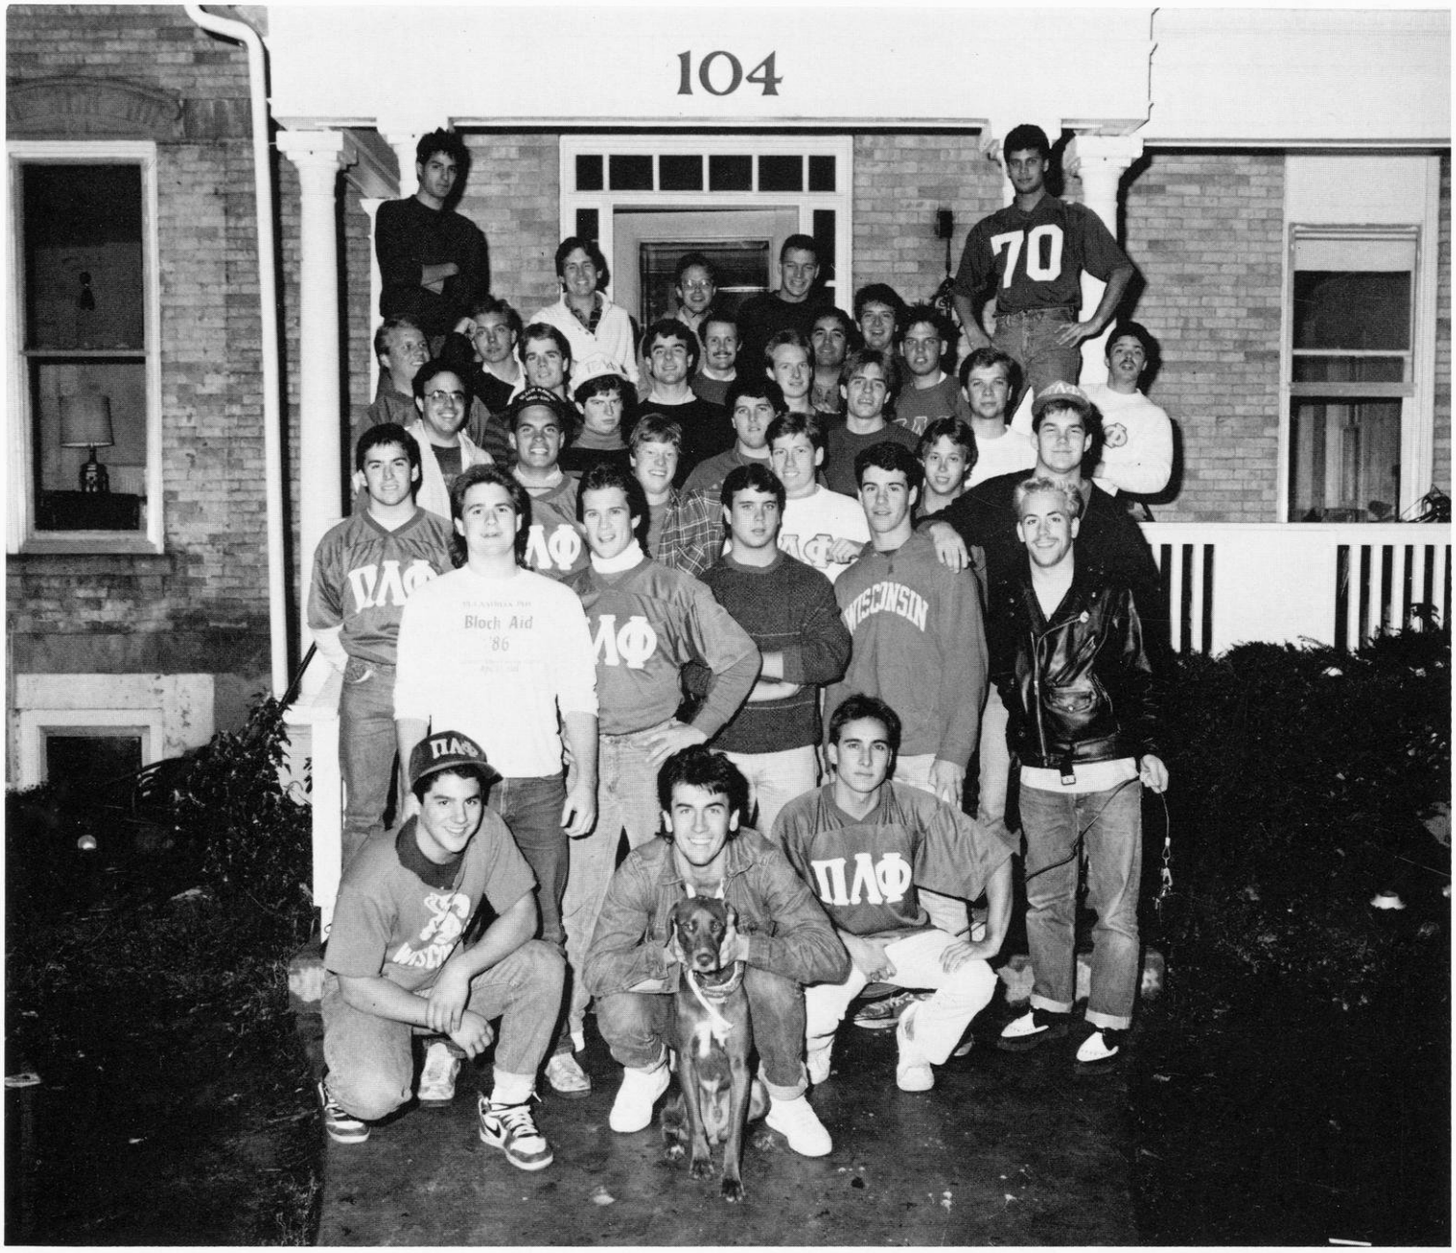
ΠΒΦ

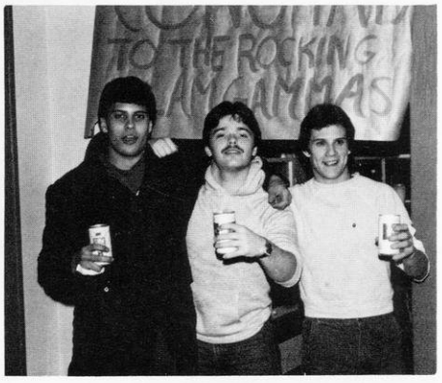
Pi Phi is back and we're excited! In April of 1986, 75 colonizing pledges took on the responsibility of bringing a new sorority to campus and creating new traditions. The work began last August with a summer rush retreat. We returned to Madison to find our biggest task ahead of us . . . RUSH! Most of us weren't prepared for the long hours of hard work. In the end it was worth it and we welcomed a pledge class of 64 wonderful girls.On October 11, the colonizing pledges were initiated and our colony was re-installed as the Wisconsin Alpha chapter. We all owe a great deal to our wonderful alumnae who found a house for us on the lake and without whom the Wisconsin Alpha chapter would not have come back to life.

We are all very optimistic about our success in future rushes and look forward to moving into our new house in September of 1987! The reception we have received from the university and the Greek system in particular, has made us feel very comfortable and happy to be "new in town."

