'The Regents commend the spirit which prompted the students and faculty in recommending the protection and preservation of human rights in the University of Wisconsin.

The Regents are unanimous in their belief that the faculty and officers of the University of Wisconsin, throughout the long years of its history, have made an outstanding record in the safeguarding of human rights. Our University has historically served, regardless of race or creed, all who have sought its instruction. Its students now include members of all groups and segments of society, accepting each other and learning together. The Regents are proud of the ability of any student on our campus to gain recognition upon his or her individual merits, and are pleased with the growth in understanding upon our campus -- an understanding so sorely needed in America and in the world.

THEREFORE, BE IT RESOLVED, That the University of Wisconsin shall in all its branches and activities maintain the fullest respect and protection of the Constitutional rights of all citizens and students regardless of race, color, sect, or creed; and any violation thereof shall immediately be reported to the administration and the Regents for appropriate action to the end that any such violation of Constitutional rights shall be promptly and fully corrected, and future violations prevented.'

(Cont.)

The Regents are gratified to note that the Faculty at their December meeting unanimously passed a resolution 'to implement the resolution on human rights passed by the Regents on November 11, 1950' and are happy themselves unanimously to concur in that resolution. It reads:

'That a Committee on Human Rights be established, consisting of three faculty members and two students (panel of students to be nominated by Student Board) appointed annually by the President, with the following duties: (1) by fact-finding and education to work toward elimination of racial and religious discrimination against members of the University community; (2) to keep the Faculty informed by occasional reports regarding the status of the human rights problem in the University community and make recommendations on matters of policy connected therewith; (3) to consider alleged violations of the human rights of members of the University community, and to report its findings to the University's administrative officers.'

The Board of Regents will by appropriate action fulfill the obligations and assurances of establishing the policies of this University pursuant to the resolution of this Board adopted November 11, 1950."

The Secretary reported that President Sensenbrenner had requested, in writing, that he be recorded as favoring the action of the Faculty establishing a Committee on Human Rights and that Regent Hodgkins had approved the Faculty recommendation by telephone.
