WOMEN WILL ROW

VARSITY GIRLS TAKE TO AQUATICS.

Prospect of Race Between Freshman and Sophomore Crews—Unusual Interest in Outing Clubs.

An unusual amount of interest is being taken this spring in outdoor exercises for women. The latest proposal is to have girls' crews which will row in the Varsity gigs. This matter has not been definitely arranged yet but if possible it is hoped that it may be brought about. There will probably be two crews, one from the freshman and one from the sophomore class, and a race may be arranged later in the season. The question of coaches has been brought up, and these will probably be supplied from the available material now in the University.

Rowing has been adopted with great success at several of the eastern schools, notably at Vassar and Wellesley. Milwaukee Downer College also has a crew.

Along other lines the same activity is seen. A cross country walking club has been organized, and made its first trip yesterday afternoon, going to Eagle Heights. The club meets three times a week at four o'clock and goes in two divisions each under the guidance of a leader.

The bowling club has been organized and bowls regularly in the gymnasium alleys.

In tennis too an unusual interest is being shown. Miss Mayhew says that she has never seen so much interest taken in the game during the four years she has been connected with the University. Six or eight Round Robbins of ten players each have been formed and the winners in these will try out for the championship. Inter-sorority games may also be arranged. Miss Macawley is president of the tennis association.

HOLLEN CHAIRMAN.

1903 Badger Board Organized This Afternoon.

Richard H. Hollen of Eau Claire was elected chairman of the 1903 Badger Board at a meeting of the board this afternoon. George R. Keachie was chosen business manager and Miss Beulah C. Post of Dubuque, Iowa, was elected secretary.

Engineers Elect Badger Editors.

The sophomore engineers held a meeting yesterday afternoon, and nominated their nine members to the 1903 Badger Board. R. N. Foster presided and the meeting was very quietly conducted. It was voted not to elect the men from the three courses as originally intended.

Following are the nominees:

Gustav W. Garvens, of Wauwatosa, is a member of Hesperia, and has done some newspaper work.

John L. Savage, of Madison, is an exceptionally good draftsman, and in his freshman year took the prize in descriptive geometry.

Arthur Armstrong, of Ashland, was the first president of the class. He is a member of Phi Rho Beta.

Frank P. Woy, of Sparta, is an excellent student and a member of Kappa Sigma.

Martin W. Torkelson, of Black River Falls does uniformly excellent work in his classes.

George R. Keachie, of Cedar Rapids, Iowa, was an editor of the student's paper at his high school.

Irving Seaman, of Milwaukee, was the tennis champion in doubles last year. He is a member of the Chi Psi fraternity.

John Pugh, Jr., of Racine, is well known as an athlete.

James Zimmerman, of Milwaukee, has done good drafting work, and is a good student.

Of these there are four from the civil engineering course, and five from the electrical.

Hebrew Lecture Postponed.

Rabbi Meyer of Milwaukee, who was to have opened the series of lectures given under the auspices of the department of Hebrew and Hellenistic Greek, was called to St. Louis last week, and his address will be postponed. The succeeding Tuesday is likely to be the date; definite announcement will be made in Thursday's Cardinal.

CANVASS FOR FUNDS

Christian Association Building Project Being Placed Before the People of the State.

The canvass for the new building for the Christian Associations is being actively pushed in the larger cities of the state. Up to two weeks ago little more than preliminary work was done. The necessity for such work is due to the pressure upon the people of the state by local needs and the great distance from which the University project must appeal. In the financial world as well as in the realm of physics it may be said that the force of attraction of an object of benevolence to a man of business varies inversely as the square of the distance. Many people think that the proposed building being located in Madison would be essentially a Madison affair and consequently that the people of Madison ought to build it. Others are more interested in the denominational colleges all of which now have men in the field after subscriptions for special needs. Still others content themselves with expressions of sympathy and good will. To properly lay the need and the responsibility upon these it requires thorough and long cultivation. The first thing to do is to sow the seed in the form of the building prospectus, special reports, newspaper articles and facts regarding the needs. Two weeks ago a process of cross-harrowing was undertaken by sending out letters containing various printed leaflets and a cut of the lot showing its ideal surroundings. The third step, which is now being taken, consists of personal calls upon the most likely contributors with a definite request for subscriptions. It is too early to judge what the results of this last step are to be. It is hoped that twenty-five or thirty thousand dollars may be raised in this way. About three thousand dollars has thus far been subscribed. The Board of Directors feel very keenly that it will be necessary for some one to give a large amount before a general popular canvass will be successful. Already there are several men interested to such a degree that it is hoped they will take the initiative. It may require some time to get the needed amount before contracts for the building can be let but the need of the building is so evident that the friends of the project feel confident that the necessary funds will be forthcoming.