Pi Lambda Phi

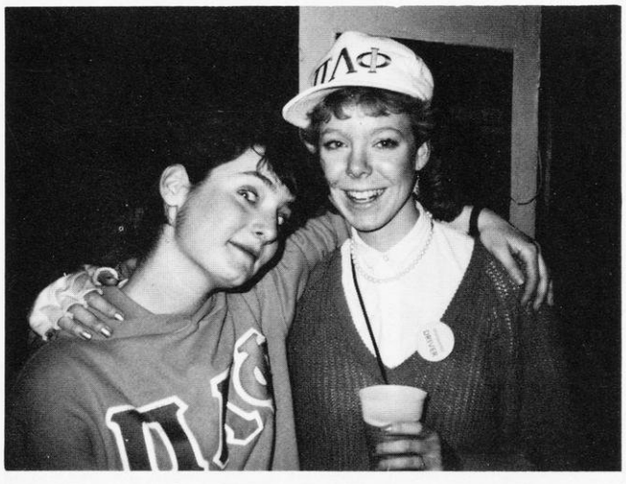


Front Row: D. Pusateri, D. Horvath, P. Marcado. **2nd Row:** M. Lybrand, J. McAllister, C. Eichenberger, J. Amore, P. Turco. **3rd Row:** S. Ackerman, J. Hession, A. Panshar, D. Voight, B. Juul, B. Johnson. **4th Row:** D. Mitchell, B. Jones, T. Kinney, A. Huck, J. Laudon, J. Nesbit, P. Camer, G. Lofy. **5th Row:** R. Farah, R. Ehrenberg, D. Morris, R. Ancivek, T. Guolee, B. Hoppe, E. Kinney, D. Starr, J. Slavinsky, J. Runkel, S. Gustafson, D. Marsden.

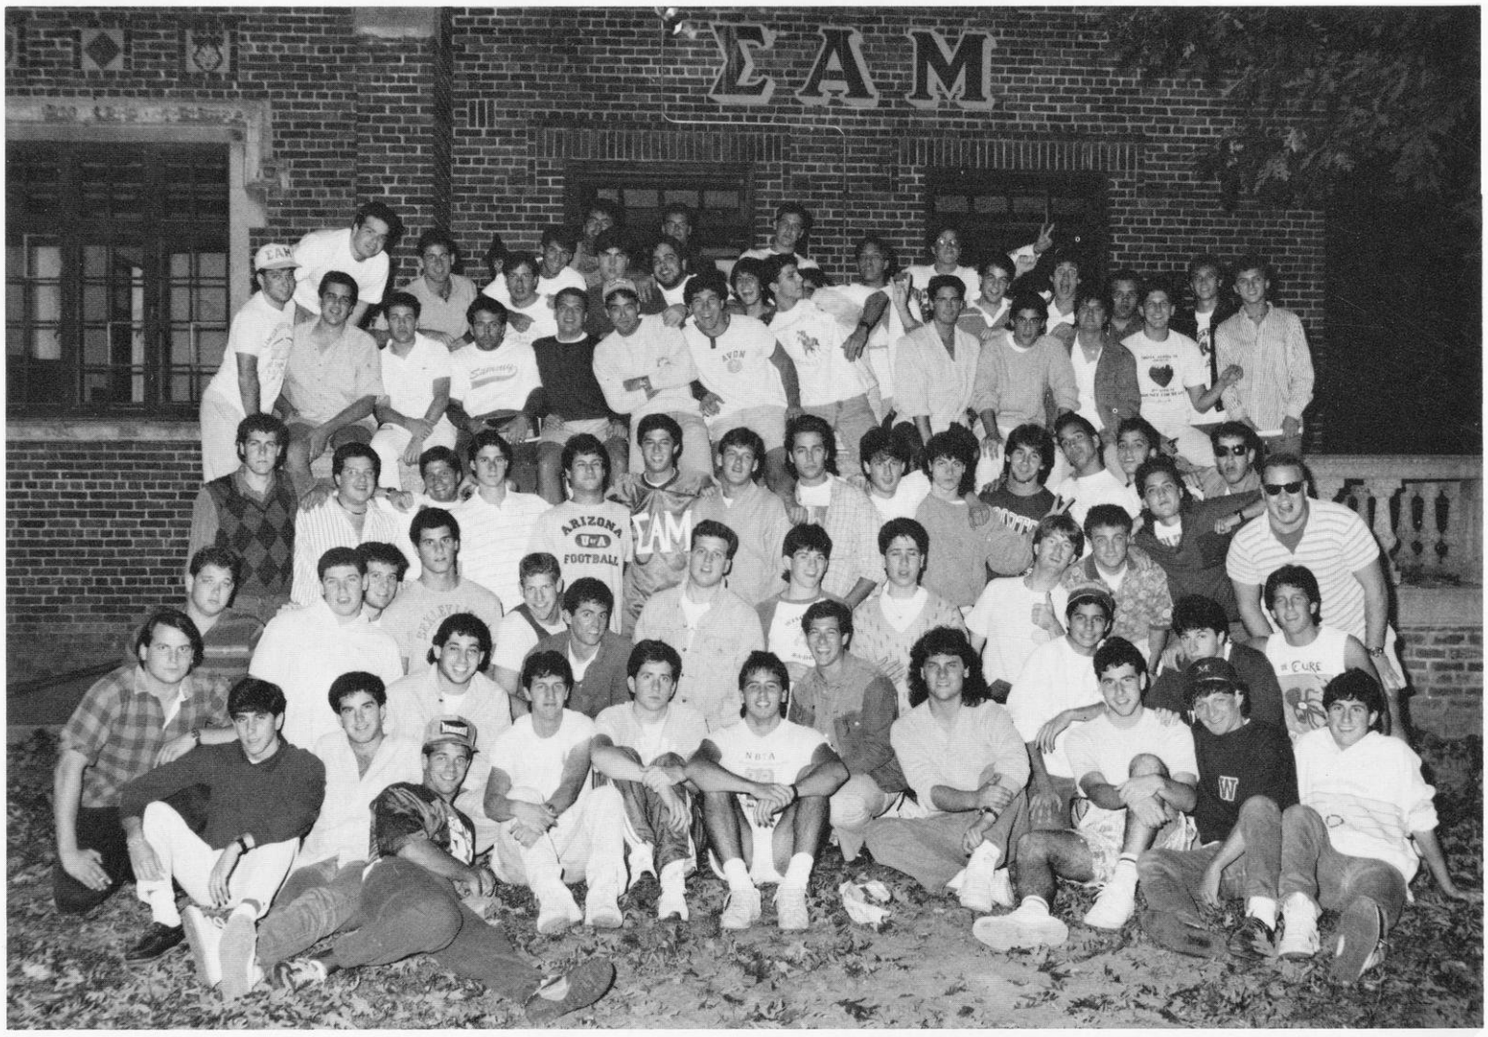


ΠΛΦ

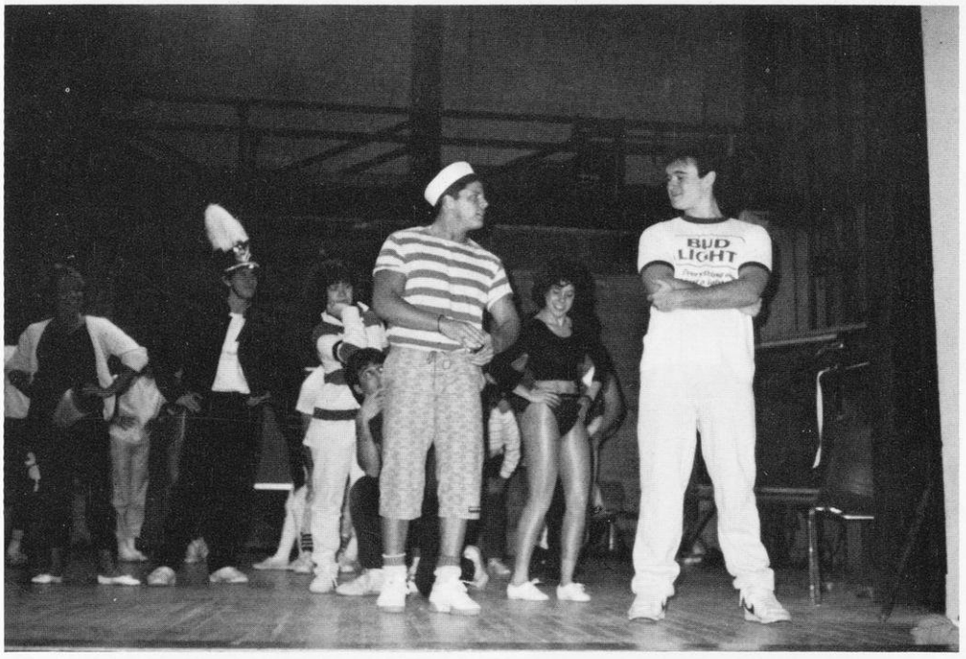
The Brothers of Pi Lambda Phi are enjoying their third year at this campus and are constantly increasing in members and gaining recognition. PiLams were at this University since 1926 and throughout the 60's were the largest fraternity around. Recently in 1983 we rechartered and are in our second home located at 104 Langdon. This year we placed third overall in Homecoming with the TriDelts. As a house we enjoy doing anything that is out of the ordinary. During Rush, our second annual "car smash" was a loud success, and in April our block party featured the wild Elvis Brothers. Our pledge class right now is pretty anxious to carry on our tradition and we are more than happy to help them out.

