The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

THE SOLUTION: THE LENOX HILL DEROTATION BRACE

VISIT US AT
BOOTH NO. 507/509

For more than a decade, in every part of the world, The Lenox Hill Derotation Brace has enabled tens of thousands of men and women with knee problems to continue participating in contact and non-contact sports of every kind.

Using a plaster model, each brace is custom made, by prescription, to exact specifications—giving patients the support and protection necessary for them to continue participating in contact and running sports, as well as getting the working man and woman back to their jobs as soon as possible.

The Lenox Hill Derotation Brace. Find out why more and more Orthopedic Surgeons are using it for pre-operative and post-operative management.