WISCONSIN SUSTAINED

W. J. CARR WILL PRESIDE OVER ORATORICAL LEAGUE.

Big Contest Takes Place in Iowa City Friday Night—Wisconsin Delegates Leave Thursday.

Chicago sent word yesterday that they had instructed their delegates for William J. Carr for president of the Northern Oratorical League in place of Joseph Loeb, resigned. This practically secures the presidency for Carr as all the other colleges excepting Michigan have taken the same action as Chicago.

The controversy over the right of Wisconsin to fill the vacancy caused by the resignation of Loeb has been disputed by Michigan. The correspondence which has been taking place lately seems to show that the sentiment is in favor of filling vacancies by the college whose representative vacated the office. There are several precedents which justify Wisconsin's action in filling the vacancy in the presidency. Last year Iowa had the secretaryship, but the member resigned and the local association filled the place. The same vacancy occurred this year in the secretaryship by the resignation of Chicago's representative and the local associations there filled the vacancy.

There is no trouble anticipated as all the colleges seem unanimous. In all probability a conference will soon be held of the members of the league to form an amendment to the constitution to avoid any more difficulties in this line.

Iowa is making great preparations for the entertainment of the delegates who will attend the contest there Friday evening. On Friday afternoon President and Mrs. MacLain will tender a reception to the visiting delegations from Chicago, Michigan, Wisconsin, Northwestern, Minnesota and Oberlin. In the evening after the contest the local association will give a banquet for all the delegates.

An invitation has been extended to Mr. F. O. Logan to preside at the contest but he is unable to attend. The management regret very much his inability to attend, as Mr. Logan is deeply interested in this work. He has recently donated \$3,000 to be given in prizes to the winners in these annual contests.

The Wisconsin delegation, Professor Frankenburger, Miss Loeb, William J. Carr and C. R. Rounds will leave here Thursday noon.

Interscholastic June 1.

The date of the interscholastic will be June first after all. Professor Dudgeon, superintendent of the Madison High school, who has had the matter under his charge thinks that arrangements for the meet have gone forward too far to make it advisable to change the date now. Therefore the meet will be held as planned, on June first, and the conference meet with Chicago will be held on the same date, at Chicago. The dual meet between Chicago and Wisconsin will come off as scheduled on the twenty-fifth.

From now on Graduate Manager C. H. Kilpatrick will have charge of the interscholastic and intends to push things hard and make this meet the biggest ever held.

Stevens Bill Killed.

The assembly this forenoon by a vote of 33 to 29 killed the Stevens bill, the purpose of which was to remove all doubt of the right of students to vote in Madison or in other college towns where they might be pursuing studies. The question has been a mooted one in this city at every general election for many years, and at times the students have been threatened with prosecution if they should vote. They have commonly voted but have often had to swear in their votes. The Stevens bill did not really affect the residence question at all, but made it clear that, if a student desired to vote here he could do so by simply registering. That fact determined his residence. There was a debate, Mr. Stevens advocating the bill and Judge Orton opposing it. So the matter hereafter as in the past is one of conscience with the boys.

Noyes to Leave.

Dr. George B. Noyes, who for the past year has been assistant professor of English in the University, has been selected to take charge of a new department of Russian language in the University of California.

ATTRACT ATTENTION

Plans of School of Commerce Receive Favorable Comment in New York Journal of Commerce.

The plans of the management of the Wisconsin University in connection with the new School of Commerce are attracting attention in the East. Charles A. Conant, the New York Journal of Commerce correspondent here has sent to his paper an interesting account of the investigation in progress in Washington by B. H. Meyer, assistant professor of sociology, whose object is to obtain material for strengthening the new school. In addition to reproducing the paper recently issued by Dr. W. A. Scott, director of the school, giving an outline of the subjects to be taught, the article describes in interesting detail the work that is being done by several universities along the lines of commercial questions. Although mention is made of several leading universities, the article is devoted principally to a general account of the work that is to be done at Wisconsin. Mention is also made of the valuable service which James C. Monaghan will be able to render the school.