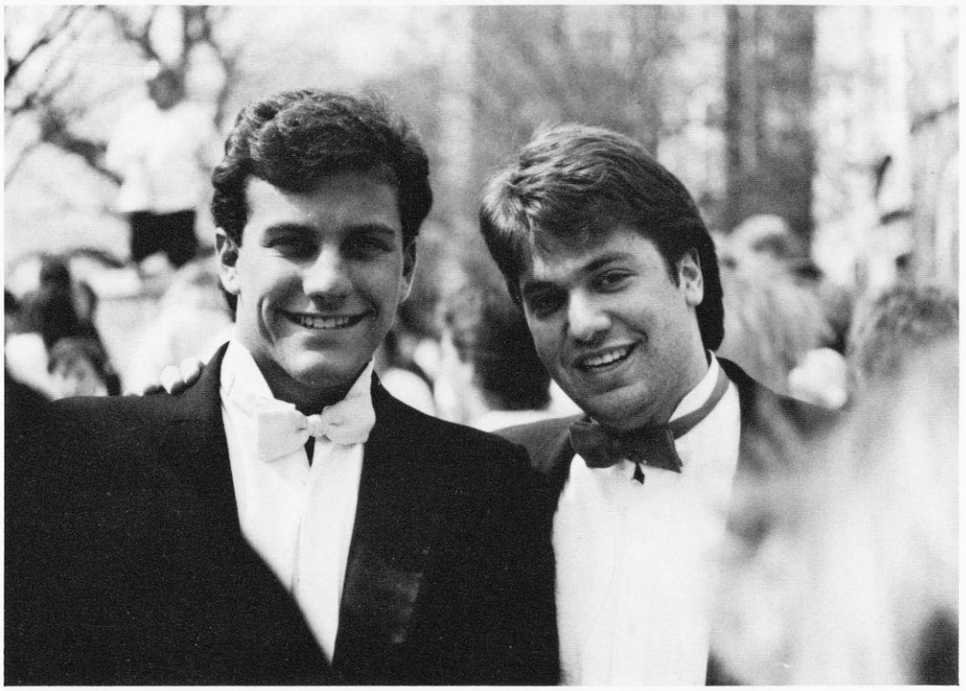


Sigma Alpha Mu



SIGMA ALPHA MU: M. Pink, J. Muller, J. Davidson, M. Sidekeck, H. Liberman, C. Wallen, M. Latts, J. Tarnown, A. Faig, J. Goode, E. Leshen, M. Miller, B. Levy, J. Rice, J. Rothenberg, J. Sholler, S. Schneider, J. Verb, B. Bond, T. Mintz, M. Gardner, S. Block, M. Latts, B. Kalamen, M. Grossman, D. Fisher, B. Zerman, B. Sadoff, M. Ferdman, J. Rothenberg, M. Sokol, L. Zagan, M. Friedman, J. Goldstein, L. Silfen, J. Segar, B. Schreiber, Jay, J. Fogel, B. Pollack, H. Rabinivitsch, A. Hayman, K. Goode, S. Greenberg, J. Rimmerman, M. Shapiro, J. Rempher, N. Raben, D. Gordon, S. Strell, A. Sasson, Hill, K. Friedman, S. Hart, R. Padzensky, M. Abrams, S. Schmenky, J. Dimaond, G. Udel, K. Rattner, J. Shew.





Sigma Alpha Mu is a fraternity built on friendship, a spirit of brotherhood and fellowship. Sigma Alpha Mu is composed of one hundred members who strive to achieve their goals. In the past year many achievements have been made that we can look back on and be proud of. For instance, in IM football Sammies placed third in the white division. In softball, we clinched the white division. Indeed, it was a productive year for Sigma Alpha Mu in 1986. Humorology, the campus non-profit organization which benefits the American Cancer Society, is an event that is highly regarded by us. Last year, SAM placed second among twelve other acts who entered. Another event which we sponsor is our nationally acclaimed event, Bounce for Beats. During the month of April we set up a stand in the Memorial mall, and continually bounced a ball for six straight days. Last year, we raised over $5,000 for the American Heart Association.

Having fun is one element we strive to maintain in the Sammy house. For instance, last year, our spring party with the Chi Omega sorority was a complete "blow-out" bash. With the help of fifty men, four tons of sand were spread throughout the house, creating a beach-like atmosphere. Our fourth annual Langdon Yacht Club Party including two hot tubs, was also an event to remember.

But Sammies is not only a place for activities. It is also a place to grow and experience friendships. Sammies is a step toward the future.

ΣX

Founded 102 years ago, and today boasting over 100 members, the Alpha Lambda chapter of the Sigma Chi Fraternity sits among the elite of the greek world in all aspects of college life. Vital to the success of Sigma Chi has been our commitment to excellence in academics, athletics, social life, and community service. Most essential to our success has been the unbreakable bond of brotherhood among our members.

Academically, Sigma Chi's record reflects a good balance between studying and partying. The chosen fields of study of our members run the gamut from Art History to Zoology. Our academic diversity epitomizes the diversity of the fraternity as a whole. Athletically, Sigma Chi's prowess is undeniable. With two straight Badger Bowl championships under our belt, we have more than proven our overwhelming participation in and domination of intramural sports. What about social life? The Sigma Chi social calendar includes such amazing events as Wedding Party, Bahama Beach Blast, and World Famous Wing Cocktails. The combination of these parties and our academic and athletic achievements is what continues to bring the campus' finest men to the door of "The 221 Club."

Derby Days, our philanthropy, is one of the most popular (not to mention successful) philanthropies in the greek world. This 5-day competition pits sorority vs. sorority in such grueling events as pool, limbo, and beer chug. All of the money we raise goes to the Wallace Village Center for mildly brain-damaged children.

This year was a highly successful one for Sigma Chi. Our extremely successful and precedent-setting dry rush program was proof once again of the true character of the gentlemen of the 'W': The Sigma Chi Fraternity.

Sigma Delta Tau

Front row: J. Zakon, P. Kahn, L. Polish, N. Schultz, S. Lilienthal, T. Durchin, S. Klein, J. Schachter, A. Rutherford, P. Brown, C. Sherr. **Row 2:** G. DiPico, D. Markus, A. Schlissel, S. Liner, L. Kolber, T. Rothman, T. Cooper, D. Rugendorf, L. Zaretsky, L. Rabinowitz, K. Frank, D. Hoffman, W. Kivens, S. Berman. **Row 3:** I. Friedman, C. Ferrigan, S. Cross, J. Pink, A. Feldman, R. Migdal, D. Stern, D. Bailey, J. Kaplan, E. Cohen, S. Vi-nik, E. Herman, A. Sanshuck. **Row 4:** J. Schatz, A. Litwin, S. Bilfeld, H. Koppleman, A. Matzke, S. Silberman, L. Reisman, L. Schleicher, J. Wohl, L. Belman, J. Neuman, H. Trestman, B. Freeman, S. Godes, L. Green. **Row 5:** A. Abodinsky, M. Hollander, L. Barr, M. Abrhamson, L. Becker, R. Erlich, J. Silverstein, I. Delagrave. **Row 6:** R. Lepp, C. Munzer, S. Bloom, S. Jacobson, N. Swanson, L. Goodman, A. Shindel, G. Silverberg, B. Kornblatt, D. Schultz, W. Jacobson, T. Mandel, A. Stein, C. Sims, R. Goodking. **Row 7:** D. Lockwood, S. Absler. **Missing:** M. Hoppmayer, E. Nadler, J. Schneider.

The golden yellow tea rose of Sigma Delta Tau was in bloom again this year. We had a great rush and a wonderful, energetic pledge class. Homecoming brought out the 'Sig Delt Spirit' in us. It was a fun week with the men of Chi Phi. One highlight of the week was being interviewed by all three television stations because Bucky's head was stolen from our float. The excitement continued as we worked on Humorology with Tau Kappa Epsilon. Our philanthropy, an inter-fraternity tennis tournament, raised money for the National Society for the Prevention of Child Abuse with great success.

We also participated in numerous fraternity philanthropies. Derby Days brought us out in full force as we rallied to keep our trophy from the previous year.

As always, Sigma Delta Tau had incredible parties with many fraternities and sororities. The diversity of our social schedule represented the personalities of our members. We were very proud, as always, of the uniqueness of every member. Our newest actives have only enhanced that dimension of Sigma Delta Tau. In turn, our diversity brought us together as a close, loving, cohesive group. We wish all graduating seniors the best of luck and hope they find everything they're searching for. The treasures we have found through the bonds of sisterhood are jewels that bring harmony. Sigma Delta Tau has brought us love.

ΣΔΤ

Sigma Phi

Front Row: P. Smith, T. Schnatterbeck, J. Bernier, T. Laux, J. Bleskacek. **Row 2:** S. Keipper, M. Kopetsky, K. Schultz, S. Smith, D. Strasburg, M. Blahnik, R. Stern, S. Tarmann. **Row 3:** J. Roemer, J. Cowan, R. McKay, B. Cawley, S. Ball, S. Thurner, D. Archie, S. Winkle, K. Havey, F. Demeter, T. Laux. **Row 4:** T. Plowman, A. Reul, P. Waugh, L. Brown, D. Kretchman.

ΣΦ

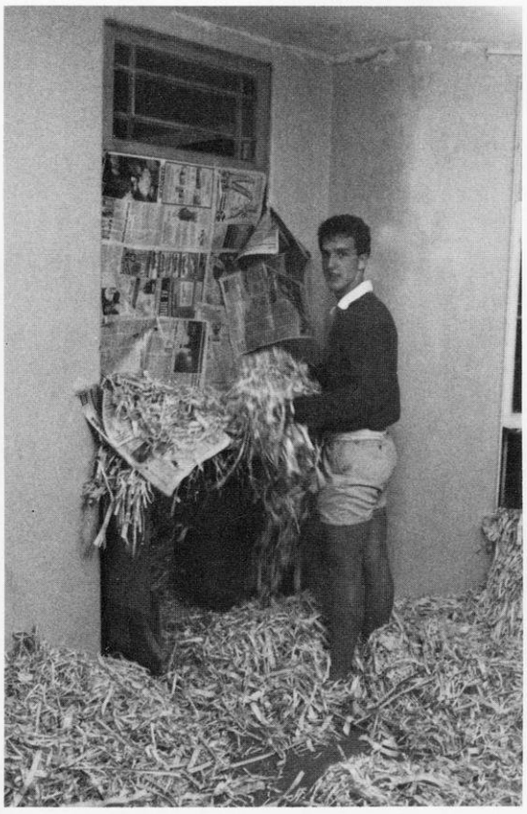
Sigma Phi is the oldest continuing national fraternity. Its home is the beautiful, only surviving 20th century residence designed by Louis Sullivan. The Bradley House peacefully comforts 21 Sigs and yet opens itself warmly to all its guests.

Brotherhood continues to be the key which binds together our members into much more than just friendship. To be a Sigma Phi is to be far from ordinary. Each member projects his individuality toward the whole.

It is true that history repeats itself at Sigma Phi with respect to academic excellence. Dedication toward academic achievement is paralleled by an equal dedication toward social prowess. This year has proven that sophistication and party can blend together.

Sigma Pi

Front Row: M. Ahmed, A. Nakono, D. Wustrack, H. Rothfeder, P. Jones. **Row 2:** K. Stattenfield, B. Scheller, J. Relfing, M. Berghahn. **Row 3:** G. Chung, G. Hameister, R. Peterson, J. Anderson, M. Graves. **Row 4:** D. Richards, P. Harney, H. Poirier, J. Pirozzolo. **Row 5:** D. Sands, J. Merikoski, D. Wahl, J. Righini, T. Wike, P. Hoffmann, T. Vilter, J. Dunn, J. Hunt.



Our fraternity was colonized on December 11, 1985, so the 1986-87 school year was our first full year as a fraternity.

The past eleven months have been very productive ones for us. We increased our membership from the original thirteen founders to thirty-one and expect to have more than forty-

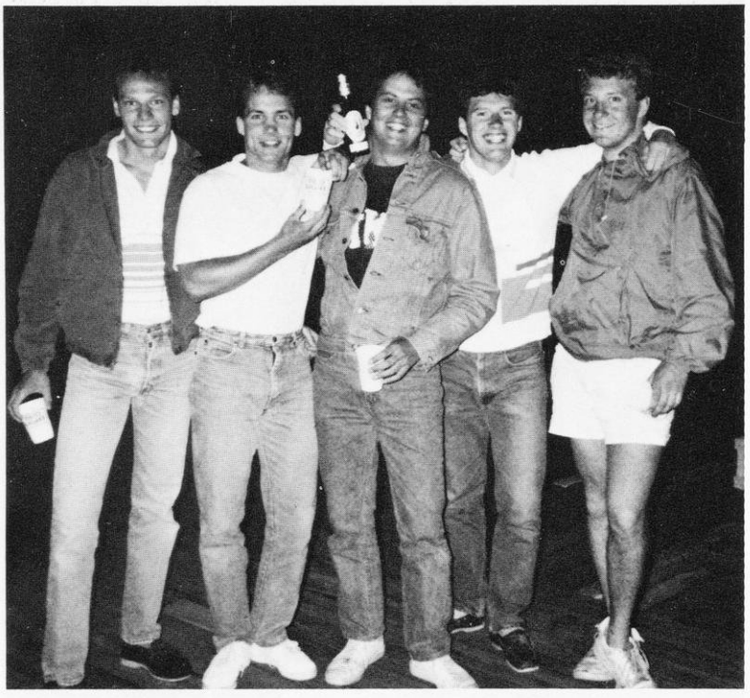
ΣΠ

five members by the end of the year. In January 1986 on Martin Luther King's birthday, our fraternity was part of Governor Earl's Pick and Glean program. We picked enough corn from a farmer's snowed-in field to feed his cattle through the spring. We helped the local Muscular Dystrophy Association Chapter with the M.D.A. Labor Day Telethon. Our Fall Rush program was also very interesting. The first week we filled our house with vines and trees for a Jungle Party. The next week we drew nationwide attention when a Hamster Party we planned was declared a fire hazard by the Madison Fire Department. The description of a house filled three feet deep in shredded newspaper went out over the Associated Press Newswire and appeared on the front pages of papers in New York, Connecticut, Colorado and California. Likewise, for our Insane Rush we converted our livingroom into a sideways bedroom, where one wall was the floor and the floor was a wall.

We have many plans for the second semester. We should receive our Charter and become a full chapter of Sigma Pi before the end of this school year. We also plan to help the M.D. A. again with a campus-wide fundraising SuperDance in February. And, we plan to again run a very interesting Rush program.