Speaking generally of the investigation by Professor Meyer, the article says: "The recognition by the universities of the practical importance of fitting young Americans for the conditions of the severe competition of modern business life, is very gratifying to members of the government who are seeking to promote the ascendancy of the United States in this struggle. Professor Hatfield and Professor Meyer have received a warm welcome from leading officials and much encouragement in their projects. They have explained that they desire to supplement the existing program of the universities by giving a course which will fill the gap between purely theoretical knowledge of such subjects as steam engineering and architecture. The line of subjects dealt with at the University of Wisconsin is intended for the education of any man who desires to put himself in line to become one of the captains of industry irrespective of the particular business or profession which he desires to enter. It is felt that each pupil, so far as he has a definite purpose will be able to adapt his studies to his ultimate object."

Engagements in Ripon College.
Ripon, Wis., April 29.—Miss Maggie Morse of Princeton, and C. J. Muss of Bessemer, Mich., and Miss Inez Hinman of Marshfield, and W. N. Caudlish of Rosendale, all students of Ripon college, will be married after they complete their studies.

How the heart of the society editor could be gladdened if a live Cardinal reporter went out and put in a day's work in University circles!

Base Ball at Beloit.
On account of the poor attendance at home games and the exceptional opportunities for a game at Beloit to-morrow the management has transferred to-morrow's game to Beloit. This action may be disappointing to some who had looked forward to this week as an exceptional one in baseball attractions but the lack of support at home games seems to justify the move.

The management has succeeded in securing a fare and a third rate to Beloit and desires that as many students as possible take advantage of it to attend the game there to-morrow. The game will without doubt be a rattling good one and well worth the effort.

The Weather.
Fair. Continued warm tonight and Wednesday.

Plays for Dramatic Contest.
Preparations are going on for the dramatic contest which will be held in about a month. Professor Frankenburger has had some difficulty in selecting suitable plays but has at last decided upon three, one a comedietta and the other two farces.

The casts of the plays are not yet fully arranged, but will be announced later. There are in all eighteen parts to be filled.

The plays selected are as follows: "To Oblige Benson," a comedietta in one act, adapted from the French by Tom Taylor. "Hector," a farce in one act adapted by Maurice Hageman. "That Rascal Pat," a farce in one act, by J. Holmes Grover.

TRIAL RACE SATURDAY.

Junior Law Crew will Try Conclusions with Freshmen.

Coach O'Dea says that the crews are all getting well started with their work on the lake. He intends to bring off a trial race Saturday between the laws and freshmen. There are still two freshman crews rowing and the best men will be picked for the race. Assistant Coach Sutherland is paying especial attention to the law and freshman crews and goes out in the boats with them each day.

The coxswains are going out with the Varsity crews every day and Coach O'Dea follows up with the launch. Weather has been very favorable this week for rowing and all the crews are working conscientiously. When the lake is too rough for rowing the men are taken for long cross-country runs. On Sunday they all take a long walk out into the country. The men will go to the training table now in a few days.

Daily Speed Trials.
Last night in practise, Webster, '04, threw the discuss 117 feet. This work is extremely good and is running close to the inter-collegiate record. This was but the second day in which he had tried the double turn in throwing and with a bit more practise he should be able to make inter-collegiate rivals look well to their laurels.

Speed trials unpaced are quite the usual thing at Camp Randall of late. Scarcely a night goes by that Coach Kilpatrick does not send one or more Varsity aspirants against time. Some of the more notable of the recent ones was Chapman's quarter in 53 seconds in which he ran easily and finished with considerable strength. Saturday Keachie ran the mile in 4.34 2-5, while Hahn could do no better than 4.35 3-5. The half-milers have also been sent their distance in the neighborhood of 2.10 but nothing remarkable has resulted.

Minnesota Today.
Minnesota goes against the Varsity on the diamond this afternoon. The visitors continued their record of defeats yesterday by allowing Beloit to walk away with them. Their best batteries were tried with but small success and the game, which was a slugging match on both sides, was lost by the score of fourteen to eight. Freeman will be in the box today against Wisconsin and his effective twirling aided by the heavy hitting of Plymot, Cameron, Allen and Metcalf should give the locals a stiff proposition to overcome. Considering all conditions, the Varsity should win if they are able to keep on their feet, although the final score may be decidedly close.

Hard to Get Jurors.
The team chosen to debate Iowa on the tenth of next May, have their debates all written and are now committing them to memory. So far only one juror has been secured, Professor Bogost of Oberlin. Wisconsin has chosen Professor Whigmore of Northwestern law school from the list submitted by Iowa but he has not yet consented to serve. The third member of the jury must be chosen by Iowa from Wisconsin's list.