TAU KAPPA EPSILON

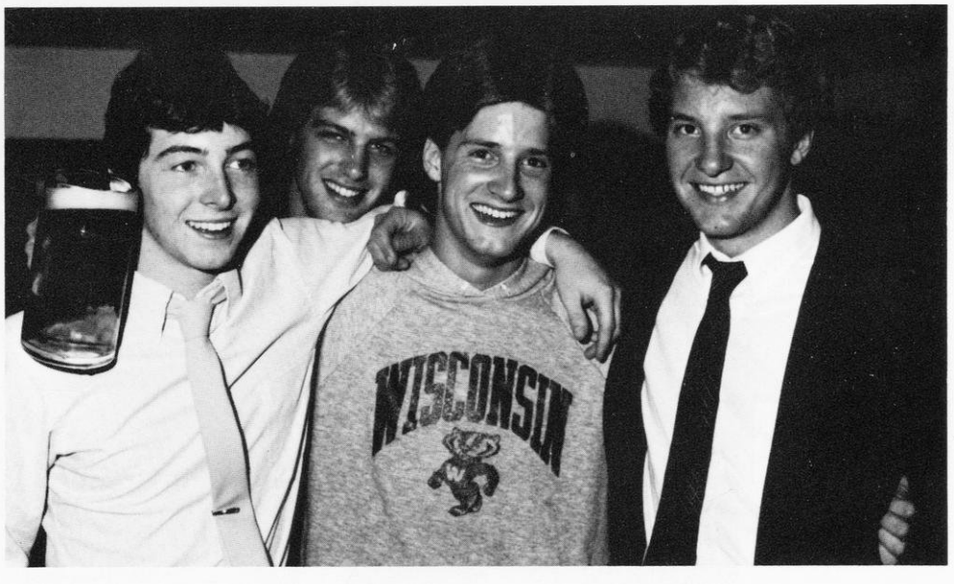
Front Row: D. Hartung, B. Rushevics, P. Sebold, M. Batchlor, K. Heydorn, G. Bingham, M. Fenton, M. Mugnai, K. Sipprel, B. Kardasz, T. Kell, L. VanderHorst. **2nd Row:** F. Buyars, J. Wendorf, M. Sherry, J. Griffin, F. Baldwin, C. Hewitt, D. Cardinal, V. Granata, D. Vanasek, T. Flynn, M. Divane, J. Sveumm. **3rd Row:** K. Madden, B. Yeschek, N. Funke, F. Mabius, J. Jorge, S. Goff, B. Henke, M. Reader, T. Furon, B. Henriksen, M. Levinson, B. Gottloeb.



It has been another fun-filled year here at 216 Langdon. Our year was highlighted by a great Homecoming Week. Our house was interviewed by Channel 27 that week and we also had one of our members on court. We also worked really hard with Sigma Delta Tau to make it into Humorology. Our registration day round-the-world date party gave a new meaning to that process: anatomy was the best! Also our parties with the Thetas and our second annual Christmas party with the Gamma Phi's proved interesting. And in between we found time for sports, beer suppers and formals.

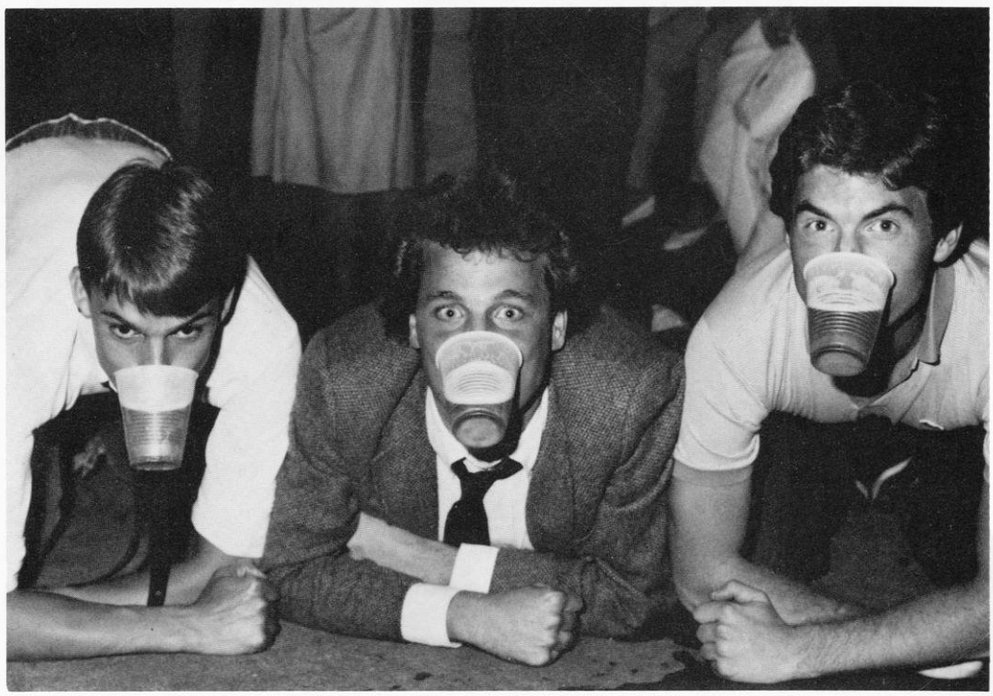
But it wasn't all fun and games. We had two members inducted into the Order of Omega — the greek honor society and helped out the United Cerebral Palsy Association by manning the beer tent at the Festival of the Lakes.

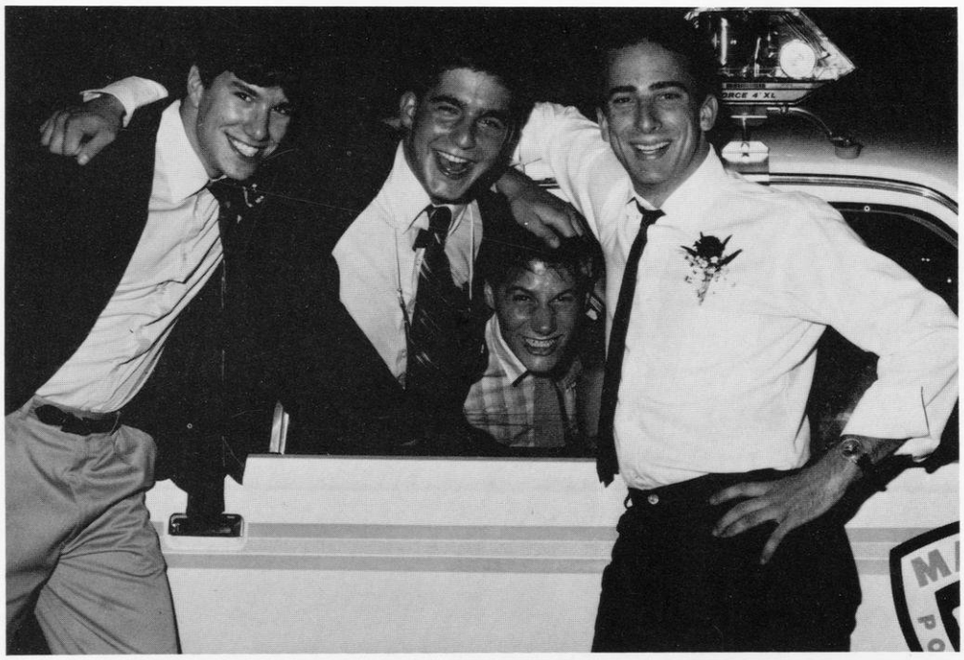
TKE

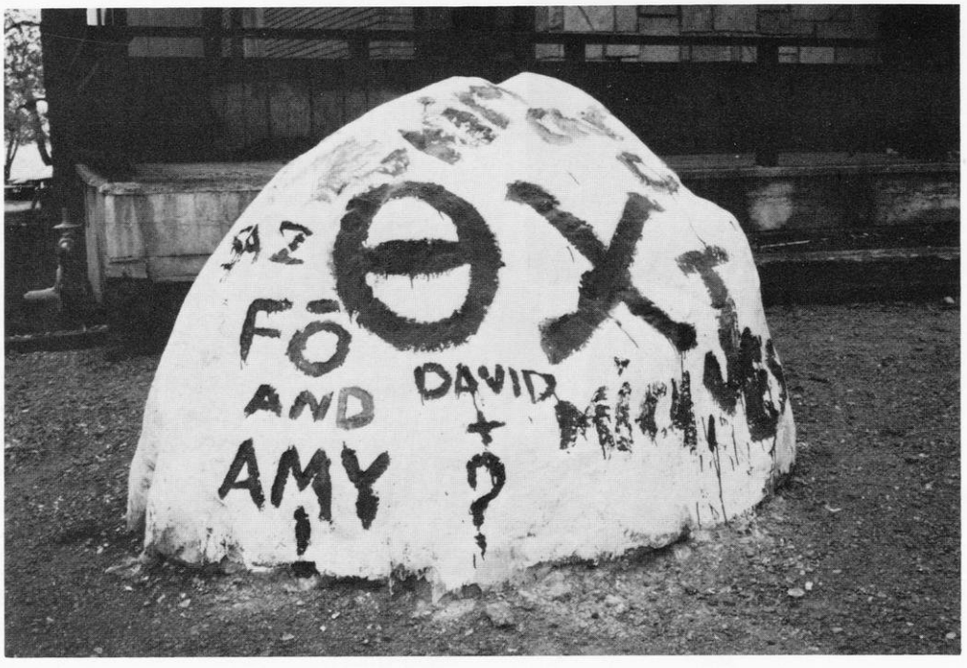


Theta Chi

Front Row: B. Nyitray, T. Peske, Dylan, D. Regeie, J. Lehrer. **Row 2:** B. Brandt. D. Kelly, J. Brewster, D. Murphy, C. Bachroot. **Row 3:** T. Christopher, J. Anderson, T. Drake, D. Yang, J. Zimmerman, M. Malina, M. Kraus, D. Salata, T. Gullano, R. Guindon. **Row 4:** R. Megley, L. Groe, B. Griffin, J. Evanger, D. Holzhauer, B. Arnold, C. McIntyre, J. Karalis, M. Harrold. **Row 5:** T. Jenkins, T. Dwyer, T. Scott, M. Wiersum, T. Ritter, K. Mede, J. Wooldridge, M. Foster, J. Stachelski, S. Vincent, P. Sazama, H. Kirkegaard, D. Heindrich, T. Thompson, K. Guernsey.







Theta Chi fraternity again enjoyed a tremendous year in the heart of Langdon area. Our house is young and growing quickly with the rest of the greek system. Our membership is an incredible mix of people with varying majors and hometowns. Trying to balance an active social schedule, intramural sports, our philanthropy Ski for Cancer, and school is not easy. However, the men of Theta Chi give it their best shot.

Our social year began with the Tri-Delts and our first Badger Football Warm-Up of the year. The porch has never seen so many dance "The Bird" so avidly. Then, the second annual Alpha Chi/Theta Chi Wedding Party proved to be a smashing success as did the Pi Phi Installation Party. We paired with the Thetas for Humorology and had a major bash with them near the end of the semester and Fall formal was once again a wild party.

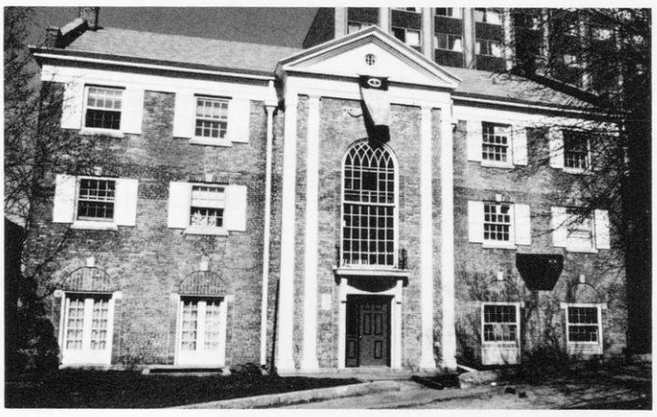
Second semester began with a lot of work due to our annual philanthropy, Ski For Cancer. Again we donated close to $10,000 to the MACC fund (Midwest Athletes Against Childhood Cancer) raising our total contribution to $160,000 since 1969. A visit to the Children's Cancer Center in the Milwaukee Children's Hospital made all the time and effort well worth it. Spring formal was replaced by a date party so that forty brothers could attend our regional convention in Illinois. Spring also means participation in Greek Week — and Spring Break.

Of course, nothing that Theta Chi does could withstand the test of time without the extraordinary brotherhood which has grown at Psi chapter during the last two years. Although we are diverse in interests and personalities, the brothers of Psi chapter join together in creating a strong and solid chapter.

ΘX

THETA DELTA CHI

Front Row: M. Brooks, S. Jastram. **2nd Row:** M. Anderson, J. Moore, B. Krueger, D. Ferrigan, D. Krueger, K. Mihlbauer, M. Kennedy, B. Wood, D. Simon. **3rd Row:** J. Michuda, J. Leonard, H. Kleiner, T. Brown, T. Greisinger, N. Radomski, F. Rodd, B. Hutnik, B. Obert, S. Augenstein, D. Digalke, M. Nelson. **4th Row:** T. Slamowitz, T. Enright, J. Henning, M. Jakubiak, T. Greisinger, S. Smyczak, K. Ehmke, B. Penney, C. Rossmiller, W. Unke, J. Jakubiak, M. Vatter.



ΘΔX

Continuing in a long tradition of brotherhood and excellence, the Sigma Deuteron Charge of Theta Delta Chi celebrated its ninetieth anniversary this year. As the oldest fraternity in continual existence at the University of Wisconsin, Theta Delta Chi maintains an active presence in many facets of university life. From varsity athletics to student government, Theta Delts excel both in and out of the classroom. This fall semester with 45 actives and 15 pledges, the Sigma Deuteron Charge is assured of a strong campus presence for many years to come.

As a social fraternity, we take our fun seriously. The social calendar this year has included such memorable events as the road trip to Northwestern, "Pee Wee's Birthday Bash," a semi-formal Homecoming Dance at the Edgewater, and the infamous Halloween after-bar. Known for great parties, and a beautiful house, Theta Delts pride themselves in maintaining this reputation.

Triangle

Front Row: S. Groner, S. McKnight, J. Ghandhi, C. Tatsuguchi. **2nd Row:** R. Eisenheim, M. Thode, D. Nilsen, P. Kreunen. **3rd Row:** M. Kinblom, J. Melchior, R. Kumar, M. Wanta. **4th Row:** R. Sommerfield, B. Mohr.

In our 73rd year on campus, Triangle Fraternity continues its growth and involvement. Our locations at 144 and 148 Breese Terrace put us across the street from the engineering campus and in the center of the action on Football Saturdays.

Large pledge classes and recent graduations have led to a younger, more involved active body. During the recent intramural season, we demonstrated our athletic prowess by taking second place in both football and volleyball.

As a social/professional fraternity, we are limited to engineering and science majors. Triangle Fraternity is an excellent choice for the men majoring in a technical field who want to make the most out of their years at UW-Madison both academically and socially.

1987 Groups

CHERI FANCSALI
editor

Alpha Chi Sigma

Alpha Chi Sigma is a coeducational, professional chemistry fraternity, with a strong social program. Alpha Chi Sigma is a closely knit group of about thirty-five students who have chemistry related majors. As a professional organization we organize lectures and operate a chemistry tutoring service. Socially, we have parties, warm-ups, and video nights. Alpha Chi Sigma allows you to be a serious student while letting loose at times to have fun!

Front Row: L. Fryba, L. Dreifke, R. Nightingale, W. Wexler, C. Nugent, S. Wells. **Row 2:** K. Sluhoski, L. Meiers, J. Krahn, M.K. Cheung, K. Field, K. Seidenman, K. Wellnitz, D. Adolf, B.T. Howell, M. Ehrhardt. **Row 3:** T. Moriearty, D. Beyer, M. Glowacki, J. Freeby, L. Becker, K. Connerton, J. Sharer, K. Hutjens, T. Smurawa, K. Meger, G. Bills. **Row 4:** T. Jenkins, Witt. **Row 5:** S. Satek, D. Bikn. **Row 6:** R. Rickert, L. Fryba.

Cheerleaders

The University of Wisconsin Cheerleaders are continually involved in university functions throughout the year. The past year brought many great opportunities of travel for the squad. In August, the cheerleaders attended camp hosted by the Universal Cheerleaders Association in Blacksburg, Va. There, the squads received the Spirit Stick and a Most Improved trophy. During the football season, the Cheerleaders travelled to Hawaii, Las Vegas and various Big Ten schools. Before the basketball season, they entered a competition hosted by the United Cheerleaders Association. In the Mid-American Division 1A region, the U.W. Cheerleaders placed ninth out of twenty. A total of 200 squads entered this competition.