Transfer Beloit Game.

Owing to the close proximity of the three big games this week the management has decided to shift the game scheduled with Beloit tomorrow to the latter's grounds in Beloit. A round-trip fare of \$1.90 will probably be secured and as many as possible are urged to go down and cheer on the home team.

The Congregationalists are fully as strong as ever and should give Wisconsin's aggregation a most awful scare. Although the season is still early, they have met nearly all of the strong teams of the western colleges and with the exception of Chicago, have vanquished them. The Upper Iowa team which downed Wisconsin in such a snappy style, were but a full lunch for Beloit's heavy hitters. Adkins, who has pitched for them almost from time immemorial, is throwing remarkably well and it requires a team with optics like the proverbial eagle's to touch him for safe hits. Cronkhite, the speedy centerfielder, is one of their surest batters and may generally be counted on for several sure ones. The Brown brothers holding down second bag and shortstop, are also good in stick work, while Strothers, the little colored boy who acts as backstop, can generally be counted on to hit the ball when needed. Merrill, Beloit's all-around athlete, is a sure batter, he making one of the three three-baggers of yesterday's game. Mathews who won against Beloit last year, will probably do the twirling for Wisconsin tomorrow and with respectable support should at least hold his opponents down to a low score.

Considering the fact that the game will be played on Beloit's home grounds it is extremely doubtful whether Wisconsin will win and indeed the team unless aided by the whims of fate, will have to put up a better article of ball than it has at any other time this year in order to make even a creditable showing.

The High School students, especially those on the Lake Breeze, were greatly pleased by the honor recently conferred upon our paper, it being one of the three High School publications filed at the State Historical Library at Madison. For some time it has been the custom of the Daily Cardinal to place its exchanges in the periodical room of the library. Since the number thus received has become very large it has been limited to the best and of this number only three are high school publications; the Lake Breeze is one of them. The students appreciate this compliment paid to their paper, and it encourages the staff to continue their efforts to make the Lake Breeze worthy of the

HISTORY OF PHYSICAL CULTURE.

Dr. Elsom Closes Freshman Gymnastics with a Lecture.

Dr. J. C. Elsom made a fitting close to the freshman gymnastic work for the year yesterday afternoon by telling of the history of physical culture. The lecture was illustrated by a large number of views of athletes and gymnasiums. Dr. Elsom said, that while the Greeks prided themselves on their athletic ability, they did not keep up their training. During the middle ages physical culture was unheard of, in fact the term physical culture would not be understood. This was true even fifty years ago. The great progress in popularity of athletics is comparatively recent.

The gymnasium is a feature of importance in the modern college. The training of the mind and the training of the body should go hand in hand.

The body cannot be neglected with impunity and all exercise should be taken for development, that is to say, health. There should be a gymnasium in every public school, especially so in the large cities where a great majority of the pupils receive no exercise at home. Very often a person's mind is affected by the condition of his body. On the healthy condition of the body depends the fruitful product of the mind.

Among the illustrations was a picture of the old gymnasium at Pompeii. Other illustrations were of the modern gymnasiums at Princeton, Columbia, Harvard, Cornell, Michigan, Minnesota, Nebraska and finally Wisconsin. Also many of the athletic scenes were interesting as they were nearer home. Among them were scenes of Wisconsin crews and track teams.

In conclusion Dr. Elsom stated that the time of life in which we can use athletic training to an advantage is in our youth and that the most important possession which a person can have is health.

Prof. Kehl's dancing class meets every Tuesday evening. Private lessons to suit pupils. Finest dancing floor in the city. Hall to let to private parties. Fine bowling alleys in connection.

THE
13th Annual Session
OF THE

Dept. of Medicine,

University of Minnesota.

Course of study, four years of eight and one half months.

The first two years are devoted to the fundamental laboratory studies; the last two years to the essentially clinical branches. The clinical opportunities of the hospitals and dispensaries of Minneapolis and St. Paul are at the disposal of the College of Medicine and Surgery. The medical buildings are situated upon the University Campus.

For further information, address Dr. Parks Ritchie, Dean.

UNIVERSITY OF MINNESOTA,
MINNEAPOLIS, MINN.

CHANGE OF LOCATION.

We are now situated at 215 State Street with everything new and up-to-date. The quality of our work is our best argument for permanent trade.

J. L. OSTIN, Tailor.