Top Row: E. Gill, L. Dacanay, A. Henson, K. Seguin, R. Keith, K. Fucton, A. Hurlburt, D. Bova, N. Acker. **Bottom Row:** N. Gwynne, J. Neiss, J. Meyers, J. Curt, P. Cooney, S. Gallaher, H. Lund, D. Hahn, R. Koppa.

Badger Herald

The Badger Herald has gone through many distinct phases over the last seventeen years. On occasion the paper has been dominated by its conservative political heritage. Other times, it has carved out a nich on campus as a colorful and irreverent journal of opinion and commentary. But 1986 will be remembered as the year we inauspiciously entered yet another, perhaps paramount, stage. We began daily publication on November 10.

Left Bottom Front Row: P. Schaffer, J. Slack, P. Sweitzer, P. Froelich. **Row 2:** G. Leving, K. Bartzen, M.J. Kewley, C. McCollum, J. Nilles, P. Rex. **Row 3:** T. Stanton, M. Vlahadamis.

Top: R. Ausman, Publisher, T. Stanton, Editor, L. Poulson, Ad Manager.

Crucible

Crucible is a small, select group of twenty women from all academic disciplines. The members are chosen on the basis of academic excellence and extra-curricular activities. The primary functions of Crucible are to become involved in campus and community service. It is the Chancellor's Honor Society for women.

Front row: B. Rhiner, R. Heck, A.O. Connor **Row 2:** L. Buss, second Vice Pres., K. Kvistad, Treasurer, L. Cannestra, First Vice Pres., S. Jesudason, President **Row 3:** C. Mougin, C. Dedolph, J. Grams, C. Renk, D. Knight

Iron Cross

Iron Cross honors junior and senior men for their scholarship and contributions to the university community. Over the years, members have chosen not to rest on past achievements, but continue to serve the university after induction into Iron Cross and even after graduation. Since 1902 Iron Cross has displayed an interest in helping the university not in maximum recognition for the organization or its members.

Front row: P. Bacig, M. Oshiki, D. Beaty, J. Adamson **Second row:** J. Wojta, D. Weidig, D. Willie, E. Schoff, S. Kohles

Daily Cardinal

The Daily Cardinal entered its 94th year at the university with a bang — the largest registration issue in its history. Following its 1986-87 premiere were two semesters of hard-hitting daily campus, city, state, national and international news under the leadership of editors-in-chief Stacy Swadish and John Keefe, both under-graduates.

The Cardinal expanded its fine arts and campus news coverage during the year, in response to the changing interests and news demands of University students. Fine Arts Editor Rachel Cohen and Campus Editor Mark Saxenmeyer mobilized their reporters to consistently report the news first. Cohen's "Performance" pull-out magazine and Saxenmeyer's weekly feature pages were highly praised, highly read additions to the publication.

Sports Editor Rob Hernandez's coverage of athletics, including complete wrap-ups, personality profiles, and a controversy ever so often kept students informed as well as entertained. Photography and graphics maintained their award-winning quality under the guidance of Chris Corsmeier and Mark Giaimo, and the advertising and business staff improved momentum through the efforts of Business Manager Tim Carroll and Advertising Manager Patty Share.

In addition, the Cardinal expanded its comic page, added a weekly feature, highlighting student nightlife, and introduced extensive listings of campus events.

Front Row: P. Share, R. Cowen, P. Crouse, K. Rathke. **Row 2:** G. Thome, R. Krol, D. Nairne, T. Miles, J.D. Anderson, G. Wells, S. Chatterjee, R. Jerving, S. Kuechenmeister. **Row 3:** R. Ritzenthaler, D. Straszheim, M. Russell, W.P. Norton, C. DeCardy, R. Jannaccio, T. Carroll (on the way), T. Perterson, M. Giaimo, M. Saxenmeyer, R. Hernandez, R. Botta.

Homecoming Committee

Red, White, and U.W. — Catch the Wave — Homecoming 1986 was the most successful of all homecomings for many reasons. The week started off with the Second Annual Charity Run which drew 450 runners, 350 more than last year. Profits from sales items broke all previous records. There was also a record number of people daring enough to give blood. Two new events were added to this year's activities. Included was the First Annual Badger BBQ. It took place on the terrace and featured a fully choreographed show by the Wisconsin Singers. Also was the unsuccessful attempt at breaking the worlds largest Twister game. The court appeared at luncheons, dinners, class reunions and the pediatric center of University Hospital as well as at the Homecoming game. Ralph Cohen of Z104 emceed the Yell-Like Hell competition as well as Twister. The week ended with the parade featuring the ZOR Camel Patrol and Lee Meridith made an appearance at the pep rally that followed. All the proceeds from Homecoming '86 went toward the Student Crisis Fund.

Top Homecoming committee plays in the stands during the football game.

Kappa Psi

Kappa Psi Pharmaceutical Fraternity is a professional organization of men and women dedicated to the advancement of the profession of pharmacy. Currently over 60 members strong, Kappa Psi engages in many public service and professional projects including: diabetes counseling, drug education for the elderly and professionals, further education for the upcoming professional and fund raising for Hospice, UNICEF and the Dane County Epilepsy Foundation.

Besides this, Kappa Psi stresses scholastic achievement in its membership and recognizes such achievement through scholarships and various levels of achievement awards.

Finally, Kappa Psi also serves as a social organization for its membership by hosting several annual and impromptu parties throughout the year.

Officers for this year are: Regent, Janis Brinkman, Vice Regent, Thomas Ross, Secretary, Shelly Wuttke, Treasurer, Kris Gordon, Professional Chairman, Mike Vande Zande, Social Chairman, Charles Zuraites

Top: Kappa Psi Actives, **Bottom:** Kappa Psi Pledges.

Mortar and Quill

Mortar and Quill is the official yearbook of the University of Wisconsin Pharmacy School. It promotes the Pharmacy School as well as the profession of pharmacy by printing articles of academic and social interest to pharmacy students and faculty. The publication intriduces pharmacy organizations and events to new students, and preserves fond memories for graduating students.

Mortar Board

Front row: M. Huynh, M. Moran, A. Sherwood, M. Mullahy, S. Cebrowski, E. Fliess **Row 2:** H. Streblow, L. Pagel, R. Mak, D. Miller, L. Cannestra, B. Fedderly, S. Genkin, R. Schmidt **Row 3:** E. Witte, B. Petrie, N. Johnson, G. Pilhofer, E. Schoff, D. Wille, T. O'Brien, M. Ouellette, B. Zick

Meeting at Syracuse University in 1918, Mortar Board was founded as the first and only national organization honoring senior women. Membership was opened to men in 1975. Our Madison chapter began in 1920 as the ninth chapter nation wide and today there are almost 200 chapters through out the nation.

Mortar Board is different because membership in this senior honor society reflects a commitment to serve, and demands active and often intense participation throughout a member's senior year. Each chapter is autonomous and thus has the unique opportunity to completely control its own direction and focus. The chapter can work to help the university and the Madison community in what ever manner they choose. Led by Elizabeth Witte and Jonathon Berkoff as president and vice-president this year, we are proud of our numerous achievements. The tuition raffle raised funds for the Madison Literacy Council, and our registration advising service helped over 500 freshmen. We also were involved in the last lecture series, a Three Wishes Childcare Party, University of Wisconsin Funding Problems Awareness, and a Mortar Board Fun Run. We are proud of our active and fulfilling year and challenge next years members to continue the long-standing tradition of service, scholarship, and leadership.

. . . and On Wisconsin

Phi Chi Theta

Front row: J. Bardeleben, C. Wong, J. Hackbarth, C. Alexander **Back row:** L. Kraus, B. Rudnicki, J. Orzesiak, K. Tacke, B. Amro

Phi Chi Theta is a professional business fraternity. Founded on June 16, 1924, its initial purpose was to promote the cause of higher business education and training for all women and to foster high ideals for women in business careers. Phi Chi Theta has grown from eight chapters in 1924 to fifty-nine collegiate chapters, nineteen alumni chapters and 34,000 members in 1986. This is proof that our organization is fulfilling the ever growing need of women in business.

In 1986, the purpose was revised to say, "to promote the cause of higher business education and training for all." Phi Chi Theta is open to both men and women of all business majors and economics with the aspiration and dedication needed in today's business environment.

Our activities include professional speakers, fund raisers, and community service projects.

Panhellenic Association

The University of Wisconsin Panhellenic Association serves as the governing and policy making body of the sororities. It consists of a sixteen member executive board and two representatives from each of the thirteen sororities on campus. It encourages the maintenance of high scholastic achievement, community and campus participation, and moral advancement. Through Panhellenic's ongoing contact with other student organizations and the university administration, the sororities have a voice in determining campus policies.

The Panhellenic Association is a very active participant in the Greek, University, and local communities. It is responsible for the organization of sorority Rush in the fall, as well as for Informal Rush in the spring. It sponsors such philanthropic events as: Humorology, a Greek variety show, the proceeds — of which go to the American Cancer Society; Greek Week, a week long competition between the fraternities sororities, and other student organizations, the proceeds of which go to the Dean of Students Crisis Fund, and Girl Scout Cookie Sales, an event organized to help the Girl Scouts of Dane county raise money to send girls to camp for the summer. In addition to all of this, the Panhellenic Association has representatives on many of the various University committees such as the Dean of Students Security Needs and Concerns Committee, and the Wisconsin Alumni Student Organizations Council.

H.I.S. Christian Singers

H.I.S. Christian Singers presents Christ in word and song from the University of Wisconsin, Madison. The goals of this organization are fourfold. First, is fellowship with other Christians at the University, Hebrews 10:24-25. Second, to share Christ through the ministry of music with other campus and community groups, Matthew 28:19-20. The third goal of the group is to grow spiritually and musically through participation, James 1:22. The fourth goal is to worship God, lifting up Jesus as Lord, Colossians 3:16-17.

H.I.S. Christian Singers celebrated their tenth year anniversary this year and invited their alumni back for a great time of fellowship, October 3rd through the 5th.

Under the direction of Art Becknell, Professor of Music, the group rehearses on Tuesday evenings, six to eight, at Luther Memorial Church. They present concerts whenever they are invited to area churches and campus groups.

If you love the Lord and love to sing, H.I.S. Christian singers is the group for you!

Front Row: L. Regge, T. Deprey, A. Jacobus, S. Jordan. **Row 2:** M. Erfurth, R. Brandemuehl, T. Miller, T. Morkved, S. Wissmann. **Row 3:** A. Becknell, G. VanWagenen Jr., K. Blackmore, M. West, L. Society of Mace

The Society of Mace is the Chancellor's honor society for Junior and Senior men. Members are chosen on the basis of academic excellence, leadership, and extra-curricular participation. The purpose of Mace is to provide its members with the opportunity to enhance their educational and cultural experience at the University, and to promote better communication between students and administration.

Front Row: O. Algan, D. Wille, President, B. Christenson. **Row 2:** G. Lillegard, C. Thompson, J. Hurley. **Row 3:** D. Weidig, M. Baker, D. Werner, M. Latz

Student American Pharmaceutical Association

Student APHA is the student organization of the American Pharmaceutical Association which provides professional programs, service projects, and legislative activities for the advancement of pharmacy. The University of Wisconsin Student APHA offers pharmacy students involvement in hypertension screenings, poison prevention presentations, and state and national conventions. In the school of Pharmacy, SAPHA sells pharmacy books and sponsors a drug fair where students are exposed to drug manufacturers and their pharmaceutical products.

Front row: P. Rosowski, J. Brinkman, S. Wuttke, J. Hoettels, S. Ehlert, I. Shah, R. Romano. **Row 2:** Prof. J. Wiederholt, C. Becker, B. Wagner, J. Groskopf, E. Harris, M. Beck, K. Johnson.

Tau Beta Pi

Tau Beta Pi is a national engineering honor society. The Society was founded at Lehigh University in 1885 and has since grown to over 200 undergraduate chapters and numerous graduate and alumni chapters. The Wisconsin Alpha chapter, founded in 1899, was the sixth undergraduate chapter chartered and has since initiated over 4,200 members.

All Engineering and Applied Mathematics, Engineering, and Physics students in the top eighth of their junior class of the top fifth of their senior class are eligible for candidacy. All candidates are further judged on personal integrity, breadth on interest and involvement in chapter activities.

Wisconsin Alpha provides numerous social and professional opportunities for its members through speaker presentations, dinners, sport outings, a newsletter, and a resume book. The chapter also provides tutoring services, registration help, and business contacts through alumni members. Community services include blood drives and donations for the Muscular Dystrophy Association.

People Battling Paper Dogs

The goal of People Battling Paper Dogs is to cover the campus with anti-Paper Dogs propoganda. Ultimately, we hope to drive Paper Dogs off campus. In that vein, we've begun a nationwide man hunt for their leader, alias Bif Tuckman. We've experienced limited success in our "Cocaine Commercials — The Big Lie" campaign, and we are now engaged in an attempt to save the Amazon.

People Battling Paper Dogs began in the fall of 1984 in an attempt to bring happy people together. The founding members had in mind a return to times long past. While we've never succeeded in even our most limited attempts at change, we have been charged with several counts of creating a public nuisance. In an attempt to expand into a world wide organization a founding member has spent the last several months at Karl Marx University in Budapest, Hungary on an education-recruitment mission.

Wisconsin Alumni Student Board

The Wisconsin Alumni Student Board is a group of forty students committed to link UW alumni with students, recognize student leadership, and serve student needs. Some of the programs WASB has developed to serve UW students are Alumni Student Career Counseling (ASCC), the Wisconsin welcome for out-of-state freshman and transfers, weekend campus tours and Finals Week Survival Kits.

The year began as a turbulent one, when internal conflict forced the resignation of Co-President Heather Ritchie. But when people started having fun here, thoughts and efforts turned to Halloween and Bob Kasten School of Driving's drive to make good on their Jell-o campaign promise. Sure — everyone thought we would all end up resigning, but there was simply too much to do looking after the interest of 45,000 students. This was more than enough to keep Ant Bridge and Bob Kasten School of Driving occupied for the year.

Though the Jell-o and the Run for Liberty, Wisconsin Student Association had to mobilize during this election year to keep tuition down and education up and, with Chancellor Shain's resignation and Dean of Students Paul Ginsberg's retirement, a new direction was in the offing. Also, image problems racked the organization, bringing consolidation to put things back on track.

If anyone could do it, it was the crew pictured.

Bottom: The Senate.

What are we doing here? I've asked myself that question over and over again. It's something every student has to face, but it's a question the Badger Yearbook has had to face, too.

The 1987 Badger is our 100th volume, but it is not the 100th anniversary; that was two years ago (1885-1985). In 1973 and 1974 the book was not printed for a variety of reasons. This year we were faced with several serious setbacks, and had to decide what we were doing and whether there would be a book in May.

Late in October we lost a key member of our photography staff. Finals week saw editors in the darkroom until 4:30 a.m. processing color pictures. In December sales were down, as were spirits.

A theme never had more relevance. Things looked pretty bad more than once, and it was hard to remain enthusiastic. So, I'd like to thank my staff, especially the photographers, because they know better than anyone else what they are doing here. Because of them there is a 1987 book.

Jennifer Agassi

The 1987 Badger was printed by Herff Jones Publishing Company, Marceline, MO. Owen Stoughton was company representative. Press run, 1,750. **Badger** contains 320 pages printed on 80# glossy enamel, including 32 pages of full color and 32 pages of spot color. Body copy was set in 10 pt. Avant Garde Book, with headlines in various sizes of the same. Cover design by Robin LaSalle and Shanna Moore, printed in Duralith 150 pt. binder board. Endsheets are 80# Herff Jones stock. Senior portraits by Yearbook Associates, Box 91, Millers Falls, MA 01349. Badger copyright 1987, Badger Yearbook, Inc. Send inquiries to 2147 Vilas Hall, Madison, WI 53706.
